25 the park over in Pinellas County.

1 SENATOR GAETZ: Okay. Representing the
2 ACLU, and you are recognized, sir.

3 MR. PHILLIPPY: Yes, and I don't -- I --
4 first of all, Mike Pheneger, the President of
5 the ACLU of Florida, has already spoken today,
6 so I don't want to steal his thunder.

7 I particularly like the gentleman before
8 us, okay, before me. A 14-year-old to do that
9 kind of work with his family, I think that is
10 the kind of thing we need in the future.

11 One of the things that I am concerned
12 about -- and, again, let me give the ACLU line,
13 and first we believe in Amendments 5 and 6 as
14 need to be enforced, and I also believe that
15 the timelines need to be relevant and you need
16 to work on those, and I think that conflict of
17 interest need to be avoided.

18 One of the reasons that I am involved and
19 have been involved in the ACLU since 1988 is
20 because I really couldn't find that I was
21 really politically involved. I wanted to be
22 just kind of involved in making things fair for
23 everybody and making certain people have the
24 right to speech, okay. That is -- free speech
25 is very important to me. So I am -- I am --

1 congratulate you for doing this speech, but --
2 this listening, but I am concerned about the
3 fairness.

4 One of the things that I have in my
5 background and currently doing, I work for the
6 Supervisor of Elections two or three days a
7 year as a clerk in my own district. I also am
8 involved in -- in doing some things in the
9 schools that I think are important, too.

10 So we -- these are wonderful
11 Representatives, and everyone here has gathered
12 here to talk about redistricting, which is all
13 about fairness and getting people involved in
14 their own representation, in governing
15 themselves. And I just encourage you to
16 continue to -- the long term is how does
17 democracy work, how effective is everyone's
18 involvement in democracy, and I just don't
19 think that some of the things that you are
20 doing, although I hope that you are good
21 intentioned, and I am not a cynic like some of
22 the others, I believe that most of you have
23 good intentions, but I believe that you need to
24 think about the big picture. The big picture
25 is how does democracy work and how much are

1 people involved so that they will be part --
2 feel part of the process.

3 Thank you very much.

4 SENATOR GAETZ: Thank you so much, sir.

5 And next, Victor DiMaio, Mr. DiMaio,
6 representing the Hillsborough County Democratic
7 Hispanic Caucus, and you are recognized, sir.
8 Thanks for coming tonight.

9 MR. DiMAIO: Thank you, Mr. Chairman.
10 Chairman Gaetz, Chairman Weatherford, Senators
11 and Representatives, my name is Victor DiMaio,
12 I am president of the Hillsborough County
13 Hispanic Democratic Caucus, and one of the
14 things I am very proud of -- by the way,
15 welcome to District 58, which is the district I
16 have lived in my whole life. This district was
17 represented by state -- started when it was
18 first formed by State Representative Eldon
19 Martinez, who had the district for almost 23
20 years, after that, State Representative Deborah
21 Tamargo, who is actually in the audience
22 tonight with us, and after that, Bob Enriquez
23 and then Michael Scionti and then
24 Representative Cruz. So we have a long line of
25 Hispanic Representatives here, and we are

1 basically here because we want to keep it that
2 way. Our district that we drew -- my
3 Vice-Chairman, Chris Cano, was up here earlier,
4 and he presented a map, which was e-mailed to
5 the committee. We worked with a group called
6 LatinoJustice in New York with a professional
7 demographer, and we tried to keep the district,
8 which is what the amendments are for, is
9 contiguous, it follows the boundaries, and the
10 neighborhoods which you want to keep compact,
11 and we would like for you to take that under
12 consideration. We have worked very hard for
13 many years to, you know, keep our culture and
14 our community together, and we would just like
15 to keep the respect that we would like to
16 continue on with the continuity of the
17 district.

18 We would like to also make a suggestion or
19 recommendation, because we got together with
20 about 24 other groups here in Hillsborough
21 County for the first time in the history of our
22 county to fight for a county commission seat.
23 We've stayed together for this redistricting
24 issue. We would like to see if there is anyway
25 possible -- we are actually working with a

1 demographer, we may work on a Senate district
2 and a congressional district as well for a
3 Hispanic seat.

4 Just as a reminder, there is a famous case
5 in 1994, it was called DeGrande versus Johnson,
6 and at that time, the Legislature was
7 controlled by the Democrats, and DeGrande, who
8 represented the Republican party, fought the
9 Democrats at the time because -- as you
10 remember, when I mentioned Eldon Martinez, he
11 was at one time the only Hispanic
12 Representative for the entire State of Florida.
13 There was no other Hispanic Representatives in
14 the state.

15 SENATOR GAETZ: And could I ask you to
16 conclude just out of respect for those behind
17 you?

18 MR. DiMAIO: Yes, sir.

19 But that is what we are asking for. We
20 are asking for -- to respect the Hispanic
21 community, keep our -- keep Representative
22 Cruz's district intact and look for a district
23 that she might be able to advance to later on
24 as a Senator or a Congress lady. Thank you
25 very much.

1 SENATOR GAETZ: Thank you, sir. We really
2 appreciate your comments. And I apologize to
3 this next individual, first because I didn't
4 give this person a heads-up, and secondly,
5 because I know I am going to butcher the name.
6 Ercilia Albistu. Ercilia Albistu, are you
7 here? Well, you got a round of applause
8 anyhow.

9 Joe Affronti with the City of Temple
10 Terrace. Joe? Thank you for coming. And
11 following Joe's testimony, Joan Alagood and --
12 just a moment, please -- and then Deborah
13 Tamargo.

14 MAYOR AFFRONTI: Thank you very much,
15 legislators, for being here.

16 SENATOR GAETZ: Mr. Mayor? You are the
17 Mayor of Temple Terrace?

18 MAYOR AFFRONTI: Yes, I am.

19 SENATOR GAETZ: Wow. We thank you for
20 being here.

21 MAYOR AFFRONTI: Thank you.

22 SENATOR GAETZ: Thanks for your service to
23 the community.

24 MAYOR AFFRONTI: Thank you.

25 Temple Terrace has about 25,000 residents,

1 which is a very diverse community. There is no
2 one political party that is a majority in
3 Temple Terrace. So what I am here to ask is
4 that we keep Temple Terrace the way it is.

5 We have -- we have been very privileged to
6 have three U.S. Representatives in Temple
7 Terrace, District 9, District 11 and District
8 12, and because of that, we are in the process
9 now of a \$160 million redevelopment,
10 \$160 million, and during these times. And it
11 was because of the support that we have
12 garnered from our Representatives, and also
13 District 60 for the Florida House and District
14 12 for the Senate.

15 So we would appreciate keeping things
16 intact as they are for Temple Terrace. We love
17 the representation that we got, and we hope
18 that you will consider leaving it that way.

19 SENATOR GAETZ: Thank you, Mr. Mayor, and
20 your Senator Joyner knew exactly who you were,
21 and she was finishing your sentences in my ear.
22 So she is on top of this issue, believe me.

23 Joan Alagood, and following Ms. Alagood,
24 Deborah Tamargo, and then on deck, please,
25 Lydia Medrano.

1 Ms. Alagood, thank you for coming, and you
2 are recognized.

3 MS. ALAGOOD: And thank you, Senator, and
4 thank you, Representatives, for hearing us out
5 and for listening all night. And I have been
6 watching, because I went to one hearing like
7 this with the county commission, and there was
8 a guy on his Blackberry all night, so I have
9 been looking to see and I have been seeing some
10 attention here. This is a celebration --

11 SENATOR GAETZ: We are afraid of the
12 woodshed.

13 MS. ALAGOOD: -- of freedom and democracy
14 and personal responsibility, which is why I
15 drove here from the south end of
16 Valrico tonight. There are 40 of you here
17 listening to one of me, and that is quite an
18 honor.

19 The tool on-line is quite clear, as
20 evidenced by the 13-year-olds who can use it.
21 What is wrong with the rest of us? And he has
22 an opportunity to present that to you and for
23 you to take it into consideration, and I do
24 agree with the other folks that have said give
25 us some time after the -- you know, several

1 maps are out for us to comment again.

2 I would ask you to listen to the voters,
3 to keep the districts clear and compact. I,
4 too, helped work in an election campaign where
5 I went from Temple Terrace to Manatee County to
6 south St. Pete, and it was a little ridiculous.
7 I mean, I want contiguous lines and fair lines.

8 Now, James Madison didn't have a computer,
9 but we do, so I also ask you to avail
10 yourselves of the technology to make this work
11 better than what they could have done in those
12 days. Keep it fair, real and simple.

13 However, I want to make one side comment
14 about something ironic here, and that is the
15 folks that are getting up and saying, you know,
16 5 and 6, 5 and 6, listen to 5 and 6. These are
17 the same people who went -- when Nancy Pelosi
18 was saying elections have consequences and read
19 the bill after it's been written, you know,
20 give us a break. You can't say that in -- in a
21 national election. Okay. That is so. All
22 right.

23 SENATOR GAETZ: I think your time is up,
24 ma'am.

25 MS. ALAGOOD: Thank you, sir, appreciate

1 it.

2 SENATOR GAETZ: Thank you so much.

3 Next is Deborah Tamargo, please, and
4 following Ms. Tamargo is Lydia Medrano with the
5 LULAC of Florida, and then Gary Dolgin, I think
6 it is D-o-l-g-i-n. If I mispronounced that, I
7 apologize.

8 Deborah, thanks for coming, and you are
9 recognized.

10 MS. TAMARGO: Senator Gaetz and Senator
11 Weatherford, Chairmen, Senators and
12 Representatives, welcome to my hometown. I am
13 a second-generation Tampa native, and so I have
14 been through a few redistrictings and I have a
15 couple of comments to share with you this
16 evening.

17 One comment is regarding the listening.
18 My good teachers and my great parents taught me
19 to listen first, that that was the smart thing
20 to do, listen, assess and then act. So I want
21 to compliment you on being what my parents and
22 my teachers would have called smart.

23 The second point I would like to make is I
24 think I have heard a lot of very disingenuous
25 comments this evening. Obviously, the Fair

1 Districts amendments had a great campaign, but
2 what I think they failed to do was really
3 explain what it is that you are tasked with
4 doing. So I do understand that you have a
5 difficult task, and part of it is that
6 understanding. There appears to me in just
7 reading, without being an attorney, that there
8 may be some conflict with the Voter Rights Act
9 and with pre-clearance, so that is a very
10 difficult issue. It is not as easy as going to
11 the Webster's Dictionary and finding a few
12 definitions and then producing the maps. And I
13 will tell those of you who that are not from
14 Hillsborough County, that our county
15 commissioners did just that, they drew their
16 maps and they presented them to the public, and
17 guess what? The public was appalled here in
18 Hillsborough County. So I think it is very
19 disingenuous to tonight tell you that they want
20 to see maps when, in fact, they didn't like it
21 being force-fed by our county commission just a
22 very couple of months ago.

23 So I applaud you, I do feel like this Fair
24 District thing is a little bit of a ruse, and I
25 congratulate you for listening, assessing,

1 acting, and we will have plenty of opportunity
2 to comment again. Thank you.

3 SENATOR GAETZ: Thank you so much,
4 Ms. Tamargo.

5 Lydia Medrano with LULAC, and following
6 Ms. Medrano, Gary, I think it is Dolgin, and
7 then Elizabeth Belcher.

8 You are recognized. Thanks for coming.

9 MS. MEDRANO: Thank you. Good evening.
10 My name is Lydia Medrano, and I am the District
11 Director for LULAC, the League of United Latin
12 American Citizens, and LULAC is a national,
13 nonpartisan civil rights organization. And
14 LULAC, LatinoJustice and other Hispanic
15 organizations in the Tampa Bay area have come
16 together, formed a partnership with the sole
17 purpose of participating in redistricting. So
18 I don't want to hear like one time somebody
19 told me where have you been. So we are here.
20 We are participating.

21 The voter act -- the Voting Rights Act
22 provides protections to minority groups.
23 Hispanic is the largest minority group now in
24 Florida, and I want to speak in support of
25 District 58 that was presented to you before,

1 and Victor also spoke about it, which has
2 51 percent Hispanic population in that
3 district. I hope this information is useful
4 for you. Thank you.

5 SENATOR GAETZ: Thank you very much, Ms.
6 Medrano, and thank you for your group's
7 submission of maps. I think particularly your
8 group has been very, very helpful to us. Thank
9 you so much, ma'am.

10 And next is Gary Dolgin, I believe. Is it
11 Dolgin?

12 MR. DOLGIN: Dolgin.

13 SENATOR GAETZ: Dolgin, I had it right the
14 first time. Thank you very much for coming,
15 and you are recognized, sir.

16 MR. DOLGIN: Good evening, everyone, and I
17 hope that you all --

18 SENATOR GAETZ: Could you pull the mike up
19 just a little bit so everybody can hear you?

20 MR. DOLGIN: My name is Gary Dolgin, and I
21 hope all of you will be inspired by the
22 14-year-old to follow his example and draw some
23 maps.

24 Too much power in one party is a threat to
25 our democracy, whether it is Republican or

1 Democrat. We live in a equal divided state
2 with approximately half Democrats and half
3 Republicans. We elected Barack Obama in 2008,
4 and then turned around and elected Rick Scott
5 in 2010. That is pretty divided. But yet the
6 Legislature is made up of 75 to 80 percent of
7 Republicans right now, and the Senate is --
8 seems to be pretty similar. That doesn't seem
9 right, and when you look at it, it is because
10 of gerrymandering.

11 Talk about District 11 where I live, which
12 is a Democratic district, and the reason it is
13 a Democratic district is because you have areas
14 of Pinellas and Manatee in that district, you
15 have packed all the Democrats in the area into
16 that district so that the surrounding districts
17 can be majority Republican. Now, in
18 California, there is the same complaint that
19 the Republicans have against the Democrats.

20 We have a better democracy if we have
21 competitive districts. If I asked each of you
22 to raise your hand, how many of you had a
23 competitive election last year? You all swore
24 under oath to defend the Constitution of the
25 State. If you all meet your oath, that will

1 mean that some of you will not be reelected.
2 The question is whether you will have the
3 courage to follow that oath and put the
4 interests of the people ahead of your own
5 personal political interests. Thank you very
6 much.

7 SENATOR GAETZ: Thank you so much, sir.
8 And next, Ms. Belcher, thank you for coming
9 tonight and giving of your time, and after your
10 testimony, I believe that Herbert Belcher is
11 speaking, and then after that, Maria Lopez, and
12 then Patrick Mantegia, I think.

13 SENATOR JOYNER: Mantega.

14 SENATOR GAETZ: Mantega. Boy, am I lucky
15 I've got Senator Joyner here.

16 Ms. Belcher, you are recognized, and thank
17 you for sharing your time with us tonight.

18 MS. BELCHER: With all due respect, this
19 is a waste of time and expense for the
20 citizens. Where are the maps? Where are the
21 -- why is the Legislature wasting money on
22 lawsuits when the citizens made it abundantly
23 clear that -- with the Fair Districts amendment
24 that -- what citizens wanted? And why the
25 citizens strongly feel that this is a waste of

1 time is the fact that one of our own local
2 elected officials has apparently left the
3 building.

4 SENATOR GAETZ: Thank you very much, Ms.
5 Belcher. And next we will hear from the other
6 side of the Belcher family, Herbert. You are
7 recognized, sir.

8 MR. BELCHER: Thank you. I am Herbert
9 Belcher. I would just like to say I would like
10 to see Amendments 5 and 6 fully upheld. It is
11 straightforward. Unlike many other people here
12 who are against that, we would definitely
13 appreciate you following it to the law. Thank
14 you.

15 SENATOR GAETZ: Thank you very much,
16 Mr. Belcher. Next, Maria Lopez, Ms. Lopez,
17 representing the Latino Professionals Network.
18 In fact, she is the Director. And then Patrick
19 Mantega and then Sharon Calvert.

20 MS. LOPEZ: Good afternoon and welcome.
21 My name is Maria Lopez, Director of Latino
22 Professionals Network. I am part of the
23 coalition that the Hispanic community has
24 formed.

25 I have a sense of disappointment, and it

1 has come from previous hearings regarding
2 redistricting. In the hopes that you, besides
3 hearing, you actually listen, we are here today
4 as well, but not only on behalf of the
5 Hispanics, but on behalf of everybody, because
6 we feel that we have not been heard, no one was
7 heard previously, and we hope that today we
8 are.

9 We sensed also that there were many bones
10 thrown to us, and those were that since we were
11 everywhere in the areas, in the regions, then
12 we can grow, and they didn't recognize --
13 didn't recognize the natural increase and
14 concentration of Hispanics, so they didn't
15 follow that line. They also said that we have
16 gone very far and that we should be happy for
17 not having our rights recognized. That is what
18 we read between lines of what happened
19 afterwards. But not only us, there were other
20 communities that were not heard at all.

21 We are as Hispanics an important factor in
22 the demographic change since in the last ten
23 years, we have grown 70 percent. It is not a
24 small percent, it is 70 percent. And we feel
25 that there is an effort to go contrary to that

1 growth. So we would like to -- that you
2 consider keeping District 58 intact and you
3 follow the natural ties that the communities
4 have formed, and not the opposites.

5 SENATOR GAETZ: May I ask you to
6 summarize, please, ma'am?

7 MS. LOPEZ: That is the summary, keep the
8 58 intact.

9 SENATOR GAETZ: Great. Thank you.

10 MS. LOPEZ: Thank you. And then give us
11 another pat on the back so we should be happy
12 for not having our rights recognized.

13 SENATOR GAETZ: Thank you so much, ma'am.
14 Next we will hear from Patrick Mantega, I am
15 getting it right here thanks to Senator Joyner,
16 and then Sharon Calvert, and then we will hear
17 from Gary Gibbons.

18 Patrick Mantega, thank you so much.

19 MR. MANTEGA: Thank you. I am here to ask
20 that you honor Florida's diversity. I believe
21 that with a little extra effort, the
22 Legislature can make compact, continuous
23 districts that respect concentrations of
24 Hispanic and black minorities.

25 The Hispanic community shares a mostly

1 common heritage, culture and cuisine. They
2 frequent the same bodegas and sandwich shops.
3 Hispanic community boundaries should be as
4 important in the redistricting process as
5 municipal and subdivision boundaries.

6 The census shows that Hispanics are the
7 state's largest minority population, but the
8 population of Hispanic elected officials falls
9 far short of our population percentage. No
10 prominent Hispanic congressional district in
11 central or north Florida, no prominent Hispanic
12 State Senate district in central or north
13 Florida. The only prominently Hispanic House
14 district on the west coast of Florida is where
15 we currently sit in District 58.

16 Florida's Hispanic population has grown by
17 leaps and bounds, but, sadly, the number of
18 elected officials that share Hispanic heritage,
19 culture and the love of cafe con leche have
20 not. Please rectify this problem.

21 SENATOR GAETZ: Thank you very much, sir.
22 Next, Sharon Calvert, please, Ms. Calvert, and
23 then we will hear from Gary Gibbons and then we
24 will hear from Jane Gibbons.

25 Ms. Calvert, thank you for coming.

1 MS. CALVERT: Well, thank you, and I
2 appreciate having this opportunity, you coming
3 to Hillsborough County.

4 First of all, I would like to reiterate
5 again that those who were looking for a map
6 were given tools and opportunities to draw a
7 map and present it, so they could have had a
8 map.

9 I would like to see the maps created along
10 natural boundaries as much as possible as those
11 who reside, those voters, within those natural
12 communities and those natural boundaries share
13 commonalities, and voters within those natural
14 boundaries would feel more part of a process
15 that would foster better voter participation.
16 Thank you.

17 SENATOR GAETZ: Thank you very much,
18 ma'am. Our next speaker is Gary Gibbons, and
19 then we will hear from Jane Gibbons and then
20 from John Russell, if you will be on deck.
21 Mr. Gibbons.

22 MR. GIBBONS: Hi. I believe this is the
23 20th hearing or so that you all have had, and
24 at each one the people have spoken just as they
25 spoke in November, and you aren't listening.

1 At each one of these hearings, they have asked
2 for maps. It is your constitutional duty to
3 prepare the maps, it is not mine. We elected
4 you. You work for me. Make the maps.

5 Now, believe it or not, some people have
6 characterized these hearings as a game, and I
7 have wondered what that game might be. Is it
8 the old 60s TV show, "I've Got a Secret"? No,
9 because on that one, the contestants had to
10 answer questions, and in this case, y'all have
11 a gag order that prevents you from answering
12 any of the questions. Is it charades where
13 there's a lot of acting and people trying to
14 guess what is going on? Maybe. Is it
15 Pictionary? I don't think so. If so, we would
16 have maps. But what I am really afraid about
17 is that what this is really about is the old
18 game of Monopoly. There are some people who
19 say that you want to control the districts, you
20 want to ensure your reelection, you want to
21 keep the districts a secret until the very last
22 second in order to prevent anyone -- any
23 opposing candidates from running against you,
24 and that you will do whatever it takes to stay
25 in office.

1 Now, I hope that is not the case, and I
2 want you to remember the oath that you took.
3 Each of you took an oath to uphold the
4 Constitution of the State of Florida and the
5 Constitution of the United States and --

6 SENATOR GAETZ: And could you --

7 MR. GIBBONS: -- Amendments 5 and 6 --

8 SENATOR GAETZ: -- wrap it up?

9 MR. GIBBONS: -- are in the Florida
10 Constitution.

11 SENATOR GAETZ: We will have to do Truth
12 or Consequences if you don't wrap it up.

13 MR. GIBBONS: I want you to remember that
14 when any of you allow taxpayer dollars to be
15 used in lawsuits to attempt to invalidate
16 Amendments 5 and 6, you are violating your
17 oath.

18 SENATOR GAETZ: Thank you, Mr. Gibbons.
19 And now, having heard from Mr. Gibbons, we will
20 hear from Mrs. Gibbons and see if we can slip a
21 cigarette paper in any way between their
22 comments.

23 You are recognized. Thank you for coming.

24 MS. GIBBONS: Hello, I am Jane Gibbons,
25 and I would actually like to share a phone

1 conversation that I had earlier today with a
2 friend of mine: "Hi, Farah, I would like to
3 talk to you, but I'm going to have to be
4 getting off soon because I am going to a
5 meeting."

6 "Where are you going?"

7 "I am going to Jefferson High School."

8 "Why are you going to Jefferson?"

9 "I am going to a hearing about
10 redistricting. Do you remember all those
11 petitions we got signed from all those people,
12 how we were going to get that gerrymandering
13 ended and we were going to have more sensible
14 districts and we were going to have competitive
15 elections? Well, they are trying to keep all
16 those changes from happening."

17 "What do you mean?"

18 "Well, they are being very secretive, for
19 one thing. They refuse to show us any of the
20 maps, they are not answering any questions at
21 any of the hearings. The Republican Speaker of
22 the House has actually put a gag order on all
23 the GOP members."

24 "Well, that is not what we voted for."

25 "No, it isn't, but it gets worse. The

1 House has set aside \$30 million, the Senate has
2 set aside \$9 million to spend in court to fight
3 redistricting."

4 "Don't tell me they are spending taxpayer
5 money to do this."

6 "Oh, they sure are. We didn't vote for
7 that either."

8 "I can't believe they are going against
9 the will of the voters. Didn't that pass by a
10 large margin?"

11 "Oh, yeah, 63 percent. The whole
12 situation is terrible. You know what? My
13 grandmother had a word for stuff like this and
14 for people like this. She called them crooked.
15 And you know what? My grandmother was a really
16 smart lady. When she thought somebody was
17 crooked or something was crooked, she was
18 usually right."

19 Thank you.

20 SENATOR GAETZ: Thank you, and thanks to
21 your grandmother. And I hope you will stay to
22 the end of the hearing to find out if some of
23 the things that you and Vera talked about were
24 actually true.

25 John Russell, and Mr. Russell, you have

1 two minutes.

2 MR. RUSSELL: Ladies and gentlemen, happy
3 to be here again. You know, I have heard some
4 people make some very good comments here.
5 Whether they will be put to use, I certainly
6 have my doubts.

7 I would like to talk about transparency.
8 Transparency is a word that has been used much,
9 including e-mails that I've received signed by
10 Mr. Weatherford. And what is transparency? Is
11 transparency allowing the public to come up and
12 give their commentary in this -- with respect
13 to this project? I don't think so. What is
14 transparency in the context of doing this?

15 We know that this redistricting, whatever
16 it ends up being, is going to be done on a
17 computer. Well, if it is done on a computer,
18 you have to put some information into the
19 computer. I talked about this before when I
20 saw you guys in Wesley Chapel. And so real
21 transparency would be when you put in front of
22 the public exactly the parameters that are
23 going to be put into program the computer,
24 okay, to program the computer and what it is
25 going to draw, because nobody's drawing these

1 things by hand, this is not a graphic arts
2 exercise. And, you know, we wouldn't even need
3 to have these meetings if there was any
4 integrity in this process. We all know it is
5 about money, we all know everyone is appointed
6 here, including the Democrats.

7 The Democrats should be standing up and
8 screaming, but they are such a minority, 70/30.
9 And, you know, it is funny that Amendments 5
10 and 6 passed by 63 percent of the vote. That
11 is typical for a gerrymandered election. And
12 it is pretty funny when a friend over here
13 whose name I forget stood up, raised his
14 hand -- when he said who had a competitive
15 election or didn't, he raised his hand and said
16 he had a competitive election. I know that was
17 like 60/40, so --

18 SENATOR GAETZ: Mr. Russell, Mr. Russell,
19 bring it in for a landing now.

20 MR. RUSSELL: I am bringing it in for a
21 landing.

22 Bottom line is, bottom line is this is a
23 dog and pony show. It is the fig leaf, as you
24 referred to in the last one in Wesley Chapel,
25 and you are doing a good job as a blocking back

1 for Mr. Weatherford so he can continue his
2 career as a politician. Thank you very much.

3 SENATOR GAETZ: Thank you, Mr. Russell.
4 It has always been my ambition to be a blocking
5 back for such a good athlete.

6 Gail Parsons. Gail Parsons?

7 Susan McMillan with Protect Our Waters,
8 and then Boris Viteri. Ms. McMillan, I'm sorry
9 I didn't give you a long enough heads-up.
10 After Mr. Viteri, then we have Tatiana Denson.

11 You are recognized.

12 MS. McMILLAN: Thank you. I am not going
13 to speak on behalf of Protect Our Waters. I am
14 just going to speak on behalf of myself as a
15 citizen.

16 I have been a Republican for almost my
17 entire life, find myself falling sometimes with
18 the Democrats, sometimes with Republicans. I
19 am a mother of three. I am a small business
20 owner. I run a small agency for people who are
21 offenders of domestic violence and substance
22 abuse, and I see firsthand the effects of drugs
23 and alcohol on our youth and the effects of
24 budgets cuts, and I have all kinds of feelings
25 about it, but this is not what we are here to

1 talk about.

2 The reason I am telling you this is
3 because this amendment passed with 63 percent
4 of the vote, and a lot of those people were
5 Republicans and Independents and people
6 similarly minded to me. So I am one of these
7 people, I want you to hear from me. I should
8 be home with my kids tonight, but I am here,
9 and I want to let you know that I don't want to
10 live in a gerrymandered, rigged state. I want
11 my kids to have a state that they can count on,
12 politics that mean something. I want them to
13 feel like their vote means something. And if
14 you guys have maps and you wait until the very
15 last second to show it to the public, that
16 really raises a lot of suspicions and leaves a
17 bad taste in the mouth of everybody who wants
18 to believe in our government. And mistrust in
19 government is growing, and you guys have the
20 power to do something about that and to restore
21 some trust. So I am going to ask you to think
22 about that when you are making your decisions.

23 SENATOR GAETZ: Thank you, and thanks for
24 taking time from your family tonight.

25 Boris Viteri? Not so?

1 MS. PARSONS: Gail Parsons. I don't know
2 if you thought the former speaker was Gail --

3 SENATOR GAETZ: Oh, yes, Ms. Parsons, we
4 did call you.

5 MS. PARSONS: Yes, you did.

6 SENATOR GAETZ: Please, you are
7 recognized.

8 MS. PARSONS: Thank you. I am a member
9 of -- or a citizen of Congressional District 9
10 in northwest Hillsborough County, Odessa area,
11 and that obviously is one district that is a
12 gerrymandered district. It is north Pinellas,
13 east Hills- -- or east Pasco and all of north
14 Hillsborough, all the way down to Plant City
15 and even below Plant City. I would like to see
16 that type of gerrymandering stopped, fixed,
17 when you do your redistricting. There's others
18 also, but this is the one that I live in.
19 Let's see that fixed. Let's see contiguous --
20 if there is one word that I would like to see,
21 when redistricting is contiguous, contiguous,
22 contiguous. Thank you.

23 SENATOR GAETZ: Thank you very much. That
24 is exactly the kind of testimony we need.

25 And Boris, are you here? Is it Viteli?

1 MR. VITERI: Viteri.

2 SENATOR GAETZ: Viteri, I'm sorry. You
3 are recognized, and we are delighted to hear
4 your testimony.

5 Next is Tatiana Denson, and then after
6 Tatiana will be -- no, we have heard from her,
7 I'm sorry -- will be Dr. Carolyn Collins with
8 the NAACP.

9 You have the floor, please.

10 MR. VITERI: Thank you. Welcome to Tampa.
11 I am born and raised here in Tampa. And the
12 previous lady who was up here who said she took
13 time -- she came here instead of being with her
14 kids or family at home, she took the words
15 right out of my mouth.

16 I used to be a Democrat. I am now a
17 Republican. However, I did vote for this --
18 for this amendment. And, obviously, if the
19 amendment got over 60 percent of the votes,
20 that means Republicans, Independents and
21 Democrats voted for it. So it is important
22 that you consider that.

23 I am a swing voter, just like she is,
24 because I heard her say she sometimes agrees
25 with some things on the other side, I am on the

1 opposite side, and I can agree with things on
2 some sides, too, because at the end, it is all
3 about all of us, it is not just about one
4 specific party or one specific community.

5 And since you are in Tampa, I am here to
6 speak about U.S. District 11, congressional
7 district. I've heard a lot of people talk
8 about statewide Representatives and --
9 statewide districts. I am here to talk about
10 the congressional district.

11 This congressional district is
12 gerrymandered. There should be no reason why a
13 Representative that represents Tampa or
14 Hillsborough County should have to go all the
15 way to Pinellas County and speak with voters in
16 St. Petersburg or go to down to Manatee County
17 and speak to voters in Bradenton when they have
18 no connection to us here in Hillsborough
19 County. And, trust me, I will be in Pinellas
20 County tomorrow discussing Bill Young's
21 district, because it is the same situation.

22 This district here in Tampa and this
23 county should be more representative of
24 Hillsborough County. Where are all the
25 northern and western suburbs and eastern

1 suburbs of Tampa? They are not included in
2 this congressional district. You are missing
3 Westchase, you are missing Carrollwood, you are
4 missing Northdale, you are missing Brandon,
5 those are all suburbs of Tampa that should be
6 part of U.S. District 11. And St. Petersburg
7 and Bradenton are not part of the Tampa area.
8 They are part of Pinellas and Manatee. Maybe
9 one could go down to Vern Buchanan, the other
10 one can go the other way to Bill Young. But
11 please keep that into consideration if you want
12 compact and continuous districts, that is the
13 way they should be, because I have walked the
14 district, and there's no way I should have to
15 go all across a bridge to speak to voters over
16 there that have nothing in common with the
17 voters on this side, and vice-versa.

18 SENATOR GAETZ: Thank you. Thank you
19 very, very much.

20 MR. VITERI: Thank you for your time.

21 SENATOR GAETZ: Tatiana Denson.

22 MS. DENSON: Good evening. My name is
23 Tatiana Denson, and I am a resident and current
24 candidate for Florida House of Representatives
25 District 59. Last week during a redistricting

1 informational meeting by our current
2 Representative, Representative Betty Reed, we
3 were told that District 59 was short 15,000
4 residents and that was needed to ensure a seat
5 is maintained in the House.

6 The one request I have is please do not
7 put our district with one that does not have
8 the same needs as our own. And let's be
9 honest, human nature is to want things to work
10 out in one's own good, or for one's own good,
11 regardless of party affiliation. But what
12 about the good of the people? No offense to
13 anyone seated, but the 14-year-old presentation
14 is proof why we need more young people
15 represented in legislation, because we are more
16 flexible and innovative in our views. People
17 need officials who will get to the business of
18 doing what they were hired for, and that is to
19 serve the people. Thank you.

20 REPRESENTATIVE WEATHERFORD: Thank you.
21 Thank you, Tatiana. Next up we have
22 Dr. Carolyn Collins with the NAACP, and
23 following Ms. Collins is Russell Patterson.

24 DR. COLLINS: Good evening and thank you.
25 Representing the Hillsborough County branch

1 NAACP, I would like to just leave a couple of
2 basic principles that we would love for you to
3 consider, and we would like to start those off
4 by ensuring one vote for each individual, one
5 person, one vote.

6 We also would like for you to stick with
7 the concept you've constantly heard,
8 transparency, fairness, compliance with the
9 Voting Right Acts with equal protection.

10 While we look at redistricting as a sense
11 of common interest for those and the
12 individual, we want to also make sure that the
13 reference is made to Section 20 and 21 of the
14 Florida Constitution.

15 The maps, of course, by precincts, we
16 would love to see maps that are drawn that not
17 just deal with the increase in population, but
18 would seriously address the voting age
19 population. If you look at the 2010 census,
20 the results tell us that 51 percent of the
21 growth in the United States of America was in
22 the state of Florida, that 51 percent was with
23 foreign-born African-Americans and Hispanics.
24 We want to make sure that there is fair
25 transparency, equal representation, in those

1 areas.

2 I think sufficient information has been
3 given by Amendment 6. We have participated in
4 the Board of County Commissioners' maps. We
5 are here with you and with the school district
6 at the same time. We are asking not you, we
7 have seen it on your website, the maps, we have
8 tried it, we even had a workshop two weeks ago
9 to even try it. What we are saying is the maps
10 are necessary, so, finally, when you look at
11 the absence of the maps, we are asking that
12 once the maps are drawn, that the community at
13 large, state of Florida, have an opportunity to
14 look.

15 Finally, I would like to clearly say one
16 person, one vote, in summary, no packing, no
17 cracking, no stacking, compactness,
18 contiguousness, and district without seeing the
19 gerrymandering and clearly it is broken.

20 SENATOR GAETZ: Thank you.

21 DR. COLLINS: We ask that you fix it.

22 SENATOR GAETZ: Thank you very much,
23 ma'am. And our final speaker tonight, we are
24 sorry we couldn't get to everybody, but we will
25 have gotten to 93 speakers, then we are going

1 to find out if we have a gag rule.

2 Russell Patterson, Mr. Patterson.

3 MR. PATTERSON: I feel honored. Like many
4 folks, I came to Florida from another state and
5 I live here in Florida by choice, and I moved
6 here because I think it is one of the greatest
7 states in the nation. In the state I grew up
8 in, we used to make fun of other states, and
9 one of the states we made fun of as being kind
10 of backwards is Louisiana. Louisiana is one of
11 the states that's pretty much finished their
12 redistricting process. Let's get on the ball.
13 Let's be Florida, not Flori-duh.

14 SENATOR GAETZ: That is a great way to
15 end. And, Mr. Patterson, I hope you will stay
16 for the comments, because we are going to
17 specifically answer the question about
18 Louisiana. That is a great way to start.

19 Let's find out if we have a gag rule by
20 asking if there are any members of the House of
21 Representatives, Democrats or Republicans, who
22 wish to make any comments, ask or answer any
23 questions or offer any recommendations tonight?

24 Representative Adkins, you are recognized.

25 REPRESENTATIVE ADKINS: Thank you,

1 Mr. Chairman. I just wanted to reflect on what
2 I heard from several individuals tonight,
3 including I believe it was the Supervisor of
4 Elections, and they referenced keeping specific
5 neighborhoods together. And, in fact, I think
6 one person even said that was the reason why he
7 voted for 5 and 6. So I just wanted to make
8 sure that -- I found those comments very
9 helpful. And the supervisor also referred to
10 the Voting Tabulation Districts and the
11 importance of those, so I will be keeping those
12 comments in mind as we move forward, but I
13 found those comments very, very helpful
14 tonight. Thank you.

15 SENATOR GAETZ: Thank you, Representative.
16 Other members of the House? Over there on the
17 very, very end. We will get to you,
18 Representative Fresen, I'm sorry.

19 REPRESENTATIVE REED: I am Representative
20 Betty Reed, District 59. I just want to say
21 thank you to each and every one of you for
22 being here tonight and for speaking. And I
23 know that several people said, "I don't know if
24 you are listening or not." Well, this is being
25 recorded. So anyone that is not listening have

1 the opportunity to go back and hear this all
2 over again.

3 Thank you. Thank you so much for being
4 here.

5 SENATOR GAETZ: Thank you very much. And
6 right behind you, Alex.

7 REPRESENTATIVE FRESEN: Thank you so much,
8 Mr. Chair, and I appreciate your indulgence and
9 I will be quick.

10 I just wanted to point out very simply,
11 first of all, thank you all for coming out here
12 tonight, it is always great to be in Tampa, but
13 being a Representative of a majority-minority
14 district, I appreciated the reminder from many
15 of you tonight, including former Representative
16 Tamargo and others, that the Fair Districts
17 amendment, the very one that everybody keeps on
18 talking about here today, prioritized electoral
19 protections for minority communities, amongst
20 other things. And I take those comments made
21 here tonight as a friendly and reasonable
22 suggestion to follow the prioritization of
23 standards as they are actually written in the
24 law, which we have been reminded to do and we
25 are taking as a task very seriously. But that

1 aspect is actually also a part of Fair
2 Districts, with, of course, an adherence to
3 those overarching principles of the federal
4 law. So I say this because while some
5 standards in Florida's new redistricting laws
6 may be discussed more frequently than others,
7 one in particular that was said three times in
8 the closing of a very recent person testifying,
9 it is critical that we, as legislators, always
10 attend to every single aspect of the law and of
11 the Constitution, not just one or two, and that
12 is what makes our task obviously difficult,
13 it's part of the reason why we have asked for
14 your testimony, so that we can figure out how
15 to actually combine all of those standards that
16 are in 5 and 6, not just one or two, and figure
17 out the best and fairest way to draw these
18 districts. So, again, I thank you all for your
19 guidance and appreciate your comments.

20 SENATOR GAETZ: Thank you very much,
21 Representative.

22 Representative Frishe, you are recognized,
23 sir.

24 REPRESENTATIVE FRISHE: Thank you,
25 Mr. Chairman. There were several folks who

1 spoke tonight about compactness and the
2 different ways that it might be applied, and
3 one of the reasons we have these hearings is so
4 we can hear how you view it in your own
5 community, because obviously we don't know
6 every single community in the state. I have,
7 for instance, learned a lot about the Panhandle
8 when I was up there and the communities of
9 interest and how sometimes it is roads and
10 bridges and all that actually are what tie a
11 community together. And I appreciate y'all
12 talking about that, because that is going to be
13 very, very important when we get down to
14 considering the compactness of a district.

15 I happen to represent a district that has
16 numerous bridges in it, because I represent the
17 barrier islands of Pinellas County, and a lot
18 of the mainland also. So I understand how
19 bridges and roads and the geographic features
20 sometimes tie together communities, and they
21 sometimes separate them, too, but usually they
22 tie them together. Thank you.

23 SENATOR GAETZ: Thank you very much,
24 Representative. Any other members of the House
25 wish to make any comments? If not, we will

1 turn to Senators who are here. Members of the
2 Senate wish to make any comments, offer any
3 observations, answer or ask any questions?
4 Senate Joyner.

5 SENATOR JOYNER: Thank you, Senator Gaetz.
6 I just want to thank all of you, the citizens
7 of Hillsborough, Pinellas, Manatee and all of
8 the other counties that are represented here
9 tonight. It is wonderful to have such an
10 outstanding group of citizens participating and
11 expressing their views. So thank you again,
12 and do continue to participate and follow what
13 this Legislature does.

14 SENATOR GAETZ: Thank you, Senator Joyner.
15 Any other comments by members of the Senate?

16 There was one question specifically asked
17 of me. I will try to answer it before I turn
18 to the Speaker Designate. And that was a
19 question about whether or not I had contributed
20 to an organization that opposed Amendments 5
21 and 6. The answer to that question is yes,
22 before the election. Before the election,
23 there were \$12 million contributed, most of it
24 for Amendments 5 and 6, and most of it by folks
25 out of state, but there were a number of folks

1 who contributed money because we thought
2 Amendments 5 and 6 should not be in the
3 Constitution. I was one of those people.
4 However, following Amendment 5 and 6 being
5 added to the Constitution, and following my
6 appointment to this committee, I have
7 contributed nothing to any lawsuit or any
8 action having anything to do with overturning
9 Amendments 5 and 6.

10 It is the ability of every citizen and the
11 right of every citizen to contribute your vote,
12 your walking door to door, your stuffing
13 envelopes, or if you wish to make a financial
14 contribution to or against any cause or any
15 candidate. However, as public servants, once
16 the election is over, we are obligated to
17 uphold the Constitution and the laws of the
18 State of Florida and of the United States, and
19 since that election when Amendments 5 and 6
20 were adopted, I have contributed nothing to any
21 effort to try to upend or to reverse those
22 amendments.

23 Having said that, let me turn to the
24 Speaker Designate. Representative Weatherford
25 has made extensive notes tonight, as have I, as

1 have many members of the committee, and we
2 would like to try to answer some of the factual
3 questions that were raised. Mr. Speaker.

4 REPRESENTATIVE WEATHERFORD: Thank you
5 very much, Mr. Chairman, and ladies and
6 gentlemen, I am going to try to be brief. I
7 know everybody wants to get out of here. We
8 appreciate all the comments that have come
9 forth tonight. We've gotten a lot of great
10 advice, we have had some constructive
11 criticism, we have had some straight-out
12 criticism and we even had an offer to take us
13 to the woodshed, which I thought was unique on
14 this swing. My mother always said, she is the
15 mother of nine children, that spanking is good
16 for the soul, so we are getting our fair share
17 of that.

18 But I would just like to say the diversity
19 of comments that I think we have gotten today
20 has shown us, you know, how complicated this
21 process is, and, frankly, how important it is
22 that we hear from citizens. We heard about the
23 diversity of the county from the east side to
24 the west side, and how one side is more urban
25 and one side has more industrial and

1 agriculture base. We heard -- someone showed
2 us a map of the City of Tampa, and was talking
3 about the geographic boundaries of the City of
4 Tampa and then talking about compactness,
5 almost as if those two almost fall out of line
6 with each other, which they do. And so when
7 you talk about Hillsborough County, you talk
8 about the communities of interest, the
9 geographic boundaries of Hillsborough County,
10 it is very diverse. It is racially diverse, it
11 is geographically diverse, the municipalities
12 are diverse, and I think that is important that
13 we think about that.

14 There was a suggestion, Mr. Chairman, that
15 came about, and I don't have the person's name
16 who mentioned this, but I think this is a
17 tremendous suggestion, and, frankly, in the
18 House, we are going to look at this, and I hope
19 you will consider it in the Senate, they
20 mentioned that when Hillsborough County did
21 their redistricting, they actually proposed six
22 maps and they had different options for people
23 to choose from and for citizens to look at,
24 and, frankly, I think that is a very good idea
25 and something that we should consider going

1 forward. So that got my attention certainly.

2 There was a lady, I want to say this
3 right, Mrs. Morowati -- is that right? I just
4 want to say you get the MVP for tonight. I
5 have not looked at the maps you suggested, but
6 you showed up, you had comments, they were
7 detailed and then you actually had specific
8 suggestions that you gave forth, and I thought
9 that was tremendous and that's the kind of
10 feedback we are looking for. I just want to
11 thank you for doing that.

12 There was -- there were some comments in
13 regard to the maps, and I want to be very
14 clear. Everywhere we go, we hear the same
15 question, where are the maps, show us the maps.
16 And there are some groups that are a little
17 more vocal about that than others.

18 The first thing I want to point out in
19 regard to the maps is this: The Fair Districts
20 Chairwoman came and spoke before a joint
21 committee just like this in Tallahassee made up
22 of House members, Senate members, Democrats and
23 Republicans, and specifically said to the
24 committee, that is recorded and I will give you
25 a copy of it to any person who is in this room,

1 that she would not begin to draw the first map
2 until she heard from the public. This is
3 coming from the Chairperson of Fair Districts.
4 So for everybody who voted for that and
5 supported that cause, the leader of that cause
6 thought it was prudent for the Legislature to
7 listen, to listen first.

8 One of the biggest complaints I hear in
9 this process is that politicians tend to act
10 first and listen later, if they listen at all.
11 And we have made a statement in this process
12 that we are going to listen first. And if that
13 is the worst thing that you can accuse us of
14 doing, I will take it. If the biggest problem
15 I've got is being a listener, I will take that.
16 My mom didn't say that about me when I was a
17 kid, by the way, but I will take it now.

18 The other thing, and I am going to read
19 really quickly, last week in Georgia -- I was
20 just reading about this. Last week in Georgia,
21 the League of Women Voters in Georgia not only
22 prepared and publicized its own redistricting
23 maps, it organized a map fair at the Georgia
24 State Capitol to encourage members of the
25 public to present their own maps. And this

1 quote, "Our goal throughout this process is to
2 ensure that citizens have a choice," said the
3 President of the League of Women Voters of
4 Georgia, "and what better way to do that than
5 bringing people here with their own maps to the
6 Capitol." Interesting how we are hearing a
7 completely different story for the last four
8 hours this evening, Mr. Chairman.

9 Not only that, we had a young man by the
10 name of Graham, and everybody is calling you a
11 14-year-old. You are really 13-and-a-half,
12 right? Thirteen, okay, I thought that. They
13 were giving you credit for that extra year.
14 You look 14. But here is Graham with his
15 little -- with his older sister or younger
16 sister and his family who were able to produce
17 120 maps that we saw right there before us.
18 One student, one sister, one family that was
19 able to do that, and it was tremendous and it
20 was of great support. We are going to look at
21 that, we are going to learn from that, and we
22 have had 48 other maps just like that.

23 Ladies and gentlemen, we are going to have
24 maps. We are going to have maps for you to
25 look at, we are going to have maps to get

1 feedback on, but we are having an opportunity
2 to hear from you first, and I don't see why
3 that is such a bad thing.

4 Next on the timeline, a lot of people
5 talked about the timeline and the fact that we
6 need to speed this process up. One gentleman
7 actually mentioned I think Louisiana as a
8 state, and Lord knows, they have had their
9 challenges over the years, but apparently they
10 have finished the process. Well, I can give
11 you a very easy answer as to why Louisiana and
12 about eight other states have finished the
13 process, because they have elections in three
14 months. They have their elections in off
15 years. So their election is in 2011, not in
16 2012. So for states that you hear like
17 Louisiana and Mississippi and New Jersey and
18 others who are way ahead of us on
19 redistricting, first off, they got their census
20 data way before we did. We were one of the
21 last states, not the last, but one of the last
22 to receive our census data. But they also have
23 elections in November of this year. And so the
24 department -- the Census Bureau gave them their
25 data ahead of time so they could start to draw

1 their maps. I just think that is an important
2 thing to point out.

3 Also in regard to the timeline, the
4 Constitution is very clear, and I said this at
5 the beginning, but I will say it again for
6 clarity. It is very clear that we cannot vote
7 on legislative maps legally until January of
8 2012. That is the soonest we could possibly
9 vote on any map. So what we are doing is we
10 are spending the summer on a listening tour,
11 listening to folks just like you, hundreds of
12 hours of public testimony. Next we are going
13 to spend the fall looking at maps, drawing
14 maps, having the opportunity to debate, having
15 an opportunity for you to debate, to look at
16 maps, but we wanted to listen first. And so we
17 will get through the fall, and when we get into
18 session, I can assure you there will be votes
19 taken on maps on the floor and we will get them
20 out on time. We are very sensitive to the fact
21 that we have to have them done by qualifying.
22 We get it, we get it. And I can assure you,
23 and everyone here can assure you that we are
24 going to get that done.

25 Also, there was mention about the certain

1 dates that I think the -- the one I keep
2 remembering, someone mentioned March that we
3 had to -- we were going to vote in March and
4 that our timeline said a vote on March. That
5 is not true. Those are deadlines. We are not
6 operating by deadlines. We are moving at a
7 clip and at a pace that we hope is going to be
8 very, very fast. And so there is no plan to
9 vote in March or anything in the month of
10 March. I hope that we are done far before
11 that, Mr. Chairman.

12 Moving forward, something that I think is
13 very important that came up several times is
14 litigation. We also hear this argument every
15 time there are concerns. There is no
16 litigation in regards to Amendment 5. People
17 think there's litigation -- and those are the
18 legislative maps. There is litigation going on
19 on Amendment 6, which are the congressional
20 maps. And I want to be very clear about this,
21 and that is that there is litigation, but it is
22 our job, both as Chairman Gaetz and myself and
23 every member of this committee, the
24 Constitution says that 5 and 6 passed, it was
25 voted unanimously almost -- or overwhelmingly

1 by 64 percent of the citizens of Florida. We
2 are going to uphold it, we are going to honor
3 it, and every person here is going to make sure
4 that it is implemented in our maps, Amendments
5 5 and 6, okay. We are going to do that, no
6 matter what litigation is going on. And the
7 idea that the Legislature has stored away tens
8 of millions of dollars, which we continue to
9 hear, to fight the maps simply is not true. It
10 is not true. We hear it in every city we go
11 to. I am here to tell you, I am looking y'all
12 in the eyeball, it is not true. It does not
13 exist.

14 Lastly, I am going to finish off,
15 Mr. Chairman, there is an opportunity for every
16 member of this committee, Democrat, Republican,
17 Chairs, Vice-Chairs, any person can propose a
18 map, can submit a map, can debate a map, and I
19 think you even offered to members of your
20 committee that if they propose a map, you will
21 hear it at the very first committee hearing
22 that you have in September. And so ladies and
23 gentlemen, this is the beginning of the
24 process. It is not the end of the process.
25 Your input will continue to matter, it will

1 continue to hold water as we go through it.

2 And I know someone mentioned earlier that
3 there was different games being played, and I
4 won't speculate on different games, I like lots
5 of games. I always grew up liking Yahtzee and
6 Monopoly and, you know, everything else, but
7 sometimes I also enjoyed playing pop the
8 piñata, and sometimes, Mr. Chairman, I feel
9 like we get to be the piñata. But you know
10 what? That is our job. That is our job to sit
11 here and to listen to you no matter what the
12 comment is, and I thought we got some great
13 comments from members of the public. I learned
14 a lot. And we just thank you for taking the
15 time to do that.

16 I did notice one thing, there were two --
17 a couple of questions that were asked, and now
18 that I just looked down, I want to make sure I
19 hit them real quick. To my knowledge and to
20 any knowledge of any person up here that I know
21 of, there are no private funds being used to
22 assist with building districts. I want to make
23 that very clear.

24 The House and Senate did create in-house
25 two separate district building applications.

1 The data is the same, but the operating systems
2 were different. And I suggest that if you
3 want, you can talk to our staff, and they can
4 explain that.

5 And the last one was that eight of the 48
6 public submissions of plans we have received
7 thus far were made with different applications,
8 which means people used their own applications
9 and submitted those to us, and I meant to talk
10 about that in the beginning, but I missed it,
11 Mr. Chairman.

12 Thank everybody for bearing with me on
13 that long explanation. Thank you for your
14 comments. We learned a lot about Hillsborough
15 County, a lot about Tampa Bay, and I hope
16 everyone has a great night. Thank you.

17 SENATOR GAETZ: And with that,
18 Representative Weatherford moves we rise.

19 (Whereupon, the proceedings were
20 concluded.)

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE WEATHERFORD: Good morning.

3 My name is Will Weatherford, and I have the
4 honor of chairing today's hearing. The
5 Joint/Senate House Redistricting hearing is now
6 called to order.

7 We are pleased to be joined today by
8 several members of the Florida House and the
9 Florida Senate. I am going to ask them in just
10 a moment to briefly introduce themselves so
11 that everybody here understands who we are
12 talking to.

13 But we have Legislators from across the
14 state of Florida who are interested in knowing
15 about your community and having a better
16 understanding so that when we are drawing lines
17 in the future, that we have all the information
18 necessary.

19 And so we are grateful to be here this
20 morning, had a great hearing last night in
21 Hillsborough County, and happy to be here.

22 We want to thank St. Pete College and
23 President Law for having us here today. I saw
24 President Law earlier, right there in the front
25 row. We appreciate you for allowing us to use

1 this wonderful facility. This is a great
2 facility, and we are very happy to be here.

3 And we want to thank all the members of
4 the public, we've got a great turnout this
5 morning already, I am sure people will be
6 trickling in.

7 I got stuck on the interstate coming in
8 from Wesley Chapel, but I made it here just in
9 the nick of time, Mr. Chairman, and so I'll
10 tell you what we will do, before we get
11 started, I would like to -- if we have a spare
12 mike, John, we will start here, right here with
13 Representative Frishe, and go down and allow
14 them introduce themselves, and we will have Mr.
15 Frishe here welcome us here to Pinellas County.

16 REPRESENTATIVE FRISHE: Thank you,
17 Mr. Chairman. I am Representative Jim Frishe.
18 I am Chairman of the Pinellas County
19 Legislative Delegation, and on behalf of the
20 delegation and my colleagues, welcome to
21 paradise, and to the public, thank you for
22 coming out and participating in your
23 government. Freedom is a heavy lift and it
24 needs a lot of hands helping, so thank you for
25 coming out.

1 REPRESENTATIVE NEHR: Good morning. I am
2 Representative Peter Nehr, and I represent
3 north Pinellas County and south Pasco.

4 SENATOR DETERT: There's a gentleman for
5 you.

6 Good morning, I am Senator Nancy Detert,
7 and I represent parts of Manatee, most of
8 Sarasota County and parts of Charlotte County.
9 Very happy to be here to listen to you this
10 morning.

11 SENATOR BENACQUISTO: Good morning, I am
12 Lizbeth Benacquisto. Thank you all for coming
13 out this morning. I represent Florida Senate
14 District 27, which covers portions of Lee,
15 Glades, Charlotte, Hendry and Palm Beach
16 County.

17 REPRESENTATIVE PASSIDOMO: Good morning, I
18 am Kathleen Passidomo, House District 76, which
19 is Collier County. I represent the City of
20 Naples, City of Marco Island and Everglades
21 City.

22 REPRESENTATIVE BOYD: Good morning. I am
23 Jim Boyd. I represent House District 68, which
24 is western Manatee County just across the bay
25 and just a small portion of Hillsborough

1 County. Glad to be here.

2 SENATOR NEGRON: Good morning, Joe Negron,
3 I represent the Treasure Coast and northern
4 Palm Beach County and Okeechobee in the Florida
5 Senate.

6 REPRESENTATIVE BERNARD: Good morning,
7 State Representative Mack Bernard, District 84
8 in West Palm Beach, Florida.

9 REPRESENTATIVE CHESTNUT: Good morning,
10 Chuck Chestnut, House District 23, a portion of
11 Alachua County and a portion of Marion County.

12 REPRESENTATIVE CAMPBELL: Good morning.
13 State Representative Daphne Campbell, District
14 108, from Miami-Dade County.

15 REPRESENTATIVE JULIEN: Good morning, John
16 Patrick Julien, representing House District
17 104, which encompasses North Miami Beach, North
18 Miami, Miami Gardens, the City of Opa-Locka,
19 unincorporated Miami-Dade County and the City
20 of Miami, and it is a pleasure to be here.

21 REPRESENTATIVE ROUSON: Good morning, I am
22 Darryl Rouson. I represent House District 55,
23 south Pinellas, north Manatee, north Sarasota
24 and one little smidgen of Hillsborough County,
25 south.

1 REPRESENTATIVE BRANDES: Good morning,
2 State Representative Jeff Brandes. I represent
3 House District 52, which is portions of St.
4 Petersburg, Clearwater, Largo and Pinellas
5 Park. Thank you.

6 REPRESENTATIVE AHERN: Good morning, State
7 Representative Larry Ahern, representing five
8 cities: Pinellas Park, Largo, Seminole, South
9 Pasadena and west St. Petersburg.

10 REPRESENTATIVE HOOPER: Good morning,
11 State Representative Ed Hooper. I represent
12 District 50, which is parts of Clearwater,
13 Largo, Dunedin, Safety Harbor and
14 unincorporated Pinellas.

15 REPRESENTATIVE BURGIN: Good morning,
16 State Representative Rachel Burgin from
17 District 56, which is the City of Tampa and
18 eastern Hillsborough County.

19 REPRESENTATIVE HORNER: Good morning, my
20 name is Mike Horner. I represent State House
21 District 79 in central Florida.

22 REPRESENTATIVE ADKINS: Good morning, I am
23 Janet Adkins from northeast Florida,
24 representing House District 12, which is
25 Nassau, Baker, Bradford, Clay, Union and Duval

1 Counties.

2 REPRESENTATIVE CRUZ: Good morning, my
3 name is Janet Cruz, and I am your partner in
4 the bay area, Tampa Bay, that is. I represent
5 District 58 in Tampa, which is the central part
6 of Tampa. Happy to be here.

7 SENATOR JOYNER: Good morning, I am
8 Arthenia Joyner, State Senator, District 18,
9 which encompasses portions of Manatee,
10 Pinellas, and the majority of the district is
11 in Hillsborough County.

12 SENATOR LATVALA: Good morning, I am Jack
13 Latvala and I am proud to represent the 16th
14 Senatorial District and want to welcome many of
15 my constituents here today, as well as
16 welcoming my colleagues to the 16th Senatorial
17 District, which is where we are sitting right
18 at this moment.

19 REPRESENTATIVE NUNEZ: Good morning, my
20 name is Jeanette Nuñez. I represent House
21 District 112, which consists of portions of
22 Miami-Dade, Broward and Collier County.

23 REPRESENTATIVE WEATHERFORD: Okay. I
24 think that's everybody. Before we move
25 forward, I would like to take just a brief

1 moment to make a pledge to our flag, and
2 Representative Frishe is going to lead us in
3 that pledge.

4 REPRESENTATIVE FRISHE: I pledge
5 allegiance to the flag of the United States of
6 America and to the Republic for which it
7 stands, one nation, under God, indivisible with
8 liberty and justice for all.

9 REPRESENTATIVE WEATHERFORD: Thank you
10 very much. Again, ladies and gentlemen, my
11 name is Will Weatherford, and along with my
12 Senate colleague, Don Gaetz, who is the future
13 Senate President of the Senate, we are here,
14 going to be co-chairing this meeting, which
15 will also be webcast live over The Florida
16 Channel and on the Internet, so hopefully
17 people will be watching us there as well.

18 Our sole purpose here today is to hear
19 about what you believe the legal standards
20 governing redistricting and how they should be
21 applied in your community, so that you are
22 represented in Tallahassee and in Washington,
23 fully, equitably and sensibly.

24 Our procedures today are going to be very
25 simple, but they are also very important. And

1 it is important that you sign in so that we can
2 create an accurate public record of all
3 attendees and speakers. Also, you may opt to
4 join our e-mail list so that we can keep you
5 informed about the redistricting process as we
6 work through it over the next few months.

7 If you have not signed in, please raise
8 your right hand, and a staff member will give
9 you an attendance card. Keep your hand up,
10 too. I see lots of hands out there, and just
11 keep them up and we will make sure and give you
12 an attendance card.

13 If you wish to speak today and you have
14 not filled out an attendance card, also raise
15 your -- I'm sorry, before we begin -- and you
16 would like to speak and not just to show that
17 you are here, but if you would like to speak,
18 also raise your hand, and we will get you that
19 attendance card and make sure that you get the
20 opportunity to speak. We want to make sure
21 that we have plenty of time to give everyone
22 that opportunity.

23 And before we begin, I would like to
24 recognize Senator Gaetz for a few moments to
25 walk us through what we are going to be doing

1 here today, what we hope the comments from the
2 public are focused on, and to give us a little
3 bit of background and history of redistricting.
4 So, Senator, if you could, maybe walk us
5 through that.

6 SENATOR GAETZ: Thank you very much,
7 Mr. Speaker. Every ten years, the Legislature
8 is required by our Constitution to redistrict
9 the state based on increases or decreases or
10 movements of population within the state of
11 Florida, and because our state has grown more
12 than other states in the last ten years, we
13 have actually picked up two additional seats in
14 the U.S. House of Representatives. We have
15 gone from 25 to 27 seats in the House of
16 Representatives.

17 And part of our job as voters, as
18 citizens, as a committee, as a Legislature, as
19 a judiciary, is to determine where those two
20 additional congressional seats ought to be
21 located.

22 Now, because some parts of our state have
23 increased or decreased disproportionately in
24 population, many Senate and House districts
25 will change. In fact, my guess, Mr. Chairman,

1 is that all Senate and House districts will
2 change because of the addition or the
3 subtraction of population or the movement of
4 population within the state. When
5 redistricting is completed, congressional
6 districts must be equal in population and
7 contain 696,345 people, 696,345 people in a
8 U.S. Congressional District. The 40 State
9 Senate districts must also be nearly equal at
10 about 470,000 people, and our 120 House
11 districts must also be nearly equal at about
12 156,700 people.

13 There are displays that you can see over
14 here to my right on the wall, and those
15 displays, I saw a number of you looking at them
16 when you came in, they show the current
17 boundaries of districts in this area of the
18 state and the number of persons which must be
19 added to or subtracted from current districts
20 in order to achieve equal representation.

21 Now, equality of representation is
22 important, but it is not the only legal
23 requirement that redistricting plans must meet
24 under the law. The laws and the important
25 court cases governing redistricting are

1 explained in detail on the House and Senate
2 websites. Those websites are listed in a
3 "Redistricting 2012" brochure that was
4 available when you came in. Did you get a 2012
5 redistricting brochure?

6 If you didn't, it is a tri-fold brochure,
7 raise your hand, and we will make sure you get
8 one. Lots of customers, okay. They were
9 available when you came in, but we want to make
10 sure everybody gets one.

11 The reason why they are important is
12 because they not only list the House and Senate
13 websites, but they explain how the websites are
14 packed with information about redistricting in
15 Florida, including the explanation of the laws
16 and important court cases governing
17 redistricting.

18 The two websites, the House and Senate
19 website, are complementary. They are not
20 exactly the same. They are complementary.
21 They are updated frequently. We hope you will
22 visit both and check back often, because it is
23 a great way to stay current about how
24 congressional, Senate and House districts are
25 taking shape.

1 The websites also deliver to your
2 fingertips all of the demographic data that
3 will be used in drawing districts and the exact
4 same computer programs that legislators and
5 professional staff would use. Any member of
6 the public can participate in building plans or
7 seeing maps or critiquing plans or critiquing
8 maps submitted by Legislators or other
9 citizens.

10 Before, during and after this hearing,
11 House and Senate professional staff are
12 available to show anybody the simple steps to
13 getting on-line and building districts in your
14 area, in your neighborhood, in your community,
15 or if you want to take a whack at it, the whole
16 state, and then submitting that information so
17 that we can use it as a basis for the
18 Legislature's deliberations.

19 If you think that it is too complicated,
20 it is not. I am pretty tech stupid, and it
21 took the professional staff about 15 minutes to
22 show me how to use the District Builder
23 software.

24 Recommendations from citizens and groups
25 of citizens will be made publicly available.

1 So any maps that are offered by anybody will be
2 available for everyone to see. In fact, as of
3 this morning, there are 48 different maps that
4 have already been submitted. So if somebody
5 says, "Where are the maps," you had to walk
6 past them when you came in. There are 48 of
7 them, and some of them have been submitted by
8 individuals who have come to hearings and then
9 literally gone outside during the hearing or
10 after the hearing and learned how to use the
11 software and submitted their maps.

12 Plus there are over a hundred additional
13 submissions we have had of written ideas for
14 how neighborhoods ought to be either divided or
15 communities ought to be held together, and all
16 of that is available on the Web.

17 The submission of proposed maps, the
18 submission of your ideas that makes sense for
19 your community, is the single most effective
20 form of public participation in the
21 redistricting process.

22 We are glad to have people talk to us in
23 any way they would like about the process
24 itself, if you have comments or criticisms,
25 that is fine, but the most valuable information

1 that you probably can impart is to tell us
2 about your neighborhood, your community, how it
3 is divided now, whether that makes sense and
4 what your specific recommendations are.

5 The redistricting schedule under which we
6 are operating is imposed by the state
7 Constitution. The Constitution does not permit
8 the Legislature to act on state legislative
9 maps before the second year after the census;
10 in other words, the Constitution of Florida
11 does not permit the Legislature to vote on
12 legislative maps until 2012. However, we have
13 accelerated this process as much as we legally
14 can in order to get done so that we will be
15 able to have elections in an organized and
16 thoughtful way in 2012.

17 We have moved up the 2012 legislative
18 session from March, when it would usually
19 start, to January, and we have begun our
20 statewide hearings five months in advance of
21 the 2012 legislative session, and we will begin
22 our committee weeks where we will vote -- we
23 will debate, discuss and vote in committees in
24 September instead of in December.

25 Now, it has been suggested that the

1 Legislature should draw maps first and then put
2 them in front of the public and say, "Here they
3 are." We believe this puts the answer ahead of
4 the question. We believe there ought to be no
5 preconceptions created by politicians, but,
6 rather, public testimony should be free and
7 unrestricted.

8 In fact, a principal author of Florida's
9 new redistricting standards, and Ellen Freidin,
10 the Chairperson for Fair Districts, are on
11 record testifying before the House and Senate
12 stating that new maps should not be drawn until
13 after the public has first had an opportunity
14 to comment in public hearings, and so that is
15 exactly what we are doing.

16 Our intent is to use the recommendations
17 made at the 26 public hearings and through our
18 Internet sites as the basis for developing one
19 or more options for district maps. I don't
20 think you will see one map come fully blown
21 from the brow of Zeus.

22 I think instead you will see several
23 options, drawing from the input we receive at
24 these hearings. We will discuss those options
25 in open public meetings before any votes are

1 taken, even votes in committee.

2 In other words, what we are saying is if
3 you look at the maps that you had to walk past
4 outside this room, and you look at the other
5 maps and submissions that are on-line, the ones
6 actually submitted to the Legislature, we are
7 saying that we are starting the legislative
8 process with those maps and with the other
9 input we have received from the public. So if
10 you want to know where we will begin our
11 deliberations and what Legislators will be
12 using as we start this process in Tallahassee,
13 it is with those public submissions, those maps
14 that you had to walk past when you came in the
15 door.

16 Throughout this process, we will solicit
17 additional public comment so that proposed maps
18 can mature with the public involved, all before
19 the Legislature approves any final maps.

20 And then whatever the Legislature passes
21 is submitted from judicial review. The
22 Legislature doesn't get to decide by itself
23 where the lines are drawn. Anything that we
24 develop based on the input we receive from the
25 public is then submitted to the Florida Supreme

1 Court and submitted to the federal judicial
2 level for approval to make sure that every
3 legal requirement, state and federal, is met.

4 Because our purpose today is to hear from
5 you, all of the time remaining between now and
6 11:00 a.m. will be used to ensure that every
7 member of the public who is here and wishes to
8 speak will have time to present testimony and
9 be listened to respectfully without
10 interruption. If after every citizen has had
11 her or his say there is time remaining before
12 our scheduled adjournment, and we hope there
13 will be some time, then any member of the
14 Committee, Democrat or Republican, House member
15 or Senator, may make any statement, answer any
16 question, offer any observation they would
17 like.

18 And you will see that Speaker Weatherford
19 and I will be making heavy notes, you will see
20 other people making heavy notes, so that if
21 there are data-specific questions or empirical
22 questions that come up during the hearing, we
23 will try to make sure, time permitting, that we
24 answer those so that we all leave here with the
25 same set of facts.

1 Mr. Chairman, I hope that this description
2 of our schedule and our process helps set the
3 stage for a successful hearing. John Guthrie,
4 our Senate Professional Staff Director,
5 admonishes me to remind you that you must sign
6 in with the professional staff if you wish to
7 speak.

8 So even if you have let us know on the
9 Internet that you are coming to the hearing
10 today, we are delighted you did let us know, if
11 you want to speak, be sure to let the
12 professional staff know so that Speaker
13 Weatherford has a speaker sheet for you and can
14 call your name.

15 And that is a recitation of the process
16 and where we go from here, Mr. Speaker.

17 REPRESENTATIVE WEATHERFORD: Thank you
18 very much, Chairman Gaetz, great explanation of
19 the process here. And very quickly, before we
20 start public hearings, which we will start just
21 in a second, every hearing kind of has its own
22 personality, and we are happy to be a part of
23 this today and we've got a lot of members of
24 the Legislature that are here to listen to you
25 in a very respectful and thoughtful manner, and

1 all we would ask is in your comments that you
2 also make your comments in a very respectful
3 and thoughtful manner.

4 We want to hear your thoughts, whether it
5 is constructive criticism, whether it is, you
6 know, cheerleading, whatever it is, just do it
7 in a respectful way, and I can assure you
8 everybody on this Committee will treat you in
9 the same manner. So we thank you very much for
10 that ahead of time.

11 We've got several speakers; in fact, we've
12 got probably over 40 speakers already signed
13 up, and so we are going to try to limit to
14 about three minutes per person. We will try to
15 give you a little bit of latitude and let you
16 know, and I will lean towards the mike maybe
17 when we are getting close to the end, but try
18 to give everybody at least three minutes. We
19 want every person to have the opportunity to
20 speak.

21 I am also going to call out at least three
22 names at a time, and we have designated this
23 front row up here to my right and your left as
24 kind of an on deck circle. And so as I call
25 your name out, if you could, walk up to the

1 front, so that way we can get you to the mike
2 as quickly as possible and do this in an
3 orderly fashion.

4 So without any further ado, our first
5 speaker this morning is going to be B. J. Star,
6 and following B.J. is going to be Mary Freeman,
7 and following Ms. Freeman will be Jasmina
8 Forcan.

9 And so, B.J., we appreciate you being
10 here. You get the honor to go first, and we
11 are happy that you are here this morning, and
12 you are recognized for three minutes.

13 MS. STAR: Thank you very much. My name
14 is B. J. Star, and I am a woman. I had to wait
15 144 years before I was given the right to vote
16 in this country. Because of this struggle, I
17 do believe that all the women of this nation
18 appreciate the right of the franchise in a very
19 special way.

20 Women were imprisoned, force fed and
21 beaten during the battle to win the right to
22 vote, and, thus, our cry of one person, one
23 vote, is especially meaningful.

24 I come to you today repeating the message
25 of 63 percent of Florida voters that we -- all

1 we want for you to do is to follow the law, and
2 you don't need these expensive hearings to know
3 what that is.

4 The fact that you have set aside \$30
5 million to defend your maps once you finally
6 share them with us is disheartening. It is
7 like it is a foregone conclusion that you are
8 going to have to defend yourselves. If you do
9 it the right the first time, there won't be any
10 legal skirmishes.

11 Additionally, the two and a half million
12 dollars you have already spent fighting against
13 the implementation of Amendments 5 and 6 is
14 appalling. It is even more egregious that
15 Florida taxpayers are paying both for the
16 defense of the amendments and for the lawsuit
17 challenging the amendments. These expenses are
18 even more shocking in a state where you have
19 laid off thousands of teachers.

20 We are disappointed that you have chosen
21 to fight the very amendments that Floridians
22 want. We are disappointed you don't have maps.
23 It is especially disappointing that the
24 timeline you have chosen will only lead to more
25 confusion. It is bad enough that you wasted

1 this legislative session to pass a number of
2 egregious bills against women. In passing a
3 voter suppression --

4 REPRESENTATIVE WEATHERFORD: Ms. Star, if
5 we could, we are here to talk about
6 redistricting, not policy decisions that have
7 been made in the past or the future, just
8 redistricting. Ladies and gentlemen, please.
9 Please, ladies and gentlemen --

10 A VOICE: Let her finish.

11 REPRESENTATIVE WEATHERFORD: She's going
12 to get to finish, but we are going to keep the
13 comments on redistricting.

14 MS. STAR: Floridians have voiced their
15 opinions and given you their input, and you
16 have chosen to sue us. My foremothers suffered
17 and battled too hard to gain the right to vote.
18 For now to make a mockery of this process is a
19 shame. Please return to Tallahassee, draw us
20 legal maps, and then we will talk. And one
21 last word for the women of Florida: Uterus.
22 Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you,
24 Ms. Star.

25 Next up -- next up we have Ms. Mary

1 Freeman with the Democratic Women's Club of
2 Pinellas County, and then Jasmina Forcan, and
3 following Ms. Forcan we have Nigel Watson.

4 Ms. Freeman, you are recognized.

5 MS. FREEMAN: Hi, I am Mary Freeman, and
6 what I'm here to say is in today's economy, why
7 are you spending millions of taxpayer dollars
8 on fighting an amendment that was approved by
9 63 percent of Florida voters?

10 I want to know where the maps are and why
11 are you asking us to draw them up. If you
12 really need help, I and several others would be
13 more than happy to sit down with you and get it
14 done. This could save millions of dollars.
15 The stalling is merely a tactic made to help
16 incumbents who are afraid of being voted out of
17 office.

18 You are only seeking -- you say you are
19 only seeking clarification on reforms -- on the
20 reforms. Well, here is the clarification:
21 Stop wasting taxpayer money, start doing what
22 you are paid to do, draw the maps, have them
23 ready for filing by October 3rd. And, finally,
24 if you do have them ready, will you give us the
25 opportunity to review them to see if you have

1 responded to our requests? Thank you.

2 REPRESENTATIVE WEATHERFORD: Thank you
3 very much.

4 I know there were some -- there were some
5 questions that have been asked already thus
6 far. Just so everyone knows, what we will do
7 is we will make sure there is time at the end
8 for any member on the Committee to offer
9 suggestions or answer some of the questions
10 that are presented, and then Senator Gaetz will
11 also try to keep very copious notes, as I will
12 as well, and we will answer all the questions
13 that are asked. So you are recognized, thank
14 you for being here. And, I'm sorry, but after
15 Jasmina, we've got Nigel Watson and R. B.
16 Johnson. Thank you.

17 MS. FORCAN: I am Jasmina Forcan, and I am
18 glad for this opportunity. This is my first
19 involvement in the process, and I hope that
20 everything goes smoothly and the end result is
21 what we expect of you. Thank you.

22 REPRESENTATIVE WEATHERFORD: Thank you.
23 We are offering bonus points for brevity,
24 ma'am, and I can tell you, you are leading the
25 charge, so thank you very much.

1 Next up we've got Nigel Watson, and
2 following Mr. Watson, we have R. B. Johnson and
3 Leo Murray.

4 Nigel is with the ACLU. Thank you for
5 being here, sir.

6 MR. WATSON: Good morning. I am not here
7 for Democrats or Republicans. I -- two
8 parties. I am for foreplay -- fair play --

9 REPRESENTATIVE WEATHERFORD: Sir, I think
10 you are at the wrong public hearing.

11 MR. WATSON: No dirty tricks.

12 REPRESENTATIVE WEATHERFORD: The County
13 Commission is meeting several miles from here,
14 we encourage you to go to the County Commission
15 hearing.

16 MR. WATSON: I am getting ready to go
17 right after.

18 I live in a state in which Democrats had a
19 600,000 plus majority of registered voters, yet
20 two-thirds of the state leg is somehow
21 magically Republican. Does that make sense to
22 you all?

23 My input was in voting for Amendments 5
24 and 6 last November. Your input should have
25 been preparing the maps to show us at these

1 meetings.

2 It is disingenuous for you now to
3 cynically ask us for our version of amateur
4 maps -- no, we don't know how to use that
5 software -- that you then promise to consider,
6 but have no legal dictate to do so.

7 Where are the maps is the focus here, in
8 case you hadn't noticed what the focus was, not
9 productive dialogue. You've got it backwards.
10 No maps equals no debate, except what you are
11 doing. Add to this the millions of our tax
12 dollars being wasted to defeat or amend these
13 measures, excuse me, clarify, you can
14 understand why running out the clock comes to
15 my mind.

16 From gerrymandering the maps, we are now
17 gerrymandering the meetings. Being
18 intellectually honest, such tactics look mighty
19 like a betrayal of your non-partisan public
20 trust. Can we now rely on you to honor the
21 clear will of the people in both letter and
22 spirit, or will you present us with a *fait*
23 *accompli* at the 11th hour, leaving scant time
24 for candidates to plan or for courts to rule?

25 So that your reputations don't sink any

1 further, I suggest that you do right by the
2 people you have pledged to serve. Set aside
3 your grists and tricks in hopes the home folks
4 won't notice, they will. Look in the mirror.
5 Is this how you would want to be now governed
6 if the leg disagreed with your point of view?
7 Instead, withdraw your legal beagles, reset the
8 spacial coding on your mapping software and do
9 the better job two-thirds of us want done.

10 Thanks for your time and attention.

11 REPRESENTATIVE WEATHERFORD: Thank you.
12 And Mr. Watson, I say this with all sincerity,
13 we appreciate you, for lack of a better term,
14 warming up the Committee. Thank you very much.

15 Next up we've got R. B. Johnson, followed
16 by Leo Murray and then Doris Houdesheldt. I
17 hope I said that right. R. B. --

18 REPRESENTATIVE FRISHE: Mayor.

19 REPRESENTATIVE WEATHERFORD: Mayor
20 Johnson, I apologize, that's not written down.
21 And, Mayor, thank you very much for being here,
22 sir, and thank you for your service to the
23 community.

24 MAYOR JOHNSON: Thank you. I appreciate
25 y'all giving us a chance to speak before you

1 this morning.

2 I am the Mayor of Indian Rocks Beach, and
3 I am here to speak on behalf of the beach
4 communities, and what we would like to see, I
5 believe, is fairly universal amongst us,
6 especially the Representatives, the mayors,
7 city commissioners and councilmen up and down
8 Indian Rocks, or up and down the beach
9 communities, is after the redistricting process
10 is finished, we would like to see the beach
11 communities to remain essentially as a distinct
12 entity and within the same district, whether it
13 is the House, Senate, et cetera.

14 Now, when you look at this brochure that
15 you passed out here, it talks about the
16 districts being contiguous and compact and as
17 much as possible having the same geographic and
18 municipal boundaries, as much as possible be
19 close together and to be very distinct. And if
20 you look around Pinellas County, if you are
21 looking at an area that has a character that is
22 very distinct and to a large extent separate
23 from the rest of the county, the beach
24 communities would be it.

25 If you are on the beach communities, if

1 you live there, if you have a business there,
2 it is because you love beach living. You have
3 the Gulf of Mexico on one side, you have the
4 Intracoastal on another, and tourism basically
5 fuels our lives, and the businesses and the
6 people who live there have a certain way of
7 life and they are there for a particular
8 reason.

9 Gulf Boulevard runs north and south along
10 the entire length from St. Pete Beach all the
11 way up into Clearwater Beach. It is sort of
12 the life blood line of the beach communities.

13 And we have elected -- we have a series of
14 interests that keep us together and keep us
15 focused about the way of life that we have
16 there. As a matter of fact, we have our own
17 entity called the Big C, the Barrier Islands
18 Governmental Council, that meets once a month
19 to talk about our shared interests and to make
20 certain that when issues come before the State
21 Legislature, that we are united, when there are
22 issues that need to be discussed between
23 ourselves and the rest of the county, that we
24 are united, and that if we are not united, we
25 try to discuss things in an amicable way, but

1 as much as possible, we like to speak with one
2 voice. So we would like to see that continued
3 in the future, because we are our own -- I
4 won't say we are not totally separate from
5 Pinellas County, but like I said, we have
6 everything that determines essentially what you
7 are looking for here as far as redistricting to
8 keep ourselves into one separate district,
9 whether it is the state legislative district --
10 whether it is for Representatives, for Senate
11 or of a congressional district.

12 So we appreciate it if you would take that
13 into consideration, and I know there are other
14 representatives here from beach communities as
15 well, and that is pretty much all it is. Thank
16 you very much.

17 REPRESENTATIVE WEATHERFORD: Thank you,
18 Mayor, and thanks for your service, sir, we
19 appreciate it.

20 Next up we have Leo Murray, followed by
21 Doris Houdesheldt and then Mike Anderson.

22 Mr. Murray, thanks for being here.

23 MR. MURRAY: Hi. Good morning, Leo
24 Murray. I have lived in my present home in St.
25 Petersburg since 1979. I am in Senate District

1 16, House District 52 and U.S. Congressional
2 District 10.

3 I have been through this process, this
4 will be the fourth time since I have been here.
5 2002 was probably the -- in my opinion, the
6 most drastic and -- during that time.

7 I am going to repeat some of what's
8 already been said. Where are the maps, not
9 amateur drawn maps, but where -- professionally
10 drawn maps by the staff and what have you in
11 Tallahassee that are paid to do this and will
12 be doing it at some point? Why is it taking so
13 long to draw the maps? Again, the maps -- we
14 should have had maps that we could have
15 commented on here, not necessarily if they were
16 firm maps, but tentatively drawn maps that we
17 could have commented on and maybe some --
18 helped tweak them at this point.

19 And, again, why are you wasting taxpayer
20 money on lawsuits and on -- for these public
21 comment hearings? Again, because there's not
22 maps, it is something that's -- and many people
23 are saying is a waste of time to have these
24 meetings.

25 When the maps are drawn, I hope that they

1 will be compact and the districts shall, where
2 feasible, utilize existing political and
3 geographical boundaries. In my opinion,
4 Pinellas County should be one of the more easy
5 areas to redistrict. You've got the Gulf of
6 Mexico on one side, you've got Tampa Bay on the
7 south and east side, and in my opinion,
8 districts shouldn't cross the bay, shouldn't
9 straddle the bay.

10 Currently in District -- nor should they
11 be in three, four, five, six different
12 political communities, whether it is St. Pete,
13 Clearwater, Largo, Pinellas Park, Oldsmar,
14 Safety Harbor, whatever. Jack Latvala's
15 District 16 starts in St. Pete, goes all the
16 way around the bay and into Tampa. I don't
17 think that is fair representation for most of
18 those other communities, especially when the
19 office is in St. Pete.

20 Jeff Brandes' district starts in St. Pete,
21 and it also goes through three or four or five
22 different political communities, but the office
23 is in St. Pete, which is difficult for people
24 to visit.

25 We have other districts that also straddle

1 the bay, minority districts, and I know that is
2 going to be a challenge to maintain those
3 minority districts, because they do straddle
4 the bay. That is a challenge, but where
5 possible, I would like to see the districts
6 stay in Pinellas County and not be split
7 between two and three counties. Some districts
8 are -- start in St. Pete, they go into Manatee,
9 Sarasota, whatever counties. Others are in
10 both counties.

11 Congressional District 10, Bill Young's
12 district, that carved out the African-American
13 community in St. Petersburg, moved it to
14 District 11 in 2002. St. Pete should be in the
15 same -- in the same congressional district.
16 When they redraw that map, it should start at
17 the Skyway, Fort DeSoto, and just move north
18 until you meet your population, six hundred
19 thousand something, I think you said, and the
20 same with the other districts in Pinellas --

21 REPRESENTATIVE WEATHERFORD: Mr. Murray, I
22 am going to ask you to kind of wrap it up.
23 We've got a lot of speakers that want to speak
24 also.

25 MR. MURRAY: Okay. Just square it up and

1 make them as compact as possible.

2 I also see in a newspaper article that
3 quoted you, Mr. Weatherford, and it said you
4 remain hopeful that lawmakers can reach an
5 agreement on time and avoid litigations. I
6 think it is -- and I don't it think it is
7 rocket science. There is a way to do this and
8 a way to do it right, and I hope you live up to
9 that -- those quotes that are attributed to
10 you. Thank you.

11 REPRESENTATIVE WEATHERFORD: Thank you
12 very much.

13 Next up we have Ms. Doris, and following
14 Doris is Mike Anderson and then Mac McLaughlin.

15 MS. HOUDESHELDT: Thank you very much.
16 First of all, thank you for pronouncing my name
17 almost right. I would say Houdesheldt, but
18 that is what my husband told me a long time ago
19 anyway, 57 years ago, to be exact.

20 I also appreciate your effort to follow
21 the Amendments 5 and 6 for holding these
22 redistricting meetings in our area. I think it
23 is important that you hear the views of the
24 constituents whose lives are being affected by
25 the lines being drawn. And I also wish to

1 specifically thank Representative Weatherford
2 and Senator Gaetz for your work.

3 I am in Congressional District 11, and I
4 think it is important as a resident of
5 Congressional District 11 that our district be
6 centered in Pinellas County.

7 The problem is that we have Tampa people
8 outweighing us when it comes to our opinion, we
9 are overpowered by them. And I do respect,
10 too, the fine work of Senator Joyner. The
11 people of District 11 in Pinellas should be
12 represented by a Pinellas Representative. It
13 is also important to keep the other districts
14 in Pinellas as close to current as possible.

15 Once again, I want to thank you for giving
16 me this time to speak on redrawing the lines of
17 Congressional District 11. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much. We appreciate your comments.

20 Next up we have Mike Anderson, followed by
21 Mac McLaughlin and then Dorine McKinnon.

22 MR. ANDERSON: Good morning. I am a
23 retired social studies teacher. I thank you
24 for permitting me to express my thoughts on
25 redistricting in this public forum.

1 In Monday's *St. Petersburg Times*, Senator
2 Gaetz is quoted as saying that there needs to
3 be a rationale why new districts are drawn.
4 Today I intend to give you my rationale for
5 supporting one of the plans for redistricting.
6 I hope my comments will be part of the road map
7 Senator Gaetz spoke of in the process of
8 drawing new districts for this state. I
9 applaud you for gathering the broadest range of
10 opinion on this subject as you have visited
11 numerous communities in Florida.

12 I am here to support the congressional
13 maps submitted on July 8th, 2011, by John Libby
14 of Duval County. It is HPUBC0003. I believe
15 the plan faithfully follows the Fair District
16 amendments to the State Constitution, as well
17 as the requirements of the Federal Voting
18 Rights Act.

19 In 2009, in a North Carolina case, the
20 U.S. Supreme Court in *Bartlett versus*
21 *Strickland* interpreted the Voting Rights Act to
22 only protect the voting power of minority
23 groups when they constitute a majority of the
24 electorate in a legislative district.

25 In this North Carolina case, their

1 Constitution required that legislative
2 districts respect county boundaries similar to
3 the passed Fair District amendments in Florida.

4 Mr. Libby provides district summary
5 statistics to accompany his map. And four
6 congressional districts are from south Florida.
7 Minority districts were proposed. In Districts
8 23, 25 and 27, Hispanics constitute at least a
9 majority of the voting age population. In
10 District 26, African-Americans constitute a
11 majority. In two other congressional
12 districts, one from southeast Florida and the
13 other from the Orlando area, the combined
14 minority populations constitute a majority of
15 the population. These are Districts 24 and 12.
16 These are minority access districts.

17 In one other southeastern Florida
18 district, the combined minority population is
19 48.9 percent of the population, and that is
20 District 22.

21 Florida's African-Americans and Hispanics
22 represent 25.7 percent of the state's
23 registered voters. Seven congressional
24 districts that is proposed by Mr. Libby would
25 give a minority a competitive chance to win,

1 which is 25.9 percent of the state's
2 congressional district delegation.

3 In five other congressional districts,
4 non-Hispanic whites constitute 55.1 percent to
5 59.8 percent of their districts. These are
6 Districts 4, 9, 10, 13 and 19. Those districts
7 include Jacksonville, Tampa, east Hillsborough,
8 west Orange and North Palm Beach. A minority
9 or a minority-backed candidate would be
10 competitive in those districts.

11 The census found that 42 percent of
12 Florida's population is comprised of
13 minorities. Under Mr. Libby's plan, 12
14 districts would be competitive to elect a
15 minority or a minority-backed candidate. That
16 is 44.4 percent of the delegation.

17 I also like Mr. Libby's plan because it
18 provides for five congressional districts along
19 the Sun Coast. Pasco and Hernando would have a
20 congressional district.

21 REPRESENTATIVE WEATHERFORD: Mr. Anderson,
22 this is great detailed information, but we have
23 got to put a bow on it for us.

24 MR. ANDERSON: I ask the Chairman for
25 permission to have someone Xerox this --

1 REPRESENTATIVE WEATHERFORD: Yes.

2 MR. ANDERSON: -- and give it to the
3 members of the Committee.

4 REPRESENTATIVE WEATHERFORD: We will do
5 that. We appreciate the detailed information,
6 but what we will do is we know that a lot of
7 folks have more information than what they can
8 get out in three minutes, we will make sure
9 that every member of the Committee -- that goes
10 into the record. Every member of the Committee
11 will get a hard copy of that.

12 MR. ANDERSON: I understand, Mr. Chair,
13 and I appreciate your giving me permission to
14 be up here, and I hope the members of the
15 delegation will look this over. I think it is
16 important that you use this plan as a road map
17 to adopt a plan for us.

18 REPRESENTATIVE WEATHERFORD: Yes, sir.
19 Thank you, Mr. Anderson. We appreciate your
20 detailed testimony.

21 Next up we have Mr. Mac McLaughlin,
22 followed by Dorine McKinnon and then Aaron
23 Dietrich.

24 MR. McLAUGHLIN: Good morning, delegates.
25 I want to say thank you for this opportunity.

1 My name is Mac McLaughlin, and I am a resident
2 of Pinellas County, obviously. I am the former
3 Commissioner and Vice-Mayor of Safety Harbor
4 for eight years, and one of the things I am
5 concerned about is the city -- in the
6 Amendments 5 and 6 as it relates to cities and
7 boundaries. And as you'll look at this map
8 that has been made up by the State, that Palm
9 Harbor is not a city, Feather Sound is not a
10 city, Lealman is not a city, and the problem
11 with it is the whole Pinellas County needs to
12 be as one group for voting.

13 Now, I heard all of these numbers about
14 population, how we got the extra seats. But
15 the key to it is, where's the voters? We are
16 not basing this on votes or -- but basing it on
17 population. So there's never going to be
18 anything perfect, no matter what we do.

19 I am kind of disappointed that we're
20 spending all this money, because that -- that
21 really is what it is all about is the money and
22 who is going to get the money for doing this.
23 And for the lawsuits, both ways, okay.

24 Another thing I would like to see -- that
25 I live in South Pasadena, but I live in the

1 county of South Pasadena. How do I vote? How
2 do I vote? Where am I going to be? And it is
3 just like the beach people. We need to keep
4 them all together, the beach community, and
5 also keep the entire part of Pinellas County
6 together. Let's get Tampa, Hillsborough
7 County, stay over there, and so they are not --
8 so we have our representation here.

9 I understand the pressures that you are
10 all under, and it is a no-win situation. You
11 all knew that when you came here today. You
12 knew that no matter what you listened to, it is
13 never going to -- no one is going to agree.
14 And, once again, I want to thank you for your
15 time, and think about the cost to the Cities
16 and to the Counties in this deal and where are
17 they going to get their money to enact what you
18 all agree to, hopefully, and I am sure you will
19 come to some agreement. But the bottom line
20 is, no matter what you come up with and what
21 these people here want, there's only one person
22 that is going to make the difference, and that
23 is the Governor of Florida, because he is going
24 to veto it or not veto it, and we need to take
25 that into consideration.

1 I want to thank you for your time, and for
2 those who came a great distance here to be with
3 us, we all appreciate that, and thank you.
4 Come up with a good solution.

5 REPRESENTATIVE WEATHERFORD: Thank you,
6 sir. We appreciate that.

7 Next up we have Ms. Dorine McKinnon,
8 followed by Aaron Dietrich and then Jim Good.

9 MS. MCKINNON: Hi, I am Dorine McKinnon
10 and I am a member of the unincorporated
11 Pinellas County, and I would like to begin by
12 thanking the Committee, Representative Frishe
13 and Weatherford, and Senators Gaetz, Joyner and
14 Latvala for the exceptional work that is being
15 done to make this process transparent and
16 orderly.

17 I appreciate that it is being presented
18 earlier than the 2000 census and is more
19 transparent than previous sessions and that
20 these meetings do not just focus on more dense
21 urban areas, but also include less populous
22 areas and even rural communities.

23 I hope to see new districts that will
24 allow Pinellas constituencies to be represented
25 by a Pinellas legislature while staying as

1 close as possible to the current districting
2 lines. Pinellas is unique and different from
3 Hillsborough and Manatee, and our concerns --
4 and we want representation close to where we
5 live. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much. Bonus points for Ms. McKinnon. She
8 was done in less than a minute.

9 Next up we have Mr. Dietrich, followed
10 Mr. Jim Good and then Sean Krummerich, I hope
11 is the name, I hope I didn't say that wrong,
12 but, Aaron, you are recognized. Thanks for
13 being here, sir.

14 MR. DIETRICH: Thank you. Good morning to
15 all of you. I would like to start off by
16 saying I appreciate the situation that you are
17 in, it's a great deal of responsibility. I am
18 a graduate student from the University of South
19 Florida. I am also a resident of St.
20 Petersburg. I have a few concerns I would like
21 to address with you this morning. I will be
22 brief.

23 To start, I am troubled by the notion that
24 this body has taken valuable time -- valuable
25 time and resources in search of public input

1 across this great state. As many of us are
2 aware, you have already received the public
3 input that is necessary in the forms of
4 Amendments 5 and 6. There you will find clear
5 and concise guidelines for the task at hand.
6 The fact that this Legislature has spent \$2.5
7 million in a time when we are firing teachers,
8 \$2.5 million paying lawyers instead to defeat
9 these constitutional amendments, with all due
10 respect to all of you, that really calls into
11 question the true intent of these meetings, but
12 it casts serious doubt upon the integrity of
13 your leadership, ladies and gentlemen.

14 I will close by saying it appears to many
15 of us that these meetings lack any foundation
16 for discussion.

17 As there are no maps provided by the
18 Legislature, we have no basis for meaningful
19 input. We have not come here to see maps drawn
20 by schoolteachers and construction workers. We
21 come here to see maps drawn by the people we
22 paid -- we have elected to do so.

23 Thank you very much for your time. I wish
24 you the best of luck.

25 REPRESENTATIVE WEATHERFORD: Thank you,

1 Aaron.

2 Next up we have Jim Good, followed by Sean
3 Krummerich and then Curtis Holmes. Jim, thanks
4 for being here, sir.

5 MR. GOOD: Thanks, good morning. As you
6 said, my name is Jim Good. I worked for the
7 Post Office for 31 years, and then for the
8 Letter Carriers' Union for nine years, and they
9 have a program they use, and although it is
10 certainly not perfect, it may be similar to the
11 program you have for building the districts.
12 So I am sure that you could have listened to
13 the community and got their opinions after
14 drawing maps and then just pushed a few buttons
15 and changed it to be based on what the opinions
16 were that you drew from those.

17 Also, I am, as other people have said, a
18 little bit upset with the idea that the Senate
19 and the House chooses to have a lawsuit against
20 Amendments 5 and 6 that were passed by the
21 people. I mean, that is the whole idea of our
22 system.

23 And one final note, if you could give a
24 message to Senator Haridopolos for me just to
25 let him know that I am appalled by the recent

1 posting that he put on YouTube that was paid
2 for with state funds. I think he will know
3 what I am talking about.

4 REPRESENTATIVE WEATHERFORD: Thank you,
5 sir.

6 Next up we have Sean Krummerich and then
7 followed by Curtis Holmes and then Steve
8 McFarlin, who is the Mayor of St. Pete Beach.

9 Thanks for being here, Sean.

10 MR. KRUMMERICH: Distinguished Senators
11 and Representatives, good morning.

12 Last November, on one issue Florida's
13 voters spoke with a clearer voice than on
14 virtually any other issue or candidate on the
15 ballot. They said we are tired, we are tired
16 of having politicians choose their voters
17 rather than the other way around, we are tired
18 of gerrymandered districts, we are tired of the
19 situation which in any given year a third of
20 the Legislature is automatically reelected
21 because nobody bothered to run against them.

22 Well, Amendments 5 and 6 represent the
23 fruits of that frustration, and as we go
24 through this process, we are counting on you,
25 our elected representatives, to adhere to both

1 the letter and spirit of the law that
2 63 percent of us voters approved. And as far
3 as I am concerned, you haven't done your jobs
4 unless on the final approved maps every
5 district in the state, be it State House, State
6 Senate or U.S. Congress, is fully competitive
7 for a candidate from either political party.

8 I know how much you love the convenience
9 of being able to plan so far ahead, but I'm
10 sorry, in a society in which a sparse if you
11 are Democratic, you simply should not be able
12 to plan out three years in advance who will
13 held legislative leadership positions.

14 And another thing -- one other thing,
15 please stop using our tax dollars to fight the
16 implementation of these amendments.

17 You have given your reasons for not
18 presenting any of your proposed maps prior to
19 embarking on this round of public meetings.
20 While I strongly disagree with your rationale,
21 things are what they are. I will tell you,
22 however, the people of Florida are expecting
23 for those final proposed maps to be made
24 publicly available for comment and response
25 well in advance of their final approval by the

1 Legislature. And by well in advance, I mean at
2 least a month. Don't think that you can throw
3 them on the website three days before the final
4 vote and think that that will be all right.

5 Just remember, the people of Florida, they
6 voted for and they expect fair and equal
7 districts, and we will be watching to make sure
8 that you deliver on that promise. Thank you.

9 REPRESENTATIVE WEATHERFORD: Thank you.

10 Next up we have Commissioner Holmes, or
11 Councilman Holmes, followed by Steve McFarlin,
12 who is the Mayor of St. Pete Beach, and then
13 Mayor Kathleen Peters. We've got a lot of
14 mayors here today.

15 COMMISSIONER HOLMES: Good morning, one
16 and all. I am glad to see that Jack has
17 graduated to a cane.

18 SENATOR LATVALA: For protection.

19 SENATOR GAETZ: It is a weapon.

20 COMMISSIONER HOLMES: I appreciate all you
21 coming out on a day like today. It is --
22 people think that the Florida House and Senate
23 are such high rollers when it comes to the cash
24 department, but you people are vastly
25 underpaid.

1 Anyway, I am looking at -- yes, I will
2 take the hiss right now. I wouldn't -- I
3 wouldn't take your job as a gift. Anyway, I am
4 looking at this thing, and this -- you have so
5 many mandates on this redistricting that -- you
6 have population mandates, which you have no
7 choice on. You have mandates in here on the
8 Voting Rights Act, which you have no choice on.
9 Well, I have looked at your website, and I
10 thought to myself wouldn't it be smarter to
11 have an interactive website where if you want
12 citizens' comment on this thing, you have to
13 give us the option on this thing where you can
14 take the map and you want to change a district
15 line around, put your cursor on there and
16 scroll it, have the population numbers change,
17 have the voting rights districts changed. If
18 you need minority representation and you start
19 shifting this thing around, you ought to have a
20 little color chart that comes up and says,
21 huh-huh, that one's not going to fly. That
22 would be a lot easier.

23 This reminds me of what we did in Largo
24 when we were going to build a new fire station.
25 We had a public meeting, and we were going to

1 build a new station next door to HCA Hospital
2 on Indian Rocks Road. And I attended this
3 meeting and, it became so bazaar because every
4 speaker who got up there get into the weeds.
5 We didn't like the sirens, you don't have the
6 traffic, you don't have big enough road there,
7 et cetera, et cetera. And I went up to the
8 Chief afterwards and I said, "Wouldn't it have
9 been smarter just to draw a line on a map, and
10 seeing as the county commission is here, and
11 just say, 'The County has told us that we have
12 to locate this fire department within this
13 boundary. If you don't like where we are going
14 to put it, where do you want us to put it
15 within this boundary?'" That would have ended
16 it real quick, because there was no other
17 parcel available.

18 Well, on this redistricting, why don't you
19 just come up with an interactive map, you can
20 go on-line, just scroll the thing, you know, I
21 don't like Jim Frishe's boundary, okay, well,
22 let's change Frishe's boundary. Is that going
23 to work under the Voting Rights Act? Is that
24 going to work with the population? And it is
25 going to tell you in advance, instead of just

1 having these maps here, they are not going to
2 tell me anything. I want something that is
3 going to tell me when that comes up right and I
4 am still going to be in Jack's district, I am
5 not going to have any problem with that,
6 because this is going to comply with the
7 federal mandates, that this is what you are
8 dealing with here is federal mandates. This
9 isn't so much state law. This is what the Feds
10 are telling you we must comply with. That is
11 my suggestion. Thanks for coming out.

12 REPRESENTATIVE WEATHERFORD: Thank you,
13 Commissioner. And, Commissioner, if you will
14 stick around, I think Senator Gaetz will
15 address some of that, and, in fact, if you walk
16 outside, you will see some of our staff. We
17 actually have a website, the House and Senate
18 have a District Builder that has not all the
19 components you are talking about, but most of
20 them, and I know they would be interested to
21 hear your comments as well. So thank you very
22 much for being here.

23 And next up we have Mayor of St. Pete
24 Beach, Mayor McFarlin, followed by Mayor
25 Kathleen Peters and then Jim Jackson.

1 Mayor, thanks for your public service and
2 thanks for being here.

3 MAYOR McFARLIN: Good morning, Steve
4 McFarlin, Mayor of St. Pete Beach. I want to
5 thank you all for allowing us to come and
6 participate and possibly share some newfound
7 thoughts with you.

8 I was born in St. Petersburg. I owned a
9 business in downtown St. Petersburg, the
10 Cadillac dealership, for many years, operated
11 it.

12 I can tell you that the culture between
13 the mainlands, downtown St. Petersburg and the
14 beaches are entirely different. It is almost
15 like we are in a different state out there.
16 Since I moved out there, I retired and moved
17 out to the beach and gotten involved -- we are
18 in the hospitality business out there. Y'all
19 are in the hospitality business. You live off
20 of those. We are a feeder community, which
21 most of the barrier islands are.

22 I think it is important that we keep those
23 groups together out there, because it is a
24 different culture out there. It is -- it is
25 different, we'll just leave it at that, on some

1 occasions. We are currently going through some
2 redevelopment issues.

3 But just like the push Senator Jones and
4 Mr. Frishe have done for us on renourishment,
5 they didn't put that sand there for us to
6 frolic in. No visual there, but they did it as
7 an investment for tourists. Right now as we
8 sit, buses are on the way, shuttles are on the
9 way, they are bringing dollars into the
10 community, which are going to end up in your
11 hands.

12 This is something we need. We need
13 representation that understands that, works
14 that, and maximizes and capitalizes on our
15 natural resources. It is something different.
16 I know -- it is funny, to date -- I have been
17 in office for six months, and to this very day,
18 I have never spoken with the Mayor of St.
19 Petersburg, never had any communication with
20 him, never met him. We -- and I don't mean
21 anything negative by that, but we just don't
22 share in any daily issues. The beaches are
23 different. I just ask that we keep them
24 together and let's maximize it for economic
25 reasons. That is the reason. Thank you.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 Mayor.

3 Next up, Mayor Kathleen Peters from the
4 City of South Pasadena --

5 MAYOR PETERS: Good morning.

6 REPRESENTATIVE WEATHERFORD: -- followed
7 by Jim Jackson, and Bonnie Agan.

8 Mayor, thank you for being here. Good to
9 see you.

10 MAYOR PETERS: Thank you, it is good to
11 see you, and I really want to thank you for all
12 of the work that you do.

13 I was listening to the earlier testimony,
14 and it brought me back, and I apologize to
15 going on a story, but I am just compelled to do
16 it.

17 About 15 years ago, I took a 17-year-old
18 student from Seminole High School to
19 Washington, DC, and we spoke to him -- maybe
20 it's longer, we were speaking to Senator Graham
21 at the time, and then we went to the Capitol
22 and we were sitting in the Senate Gallery, and
23 she sat over the edge and she is lying over the
24 side and she looks at me and she says, "This is
25 my best day."

1 Now, at that time, I was extremely cynical
2 about our government and our government
3 process. And I looked at her shocked, and I
4 said, "This is your best day?" And she said,
5 "Where else but in this country can a
6 17-year-old student come to our nation's
7 Capitol and speak to a Senator and tell him
8 what I think should be changed in our laws and
9 what should be done?" At that time, it was
10 about issues in juveniles and juvenile justice.
11 "And where else can I go to my nation's Capitol
12 and sit in the gallery and watch the process?"

13 We live in the best country and we have a
14 great government, and I believe that the public
15 comment and the public process is the
16 cornerstone of what makes our government great,
17 and so I want to thank you.

18 That young girl on that day changed my
19 life and my perception, and as a result, I now
20 serve in the local community. So I want to
21 thank you for your service. I appreciate this
22 process and I think it is a good process, and I
23 appreciate that you're willing to hear what we
24 have to say before you draw those maps, and I
25 know that you will be willing to hear what we

1 have to say after you draw those maps, so thank
2 you.

3 Now, regarding drawing those maps, I can
4 tell you I am in a very small city. And I am
5 not a barrier island, I am on the mainland.
6 However, my boundaries primarily are the
7 Intracoastal Waterway. And my commonalities
8 are closer to the barrier islands, because the
9 barrier islands are all small cities. Many of
10 us have smaller than 50 employees, and,
11 therefore, we all have small group health
12 insurance issues. Our fire departments are all
13 about the same size.

14 Therefore, we have the same pension and
15 small fire department issues. And I believe it
16 is those commonalities that make it important
17 that we can get together and we can get
18 representation for the small interests that
19 we -- our common interests. And I can tell
20 you, and no disrespect to the Representatives
21 that are in this room that have served my city
22 before, and currently, but there are some times
23 that we will ask for support or representation
24 on different issues and we feel that since we
25 are such a small city combined with a big city

1 like St. Petersburg and Largo and Pinellas Park
2 and Seminole, that small, little South Pasadena
3 doesn't get the representation that it should
4 relating to the other issues that we have that
5 are not consistent with the larger cities. So
6 I believe that we ought to have commonalities.

7 And I believe also that with this economy
8 that we are in that is going to take us a
9 decade to get out of and rebuild, that we need
10 to consider putting districts together with the
11 thought of economic development, commonalities
12 for infrastructure that we can work together
13 and we can build Pinellas County, the Tampa Bay
14 area, the state of Florida, so we can build
15 this state to be the best great -- best --
16 greatest -- although I believe it is, the best
17 and greatest state. But I think we can do
18 better, and I think that is where we need to
19 keep our focus. And thank you again, and I
20 appreciate your service to our state.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 Mayor, thanks a lot. Thank you for your
23 service.

24 Next up we have Mr. Jim Jackson, followed
25 by Bonnie Agan and then Douglas Hickman.

1 MR. JACKSON: Jim Jackson, south St.
2 Petersburg. I represent any number of groups.
3 I speak often at the school board, and it's
4 tradition there for people that support an
5 issue, that if you would stand, all those folks
6 that belong to groups that I belong to, would
7 you stand and support me on this? They know
8 who I am. Yeah, all of you who know me, if you
9 would stand. It's quite a few.

10 And I know many of you, especially my
11 House Rep, Darryl Rouson, my State Senator,
12 Arthenia Joyner. I met you last year when you
13 were speaking at a class size amendment rally
14 in front of St. Petersburg High School.

15 It says tell you your story. My story is
16 this: I am a voter. This is a non-partisan
17 issue. When you buy a house, I do due
18 diligence. I check out the roof, I check out
19 the comps, I check out the square footage, I
20 check out the walkability of the neighborhood.
21 It is buyer beware. What I didn't check out
22 was voter beware. I live in south St.
23 Petersburg. The tiny little red push pin on
24 this very primitive map way down there is me.
25 I am an educator of 43 years. I am using shoe

1 strings because we are on a shoe string budget
2 in education, as you know.

3 My districts absolutely make no sense.
4 These are based on 2002. These are not -- I
5 had a rumor that you didn't have maps.
6 Arthenia Joyner's district covers three
7 counties, divided by this large body of water,
8 Tampa Bay. Darryl Rouson's district covers --
9 55 covers four counties, again divided by this
10 large geographical barrier, Tampa Bay. Kathy
11 Castor, my Congressional Representative, her
12 district also covers three districts divided by
13 this large body of water, Tampa Bay. I live in
14 this little bitty area down here in south St.
15 Pete. They are not contiguous. They are not
16 compact. They have very definite geographical
17 barriers here. When you go to draw these maps,
18 I would like to see you make much more sense
19 about putting people together, no geographical
20 barriers, make them compact, make them
21 contrite, make them make sense. Fair
22 districts, 63 percent of us voted for fair
23 districts. Let's make them fair, let's make
24 them districts as well.

25 A few years back, at my age, I decided I

1 would run for a delegate to the presidential
2 election in Denver. I wanted to be an elected
3 delegate. I didn't realize that even though I
4 live in south St. Petersburg, I had to go to
5 Tampa to in fact run for that because Kathy
6 Castor is my Congresswoman. So I had to pack
7 up all my supporters, some of these folks in
8 the audience, truck them over to Tampa to vote
9 for me, and persevered and won. I know you got
10 thick skins. I ran for public office last
11 year. It is not easy being a public official,
12 I know that.

13 On here, red is actually Darryl Rouson, I
14 thought he'd wear red cowboy boots today, blue
15 is Arthenia Joyner and the beige is Kathy
16 Castor. Again, this looks like a tropical
17 storm or Hurricane Irene spaghetti model. I
18 know it makes no sense --

19 REPRESENTATIVE WEATHERFORD: Mr. Jackson
20 if --

21 MR. JACKSON: Wrap it up. But let's have
22 fair districts, let's get them soon, let's get
23 some maps, let's do the job we elected you to
24 do. Thanks so much.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much. Thank you, Mr. Jackson.

2 Next up we have Bonnie Agan, followed by
3 Douglas Hickman and Rob Roberts.

4 MS. AGAN: Hello, my name is Bonnie Agan,
5 I live in St. Petersburg. I live in this
6 little, tiny green portion of District 18, and
7 State Senator Arthenia Joyner is my State
8 Senator; however, she lives over here, and even
9 in spite of her best efforts, she does -- I
10 don't feel that she represents my interests. I
11 am very lucky to have Representative Darryl
12 Rouson, who really does live in my community,
13 and I feel very well represented and I have
14 total access to him. I don't know that I can
15 say the same thing about the people in the
16 other three counties that his district slivers
17 into.

18 So I would ask that you consider the word
19 "community" when these lines are being drawn.
20 I think that is a very, very important
21 component, of course, along with contiguous and
22 compact.

23 And I believe you said that this is not
24 rocket science, and you are absolutely right.
25 This has been done since 1991 in Iowa without

1 court challenge. They have the software, they
2 have been doing it, and you don't have to
3 reinvent the wheel, just go ask them. I am
4 sure they would be glad to help you. Thank you
5 very much.

6 REPRESENTATIVE WEATHERFORD: Thank you.
7 If only Florida were a perfect square like the
8 state of Iowa, it would make my life a lot
9 easier.

10 Next up we have Douglas Hickman, followed
11 by Rob Roberts and Richard Piper.

12 Mr. Hickman, you are recognized, sir.

13 MR. HICKMAN: Yeah, thank you for coming.
14 I just wish that we really could have more
15 interaction here.

16 I have two points. One of them is
17 beaches, and it is very true, I have lived out
18 there for 34 years now, Redington Shores, okay,
19 and we are. But if you look at what 54 is now,
20 okay, it also takes in part of south St. Pete,
21 a part of Gulfport, much different communities
22 than the beach communities. It also takes in
23 the large black area of Largo, kind of dilutes
24 their thing, because they don't seem to have
25 much to do with the beach communities or

1 anything else.

2 And while I would like to see the beach
3 communities have a little clout, I don't know
4 if you could actually draw those maps and draw
5 them fairly when that's what the law states we
6 are supposed to do.

7 I've had to take a couple of oaths in my
8 life. You elected officials took an oath to
9 defend the Constitution of the State of
10 Florida. Like it or not, Amendment 5 and
11 Amendment 6 are right now the law of the State
12 of Florida. It is not your job in this case to
13 fight it. It should be the people, if they
14 don't like what we voted for, that should do it
15 by an amendment, okay. You should not be
16 spending our money doing this. You took an
17 oath. Follow your oath, you know, please do
18 that and think about it. A lot of us died for
19 our oaths, okay. It means something to me,
20 thank you.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 sir.

23 Next up we have Rob Roberts, followed by
24 Richard Piper and Gail Trask. Rob? Rob is not
25 here right now, so we will put him to the side.

1 How about Richard Piper, is Richard here?

2 MR. PIPER: I am here.

3 REPRESENTATIVE WEATHERFORD: All right.

4 Sorry I didn't give you more -- more room to
5 breathe there, sir. Richard Piper, followed by
6 Gail Trask and then Karen Hodgen.

7 Mr. Piper, thanks for being here. You are
8 recognized.

9 MR. PIPER: Thank you. I am Rich Piper.
10 I live in unincorporated Largo. I am a
11 Professor Emeritus of government at the
12 University of Tampa, and I would like to repeat
13 some of what has been said before, but I will
14 keep this very brief.

15 I would strongly urge the Legislature to
16 comply fully with Amendments 5 and 6 and cease
17 the lawsuit against them, present us promptly
18 with redistricting plans that meet the legal
19 criteria of these and the other laws governing
20 the process, seek genuine feedback on your
21 proposals, providing clear maps to which people
22 can react, and enact appropriate redistricting
23 time for candidates to prepare their campaigns
24 effectively for the 2012 elections.

25 One of my biggest concerns is the last of

1 those four, that drawing this process out well
2 into 2012 is discouraging potential candidates.
3 I have talked with several of them myself.
4 They said, "Well, we just don't feel like
5 running when we have no idea what the district
6 lines are going to be." So I think it is
7 important that you get out some preliminary
8 proposals and get feedback on them promptly.

9 I have gone on-line, you do have a very
10 good website, and I have drawn up districts.
11 They do comply with many of the suggestions
12 that have been made here, and I will leave
13 those -- those with you. I didn't have time to
14 send them. I would still like to fine-tune
15 them a little bit, quite frankly, but I did
16 draw one going down along the beaches as the
17 mayors out there requested. I happen to live
18 in District 54 right now.

19 I live on the mainland in Harbor Bluffs,
20 but we are a part of that beach community in
21 many, many respects.

22 The problem is, of course, the population
23 isn't quite big enough there to justify a
24 district unto itself, so then the question is,
25 which other communities do you include with it.

1 I would include places like South Pasadena and
2 Gulfport rather than inland areas of Largo. I
3 think we should try to keep the districts
4 contiguous. We should respect community
5 boundaries as much as possible.

6 The districts I have drawn for Pinellas
7 County would keep the whole county together,
8 with one exception, and that is the southern
9 district, currently Representative Rouson's
10 district. I would not take it across four
11 counties, but I would still take that one, let
12 it overlap a little bit down into Bradenton.
13 There is an African-American community there
14 that has a good deal in common with the
15 African-American community in south St.
16 Petersburg and Midtown, and this would be a
17 district that would be likely to elect a
18 minority Representative still. With that one
19 exception, I would keep the county together.

20 I would have a congressional district that
21 is all Pinellas County, currently the Young
22 district, and I would have another
23 congressional district that would be north
24 county. Because of the population shortfall,
25 it would need to spill over a little bit into

1 Pasco or Hillsborough, but one can easily find
2 communities there that fit well with north
3 Pinellas County. I think that makes good
4 sense.

5 On the State Senate districts, again, you
6 are going to have to spill over a little bit,
7 but I think that can be done in much the same
8 way, St. Petersburg up to about Ulmerton Road
9 all together, and then on north district, it
10 spills over into Pasco or Hillsborough.

11 So, again, I think there are good ways of
12 doing this. I really regret that you haven't
13 put forth some thoughts. They don't have to be
14 formal proposals yet, but I would like to see
15 what the Legislators are thinking. I know many
16 of you are thinking about it. I have heard
17 what Senator Latvala has suggested --

18 REPRESENTATIVE WEATHERFORD: Mr. Piper,
19 you're going to have to wrap it up for me, sir.

20 MR. PIPER: Great. Just hopefully get
21 this process moving forward expeditiously and
22 fairly. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you,
24 sir. Okay. Next up we have Ms. Gail Trask,
25 followed by Karen Hodgen and then Vince Cocks.

1 I would also want to mention, I know when
2 we first started, I had mentioned that there
3 was about 40 people who had signed up to speak.
4 We now have over 70 people signed up to speak.
5 And is Burt Benner here? Burt, are you here?
6 Somewhere in the back.

7 Burt is the one who signed up last, and so
8 we want to get to Burt. We want to give
9 everybody an opportunity to speak, and so we
10 are going to try to do it -- you know, if we
11 could get every speaker to be about two to two
12 and a half minutes, we want everyone to get an
13 opportunity to have something to say, and a lot
14 of folks came a long way to speak, we want to
15 give them that chance. So I'm sorry for that.

16 Ms. Gail, you are recognized, and thank
17 you for being here.

18 MS. TRASK: Thank you. Thank you for
19 being here to listen. I, for one, appreciate
20 the opportunity --

21 REPRESENTATIVE WEATHERFORD: If you could
22 speak a little closer to the microphone. Thank
23 you.

24 MS. TRASK: If I was a little taller, that
25 might help.

1 Okay. I, for one, do appreciate the
2 opportunity to influence the way my districts
3 are drawn before you draw the maps and make up
4 your minds. I disagree with the notion that
5 we, the people, are too stupid to help draw our
6 own districts. Our government was never meant
7 to be left to the professionals.

8 Our representatives are supposed to be
9 just that, our representatives, not
10 professionals that make proclamations from on
11 high and send them down to we, the people. So
12 I appreciate the opportunity to be here and be
13 heard.

14 I am concerned about districts such as the
15 U.S. Congressional District 11, which may be
16 drawn according to the letter of the law, but
17 it is certainly not drawn according to the
18 spirit of the law, allowing communities to have
19 a common vote. Gerrymandered districts such as
20 this one with pieces taken from three counties
21 and different communities ripped apart and
22 diverse communities stuck together, those are
23 not going to be tolerated by the people when we
24 see these new districts drawn. We are going to
25 hold you accountable. I know that they go

1 through other layers of government to be
2 approved and disproved; however, you are our
3 representatives, you are the ones that we will
4 hold accountable. We expect you to draw these
5 districts lines fairly and honestly and
6 according to both the letter of the law and the
7 obvious spirit of the law to keep communities
8 together. I say it is of utmost importance
9 that you keep districts truly compact and
10 follow existing political and geographic and
11 community boundaries, and these are readily
12 available.

13 REPRESENTATIVE WEATHERFORD: Thank you.
14 Next we have Karen Hodgen with the Pinellas
15 Democratic Executive Committee, and then Vince
16 Cocks, followed by Peter Franco.

17 Karen, you are recognized. Thanks for
18 being here.

19 MS. HODGEN: Thank you. Defining
20 communities and preserving them are an aspect
21 of redistricting. I live in Gulfport, which is
22 a fairly small town. We have less than 13,000
23 in population, and we are only 2.8 square miles
24 in area. So we are pretty small with size and
25 population, but we are pretty big in spirit.

1 The interesting thing is Gulfport has been
2 one of those communities that's been a victim
3 of gerrymandering. For our size, we have two
4 U.S. Congressional districts, two State Senate
5 districts and three State House of
6 Representative districts, and this simply
7 divides individuals our community. Either we
8 must be pretty important and we deserve
9 super-special representation, or either we have
10 been carved up to justify or to dilute our --
11 to dilute our vote. So that definitely takes
12 away our sense of community.

13 Gulfport really should be represented by
14 one Congressperson, one State Senator and one
15 State House of Representative. The size we are
16 simply does not justify how we have been
17 divided.

18 Amendments 5 and 6 are important to us.
19 Now it is your duty to act accordingly. We
20 need and expect fair districts so communities
21 like Gulfport and other similar communities
22 will remain intact. We like the language of
23 the Fair Districts. Terms like "compactness"
24 and "contiguous lines" struck a cord with us.
25 It spoke of fairness. Unfortunately, our

1 Florida Legislators can't seem to keep their
2 fingers out of the pie. Some states have
3 independent commissions that determine the
4 districts so it is done fairly and impartially,
5 and I would like to think that maybe Florida
6 could be one of those states as well. Thank
7 you.

8 REPRESENTATIVE WEATHERFORD: Thank you.
9 Next we have Vince Cocks, followed by Peter
10 Franco and Matthew Lettelleir.

11 MR. COCKS: Good morning. I reside in
12 south St. Petersburg. I am represented by
13 Honorable Darryl Rouson in our House, and
14 Honorable Arthenia Joyner in our Senate. I
15 applaud your voting record this session. That
16 is Darryl and Arthenia, I applaud that.

17 I am in total agreement with earlier
18 speakers such as Mr. Murray, Jim Jackson and
19 Rich Piper, who stated that Pinellas should
20 remain contiguous and one area when
21 redistricting. Darryl is a neighbor of mine,
22 lives four blocks away, he lives directly
23 across from where I worship. Arthenia lives in
24 Tampa. I don't get to see her often. I see
25 Darryl often. But I admire your service, I

1 really do, Arthenia.

2 Recently Bill Maxwell in *The St. Pete*
3 *Times* reported a quote of a former university
4 professor. This was in last Sunday's edition.
5 The quote was, "When money takes over politics,
6 only a shadow of democracy remains." The
7 author of this was Pope Benedict XVI, and he
8 represents over 1.1 billion Catholics
9 worldwide.

10 Not only has the love of money cast a
11 shadow over our democracy in Florida, there is
12 a total eclipse now. In the session this year,
13 our Legislature voted along party lines to
14 resurrect House Bill 1207, leadership --

15 REPRESENTATIVE WEATHERFORD: Sir, we are
16 here to talk about redistricting, so tie it to
17 redistricting for me.

18 MR. COCKS: This is, because you know
19 what, when you don't -- you started this by
20 saying we wouldn't be interrupted by you.
21 Please don't interrupt me. I won't interrupt
22 you.

23 REPRESENTATIVE WEATHERFORD: As long as
24 you are talking about redistricting, I can
25 assure you you won't be.

1 MR. COCKS: This is about redistricting,
2 money is about redistricting.

3 REPRESENTATIVE WEATHERFORD: Keep it to
4 redistricting.

5 MR. COCKS: My God. Special interest
6 groups now line up to give House and Senate
7 leaders obscene amounts of money anonymously.
8 Howard Troxler of *The St. Pete Times* described
9 this as campaign slush funds operated legally
10 and officially by the leaders of the
11 Legislature themselves. This is Florida where
12 the laws of democracy are now openly and
13 officially for sale.

14 This folly continues with House Bill 1355,
15 a voting bill that has to do with
16 redistricting. This is under the guise of
17 reigning in voter fraud.

18 Then we got -- I will leave this one out.

19 All right. Here is another one, House
20 Bill 45, shouldn't even go into that, that is
21 control of gun laws that will now be done by
22 the State, and no, you know, local control.

23 REPRESENTATIVE WEATHERFORD: Vince, if you
24 could, wrap it up for me, sir, because we are
25 short of time now.

1 MR. COCKS: Oh, sure, I am not taking a
2 lot of time here. And my Mayor last night, he
3 spoke at my father-in-law's church, and he
4 stated this is the stupidest law that he's ever
5 seen.

6 That being said, I ask you, elected
7 officials, please enact fair districts with
8 utility in mind. Let the demons of special
9 interest be vanquished. Do the greatest amount
10 of good for the greatest amount of people. And
11 I leave you with, "Alas, poor Yorick, I knew
12 him well." Thank you.

13 REPRESENTATIVE WEATHERFORD: Thank you.
14 Next up we have Peter Franco, followed by
15 Matthew Lettelleir and Joseph Saportas.

16 Peter, you are recognized, sir.

17 MR. FRANCO: Yes, thanks for giving me the
18 time. My name is Pete Franco. I am a resident
19 in South Pasadena, Pinellas. I just want to
20 first acknowledge the Board for putting this
21 meeting together.

22 My thoughts are that I am glad that you
23 are doing this and giving us a chance to give
24 you some feedback on what we think with respect
25 to redistricting, so I acknowledge you for it.

1 And, in general -- so my general purpose of
2 being here is to acknowledge you for putting
3 this together.

4 As many others have said, I would -- one
5 of my strong requests would be to keep the
6 boundaries as contiguous as possible,
7 especially congressional districts that
8 currently are crossing over into Tampa. I
9 think Pinellas should be Pinellas, pretty much
10 the bottom line, and to keep the districts as
11 contiguous as possible.

12 And, yeah, I -- with respect to the whole
13 timeline of this hearing, I actually -- again,
14 I appreciate that you have taken the time to do
15 it and not rushing it right up off to the
16 courts, and to keep in line with the
17 regulations, both state and federal, but to
18 give us an opportunity to give you our input.
19 That is pretty much what I came to say, and
20 thank you for giving me the time.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 sir.

23 Next up we have Matthew Lettelleir,
24 followed by Joseph Saportas and then Wendy
25 Grassi.

1 MR. LETTELLEIR: Good morning. My name is
2 Matt Lettelleir, and I am born and raised and
3 now live in northeast St. Pete. Thank you for
4 allowing me to speak this morning, and thank
5 you for holding these hearings. I, for one,
6 believe these hearings are important and show
7 how much this Legislature appreciates its
8 constituents. I also appreciate you all being
9 here and taking time away from your families.

10 I agree with the Mayor from Indian Rocks
11 Beach that our communities have distinct
12 characteristics that should be considered. I
13 believe that downtown St. Pete has more in
14 common with downtown Tampa than with St. Pete
15 Beach.

16 I believe lines can be drawn while staying
17 within the constitutional provisions, but very
18 few of the people in this room will be happy,
19 no matter what you do. I say to these that are
20 unhappy with the Legislature, to run for office
21 themselves, and if elected, you may begin to
22 understand and have an appreciation for your
23 hard work.

24 I also say that if you don't like the
25 timeline, then propose an amendment to allow

1 the Legislature to move the time frame up.

2 Thank you very much.

3 REPRESENTATIVE WEATHERFORD: Thank you,
4 sir.

5 Next up, Joseph Saportas, followed by
6 Wendy Grassi and Kofi Hunt.

7 Joseph is with the Citizen and Native of
8 Florida. Joseph, are you here? I don't see
9 him here, so we will move forward to Wendy
10 Grassi.

11 Wendy, thank you for being here, followed
12 by Kofi Hunt, and Winnie Foster. Wendy is with
13 Planned Parenthood. Thanks for being here.

14 MS. GRASSI: I am, I am with Planned
15 Parenthood of Southwest and Central Florida.

16 It appears to us that the Legislature's
17 timeline for drawing districts is extremely
18 unfair to Florida voters. Along with so many
19 others, we question why the Legislature hasn't
20 prepared the new district maps earlier, leave
21 time to debate them this fall and then pass
22 them during the first week of legislative
23 session, instead of waiting to finalize the
24 maps until the end of the session in March.

25 Florida's maps will be approved later than

1 almost every other state in the nation. Our
2 new districts may not be finalized until
3 August, just two months before the 2012
4 elections. Challengers or new candidates will
5 have little, if any, time to mount campaigns.
6 Uncertainty as to what a district will look
7 like helps incumbents, because incumbents
8 already -- are already known to the voters and
9 have a huge advantage in raising money.
10 Challengers will be reluctant to throw their
11 hats in the ring. We can only think that the
12 current timeline is designed as an incumbent
13 protection plan.

14 Also, why is the Legislature -- why is the
15 Legislature spending our precious tax dollars,
16 millions of dollars, to oppose Fair Districts
17 passed during last year's elections by
18 63 percent of the voters? All of this money is
19 being spent unnecessarily while teachers are
20 being fired, social services are being cut and
21 fewer women are able to access healthcare.

22 All of this -- all of this leads us to
23 believe that the real mapping is going on in
24 back rooms, and that the real new maps will be
25 presented at the end of the upcoming

1 legislative session to be rammed through
2 without the public really knowing what is going
3 on.

4 We call on the Legislature to heed the
5 voters. This issue is a test of our democracy
6 and the will of our people. Thank you very
7 much.

8 REPRESENTATIVE WEATHERFORD: Thank you.

9 Next up we have Kofi Hunt, Kofi is with
10 Awake Pinellas, followed by Winnie Foster and
11 then Darden Rice.

12 MR. HUNT: Hi. Thanks for letting me talk
13 today. I am in Jeff Brandes, Jack Latvala and
14 Bill Young's district. I was born and raised
15 in St. Petersburg, Florida.

16 You know, one thing with me is I have a
17 difference from a lot of people, maybe it is
18 because I am a lot younger, is I don't see race
19 as much. I don't see -- I see more the
20 communities that I think that that should be
21 considered definitely when considering the
22 districts.

23 Also about we don't want any maps that are
24 hard, we would like maps that are flexible, so
25 that we could, you know, discuss them, and just

1 open democratic debate and discussion.

2 I don't think that we do have adequate
3 information or resources on hand. I personally
4 work two jobs to contribute to the process, and
5 I would appreciate the maps, you know, as well.
6 And when you do create the maps and you bring
7 them to the public, I would like you to, you
8 know, participate in the open dialogue with all
9 of the challenges you get, the logical ones.
10 And also I would like all the information
11 regarding the legal challenges to Amendment 6
12 to be provided to the broader public for voter
13 scrutiny. Beyond that, you know, we would like
14 fair districts. Fair districts, fair
15 democracy, that is my saying. Thanks.

16 REPRESENTATIVE WEATHERFORD: Thank you.

17 Next we have Winnie Foster, followed by
18 Darden Rice and then Mary Louise Ambrose.

19 MS. FOSTER: Okay. That is not senility.

20 REPRESENTATIVE WEATHERFORD: Somebody
21 knows how to take control of a room.

22 MS. FOSTER: I am 84 years old -- thank
23 you, gentlemen, for your assistance -- and I
24 have a 40-year history in south St. Petersburg
25 where I have been a grass roots organizer. I

1 now have a program called the Sojourner Truth
2 Center. Much of my organizing has been done in
3 south St. Petersburg. I was part of the group
4 that helped to elect the very first black judge
5 in Pinellas County when everybody said it can't
6 be done. So I know that things can change and
7 happen, and I am always willing to try
8 something new.

9 I see many friends that I am acquainted
10 with in the Pinellas delegation, and we are
11 proud to be able to contact them, but I wanted
12 to tell you about the redistricting that I
13 remember when we got what was called the bug
14 splat districts. They really looked like
15 somebody just threw something against the wall
16 and tentacles went out, and we know that they
17 have been not really as successful as I guess
18 the drawers had hoped.

19 It was done as a compromise negotiation
20 between two groups, and I think one of the
21 groups that compromised on that really realized
22 later that they had lost something very
23 important, they had lost some very effective
24 Legislators.

25 One of the lines was drawn in my district,

1 a block away from the house of one State
2 Senator, and moved a Tampa Representative into
3 St. Petersburg district, so that she only had
4 17 precincts left in Tampa and something like
5 70 in Pinellas County. So that -- that was not
6 a win for those incumbents. It was a result of
7 a compromise.

8 And I can remember that we talked a great
9 deal during the hearings for that redistricting
10 about being compact and contiguous and
11 community, and I can remember many of us
12 standing up and like people are here saying
13 that that is something to be adhered to, and
14 yet it wasn't.

15 And so I just want to tell you this
16 history because, as you know, if we don't know
17 our history, we are going to repeat it, perhaps
18 not in pleasant ways. So thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much. We appreciate it, Ms. Foster.

21 Next up we have Darden Rice with the
22 League of Women Voters, followed by Mary Louise
23 Ambrose and then Joe Barkley.

24 MS. RICE: Thank you. Good morning. My
25 name is Darden Rice, and I am the President of

1 the St. Pete League of Women Voters. I am also
2 the former Chair of the local Fair Districts
3 Now campaign where the League, along with many
4 others, worked for the passage of the Fair
5 Districting amendments.

6 I want to thank you for your service. We
7 know this isn't an easy job. I have spoken and
8 worked with many of you sitting here.
9 Sometimes a good friend is the friend that
10 tells you what you need to hear and not what
11 you want to hear, so I am here in the spirit of
12 I am offering criticism, but I know that you
13 are working hard at what you do and I know that
14 we share the common goals of wanting to see
15 democracy work in our state.

16 The Florida asks -- excuse me, the League
17 asks the Florida House to stop spending our own
18 taxpayer money against us. Please respect the
19 will of the 63 percent of Florida voters who
20 want new redistricting standards to be applied.
21 The House is using our taxpayer money against
22 us to attack and invalidate Amendments 5 and 6.
23 It is spending our money to join a lawsuit
24 asking the court to strike the amendments, and
25 we ask you to withdraw from this lawsuit

1 immediately. As the State makes major cuts,
2 these efforts to thwart voters wastes money and
3 doesn't do a thing to create jobs.

4 In addition to the 30 million, 30 million,
5 set aside to avoid Fair Districts, *The Miami*
6 *Herald* reported yesterday that the cost of
7 fighting redistricting continued to mount. In
8 addition to the two and a half million spent on
9 lawsuits, the paper also reported that these
10 hearings, which are perhaps less than useful
11 because we have no maps to comment on, have
12 cost the House \$48,000 through July. In the
13 spirit of transparency and fairness, please
14 provide documents to either refute *The Miami*
15 *Herald's* claims, or provide invoices to give
16 the public reasons for your expenses.

17 Finally, PolitiFact and *Orlando Sentinel's*
18 malarkey meter weight the Legislature's denials
19 of wasting money as false.

20 If you would stop fighting this, instead
21 applying these standards as voters intended,
22 there would be no need for wasting massive
23 amounts of taxpayer money.

24 And thank you for listening to my
25 constructive criticism.

1 REPRESENTATIVE WEATHERFORD: Thank you.

2 MS. RICE: Thank you.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much. And, Ms. Rice, if -- I hope you can
5 stay to the end of the meeting, because Senator
6 Gaetz will have an opportunity, and other
7 members will too, to address some of those
8 questions. And sometimes information gets out
9 there that may not be completely factual. We
10 will make sure that we address each and
11 everything that you mentioned there. So thank
12 you.

13 MS. RICE: I look forward to that. If
14 there's an opportunity for a dialogue to ask
15 questions back, we would appreciate that.
16 Thank you.

17 REPRESENTATIVE WEATHERFORD: Thank you.
18 Next up we have Mary Louise Ambrose with the
19 Pinellas County Democratic Executive Committee.
20 Thank you for being here. And followed by
21 Ms. Ambrose, we have Joe Barkley and then
22 George Gonzalez.

23 MS. AMBROSE: Good morning. My name is
24 Mary Lou Ambrose, and I am from Belleair
25 Bluffs. Mr. Frishe is supposed to be my

1 Representative.

2 My question to you is, why haven't you
3 done what we asked you to do?
4 Sixty-three percent of us said we want fair
5 districts, we want contiguous, we want compact,
6 we want no political input. What we got and
7 you guys -- what we have now and what you guys
8 proved to us this morning when you introduced
9 yourself is a malarkey of various lines and
10 snakes and little districts butting into other
11 little districts in order to do one thing.

12 This is what we have. The only reason for
13 this is sitting here in front of me.
14 Incumbency is what it is all about, and we want
15 you to stop it. We want fair districts. I am
16 thinking more like squares and rectangles here
17 instead of whatever this is.

18 And the second thing I want you to do is
19 stop spending our money fighting us. There is
20 absolutely no reason why you should sue your
21 constituents. What is wrong with you?

22 The fact is we want fair districts, we
23 want them now, we don't want to wait until next
24 June. We want to be able to bring up people
25 who will at least give you some competition.

1 You need it.

2 REPRESENTATIVE WEATHERFORD: Thank you.

3 Next up we have Mr. Joe Barkley, followed
4 by George Gonzalez and Maria Shurggs -- or
5 Scruggs.

6 COMMISSIONER BARKLEY: That is a tough act
7 to follow. That lady is my wife.

8 REPRESENTATIVE WEATHERFORD: Well, you
9 were smart to let her go ahead of you then.

10 COMMISSIONER BARKLEY: I didn't even know
11 I was speaking, she put my name on the list,
12 but I will just say a few words.

13 I live in Belleair Bluffs, I am a
14 Commissioner there. Like many folks who are
15 local elected officials, they want to serve
16 their communities more. The way to do that is
17 to seek wider office, to seek a higher office.

18 When you run for office -- I hope other
19 people in the back realize this. When you run
20 for office, you don't just wake up one day and
21 decide to run for office. It takes a long time
22 to run for office. You have to develop a
23 committee, you have to develop a plan, you have
24 to raise money, you have to knock on doors, you
25 have to make phone calls. You have to do

1 everything possible to get your name out and
2 your ideas out.

3 When we have this kind of situation where
4 we have no time as an elected official who
5 wishes to run for office to form a committee,
6 to decide where to make a phone call, to decide
7 where to knock on a door, to decide how we can
8 best represent people, this is depriving the
9 citizens of Pinellas County and the State of
10 Florida of the right to have a vote. This is
11 extremely, extremely bad behavior on your part,
12 and I take personal offense at this and I hope
13 we will correct this immediately.

14 We need to have a competitive elective
15 system. You guys are all shoe-ins because we
16 have no way to make a valid campaign when we
17 have no way to know where our elected
18 representation is going to be. Thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you,
20 Commissioner.

21 Next we have Mr. George Gonzalez, followed
22 by Maria Scruggs and then Judy Landon.

23 MR. GONZALEZ: Good morning. In my
24 statements, you will probably sense a man that
25 has lost all faith and hope in his political

1 system and his legislative process. I am not
2 really here today to give you my opinion about
3 redistricting, how to draw the districts, or to
4 plead that you create fair districts that more
5 aptly represent the voter composition of our
6 state, because I know the money and time wasted
7 on these meetings is only for show.

8 If you were truly representatives of the
9 voters, these meetings would have been held
10 months ago, would surely include maps,
11 suggested districts, their voter composition,
12 and you would not be trying to circumvent the
13 will of the people with lawsuits.

14 I am here to sound a warning. Sixty-three
15 percent of the voters of this state, well above
16 your ability to claim partisanship,
17 resoundingly ordered you to redraw districts to
18 be more competitive, that reflect the fact that
19 we live in an evenly divided state. They asked
20 you to stop creating districts that tap into
21 surrounding minority or opposing party areas
22 that there is no commonality with where you are
23 putting it, and doing it for the sole purpose
24 of strengthening one district for your party
25 while weakening the other district to make it

1 competitive for your own party.

2 Despite your lawsuits to circumvent the
3 will of the people, despite the fact that you
4 insult our intelligence by trying to make us
5 think you come to us for political comment,
6 even though you bring us no maps to comment on,
7 you and everybody in this room knows what the
8 intent of the voters was, regardless of party
9 affiliation.

10 By now your brains are probably saying to
11 yourself, "Let's discount this guy's
12 commentary, he is just an angry Democrat."
13 Yes, I am a Democrat by default, because
14 Republican policies have devastated my family.
15 I could care less if I was represented by the
16 wigwam party.

17 Frankly, however, what I yearn for is the
18 America and Florida of my childhood where
19 Republicans and Democrats did not operate under
20 the premises of obstruction, where the parties
21 were not obsessed with keeping unfair balance
22 in the Legislature and did not -- and did not
23 reflect the voters they represented. I long
24 for the days when I respected Republicans even
25 though I disagreed with them, not hated them

1 for the pain they are causing my family. I
2 long for the days when both parties either
3 chose or were forced to compromise in order to
4 do what was best for the citizens, not what was
5 best for themselves or their reelection.

6 REPRESENTATIVE WEATHERFORD: George, I am
7 going to have to ask you to wrap it up, sir.
8 We are getting tight on time.

9 MR. GONZALEZ: They chose to -- they chose
10 redistricting to send you a clear message, and
11 the intent was clear, so my warning is this:
12 You ignore and circumvent the will of the
13 people at your own peril.

14 If you do not do this honestly and adhere
15 to what is right, ethics charges, lawsuits and
16 federal investigations. I beg you, do this
17 right, you could begin the healing that has
18 this state and this country divided. You could
19 be the catalyst that causes us to find common
20 good for all instead of the selfish need for
21 one.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 sir.

24 Next up we have Maria Scruggs, followed by
25 Judy Landon and Marilyn Hafling.

1 I just want to remind everybody, we've got
2 probably almost 40 speakers left, and not a lot
3 of time, so, please, we don't want to be rude
4 and interrupt anybody, but we do want to keep
5 to a very tight time frame, so be brief.

6 Thank you very much for being here. You
7 are recognized.

8 MS. SCRUGGS: You are quite welcome, and
9 for the sake of brevity, I will be brief.

10 First of all, good morning, and thank you
11 for the opportunity to come to present to you
12 this morning. My name is Maria Scruggs, and I
13 live in Representative Rouson's district and
14 Senator Joyner's district. And contrary to an
15 earlier comment made that the minority -- the
16 community of Midtown, which is primary
17 African-American, does not need lines drawn
18 that are compact and contiguous is not true.

19 We do not necessarily have the same
20 interests of African-American communities in
21 Manatee just by the nature of our ethnicity.
22 So, please, when you are drawing the lines,
23 consider that not to be the case.

24 For the sake of brevity, I will not repeat
25 a lot of what has been said today. I say that

1 Amendment 5 and Amendment 6 have been passed by
2 63 percent of the voters. As you can tell from
3 the comments here, from the comments that have
4 been heard around the state, taxpayers are
5 frustrated and they are weary. I beg of you to
6 take the framework of Amendment 5 and Amendment
7 6 and ensure that the lines are drawn to fall
8 within that framework, and then after your work
9 has been done, for the sake of transparency and
10 the sake of clarity, establish a framework that
11 clearly demonstrates that you have adhered to
12 what the voters asked you to do by the passing
13 of Amendment 5 and Amendment 6.

14 And, finally, withdraw from the
15 litigation. That does not lend well to the
16 voters, and I am certain that if this
17 litigation is to ensue, many of you probably
18 will not be here in your next terms. Thank
19 you.

20 REPRESENTATIVE WEATHERFORD: Thank you.

21 Next up we have Judy Landon, followed by
22 Marilyn Hafling and then Mary Pugh.

23 MS. LANDON: Hi. Thank you so much for
24 allowing me to speak with you today. A lot of
25 what I have to say is just going to be a repeat

1 of what other people have said, so I am going
2 to keep it brief.

3 Please stop fighting Fair Districts with
4 taxpayer dollars. That is just not right. It
5 really isn't.

6 Eliminate multi-county districts as much
7 as you possibly can, because they really don't
8 make any sense. And in the past, they have led
9 the districts that have crossed the entire
10 state. That is insane.

11 We have -- another thing I would like to
12 say here is that it seems like we have the cart
13 before the horse, which a number of people have
14 said here, but we don't have maps to comment
15 on. These maps aren't going to be coming out
16 until the legislative session, from what I can
17 see from the timeline. It would be best if
18 they came out earlier.

19 At the time that they do come out, what
20 type of review and comment will the public get?
21 What type of input are we going to get? Will
22 there be more public hearings? The last thing
23 that I -- well, see, and here's another thing
24 that kind of concerns me. Those of us who want
25 to play by the rules and use the mapping

1 software, My District Builder, we have a key
2 component of it taken out, *The Sun Sentinel*
3 brought this out, that the -- let's see -- we
4 have the removal of the compactness and
5 geospatial software between the first release
6 last year and the second release of My District
7 Builder, and I do believe that would have made
8 things a little bit easier. I will try to do
9 it as best I can without.

10 And the last thing that I would like to
11 say is to -- well, at the very end, even though
12 we have very little time, to move up the plan
13 approval, to bring to the floor the first week
14 of the legislative session and try to vote on
15 it as soon as possible so that we will be able
16 to meet the June 8th deadline for qualifying
17 for state and federal elections in Florida, to
18 be able to get those district boundaries set
19 before people are trying to qualify and run for
20 office, not only for the candidates, but for
21 everybody involved. I work for the Supervisor
22 of Elections' office, and I am holding my head
23 thinking what that one is going to do to us
24 really.

25 REPRESENTATIVE WEATHERFORD: Ms. Landon --

1 MS. LANDON: So thank you very much.

2 REPRESENTATIVE WEATHERFORD: Thank you
3 very much. Thank you for being here.

4 Next up we have Marilyn Hafling with the
5 League of Women Voters -- I hope I said that
6 right, ma'am, I apologize if I didn't -- Mary
7 Pugh and then John Brysacz.

8 You are recognized.

9 MS. HAFLING: Thank you. I am Marilyn
10 Hafling. I am a board member of the League of
11 Women Voters of St. Petersburg. I've lived in
12 Pinellas County since 1979, the last 31 years
13 on Madeira Beach. I have appreciated hearing
14 all of my fellow Pinellas County people speak
15 so passionately today, and I really don't think
16 there's a lot I could add to their eloquence.

17 I would certainly urge all of you to stop
18 fighting Fair Districts. We worked very, very
19 hard to get Fair Districts passed and it is
20 what the citizens want, and I really am boggled
21 that people think they can set aside what the
22 voters have said they want with our money.
23 That just blows me away that we as taxpayers
24 pay both sides of lawsuits all the time. It
25 happens in our little towns, it happens in our

1 county, it happens at our state, and I am
2 really beginning to feel very victimized, and I
3 am just asking that you get on with the
4 business and draw up these districts the way
5 they are supposed to be, the way the citizens
6 asked it to be. As Mr. Hickman said, you took
7 an oath to support our Constitution, and that
8 includes the Fair District amendments, so
9 please get on with it. Thank you.

10 REPRESENTATIVE WEATHERFORD: Thank you.

11 Next we have Mary Pugh, followed by John
12 Brysacz and then Marg Baker.

13 MS. PUGH: I am Mary Pugh, just an
14 ordinary citizen here in Pinellas County. I
15 live in Florida. I want to thank you for
16 hearing me.

17 I have to say that watching this, there is
18 a huge and ominous disconnect between the
19 Florida Legislature and its citizens, and I can
20 see it in your body language in some of you.

21 As a citizen of the State of Florida, I
22 would like to believe that my voice is my vote,
23 and I need to protect that voice by insisting
24 and demanding that my vote is counted
25 accurately and fairly. We as citizens have the

1 right to expect that our Legislature follow the
2 law as voted upon by the people and enshrined
3 in the Florida Constitution. Florida
4 politicians will be held accountable by
5 citizens demanding the new districts will be
6 drawn fairly and legally.

7 It is time that Florida citizens start
8 choosing their leaders and stop politicians
9 from choosing their voters.

10 Florida leaders must follow Amendment 5
11 and 6 as voted on by 63 percent of the
12 citizens. Florida politicians must address
13 disfranchisement laws and census miscounts,
14 which screws a lot of -- I mean, skews a lot of
15 the -- it does that, too, but it skews a lot of
16 the census and how this is followed up on.

17 REPRESENTATIVE WEATHERFORD: We have had a
18 couple of Freudian slips today already.

19 MS. PUGH: Oh, yes. Well, we are angry,
20 we are angry. We want fair districts. It begs
21 the question that in a largely Democratic
22 state, our Legislature is largely Republican.
23 This is due to crafty legislative line drawing,
24 and this is a conflict of interest and allows
25 for politicians to design their own districts.

1 I am hurrying.

2 35.8 percent of the voters in Florida are
3 registered Republicans, 42 percent are
4 registered Democrats, but 63 percent of the
5 House is Republican and 65 percent of the
6 Senate is Republican. These numbers are
7 possible due to the 1992 court-drawn maps.
8 This move concentrated minority majority
9 districts. Since then, there have only been
10 three African-Americans and three Hispanics
11 elected to Congress.

12 These maps diluted the Democratic
13 congressional and legislative districts, thus
14 allowing Republicans to control the Legislature
15 and assume the majority since the mid 1990s.
16 These court-drawn maps clearly favored one
17 party over the other, so who is protecting my
18 voice and my vote? Our elected officials are
19 sent to the Legislature to protect the
20 citizens' rights, not their seats. It is time
21 to watch the watchers.

22 REPRESENTATIVE WEATHERFORD: Thank you.

23 Next up we have John Brysacz, I hope I
24 said that right, sir, followed by Marg Baker
25 and then Jason Smith.

1 MR. BRYSA CZ: I noted that for you
2 phonetically. It is a Polish name, so I can
3 understand why you may have difficulty with it.

4 My name is John Brysacz, and I am a
5 profound skeptic. All types of interested
6 parties, including the League of Women Voters,
7 the Sierra Club, private citizens and various
8 members of ethnic, agricultural and business
9 communities have stated their desires and
10 wishes regarding redistricting. In those
11 statements, they hoped, prayed, encouraged,
12 cajoled and treated, beseeched and even begged
13 that our Legislature consider and pay heed to
14 those during its upcoming and untimely
15 deliberations. The language of supplication
16 that characterizes citizen speakers at those
17 forums has shown that there is little
18 understanding about just who serves whom.

19 Let there be no mistake or confusion. You
20 work for me. You work for us. A theater of
21 the absurd has existed in these forums.
22 Interest in and mindfulness of the statements
23 and messages of the citizen speakers seems to
24 be merely famed.

25 One gentleman speaker at Key West forum

1 nailed it when he stated that there's little
2 need for such forums when computers could
3 simply, with a legitimate and appropriate use
4 of mathematical logarithms and geometric
5 fractals, resolve any challenges accompanying
6 fair redistricting, and in a completely
7 non-partisan fashion.

8 A kind of sophistry permeates these
9 forums. Wikipedia refers to the definition of
10 "sophism" thusly, quote, "Plato was largely
11 responsible for the modern view of the sophist
12 as a greedy instructor who uses rhetorical
13 slight of hand and ambiguities of language in
14 order to deceive or to support fallacious
15 reasoning. In this view, the sophist is not
16 concerned with truth and justice, but instead
17 seeks power," end quote.

18 What folly are these forums? Let me
19 iterate some reasons for my skepticism and
20 discharge of --

21 REPRESENTATIVE WEATHERFORD: Sir, I'm
22 going to have to ask you to wrap it up, too.

23 MR. BRYSAZ: "Despite the vote of the
24 people, we, the Legislature, don't support
25 certain amendments to the Florida Constitution

1 that call for fair, compact, contiguous
2 redistricting, so we are going to fight you in
3 the courts" is the mantra of the Florida
4 Legislature. Too, "we don't believe in global
5 warming" is a mantra among certain leading
6 elements of a certain political party. One
7 might glean from these two seemingly disparate
8 statements two things. In the former, they
9 don't believe the power of the people in a
10 democratic society. In the latter, they don't
11 believe in scientific fact and observation.
12 Both are losing propositions.

13 Despite that, the Legislature has sent its
14 minions among the populous to assert their
15 beliefs as truths. They are sophists. They
16 are --

17 REPRESENTATIVE WEATHERFORD: Mr. Brysacz,
18 you are over three minutes, so I am going to
19 have to ask you to stop.

20 MR. BRYSACZ: -- ancient Greece, they will
21 employ --

22 REPRESENTATIVE WEATHERFORD: Mr. Brysacz,
23 there's people behind you that need to have the
24 opportunity to speak, sir. There's a lot of
25 people here.

1 MR. BRYSA CZ: -- to attempt to deter the
2 inevitable.

3 REPRESENTATIVE WEATHERFORD: Please.
4 Thank you, thank you for being here. If you
5 turn those in, we will get those in the record,
6 okay? Thank you, sir.

7 MR. BRYSA CZ: We watched that guy for four
8 minutes talk about some guy named Libby's map.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 sir. Thank you.

11 Okay. Next up we have -- next up we have
12 Ms. Marg Baker. Marg, thank you very much.
13 We've got Jason Smith after Marg, and then
14 after Jason, we have Tom Tito. And, please, we
15 want to remind everybody to be respectful to
16 people behind you that want to have an
17 opportunity to speak.

18 Thank you for being here, Marg. You are
19 recognized.

20 MS. BAKER: Thank you. First of all, I
21 would like to contend with the stated law that
22 63 percent of the population voted for. This
23 is what I disagree with and think is
24 unconstitutional. Districts shall not be drawn
25 to deny racial or language minorities. The

1 State cannot change the Federal Constitution,
2 which states, "We, the people of the United
3 States," not we, the racial segments.
4 Contiguous and physical boundaries seem to
5 contradict. I can see why you guys are having
6 so much trouble. There should not be anything
7 to do with minorities or languages. All that
8 we should be concerned with are contiguous and
9 physical boundaries.

10 We are not a democracy. We are a republic
11 which relies on law, not a few people. We're
12 just one state trying to change, we, the
13 people. There are non- -- there are no
14 minorities referred to in our Constitution
15 until we just voted this in.

16 Now we have language and minorities in --
17 as an amendment of our Constitution. This
18 needs to be deleted. There are no minorities.
19 Citizens of the United States are all created
20 equal. And English is Florida's constitutional
21 language. Thank you.

22 REPRESENTATIVE WEATHERFORD: Thank you
23 very much.

24 Next up we have Jason Smith, followed by
25 Tom Tito and Craig Glaser. Mr. Smith.

1 MR. SMITH: Well, she just said there's no
2 minorities, but I feel like a discriminated
3 minority. I am a Union member.

4 On-line program maps, first of all, they
5 are not practical, they are not user friendly
6 and they are not our job. By law, only
7 Legislators can submit a map. And I have no
8 reassurances that if I do take the time to
9 actually learn your software and draw your maps
10 for you, are you really going to look at it, is
11 that going in the trash can, are you going to
12 cherry pick from a group of, you know, people
13 who made maps that you wanted to make maps? I
14 don't know what that is all about. That seems
15 like a waste of our time.

16 Third party, we should have hired an
17 independent firm to draw several versions of
18 the maps for us to comment on and discuss
19 during these hearings. It would have been
20 really great to have something to bounce back
21 and forth and actually have context with which
22 to have a discussion. We are talking about
23 stuff that, you know, we have no control over.

24 The interim session begins in September,
25 and I know that you will take the time to focus

1 on career creation. Jobs are things that we do
2 when we graduate from high school so we can pay
3 for gas money. I would like to see careers
4 that give educated adults a chance to live a
5 middle-class life. I would ask you to spend
6 your interim session working for all Floridians
7 this time around and not squander it focusing
8 on social issues and Union bashing on behalf of
9 your corporate donors. Thank you.

10 REPRESENTATIVE WEATHERFORD: Next up we
11 have Tom Tito, followed by Craig Glaser and
12 Darren Ayres.

13 MR. TITO: Thank you. I came here to make
14 three points. First, I would like to see the
15 maps. You have heard other people ask for
16 that. It is not our job to make the maps.
17 Please get on with that, let us discuss it, and
18 in January, you can vote on it.

19 Second point, please respect our
20 Constitution. Amendments 5 and 6 were voted by
21 a lopsided majority. You really don't need a
22 hearing to tell you what the people want. The
23 people told you want -- if we want to amend
24 that, we can.

25 Third point, please stop spending our

1 taxpayer money on a lawsuit suing the people of
2 Florida, your constituents. It is a waste of
3 money. We have people crying for tax relief,
4 schools, medical care, Medicaid. There are
5 needs that are greater than suing the people
6 you represent.

7 I would like to tell you why I came today.
8 I live in District 55, south St. Pete. You
9 have heard some other folks talk about the
10 discrimination we have suffered, the hardships
11 in our neighborhood. Now we are being
12 discriminated against through gerrymandering.
13 I am in a district for State Senate and a
14 district for the U.S. Congress in the Tampa
15 district. And I think Senator Joyner is doing
16 a fine job, I think Representative Kathy Castor
17 is doing a great job for our people. I think
18 they will do a better job if they didn't have
19 to run across the Skyway Bridge and the Howard
20 Frankland Bridge to attend a neighborhood
21 meeting or to -- if they could learn -- build a
22 relationship with a handful of city councils
23 and county -- and one county commission instead
24 of dozens, they could just do a better job. We
25 have suffered discrimination. Please stop

1 that.

2 I think the Hispanic population is also
3 gerrymandered. We have a county district, it
4 is not something you are talking about today,
5 but it is an example in Hillsborough County,
6 cut the Hispanic population in the middle.
7 Orlando, we have the Hispanic population that
8 could be in a district, I think some of them
9 are in the Jacksonville district. It doesn't
10 make any sense.

11 Speaking of not making any sense, the year
12 2000, Florida botched the election. We became
13 the laughingstock of the United States. It was
14 great for late night comedians. They started
15 spelling Florida with d-u-h. Now, let's --
16 let's do our jobs, gain the respect of the
17 country, get these maps out, let us see them
18 and let's, Florida, hold our heads high.

19 REPRESENTATIVE WEATHERFORD: Thanks, Tom,
20 we appreciate it.

21 Next up we have Craig Glaser, followed by
22 Darren Ayres and Sandy Oestreich.

23 MR. GLASER: I am Craig Glaser, I am a
24 resident of Treasure Island, and I am not a
25 professional speaker, just a common working

1 class guy. I want to talk about the 8:00 a.m.
2 start time of this. A lot of us had to take
3 time off from work to be here, and we know how
4 precious jobs are right now, and a lot of
5 people that wanted to have their voice heard
6 are not here because they want to keep their
7 jobs. At this time, a job is a precious thing.
8 A career, I mean, that is a dream at this
9 point.

10 We, the people, have already spoken with
11 our votes on Amendments 5 and 6. And I have
12 been listening to the hearing here, and it
13 seems about 80 percent of people are in
14 agreement with two issues: Maps, where are
15 they, we need something to work off of, and
16 this lawsuit is just a waste of time. Please
17 stop the lawsuit against the people. Many
18 states have legislation that may contradict
19 federal law. We voted, it is our Constitution.

20 As far as the maps go, we have nothing to
21 work off of. It is just a fantasy right now.
22 We have to have something to work off of. It
23 is putting the cart before the horse.

24 And I want to thank you for letting my
25 voice be heard. Let's get some maps and let's

1 stop the lawsuit.

2 REPRESENTATIVE WEATHERFORD: Thank you.

3 Mr. Ayres, you are recognized, followed by
4 Ms. Sandy Oestreich, I hope I am saying that
5 right, I apologize if I am not, followed by
6 Glenn Paul.

7 MR. AYRES: Good morning, and thank you
8 very much for all of you coming and being here
9 and being a part of this. I do appreciate the
10 transparency, and I appreciate the opportunity
11 for us to have input into this process from the
12 very beginning. It certainly gives a better
13 impression that you haven't already created
14 something that you want to force upon us, but
15 you are giving us the opportunity up front to
16 speak about this.

17 I have heard people come up here today and
18 say, "This is your job, you should be doing
19 this, we don't need to have these meetings,"
20 and then in almost the same breath, they say,
21 "You could hire an independent company to do it
22 for you," or they say, "But if you don't want
23 to do it, me and five or six or eight of my
24 friends will get together and do it for you."
25 Seems somewhat contradictory for me to sit back

1 and listen to them as they say, "It is your
2 job, but we would be happy to tell you how to
3 do it," and that is what this meeting is all
4 about, and I appreciate that, we can stand here
5 and do this.

6 I have heard a couple of common themes
7 today when they weren't just complaining, but
8 the common themes I have heard about actual
9 redistricting is community and commonality,
10 community and commonality. I heard one person
11 to say race isn't important, I heard another
12 one say race is important. And then, again,
13 you've got the Voting Rights Act that you must
14 abide with, so that is important, and we have
15 to understand that role that you have to fill
16 there.

17 I have heard -- I think most of the people
18 when they have talked about community and
19 commonality, I don't know all the individuals
20 here, but it seems like that many of them are
21 talking about more the state positions as they
22 looked and saw the different districts within
23 Pinellas County itself, but when I attended the
24 one up in Wesley Chapel that happened up there,
25 I heard much the same thing that was really

1 addressing the U.S. Congress, commonality as
2 they talked about the U.S. 19 and the people
3 there who are more along the urban and the
4 commercial as opposed to the agricultural
5 community on the eastern side.

6 Commonality and community, and I hope that
7 you really take that into consideration when
8 choosing and laying out these lines, so that
9 people are best represented by their
10 individuals, and that there's not really strong
11 divergent groups that are within that as well.
12 Thank you for your time.

13 REPRESENTATIVE WEATHERFORD: Thank you,
14 Mr. Ayres. Good to see you, sir.

15 Next up we have Ms. Oestreich. I hope you
16 can make sure I am not saying that --

17 MS. OESTREICH: Don't worry about it.

18 REPRESENTATIVE WEATHERFORD: Okay. And
19 then after --

20 MS. OESTREICH: It is, oh, strike up the
21 music.

22 REPRESENTATIVE WEATHERFORD: Oestreich, I
23 like that. And then we've got Glenn Paul with
24 the ACLU after you, and then I believe
25 Dr. Pamela Settlegood, if y'all could come down

1 and get ready.

2 Ms. Oestreich, thank you --

3 MS. OESTREICH: Okay. I am Sandy
4 Oestreich, and I was Vice-Mayor in North
5 Redington Beach and have the same interests
6 that most people have expressed here.

7 I would like, if you don't mind, and
8 respectfully ask that the two Chairs would
9 grant me the opportunity -- clarifying one
10 point by asking a question. Okay?

11 REPRESENTATIVE WEATHERFORD: You can ask a
12 question.

13 MS. OESTREICH: Okay, thank you. And this
14 -- the answers can be very, very brief, and I
15 will try to be brief.

16 The question is, as one of the points that
17 is made, when will we actually see, the public
18 actually see and have input to the
19 redistricting maps that you are ostensibly
20 working on at present?

21 REPRESENTATIVE WEATHERFORD: Well, in the
22 essence of time, in about 30 minutes, we are
23 going to give Senator Gaetz and other members
24 an opportunity to address that question and
25 many others. So as opposed to getting in a

1 back and forth, we will answer that question.

2 MS. OESTREICH: Okay. I just thought it
3 might clarify for everybody, and me included.

4 And I do want to just say the vote is
5 terribly important to all of us and this does
6 disenfranchise bunches of people, but it
7 does -- and I agree with B. J. Star absolutely,
8 it does work against women, and we did work
9 very hard for the vote 50 years after all men
10 were just given it. Okay. And I have nothing
11 against men, I'm married to a wonderful guy.

12 So the second part of it is feeling this
13 for the rest of us in an ongoing way so that
14 women get put into the U.S. Constitution. We
15 are not -- females are not mentioned in the
16 U.S. Constitution in any way, shape or form.
17 Men and their pronouns are mentioned 30 million
18 times. We are not in the contract with our
19 nation. That has great psychological and
20 actual impact upon us. I, as you know -- may
21 know, am spearheading the Equal Rights
22 Amendment for -- ten years before the
23 Legislature, you will hear from us again, and
24 right here is our star, Senator Joyner, who
25 sponsored that bill for many, many years, and

1 to our dismay, there are those here who are
2 adamantly against equal treatment for men and
3 women, including Representative Frishe,
4 Representative Ahern --

5 REPRESENTATIVE WEATHERFORD: Ms.
6 Oestreich, this is not an opportunity to have
7 political statements.

8 MS. OESTREICH: Thank you.

9 REPRESENTATIVE WEATHERFORD: Thank you.

10 Okay. Next we have Glenn Paul, followed
11 by Dr. Pamela Settlegood and then Mary
12 Griffith.

13 Glenn is with the ACLU. Glenn, thanks for
14 being here.

15 MR. PAUL: Hello. I will try to keep this
16 short. I am with the ACLU, but I am not
17 speaking on behalf of the ACLU. This is just
18 my opinion.

19 So I looked on the website the other day
20 and found that the Florida House district is
21 supposed to be approximately 156,000, Florida
22 Senate districts, about 470,000, and U.S.
23 congressional districts, 696,000.

24 Now, I am proposing something very basic
25 that's said before, why can't we go out --

1 Florida is like an L-shaped state. We've got
2 the Panhandle across its top and we've got the
3 peninsula.

4 Why in the hell can't we just go -- the
5 first 156,000, make up all the rectangles best
6 you can, starting over in Escambia, by Alabama,
7 cut it down, I don't care whose neighborhood
8 you cut it through, whatever, that is the end
9 of a district.

10 And then you need to go all the way over
11 to Jacksonville, and at that point, because the
12 state gets more populated, you go down the
13 middle and you make rectangles on each side and
14 let the chips fall where they may.

15 Now, I don't need to say anything about
16 all the money spent and all that stuff has been
17 said before. So let's -- basically my idea is
18 to have basic rectangles, and as the years go
19 by, we can be increased or decreased according
20 to population, and we don't care about
21 minorities or rich people or Naples or West
22 Palm Beach or this district or whatever else,
23 just make it blind boxes, rectangles. Okay.
24 That is my point.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much, sir.

2 MR. PAUL: And I am not speaking for the
3 ACLU there, I am speaking for myself.

4 REPRESENTATIVE WEATHERFORD: Sure. Thank
5 you, thanks a lot.

6 Next up we have Dr. Pamela Settlegood. I
7 hope I said -- is that right, Doctor?

8 DR. SETTLEGOOD: Yes, thank you.

9 REPRESENTATIVE WEATHERFORD: Okay, great.
10 And after Ms. Settlegood, we have Mary Griffith
11 and then Judy McSwine.

12 DR. SETTLEGOOD: Thank you. I am a fourth
13 generation St. Petersburg resident, an
14 educator. I serve on the ACLU Boards, Pinellas
15 and Florida. I have some experience chairing
16 committees and forums, and I have lived and
17 been educated in other places. So this place
18 is a mess. It is a mess. And in part of it,
19 Mr. Weatherford and Mr. Gaetz, your cynicism
20 and arrogance towards the voter is evident.

21 This hearing process is very interesting
22 to me. It is very crafty. For example, take
23 Mr. Gaetz' positions. I do think we need to
24 have this public. He is a Senator and sharer
25 of the Florida Leadership Alliance. That is

1 the organization that is funding the lawsuit
2 against the people. He also chairs -- I
3 noticed a grimace there.

4 SENATOR GAETZ: I will correct the record
5 when you are done.

6 DR. SETTLEGOOD: He also chairs the Senate
7 reappropriate commission, or committee.

8 Now, Amendments 5 and 6, now part of the
9 Florida Constitution, and Chair Gaetz took an
10 oath to defend the Constitution, not the goals
11 of the alliance that he chairs, evidently Mr.
12 Gaetz is determined to overturn the Fair
13 Districts by suing the people of Florida. What
14 is glaringly wrong with our government nowadays
15 are individuals such as Chairman Gaetz.

16 SENATOR LATVALA: Mr. Chairman, I am not
17 going to sit here and have you insulted in my
18 district. We are not insulting the people that
19 are coming and speaking, and I would ask you to
20 not insult us.

21 DR. SETTLEGOOD: Point well taken.

22 These hearings were evidently an incumbent
23 protection plan. They're designed to protect
24 your power.

25 SENATOR GAETZ: And, Dr. Settlegood, if I

1 could you to wrap up just out of respect --

2 DR. SETTLEGOOD: I am.

3 SENATOR GAETZ: -- for the many people
4 behind you --

5 DR. SETTLEGOOD: Two more sentences.

6 SENATOR GAETZ: Sure.

7 DR. SETTLEGOOD: Floridians have spoken.
8 We want fair districts. So to use a phrase,
9 "Let's get to work." Thank you.

10 SENATOR GAETZ: Thank you very much,
11 Doctor.

12 DR. SETTLEGOOD: Thank you.

13 SENATOR GAETZ: And next we will hear from
14 Mary Griffith with the League of Women Voters.

15 MS. GRIFFITH: Good morning. Nice to be
16 here.

17 SENATOR GAETZ: Hang tight for a second.
18 And following Ms. Griffith, Judy McSwine and
19 Wendy Risk, if you'd be on deck, please.

20 Ma'am, you are recognized. Thanks for
21 coming today.

22 MS. GRIFFITH: Thank you. My question has
23 to do with the timeline of drawing districts.
24 This process can simply and should occur long
25 before the end of the legislative session, as

1 by the law, the courts and the Department of
2 Justice have more than 90 days after passage to
3 review maps.

4 Under the present timeline, these
5 districts will not be reviewed and approved
6 before the June 8th, 2012, deadline for the
7 candidates to file papers, and elections
8 supervisors will have insufficient time to
9 prepare for elections. How will new candidates
10 have time to organize and wage campaigns? Does
11 this amount to an incumbent protection plan?
12 Your own lawyer has said this will cause
13 massive voter confusion. Voters will have no
14 opportunity to learn about candidates, despite
15 the fact you say there is nothing you can do as
16 the Constitution requires the maps to be drawn
17 during the session.

18 These maps could be the first order of
19 business and voted on by the end of the
20 session's first week, January 13th. This would
21 provide double the time for review by the
22 courts and the Department of Justice.

23 In the League's recent letter to the
24 Committee, we asked for an October 3rd deadline
25 for map presentation so that final passage can

1 occur by January 13th, 2012. This results in a
2 fair consideration for Florida candidates and
3 voters.

4 What is your intent? Will you commit to a
5 reasonable and democratic timeline to protect
6 the voting rights of the Florida citizens? It
7 is really the right thing to do. Thank you
8 very much.

9 SENATOR GAETZ: Thank you so much, ma'am.

10 And now we would like to hear from Judy
11 McSwine, also with the League of Women Voters,
12 and then Wendy Risk and then Ernie Bach, if Mr.
13 Bach would be on deck.

14 Ms. McSwine, thank you for coming, and we
15 are delighted to hear your testimony.

16 MS. McSWINE: Thank you. Thank you for
17 the opportunity to speak.

18 I am the President of the League of Women
19 Voters of North Pinellas County, with members
20 from Largo, Clearwater, Dunedin, Palm Harbor,
21 Safety Harbor and Tarpon Springs. And for many
22 years, our League has joined the effort to work
23 for passage of fair districting, and now I join
24 the 3.1 million voters who voted for Amendments
25 5 and 6 to ask where are the maps. The

1 Legislature has had all the information
2 necessary to prepare these maps since March of
3 2010, over five months ago, and during all of
4 these 26 hearings, these expensive hearings,
5 there are no maps available for citizens to
6 review. It is the legislators'
7 constitutionally mandated responsibility to
8 draw these maps, and it has been the League's
9 experience in many years past that when the
10 League and other concerned groups have drawn
11 maps, they have been totally disregarded, not
12 considered. The bottom line, it is not our
13 job, it is your job to draw these maps.

14 You have heard by now in previous hearings
15 that other states finished this process because
16 the maps were presented 30 days before final
17 passage in order to provide an opportunity for
18 public input. This has happened in Alabama,
19 Colorado, Illinois, Indiana, Iowa, Louisiana,
20 Minnesota, Missouri, Nebraska and Nevada and
21 Oklahoma. When will we have these maps in a
22 timely manner so that they can be reviewed by
23 voters long before the end of the legislative
24 session?

25 Please respect the wishes of 3.1 million

1 voters and comply with a good timeline. Thank
2 you.

3 REPRESENTATIVE WEATHERFORD: Thank you,
4 Ms. Risk.

5 Next up we have Ernie Bach, followed by
6 Jim Lawrence and Dave Eggers.

7 MR. BACH: Thank you, Mr. Chairman. There
8 are some tough acts that we have to follow
9 here.

10 REPRESENTATIVE WEATHERFORD: I'm sorry, I
11 think I may have skipped someone. I'll tell
12 you what, Wendy -- is Wendy Risk here?

13 MS. RISK: Yes, I ceded my time.

14 REPRESENTATIVE WEATHERFORD: Oh, you did?
15 Okay, all right. Well, thank you, I'm sorry.
16 I didn't mean to miss you there.

17 Ernie, you are recognized, sir.

18 MR. BACH: I apologize for some of my
19 redundancy, but my card was turned in with the
20 speaker that spoke an hour and a half ago.

21 My name is Ernie Bach, and I am the State
22 Chairman of the Independent Party of Florida,
23 and you have not heard much from me or from the
24 party recently in the past, but you will in the
25 future.

1 If I may, Mr. Chairman, I am wondering how
2 many people are registered as Independents or
3 NPAs here? Just a few. All right. Well, we
4 are looking for more. I rarely come to these
5 meetings -- I could have --

6 REPRESENTATIVE WEATHERFORD: Apparently
7 somebody already did.

8 MR. BACH: I rarely come to these
9 meetings, because it is important -- yeah,
10 right. These citizens' comments are very
11 important, and as a rule, they're as pertinent
12 and as on target as mine, which is why I don't
13 show up at a lot of these, but we are at a
14 point where the nonsense does have to stop. So
15 I am here today to add my more than two cents'
16 worth to this.

17 As to the point that these hearings are a
18 waste of time, we are of the factual opinion
19 that dragging this on the way you have not only
20 could, but actually has already caused great
21 confusion that affects potential candidates who
22 wish to run next year but aren't even sure of
23 which districts they are running. Candidates
24 we are working with right now around the state,
25 and we are looking for more, by not getting

1 this job done, there is a very real potential
2 for those candidates missing their filing
3 deadlines, and that concerns us. So we
4 sincerely hope you get this dog and pony show
5 back on the road, get finished and get to work
6 on the actual job to be done.

7 Let's mention the money being spent on
8 this wasteful effort, \$30 million set aside, \$3
9 million already spent, with two and a half
10 million spent on lawyers by the Legislature,
11 that is you people sitting up there, attempting
12 to defeat 5 and 6. How many citizens told you
13 to do that? If you answer me, I'll be happy to
14 distribute that answer to over two and a half
15 million Independent and NPA voters in the state
16 of Florida.

17 REPRESENTATIVE WEATHERFORD: Mr. Bach, I
18 am going to have to ask you to put a bow on it
19 for us.

20 MR. BACH: I have waited a long time here,
21 Mr. Weatherford, and I've got about two more
22 minutes, which I hope to finish.

23 REPRESENTATIVE WEATHERFORD: You don't
24 have two minutes, because you've got about 35
25 people behind you that also want to speak, so

1 you are over two and a half minutes, and that
2 is all you've got.

3 MR. BACH: Remember -- and you are
4 interrupting me, too, and using my time.

5 Remember that we have about two and a half
6 million Independent voters --

7 REPRESENTATIVE WEATHERFORD: Sir, we are
8 going to have to ask you to turn your comments
9 in. You are over two and a half minutes, that
10 is all we've got, and we've got 35 people
11 behind you that want to speak, so, please.
12 Ernie, come on, please. There's a lot of
13 people who want to speak, sir, there's a lot of
14 people who want to speak. I got it right here.
15 Ernie, please. Thank you, sir. Have a good
16 day. Have a good day.

17 Okay. Next up we've got the Mayor of
18 Indiantown Shores, Mr. Lawrence. Mayor, thank
19 you for taking the time to be here, sir. We
20 appreciate you being patient with us as well.
21 Following the Mayor, we have Dave Eggers and
22 Mr. Darrell Flaherty.

23 Mayor, thanks for being here.

24 MAYOR LAWRENCE: You bet ya. I am Jim
25 Lawrence, 18-year resident of Indian Shores,

1 the last 12 on the Town Council -- excuse my
2 voice, I've got a little cold -- and my last
3 six as Mayor.

4 During that 12 years, I have served in
5 many capacities, many committees. I am
6 currently the Secretary-Treasurer of the
7 Pinellas Mayor's Council, and I serve on the
8 Board of Directors of the EMS Advisory Council
9 and the Tourist Development Council.

10 My job today is to speak to you as the
11 immediate past President of the Barrier Islands
12 Governmental Council, affectionately called the
13 Big C. It is a non-legislative advisory
14 council made up of 11 beach communities from
15 Clearwater to St. Pete Beach. The goal of the
16 Big C is to speak with one voice on county and
17 statewide issues, such as tourism, insurance,
18 beach nourishment and offshore oil rig
19 drilling.

20 District 54 encompasses the Gulf shore
21 area from north of Clearwater Beach down to
22 Tierra Verde and mirrors the Big C
23 representation. Our Senate representative also
24 includes almost all of Big C territory. Past
25 and current District 54 Reps and our Senate rep

1 regularly attend our monthly Big C meeting, and
2 they have been our basic conduit to the State
3 Legislature on the issues of import to the
4 beach communities. It is our fervent hope that
5 we can maintain that relationship and keep that
6 district intact. Maybe you can add Mayor
7 Peters, south St. Petersburg there, or South
8 Pasadena. That is all I have, thank you.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 Mayor. Thank you for your brevity and your
11 service, too, sir.

12 After the Mayor, we've got Dave Eggers,
13 followed by Darrell Flaherty.

14 MR. FLANERY: Flanery.

15 REPRESENTATIVE WEATHERFORD: Flattery, I
16 apologize.

17 MR. FLANERY: Mike Flanery.

18 REPRESENTATIVE WEATHERFORD: I'm sorry,
19 okay. Followed by Mike Flanery, and then
20 Barbara Haselden.

21 Is Dave here? Well, Mike, you are next,
22 my friend, so come on up. Thank you for being
23 here. And after Mike, again, we have Barbara
24 Haselden, if you could come forward, and then
25 Robert Kinder.

1 MR. FLANERY: Okay. I am Mike Flanery. I
2 live on Venetian Point in Clearwater, and this
3 is purely technical comments I am making. If
4 you know where Venetian Point is, you go down
5 Edgewater Drive, and there's Sunset -- there's
6 Stevenson's Creek, and because -- I tried to
7 contact my Congressman, Gus Bilirakis, with a
8 comment on the e-mail, and lo and behold, I
9 couldn't because 33755-1752 did not seem to
10 show up on his computer because -- although it
11 is clearly on my I.D. card. And I am asking
12 that if you make these boundaries, make them
13 clear enough that people can e-mail their
14 Congressman. It is -- you know, the computer
15 rejects it if you are not in their district.
16 So I couldn't get through, so I had to make one
17 up whereby I knew I would be able to get to
18 send an e-mail through. Now, I am not saying
19 who is at fault, I think it is a complicated
20 system, but the computer automatically says
21 "What's your ZIP code, you are not in my
22 district," back it comes. So I made up one for
23 me and one for my wife. That was just a
24 comment, and it should be easy to fix, but it
25 also shows how difficult the lines are, because

1 that straight line cuts off my point that I am
2 on and puts me in the wrong district, and even
3 the people that worked did not seem to pick
4 that up. I am not blaming.

5 The second suggestion I have, I know I am
6 sort of theoretical here, but it seems like we
7 have the computer maps, we have the census -- I
8 actually did censuses last year, and I know,
9 knocking on doors, what's on those forms, and
10 commonality and community are the two zingers
11 in this thing. I don't know how to define
12 those. I've heard 15 definitions today, but
13 there is enough in those things that you could
14 write simply a computer program that does these
15 things, looks at the -- this is what is done
16 all the time, and it would be wonderful if you
17 could get out of all the arguments, just let
18 the computer run it through. And what we
19 should be discussing today is which weight we
20 should give to community, commonality, race,
21 being close to something else, instead of --
22 well, or even all the politics we are today,
23 and that is my comments. Thank you.

24 REPRESENTATIVE WEATHERFORD: Thank you,
25 Mike. Thanks for coming today, sir.

1 Next up we have Barbara Haselden. I hope
2 I said that right, Ms. Barbara, I apologize if
3 I didn't. Following Barbara will be Robert
4 Kinder and Toni Van Pelt.

5 MS. HASELDEN: Okay. Thank you. My name
6 is Barbara Haselden, and I live in northeast
7 St. Pete, and I just want to say that I thank
8 you all so much, because anytime that we have
9 an opportunity to speak to our Legislators, I
10 think it is a great opportunity, especially
11 when we see what is going on all around the
12 world and how few people in the world get an
13 opportunity such as we are all having today,
14 whether we are happy or not happy. So I
15 appreciate everyone's work.

16 And I just wanted to also say that it is
17 my understanding that the process this year is
18 actually earlier than it was done in the year
19 2000 after the census, and that the process
20 this year has been more transparent and orderly
21 than after the 1990 census in which the
22 Legislature, after several special sessions,
23 simply passed a plan and adjourned, basically
24 turning the entire final process over to the
25 courts.

1 I want to thank Representative Weatherford
2 and Senator Gaetz and Senator Joyner and let
3 you know how much your efforts are appreciated,
4 and to say that the congressional districts
5 that are centered in Pinellas I think should be
6 not overpowered by Tampa and -- because we
7 really don't have that much in common with
8 Tampa.

9 And I just want to finalize by saying that
10 I personally was not happy when a doctor in
11 Pinellas County challenged the Amendment 10
12 last year and challenged the language on the
13 ballot, and I also was not happy when it was
14 challenged after Governor Scott turned down the
15 high-speed rail. So I think we just simply
16 live in the time when if people are unhappy,
17 they are suing, and if they are feeling like
18 things are not just, they are suing, and that
19 is our right as Americans. So thank you very
20 much.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much.

23 Next up we have Robert Kinder. Following
24 Robert, we have Toni Van Pelt, followed by the
25 Supervisor of Elections Deborah Clark.

1 MR. KINDER: Good morning, sir. I
2 appreciate the opportunity to speak. I am a
3 resident here for about ten years, and prior to
4 that, about 50 years in different communities,
5 and one of the things that I noticed over the
6 period of time is that we have somehow tried to
7 categorize America through our census reports
8 year after year.

9 That is passé. We are people, one as
10 Americans, and we should be treated as
11 Americans. I am tired of listening to all this
12 minority, plurality, whatever.

13 If you want to talk about a voting block,
14 I am looking at the biggest voting block right
15 here right now. You represent -- government
16 personnel represent 30 percent of the voting
17 people in the United States. Thirty percent
18 you represent. That is one of the biggest
19 voting blocks around. If you don't believe we
20 have diversity, 40 -- 50 years ago -- I will
21 get the right date. In 1952, I graduated from
22 high school. They taught Latin and Spanish.
23 In my high school today, they taught -- teach
24 11 different languages. They speak over 40
25 languages. This is unbelievable. You look

1 around today, if you don't believe there's
2 diversity, go to the local fast food place,
3 they got anything you want, and yet we are
4 still trying to categorize people.

5 We need to draw maps that are simple, that
6 are defined and can be left there until they
7 have to be changed by law because of the
8 population. Thank you.

9 REPRESENTATIVE WEATHERFORD: Thank you,
10 sir.

11 Next up we have Toni Van Pelt. Toni,
12 thank you very much for being here. Following
13 Toni is Deborah Clark, Supervisor of Elections,
14 and then Dawn Thompson.

15 MS. VAN PELT: My name is Toni Van Pelt.
16 It is nice to be here.

17 I would like to ask why the Legislature
18 won't commit in writing to prepare the maps
19 now, debate them in the fall and pass them
20 during the first week of the session. There
21 can be no transparency when there are no facts
22 on the table. You need to do your job.

23 We need more than a statement of intent.
24 We ask the Legislature to publish and
25 accelerate a timeline, adopt a rule requiring

1 that all maps should be filed by October 3rd,
2 2011, adopt a rule requiring all committee
3 action on redistricting plans to be completed
4 by the end of 2011, and adopt a rule requiring
5 that all plans be voted on during the first
6 week of the 2012 session.

7 Why is the Legislature continuing to spend
8 taxpayers' money on a court action to have
9 Amendment 6 invalidated? Why won't you
10 withdraw the lawsuit? We ask the Florida House
11 to immediately withdraw from the lawsuit and
12 respect the will of the 63 percent of the
13 Florida voters who want the new redistricting
14 standards to be applied.

15 Why won't the Legislature provide draft
16 maps for public comment? We ask the Florida
17 Legislature -- actually, we strongly suggest
18 that the Legislators commit to holding another
19 round of public hearings with real maps for
20 citizens to comment on this fall.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much.

23 Next up we have Ms. Clark, followed by
24 Dawn Thompson and Vicky Imes.

25 Ms. Clark, thank you very much for your

1 public service to Pinellas County and for your
2 patience today, and we are happy to have your
3 here. Thank you, you are recognized.

4 MS. CLARK: Thank you. Thank you. I am
5 glad to be here today, and thank you for the
6 opportunity.

7 I won't be redundant. I know you have
8 heard other supervisors speak at your different
9 hearings around the state, and I know you are
10 pressed for time. I do, however -- you know, I
11 could just throw my notes out the window right
12 now, because you have heard it all.

13 There can be no doubt in your minds how
14 incredibly important people's right to vote is
15 and how deeply they feel about the process and
16 how much they want to be included in the
17 process. Certainly you have heard that this
18 morning.

19 As Supervisor of Elections, I proudly
20 represent the voters here in Pinellas County,
21 but I am also here today representing the
22 Florida State Association of Supervisors. And
23 we are public servants as you are. I work for
24 the voters of Pinellas County, the supervisors
25 work for their voters in their counties, and we

1 have worked with your legislative staff and the
2 Census Bureau and we have made some progress.

3 Our main concern is time. And you have
4 heard several people comment about how
5 confusing it will be for candidates if we get
6 those lines late next year, and it's happened
7 before.

8 It is our responsibility as supervisors to
9 conduct impartial and accurate elections for
10 these folks and 11 million voters in Florida.
11 But you have the authority to move that process
12 along, to ensure that we get those lines in
13 plenty of time so that we can prepare for and
14 be ready for the fall elections. We are
15 perfectly capable of doing that.

16 You heard a reference to the 2000
17 presidential election. It would be shameful if
18 Florida lost all the ground we have gained in
19 the last decade with all the efforts that have
20 been put into election reform, beginning with
21 Senate Bill 1401 that was filed by Senator Jack
22 Latvala back in 2002. It moved Florida in the
23 right direction, we've kept moving in that
24 direction, and the spotlight hasn't been in
25 Florida, it is in other states now. You can

1 help us keep moving in the right direction.
2 Successful elections are achieved by minimizing
3 opportunities for failure, and we ask you to
4 please help us with that.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Ms. Clark. We will take heed of
7 your counsel and we appreciate your public
8 service. Thank you very much.

9 Dawn Thompson?

10 MS. THOMPSON: Yes.

11 REPRESENTATIVE WEATHERFORD: Good to see
12 you, and you are recognized, but before that,
13 we've got Vicky Imes and Karen Doering.

14 Also, it is about 10:36, and at about
15 10:45 or so, we are going to have to allow
16 members of the Committee to offer some input
17 and suggestions, and also there have been a lot
18 of questions asked, and we do not want to leave
19 here without giving Senator Gaetz, my
20 co-Chairman, the opportunity to address some of
21 the very questions that you have asked from the
22 public, so we will not get to every speaker.
23 There are several who are here that we will not
24 get to, and we apologize for that ahead of
25 time. We will make sure and get your comments

1 in, but I just wanted everyone to know ahead of
2 time we are going to have a couple more
3 speakers and then an opportunity for the
4 Committee to comment.

5 Dawn, you are recognized.

6 A VOICE: Move to extend time. Move to
7 extend time.

8 REPRESENTATIVE WEATHERFORD: Dawn, you are
9 recognized. Thank you.

10 MS. THOMPSON: Okay. Good morning. My
11 name is Dawn Thompson, and I live in Seminole.
12 My husband and our eight children moved here
13 three years ago, and the first thing I wanted
14 to do is point out that -- what may be the
15 obvious for many of us is that most of you here
16 that have voted were not here to vote on the
17 map that we currently have, but I look at this
18 map and I see things that are all over the
19 place. I come from Massachusetts, the Bay
20 State, and others were talking about not --
21 they are very concerned about their vote, their
22 vote counting. And I can empathize greatly
23 with that, coming from Massachusetts, where we
24 have -- oh, I would say Democrats represented
25 about 95 percent of the Legislators. I ran for

1 the State Senate in western Massachusetts back
2 in '04, and other than feeling very much
3 disenfranchised, we actually were
4 disenfranchised, which I won't go into, on two
5 different occasions by the Legislature. So I
6 appreciate that.

7 I also very much appreciate the fact that
8 the state of Florida is very much a 50/50
9 state. I think that a Democrat or Republican
10 has about as much opportunity to get elected in
11 this state, and we have a large constituency of
12 Independents.

13 And what I heard when I spoke with a lot
14 of constituents here when I was campaigning one
15 year ago and two years ago for the seat that
16 Representative Ahern currently holds is that
17 people are looking for equity. And so in one
18 word what I hear from people that are speaking
19 here today and those who I've spoke to in
20 campaigning, they don't like the
21 gerrymandering. They don't think that -- I
22 will just use Kathy Castor -- sorry, Kathy,
23 about this -- but Kathy Castor's seat, it is in
24 three counties, it's been brought up multiple
25 times, and that is probably the most extreme

1 example in this -- in this area. You shouldn't
2 have to go over two bodies of water to get to a
3 district. People want normal boundaries. They
4 want something that works. Most of all, they
5 want equity. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much, Dawn.

8 Next we have Vicky Imes. Following Vicki
9 is Karen Doering, and after Karen we have Karl
10 Nurse, who is a city council member for the
11 City of St. Petersburg.

12 You are recognized.

13 MS. IMES: Thank you. I want to thank you
14 all for being here today and coming to listen
15 to our views as constituents prior to any
16 decision on your redistricting.

17 I have three areas that are very simple,
18 but I think important. One is that the people
19 of Pinellas be represented by a Pinellas
20 Senator, to keep districts in Pinellas as close
21 to current as possible, and I would like to see
22 the beaches remain together. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you.
24 Bonus points.

25 Next up we have Karen Doering. Karen,

1 thank you for being here. Karl Nurse is after
2 Karen, and then Bambi Jones with the AARP.

3 You are recognized.

4 MS. DOERING: Thank you. My name is Karen
5 Doering, and I just have a few brief comments.
6 The reasoning and rationale behind my comments
7 have been addressed previously. I think it
8 should be obvious.

9 There can be no meaningful comment on
10 redistricting without maps. We, the people,
11 expressed our role about redistricting through
12 Amendments 5 and 6, which set the legal
13 parameters for how those districts must be
14 drawn. Please show us the maps. This process
15 -- this process has made a mockery of the
16 Florida Constitution, the legislative process,
17 and you are Florida Legislators.

18 Please stop, withdraw from the lawsuit to
19 thwart the will of the people, accelerate the
20 time table for this process, and please stop
21 gerrymandering our vote for your incumbent
22 protection plan.

23 Finally, if you wish to sue your
24 constituents, go for it, absolutely go for it,
25 but use your own money, not taxpayer money.

1 Thank you.

2 REPRESENTATIVE WEATHERFORD: Next up we
3 have Councilman Karl Nurse. Councilman, thank
4 you for being here and thanks for your public
5 service. Following Councilman Nurse, we have
6 Bambi Jones.

7 COUNCILMAN NURSE: To the beach
8 communities that weren't sure they had enough
9 communication with St. Petersburg, we do take
10 your sewage every day, so we hear from you.

11 It also is this: I would urge you all to
12 think about chaos reduction next year. The
13 later -- the later the process happens, the
14 more likely it is to be chaotic, not just for
15 candidates, but particularly for the voters.

16 And, you know, I want to reinforce the
17 Supervisor of Elections' concerns. You think
18 about when you want to have a primary next
19 year, you back up 45 days to mail out the
20 military ballots and 35 days to sort of mail
21 out the others, you could be talking about
22 finishing districts and mailing four or five
23 weeks later. I mean, you really have the
24 possibility of a very chaotic situation. So
25 the earlier you can move that, the better.

1 And I would -- as somebody who lives in
2 St. Pete, who lives in the doughnut, I live in
3 the doughnut for the -- for a congressional
4 seat that is essentially a Tampa Bay seat, the
5 doughnut for State Senate seat that is
6 essentially a Tampa seat, and then, of course,
7 Darryl Rouson has the snake that snakes through
8 several counties. That kind of thing is very
9 confusing for voters.

10 And then finally, let me say, please, I
11 urge you to limit the number of times you cut
12 up precincts. It is -- that is very disruptive
13 to a community, because you could have hundreds
14 of people who were voting in one location
15 today, and because the precinct has been
16 re-carved, which happened many times in the
17 last time, they are there and now suddenly
18 voting in a whole different neighborhood, and I
19 am saying that causes -- that is very chaotic.
20 So chaos reduction, thank you.

21 REPRESENTATIVE WEATHERFORD: Thank you,
22 sir.

23 Next up we have Ms. Bambi Jones. Is Bambi
24 here? Okay, I don't think so. We have time
25 for one more. Ms. Ann Beamah. Is Ann here?

1 I'm sorry I didn't give you more time. I
2 apologize for that.

3 MS. BEAMAH: My point has been made over
4 and over and over.

5 REPRESENTATIVE WEATHERFORD: All right.
6 Thank you very, very much. We appreciate that.

7 Ellen Thompson. We have time for probably
8 one more person, Ellen Thompson.

9 Okay. Wendy Paser? Thanks, Wendy, I'm
10 sorry about that. But after Ms. Wendy, we are
11 going to give members of the Committee an
12 opportunity to respond and maybe answer some
13 questions, and certainly I know Senator Gaetz
14 has about 27 pages of notes over here, and so I
15 think he would like to have an opportunity to
16 respond as well.

17 Wendy, you are recognized. Thank you for
18 being here.

19 MS. PASER: Thank you. I work with public
20 school employees in Pinellas County. I work
21 with them and I work for them. They are really
22 concerned as we are bargaining with the little
23 bit of money that the County received this
24 year. They proposed exponential increases in
25 healthcare benefits, they have already taken a

1 three percent reduction in the money that is
2 available to them because of the contribution
3 to the Florida Retirement System, and also they
4 propose fuller days. I would like to know what
5 I can tell them about how we can justify
6 spending their tax dollars to fight what the
7 voters have already accepted.

8 REPRESENTATIVE WEATHERFORD: Thank you,
9 Ms. Paser, thank you for your comments, and I
10 will make sure that -- I know Senator Gaetz
11 will address that issue, so thank you for being
12 here and thank you for your service to our
13 children here in our community.

14 Okay. Ladies and gentlemen, I would like
15 to give a few minutes -- if there are any -- we
16 will start with House members. Are there any
17 House members who would like to speak or offer
18 a suggestion or contribution? We are going to
19 have Senator Gaetz address some of the
20 questions that were represented, but I don't
21 want to take away anybody's opportunity to
22 speak. I know we are running short on time.
23 Is there any House member? Yes, Representative
24 Ahern.

25 REPRESENTATIVE AHERN: Thank you, Chair

1 Weatherford and Senator Gaetz, for facilitating
2 this meeting. I think it has been very
3 productive for everyone here. I know I haven't
4 seen this many members of the Legislature since
5 the last session, so I think it does belie the
6 importance of this matter, how important it
7 truly is to us to get it right, and that it is
8 of the utmost importance to get the public
9 input so that we will have this when we vote on
10 the maps during the session. And also that
11 while we may not be able to please everyone
12 each and every time, that we are able to serve
13 each and every one of you in this community and
14 in the state of Florida, and that this process
15 is working. You know, it's been said
16 democracy, republic. This connection to
17 government when it comes to the people like
18 this I think is important. In some ways, it
19 may just be a pressure relief valve for those
20 that want to be heard, and we really appreciate
21 you coming out and expressing all your concerns
22 to us today.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, Representative Ahern.

25 Any other members from the House? Seeing

1 none, any members of the Senate that wish to
2 offer any comments? Senator Latvala, you are
3 recognized, sir.

4 SENATOR LATVALA: Thank you, Mr. Chairman.
5 I want to make two quick points.

6 The first one is that, you know, one of
7 the themes that I hear today is how that
8 there's got to be better people to do the
9 redistricting process than the Legislature
10 itself. And I am reminded also that someone
11 mentioned today why in the world was St.
12 Petersburg and my district, Senate District 16,
13 why did that include both Pinellas and south
14 Tampa. Well, the reason that included -- the
15 original basis for putting south Tampa and
16 Pinellas County together was by the Florida
17 Supreme Court in 1993 when the Legislature
18 could not resolve the issue and the issue went
19 to the Court, and the Court is who put south
20 Tampa in with Pinellas County in the district.
21 And so you can't just sort of presume that the
22 courts are going to do things some kind of a
23 magical different way, because that is where
24 that actually started.

25 The second thing I want to say is that,

1 you know, I was on this committee ten years ago
2 and traveled the state, made more hearings than
3 I have made this year, frankly, and I don't
4 remember one single person anywhere in Florida
5 complaining about having hearings, complaining
6 about the Legislature going out and seeking out
7 people's opinions. And, you know, I find it
8 really very disconcerting to have our Chairmen
9 criticized when I sat here at the table today
10 and tried to calculate in my own mind how many
11 hours that they have sat for hearings. In 26
12 hearings, and in some cities more than one
13 hearing in a day, I calculate at least 80 hours
14 of their summer that our Chairmen have spent in
15 hearings. Today -- no, I listened to you. I
16 listened to you. I listened to you. Now you
17 listen to me for a second.

18 Just today we had one gentleman question
19 why do the meetings start at eight o'clock.
20 Well, the reason the meeting started early
21 today is because we have a morning hearing that
22 started at eight o'clock, and then we will have
23 another hearing in the Sarasota area, which
24 will be over at eight o'clock tonight, and then
25 our Chairmen have to get in their car and drive

1 to Naples for a hearing that starts at eight
2 o'clock tomorrow morning. So I personally want
3 to express my appreciation to the Chairmen for
4 the way they have spent their summer vacation.

5 REPRESENTATIVE WEATHERFORD: Thank you,
6 Senator. I think Senator Jones had a quick
7 comment. Senator Jones for a comment, and then
8 we will come back to Senator Gaetz.

9 REPRESENTATIVE JONES: I will be very
10 brief, but I might be the only one in this
11 entire room that has gone through this process
12 now for the third time. And I want to
13 compliment the two Chairmen for having these
14 public hearings. I can tell you, having done
15 this the previous two times, that you could not
16 go to Tallahassee and have committee meetings
17 without having statewide public input first.
18 And although you don't feel that your comments
19 are important, as you go around the state, all
20 these meetings are being videotaped, all your
21 comments are being recorded for the record that
22 will be reviewed by the court, and I would not
23 minimize your input at these local hearings.
24 Believe me, when you go back to Tallahassee and
25 have a committee meeting, you are not going to

1 be able to be up there at these meetings. That
2 is why your comments here at the local level
3 are important and the Committee does take it
4 seriously.

5 So, believe me, I am hoping this Committee
6 can do their job and basically survive the
7 initial review of the courts, because if you
8 think the courts are going to spend this much
9 time to draw maps, then you had better look at
10 the courthouse they built.

11 REPRESENTATIVE WEATHERFORD: Thank you,
12 Senator.

13 Listen, before we go, I want to give --
14 Senator Gaetz, I was looking over earlier
15 during the hearing, has got literally tons and
16 tons of notes, page after page he has
17 meticulously written down, lots of comments and
18 questions. I think it would be appropriate to
19 give him a chance to respond and to also answer
20 and maybe, frankly, Mr. Chairman, to clarify
21 some things that seem to have been in the
22 bloodstream at every stop we go to, but I think
23 the citizens would love to hear from you. So
24 you are recognized.

25 SENATOR GAETZ: Thank you, and most of my

1 notes are the kind of notes that I make at
2 every hearing. I am a former newspaper
3 reporter, an editor, so even though there's
4 videotaping of everything, this all goes in the
5 record, I still like to make my own notes to go
6 over later in every evening.

7 One thing I wanted to begin with,
8 Mr. Chairman, was the persistent theme that we
9 heard and I think very well spoken by
10 representatives of the League of Women Voters
11 as to why the Legislature, in their opinion at
12 least, ought to draw maps and present them, and
13 the public ought not to and the League ought
14 not to. And I thought it might be useful to
15 note that Leagues of Women Voters in different
16 places in the country, and even in Florida,
17 don't necessarily agree with each other. It
18 sort of helps us understand the tension of this
19 issue. For example, ten years ago, the League
20 was the first group that developed maps and
21 presented them. In Georgia, there the League
22 of Women Voters this year, right now, not only
23 prepared and publicized their own redistricting
24 maps, they organized a map fair at the Georgia
25 State Capitol to encourage members of the

1 public to present their own alternative maps.
2 Quote, "Our goal throughout this whole process
3 is to ensure that citizens have a voice," end
4 quote, said the President of the League of
5 Women Voters of Georgia, quote, "and what
6 better way to do this than bringing people and
7 maps to the Capitol," end quote. How right she
8 is.

9 Let's go through some questions that were
10 raised. We will try to provide, where we can,
11 some factual answers. That great Democratic
12 Senator Daniel Patrick Moynihan said,
13 "Everybody is entitled to their own opinion,
14 but everybody is not entitled to their own set
15 of facts." And I made a number of notes, we
16 will get through some of them.

17 First, there were a couple of references
18 to a \$30 million fund that the House of
19 Representatives is allegedly using to fight
20 Fair Districts. I would encourage you to go to
21 the state website, which is
22 transparencyflorida.gov. That way you can see
23 exactly what the Legislature is spending on
24 each program and each cost center. I think you
25 will find that the \$30 million is the entire

1 reserves of the House of Representatives to be
2 used for all purposes. So the \$30 million
3 figure, it sounds good, it is a fun bumper
4 sticker, it is just not a fact.

5 And then someone mentioned early in the
6 hearing today if you do it right, there won't
7 be any lawsuits. I wish that were true, and
8 grasping the larger hope, I pray for that every
9 night, but the representatives of some special
10 interest groups have already testified before
11 these hearings that there are going to be
12 lawsuits. They have already said there will be
13 lawsuits even before the Legislature has cast
14 its first vote. So, sadly, I think those who
15 feel that the best way to resolve this matter
16 is in the courts have already indicated that
17 there will be lawsuits. I sure hope there
18 won't be many.

19 A question, will the public see the
20 legislative maps before they are voted on? The
21 answer is yes. Before any vote is taken, even
22 in committee, the public will see any and every
23 map.

24 Third, there was a comment made that there
25 are 600,000 more Democrats, yet there are more

1 Republicans in the Legislature, how can this be
2 true? Well, we have an interesting phenomenon
3 in Florida. We have 40 Senate districts -- I
4 will just use the Senate as an example. The
5 House could be used as well. There are 40
6 Senate districts, and currently 28 of them are
7 held by Republicans, but eight of those
8 Republican Senate districts voted for Barack
9 Obama for President.

10 So you can look at this two ways. First
11 you can say that the people in those eight
12 districts were independent enough to view
13 President Obama's campaign as more persuasive
14 and more worthy of their votes, or you could
15 view it this way, that there were eight
16 districts in the state of Florida that solidly
17 voted for Barack Obama, but yet in the opinion
18 of those voters, the Republican candidates for
19 the Senate had a more persuasive campaign or a
20 better message for the voters.

21 Here's the thing that we really can't do:
22 We can't force Republicans to vote just for
23 Republicans, or Democrats to vote just for
24 Democrats, and we surely don't know how the
25 largest -- not the largest, but the

1 fastest-growing group of voters, Independents,
2 are going to vote. So what we have found is
3 people make up their own minds, and some
4 Republicans vote for President Obama, and lots
5 of Democrats voted for Republican Senate
6 candidates.

7 The next question -- or the next comment
8 came from a representative of the ACLU who said
9 you don't want to see amateur maps, didn't come
10 here to see maps drawn by schoolteachers. I'm
11 sorry you feel that way about public input. We
12 don't view the submissions from the public as
13 being amateurish. Indeed, we have received
14 submissions from Columbia University, from
15 universities and groups of academics here in
16 Florida, but, yes, we have received submissions
17 from schoolteachers and we have also received
18 submissions for 120 House districts from a
19 13-year-old boy and his family last night. So
20 what that suggests is that there is an
21 opportunity to have input. And I would just
22 tell you this: Please don't assume that the
23 only people who ever have any good ideas are
24 people in Tallahassee. That is not true. Your
25 ideas -- your ideas -- sh, sh, sh, sh -- your

1 ideas and the ideas of schoolteachers and
2 construction workers and 13-year-old boys and
3 people from Columbia University and the
4 University of Florida and University of South
5 Florida are all valuable and will all be taken
6 into account.

7 Then there were a number of questions
8 about the time table, Mr. Chairman, and here I
9 think a few facts could be useful. First, the
10 Census Bureau does not release census data on
11 which these maps have to be based, they don't
12 release it all at once. They release it in
13 groups or tranches. Now, Florida didn't get
14 its census data last, but we were one of the
15 last states to receive it. So several
16 individuals mentioned states which received
17 their census data months before Florida.

18 Now, why would they receive their data
19 before we received ours? Well, one of the
20 states mentioned was Louisiana. Well,
21 Louisiana receives its census data earlier
22 because they have their elections on
23 odd-numbered years, not even-numbered years,
24 like Florida.

25 Then there was a reference by a testifier

1 to the State of Illinois, and it is true, they
2 got their maps done very quickly. They are a
3 one-party state. They had a group of
4 Legislators who literally did go into a back
5 room, who came out, put the maps down, said,
6 "Take it or leave it," the Legislature voted
7 quickly and they all went home. Now, as
8 Representative Frishe said when he started
9 today, you know, sometimes representative
10 government is a heavy lift. We chose to use a
11 process that involves the public more than the
12 State of Illinois did. Maybe we were wrong,
13 maybe Illinois was right, but we chose to use a
14 process that was much more interactive and
15 involved.

16 Then also I would point out, as
17 Representative Weatherford did at the beginning
18 of our meeting, that we are accelerating the
19 process as much as the Constitution allows. We
20 can't vote -- the Constitution says can't vote
21 until January. But there are those who
22 testified today as if there were not going to
23 be any votes taken, in some people's minds,
24 they said, until March. Well, that's just not
25 true. Votes can be taken as early as January,

1 and if you follow the public record of the
2 other hearings, you know that our Democratic
3 Leader in the Senate, Senator Rich, who is a
4 member of our Committee, indicated that ten
5 years ago when she happened to be in the House
6 of Representatives then, she didn't even get a
7 chance to present a map. She didn't -- she
8 didn't get a chance to make a proposal, and she
9 asked that the members of the minority party be
10 able to do that. So the commitment that I made
11 as Chairman of the Senate Reapportionment
12 Committee is that at the first meeting that we
13 will have, the first time we can have a meeting
14 in September, the very first thing we will do
15 after taking the roll and calling the meeting
16 to order is to turn to Senator Rich and give
17 her the chance that she didn't have ten years
18 ago. It was unfair ten years ago that she
19 didn't have a chance as a member of the
20 minority party, and we are going to give her
21 the first chance this year in September.

22 Then there was a comment made by a mayor
23 from one of the beach communities that he
24 wanted the beach communities to be kept
25 together, and he acknowledged that that would

1 mean that they wouldn't necessarily be compact,
2 because the beach communities are kind of long
3 and skinny, because of the nature of the
4 barrier islands, they are not necessarily
5 compact. I only point this out because there
6 is -- and you heard it today, there is some
7 apparent tension between those who say "we want
8 compact districts" and those who say "we want
9 communities of interest or commonality to be
10 able to be districts." There is some tension,
11 or apparent tension there, and we just -- you
12 know, we point that out so that you will know
13 that this really isn't a bumper sticker issue.
14 This is something that really requires us
15 balancing these values. That is why these
16 hearings are so important.

17 And then, Mr. Chairman, there was a
18 question, you know, couldn't the Governor just
19 veto all of this anyway? The answer is that
20 under the Florida Constitution, the Governor
21 does not have the veto power over legislative
22 maps. The Governor can veto congressional
23 maps, but cannot veto legislative maps. The
24 veto or review of legislative maps is by the
25 judiciary in our state.

1 And then there was a question -- there was
2 an individual who said that the Senate
3 President, Senator Haridopolos, posted a
4 YouTube paid for by public funds. Again, you
5 might hate the YouTube or you might like the
6 YouTube. I thought the music was a little
7 depressing in the beginning when I saw it last
8 night, but I called the President, talked to
9 him last night, and he gave me this
10 information, which I pass on to you. Not one
11 penny of state funds was used by President
12 Haridopolos in producing or distributing that
13 YouTube message that was released yesterday.
14 He used his own funds.

15 Then there was a question -- or there was
16 a comment that said you really won't do the job
17 unless every district is competitive. Sounds
18 good, but imagine, you've got areas in south
19 Florida, for example, and areas here in the
20 Tampa Bay area where there are very heavy
21 concentrations of Democrats or Republicans who
22 live in certain areas. So let me just take my
23 area, for example. We have a very high
24 registration of Republicans in my area. To
25 make my district -- to ensure by law that my

1 district had to be competitive, we would have
2 to draw my district all the way from Niceville,
3 where I live, which is on the northwest Florida
4 coast, all the way to Tallahassee, three hours
5 away. And if you go to south Florida, if you
6 insisted that some very heavily Democratic
7 concentrations of voters not be allowed to be a
8 district, but that they had to be competitive,
9 you would have to draw those districts a
10 hundred miles long. So it sounds good to say
11 every district should be competitive, but that
12 is why we provided you with the population data
13 that is on the -- that is on the House and
14 Senate websites, so that you can see that
15 unless we force people to move and say that
16 every district has to be competitive that way,
17 which is pretty impractical, it would be hard.

18 Then, Mr. Chairman, the -- there was a
19 mayor who said that she is a mayor of a
20 community on the Intracoastal, not on the
21 barrier islands, but on the Intracoastal. Her
22 argument was we have more in common with the
23 barrier islands, being an Intracoastal
24 community, than we do with other areas that are
25 further inland. So she said we have a

1 community of interest and we want the district
2 lines to cross the water. Well, that is a
3 legitimate and logical point of view. But you
4 heard other people testify and say -- in fact,
5 the very next speaker said, quote, "No crossing
6 of any waterway." I only point this out to say
7 that 160 members of the Legislature, Democrats
8 and Republicans, we also have differences of
9 opinion just as you do, and these values have
10 to be balanced. It is not as easy as it might
11 sound to some to just, you know, go there and
12 vote for something that is compliant with 5 and
13 6 when you have heard disparate comments here
14 by people of good will, people who mean no
15 harm, but make good, logical arguments on
16 different sides.

17 Then there was an individual who said --
18 and did an extraordinary job -- said consider
19 the word "community" as important in your work
20 as the words "compact" and "contiguous." We
21 wish we could. In fact, Representative
22 Weatherford and I tried to get the term
23 "community of interest" into the Constitution
24 along with Amendments 5 and 6, but the Supreme
25 Court said they didn't want that there, they

1 struck that down. So sadly for those who have
2 made eloquent arguments today for community and
3 commonality, the Fair Districts folks did not
4 include that language in the Constitution. So
5 these are -- these, again, are values that are
6 going to have to be very carefully balanced,
7 because clearly we wouldn't be able to make
8 both sides happy in that case.

9 There was a gentlemen who said drawing the
10 process out to 2012 is very hard on candidates,
11 and I surely agree, because I am a candidate.
12 But the Fair Districts people can still change
13 this. The Fair Districts folks, who did a
14 great job with their campaign, raised an
15 extraordinary amount of money, a great grass
16 roots effort, they could have changed this in
17 the Constitution so that we didn't have to vote
18 in 2012, that we could begin voting in 2011.
19 They, for some reason, chose not to accelerate
20 the process with constitutional language. But
21 I am considering as a sole member of the
22 Senate, I have not talked to my colleagues
23 about this, I am considering proposing a
24 constitutional amendment that would allow the
25 next redistricting process to occur in an

1 odd-numbered year so that we can get a year
2 ahead in Florida. Now, we can't do it now
3 because it is too late to change the
4 Constitution at this moment, but we certainly
5 could do it to make sure that that individual's
6 concerns are addressed in future redistricting.

7 Mr. Chairman, I've just got a couple more.
8 There was a gentleman who said, "Defining
9 communities and preserving them is an essential
10 ingredient of redistricting." Again, we
11 couldn't agree more. Sadly, the Supreme Court
12 would not allow that to be added to the
13 constitutional language.

14 Someone said we ought to have an
15 independent commission. Again, the Fair
16 Districts folks could have included that in
17 their amendment language, they chose not to,
18 and so under the Florida Constitution, it isn't
19 an independent commission. It is, instead,
20 elected officials, who you can un-elect, and
21 then judges who, depending upon your point of
22 view, it is either easy or not very easy to get
23 accountability from them for decisions they
24 make, who have the last word.

25 Then there was an individual who made the

1 point that "When money takes over politics,
2 only a shadow of democracy remains." Eloquent
3 quote. Over \$9 million was contributed to the
4 Fair Districts campaign. Vastly most of it
5 came in large contributions, much of it from
6 outside the state of Florida, but that was
7 legal and that was appropriate. There was
8 nothing wrong with that. There was nothing
9 wrong with that. And if you follow the news,
10 you know that President Obama has -- his
11 campaign has already indicated that they intend
12 to raise and spend more money than any
13 presidential candidate in history. Nothing
14 wrong with that. It is legal. There is
15 nothing wrong with that.

16 Here is the question, here is the
17 question: Will money be the only ingredient in
18 decisions that are made in public policy? And
19 the answer is, only if you allow it to be. And
20 clearly, with a group like this and the groups
21 that we are seeing across the state of Florida,
22 you are expressing opinions that truly matter,
23 you are having an effect that is, in my
24 judgment, as equally as important as all of
25 those people who contributed on both sides of

1 the Fair Districts campaign.

2 Someone said we should -- if we wait to
3 finalize the maps until August, that would be
4 wrong; if we wait to vote until March, that
5 would be terribly inconvenient. That is not
6 our plan. That is not our intent.

7 Now, there was someone -- a young lady who
8 said, "We want a commitment from the
9 Legislature when they will cut off maps, when
10 they will cut off debate." Well,
11 Representative Weatherford and I each get one
12 vote. We don't get to vote for everybody else.
13 There are 160 members of the Legislature, and
14 believe me, there would be some in both parties
15 who would stand up and scream from the rafters
16 if we said we are going to cut off debate, we
17 are going to cut off ideas, we are going to cut
18 off your opportunity to improve or refine any
19 proposal. So it is Representative
20 Weatherford's and my intent, our desire, our
21 plan, to move the process as we have expressed,
22 as quickly as is logical, but we can't control
23 what the other 118 members of the Legislature
24 may want to do with their plans and proposals.

25 Then there was a -- the President of the

1 League of Women Voters said that she wanted to
2 have some information about how much the
3 hearings were costing. Please go to
4 transparencyflorida.gov. You can see that. I
5 think that the information in Mary Ellen Klas'
6 story in *The St. Pete Times* and *Miami Herald*
7 was probably pretty close, if not right on. It
8 said that the House had spent something like
9 \$48,000; the Senate, something like 8,000. I
10 think the Senate spent more than that. I think
11 by the end we will find that the House spent a
12 little more, because there are more House
13 members, 120 House members, and the House
14 committee is larger.

15 And then the question was asked of me, and
16 that is, am I funding the fight against
17 Amendments 5 and 6. My wife I am sure is
18 listening, and she probably wants to know if I
19 am, too. Well, I am not. I am not. That is
20 just not true. When the Fair Districts
21 campaign was going on before the election,
22 before these amendments became part of our
23 Constitution, I joined thousands of other
24 Floridians in making contributions based on my
25 personal views. Frankly, I didn't think

1 Amendments 5 and 6 should have been ratified
2 without commonality and communities of interest
3 included, and so I did contribute money against
4 them. But since they became the law, since the
5 election and -- and since the election, I was
6 appointed to this Committee by President
7 Haridopolos, I have contributed nothing, no
8 money, I have not been part of any lawsuit
9 personally or publicly against Amendments 5 and
10 6, and I won't be.

11 Then I guess there was another question,
12 why can't the Legislature commit to a drop-dead
13 date? I think I answered that. We certainly
14 are going to try to move the process along. We
15 are going to start by asking for presentation
16 of maps at the very first committee meeting.

17 Last comment, and that is your Supervisor
18 of Elections, Ms. Clark, encouraged that the
19 process move along as much as we legally can.
20 And, yes, we commit to do that.

21 Some of those who were concerned today,
22 and properly so, with the process, we commit to
23 you that we will do everything that we
24 constitutionally can do in terms of voting on
25 the floor, and as I indicated to you, we will

1 move forward at the very first Senate committee
2 meeting, and we will give Senator Rich, the
3 Democratic Leader, the chance she didn't have
4 and should have had ten years ago, and I am
5 considering proposing a constitutional
6 amendment that would allow us to do this in the
7 future in odd-numbered years instead of even so
8 that we would never have to have that kind of
9 concern or angst again.

10 I apologize for the length of my
11 responses, but we had many, many, many good
12 questions. This has been an extraordinary
13 hearing. There's information about your
14 communities and neighborhoods I could never
15 have received if I would have just sat in an
16 echo chamber in Tallahassee. This was well
17 worth my time, and I thank you for your input.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much. Thank you very much, Senator Gaetz,
20 and thank you all for being here today.
21 Senator Gaetz moves that we rise.

22 (Whereupon, the proceedings were
23 adjourned.)

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: Thank you all for being
3 here this evening. The Joint House/Senate
4 Redistricting Hearing is called to order.

5 We are pleased to be joined tonight by a
6 number of members of the House of
7 Representatives and the Senate, most of whom
8 serve on the Redistricting Committee in the
9 House or the Reapportionment Committee in the
10 Senate, and in a moment, we will ask them to
11 identify themselves and the area of the state
12 that they represent so that you will know who
13 you are sharing your views with.

14 We want to thank New College for allowing
15 us to use this very helpful facility. We want
16 to thank all of you for being here, especially
17 members of the public who have come to share
18 your comments and your recommendations to help
19 shape congressional, Senate and House districts
20 for the next decade.

21 My name is Don Gaetz. I am a member of
22 the Florida Senate. My Senate district runs
23 from Pensacola to Panama City in the Florida
24 Panhandle, out where we have Central time, and
25 I am pleased to be here tonight. I will be

1 chairing the meeting with my colleague, the
2 Speaker Designate of the Florida House of
3 Representatives, Will Weatherford, who is to my
4 left. And the hearing tonight is being webcast
5 statewide by The Florida Channel over the
6 Internet. So before you get up to speak, make
7 sure your hair looks good, check your makeup,
8 straighten your tie, because everybody across
9 Florida is watching you, and we welcome the
10 thousands and thousands of Floridians who are
11 joining us tonight by webcast.

12 I would like to begin, Mr. Speaker, by
13 asking each of those members of the Legislature
14 who are here if they would very briefly
15 identify themselves by name and whether they
16 are a Senator or a Representative and the part
17 of the state that they are from.

18 Where are we? We are down at the far end.
19 Representative, why don't you start?

20 REPRESENTATIVE CHESTNUT: Good afternoon,
21 Chuck Chestnut, House Representative, District
22 23, a portion of Alachua County and a portion
23 of Marion County.

24 REPRESENTATIVE BERNARD: Good afternoon,
25 State Representative Mack Bernard from West

1 Palm Beach, Florida.

2 REPRESENTATIVE STARGEL: Good afternoon,
3 thank you for being here. Kelli Stargel, State
4 Representative from District 64, which is north
5 Polk County, mostly the City of Lakeland.

6 SENATOR NEGRON: Good evening, Joe Negron
7 from southeast Florida. I serve in the Florida
8 Senate.

9 REPRESENTATIVE PILON: Good evening,
10 Representative Ray Pilon, District 69, which is
11 right here, the northern part of Sarasota
12 County and a small part of Manatee. Welcome.

13 REPRESENTATIVE FORD: Representative Clay
14 Ford from Pensacola. I get the award for the
15 farthest traveled.

16 REPRESENTATIVE BOYD: Hi, I am Jim Boyd,
17 House member, District 68, which is the
18 district just north of here, western Manatee
19 County. Thanks for coming this evening.

20 REPRESENTATIVE JULIEN: Good evening, John
21 Patrick Julien representing House District 104,
22 which is in Miami-Dade County. My district
23 encompasses North Miami Beach, North Miami,
24 Miami Gardens, Opa-Locka, the City of Miami and
25 unincorporated Miami-Dade County. It is a

1 pleasure to be here.

2 REPRESENTATIVE NEHR: State Representative
3 Peter Nehr. I represent District 48, which is
4 in Pinellas County and parts of Pasco County.

5 REPRESENTATIVE FRISHE: I am State
6 Representative Jim Frishe, and I represent the
7 beaches in Pinellas County.

8 REPRESENTATIVE HOOPER: I am Ed Hooper,
9 representing Florida House District 50, which
10 is a portion of Pinellas County.

11 REPRESENTATIVE WILLIAMS: I am Trudi
12 Williams, Representative from District 75,
13 which is portions of Lee and Collier County.

14 SENATOR JOYNER: I am Arthenia Joyner,
15 State Senator, District 18, encompassing
16 portions of Hillsborough, Pinellas and Manatee.

17 SENATOR DETERT: I am Senator Nancy
18 Detert, and I am very proud to say this is my
19 Senate district, Sarasota, a portion of Manatee
20 and about 30 percent of Charlotte County.
21 Thank you all for coming.

22 REPRESENTATIVE HOLDER: Good evening, and
23 welcome to Sarasota. I am Doug Holder. I
24 represent House District 70, which is the south
25 part of Sarasota County, and I would like to

1 welcome all of our delegates from across the
2 state in the House and Senate to this beautiful
3 place that we call home.

4 REPRESENTATIVE ROBERSON: Thank you for
5 being here this evening. I am State
6 Representative Ken Roberson. I represent parts
7 of Sarasota, Charlotte and Lee County, and I
8 represent the City of North Port in Sarasota
9 County, which is now the largest city in
10 Sarasota County. Thank you for being here.

11 REPRESENTATIVE PASSIDOMO: I am Kathleen
12 Passidomo. I represent House District 76,
13 which is in Collier County. It includes the
14 City of Naples, the City of Marco Island and
15 the City of Everglades City. Thank you.

16 REPRESENTATIVE CLARKE-REED: Good evening,
17 I am State Representative Gwyndolen Clarke-Reed
18 from Broward County. I represent seven cities
19 in Broward County: Deerfield Beach, Pompano
20 Beach, Oakland Park, Wilton Manors, Ft.
21 Lauderdale, the northern quadrant, the Victoria
22 park area, North Lauderdale and Tamarac.

23 REPRESENTATIVE ROGERS: Good evening. I
24 am Hazelle Rogers. I represent the -- one of
25 the most diverse cities and counties in Broward

1 County, and that is representing over 1.8
2 million residents. My district is 94, eight
3 cities, which is Lauderhill, Lauderdale Lakes,
4 Plantation, Oakland Park, Tamarac, Margate, the
5 City of Sunrise. Thank you for being here.
6 Looking forward to hearing your comments.

7 REPRESENTATIVE CRUZ: Good evening. My
8 name is Janet Cruz, and I represent District
9 58, which is a piece of central Tampa. Thank
10 you very much for being part of this process
11 this evening. We are happy to be here.

12 REPRESENTATIVE ADKINS: Good evening. I
13 am Janet Adkins from State House District 12,
14 which is Nassau, Baker, Bradford, Clay, Union
15 and Duval Counties, rural northeast Florida.

16 REPRESENTATIVE BURGIN: Good evening,
17 State Representative Rachel Burgin, District
18 56, which is the City of Tampa and eastern
19 Hillsborough County.

20 REPRESENTATIVE HORNER: Good evening. My
21 name is Mike Horner. I represent State House
22 District 79 in south central Florida.

23 REPRESENTATIVE NUNEZ: Good evening. My
24 name is Jeanette Nuñez. I represent House
25 District 112, which consists of portions of

1 Dade, Broward and Collier County.

2 REPRESENTATIVE YOUNG: Hi there and
3 welcome. I am Representative Dana Young, and
4 my District is District 57, which is a large
5 part of the City of Tampa and part of
6 Hillsborough County.

7 REPRESENTATIVE CAMPBELL: Good evening.
8 My name is Daphne Campbell, District 108, from
9 Miami-Dade County.

10 REPRESENTATIVE BAXLEY: Good evening. I
11 am Dennis Baxley, serving Ocala, Marion County,
12 in the Florida House District 24.

13 REPRESENTATIVE ALBRITTON: Hello, thanks
14 for coming out. My name is Ben Albritton. I
15 serve in the Florida House. I represent
16 southern Polk, Hardee and northwestern
17 Highlands County.

18 SENATOR GAETZ: I think that has given all
19 of our Senators and Representatives a chance to
20 let you know who they are and where they are
21 from.

22 Our purpose tonight is to hear from the
23 public about how you believe the legal
24 standards governing redistricting should be
25 applied. Let me emphasize that. It is not

1 whether the legal standards should be applied,
2 because Amendments 5 and 6 are part of the
3 Constitution, but rather how they ought to be
4 applied. And as you listen to each other's
5 testimony, I think you will see that there are
6 questions that we really need your input on.

7 Our procedures tonight are simple, but
8 important. It is important that you sign in so
9 that we can create an accurate public record of
10 all attendees and speakers, and you may also
11 opt to join our e-mail list so that we can keep
12 you informed about how the redistricting
13 process is proceeding. If you have not signed
14 in, but if you would like to speak or if you
15 have just come to listen, we still would like
16 to know who you are so that we can stay in
17 touch with you, so if you would like to speak
18 or if you are just here as a listener and we
19 have not had an opportunity to get your name,
20 if you will raise your hand, we will make
21 sure -- thank you, there is a young lady right
22 here in the second row -- if you will raise
23 your hand, we will certainly be sure to get a
24 card. It is the same card whether you wish to
25 speak or whether you are here simply to listen

1 to your friends and neighbors.

2 We also would ask you, even if you are
3 RSVP'd that you were going to be here, and
4 many, many people have, and we are so grateful
5 for that, be sure that you do sign in so that
6 we can call your name and give you an
7 opportunity to speak.

8 Before we begin, the Chair will recognize
9 the Speaker Designate, Representative
10 Weatherford, to explain how today's hearing
11 fits into the redistricting process and the
12 redistricting schedule. Mr. Speaker.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much, Mr. Chairman, and thank you all for
15 taking time to be here. This is a great
16 turn-out, and we are excited to be here in
17 Sarasota County and excited to hear from your
18 public testimony. In fact, I was just chatting
19 with Representative Holder a minute ago, and I
20 think this is home to the finest beach in
21 America, if I am not mistaken, is that right,
22 Siesta Key. So, as legislators, we sometimes
23 have tough duty having to go into beautiful
24 places like Sarasota, so thank you very much
25 for welcoming us here.

1 I am going to walk you through just a
2 brief -- give you an understanding about what
3 we are here to do today and what we hope to
4 accomplish. Every ten years, the Legislature
5 is required by our Constitution to redistrict
6 the state based on increases, decreases and
7 movements in population. Because Florida has
8 grown dramatically over the last ten years, we
9 have actually picked up two new congressional
10 seats. So instead of having 25 members of the
11 House of Representatives, we will now have 27
12 members of the House of Representatives.
13 Because some parts of our state have increased
14 and decreased disproportionately, many Senate
15 and House Districts will change, either adding
16 or losing in population.

17 When redistricting is completed,
18 congressional districts must be equal in
19 population and have 696,345 people, the 40
20 Senate districts must also be nearly equal at
21 470,000, and people in our 120 House districts
22 must also be nearly equal at 156,700 people.

23 Now, we have displays at the very front of
24 the room that will show you the current
25 boundaries of the state, and more particularly,

1 the current boundaries in this area, and if you
2 feel free at any point during the hearing, you
3 can go back and get a look very closely at what
4 they look like.

5 Equality in representation is not the only
6 legal requirement redistricting plans must
7 meet. The laws and the important court cases
8 that govern redistricting are explained in
9 detail in the House and Senate websites. Those
10 websites are listed on the "Redistricting 2012"
11 brochure that was available to you when you
12 came in. Our "Redistricting 2012" brochure
13 summarizes federal and state laws, and outlines
14 topics that we hope we will be discussing here
15 at today's hearing. If you did not get a copy
16 of that brochure when you came in, they are
17 available at tables outside the meeting, or our
18 staff is more than willing to give you a copy.
19 If you just raise your hand and give us a few
20 moments, we will get a copy to you. Keep your
21 hands up, and we will get them to you.

22 These websites also deliver to your
23 fingertips all of the demographic information
24 that will be used in drawing districts in the
25 exact same computer programs that legislators

1 and professional staff will use when we draw
2 districts. Any member of the public can
3 participate in building plans or seeing maps
4 submitted by legislators or other citizens.
5 Before, during and after this hearing, Senate
6 and House professional staff are available to
7 show anyone the simple steps in going on-line,
8 building districts and submitting maps now or
9 in the weeks to come.

10 Recommendations from citizens and groups
11 of citizens will be made immediately -- will be
12 made public immediately. In fact, as of this
13 morning, we've had 49 public submissions of
14 partial or complete maps, and many other
15 written ideas for maps available on the week,
16 and I am sure that number will increase. In
17 fact, Mr. Chairman, just last night, we were in
18 Tampa Bay and a 13-year-old young man, student,
19 actually has drawn an entire House district map
20 for the entire state of Florida, and did it
21 with -- he and his sister, and that is the kind
22 of participation and the opportunity that you
23 can get with the websites that we have, and so
24 we hope that everyone here will also
25 participate in that manner. The submission of

1 proposed maps that makes sense for your
2 community is the single most effective way that
3 you can communicate with this Committee and
4 with the redistricting process.

5 The redistricting schedule under which we
6 are operating is imposed by the State
7 Constitution. Let me say that again. This
8 always comes up every hearing. The
9 redistricting schedule under which we are
10 operating is imposed by the State Constitution.
11 The Constitution does not permit the
12 Legislature to act on state legislative maps
13 before the second year after the census; in
14 other words, before 2012. We have accelerated
15 this process as much as we can by moving up the
16 2012 legislative session from March to January,
17 and by beginning our statewide hearings five
18 months in advance of the 2012 session.

19 It has been suggested that the Legislature
20 should draw maps first and then ask the public
21 to comment. We believe that puts the answer
22 ahead of the question. There should be no
23 preconceptions created by politicians, but,
24 rather, public testimony should be free and
25 unrestricted. In fact, a principal author of

1 Florida's new redistricting standards and the
2 Chairperson of Fair Districts campaign are both
3 on record and in agreement with the notion that
4 new maps should not be drawn until after they
5 have received public comment.

6 Our intent is to use the recommendations
7 made at these 26 hearings and through our
8 Internet sites as the basis for drawing one or
9 more options for district maps. We will
10 discuss these options in open public meetings
11 before any votes are actually taken on the
12 maps, even in committee. In other words, what
13 we are literally saying here is that if you
14 look at the maps outside this room when you
15 first came in and you walked through on your
16 way into this room, and the ones that have been
17 submitted to the Legislature by citizens just
18 like you, we are literally saying that the
19 legislative process is starting with those maps
20 and those suggestions from the public. So if
21 you want to know where we begin our
22 deliberations, it is with those public
23 submissions and the testimony from meetings
24 that we have just like here this evening.
25 Throughout the process, we will continue to

1 solicit additional public comment so that the
2 proposed maps can mature with your public
3 involvement and more input as we go through the
4 process. Whatever the Legislature passes, it
5 is then submitted from judicial review to
6 ensure that the final maps meet every single
7 legal requirement.

8 Because our purpose today is to hear from
9 you, all the time now -- between now and
10 9:00 p.m. will be used to ensure that every
11 member of the public has an opportunity to
12 speak. If after every citizen has had his or
13 her say and there is time remaining on the
14 schedule before adjournment, any member of this
15 Committee may make any statement or any
16 observation. Of course, any member of the
17 Legislature may today, or, Mr. Chairman, at any
18 time propose a map or a plan, and we will make
19 it public immediately.

20 Mr. Chairman, I hope that this description
21 gives us a starting point for the process, and
22 I look forward to hearing from the citizens
23 here in Sarasota County. Thank you.

24 SENATOR GAETZ: Thank you, Mr. Speaker.

25 The good news is that we have over 80 people

1 who have signed up to speak. That is
2 excellent. But what that means is that all of
3 those who signed up to speak -- in fact, more
4 than 80, I am just handed a note. What that
5 means is that those who do speak need to be --
6 if we could ask you to be respectful of the
7 fact that there are others of your friends and
8 neighbors who would like to speak also. So in
9 deference to them and out of respect for the
10 many people who would like to share their
11 views, we are going to ask those who speak to
12 confine their verbal testimony to two minutes.
13 Now, you can supply -- if you've got a script
14 or you have some information that you have
15 written down, you can supply that to the
16 Committee, it will go in the record, every
17 member of the Committee will receive it and
18 have a chance to read it and review it. But we
19 would like your verbal comments, if you could,
20 to be short and to the point, because there are
21 so many of you who would like to share your
22 views with the Committee.

23 That being said, I am going to call about
24 three names at a time and ask if you would come
25 up to the center aisle and be ready, sort of in

1 an on deck circle, so that we could spend our
2 time listening to your views as opposed to
3 waiting for folks to work their way through the
4 crowd.

5 Kathy Dent, the Supervisor of Elections,
6 is our first speaker tonight, and follow is
7 Ms. Dent, Karen Berman, and then Ann Hardy from
8 the League of Women Voters, then Debbie Trice.
9 So if those individuals will come forward, we
10 will move expeditiously through the process.

11 And, Ms. Dent, thank you for being here
12 and thank you for your service to the people of
13 this county. You are recognized.

14 MS. DENT: Thank you very much, and I
15 appreciate the opportunity to be here and I
16 thank you all very much for being willing to
17 make this tour of the state.

18 I racked my brain trying to come up with
19 something that was not something you have heard
20 a thousand times before, and it all boils down
21 to two very simple things. Number one, the
22 Supervisors of Elections, contrary to rumor,
23 especially when I walked in this room tonight,
24 do not already have the lines drawn. We are
25 leaving it up to you.

1 And, number two, the two important things
2 that I am asking you to take into
3 considerations is the timing. We are going
4 into 2012, and this is Florida. If we don't
5 have enough time to get our ballots drawn, to
6 get our polling places located, to notify the
7 voters, to get our precincts approved by the
8 Board of County Commissioners, we will be more
9 likely to make a mistake and it could actually
10 impact over 11 million voters in the state of
11 Florida, which we don't ever want to have a bad
12 name here again.

13 And the second part is I am imploring that
14 you use the VTDs. Those are the Voting
15 Tabulation Districts. The Supervisors of
16 Elections -- and I think this is where the
17 rumor comes in. Supervisors of Elections
18 worked very hard in 2009 to make sure that
19 communities of interest were isolated to make
20 it easier for you all when you are looking to
21 draw those lines, that if you remain within
22 those communities of interest, you can't go
23 wrong. It keeps, for example, the Palmer Ranch
24 here in Sarasota County, The Villages, West
25 Villages in North Port, who actually are

1 divided right now between Representative
2 Roberson and Representative Holder. And we
3 made a mistake even just a couple of years ago
4 on a couple -- about 200 ballots, because it is
5 that easy to do to make a mistake when you have
6 all of these splits.

7 SENATOR GAETZ: And, Ms. Dent, I apologize
8 profusely, but if you could wrap up, I would be
9 very grateful.

10 MS. DENT: I sure will.

11 And one last thing I would like to say is
12 history does repeat itself. I think that this
13 illustrious body can look ten years down the
14 road, you are all going to be term limited, and
15 to look at some way of dealing with this time
16 crunch that we have, constitutional amendment
17 followed with special session, or get creative
18 and just do some research --

19 SENATOR GAETZ: Thank you.

20 MS. DENT: -- and not have this happen
21 again.

22 SENATOR GAETZ: Yes, ma'am.

23 MS. DENT: Thank you again for the
24 opportunity.

25 SENATOR GAETZ: And, Ms. Dent, we hope

1 that you will be able to stay until the end of
2 the hearing, because a number of questions tend
3 to get raised during the hearing, factual
4 questions about timelines and other things, and
5 the Speaker Designate, as well as other
6 members, will be making copious notes. We will
7 try to answer factual questions, not get into
8 arguments about opinions, but answer factual
9 questions if there's time at the end of the
10 hearing. Thank you very much, Ms. Dent.

11 And now, Karen Berman, thank you for
12 taking some of your time tonight to come with
13 us, and you are recognized.

14 MS. BERMAN: Thank you. I came to implore
15 you and say just do it, implement the Fair
16 Districts amendments which we citizens voted
17 for. Set fair boundaries according to the
18 standards that are outlined. You know what
19 they are.

20 SENATOR GAETZ: Thank you very much.

21 And now Ann Hardy, representing the League
22 of Women Voters, and behind Ms. Hardy will be
23 Debbie Trice and Doug Heinlen and I believe it
24 is Jutta Tolbert, and I apologize if I have
25 mispronounced that.

1 Ms. Hardy, thank you for coming tonight,
2 and you are recognized.

3 MS. HARDY: Thank you, Senator Gaetz.

4 Good evening, my name is Ann Hardy. I am
5 on the Board of the League of Women Voters of
6 Sarasota County, and thank you all for giving
7 me this opportunity to speak.

8 I would like to address two issues this
9 evening. First is the timeline for the
10 redistricting process. Say the Legislature
11 does not vote on the districts until March.
12 After the mandatory review period by the courts
13 and the Department of Justice and after
14 resolution of probable lawsuits, we will very
15 likely be hitting the filing deadlines for
16 candidates. In addition to putting a huge
17 strain on our Supervisors of Elections and
18 designating new placings and preparing overseas
19 and absentee ballots, this late date will give
20 candidates inadequate time to mount credible
21 campaigns, and most importantly, will give
22 voters little time to get to know their
23 candidates. Amendments 5 and 6 were in part
24 adopted to give candidates a fair shot at
25 presenting their case and getting elected.

1 Having a March date for passage of new
2 districts flies in the face of this intent.
3 Please set a deadline for proposed maps in
4 early October. Allow a reasonable amount of
5 time for the public to provide input on the
6 maps and on subsequent amendments, and complete
7 your committee review of the plans in December
8 so that the final maps can be voted on the
9 first week of session in January.

10 This brings me to my second and I think
11 most important point. The citizens of this
12 state approved Amendments 5 and 6 by
13 63 percent. I ask that you take special care
14 to respect the will of the voters. I have been
15 watching these hearings across the state, and
16 it is easy to see the frustration of citizens
17 who feel the system has been manipulated. The
18 Constitution now requires the districts be
19 compact, contiguous, and use existing
20 geographical and political boundaries. It also
21 requires that districts not be drawn to favor
22 incumbents or political parties. We can do
23 this. We can make fair districts. As the
24 Governor would say, let's get to work.

25 SENATOR GAETZ: Thank you very much,

1 Ms. Hardy. And, Ms. Hardy, I hope you can stay
2 until the conclusion of the meeting as well,
3 because I think you will get the same
4 reassurance that we provided the League on
5 numerous occasions about the timeline.

6 Next we will hear from Debbie Trice, and
7 then Doug Heinlen, then Jutta Tolbert and then
8 Keith Dibell.

9 And, Ms. Trice, thank you for coming
10 tonight. You are recognized.

11 MS. TRICE: Thank you. Good evening.

12 Most Floridians know what county they live
13 in. Most Floridians know what municipality
14 they live in. Many can even identify where
15 they live in relation to major roads or
16 waterways. But few can tell you which
17 legislative district they are in. Why does
18 that matter? Well, of course, it matters
19 during election season when candidates are
20 soliciting campaign contributions and votes,
21 but why does it matter the rest of the time?

22 Knowing what legislative district you are
23 in is crucial to seeking services and
24 assistance from your Representative. Getting
25 the run-around after contacting the wrong

1 office is one reason for public anger with
2 public servants. I am sure none of you wants
3 to be voted out of office because what the
4 office holder in the neighboring district
5 failed to do.

6 Now, how relevant is that to this -- the
7 topic of this public hearing? I want to convey
8 to you how critical it is for district
9 boundaries to be placed where they will be
10 meaningful to the people who live in those
11 districts. Use existing political and
12 geographical boundaries as required by the
13 Florida Constitution. Remember, these
14 standards were supported by a two-thirds
15 majority of Florida voters.

16 Now, on a slightly different note, it is a
17 disservice to the people of Florida that these
18 hearings are being held before your Commission
19 has produced maps for the public to comment on.
20 Only the people who live close to the proposed
21 district boundaries can identify problems and
22 offer solutions.

23 Now, in the absence of a proposed map, I
24 will identify a problem with a piece of the
25 current map of House District 70, which

1 Representative Holder serves.

2 SENATOR GAETZ: And, Ms. Trice, I am glad
3 you have gotten to that point, but I would ask
4 you to wrap it up just in deference to the
5 people who are signed up behind you.

6 MS. TRICE: Okay. Very quickly, the
7 northern boundary of the District is Clark
8 Road, State Road 72, which is a major
9 thoroughfare and exit off of I-75. That is an
10 excellent boundary. The problem, however, lies
11 in the exceptions. If you live north of Clark
12 Road between the railroad tracks and I-75, you
13 might be in District 70, but then again, you
14 might not be. So I urge you not to include any
15 meandering boundaries like this in drawing the
16 new district lines.

17 SENATOR GAETZ: Thank you. That is
18 exactly the kind of information we need.

19 And next we will hear from -- is it -- did
20 I do it correctly, did I pronounce it
21 correctly, Doug --

22 MR. HEINLEN: Heinlen.

23 SENATOR GAETZ: -- Heinlen?

24 MR. HEINLEN: Heinlen, that is right.

25 SENATOR GAETZ: Mr. Heinlen, thanks for

1 coming and give us some time tonight.

2 MR. HEINLEN: Good evening, Mr. Chairman
3 and committee members. My name is Doug
4 Heinlen, got that straight. I am a resident of
5 Sarasota, and tonight I speak as Florida AARP
6 State President, which is a volunteer position.

7 AARP Florida has 2.7 million members, and
8 we serve the older adult community of Florida
9 in many ways. Our Florida Tax-Aide volunteers
10 prepared at no cost 230,000 tax returns last
11 season. There were 48,000 graduates of our
12 driver safety program, and 5,000 job seekers
13 were served at 17 SCSEP sites in Florida with a
14 placement rate of 74 percent, the highest in
15 the country.

16 One of the areas that AARP Florida is most
17 engaged in is advocacy. Our staff in
18 Tallahassee is assisted by 200 active advocacy
19 volunteers, and active they are, as
20 demonstrated by the fact that Florida led the
21 country in petitions to Congress about the
22 recent suggestions to cut Social Security and
23 Medicare, with 80,000 signatures collected from
24 Florida AARP members in a very short time.

25 It is to advocate the AARP position that I

1 speak to you tonight, specifically a position
2 on redistricting. Transparency, timeliness and
3 trust, these principal elements of the
4 redistricting process need to be adhered to.
5 The voters of Florida have spoken, supporting
6 the Fair District plan by almost two to one,
7 about fair districts. But we are concerned the
8 project is going to proceed without full
9 disclosure and public presentation. The public
10 needs the opportunity to comment and to have
11 those comments be meaningfully considered. We
12 ask you to post the proposed map designs in a
13 timely manner so they can be reviewed by all.
14 We ask for the posting of the proposed map
15 designs to allow enough time for public review.

16 And, finally, I would like to take note of
17 the tremendous effort by the Florida League of
18 Women Voters on Fair Districts issues. They
19 led this fight really. I remember my
20 daughter's middle school civics club --

21 SENATOR GAETZ: And, sir, we are over two
22 minutes, so if you could wrap it up, I would be
23 very grateful.

24 MR. HEINLEN: A few more sentences.

25 -- working with the local League

1 collecting signatures for the first ballot
2 initiative on Fair Districts at one of the
3 Sarasota reading festivals. My daughter is now
4 a senior in college, which goes to show you
5 what a long-time, sustained effort the League
6 put in. So thanks to the League and thanks to
7 all of you for taking on this very difficult
8 task.

9 SENATOR GAETZ: And thank you, sir, for
10 your testimony, excellent testimony.

11 And now, Jutta Tolbert, and did I get that
12 right, ma'am?

13 MS. TOLBERT: It's Jutta.

14 SENATOR GAETZ: Jutta Tolbert, I am so
15 sorry. Thank you for coming tonight. And next
16 will be Keith Dibell, or Dibell, and then
17 Joseph Blais, I think, and then Earl Beckwith,
18 if you would please line up in the on deck
19 circle.

20 Ms. Tolbert, the floor is yours.

21 MS. TOLBERT: Thank you. My question is,
22 as far as the committee meetings, is there a
23 schedule already set for those that once we are
24 done here and you guys go into committee, what
25 is the schedule there?

1 SENATOR GAETZ: That is a great question.
2 The Speaker Designate can answer that. The
3 answer is yes, but he will be able to point you
4 to a website so you can see what the
5 Committee's schedule is.

6 MS. TOLBERT: Okay. And my other question
7 is, how many of those present here will be on
8 those committees?

9 SENATOR GAETZ: Again, we will answer
10 those questions, but we want to give everybody
11 a chance to speak first.

12 MS. TOLBERT: Sure. Thank you.

13 SENATOR GAETZ: Thank you so much, ma'am,
14 for your testimony.

15 And next, Keith -- is it Dibell or Dibell?

16 MR. DIBELL: It is Dibell.

17 SENATOR GAETZ: Dibell. I had it wrong
18 both ways.

19 MR. DIBELL: That's all right, I was in
20 the military.

21 SENATOR GAETZ: Well, I understand. My
22 name gets butchered from time to time, too.
23 You are recognized, sir, and thanks for coming
24 tonight.

25 MR. DIBELL: My name is Keith Dibell. I

1 am from Manatee County. I want to thank each
2 and every one of you on this panel for being
3 here.

4 One of the reasons that I am standing here
5 is my vote does not count in Manatee County.
6 That is not right. I work for the City of
7 Bradenton. The policies that are set by y'all
8 go to Pinellas County in Hillsborough County,
9 not to the City of Bradenton.

10 Now, over it all, it all filters down
11 throughout the state and gets to me eventually.
12 I would like to have a direct result to the
13 City of Bradenton about governing my county.

14 There are a number of Representatives,
15 there are a number of Senators. Y'all set
16 policy, y'all make laws. We, the voting
17 public, gave you a mandate to correct this.
18 Please do so.

19 The idea of having a map prior to a
20 committee meeting. Gee, I am not really sure
21 what I am commenting on other than I would like
22 to know what you have done. Doing it in a
23 timely manner would be welcome, because I will
24 see you in Tallahassee, each and every one of
25 you. Have a good evening.

1 SENATOR GAETZ: And looking forward to
2 seeing you.

3 MR. DIBELL: Oh, no, you won't.

4 SENATOR GAETZ: Thank you very much,
5 Keith. We'll look forward to seeing you in
6 Tallahassee. I am at Senate 420.

7 MR. DIBELL: I know where your office is.

8 SENATOR GAETZ: Come on down.

9 Joseph Blais. Is it Blais, sir?

10 MR. BLAIS: Blais.

11 SENATOR GAETZ: And after Mr. Blais is
12 Earl Beckwith, and then Monia, I think it is
13 Joblin, with the Planned Parenthood
14 organization, and then Glenda Wright, if you
15 would be on the on deck circle, please.

16 Joseph, thank you for coming, and we are
17 looking forward to your observations, sir.

18 MR. BLAIS: Good evening, everyone. I
19 want to commend this body for the website. I
20 think this is very important. Keep it current,
21 keep it updated. We -- you know, if we don't
22 look at it, it is our fault. You have made the
23 effort, you have met us halfway.

24 I think the other thing, having this
25 televised is incredible. To have this

1 communication to the people is essential. I
2 mean, there shouldn't be any excuses. If you
3 want to know what it is about, there's ways to
4 find out.

5 My situation is I lived -- I have been in
6 Florida for 20 years. I lived in Tampa Bay. I
7 am used to a larger population. I moved to
8 Charlotte County about close to six years ago.
9 Unfortunately, Charlotte County has under
10 250,000 population, approximately 160,000 in a
11 vast, undeveloped -- we have a lot of land, and
12 it's -- I think when I look at the maps
13 currently, it is like you've -- whoever did
14 this before -- because I have never been
15 involved in anything like this before. This is
16 my first time up at bat.

17 SENATOR GAETZ: You are doing well.

18 MR. BLAIS: Exactly. And I, for instance,
19 there's the congressional districts. We've got
20 three congressional districts in our county.
21 And, you know, it is hard for us to go and
22 meet, like we have to go to either West Palm or
23 Naples or wherever Connie Mack -- because that
24 is my Congressman, and then there is Buchanan,
25 I believe. So we just feel that we are being

1 underserved, and we have regional concerns,
2 because we are looking for Florida to grow
3 again, because I think Charlotte County had a
4 great plan, and the recession hit, the housing,
5 so on and so forth, so our growth has been
6 stunted, but we are making plans to grow again.
7 So, you know --

8 SENATOR GAETZ: And if I could ask you to
9 bring it in for a landing.

10 MR. BLAIS: Yes, I will.

11 SENATOR GAETZ: Thank you.

12 MR. BLAIS: Whatever you can do, I know we
13 are limited by our population, but please try
14 to find common ground, because I really don't
15 want this to go to the courts, because I am a
16 taxpayer, and we pay the legal and we pay the
17 price. So let's find a way to be bipartisan,
18 like you are trying to do tonight, and let's
19 find a solution that gets us more on a
20 regional, cooperative basis. That is what I am
21 looking for.

22 SENATOR GAETZ: Thank you.

23 MR. BLAIS: Thank you.

24 SENATOR GAETZ: Thank you so much for your
25 testimony. And next we will hear from Earl

1 Beckwith, and following Mr. Beckwith, Monia
2 Joblin from Planned Parenthood and then Glenda
3 Wright and then Bill McGrath.

4 Mr. Beckwith, thank you for coming
5 tonight. The floor is yours.

6 MR. BECKWITH: Thank you. I just want to
7 know how much this lawsuit is going to cost the
8 taxpaying public for something that is
9 basically trying to thwart the will of the
10 taxpaying public initiated by the House.

11 SENATOR GAETZ: We will certainly provide
12 you any information we can at the conclusion of
13 the hearing. Thank you, Mr. Beckwith.

14 And I apologize, is it Monia, Monia?

15 MS. JOBLIN: It's Monia.

16 SENATOR GAETZ: Monia. Is it Joblin?

17 MS. JOBLIN: It is Joblin.

18 SENATOR GAETZ: Joblin, from Planned
19 Parenthood. Thank you for coming and sharing
20 your perspective tonight.

21 MS. JOBLIN: You're welcome. I am
22 speaking on behalf of Planned Parenthood of
23 Southwest and Central Florida, and it appears
24 to us that the Legislature's timeline for
25 drawing districts is extremely unfair to

1 Florida's voters. Florida's maps will be
2 approved later than almost every other state in
3 the nation, and our districts may not be
4 finalized until August, just two months before
5 the all-important 2012 elections. One can only
6 think that the current timeline is designed as
7 an incumbent protection plan.

8 And I agree with the previous speaker, why
9 is the Legislature spending our precious tax
10 dollars, over a million dollars so far, to
11 oppose Fair Districts passed during last year's
12 elections by 63 percent of the electorate? All
13 of this money is being spent unnecessarily,
14 while teachers are being fired, social services
15 are being cut, fewer women are having access to
16 health care. What the Legislature should be
17 working to uphold, the constitutional
18 provisions placed there by almost two-thirds of
19 the electorate last November, not spending
20 taxpayers' money to avoid the voters' will.
21 You are spending our money -- it would seem you
22 are spending our money to protect your own
23 seats.

24 Now, there is something very suspicious
25 and anti-democratic about the procedure that is

1 being followed, all of the do-it-yourself maps
2 notwithstanding. Look, it leads us to believe
3 that the real mapping is going on in back
4 rooms. We call on the Legislature to heed to
5 the voters. This issue is a test of our
6 democracy and the will of the people of
7 Florida. Thank you.

8 SENATOR GAETZ: Thank you so much.

9 Next we will hear from Glenda Wright, and,
10 folks, this is a public meeting, so you are
11 welcome to applaud, you are welcome to emote,
12 you do anything you want. Just bear in mind
13 that the time we take is time that then folks
14 won't be able to use to speak. No, no, no, no.
15 I said you are welcome -- you are welcome to do
16 it, but just understand that the laws of
17 physics do pertain and you can't do two things
18 at the same time.

19 Glenda Wright.

20 MS. WRIGHT: Hi, good evening. My name is
21 Glenda Wright.

22 SENATOR GAETZ: Now, let's give Ms. Wright
23 our attention, okay?

24 MS. WRIGHT: Thank you. My name is Glenda
25 Wright, and I am speaking tonight as a private

1 citizen. I live in Manatee County and I work
2 in Sarasota County. I believe I bring a unique
3 perspective to the redistricting issue. I have
4 worked for two members of Congress who have
5 represented Sarasota and Manatee Counties.

6 During the redistricting process in 1990,
7 and again in 2000, I was very involved in the
8 debate regarding the lines of congressional
9 districts, and became very familiar with both
10 the process and the need for areas of similar
11 interest to remain in one congressional
12 district.

13 With that in mind, I would like to read
14 into the record just a couple of excerpts from
15 an article written by my -- one of my former
16 bosses, Congressman Dan Miller, who could not
17 be here this evening. This column appeared in
18 *The Sarasota Herald-Tribune* on June 3rd of this
19 year. Congressman Miller and I share the same
20 view, that Sarasota and Manatee County should
21 be combined into one congressional district.

22 Here are a few comments: "Manatee and
23 Sarasota Counties have formed the heart and
24 soul of our congressional district for 20
25 years. There is compelling evidence that they

1 should continue to do so for another decade.

2 The state constitutional amendments passed by
3 Florida voters last November were designed to
4 produce honest, non-gerrymandered districts
5 that serve the public's interest, and not the
6 interest of incumbents or a political party.

7 "It is less than 11 miles from downtown
8 Bradenton to downtown Sarasota. The fabric of
9 both communities is deeply interwoven.
10 Separating them will tear apart years of
11 economic and geographic collaboration. The
12 relationship between Manatee and Sarasota
13 Counties is far greater with the communities to
14 the south and the north -- is far greater than
15 with the communities to the south and north of
16 our area. Keeping Bradenton and Sarasota
17 together maximizes the influence of these two
18 key cities in the halls of Congress. Keeping
19 Manatee and Sarasota Counties together is the
20 right thing to do for the people who live in
21 the district and for the integrity of the
22 process. Logic dictates the two counties
23 should remain in the current district."

24 Thank you.

25 SENATOR GAETZ: Thank you. And if you

1 have more -- Ms. Wright, if you had more that
2 you were not able to get in --

3 MS. WRIGHT: I turned it in.

4 SENATOR GAETZ: Okay.

5 MS. WRIGHT: I turned it in.

6 SENATOR GAETZ: We would love to have it
7 in the record.

8 MS. WRIGHT: Thank you.

9 SENATOR GAETZ: Thank you for your
10 testimony.

11 Next, Bill McGrath. And, Mr. McGrath, you
12 will be followed by --

13 MR. GRANT: That is just Grant, G-r-a-n-t.
14 That is a middle initial.

15 SENATOR GAETZ: Oh, okay.

16 MR. GRANT: First I want to thank you all
17 for coming from all over the state here rather
18 than make us drive up to Tallahassee.

19 I started the political business some 50
20 years ago, and I can't say that we did, my
21 generation, a great job. We have given you one
22 enormous challenge. With our best big hearts,
23 we instituted all these entitlement programs.
24 The results, of course, have been catastrophic,
25 as we see by the number of people --

1 SENATOR GAETZ: Sir, if we could -- no,
2 no, no, no, no. If we could bring it back to
3 redistricting, okay?

4 MR. GRANT: Okay. It is -- well, it is
5 coming to redistricting.

6 SENATOR GAETZ: Well, let's get there
7 soon. You now have a minute and 30 seconds
8 left.

9 MR. GRANT: That is enough time.

10 The next couple of years are going to be
11 very traumatic periods, a lot of challenges,
12 and it is important that as we undergo these
13 challenges, that all of our residents believe
14 that they are represented. And to that extent,
15 even though I am a little against the idea of
16 trying to manipulate districts, I think it is
17 important that minorities continue to be well
18 represented in our state. So I would recommend
19 that District 55, which under the files would
20 say, hey, let's change that, not be changed.

21 SENATOR GAETZ: Thank you very much, sir.

22 Next, Patricia Benson -- I'm sorry?

23 MR. McGRATH: It is a little uncanny,
24 there must have been two Bill McGraths in the
25 hall, both of whom were recognized.

1 SENATOR GAETZ: Well, Bill McGrath, the
2 second, you are recognized.

3 MR. McGRATH: Exactly, not a junior.

4 And my questions basically have already
5 been asked, but I think one point probably
6 needs to be reiterated. I think if these
7 hearings are to be considered seriously by the
8 public, why then at the same time has *The St.*
9 *Petersburg Times* and *The Miami Herald* within
10 the last week stated that the Legislature has
11 spent over \$2.5 million in last year and this
12 year alone challenging the Constitutional
13 Amendments 5 and 6? If the Committee doesn't
14 accept the *Times* and the *Herald* figure of \$2.5
15 million, I think you could at least accept the
16 figure that was given out by the House
17 spokeswoman, Katie Betta, I believe is her
18 name, who has already stated that this year
19 alone, one-third million dollars has gone to --
20 for the House challenge of Amendment No. 6.

21 SENATOR GAETZ: Thank you very much, sir.

22 And now -- just a moment -- Patricia
23 Benson with the Democratic Women's Club of
24 Manatee, and following Ms. Benson we will have
25 Virginia Hitchcock, then Mildred Headdy with

1 the League of Women Voters and then Larry
2 Grossman with Manatee County Democrats.

3 Ms. Benson, thanks from coming, and we are
4 delighted to hear from you.

5 MS. BENSON: Thank you. Basically I just
6 want to reiterate what everyone else has said
7 in the past. I was a teacher for 33 years, and
8 when we went before the community with changes
9 within the school district, we came with the
10 maps, the parents saw it, they then raised
11 questions and we made changes, but we came with
12 the maps. And as far as I am concerned, this
13 is a waste of time and waste of money. Thank
14 you.

15 SENATOR GAETZ: Thank you.

16 Next, Virginia Hitchcock. Ms. Hitchcock,
17 thank you for being with us tonight, and you
18 are recognized.

19 MS. HITCHCOCK: Good evening. Please
20 excuse my reading my statement.

21 SENATOR GAETZ: Not at all. Go ahead.

22 MS. HITCHCOCK: My family and I moved to
23 Sarasota from Washington, DC, 12 years ago.

24 Thank you for taking the time and making
25 the effort to get public opinion on this very

1 important issue. The long haul of 26 hearings
2 is almost over for you.

3 Unlike many, I agree with your decision to
4 get public input first, as this is an important
5 first step in creating ownership of any process
6 of change. If you had come with proposed maps,
7 you would have had nothing but unhappy people
8 asking why you didn't get their opinion first.

9 I have been so impressed by the My
10 District Builder system. It was developed for
11 state officials and offered to the public for
12 input.

13 When you take all this input and opinions
14 and begin to create your proposed districts, I
15 hope you will follow certain principles. The
16 most basic is to follow the wording of the
17 amendments passed by 63 percent of our citizens
18 to create compact, contiguous districts of
19 approximately equal populations that follow
20 county and city boundaries, as well as Voting
21 Tabulation Districts and natural boundaries.

22 When I created my own U.S. congressional
23 map, I thought it would be easy. Just combine
24 counties of low populations or divide counties
25 of large populations to arrive at the target

1 numbers. I was wrong. First of all, it is not
2 that easy to create compact districts at the
3 county level when some of our counties are
4 definitely not compact. How did they come up
5 with Lake County anyway?

6 My basic building unit was the Voting
7 Tabulation District. Even though the
8 redistricting software allows changes on the
9 block level, I would hope that you would
10 likewise leave the VTDs untouched. The 2002
11 congressional district map did not respect the
12 VTDs. I think local Supervisors of Elections
13 must have the autonomy to create the districts
14 that serve their populations best.

15 For areas south of the heavily developed
16 I-4 corridor, I differentiated coastal urban
17 areas from rural central ones. In these areas,
18 the transitions between open land and dense
19 housing developments are very distinct, and I
20 think the inhabitants of each markedly has
21 different issues and concerns. I suspect that
22 the concerns of residents of rural areas have
23 been overshadowed by those of the more densely
24 populated coastal regions.

25 SENATOR GAETZ: And, Ms. Hitchcock, we

1 really appreciate your submission of a map, but
2 if you could wrap it up in a sentence or two,
3 that would be respectful to those behind you.

4 MS. HITCHCOCK: Okay. Okay. I have not
5 considered racial or ethnic makeups in the
6 proposed districts. I think it's time for
7 Florida to have a system that is color blind
8 and see how it works.

9 Several friends have asked --

10 SENATOR GAETZ: Thank you. Thank you very
11 much. And we really appreciate you becoming
12 the 50th submitter of maps, and we will take
13 your maps deeply into consideration and thank
14 you very much. We will put them on the
15 Internet so that everyone can see them, and if
16 you have extended remarks, please supply them
17 for the record.

18 MS. HITCHCOCK: I will.

19 SENATOR GAETZ: Thank you very much.

20 MS. HITCHCOCK: Thank you.

21 SENATOR GAETZ: And now we will hear from
22 Mildred Headdy with the League of Women Voters,
23 and following Ms. Headdy, we will have Larry
24 Grossman from the Manatee County Democrats,
25 then Bonnie Hepburn.

1 So, Ms. Headdy, thank you for coming, and
2 you are recognized.

3 MS. HEADDY: Okay. I am Millie Headdy,
4 and I was going to address timing this evening.
5 It has already been addressed, so for brevity,
6 I give the rest of my time. Thank you.

7 SENATOR GAETZ: Thank you very much, and
8 please stay if you can so that you will have an
9 opportunity to hear some of the answers to the
10 timeline questions at the end of the hearing.

11 MS. HEADDY: Thank you.

12 SENATOR GAETZ: Yes, ma'am.

13 MR. GROSSMAN: My name is Larry Grossman,
14 I live on Longboat Key, and by profession, I am
15 a city planner, so I walk around with maps all
16 the time. I know it is damned if you do and
17 damned if you don't. If you had the maps
18 already prepared, people would say, "That is a
19 solution to what problem? We haven't had any
20 input." And so now you are getting the
21 opposite, "Where's the maps, where's the
22 solution?" And I think it is preferable for
23 you to get the input from people to say -- cite
24 problems they see, because that will help in
25 your decision-making.

1 Okay, so here goes. I was very surprised
2 -- I have only been here for a couple of years,
3 so I am very surprised that Nancy Detert
4 represents me, because I live on Longboat Key.
5 I visited my friend in Punta Gorda recently,
6 and now I can't believe that we are in the same
7 Florida Senate District 23.

8 A VOICE: 76,000 thousand people.

9 MR. GROSSMAN: Right. And then, lastly
10 perhaps, I think that -- so one of the things I
11 do want to look at, you know, District 21, 23,
12 and rearrange the geographics there.

13 The other point is that I think the
14 barrier islands should all be in one district,
15 and I think they are not. And I think they
16 have more to do with each other than -- because
17 they have issues of beach re-nourishment and
18 tourism and all kinds of other stuff, so they
19 should be together. And, lastly, you know, the
20 House District 55 looks really strange, because
21 it just hits a lot of different jurisdictions,
22 it should be more compact. Thank you.

23 SENATOR GAETZ: Thank you very much. That
24 is exactly the kind of input we need.

25 And now we will hear from Bonnie Hepburn,

1 and following Ms. Hepburn, Robert -- I think it
2 is Waechter, Waechter, with the Sarasota
3 Manatee Airport Authority, and then Sarah
4 Hernandez, and then if David Matthews would be
5 ready.

6 Ms. Hepburn, thank you for coming tonight,
7 and we are anxious to hear your testimony.

8 MS. HEPBURN: Thank you. I am a Sarasota
9 resident, and I heartily endorse the comments
10 made by the Supervisor of Elections and the
11 representatives of Planned Parenthood, League
12 of Women Voters and many of the previous
13 speakers.

14 I am particularly interested in a comment
15 made in the Tampa -- quoted in *The Tampa*
16 *Tribune* today by Speaker Designate Weatherford
17 from the meeting last night at Jefferson High
18 School in which Speaker Designate Weatherford
19 agreed, committed even, to get final maps out
20 in time for candidates to qualify to run. And
21 I am very, very adamant that that should work
22 for non-incumbents as well as incumbent
23 candidates, and that steps taken -- would be
24 taken that are necessary so there would indeed
25 be time to put together viable campaigns for

1 non-incumbents.

2 SENATOR GAETZ: Thank you very much,
3 ma'am, and the Speaker Designate will have a
4 chance to restate his position at the
5 conclusion of the meeting tonight if we have
6 time.

7 Let me -- let me recognize -- and I
8 apologize, would you pronounce the last name,
9 sir?

10 MR. WAECHTER: It is Waechter.

11 SENATOR GAETZ: Waechter. Well, Senator
12 Detert is whispering in my ear, and I should
13 have listened to her.

14 MR. WAECHTER: You should always listen to
15 Senator Detert.

16 SENATOR GAETZ: I know. She chairs two
17 committees I am on, she controls my
18 legislation.

19 Mr. Waechter, thank you for being here,
20 and you are recognized, sir.

21 MR. WAECHTER: Thank you, Chair, and thank
22 you, all of you, for giving me the opportunity
23 to do this. I am going to read this in the
24 interest of brevity.

25 My name is Bob Waechter, I serve as

1 Chairman of the Sarasota Manatee Airport
2 Authority and I am speaking to you in that
3 capacity this evening. I am addressing only
4 the congressional districts in this appeal from
5 the airport authority.

6 The airport authority is a special
7 district straddling the county line dividing
8 Sarasota and Manatee Counties. We have a good
9 relationship with our host communities and
10 enjoy strong support in both of them. This
11 fact is evidenced by the recent pledge of both
12 counties to contribute 200,000 in support of
13 our attempt to secure a small community air
14 service grant from the Federal Aviation
15 Authority to solicit new air service for the
16 airport, thereby benefiting the business and
17 residential communities of both our counties.

18 When dealing with federal agencies that
19 oversee airport authorities, it is imperative
20 that we have a strong voice in Congress
21 representing our interest. We have that strong
22 voice now in the person of Congressman Vern
23 Buchanan. We are concerned that any proposed
24 redistricting that would divide our two
25 counties between congressional districts would

1 adversely impact our representation at the
2 federal level. Bifurcation of the district
3 along the county line would actually divide the
4 airport into two separate congressional
5 districts, as the county line goes through the
6 center of the airport property. This could
7 lead to having two congressional
8 representatives taking opposite positions on an
9 aviation matter, especially if one district has
10 another competing airport in the district, a
11 likelihood.

12 We strongly recommend that any
13 redistricting map retain both Sarasota and
14 Manatee Counties in one congressional district.
15 At the August board meeting of the airport
16 authority, we voted to authorize me to express
17 to you our belief that our region will be
18 better served if Manatee and Sarasota Counties
19 continue to be within a single district with a
20 unified voice as they are now. I thank you for
21 this opportunity.

22 SENATOR GAETZ: Thank you very much, sir.

23 Next, Sarah Hernandez. Ms. Hernandez, are
24 you here? Thank you so much for being here,
25 and the floor is yours. And following

1 Ms. Hernandez, David Matthews, if you will be
2 ready, and then Manuel, and I think it is
3 Chepote, UnidosNow, and then Peggy Simone.

4 Ms. Hernandez, thanks for being here.

5 MS. HERNANDEZ: Thank you for the
6 opportunity to speak to you here today.

7 I want to speak to three issues. The
8 first one, which has been mentioned before, has
9 to do with the current lawsuit. My comment in
10 relation to that, it seems to me that that
11 lawsuit should be left to be done by a private
12 citizen who might not have agreed with the
13 citizens' vote. It is the responsibility for
14 legislators to support and defend that law as
15 the voters voted for it.

16 The second point you have heard enough
17 about has to do with the timing for these so
18 that we have enough time for candidates to come
19 forward and run their campaigns.

20 The third item had to do with District 55.
21 I live here in Sarasota, and I notice that the
22 way in which my own neighborhood is affected,
23 it is affected by my neighbors east of where I
24 am on the west side of 41. It seems to me that
25 having that representation for aspects that

1 affect the development in District 55, which is
2 my next-door neighbor, that also impact me. So
3 having us be together makes a lot more sense,
4 because we will be supporting each other.
5 Thank you.

6 SENATOR GAETZ: Thanks, that is very
7 helpful testimony, very useful.

8 David Matthews is next, and following
9 Mr. Matthews, Manuel, and I believe it is
10 Chepote, and then Peggy Simone, former
11 Representative Simone, and then Rita Ferrandino
12 with Arc Capital Development.

13 Mr. Matthews, we are looking forward to
14 your testimony, and you are recognized.

15 MR. D. MATTHEWS: Good evening. Welcome
16 to the Manatee/Sarasota area. My name is David
17 Matthews. I was born in Sarasota and grew up
18 here. I currently live in Manatee County in
19 the City of Bradenton. Thank you for coming
20 today and listening to our concerns and our
21 comments.

22 One of the things that you have heard a
23 lot lately is the need to follow Amendment 5
24 and 6 by drawing compact, contiguous districts
25 that don't do things like split up cities and

1 counties. That doesn't sound bad, but I was
2 curious and did some research on what some city
3 boundaries actually look like. As you can see
4 here -- as you can see here, the -- this is a
5 map of Bradenton where I live. If you will
6 notice, Bradenton is not compact, and it is
7 actually not even entirely contiguous. If
8 you -- if you look at -- there is a ward over
9 here and then there's separation with county
10 and then a ward here, so you don't have compact
11 and you don't have contiguous, which begs the
12 question, how can you do things like make
13 compact districts that follow city lines when
14 you have to follow boundaries like Bradenton's
15 that don't qualify as compact or contiguous? I
16 am sure there are some cities where there is a
17 -- where that is the case, but there are many
18 cities like Bradenton in our state that have
19 the same jagged boundaries that people dislike
20 about legislative districts. If you follow
21 city boundaries, I fear the districts will not
22 meet the compactness requirements of Amendment
23 5 and 6, and that residents may actually be
24 just as upset at what the districts look like
25 as they are now.

1 SENATOR GAETZ: Thank you very much, sir.
2 We -- you have used your time, and if you could
3 leave any additional comments you have, we
4 would be happy to have the Committee consider
5 them. Thank you very much.

6 MR. D. MATTHEWS: Okay.

7 SENATOR GAETZ: And our next -- thank you.
8 Our next speaker is Manuel -- and I apologize,
9 is it Chepote?

10 MR. CHEPOTE: You did it right, thank you.

11 SENATOR GAETZ: Thank you, sir, for being
12 here. And you represent UnidosNow?

13 MR. CHEPOTE: UnidosNow.org.

14 SENATOR GAETZ: Thank you. Please go
15 forward. You are recognized.

16 MR. CHEPOTE: Thank you very much.

17 I would ask you to respect the voters'
18 wish with 63 percent of them voting on
19 Amendment 5 and 6. Please do not waste our
20 hard-earned tax dollars.

21 Number two, do it timely so we can have
22 those maps ahead of time, and not to waste time
23 and give the chance to everyone.

24 And the third item, please consider the
25 tremendous growth of the Hispanic population in

1 the counties of Sarasota and Manatee.

2 Thank you.

3 SENATOR GAETZ: Thank you very much, sir.

4 And now the Honorable Peggy Simone, former
5 State Representative. Representative, thank
6 you for being with us, and thanks for your
7 service to the State of Florida. You are
8 recognized.

9 MS. SIMONE: Thank you, Senator. I want
10 to compliment all of you for serving on this
11 committee. It is very difficult. It is almost
12 impossible to do a fair job with the two
13 amendments that passed on the ballot. But
14 those I did not support, and I will tell you
15 why. I sat on this redistricting committee in
16 '90 to '92, and we got a lot of minority
17 districts, and you are going to lose minority
18 districts if you do compact districts.

19 I will give you my comments here after --
20 after I list them. I did not confer with
21 anybody about the congressional district
22 Manatee and Sarasota County, but I have -- that
23 is my number two hope, that the congressional
24 seat that we have in Manatee County be combined
25 with Sarasota County as it is now.

1 Also, my number one priority is two
2 Florida House seats in Manatee County, plus the
3 remainder of the population needed based on the
4 districts, what you have, 156,000, Manatee
5 County has 322,000 people, so you need about
6 10,000 more, and you could get those from
7 eastern Sarasota County, which would take in
8 the community of interest of Lakewood Ranch.
9 Or if you don't do that, put Hardee County back
10 with Manatee again, that's about 10,000 people.

11 The third priority -- my third priority is
12 that a Florida Senate seat be based in Manatee
13 County and that a Florida Senate seat be based
14 in Sarasota County.

15 And I hope -- wish you the best of luck.
16 I'm sorry that you are going to lose a lot of
17 minority districts if you go to compact
18 districts, because we made sure in 1992 that we
19 got a lot of minority districts, and I am just
20 going to be sorry to see them go. Thank you
21 very much.

22 SENATOR GAETZ: Thank you, Representative.

23 Next, Rita Ferrandino with Arc Capital
24 Development, and then Bruce Brunette, please,
25 then Michael, I believe it is Verbil, and then

1 Richard Jackson.

2 Thank you so much for being here tonight,
3 and we are looking forward to anything you
4 might have to share with us.

5 MS. FERRANDINO: Well, hello there. I am
6 Rita Ferrandino. I am almost never brief, but
7 I will make an exception this time --

8 SENATOR GAETZ: Thank you.

9 MS. FERRANDINO: -- because many of my
10 fellow Sarasotans have spoken up, and I just
11 want to urge the committee to take the vote --
12 the voters were really clear. They want fair
13 districts. They want to be connected to their
14 government. And I would like to just reiterate
15 how important that is for us here in Sarasota
16 to feel that the will of the voters are being
17 heard. And as you move forward, we would like
18 you to move quickly so that we are able to have
19 everyone understand the districts so that we
20 are able to have fair elections. So thank you
21 very much.

22 SENATOR GAETZ: Thank you, and you get
23 extra points for brevity.

24 Bruce Brunette, and then after Bruce,
25 Michael, I think it is Verbil -- if I've

1 mispronounced it, please accept my apologies --
2 then Richard Jackson and then Jack Wetherson
3 with the Venice Duplicate Bridge Club. I am
4 sure there is a relationship to redistricting.

5 Bruce, you are recognized, and thanks for
6 being here.

7 MR. BRUNETTE: Thank you. I am a Venice
8 resident, a business owner, a member of the
9 Chamber. Thirty million dollars, Legislature
10 has set aside \$30 million to fight the will of
11 the people. You have already spent one to two
12 million dollars in a year when we really don't
13 -- can't afford it and we've got lots of cuts.
14 Why are you doing that? I don't get it. This
15 is supposed to be a government by the people
16 and for the people, not by the politicians and
17 for the politicians.

18 In 2008, you fought the Supreme Court
19 approval of a law. In 2010, you tried to go to
20 court again and get it knocked out. That
21 didn't work. In 2007, since you couldn't do
22 that, you came up with this fake Amendment 7 to
23 try to get around it. That got thrown out.
24 When are you ever going to learn? This is what
25 the people want. Drop the lawsuit and stop

1 fighting the will of the people.

2 SENATOR GAETZ: And, Bruce -- Bruce, I
3 hope you can stay for the end of the hearing.
4 Sometimes things get put in the bloodstream and
5 we begin to think that they are true because
6 they get repeated a lot. The Speaker
7 Designate, I think, will have some good
8 information for you that might to some extent
9 help reassure you.

10 Next is -- how do we pronounce your last
11 name, sir?

12 MR. VERBIL: Verbil.

13 SENATOR GAETZ: Verbil.

14 MR. VERBIL: Michael Verbil, I am a
15 resident of north Sarasota County.

16 SENATOR GAETZ: Thank you so much for
17 being here. You are recognized.

18 MR. VERBIL: Thank you all for your
19 service. Though we all may come from different
20 political parties, I know that I don't have to
21 remind anybody that you are all representing
22 everyone in your constituency.

23 That said, Sarasota and Manatee Counties
24 are unique in their concentrations of arts
25 organizations, institutes of higher learning,

1 such as New College here. Under the mandate of
2 the citizens to make the districts compact, I
3 would ask that this special area not be divided
4 in any separate districts. I understand that
5 this there is a possibility that having two
6 Representatives representing one area may make
7 it easier to get something done in Congress and
8 legislation, but I think that this is a special
9 area that should stay together.

10 That said, I have been looking at District
11 Builder. I started working on it. I have
12 learned a little bit about it. Then I found
13 last night that there was a 13-year-old who did
14 it, and I said, "Well, who am I if a
15 13-year-old can do it?" But you as our elected
16 Representatives are being paid to do this work.
17 You are the experts. I have to ask why you are
18 not doing it. I think it was a mistake. I
19 think this process of not having the maps first
20 is flawed. Rather than discussing your maps
21 and getting the work done before the legal vote
22 is allowed, I think that we are all being asked
23 to work in a vacuum. And we are not experts.
24 We are really working in the dark here.

25 I understand the legislation can't be

1 voted on before 2012, but there is no time to
2 prepare for the 2012 elections if we wait until
3 March 2012 for a final vote.

4 Here is what I want to see happen: You as
5 a body publish your ideas for maps now. We can
6 debate them and refine the maps before and
7 during the fall session, with two-way input
8 from the media using interactive media, all in
9 the sunshine. Then when voting is allowed, the
10 lion's share of the work will be done, and then
11 we can get the vote done at the earliest
12 possible legal date rather than wait until the
13 last possible date.

14 One question I would like to ask, I would
15 like to hear answered tonight by the panel:
16 After all of the hearings you have conducted,
17 what concrete changes, improvements to your
18 ideas, have you each made based on the public
19 input you have heard?

20 SENATOR GAETZ: Thank you, and we will
21 certainly give folks a chance to respond to
22 that.

23 MR. VERBIL: Can I have one more minute?
24 Can I have one more second?

25 SENATOR GAETZ: If you can wrap it up just

1 in --

2 MR. VERBIL: It will be very quick. It is
3 only a comment.

4 SENATOR GAETZ: Sure.

5 MR. VERBIL: We have little enough time
6 before you. I am only speaking to a minority
7 of the people on the panel. If you didn't come
8 here to hear us and would rather spend time on
9 your cell phone or doing e-mail, please don't
10 insult us by ignoring our presence. Thank you.

11 SENATOR GAETZ: Thank you, sir.

12 Next, Richard Jackson. Mr. Jackson?
13 Richard Jackson? Richard Jackson, then Jack
14 Wetherson from the bridge club, and then
15 Rochelle Wetherson from Temple Beth-El and then
16 Fred Falkner.

17 Mr. Jackson, thank you for being here,
18 and, please, the floor is yours.

19 MR. JACKSON: Thank you. Most of my
20 comments have already been made, but if you
21 will take Manatee County and draw a line from
22 north to south, you will wind up with two
23 Representatives. Within a couple thousand
24 people, you will be right there. If you did
25 the same thing with Sarasota County, went out

1 to the eastern edge, lopped off 50,000 people,
2 you could have two more House members. So you
3 could have four House members, it would be
4 easily done.

5 If you wanted to make a Senate district
6 out of that, you could keep the two -- let me
7 get my directions right now. You could get the
8 two -- you could get the two western counties
9 -- I'm sorry, the western Representatives in
10 those districts and take one of the other two.
11 You could also take Manatee and Sarasota County
12 and make one U.S. House district. And that
13 is -- the numbers add up. It is compact, it is
14 contiguous, it is consistent economically,
15 socially and culturally.

16 SENATOR GAETZ: Thank you very, very much.

17 MR. JACKSON: You're welcome.

18 SENATOR GAETZ: Very helpful.

19 Jack Wetherson? Jack? Jack went home and
20 had to play bridge.

21 REPRESENTATIVE WEATHERFORD: He is waving.

22 SENATOR GAETZ: He is waving. Are you,
23 are you ceding your time, sir?

24 MR. WETHERSON: I am.

25 SENATOR GAETZ: Well, thank you very much.

1 I was really looking forward to your testimony.

2 Rochelle Wetherson. You are not going to
3 talk either? Well, you could correct Jack if
4 you spoke.

5 Fred Falkner is next, and then Casey
6 Welch, and following Casey Welch, Tom Walker
7 and then Tina Steele. And I'm sorry we didn't
8 give you as much time to work your way down,
9 but Fred Falkner, then Casey Welch, then Tom
10 Walker and then Tina Steele.

11 Fred Falkner? Fred? Going once, twice,
12 three times.

13 Casey Welch? Mr. Welch, thank you for
14 coming, and we are delighted to have your
15 testimony this evening.

16 MR. WELCH: Thank you, Mr. Chairman.
17 Thank you, Mr. Speaker. Thank you,
18 Representatives and Senators. Welcome to
19 Sylvan, Sarasota County. Appreciate you all
20 being here tonight.

21 I am speaking as a private citizen here
22 tonight. I am a seventh-generation Floridian,
23 and my three-week-old son, born in Sarasota
24 Memorial Hospital, is the eighth. So bear with
25 me, I have been on diaper duty, so I will be

1 brief.

2 I just want to talk for a few minutes --
3 excuse me, two minutes about the communities of
4 interest in this area. As growing up in the
5 rural parts of this -- of Sarasota and Manatee
6 County, and now living in the urban section of
7 Lakewood Ranch, there are distinct communities
8 of interest in this area. The areas of Myakka
9 Head, Old Myakka and Myakka City, while they
10 are pronounced and spelled differently, they
11 are communities of interest, they are rural,
12 they have a lot more in common with south Polk
13 County, eastern Hillsborough County, Hardee
14 County and DeSoto Counties than with the urban
15 areas. And talk about the urban cluster of
16 Lakewood Ranch, it is divided by Manatee and
17 Sarasota County, but it is a community of
18 interest. That is where I live. We should be
19 represented by one State Representative, one
20 State Senator and one U.S. Congressman. And
21 that is all I have to say.

22 SENATOR GAETZ: Thank you so much. And
23 good luck with the two o'clock feeding.

24 Next we will hear from Tom Walker, if
25 Mr. Walker is here.

1 MR. WALKER: Yes.

2 SENATOR GAETZ: And, Ms. Steele, don't go
3 away, because we want to hear from you, too.

4 Mr. Walker, you are recognized, and thanks
5 for being here tonight.

6 MR. WALKER: My concerns have already been
7 expressed by the previous speakers, so I won't
8 say much, except to ask you to respect the
9 intent of the legislation and do the right
10 thing as you know it in your own hearts. Thank
11 you very much.

12 SENATOR GAETZ: Thank you so much, sir.

13 And now, Ms. Steele, we are glad you are
14 here, but behind you, if Charlie Clifton will
15 be ready, and then Diane Desenberg and then
16 Henry Jorgensen.

17 Ms. Steele, you are recognized.

18 MS. STEELE: Thank you very much. Good
19 evening. Thank you for all being here. You
20 are hearing the will of the people tonight by
21 the cheers, by the jeers and by the applause.
22 Amendments 5 and 6 were passed by us. We are
23 the people, and you need to listen to us.

24 There is another reason I am here tonight,
25 and that is because I am always a poll watcher

1 at the elections, and I also represent the
2 disabled. You need to get those districts
3 drawn, and drawn now. We have a hard enough
4 time with people showing up at the polls who
5 have not got the right district, they don't
6 have the right polling station. There is going
7 to be confusion in spades if you don't get your
8 job done and get it done now. Thank you.

9 SENATOR GAETZ: Thank you, and thanks for
10 your work as a poll worker.

11 Charlie Clifton? Charlie Clifton?

12 MR. CLIFTON: Right here.

13 SENATOR GAETZ: Mr. Clifton, thank you for
14 coming. We are delighted you are here, and you
15 are recognized.

16 MR. CLIFTON: Thank you for the
17 opportunity. I will be brief since a lot of my
18 ideas have already been stated, but one thing I
19 would like to reiterate is the -- I think a lot
20 of people here feel that the \$30 million that
21 you are using to defend -- challenging the will
22 of the electorate should be used for a better
23 purpose, like maybe it could be given to
24 education instead. Thank you.

25 SENATOR GAETZ: Thank you. And, Charlie,

1 I appreciate your time so far, but if you can
2 give us a little bit more time and stay to the
3 end of the hearing, I think you may get some
4 facts about that that either would reassure you
5 or at least give you a better sense of what the
6 real numbers are.

7 Next we have Diane -- is it Desenberg?

8 MS. DESENBERG: Desenberg.

9 SENATOR GAETZ: And following Diane, Henry
10 Jorgensen and then Betsy Roberts and then Ruth
11 Brandwein with the National Association of
12 Social Workers.

13 Diane, thank you for coming, and we are
14 looking forward to your testimony.

15 MS. DESENBERG: Thank you. Normally I am
16 a big fan of getting public feedback before
17 making government decisions. In this case, I
18 think that your request for lots of feedback
19 before drawing maps is entirely disingenuous.
20 You already have public feedback. We spent a
21 lot of time getting a citizen amendment on
22 there for Amendments 5 and 6. You know what
23 the public thinks. We want compact,
24 contiguous, respecting political boundaries and
25 geographic boundaries. So draw up your maps.

1 We are looking forward to making comments on
2 that.

3 That said, the only thing we really have
4 that we can make comments on is the timing, and
5 I think it is really important to get this done
6 more quickly than more slowly. Getting it all
7 voted on and finalized by the beginning of the
8 session in January I think should be your
9 paramount concern, and I think in order to do
10 that, you guys have got to get your maps drawn
11 now. There is no reason not to get anything
12 out by the end of September, I would say, get
13 it through your committees in a few weeks, and
14 then you need to spend time getting feedback
15 from the public.

16 SENATOR GAETZ: Thank you very, very much.

17 Henry Jorgensen. Henry, thank you from
18 coming by tonight and giving us some time. You
19 could have been somewhere else, but you came
20 here, and thank you for that.

21 MR. JORGENSEN: Thank you. I am from
22 Venice. We don't see any maps here. That
23 means the dollar has been spent to divert this,
24 and more millions planned on it. Doesn't give
25 me a very confidence in this body. It is

1 really dirty politics, period. I am one vote,
2 and I don't want to feel like a pawn in a
3 shuffle board game of dirty politics. Fair
4 districting, that is a no-brainer if you take
5 the dirty politics out. You don't understand
6 what fair is, go back to kindergarten.

7 SENATOR GAETZ: Thank you. And next is
8 Betsy Roberts, and following Ms. Roberts, Ruth
9 Brandwein from the National Association of
10 Social Workers, then Marilyn Harwell, and then
11 if Rosalie Shaffer will be on deck, and she as
12 well is with the League of Women Voters.

13 Ms. Roberts, thanks from coming, and we
14 look forward to your testimony.

15 MS. ROBERTS: Okay. Thank you for being
16 here.

17 This should be a non-partisan issue. I am
18 not sure it is. And someone mentioned earlier
19 that there are a lot of -- there would be a lot
20 of unhappy people if we saw the maps ahead of
21 time. Well, I am hearing a lot of unhappy
22 people because we did not see the maps ahead of
23 time, and we have no idea what you are thinking
24 and what is ahead.

25 And we just have to stop gerrymandering.

1 This map on the front shows what the
2 gerrymandering has done. So let's get good,
3 compact districts and stop this silly lawsuit.
4 Thank you.

5 SENATOR GAETZ: Thank you, ma'am.

6 Is -- Ruth, are you here?

7 MS. BRANDWEIN: Yes.

8 SENATOR GAETZ: Thank you so much for
9 being here and for representing NASW.

10 MS. BRANDWEIN: Thank you. My name is
11 Ruth Brandwein. Thank you for the opportunity.
12 I am the new Legislative Chair for Sarasota
13 NASW. I will be seeing a lot of you,
14 Mr. Holder, and some of the rest of you.

15 I moved here a year ago as a resident, and
16 the first thing I did was I signed up,
17 registered to vote, and have been involved, and
18 I am pretty surprised at some of the politics
19 going on here, but -- and I come from New York,
20 which is -- you know.

21 But two-thirds, 63 percent of the voters
22 voted for fair, contiguous and equitable
23 districts. I would hope that that would be
24 respected, and also that it would not -- as the
25 amendment says, that without regard for

1 partisan politics or for incumbency. And I
2 know you all are incumbents, and I know that
3 your first job is to get reelected, but that is
4 not what this is about. This is about fairness
5 and representing the people.

6 I will be very brief. A lot of good
7 comments have been made, and I support what the
8 first League of Women Voters speaker suggested
9 in terms of timing. You have had these
10 hearings, we can't undo that, but I would hope
11 that you would go back and have your staff do
12 the work. It is not up to us to do it. You
13 are getting paid and your staff are getting
14 paid to do the work. Present something in
15 October so that we can have another opportunity
16 to give you feedback before a final vote, and
17 it does need to be sooner than March. Thank
18 you.

19 SENATOR GAETZ: Thank you, Ruth.

20 Is Marilyn -- are you Marilyn Harwell?

21 MS. HARWELL: I was when I walked in, yes.

22 SENATOR GAETZ: Well, good. Well, I can
23 guarantee you this --

24 MS. HARWELL: Yes.

25 SENATOR GAETZ: -- you will be Marilyn

1 Harwell when you walk out.

2 MS. HARWELL: Well, I sure hope so.

3 SENATOR GAETZ: And behind you -- behind
4 you will be Rosalie Shaffer with the League of
5 Women Voters, and then Frances Rice and then
6 Lois Congdon with the Manatee Democratic Party.
7 Ms. Harwell.

8 MS. HARWELL: Okay. If these hearings are
9 for the purpose of learning how to redraw
10 districts, it begs the question why you don't
11 all just go in a corner, read Amendments 5 and
12 6 and -- you know, those are the amendments
13 that were approved by the Florida Supreme
14 Court, the Justice Department, of course
15 overwhelmingly by the voters of Florida. Those
16 amendments give you the framework within which
17 to satisfy the voters. Simply stated, they
18 require you to draw lines based on factors
19 unrelated to party and incumbency within
20 contiguous territory. Who but people in
21 Tallahassee would know how to do that best?
22 Certainly not me or the other people sitting
23 here.

24 What these hearings confirm is that
25 Tallahassee does not want to comply with these

1 amendments. Tallahassee -- Tallahassee
2 politicians do not want to give up the power to
3 draw districts that benefit themselves. You
4 proved this by spending our tax money to fight
5 the new redistricting standards in court, and
6 now while you have cut billions from the
7 education and social services 2012 budgets, you
8 have set aside tens of millions of dollars to
9 mount still more legal assaults on these
10 amendments.

11 The perception is you only want to draw
12 districts that will preserve your own seats.
13 It is a perception which counts more than
14 reality. You know that if Amendment 5 and 6
15 rules are followed, the districts that have
16 guaranteed the reelection of just about every
17 incumbent during the last ten years will no
18 longer be safe.

19 SENATOR GAETZ: And, Ms. Harwell, you --

20 MS. HARWELL: I will finish.

21 SENATOR GAETZ: Excuse me, you are making
22 some great points, but I would like to ask you
23 to summarize, because we have a whole bunch of
24 people.

25 MS. HARWELL: I have one sentence, and if

1 you hadn't interrupted, I'd be sitting down.

2 SENATOR GAETZ: Go for it. Go for it. Go
3 on.

4 MS. HARWELL: These hearings have no
5 purpose other than to derail the process. You
6 should not be wasting our time and money this
7 way. Just imagine if you had spent all these
8 hours --

9 SENATOR GAETZ: Now, that is -- you're on
10 to your third sentence.

11 MS. HARWELL: -- talking about job
12 creation, look what you could have done.

13 SENATOR GAETZ: Thank you, Ms. Harwell.

14 Next is Rosalie Shaffer with the League of
15 Women Voters. Ms. Shaffer. Thank you very
16 much for being here tonight, and your time is
17 running.

18 MS. SHAFFER: Hi, I am Rosalie Shaffer,
19 and I am representing the League of Women
20 Voters of Manatee County.

21 First I want to tell you what we don't
22 want. What we don't want is what we have in
23 Manatee County, which are two U.S.
24 Representatives, three State Senators and four
25 State Representatives. They are in some very

1 strangely shaped districts, and many of the
2 office holders only have slight slivers of
3 Manatee County, so we don't really see them too
4 often in our county. So we are looking forward
5 to districts drawn according to the new Fair
6 Districts rules.

7 Gerrymandering is what happens when the
8 office holders choose their voters rather than
9 the other way around. Hopefully that is an end
10 to that.

11 And along with so many who have told you
12 this tonight, we are asking you to drop your
13 lawsuits against Fair Districts. This is not a
14 good use of state taxpayers' money. And to
15 make it even more ludicrous, in one of the
16 suits, the Secretary of the State is a
17 Defendant, and the Legislature is -- has joined
18 the suit against. So the taxpayers are
19 defending both sides of the suit, to sue and
20 defend. The Legislature should stop trying to
21 get out of following the new Fair Districts
22 rules, and apply them as the voters intended.
23 Thank you very much.

24 SENATOR GAETZ: Thank you, ma'am.

25 Frances Rice. Next we will hear from

1 Frances Rice, and then Lois Congdon with the
2 Manatee Democratic Party and then Carole Malone
3 and then Roy Sorenson with IATSE Local 412.

4 Ms. Rice, thank you for being here, and
5 you are recognized.

6 MS. RICE: Good evening. Thank you so
7 much for giving me a chance to speak. I am a
8 retired Army lieutenant colonel and I am a
9 lawyer, and I hope -- I hope no one here wants
10 to adhere to Shakespeare's admonition to kill
11 all the lawyers.

12 I have lived in Sarasota County for 11
13 years. People have been expressing concern
14 about the cost of lawsuits, and being a lawyer,
15 I am also concerned about lawsuits, and they
16 have a right to be concerned about how our tax
17 dollars are being spent, but I think they may
18 be missing the point. The best way to prevent
19 lawsuits is to have an airtight contrast where
20 everything is defined and nothing is ambiguous,
21 because where confusion exists, lawsuits
22 follow, meaning judges get to decide who is
23 right and who is wrong, and what one thing
24 means or doesn't mean. I am afraid that we are
25 in for a lot of lawsuits, because Amendments 5

1 and 6 are filled with vagueness and lawsuit
2 justifications waiting to be decided in court.
3 Key words such as "compact" and "existing
4 political boundaries" are undefined, and then
5 other words, like "predictable" and "feasible"
6 are used, which are too subjective. Five and 6
7 also say an incumbent cannot be disfavored,
8 but --

9 SENATOR GAETZ: And I'd ask you to bring
10 it in for a landing.

11 MS. RICE: Yes, indeed, sir.

12 In a situation where two incumbents are
13 forced to run against one another, could they
14 sue for being disfavored? And I am going to
15 wrap it right up now. Amendments 5 and 6 are
16 subject to interpretation that I can't imagine
17 a scenario that is not ripe with lawsuits. As
18 a taxpayer, that concerns me. I would rather
19 see my money being used for something more
20 important than paying for a bunch of lawyers,
21 myself included. So, legislators, please be
22 careful in drafting these districts so we don't
23 waste the money on tons of lawsuits.

24 SENATOR GAETZ: Thank you. Thank you.
25 And thank you for your service to our country.

1 Next, Lois Congdon with the Manatee County
2 Democratic Party. Ms. Congdon, thank you.

3 MS. CONGDON: I thank you for listening to
4 us --

5 SENATOR GAETZ: Of course.

6 MS. CONGDON: -- before you draw the maps
7 so that we can give our ideas. I especially am
8 interested in making sure that the districts
9 are compact, and as much as possible, follow
10 political lines. I am the precinct captain in
11 precinct 46, which includes both the House
12 District 55 and House District 68, and that can
13 lead to a lot of confusion, even for a
14 hard-working, marvelous Supervisor of
15 Elections.

16 In 2008 -- you see, part of Bradenton
17 Tropical Palms is in one district, and part is
18 in the other. And in 2008, they sent us all
19 the primary ballots for absentee ballots for
20 District 55. So I had to call Mr. Sweat and
21 say, "I am not in District 55," and that dear
22 man came by on a Saturday afternoon and
23 exchanged something like 27 ballots for the
24 right ones.

25 Now, that shouldn't be. That District 55

1 is compact up in St. Petersburg and the
2 northern part of Manatee County, and if you can
3 find some other areas right next to it that can
4 preserve the minority-majority, that would be
5 great. But that tail comes that all the way
6 down Route 41 the whole length of Manatee
7 County way over into Newtown in Sarasota County
8 is not compact. You need -- the part that
9 adjoins 68 should go to 68, and the part that
10 adjoins 69, one of you represents, should go to
11 69. The people from Newtown shouldn't have to
12 go all the way to St. Pete to see their
13 Representative. So I hope that you will keep
14 them compact.

15 SENATOR GAETZ: Thank you so much, ma'am.
16 That is very helpful testimony and right to the
17 point.

18 Next we will hear from Carole Malone and
19 then Roy Sorenson and then Charles Smith with
20 the Southern Christian Leadership Conference
21 and then Joe Gruters.

22 Ms. Malone, thank you.

23 MS. MALONE: Good evening, and I am so
24 happy I am here.

25 I believe that if you say something often

1 enough, people will start to really believe
2 you, and I think you have heard a lot tonight
3 about the \$30 million, and I would like to
4 repeat that. We don't need to spend that, we
5 taxpayers don't need to spend that. And what
6 really, really concerned me was on the heels of
7 all those devastating cuts that Florida just
8 went through, then we read that you have set
9 aside \$30 million for these lawsuits, and I am
10 appalled.

11 SENATOR GAETZ: And thank you. And,
12 Ms. Malone, Ms. Malone -- Ms. Malone, please --
13 no, that is okay. Please hang in there with
14 us, because I -- you are right, sometimes when
15 things get repeated often enough, people
16 actually think they are facts. So we are
17 going to -- we are going to give an opportunity
18 for some information to be provided tonight so
19 that you can decide for yourself -- sh, sh, sh.
20 We are going to provide an opportunity tonight
21 for Democrats and Republicans on the Committee
22 to respond to that specific point. So thank
23 you for making it and putting it at the top of
24 our list.

25 Next we will hear from Roy Sorenson, and

1 following Mr. Sorenson, Charles Smith and Joe
2 Gruters, and then if Kelly Kirschner would be
3 on deck.

4 You are recognized, sir, thank you for
5 coming.

6 MR. SORENSON: Thank you, Senator and
7 legislators. Welcome to Sarasota. We got
8 democracy here, and we are very proud of it,
9 and we are very glad you came down to be part
10 of this process.

11 I do have the same concerns that you have
12 heard all night long about you not producing
13 maps that we can compare the maps that we had,
14 or the time frame, which is going to put many
15 of the new candidates behind -- in a
16 disadvantaged situation.

17 I have lived here for 30 years in Sarasota
18 and Manatee. If you travel from south Sarasota
19 County up to northern Manatee, you are still
20 within more or less the same community of
21 interest, but you are going through three
22 congressional districts, you are going through
23 several Senate districts and four different
24 House districts. That is not right.

25 I would suggest that you take

1 Congressional District 13 and not use DeSoto
2 and Hardee County as part of it, that you make
3 that district -- that congressional district
4 both Sarasota and Manatee County, that the
5 district north of here that Representative
6 Castor represents, that that not be part of
7 our -- that it become part of that
8 congressional district and not be part of the
9 one north of us. If you look at the body of
10 water that we have north of us, there are so
11 many different like jigsaw puzzles around it.
12 I would suggest you use that body of water to
13 divide the districts fairly.

14 And back when you talk about the money
15 that you've put away for fighting this,
16 whatever amount of money it is, it is not
17 right. It should be used for you to hire
18 consultants and demographers and cartographers
19 to get this process in the fair way it should
20 be. Thank you.

21 SENATOR GAETZ: Thank you. Thank you very
22 much, sir.

23 Next, Charles Smith with the Southern
24 Christian Leadership Conference, then Joe
25 Gruters, then Kelly --

1 MR. SMITH: Charles --

2 SENATOR GAETZ: Just a second, please.

3 Then Kelly Kirschner, if you would be on deck,
4 and then Charles Dudley.

5 Mr. Smith, you are recognized, and we are
6 delighted you are here.

7 MR. SMITH: I am Charles Smith, the
8 President of Manatee/Sarasota County Chapter of
9 the SCLC and national board member of SCLC and
10 national director of chapters.

11 I am here to support Amendments 5 and 6.
12 For Manatee and Sarasota County, it is simple.
13 The congressional seats should remain in
14 Manatee and Sarasota County. Your State
15 Representative and Senate seats can easily be
16 divided in Manatee and Sarasota County. A
17 combined population of about 700,000. You say
18 the seats need to be estimated at 150,000. You
19 can draw four State Representative seats in
20 Manatee and Sarasota County. So for the
21 residents here, it is simple. And with the
22 population of just Latinos and
23 African-American, not counting other, you've
24 got an estimated 100,000 population from that
25 standpoint. They be combined to one different

1 area, you would know your Representative. Make
2 no mistake, we have fine Representatives in
3 Mr. Darryl Rouson and Sister Joyner. They have
4 represented us well. But when -- 5 and 6 was
5 kind of a shock for me, support it, but our
6 organization has took a firm position that we
7 are going to support 5 and 6. That means if we
8 have to go to court, we are going to court. We
9 are prepared to do that also through civil
10 disobedience anyway. We need to be more
11 concerned about not who is a Republican and
12 Democrat, we need to be concerned about people.
13 And so I encourage you to take issue to
14 providing cited representation and keep it
15 compact and 5 and 6, and I thank you very much.

16 SENATOR GAETZ: Thank you, sir.

17 Joe Gruters? Mr. Gruters? Did he give up
18 on us?

19 Okay. Then Kelly Kirschner, and Kelly
20 will be followed by Charles Dudley and then
21 Jackie Fountaine, or Fountaine, and then
22 Mitchell, I think it is Zavon or Zavon.

23 Kelly, thank you so much for being here,
24 and we are delighted to have your testimony
25 tonight.

1 MR. KIRSCHNER: Thank you, Senator Gaetz,
2 Joe Gruters ceded his time to me. We are
3 former classmates at Cardinal Mooney High
4 School, and --

5 SENATOR GAETZ: Well, Joe can cede his
6 time, but you've got two minutes.

7 MR. KIRSCHNER: All right. I see you are
8 listening to Senator Detert again.

9 SENATOR GAETZ: Yeah. It is a good thing
10 I do from time to time.

11 MR. KIRSCHNER: I appreciate the
12 opportunity to speak. Coming in here with the
13 folks in the parking lot, it actually looked
14 like a college football game, so I think at
15 least it is stimulating conversation that
16 everybody is obviously excited about.

17 I am here representing a relatively new
18 nonprofit organization, it is called UnidosNow,
19 that is specifically working in the southwest
20 Florida area mobilizing and engaging our
21 Hispanic population to start participating at
22 much greater levels in our local democracy. I
23 just stepped down as Mayor of the City of
24 Sarasota in May. Twenty percent of Sarasota's
25 population now is Hispanic, yet only two

1 percent of our registered voters are Hispanic.
2 If you contrast that with the Pew Hispanic
3 Center that says conservatively 70 percent of
4 our Hispanic residents are legal citizens, you
5 can appreciate that we have a fundamental
6 problem right now with franchising this
7 population and actually participating and
8 contributing to the vibrant fabric of our
9 democracy.

10 And I think what is concerning about
11 tonight and what you read about last evening in
12 Tampa and what you all have heard throughout
13 the state is that the perception is here that
14 the game is fixed. And so instead of us
15 talking about -- instead of us talking about
16 Latin America and Banana Republics and Latin
17 America, what we are talking about is,
18 unfortunately, that sense of mistrust with
19 government in our hometown, in our home state
20 and our own communities with the people that we
21 elect.

22 I think a hallmark of vibrant democracy,
23 which is what we want to take place, is
24 competition, and when you have competition, I
25 think it breeds an honesty in the process. And

1 what Charles Smith just said from SCLC from
2 Manatee County, I think probably for the entire
3 Hispanic community in both counties would be
4 the exact same type of testimony that we would
5 want to give to you, and for the entire state,
6 create a competitive marketplace where ideas
7 matter and gerrymandering doesn't, and I think
8 the state of Florida is going to benefit for
9 it.

10 SENATOR GAETZ: Thank you, Mr. Mayor,
11 thank you for your service.

12 Next we will hear from Charles Dudley, and
13 after Mr. Dudley, Jackie Fountaine, then
14 Mitchell Zavon, or Zavon, and then Donna
15 Cubit-Swoyer with the Sarasota Alliance for
16 Fair Elections.

17 Mr. Dudley, thanks for being here, and
18 you've got the floor.

19 MR. DUDLEY: Thank you, Mr. Chairman. My
20 suggestion is directed to congressional
21 redistricting. As you noted, the ideal
22 population of a district is 696,345. To
23 provide some flexibility and to make greater
24 use of county boundaries, we could allow the
25 deviation of one percent above and below the

1 ideal number; in other words, from 689,382 to
2 703,308.

3 Two examples using this population range
4 are, one -- and this should not be a
5 surprise -- combining the populations of
6 Sarasota and Manatee Counties, 702,281;
7 grouping Collier, 82,387, from south Lee,
8 Monroe, Hendry, Glades, Okeechobee, Highlands
9 and DeSoto Counties will give you 702,665. A
10 marginal case involves Escambia, Santa Rosa,
11 Okaloosa, Walton and west Bay, 10,489,
12 counties. That gives you a total of 695,345.
13 However, given the small portion from Bay
14 County, and to keep this as uncomplicated and
15 simple as possible, it might be better just to
16 lump this in with the Bay County group, which
17 would result in the total incidentally of
18 702,980, but would leave the Escambia grouping
19 with 684,856.

20 In summary, Mr. Chairman, don't be too
21 fascinated with the famous number of 696,345.
22 Do not try to slice and dice these districts
23 into tiny parts.

24 For the record, I would like to submit a
25 congressional redistricting plan based on the

1 one percent deviation described --

2 SENATOR GAETZ: Thank you very much, sir,
3 for that information.

4 One of the -- one of the frustrations of
5 this process is -- for some people is the
6 federal court rulings on exactly the question
7 you have raised. So I hope you can stay,
8 because that will be one of the facts that we
9 will try to provide you tonight. We really
10 appreciate the submission of maps that you
11 made.

12 And now, Jackie Fountaine. Is it
13 Fountaine or Fountain?

14 MS. FOUNTAINE: Well, originally it was
15 Fountain, and my husband's father didn't like
16 that, so he put on an E.

17 THE COURT: Is that right? Well, ma'am,
18 tonight you may have it either way you want.

19 MS. FOUNTAINE: It doesn't matter.

20 SENATOR GAETZ: And you are recognized.
21 Thanks for coming tonight.

22 MS. FOUNTAINE: Thank you. I just have
23 three items. Okay. Are you honestly
24 serious --

25 SENATOR GAETZ: Ma'am, just so that

1 everybody can hear your comments -- there we
2 go. Now you are much closer.

3 MS. FOUNTAINE: Are you honestly serious
4 about finishing redistricting in time for the
5 2012 elections?

6 SENATOR GAETZ: And I think you will hear
7 an answer to that question --

8 MS. FOUNTAINE: Good.

9 SENATOR GAETZ: -- at the end, just like
10 you heard at the beginning, but go ahead.

11 MS. FOUNTAINE: Why is Florida one of
12 seven states that does not automatically give
13 ex-felons the right to vote? They should be
14 able to walk out of prison or jail and go and
15 register to vote, because they have been
16 punished.

17 And my last comment, if you do the right
18 thing, you will be reelected regardless of what
19 district you are in in 2012.

20 SENATOR GAETZ: Thank you so much.

21 Is it Zavon, Zavon?

22 MR. ZAVON: Correct.

23 SENATOR GAETZ: Thank you very much for
24 being here and --

25 MR. ZAVON: I thought you had lost me. I

1 came first.

2 SENATOR GAETZ: Well, you came 52nd,
3 actually, but --

4 MR. ZAVON: Well, I signed up before it
5 opened.

6 SENATOR GAETZ: I understand. You are
7 recognized. We are glad to have you.

8 MR. ZAVON: Thank you for coming. I am a
9 health physician and occupational physician,
10 have worked as a consultant for the federal and
11 state governments.

12 A majority of the voters who voted for the
13 amendments, and I am being redundant, to
14 eliminate the gerrymandering, I expected to
15 have you and the staff to have developed proper
16 for the next elections the establishment of the
17 state and federal retiring. At that, I could
18 have made opinion including Newtown as directly
19 part of Sarasota, for example, not a division
20 of parts. You have failed. If part of a
21 corporation of whom I also worked over 57
22 years, you would be more now failed and no part
23 of the job. I would have failed you for not
24 doing.

25 As years 88, I live long enough for the

1 2012 election, I expect to vote strongly out
2 for anyone that is taking our money out of the
3 budget to kill our action against the members
4 voting to use -- contradict what our majority
5 voted to certify the amendments, and to
6 eradicate the gerrymandering. Enough.

7 Briefly, I stated I believe that the use
8 of the election for -- of the state and federal
9 should compact geographically, where possible,
10 each city and county should be compact by
11 population, both compact and graphically and
12 feasible transportation as possible.

13 SENATOR GAETZ: And, sir, we would be
14 happy to take the rest of your comments in
15 writing.

16 MR. ZAVON: It is over.

17 SENATOR GAETZ: We have a whole bunch of
18 folks.

19 MR. ZAVON: Thank you very much.

20 SENATOR GAETZ: Thank you. Thank you very
21 much. Thank you very much, sir.

22 And next, Donna Cubit-Swoyer, I believe,
23 with the Sarasota Alliance for Fair Elections,
24 and then Ted Mackie, Frank, and I believe it is
25 Hedy, and then Tess Canja, if I have it

1 correctly, and Arthur Levin.

2 Ma'am, you are recognized, and we are
3 delighted to have your testimony this evening.

4 MS. CUBIT-SWOYER: Thank you. I do want
5 to thank all of you for being here. I sat
6 through half of Tampa last night until now, and
7 I am sure you must be weary.

8 SENATOR GAETZ: No, no.

9 MS. CUBIT-SWOYER: I was -- well, some of
10 you look a little weary, regardless of what you
11 say.

12 SENATOR GAETZ: Which ones?

13 MS. CUBIT-SWOYER: And I do thank you for
14 being so courteous.

15 SENATOR GAETZ: Of course.

16 MS. CUBIT-SWOYER: Nevertheless, I have to
17 say --

18 SENATOR GAETZ: I knew this was going
19 somewhere.

20 MS. CUBIT-SWOYER: I knew you knew.

21 I have to say that Monia said it all for
22 me, and I thank her for saying it so well, so I
23 am not going to repeat all of the things that
24 she said.

25 I do want to say you should have the maps

1 here, it is your job, not our job, and it is
2 incumbent on you to make maps in a fair and
3 timely manner, and it is incumbent on all of us
4 to remember what happens come election time,
5 because we still have power, we still have the
6 power, so remember. Thank you.

7 SENATOR GAETZ: Thank you very much.
8 Thank you very much.

9 Next is Ted Mackie. Is Ted here?

10 MR. MACKIE: Tad.

11 SENATOR GAETZ: Or Tad, I'm sorry. And
12 then Frank, I think it is H-e-d-y.

13 MR. HEDY: Yes.

14 SENATOR GAETZ: And then Tess Canja, I
15 believe, if I have it correctly.

16 Tad, thank you for being here, and you are
17 recognized.

18 MR. MACKIE: Sure, Tad Mackie, I have been
19 in Sarasota for 45 years, just John Q. Public.

20 In the U.S. Constitution, it says you are
21 supposed to count us every ten years. It
22 doesn't say you are supposed to count us by
23 color, doesn't say you are supposed to count us
24 by race, creed, demographics of any kind. It
25 says you are supposed to count us, just

1 numbers, just people.

2 District 55 starts up someplace in
3 Clearwater or St. Pete and comes all the way
4 down to Fourth and 301. That is like 45 miles.
5 That is absurd. It is absolutely absurd.

6 Now, on the other hand, we have these
7 amendments that say it is supposed to be fair.
8 Now, I don't know about your definition of
9 "fair" is different than his definition of
10 "fair" is different than his definition of
11 "fair." Nobody knows what "fair" really means,
12 not really. But I submit to you that "fair"
13 means nobody has an advantage, nobody. Okay.
14 If you can take -- we have most of our
15 population on the coast, and if you can take a
16 little small slice on the coast and go deep
17 inland, you have covered everybody. You've
18 covered the rich folks on the coast, you've
19 covered the poor folks in the middle, you've
20 covered the middle folks out there in rural
21 whatever. Why do we need to separate us by all
22 these different demographics? All you do is
23 separate us. We are supposed to be one nation.
24 We are supposed to be the melting pot. We are
25 not supposed to be divided by all this

1 nonsense, okay.

2 And I understand the lawsuit. I don't
3 have a problem with that. You got to test it
4 ahead of time. I really don't have a problem
5 with that.

6 I also understand we don't have a
7 democracy, we have a republic. I don't have a
8 problem with that.

9 I also understand why you don't have your
10 maps here, because you don't know what they are
11 supposed to be, and you want to hear from us
12 first, and I appreciate that. I really do
13 appreciate that.

14 So that is basically it. All I am asking
15 you to do is make it so that nobody has an
16 advantage. There's no reason for the beaches
17 in St. Pete to have their own Representative
18 when they can go all the way across. Okay.

19 SENATOR GAETZ: Thank you. Your time has
20 elapsed, and we appreciate your testimony.

21 Frank -- and I apologize, it is not your
22 handwriting, it is my eyes. Would you
23 pronounce your last name?

24 MR. HEDY: My name is Frank Hedy.

25 SENATOR GAETZ: I got it right, by golly.

1 You are up, and then following you, Tess, I
2 think it is Canja, then Arthur Levin, and then
3 if Marcella Levin would be on deck.

4 Frank, thanks for coming, and the floor is
5 yours, sir.

6 MR. HEDY: Thank you very much. My name
7 is Frank Hedy, I am an Air Force Vietnam
8 veteran, and after 41 years I have -- they say
9 I have been diagnosed with Agent Orange
10 exposure. That is the government we have.

11 My question is about redistricting
12 tonight. I just want everybody here -- we are
13 Americans first. Why don't all the Democrats,
14 Republicans, work together for the good of our
15 country, our state and our nation and all the
16 people that is in it, wherever they came from?
17 We shouldn't be over here arguing about
18 districting this, districting that. We should
19 all work together. I hope the State Senators
20 and State Reps all work together for the good
21 of our state. And I have the same basically
22 speech that Frances Rice had earlier, and I
23 want take anymore of your time, but I just hope
24 everybody works together in Tallahassee and we
25 do the right thing for everybody in our state,

1 and I hope this U.S. Congress, U.S. Senators
2 and the President can work together instead of
3 always arguing about everything. We are sick
4 and tired of all this arguing. Have a good
5 night.

6 SENATOR GAETZ: Thank you. Thank you,
7 sir.

8 Tess, are you here?

9 MS. CANJA: I am here.

10 SENATOR GAETZ: Well, thank you for
11 coming, and behind you will be Arthur Levin and
12 then Marcella Levin and then Martha G. King.
13 And is it Canja?

14 MS. CANJA: Canja, that's very well done.

15 SENATOR GAETZ: Canja. Thank you for
16 coming, and we are delighted to have your
17 testimony on the record tonight.

18 MS. CANJA: Thank you so much. Thank you
19 for the opportunity to speak today. My name is
20 Tess Canja. I live in Charlotte County, which
21 basically is within Congressional District 16.

22 CD 16 is so gerrymandered that it starts
23 on Florida's Gulf Coast, spreads north across
24 the state's agricultural center and ends on the
25 other coast. It was districts like ours that

1 brought about such an overwhelming vote for
2 fair districts, compact and contiguous.

3 Now, I recognize that a congressional
4 district is at least four times as large
5 population wise as Charlotte County. What we
6 need for fairness is to be joined in a
7 congressional district with other coastal areas
8 so that our problems, our concerns and our
9 needs are similar, with Sarasota County, for
10 example, or parts of Lee. All three counties
11 are working together for connected
12 transportation, and a Congressman would not
13 have to travel four hours to see his
14 constituents. So my first request is to keep
15 Charlotte County in one congressional district
16 on the southwest coast.

17 My second request is to make Charlotte
18 County one State House district. Right now, it
19 is parts of three. Our county has a population
20 of approximately 160,000. That is 3,000 more
21 than a population needed for a State House
22 district. So we have more than enough for one
23 district, and it certainly could be compact.

24 My third request is that our Florida
25 Senate district be a Charlotte/Sarasota

1 connection for the reasons previously given.
2 Our county is represented in the State
3 Legislature by three Senators. None of them
4 live in Charlotte County.

5 I couldn't help thinking, given these
6 realities, that Charlotte County must have
7 looked to the mapmakers like an unfrosted
8 cookie that could be broken up and passed
9 around. It would be easy for us in the county
10 to feel disenfranchised.

11 SENATOR GAETZ: And, ma'am, you are
12 getting -- you are over time, so if you could
13 wrap it up in fairness to the people behind
14 you.

15 MS. CANJA: I will. You know, I pray that
16 you all will do better. My hope is that you
17 will quickly get the maps drawn for public
18 review, and that we will be pleasantly
19 surprised and grateful that our testimony has
20 not been in vain, and I thank you.

21 SENATOR GAETZ: Thank you. Thank you so
22 much. Very useful testimony. That is exactly
23 the kind of information we needed.

24 And now, Arthur Levin, followed by
25 Marcella Levin, and they appear to be related,

1 or at least they are in the same house.

2 MR. LEVIN: For sure.

3 SENATOR GAETZ: And then Martha King and
4 then Susan Brainerd.

5 Mr. Levin, thank you for coming, and be
6 careful now, because your wife does have the
7 opportunity to correct whatever you may say.

8 MR. LEVIN: She's already done that.

9 Thank you for having me. My name is
10 Arthur Levin. I am a resident of downtown
11 Sarasota.

12 Since you have not put forward any
13 criteria of your own which I might comment on,
14 I am here to offer to you a set of rules you
15 should follow in establishing a reapportionment
16 plan that will not only comply with the spirit
17 of the recent redistricting amendments, but
18 which will also cover the will of the people
19 who supported them in historic numbers.

20 Wherever possible, a district should be
21 contained within a single county. This fosters
22 communication up and down the layers of
23 government, and increases the probability of
24 working toward common goals driven by local
25 interests.

1 Wherever possible, whenever a district
2 spans a county line, the population drawn from
3 each county should be approximately equal.
4 This will reduce the prospect of one group's
5 interests overwhelming those of the other.

6 Further, when a district must span a
7 county boundary, a consideration of existing
8 relationships and common interests within the
9 affected communities should govern the
10 selection of which counties and which
11 communities to combine. For example, Sarasota
12 and Manatee share many cultural, civic, service
13 and religious facilities, as well as a common
14 labor market. If it were necessary to go
15 beyond the boundaries of Sarasota County, it
16 would be reasonable to combine Sarasota and
17 Manatee into a common district.

18 Finally, there is one critical rule that
19 must be applied in any reapportionment plan:
20 Apportionment factoring, factoring in party
21 registration in any form must be forbidden.
22 Thank you.

23 SENATOR GAETZ: Thank you very much, sir.

24 And now we will hear from the upper
25 chamber of the house of Levin.

1 MS. LEVIN: That is right.

2 SENATOR GAETZ: And, Ms. Levin, behind you
3 will be Martha King and Susan Brainerd and then
4 Marilyn Jacobs.

5 And you are recognized, ma'am. Thank you
6 for coming.

7 MS. LEVIN: Good evening and thank you for
8 coming to Sarasota to listen to us.

9 As was stated previously, the 2010 census
10 entitled Florida to 27 congressional districts,
11 each district averaging 696,000 plus people.
12 The combined population of Sarasota and Manatee
13 County is 702,000 plus, which is, as you heard,
14 a one percent differential. You have to start
15 redistricting someplace, you have to start the
16 mapping someplace, and, therefore, I propose
17 that redistricting of congressional districts
18 begin with this area. Combine Sarasota,
19 Manatee, a community of interest, and that
20 we -- and I propose that we be accorded a
21 Congressperson of our own.

22 As for redistricting the Florida House of
23 Reps and the Senate, I propose that you follow
24 the law. All districts must be compact and
25 contiguous. I don't mean to pick on you,

1 Representative Rouson, but your current
2 district of 55 is contiguous only because of a
3 bridge. This is a good example of what not to
4 do in redistricting. The redistricting must
5 conform to Fair District amendments as decided
6 by 63 percent of the Florida electorate.

7 And, finally, I am outraged that you could
8 find and set aside millions in the state budget
9 to defend redistricting plans that do not yet
10 exist. I'm sorry to say it seems that the
11 size -- that the size of the set-aside seems to
12 be intended to intimidate organizations that
13 might want to challenge the final maps.

14 Thank you.

15 REPRESENTATIVE WEATHERFORD: Thank you. I
16 would point out that it appears that
17 Representative Rouson is feeling sorry for
18 himself because he's been picked on so much
19 tonight, so we'll all feel sorry for you, we
20 will buy you dinner, Representative Rouson. He
21 is a good man. He didn't draw that district,
22 so we are not going to blame him.

23 Next up, we have Ms. Martha King. After
24 Ms. King, we have Susan Brainerd and then
25 Marilyn Jacobs.

1 You are recognized, ma'am.

2 MS. KING: Thank you very much, and I
3 would like also to thank all of you for being
4 here. We've applauded our local
5 Representatives, but those of you who had to
6 travel a long way, we are very appreciative of
7 that as well.

8 One of the real benefits, if we have our
9 way with Amendments 5 and 6, is that maybe many
10 of you will not have to do the amount of
11 traveling that you do now to cover your
12 districts, and it will give you a chance to get
13 to know your voters and they will get to know
14 the people who represent them, and that is, of
15 course, a very, very ideal view.

16 Because -- public perception is that
17 redistricting -- or districting favors one
18 party over another because of gerrymandering.
19 And this "Redistricting 2012" little pamphlet
20 that you handed out is just -- if you look at
21 it, there are so many wonderful examples.
22 There is actually the salamander up here at the
23 top, there is a donkey down on the left, and
24 there is actually a sea horse and a dragon and
25 who knows what else. So it is wonderful, and

1 you couldn't have chosen a better map to put on
2 the cover, because it makes our case.

3 Let's hope that you consider the will of
4 the people and not the strict letter of the law
5 if there is some vagueness. It is still very
6 clear that what people want is one voter and --
7 you know, one citizen and one vote, and so
8 please do that.

9 SENATOR GAETZ: Thank you. Thank you
10 ma'am. Thank you very much. And, Ms. King, we
11 are not -- we are not creative enough to do all
12 those animals. Those were done by legislators
13 in the past. We are sort of into more boring
14 geometry. So maybe you can help us pin the
15 tail on that donkey.

16 Susan Brainerd is next and --
17 Ms. Brainerd?

18 Marilyn Jacobs, then Norma Dayton and then
19 Catherine Rodriguez.

20 Marilyn Jacobs, thank you for being here
21 this evening. You could be other places, but
22 thanks from spending some time with us.

23 MS. JACOBS: Thank you, and thank you for
24 your patience. My name is Marilyn Jacobs, and
25 I am a resident of Port Charlotte. And I know

1 you have heard this from Tess, but this is what
2 I deal with.

3 Congressional District 14, Collier,
4 Charlotte and Lee County; Senate District 23,
5 Charlotte, Manatee and Sarasota; House District
6 71, Charlotte, Lee and Sarasota. What we would
7 like is Charlotte County to be in one place --
8 we are in one place -- one district in every
9 way, shape and form. We are a little -- around
10 160,000, but either put us with the Lee or
11 Sarasota, but don't divide us. That is it.
12 Thank you very much.

13 SENATOR GAETZ: Thank you very, very much.
14 Thank you, that is very helpful.

15 Next is Norma Dayton and then Catherine
16 Rodriguez and then Carol -- I think it is
17 Dunkak-Dunekirchen.

18 Norma Dayton, thanks for coming.

19 MS. DAYTON: Hi. I just want to say thank
20 you very much for having these.

21 I do support the comments of the League of
22 Women Voters and Planned Parenthood. My major
23 concerns are the maps that we don't have and
24 the timing. The timing is very important for
25 candidates who want to run for office and don't

1 know what district they are in. So please
2 speed this up as much as possible. Thank you.

3 SENATOR GAETZ: Thank you, ma'am. And,
4 Ms. Dayton, if you can hang with us until the
5 end, I think you will get some information that
6 either -- that might reassure you or at least
7 give you some additional data.

8 Catherine Rodriguez, Ms. Rodriguez, and
9 then, I apologize, my eyes again, not your
10 handwriting, Carol -- is it Dunkak-Dunekirchen?
11 Close enough for government work. You are
12 next, and then John Else and then Gregory
13 Stone.

14 Ms. Rodriguez, you have the floor, ma'am.

15 MS. RODRIGUEZ: I beg you to drop the
16 lawsuit and get to work on the redistricting as
17 the Florida voters have asked you to do. You
18 work for us, and we want you to do that. Get
19 to it.

20 SENATOR GAETZ: Thank you. Ms. Rodriguez,
21 we give extra credit points for brevity and
22 making your points succinctly, and so far, you
23 win tonight.

24 Carol, can you help me with your name,
25 please, ma'am?

1 MS. DUNKAK-DUNEKIRCHEN: It is
2 Dunkak-Dunekirchen.

3 SENATOR GAETZ: I thank I almost got that.

4 MS. DUNKAK-DUNEKIRCHEN: You were very
5 close, yes.

6 SENATOR GAETZ: Well, thank you for being
7 here, and we are anxious to hear your
8 testimony, ma'am.

9 MS. DUNKAK-DUNEKIRCHEN: Thank you for
10 having me. I am a resident of Port Charlotte.
11 I live in congressional -- U.S. Congressional
12 District 16, which as you have heard, begins on
13 the west coast with part of Charlotte County
14 and ends on the east coast, beginning with St.
15 Lucie County and runs down the coast. It is an
16 excellent example of gerrymandering. My
17 Florida State House District 72 includes DeSoto
18 and parts of Charlotte and Lee Counties.
19 Finally, my Florida Senate District 23 consists
20 of parts of Charlotte, Manatee and Sarasota
21 Counties.

22 I know that you have heard this before.
23 Despite the good efforts of Senator Detert, all
24 of Charlotte County should be in one district.
25 Since it does -- it may not meet the minimum

1 standards for numbers in population in some of
2 the areas, it could be combined with more
3 community -- communities of interest. You
4 know, eastern Charlotte County is very rural,
5 so is DeSoto County, okay. We have the coastal
6 -- coastal areas that could be similar to Lee
7 or Sarasota. But I think you really need to
8 take all of that into consideration, and above
9 all, do not divide Charlotte County. Thank
10 you.

11 SENATOR GAETZ: Thank you very much.

12 And John Else, E-l-s-e, how did I do on
13 that?

14 MR. ELSE: Else, like anything else.

15 SENATOR GAETZ: I was -- I had a little
16 bit of Norwegian going in there. John, thank
17 you for being here, and your testimony is
18 welcomed. Following you, we will hear from
19 Gregory Stone and Rosemarie Myerson, if you
20 will be on deck, and then John Eddins.

21 Mr. Else, thank you for coming.

22 MR. ELSE: I don't think the law -- the
23 amendment is confusing, in spite of my
24 colleague's statement. I lived for 23 years in
25 the state of Iowa, which is generally regarded

1 as one of the -- has one of the fairest and
2 least contentious systems for redistricting,
3 and it's been in place for 30 years, and it
4 uses many of the same terms that are in the
5 amendments. The responsibility for creating
6 the map is with the Legislative Service Bureau,
7 a non-partisan body connected to the
8 Legislature, and they create that by computer
9 models where the assumptions are all put in.
10 So it is a very objective system. They have an
11 advisory committee of two Democrats, two
12 Republicans, and the Chair selected by the
13 majority of those four. The principles are
14 much the same, as I said. The results in Iowa,
15 which passed -- made its reapportioning this
16 year, was that four of the five incumbent
17 Congressmen ended up in the same district with
18 another incumbent. So two of them moved into
19 -- were combined with two others. In this
20 case, two of them moved into other districts.
21 So that is a possibility, too, for you who are
22 incumbents.

23 I think it is a good idea for you to get
24 input before you make the maps, but then I
25 think the maps have to be drawn, and there is

1 no reason they can't be drawn within a month if
2 you use computer systems. And that you can
3 then have another round of these hearings going
4 on the maps in October and November, and into
5 December if you need to. So I just think your
6 job has been set and you have the possibility
7 of really doing something for us.

8 SENATOR GAETZ: Thank you very, very much,
9 sir.

10 Gregory Stone, is Gregory Stone still with
11 us? Mr. Stone?

12 How about Rosemarie Myerson? Ms. Myerson,
13 following your testimony, we will hear from
14 John Eddins and then Ina Rae Levy and then Joy
15 Davis.

16 Ms. Myerson, thank you for coming tonight,
17 and the floor is yours.

18 MS. MYERSON: Thank you for inviting me.
19 I am delighted to be here.

20 I didn't come to tell you exactly how to
21 do it. I think the two amendments gave the
22 ground rule of fair, compactness and getting
23 rid of gerrymandering. And as I listened to
24 what each one of these Representatives and
25 Senators represented, I clearly heard how not

1 to draw the map. I only try to keep track of
2 Collier and Lee Counties, and I heard at least
3 five of you represent pieces of Collier and Lee
4 Counties, and I don't think the population is
5 that big there. All right, so that's it.

6 The other thing I wanted to address is the
7 seriousness of this law case. I have followed
8 Betty Castor, who originally had one amendment
9 to get rid of gerrymandering in this state, and
10 it was thrown out at the courts in the end
11 because they said there should have been two
12 amendments, one addressing the federal
13 government redistricting, and the other
14 addressing the state. So now we drew up a
15 second one, and then everybody crying about
16 race representing or whatever, and they put in
17 all these other things, which now we hear a
18 lawyer saying, "Oh, that doesn't make any sense
19 whatsoever." Well, I think you people
20 understand the intent, and that Amendments 5
21 and 6 went right through the courts before they
22 were allowed to go on the ballot, and they were
23 declared legal all the way up, I think, to the
24 Supreme Court. I do not understand. I am not
25 going to discuss how much money you are

1 spending. I don't care. I mean, I do care,
2 but I can't understand at this stage, at this
3 time, when we need to choose candidates, we
4 need two new federal candidates, we have no
5 idea what the districts are in the whole state
6 are going to be, if they are going to be fair,
7 compact, contiguous, I can't understand your
8 taking this to the courts when it's already
9 been through the courts, and I hope you will
10 explain what courts you are going to and why.
11 And I -- I applaud all the wonderful things
12 that have been said here. I think Monia Joblin
13 said it for me very well.

14 SENATOR GAETZ: Thank you, Ms. Myerson.
15 And I think, if you are able to stay, the
16 Speaker Designate will explain to you how the
17 law requires us to go to the Supreme Court and
18 the federal courts.

19 Next is John Eddins. John Eddins, are you
20 here, sir? If not, we will go to Ina Rae Levy,
21 Ms. Levy, and following Ms. Levy, Joy Davis and
22 then Theresa Perkins and then Cheryl Brown.

23 Ms. Levy, you are recognized, and thank
24 you so much for being here this evening.

25 MS. LEVY: Good evening, and thank you for

1 this opportunity. But I would like to ask the
2 panel, have you heard the people tonight? Have
3 you heard what the feelings are in your
4 communities? Well, I am sort of getting blank
5 looks. I am wondering --

6 SENATOR GAETZ: Now, if you are asking if
7 the -- if you are asking if the loudspeaker is
8 working, it is working fine, thank you, but
9 please go ahead.

10 MS. LEVY: What the loudspeaker is -- how
11 the loudspeaker is working and how the brains
12 are taking it in are two different things.

13 I don't think there's any reason for me to
14 go over again the maps. Of course, you
15 understand clearly the feeling of the people.
16 The fact that it was passed by 63 percent, the
17 amendment, that is clearly understood by
18 everyone.

19 The only thing I want to say is I wonder
20 how many of you know that a camel is a horse
21 put together by a committee. And if we have
22 hundreds of thousands of people drawing maps,
23 who is going to examine them, who is going to
24 make them? Just get to work and do it now.

25 Thank you very much.

1 SENATOR GAETZ: Thank you so much.

2 MS. DAVIS: My name is Joy Davis.

3 SENATOR GAETZ: Hold just a second. I
4 just want to make sure that folks are lined up
5 behind you: Theresa Perkins, Cheryl Brown and
6 Deborah Livingston.

7 And now, Ms. Davis, you have the floor.

8 MS. DAVIS: Thank you. My name is Joy
9 Davis, and I have been a life-long Republican.
10 I have lived here in Sarasota for over 20
11 years. I am a teacher, and sitting in the
12 front row, I have observed all evening who is
13 paying attention and who isn't. I don't care
14 how old you are, it is over two hours and we
15 all have our limit on listening. I want to let
16 you know that I appreciate those of you who
17 have really made an effort, and I have watched
18 you. I have contacted you by eye to listen to
19 each and every one of us. This is serious
20 business. I am not up here as a teacher, but I
21 am up here as a voter, and you have listened to
22 the people, and the people have told you what
23 they want.

24 SENATOR GAETZ: Great classroom voice,
25 too.

1 MS. DAVIS: How -- excuse me, I know you
2 are trying to be very suave, and yes, you --
3 you and the one next to you are in charge of
4 this lawsuit to begin with. I am not impressed
5 with your smooth comments, sir.

6 How dare you use the taxpayer money for
7 your benefit and ignore the voters' wishes.
8 Obvious, it's been done. Get busy. It is like
9 you are a bunch of children in a classroom and
10 I can't get you to get your work done. Stop
11 the fighting. I would separate you, because
12 you aren't -- you aren't any better than a kid.
13 Do your responsibility to the State of Florida
14 and to your voters and get busy and do your
15 job.

16 SENATOR GAETZ: And, ma'am, your time is
17 up, thank you. Still a good classroom voice.

18 Theresa Perkins and then Cheryl Brown,
19 then Deborah Livingston and then Murray
20 Blueglass.

21 Theresa Perkins, thank you for being with
22 us tonight, and you are recognized.

23 MS. PERKINS: Thank you for coming
24 tonight, and I am Pastor Perkins from the
25 Newtown/Sarasota community, and what we -- the

1 District 55, when you redistrict, please
2 maintain Newtown in north Sarasota in the House
3 District 55. This district is very important
4 to us in our black community, because it let us
5 elect a Representative of our choice, we share
6 the same concerns with the other communities in
7 this district, and I also believe that not
8 keeping us in the district would violate the
9 Amendment 5, which was passed by over
10 60 percent of the vote. I also urge you to
11 also allow our area to be in a minority
12 district in the State Senate and in the
13 Congress. We want to be empowered, all levels
14 of government. Thank you.

15 SENATOR GAETZ: Thank you so much, ma'am.

16 Next, Cheryl Brown, and then Deborah
17 Livingston, please, and then Murray Blueglass
18 from the Longboat Key Democratic Club and then
19 Jim Hunter would be on deck.

20 Ms. Brown, you are recognized, and we are
21 delighted to have your testimony.

22 MS. BROWN: Thank you. Good evening.
23 Thank you for listening tonight. My name is
24 Pastor Cheryl Brown, and I am a citizen who
25 have lived actually in the Sarasota area for

1 over 40 years now. I am now living in Manatee
2 County, Lakewood Ranch, Florida.

3 I am here tonight to ask you to keep
4 Newtown and north Sarasota combined with
5 Manatee, Hillsborough and Pinellas County in
6 House District 55. This is a seat that gives
7 us an opportunity to elect a Representative of
8 our choice. If you do not keep us together, we
9 will lose our representation, and we are
10 concerned that we will be represented by
11 someone else who does not know our needs. This
12 is the law of Florida, so following the law
13 shouldn't be difficult.

14 Also, we would like you to give us
15 additional opportunities to elect candidates of
16 our choice in the State Senate and in the U.S.
17 Congress. Thank you very much.

18 SENATOR GAETZ: Thank you so much, Pastor.
19 Deborah Livingston, then Murray Blueglass,
20 then Jim Hunter, then William Grant.

21 Ms. Livingston, you are recognized, ma'am.

22 MS. LIVINGSTON: Good evening. I was born
23 in Sarasota. Welcome to Sarasota, and thank --
24 thank you for being here to listen to our
25 concerns today.

1 On behalf of the black community here in
2 Sarasota County, I am here to say that we like
3 being with St. Petersburg, Palmetto, Bradenton,
4 in House District 55. Our community is small,
5 and being united with other similarity
6 communities gives us the opportunity to elect
7 Representatives of our choice. This request
8 shouldn't be considered a favorite or a special
9 treatment, but simply following the law passed
10 last November by 60 percent of the voters. Not
11 doing this will weaken our position as minority
12 voters and violate the law. Thank you again
13 for your time.

14 SENATOR GAETZ: Thank you very much,
15 ma'am.

16 And now, Murray Blueglass, if Murray
17 Blueglass is here from the Longboat Key
18 Democratic Club, and following Mr. Blueglass,
19 Jim Hunter and then William Grant, and if Wade
20 Matthews would be on deck, please.

21 Mr. Blueglass, thank you for coming, and
22 the floor is yours.

23 MR. BLUEGLASS: Thank you very much.
24 Thank you for -- all of you for being here this
25 evening. What an array of our Legislature to

1 take the time to come around the country -- or,
2 excuse me, come around the state and to listen
3 to us.

4 First of all, I would like to say thank
5 you to all the people in the audience. Last
6 year I watched town halls across this country
7 on TV. I was shocked by the lack of civility
8 that was displayed across the country. The
9 people in this audience really deserve a round
10 of applause, and I think you ought to give
11 yourselves one. Only in Sarasota/Manatee,
12 Florida, can such civility, good response and
13 positive feeling be felt. Thank you.

14 And, Senator Gaetz, I disagree with
15 somebody who spoke recently, just a couple of
16 speakers ago. I think you have handled this
17 with aplomb, with great patience and great
18 determination, and you have kept it on track.
19 Bipartisan politics, thank you for running a
20 good meeting.

21 Amendments 5 and 6 didn't just appear
22 mid-air. They were created because of a need.
23 Everybody at this table understands that. The
24 people in this county, the people in Manatee,
25 indeed, the people across the state were

1 determined that in the next redistricting in
2 2012, it would be fair and consistent. We need
3 you to understand that. That is bipartisan
4 politics. That makes good sense. We didn't
5 need the amendments. We don't need all the
6 fighting. We need to understand how important
7 it is to represent the people. Sarasota,
8 Manatee, that is a winning combination. Sorry,
9 Ray, but it is an absolute winning combination
10 to combine Sarasota and Manatee into a
11 district.

12 As you work across the state and you hear
13 other people, contiguous districts that don't
14 run from sea to sea will be so, so important.
15 Contiguous districts with common interests and
16 fair number of people represented by you is all
17 we are asking for.

18 So we thank you very much for coming
19 tonight. Remember, we, the people of these
20 United States, isn't that what we are all
21 about? Thank you.

22 SENATOR GAETZ: Thank you very much, sir.

23 Jim Hunter, Mr. Hunter, and then William
24 Grant, then Wade Matthews for the Better
25 Government Association of Sarasota County and

1 then John Bellantoni, please.

2 Mr. Hunter, you are recognized, and we are
3 delighted you are here.

4 MR. HUNTER: Yes, Mr. Chairman, thank you
5 very much, and members of the Committee, thank
6 you for attendance tonight.

7 I am a retired businessman. I have been a
8 resident of Sarasota for over 35 years. This
9 is the first time I have ever even heard of a
10 hearing on redistricting. I am glad we are
11 having one.

12 If we can end gerrymandering, we have
13 certainly accomplished something in the history
14 of our state. And if we can respect the
15 boundaries of cities, counties, neighborhoods,
16 that would be a major accomplishment. We need
17 to drop the lawsuits, we need to save our tax
18 dollars, and I hope that our next hearing will
19 be on campaign finance reform.

20 SENATOR GAETZ: Thank you very much.

21 Is William Grant here? William Grant? He
22 already talked?

23 SENATOR GAETZ: Ah, slid in early, did
24 you?

25 Wade Matthews. Mr. Matthews, you will be

1 followed by John Bellantoni and by Lois Regan.

2 And you are recognized, sir.

3 MR. W. MATTHEWS: Thank you, Mr. Chairman.

4 I put Better Government Association down
5 because I am co-President of it, but I am not
6 here to represent them. I have talked,
7 however, with the members that I have been able
8 to see of that and about the other ten or so
9 other organizations that I am either on a Board
10 of Directors with or an officer of, and they
11 all have the same general consensus of the
12 great majority view of what we have heard here
13 tonight.

14 I just want to address -- I was going to
15 address those things, but I just want to take
16 two quick points. One, it seems fairly easy to
17 form the districts compactly with contiguous,
18 not favoring or disfavoring any political party
19 or incumbent. There were two issues that were
20 brought up, though, about the idea of following
21 existing city, county and geographical
22 boundaries. One case of the City of Bradenton,
23 for example, it says here "where feasible" in
24 this law. So where it is not feasible as that
25 sort of case, you ignore it -- don't ignore it,

1 you do it to the extent you can, but you don't
2 do it otherwise.

3 The other case that came up is the idea of
4 not denying racial or language minorities
5 and -- the opportunity to participate and elect
6 Representatives. It says "not deny." It
7 doesn't say you have to have the complete
8 ridiculous gerrymandering that we have. And
9 I -- I have spoken with Representative Rouson
10 here. I personally believe that he could be
11 elected in almost any district with his -- with
12 his eloquence and his diplomatic approach to
13 things, whether it is a black district, a white
14 district or whatever. I think he is a fine,
15 fine person. However, I don't think he needs a
16 district all his own in order to do it, and
17 that would completely -- you cannot have that
18 done as equal to the other cases. You don't
19 need -- you will not be denying racial or
20 language minorities if you follow a system of
21 doing that away. We have the entire state of
22 Florida, which has elected one -- one Senator
23 who is Hispanic, and has one now who is
24 Hispanic. You have had -- in Sarasota County,
25 you have -- there's very few blacks in the

1 county district represented by one black member
2 of the county commission. You have --

3 SENATOR GAETZ: Could I ask you to put a
4 bow on it pretty soon?

5 MR. W. MATTHEWS: Absolutely. I am
6 finishing up right now.

7 You have a President of the United States
8 who considers himself black who was elected by
9 all the people, and I am convinced that black
10 Representatives can have their representation
11 and elect people without having this sort of
12 gerrymandering.

13 SENATOR GAETZ: Thank you so much.

14 John Bellantoni. Mr. Bellantoni, are you
15 here, sir? If not, we will pass you.

16 Lois Regan, or Regan, then Craig -- I'm
17 sorry, my eyes again, C-e-r-r-e, I think, t-a,
18 at Lakewood Ranch Business Alliance, and then
19 Ida Culbertson.

20 Lois Regan. Thank you for coming,
21 Ms. Regan, and we are delighted to have your
22 testimony on the record tonight.

23 MS. REGAN: I would like to go on the
24 record thanking you for having the meeting and
25 agreeing with the things that were said here,

1 and what I would like to -- just look at my
2 notes a little bit.

3 SENATOR GAETZ: Sure.

4 MS. REGAN: I feel that having this
5 meeting without having concrete maps to look at
6 is really having the cart before the horse.
7 You have the material, you have the fair act,
8 voting act, to go by as your guidelines. You
9 have a lot of information about demographics
10 and everything that you need that we citizens
11 don't have. So the input that the citizens
12 could give would be after you gave some kind of
13 outline for us to look at based on the Fair
14 District Act and based on all the tools that
15 you have, like the gentleman who talked about
16 Iowa and what is available. So I feel that it
17 is very hard for us to really give sufficient
18 input without having a concrete thing before
19 us.

20 As far as the suit goes, I don't know what
21 the amount of money is that is being used in
22 this suit, but I feel that we have so many cuts
23 for urgent things that our citizens need, that
24 I think taking any money to use for a suit
25 against what 63 percent of the people voted for

1 is a misuse of taxpayer funds. I feel that it
2 is totally inappropriate for you to do that.

3 And I really feel that, just to summarize
4 it, that if you could give us something
5 concrete within a reasonable time and have
6 meetings for us to look at -- there are many
7 people who don't have computers. If you showed
8 me something with a map on a computer, I would
9 really have a problem with it. So if you
10 really want input, you need a public meeting
11 with some format that you are presenting to us,
12 and we need it in a timely manner so absentee
13 ballots could get out, all the -- Kathy Dent
14 could do or any of the Supervisors could get
15 their things done. And people who are not
16 incumbents, who are not known in their
17 districts, whatever their party is --

18 SENATOR GAETZ: May I ask you to
19 summarize, ma'am?

20 MS. REGAN: Yes, okay.

21 -- that they have time to know where they
22 are running and to do their campaign fairly.

23 SENATOR GAETZ: Thank you so much. Very
24 good testimony.

25 And now Craig -- is it Cerreta?

1 MR. CERRETA: Cerreta.

2 SENATOR GAETZ: Cerreta. Mr. Cerreta with
3 the Lakewood Ranch Business Alliance, and then
4 Ida Culbertson and then John Hoover and then
5 Emmalou Kirchmeier, who says she is
6 representing the Methodist church.

7 Mr. Cerreta, thank you for being here, and
8 you are recognized, sir.

9 MR. CERRETA: Okay. Thank you very much
10 for having me.

11 For those of you Representatives who are
12 not familiar with Lakewood Ranch, it is a
13 little 33,000-acre development about six miles
14 directly east of here. It is a community. It
15 is a residential community and a business
16 community. I am here representing about 469
17 businesses that make up that business
18 community, from individual realtors to
19 businesses that have 600 employees or more.

20 From our perspective, obviously just like
21 all the residents, we want to work very closely
22 with our representation. Good, close
23 relationships help to get things done. To do
24 so, we feel that recognizing communities,
25 whether they are county communities or smaller

1 communities like ours that are not
2 incorporated, are very important when you are
3 drawing these lines.

4 So we cross county boundaries, similar to
5 The Villages that does. We don't want to see
6 Lakewood Ranch split up at the House -- at the
7 state level and have us divided in our efforts
8 as we are trying to get representation. So we
9 ask that when you are drawing the lines, you
10 take into consideration that it is not just
11 county lines, it is not just major roads, it is
12 not just those other geographic boundaries.
13 Communities make up a very important component,
14 regardless of those other boundaries.

15 SENATOR GAETZ: Thank you so much, sir.

16 Next is -- I think it is Ida Culbertson.
17 Is that correct, ma'am?

18 MS. CUTHBERTSON: Cuthbertson.

19 SENATOR GAETZ: Cuthbertson, I am very
20 sorry, it is my eyes. You are recognized, and
21 thanks for being here tonight.

22 MS. CUTHBERTSON: Thank you for the
23 opportunity.

24 This voter and millions more across
25 Florida spoke loudly and clearly last year

1 about redistricting this state. You know what
2 the voters instructed the Legislature to do.
3 Legislators can ignore the voters and even
4 fight them in the courts, but you do so at your
5 own peril. My advice to the legislators is to
6 heed the message from the voters from last
7 year, drop the lawsuit, but do redistrict into
8 compact districts.

9 You have also offered no draft maps for
10 citizens to look at. In my mind, that is a
11 rather strange circumstance. So I urge you to
12 place Sarasota and Manatee Counties together in
13 the same district for the U.S. Congress,
14 Representative and for the Florida State seats.
15 Thank you.

16 SENATOR GAETZ: Thank you very much,
17 ma'am.

18 And next, John Hoover, please, Mr. Hoover,
19 and following Mr. Hoover, Emmalou Kirchmeier
20 and then Glenda Williams and if -- I think it's
21 Logan Bartholomew, if Mr. Bartholomew will also
22 be on deck.

23 Mr. Hoover, thanks for being here, and
24 fire away.

25 MR. HOOVER: Thank you all for coming out.

1 We appreciate it. Thanks for holding these
2 hearings.

3 As I understand, you all have received a
4 certain amount of skepticism. Please excuse
5 your constituents, but we have been misinformed
6 time and again by politicians who have told us
7 one thing and done another.

8 Fair Districts mean fair to all, and I
9 think there is some wiggle room for compact
10 districts in ensuring minority representation.
11 We in the past have seen redistricting be the
12 spoils of electoral success by majority party
13 and/or incumbent. Now that Amendments 5 and 6
14 have passed, Floridians have a high hope for
15 districts that reflect regional commonalities.

16 Reports in the news that both State House
17 and Senate have tens of millions of dollars
18 stashed to fight challenges to the new
19 districts support citizen skepticism. Please
20 prove us wrong. Please don't be Lucy and us be
21 Charlie Brown. Thank you.

22 SENATOR GAETZ: Thank you very much.

23 Just previews of coming attractions, we
24 are getting close to the nine o'clock hour. A
25 number of you have asked that members of the

1 Committee respond to certain questions you have
2 asked. We are going to try to do that. Those
3 that -- you know, the good news is that 109
4 people indicated their desire to provide input,
5 and if we aren't able to get to you tonight,
6 that doesn't mean we are not going to be able
7 to get to you. It just means that you can
8 submit your comments in writing. You can send
9 it to us by regular mail or by e-mail or you
10 can give them to us this evening if we don't
11 get a chance to get to you, but we are grateful
12 for everyone who has hung with us.

13 And now, Ms. Kirchmeier, it says here you
14 represent the Methodist church, and --

15 REVEREND KIRCHMEIER: Well, I put that
16 down because I have to, I am a reverend, and --

17 SENATOR GAETZ: Well, Pastor, thank you.

18 REVEREND KIRCHMEIER: It is kind of odd
19 not to.

20 SENATOR GAETZ: Pastor, thank you very
21 much for being here.

22 REVEREND KIRCHMEIER: Thank you. But I
23 actually came here with the Bible in one hand
24 and a flag in the other, if you understand.
25 And I think that is the way most of us feel

1 about where we are and who you are. You
2 represent our government. Now, whether we like
3 you or not, it depends on how you vote, and,
4 you know, if you want us to like you, and you
5 are not being liked, change your vote.

6 I came here to save my husband's life 16
7 years ago to Myakka, and I learned about
8 eating, you know, those things that go on the
9 ground and have long tails and I never get
10 their names right -- alligators, and my
11 grandchildren were surprised I ate it for
12 Thanksgiving. And my husband lived seven years
13 instead of just the six months they talked
14 about.

15 So when it comes to Florida, I usually
16 only have good things to say, but Myakka and
17 Old Myakka and the way this other gentleman
18 talked about it, you have to know the
19 cattlemen's association, you got to go out
20 there and fish and, I mean, you've got to know
21 when the water comes up and you've got to move
22 the herd, what is going to happen to their
23 hoofs, you know, if they are in the mud. I
24 mean, you got to know all those things about
25 country living. And I just loved it all, and

1 then I moved to Bradenton when my husband died
2 and I became a democratic committeeman for
3 District 59, and then I did the census for
4 District fifty -- sixty -- 69, and I learned
5 about what they need -- they needed sewers,
6 okay, terrible situation, and I learned about
7 city government. And then I got very, very
8 upset, because if there's one thing I am
9 constantly fighting for, it is women's rights,
10 children's rights and black Americans' rights.
11 That is me, okay. And if somebody is in their
12 way, God help them when they are in my way.
13 And sometimes that is what you are doing. You
14 are getting me so angry I can't understand how
15 some of you got elected.

16 SENATOR GAETZ: Well, blessed are the
17 merciful, Pastor, and we are running a little
18 short on time, so if I could ask you to get to
19 the --

20 REVEREND KIRCHMEIER: Well, what I am
21 going to say to you --

22 SENATOR GAETZ: -- three points in the
23 palm of the sermon.

24 REVEREND KIRCHMEIER: -- tonight is that
25 the 14th Amendment made a lot of promises to

1 us, and you are not keeping them.

2 SENATOR GAETZ: Thank you.

3 And now, is it Logan Bartholomew? Logan
4 Bartholomew, you are up, and then is David
5 Miner? Then Rodger -- I think it is Skidmore,
6 and then Tammy Cabrera.

7 Mr. Bartholomew, thank you for coming, and
8 you are on.

9 MR. BARTHOLOMEW: Thank you, sir, good
10 evening. I am a native of Boynton Beach,
11 Florida, over on the southeast coast, but I go
12 here to New College, I am a fourth-year
13 student, just for reference, Congressional
14 District 19, State Senate District 30, and
15 State House District 89, which I can't draw,
16 which is a problem for me. At least in South
17 Florida, I think that is what is going to make
18 or break the maps, especially when it comes to
19 the courts, because the way at least the
20 congressional districts are currently drawn, it
21 is drawn by socioeconomic strata with the
22 ultra-rich on the coast, the poor people
23 slightly more inland, and then obviously we get
24 richer as we go farther west.

25 I would ask that the Committee please draw

1 the lines east/west along the major grid
2 roadways in southeast Florida so that we get
3 more representative districts, that we get
4 districts that listen to ideas rather than race
5 or culture or any other -- we need better
6 ideas, sir. Thank you.

7 SENATOR GAETZ: Thank you so much.
8 Appreciate your testimony.

9 And now, David Miner, followed by Rodger
10 Skidmore, and Tammy Cabrera will be our last
11 speaker this evening. David.

12 MR. MINER: Chairman, I am Dave Miner, I
13 am from Manatee County, I work and live there.
14 I was born in Florida. I am a Marine Vietnam
15 veteran, proud to be here with y'all, and I
16 have some -- a lot of concerns about --

17 SENATOR GAETZ: Now, excuse me, Mr. Miner.
18 We have listened to everyone respectfully
19 tonight. If you would like to have a
20 conversation, that is fine, but would you
21 please take it out in the hall? This gentleman
22 is a veteran of our military services. He has
23 come here to share his opinions. Let's give
24 him our attention.

25 Mr. Miner.

1 MR. MINER: Thank you, sir.

2 One of the concerns I have is about the
3 attitudes of our country's people toward their
4 government. And in preparation for speaking
5 tonight, I talked with the Supervisor of
6 Elections' office. I had a contact, see how
7 many people actually voted the last time that
8 we had a general election, and it was
9 55 percent of the registered voters in Manatee
10 County. That comes down to about 42 percent of
11 the actual people who could vote, because not
12 everybody is a registered voter.

13 And I have talked with a lot of people
14 over time why they don't vote, and many of them
15 say, "Well, you know, I got other things to
16 do." A lot of them say, "It doesn't make any
17 difference." That is the main theme. It is a
18 cynicism that seems to pervade our populous
19 here in Florida and I think in this country.
20 And why are people cynical? And that is why I
21 ask them, and they say, "Well, it doesn't make
22 any difference. People get elected, and they
23 are just going to do what the money tells them
24 to do, what the leaders say to do, not what the
25 people tell them what to do." I don't think

1 cynicism is good for our country. It is not
2 what I fought for. I think that you all need
3 to take that into account when you do things.
4 I think that you need to act to reduce that
5 cynicism. I think you need to act to restore a
6 little more faith in our political process.
7 And I think two ways that you can possibly help
8 is that when you get to Tallahassee, remember
9 what happened here. Another thing is to
10 remember that it is important that you follow
11 the Constitution that you take an oath to, and
12 that oath includes Amendments 5 and 6. This
13 oath says that you are not supposed to do
14 something to favor political parties or
15 incumbents. And how do you enforce that?

16 SENATOR GAETZ: And, sir, out of respect
17 for you, I have given you a little extra time
18 because you were interrupted, but, please, if
19 you could bring it to a conclusion.

20 MR. MINER: Okay, two things. I think you
21 ought to make it an ethics violation if any
22 member of the House or Senate talks with
23 another member and says, "Hey, I want a favor,
24 I want you to take into special consideration
25 my district or what I want to run for," and

1 then have harsh sanctions.

2 And, too, I think you ought to -- or
3 number three, whatever money you are spending
4 -- and I know the Constitution says that you --
5 or Florida Supreme Court has to approve any
6 final districting. I don't have any problem
7 with that lawsuit.

8 SENATOR GAETZ: Sir, I am going to have to
9 ask you to conclude.

10 MR. MINER: Okay. But if you are spending
11 money, you know, to fight 5 and 6, I don't
12 think that helps diminish cynicism, it
13 increases it. And I don't think that helps our
14 country, and I think you ought to change your
15 minds about that. Thank you very much.

16 SENATOR GAETZ: Thank you for your service
17 to this country.

18 And now, Rodger Skidmore, if you will come
19 forward, and then Tammy Cabrera, if you could
20 be on deck. Mr. Skidmore, you are recognized,
21 sir.

22 MR. SKIDMORE: Thank you. I would like to
23 thank you all for bringing so many very, very,
24 very concerned citizens together in one room.

25 Earlier you said that we could go ahead

1 and applaud, but there is no real way to
2 quantitatively or qualitatively decide how much
3 impact we have with you, and we would like to
4 have a record of that. So I have created a
5 Petition that I would like to pass around,
6 people can sign it and let others sign it since
7 I've only got 100 of them.

8 The amendments state that the districts
9 will have to be compact and utilize existing
10 political and geographical boundaries. Very
11 simply, this means that one cannot for
12 political expediency take a region of Florida
13 and create four districts with a 60 percent
14 majority of one party's voters, and one
15 district packed with 95 percent of the other
16 party's voters or of minority members, that
17 thus ensuring a four to one majority vote for
18 that one party in Tallahassee. I understand
19 the law on minorities, I agree with it, but you
20 don't have to pack so many of them into one
21 place and take them out of their local areas
22 where they can vote on local ideas.

23 And, actually, the above example is not
24 fair to voters of any party, not just because
25 the second party will do the same if they get

1 into power, but because it also gives too much
2 party -- too much power to party bosses. We
3 have seen that local representatives of the
4 party in power wanting to vote the way they
5 feel their constituents would like them to vote
6 have been told to vote the party line or lose
7 funding on needed projects --

8 SENATOR GAETZ: And, sir, I am going to
9 have to ask you to conclude with one more
10 sentence, and then please feel free to pass
11 around the Petition.

12 MR. SKIDMORE: -- and if they vote wrong
13 too often, to have their districts
14 gerrymandered out of existence in future years.

15 SENATOR GAETZ: Thank you very much, sir,
16 and please feel free to pass it around.

17 Tammy Cabrera, is it --

18 MS. WILLIAMS: My name is Glenda Williams.
19 You called my name one time, then you haven't
20 called it since, so --

21 SENATOR GAETZ: I'm sorry, is Tammy
22 Cabrera there? Ms. Cabrera, you are up, and we
23 are delighted to have you with us this evening,
24 and you are recognized.

25 MS. CABRERA: Legislators, welcome and

1 thank you for coming to Sarasota. I would like
2 to ask you to consider leaving District 55
3 largely the way it is from south St. Pete to
4 northern Sarasota. Though it only covers a
5 small part of our county, it allows us to be
6 united with other similar communities.

7 I hope that with the Amendment 5 and 6
8 passing, you will also be able to look at
9 additional opportunities for us to elect
10 representatives to the State Senate and
11 Congress. We relate to the community and know
12 our needs. Thank you.

13 SENATOR GAETZ: Thank you very much,
14 ma'am. I appreciate your comments.

15 A number of you asked tonight that before
16 we concluded, that some specific questions be
17 answered or observations be made by members of
18 the Committee, and so I am going to turn to the
19 Speaker Designate at the end to answer any
20 questions that hadn't been answered. He made a
21 list of them. But let me begin first with
22 members of the House of Representatives,
23 Democrats or Republicans. Any of you have any
24 comments that you would like to make before we
25 go to the Speaker D?

1 Yes, sir, you are recognized,
2 Representative Rouson.

3 REPRESENTATIVE ROUSON: It is hard to sit
4 here -- first of all, I am very grateful to the
5 number of people that came out tonight. It is
6 a testament to our Republic and to our
7 democracy.

8 It is hard to sit here hearing after
9 hearing after hearing and take some shots, but
10 we were elected for just that, to do the best
11 that we could, understanding that we will not
12 be able to please everybody. But it is
13 important to be heard. I think that to hear
14 from you and then go back and try and draw
15 something after having heard you over and over
16 and over again helps us, and I, for one, would
17 have been very distraught -- in fact,
18 Mr. Speaker Designee and Mr. President, tell me
19 if y'all got some maps somewhere. I want to
20 know. I want to see them. But this part of
21 the process is so that we can take back. And I
22 want you to know, I am taking it back. I ain't
23 scared of no ghost. And we will make sure that
24 what is done is fair. My daddy taught me one
25 lesson, he said, "Son, ain't no fairness.

1 There's only justice in the end." There is no
2 fairness truly when human beings are behind it,
3 but as much as possible, we seek fairness while
4 we expect justice.

5 Thank you for coming out tonight.

6 SENATOR GAETZ: Thank you, Representative,
7 well spoken.

8 Other members of the House who wish to
9 offer any comments? Please, Representative
10 Frishe.

11 REPRESENTATIVE FRISHE: First of all, full
12 disclosure, I am not running for reelection to
13 the House. Ms. Davis, I hope I paid attention,
14 I hope I met your threshold, but you weren't
15 watching me, were you?

16 So we have been told to follow Amendment 5
17 for legislative districts, but the question I
18 would like somebody to come up and tell me
19 after we adjourn is do we then split Lakewood
20 Ranch or not? Because we have heard both
21 arguments here tonight. Do we split the
22 airport or not, because the county line runs
23 down the middle of it, or not? But we have to
24 follow Amendment 5. So it is going to be a
25 problem.

1 The congressional seats, we heard
2 testimony that said we should keep Charlotte
3 and Sarasota together because they are a
4 community of interest, but Amendment 6 doesn't
5 allow for communities of interest. And we also
6 heard we should keep Sarasota and Manatee
7 together because they are a community of
8 interest, but, once again, we can't consider
9 communities of interest under the law.

10 So we are going to try and follow the law
11 and keep Representative Rouson's District 55
12 for those who want it, and get rid of it for
13 those who don't. Now, I am really trying to
14 pay attention here, folks, so hang on. Darryl,
15 behave yourself. Now -- and I don't really
16 mean to be all that humorous about that, but
17 what I want to point out is that issue,
18 especially at the congressional level, may well
19 be out of our hands, because the Federal Voting
20 Rights Act, as enforced by the federal courts,
21 are going to give us guidelines that we cannot
22 deviate from, just like the population of a
23 congressional district doesn't have a one
24 percent variation, it has a plus or minus one
25 person variation. So try drawing that

1 congressional district on the software, folks,
2 because I got to tell you, it took me two hours
3 to draw the first one, and I started in the
4 Panhandle, and that is easy up there because
5 there's lots of open space and small families.

6 The maps are out in the lobby. That is
7 what we are going to start with. If you've got
8 some changes to them, go tell us what they are.
9 Tell us what -- there are a couple of them,
10 pick your favorite one. There is one I happen
11 to like out there. But take a look at the
12 maps, reference the number, tell us what
13 changes you would like to see, because we are
14 going to start with the will of the people.
15 That is what we are elected to do.

16 There are a couple other things out
17 there -- that were said tonight that I think
18 are going to get answered, but we get paid to
19 get beat up. That is why they pay us the big
20 bucks, both of them.

21 SENATOR GAETZ: Thank you very much.
22 Other members of the House? If not, Senator
23 Detert, you are recognized.

24 SENATOR DETERT: It is probably not in my
25 best interest to tell you what I think, but,

1 frankly, I am very disappointed in our
2 community. If you recall last year, we spent
3 about a half a million dollars to promote
4 civility, and for this woman in the front to
5 stand up and say, "Stop, the child is
6 fighting," this is our half of the table. This
7 is my good friend, Senator Joyner, from a
8 gerrymandered district, my good friend, the
9 Democrat. Nobody on this side of the table is
10 fighting. None of this group is fighting over
11 districts or anything else. We came to listen.

12 I thank the Representatives, look at the
13 size of the crowd that came here today, they
14 came early, they took a tour of the Ringling
15 Museum. I was hoping they would be impressed
16 with our community, because they all get to
17 vote on our budget, things like this
18 university, things that we want for our
19 community. This is an opportunity to showcase
20 the community. It is also an opportunity to
21 participate in your government. Now, you can
22 either have tons of paranoia run rampant and
23 you can protest, or you can pull up a chair and
24 you can participate.

25 In the past, districts were gerrymandered.

1 No one at this table probably drew any of the
2 districts, the salamander, the this, the that,
3 the whatever.

4 The best testimony we had today was this
5 morning in Largo at 8:00 a.m. from an
6 84-year-old woman who was probably the smartest
7 woman in the room. She's seen lots of
8 redistricting. And she referred to one map as
9 the bug splat. Peggy Simone, you probably did
10 that, for crying out loud. So it is not like
11 gerrymandering is new.

12 This is the most open, transparent
13 situation you will ever see up until now,
14 thanks to things like technology, the Internet.
15 There are no maps in the back room that we are
16 all going to run back there and arm wrestle
17 over. In fact, I have to congratulate our
18 Chairman, Senator Gaetz. The very first
19 meeting we ever had -- and he told this to me,
20 frankly, in private, he said, "I don't even
21 want to know where anybody on the Committee
22 lives." And you know what? I don't want to
23 know where anybody on the Committee lives
24 either.

25 I think -- I did participate in

1 redistricting in the year 2000. I personally
2 drew District 70. I think it is compact. I
3 think it is a community of interest. You have
4 to hit the numbers. There are certain rules.
5 And for you all to stand up and read us the
6 rules, guess what, we know the rules. We have
7 read the amendments, and we did not start out
8 this meeting by saying we have no intention of
9 keeping any of the rules.

10 So, frankly, I am a little disappointed in
11 the lack of civility. I think we have been as
12 polite on our side of the table as we can be.
13 We intend to be fair, and, really, you probably
14 won't know until we do produce the maps, and
15 then you will -- and then you will be --

16 SENATOR GAETZ: Ma'am, ma'am, ma'am --

17 SENATOR DETERT: And I thank you all for
18 staying this late, because you will hear some
19 of your questions answered by Representative
20 Weatherford, who I turn over the mike to now.

21 SENATOR GAETZ: Thank you, and with that,
22 I will recognize the Speaker Designate, and
23 he's made a list of some of the questions that
24 have not been responded to, and we will ask him
25 to respond to those questions now, and please

1 give him your attention.

2 Mr. Speaker.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much, Mr. Chairman. It's been a great
5 hearing, and thank you all for staying so late
6 and sitting through this entire hearing and
7 giving us an opportunity to talk to you and to
8 respond to some of the questions, a lot of the
9 questions that probably need to be clarified.
10 And so I am going to do my best to do that, but
11 first I did want to say there was one
12 gentleman, Mr. Chairman, who complimented your
13 ability to chair this hearing, and I stole one
14 of the band-aids from Darryl Rouson, I just
15 think you should have one yourself, too. So
16 feel free to partake.

17 But I want to say there were a lot of
18 things mentioned tonight, and I am going to try
19 to go through them systematically. One person
20 I thought had an interesting question, the
21 first time I have heard this, Mr. Chairman, in
22 probably over 1,000 people who have spoken
23 before this committee, maybe 2,000, and that
24 question was this: What have you learned since
25 hearing all this public testimony? And we have

1 probably had 70 hours plus of public testimony
2 thus far. And I thought that was a very
3 interesting question, and so I am going to
4 briefly tell you a couple of things I think I
5 have learned.

6 The first thing I have heard and I have
7 learned is I have heard from every Supervisor
8 of Elections that has talked to us about the
9 efforts you have put in in putting the VTDs
10 together, and to make sure, since you put all
11 that detail into work, that we utilize that and
12 honor that in our process, and I hear you loud
13 and clear, we hear all of you loud and clear, I
14 want to thank you for that. That has been
15 very, very helpful.

16 The other thing we have heard a lot about
17 is I have heard several people talk about
18 transportation corridors; in other words, talk
19 about how far it takes for them to get from
20 where they live to maybe the district office of
21 the person who represents them. And so
22 transportation matters, and roads and bridges
23 and railroad tracks and things that get you
24 from A to Z actually matter. And so I have
25 learned a lot about that, and I didn't know

1 much about Sarasota and Manatee except for the
2 few times I have driven through here or come to
3 visit some of my friends, and so we are
4 learning as we are sitting here about the
5 different transportation needs and corridors of
6 your community. I have learned a lot about
7 that today and about our state, and that has
8 been very helpful to me as well.

9 The last thing I have heard a lot about
10 that I think I didn't recognize until this
11 process started is that the Federal Voting
12 Rights Act mandates that the Legislature
13 analyze where cohesive minority communities
14 exist, and we have received tremendous
15 information, both in Orlando and in Miami and
16 in Tampa, on this exact issue. We have heard a
17 lot about it in regards to District 55 just
18 here tonight, and that has been very helpful,
19 too. So that was a great question. I could
20 probably go on for a long time about things I
21 have learned. Those are a couple of things,
22 but I hadn't heard that yet, and I wanted to
23 make sure I responded to it.

24 Something we hear everywhere we go -- so I
25 started with something I never hear, and now I

1 am going to start with something I hear
2 everywhere we go. Something we hear everywhere
3 we go, and there were several comments made
4 tonight about it, was the timeline. And I
5 stated this in my opening, but in case anybody
6 missed it, I want to say it one more time. The
7 Constitution of the State of Florida is very
8 clear. We cannot -- we cannot vote on
9 legislative maps until 2012. We cannot do it.
10 It is illegal.

11 Okay. Now, that being said, the question
12 is, what are we going to do with the time
13 leading up to that, right? Well, we have
14 already moved session from March to January,
15 that is a start. So what are we going to do
16 with the six or seven months before that? We
17 were one of the last states, not the last
18 state, one of the last states to get our census
19 data in the entire country. Okay. Now, we
20 have started since session got out on what we
21 are calling a listening tour. We started in
22 Pensacola. We are working our way all the way
23 down the state. This is our last week. You
24 are one of our last meetings that we are
25 having. We are going to spend -- we have spent

1 the entire summer listening to people just like
2 you, over 1,000 people thus far. And then we
3 are going to spend the fall months analyzing
4 the information that you have given us and
5 utilizing it to put it into action, into
6 drawing maps. And then when we get into
7 session, we are going to vote on maps. Ladies
8 and gentlemen, that is the process. That is
9 the timeline. We are not slowing down
10 anything. That is what we are going to do, and
11 I hope you hold me accountable to that, because
12 that is exactly what the Chairman and I plan on
13 doing going forward.

14 The other thing I want to mention in
15 regard to the timeline is that Fair Districts
16 could have easily addressed this. In other
17 states, they have constitutional requirements
18 about when they can vote on their maps, just
19 like we do. If this was such a big problem,
20 and if everybody recognized that we should have
21 sped up the timeline, why didn't we include in
22 the Fair District amendments the timeline and
23 made it an off-cycle amendment? They could
24 have easily said, "Let's vote on maps in 2011.
25 That way, we will have a year and a half to

1 decide who we are going to vote on and get all
2 this stuff out of the way." Somebody who was
3 crafting those amendments specifically chose
4 not to do that, and I can't tell you what the
5 reasons are, but my point is it wasn't
6 important a year and a half or two years ago,
7 but now it seems to be the most important
8 thing.

9 We are dealing with the timeline that we
10 have. Our Constitution says what it says, and
11 we are going to follow it and do it as quickly
12 as we possibly can.

13 Another question was Ms. Hepburn asked are
14 we going to be done in time for qualifying. I
15 can assure you there are deadlines that we
16 have, like we have to pass maps before session
17 is out in the first week in March. That is a
18 deadline. We have no plan or hope to go that
19 late in the process. We want to pass the maps
20 as quickly as we can possibly can. But, also,
21 something we have no control over is what the
22 Supreme Court will do or what the Department of
23 Justice will do. And so I hope, as you are
24 telling us to speed up our timeline, that you
25 will spend as much time and effort in reminding

1 those branches of government to speed up their
2 timeline as well.

3 Lastly, Senator Gaetz -- in regard to the
4 timeline, Senator Gaetz this morning brought up
5 something that I thought was very interesting,
6 and I hadn't heard this yet and I still want to
7 think it over, but he said -- we had heard so
8 much about the timeline and the confusion about
9 the timeline, he said, "Why don't we have a
10 constitutional amendment so that ten years from
11 now we won't have the exact same problem? We
12 will just say you have to draw the maps in
13 2011, or what now would be 2021, and we won't
14 have this problem anymore." And I think that
15 is a very interesting suggestion and something
16 that this Committee should consider going
17 forward.

18 Another question we hear everywhere we go:
19 Where are the maps, big question mark. Where
20 are the maps? Why haven't you brought the maps
21 to us? This is a chicken versus the egg debate
22 that we hear in every town hall meeting that we
23 have, and I want -- I want to articulate it
24 this way first: In politics, probably the
25 biggest criticism I get when I go to have town

1 hall meetings in my district or when I speak to
2 groups is they ask us why we voted on certain
3 things or why we made decisions without
4 listening to the citizens first. Senate Bill
5 6, I cannot tell you how many people over
6 Senate Bill 6 said, "Why didn't you listen to
7 us first? Why didn't you ask the teachers
8 first? Why didn't you spend time with your
9 constituents first?" Ladies and gentlemen,
10 this is a big deal. We are changing the
11 political landscape in Florida for the next ten
12 years. Wouldn't it be prudent of us to come
13 and to listen to people first and to give us
14 some thoughts and some guidance before we draw
15 maps?

16 Next, the Chairwoman of Fair Districts --
17 of the Fair Districts campaign spoke before a
18 joint committee of House members, Senators,
19 Republicans, Democrats, and stood at a podium
20 and told us she would not even attempt to draw
21 maps unless she had heard from the public
22 first, and that is the lady who crafted and
23 pushed and campaigned for the Fair District
24 amendments, which everyone in here has said
25 they are in support of.

1 Lastly, everywhere we go, the League of
2 Women Voters has talked about how important it
3 is that we draw maps now and that we don't ask
4 for public input. And I think the League of
5 Women Voters has done some unbelievably
6 tremendous things for our country, fighting for
7 women's suffrage, making sure that we do have
8 fair districts in this process across the
9 country. However, there seems to be some
10 inconsistencies within the League of Women
11 Voters when it comes to map making, and I want
12 to give you one example.

13 In Georgia, as of the last week, there the
14 League of Women Voters not only prepared and
15 publicized its own redistricting maps, it
16 organized a map fair at the Georgia State
17 Capitol and encouraged members of the public to
18 present their own maps. "Our goal" -- and I
19 quote, "Our goal throughout this process is to
20 ensure that citizens have a voice," said the
21 President of the League of Women Voters of
22 Georgia, "and what better way to do this than
23 to bring people and maps down to the Capitol?"
24 If it works for the League of Women Voters in
25 Georgia, I am a little bit confused as to why

1 it doesn't work for the League of Women Voters
2 in Florida. That is a very important thing to
3 mention as well.

4 Litigation, we have heard about the
5 litigation, and people -- there's a lot of
6 confusion around litigation. I want to be very
7 clear about this. Litigation is going on. It
8 is only going on in regard to Amendment 6. So
9 the amendment that deals with the legislative
10 maps, House and Senate maps, there is no
11 litigation in regard to that amendment.
12 Amendment 6 that deals with congressional maps,
13 there is litigation going on with Amendment 6.
14 The litigation was originally filed by a
15 Republican Congressman from Miami and a
16 Democratic Congresswoman from Jacksonville.
17 They were the ones who originally filed the
18 amendments. And it is going to have an effect
19 at some point, but myself, the Chairman and
20 every member of the Legislature has sworn an
21 oath to protect and defend the Constitution of
22 the United States and the Constitution of
23 Florida, and that means, to me, that Amendments
24 5 and 6 are the law, and we will follow every
25 single word. You have our word on that.

1 The indication that there is a \$30 million
2 fund for litigation, that somehow the
3 Legislature or the Florida House has set aside
4 a \$30 million fund to fight Amendments 5 and 6
5 is simply not true. Senator Gaetz said that
6 sometimes things get in the bloodstream, and
7 there was an article and there was one
8 newspaper who seems to think that it was true.
9 It is their opinion, it is not fact. And if
10 you do not believe me, if you do not believe
11 me, you can go onto a website, and the website
12 is called transparencyflorida.org, and
13 Transparency Florida will show you every dollar
14 that is being spent by state government, and I
15 will implore anyone who can show me a
16 \$30 million pot of money that is set aside
17 specifically for redistricting and lawsuits.
18 It does not exist, ladies and gentlemen, that
19 is not true.

20 A VOICE: How much has been --

21 REPRESENTATIVE WEATHERFORD: I tell you
22 what, I don't have that number. There was an
23 article that was written, and I think the
24 number that they threw up that had been spent
25 on litigation was somewhere in a couple hundred

1 thousand dollars, but, sir, to be honest with
2 you, I will get that number to you, we will
3 make that available and we will put it on our
4 website, on floridaredistricting.org. We will
5 find a number that has been spent, we will do
6 our due diligence, we will put it up there so
7 you can see it. Okay. We will do that.

8 I am not going to get into get into --
9 hold on. Ladies and gentlemen, we have been
10 listening for three hours, I am going to wrap
11 this up, and I will be here afterwards if you
12 want to ask questions, please.

13 There was a question about have we put out
14 the schedule yet for the fall. The answer to
15 that question is, no, we have not put the
16 schedule out for the fall. But if you go to
17 our website, floridaredistricting.org, or the
18 Senate website, you can get that information,
19 it will be forthcoming in the coming weeks.

20 The other question they had was were there
21 members on the Committee, will they all be --
22 are the members here all on the Committee?
23 Most of them are, but we encourage all members,
24 whether they are on the Committee or not, to
25 participate in the process.

1 A couple of things, and I am going to end.
2 There's a lot of tension involved in this
3 process. Some people here said, "We made our
4 voices clear when we voted for Amendments 5 and
5 6, just do your job." That is a fair
6 assessment, and I respect that position, but
7 let me point out a couple of things. I heard
8 some people show up here today and say that
9 minority seats should be the number one
10 priority and making sure there's no
11 retrogression whatsoever, no matter what. I
12 heard some people show up today and say that
13 compactness should rule the day, and that
14 Sarasota and Manatee County should be together,
15 no matter what. I heard some people come up
16 and tell me that county boundaries were the
17 most important thing, and some counties aren't
18 as compact as others. I heard some come and
19 say that the communities of interest, whether
20 it was the western end of the county or the
21 eastern end or the agricultural community or
22 the industrial community, was the most
23 important thing. I had some folks talk about
24 political boundaries and roads and bridges. I
25 had -- I think you get my drift in that this is

1 not easy. And the reason is amendments 5 and 6
2 has a lot of standards, and a lot of them --
3 and they are good standards, and we should have
4 standards. But we should also hear from you
5 about what you think about the -- what you
6 think about them and the legal requirements
7 that come with them.

8 There was a comment about congressional
9 maps and whether or not they had to be exactly
10 the same. I think Senator Detert addressed
11 that, but just to be clear, 15 years ago we
12 drew them with only one person deviation. If
13 we do more than that, we do put ourselves in a
14 situation where the federal government could
15 reject our maps, and so we have to be extremely
16 careful. I don't want to say we can't have any
17 deviation, but we have to be extremely careful
18 about that.

19 There was a gentleman who asked us, do we
20 go to the courts again, and why do we go to the
21 courts again. I think it was a lady that asked
22 why are we going to the courts again. Ladies
23 and gentlemen, it is mandated by the
24 Constitution, it has to go to the courts, it
25 also has to go to the Department of Justice,

1 and they will both look at these maps once they
2 are passed.

3 The last thing I will leave everyone with
4 is this: We want to get this right. We are
5 all here, we are here to listen to you, we are
6 here to hear a great amount of public
7 testimony. The last thing I want to do is do
8 this wrong. My mother always told me that she
9 would tell me when something was fair, she
10 would let me know if something was fair, and my
11 guess is you will let us know if it's fair when
12 we put it out there. So do me a favor, hold us
13 accountable. Continue to follow what we are
14 doing. Go to our websites, learn more about
15 what we are doing. Your input tonight has been
16 tremendous, and I thank you for that and thank
17 you for your attention and for your civility.
18 And, Mr. Chairman, thank you for a great
19 hearing. Thank you all very much.

20 SENATOR GAETZ: And with that,
21 Representative Weatherford moves we rise.

22 (Whereupon, the proceedings were
23 concluded.)

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: Thank you all. You may be
3 seated. The Joint Senate/House Redistricting
4 Hearing is called to order. We are pleased to
5 be joined tonight by members of the House of
6 Representatives Redistricting Committee and the
7 Senate Reapportionment Committee.

8 We will ask them to identify themselves so
9 you will know with whom you are sharing your
10 ideas. We really thank the Lee County and Lee
11 County Parks and Recreation Department for
12 allowing us to use this wonderful facility.

13 We are very grateful to them and grateful
14 to you for being here, especially those who are
15 here to share their observations, share their
16 ideas and their comments, and especially those
17 who have come with specific assistance for us
18 and guidance for us on neighborhoods and
19 communities in this area and how and where they
20 ought to be districted.

21 My name is Don Gaetz. I serve in the
22 Florida Senate. My Senate district stretches
23 from Pensacola to east of Panama City. That is
24 way up in the Florida Panhandle in the Central
25 Time Zone, so I am an hour later -- you're an

1 hour later than I am, I am an hour earlier, so
2 I am not nearly as tired as you are.

3 My House colleague, Representative John
4 Legg, will be co-Chairing this evening's
5 hearing with me, which is being broadcast
6 tonight by The Florida Channel statewide over
7 the Internet.

8 So if you are going to speak tonight, be
9 sure to check your makeup, your hair,
10 straighten your tie, because you will be on
11 statewide TV.

12 Our sole purpose tonight is to hear from
13 the public about how you believe the legal
14 standards governing redistricting ought to be
15 applied in your community so that you are
16 represented in Washington and Tallahassee
17 fairly, equitably and sensibly. Let me
18 reemphasize that.

19 The question is not if our legal
20 standards, both state and federal, are going to
21 be applied. That is not debatable. What we
22 have come to ask for your guidance on is how
23 those standards, state and federal, ought to be
24 applied in your community, and we hope to get
25 some very substantive testimony this evening.

1 Before we go any further, I would like to
2 ask our House and Senate members if they would
3 identify themselves, indicate what House you
4 serve in and also what part of the state you
5 are from.

6 And maybe we can begin, if we can turn the
7 mike on and it doesn't feed back, with Senator
8 Benacquisto.

9 SENATOR BENACQUISTO: Thank you, Chairman
10 Gaetz. Good evening, everyone. Thank you so
11 much for coming. I am Lizbeth Benacquisto, and
12 I have the absolute incredible privilege to
13 represent Senate District 27, and I welcome all
14 of my colleagues in the House and Senate to my
15 district this evening, and I am glad to have
16 the opportunity to share some time with you
17 all, such a wonderful group of community
18 leaders who have come tonight to share your
19 opinions on how we should draw the maps and how
20 it relates to your particular community.

21 So thank you all for coming, and we look
22 forward to a great evening tonight.

23 SENATOR JOYNER: Good evening. My name is
24 Arthenia Joyner. I am State Senator from
25 District 18 encompassing portions of

1 Hillsborough, Pinellas and Manatee Counties,
2 Tampa, St. Petersburg and Bradenton, and
3 welcome and thank you for coming.

4 SENATOR NEGRON: Good evening. My name is
5 Joe Negron. I represent Senate District 28,
6 which is southeast Florida, northern Palm Beach
7 County and parts of Okeechobee County. And if
8 we have a little time after 9:00, we can have a
9 little pickup basketball game if anybody is
10 interested.

11 REPRESENTATIVE WILLIAMS: Good evening. I
12 am Trudi Williams. I represent District 75,
13 which is Lee and parts of Collier County, and
14 thanks for everyone being here, it is much
15 appreciated.

16 REPRESENTATIVE CHESTNUT: Good evening.
17 My name is Chuck Chestnut, House District 23.
18 That is a portion of Alachua County and Marion
19 County.

20 REPRESENTATIVE BERNARD: Good evening. My
21 name is State Representative Mack Bernard, and
22 since we are moving closer to my district, I
23 represent the cities of Belle Glade, Pahokee
24 and South Bay.

25 REPRESENTATIVE JONES: Good evening. I am

1 State Representative Mia Jones, representing
2 District 14 in Jacksonville, Florida.

3 REPRESENTATIVE BAXLEY: Good evening. I
4 am Dennis Baxley, serving in the Florida House,
5 District 24, from Ocala and Marion County,
6 Florida.

7 REPRESENTATIVE CAMPBELL: Good evening.
8 My name is Daphne Campbell, State House
9 District 108 from Miami-Dade County.

10 REPRESENTATIVE CLARKE-REED: Good evening.
11 I am State Representative Gwyndolen
12 Clarke-Reed, serving Broward County, House
13 District 92, serving seven cities: Deerfield
14 Beach, Pompano Beach, Oakland Park, Wilton
15 Manors, a little bit of north Ft. Lauderdale, a
16 little bit of North Lauderdale and Tamarac.
17 Glad to be here and good to see you.

18 REPRESENTATIVE ROGERS: Good evening,
19 Hazelle Rogers representing District 94, eight
20 cities in Broward County, one of the most
21 diverse counties in the state of Florida,
22 boasting 1.8 million in population. My cities
23 for District 94: Lauderdale Lakes, Lauderhill,
24 Margate, Tamarac, Sunrise, Oakland Park and
25 Plantation. Thank you very much, listening --

1 here to listen to you. This is my 24th
2 meeting, Mr. Chairman.

3 SENATOR ALTMAN: Senator Thad Altman,
4 District 24, which encompasses Brevard,
5 Seminole and Orange County, better known as the
6 Space Coast, runs from the Space Center to Palm
7 Bay over to Orlando.

8 REPRESENTATIVE BURGIN: Good evening,
9 State Representative Rachel Burgin from
10 District 56, which is Tampa, Riverview,
11 Brandon, Gibsonton, eastern Hillsborough County
12 area. It is wonderful to be here with you this
13 evening.

14 SENATOR STORMS: Good evening. I am
15 Senator Storms and I represent District 10,
16 which is Hillsborough County. If you think of
17 I-75, I am a little bit to the east of Tampa,
18 the Tampa community. I include a little bit of
19 Pasco County, which is Zephyrhills, and a
20 little bit of Polk County, a little part of
21 where Publix' headquarters is off of Wabash in
22 Lakeland, and I am so glad to be here. You all
23 have a high bar to set.

24 We left Naples, and those folks there,
25 even when they disagreed with us, were so kind

1 when they -- we felt loved on after they took
2 us to the woodshed. So I am really looking
3 forward to hearing from you all and seeing if
4 you can outdo in civility what Naples did for
5 us. Thank you very much for being here.

6 REPRESENTATIVE JULIEN: Good evening. I
7 am John Patrick Julien, representing House
8 District 104, which is in Miami-Dade County.
9 House District 104 encompasses the cities of
10 North Miami Beach, North Miami, Miami Gardens,
11 Opa-Locka, Miami and a large chunk of
12 unincorporated Miami-Dade. It is a pleasure to
13 be here.

14 REPRESENTATIVE ROBERSON: Good evening. I
15 am State Representative Ken Roberson. I
16 represent parts of Charlotte, Sarasota and Lee
17 County. District 71 runs from the City of
18 North Port in southern Sarasota County down to
19 North Ft. Myers. Thank you for coming.

20 SENATOR RICHTER: Greetings, my name is
21 Garrett Richter. I represent portions of
22 Collier and Lee County, and I want to extend my
23 appreciation to each and every one of you for
24 giving up your evening gear to come and be a
25 part of this public process. Thank you all

1 very much for being here tonight.

2 REPRESENTATIVE PASSIDOMO: I am Kathleen
3 Passidomo, and I represent House District 76,
4 which is Collier County, City of Naples, City
5 of Marco Island, City of Everglades City, and I
6 am thrilled to be here. Thank you.

7 REPRESENTATIVE CALDWELL: Good evening,
8 representative Matt Caldwell in the Florida
9 House, and happy that we are able to have this
10 meeting here tonight in my hometown here in the
11 district. Thank you very much. And I am
12 confident that this community will prove
13 Senator Storms correct and that we can
14 out-civil the community of Naples here this
15 evening. Thank you all very much for being
16 here.

17 REPRESENTATIVE LEGG: Tough act to follow.
18 I am Representative John Legg, I represent west
19 Pasco County.

20 SENATOR GAETZ: And joining us tonight,
21 and none of what we discuss tonight is his
22 fault, unless we get into deep water and then
23 we do plan to blame him, is someone I think
24 many of you know very well, the former
25 Lieutenant Governor of the State of Florida,

1 the Honorable Jeff Kottkamp. Governor, it is
2 great to see you.

3 Folks, our procedures tonight -- I'm
4 sorry, a late addition.

5 REPRESENTATIVE AUBUCHON: Thank you. My
6 name is Gary Aubuchon, and I represent the
7 western side of Lee County and parts of
8 Charlotte County, and from 1985 to 1989 was a
9 resident of Lehigh Acres.

10 SENATOR GAETZ: Getting the hometown
11 advantage.

12 Ladies and gentlemen, our procedures
13 tonight are simple, but they are important. It
14 is important that you sign in so that we can
15 create an accurate public record of all
16 attendees and all speakers. And, also, if you
17 sign in, you will be on our e-mail list so that
18 we can keep you informed about the progress of
19 redistricting as it goes forward.

20 If you have not signed in and you want to
21 designate that you were here tonight, and we
22 hope you will, please raise your hand, and
23 somebody will get to you with one of these
24 cards.

25 It is the same card to sign in just to be

1 here and watch your friends and neighbors as it
2 is if you wish to speak. So if you wish to
3 speak, and even if you told us by e-mail last
4 week or two weeks or three weeks ago that you
5 intended to be here, if you want to speak
6 tonight and you haven't filled out one of these
7 cards, it would be very helpful if you would
8 raise your hand, and one of our professional
9 staff will get to you, because we don't want to
10 miss a word of your testimony or a single
11 person who wants to testify tonight.

12 Before we begin, the Chair will recognize
13 Representative Legg on behalf of the House
14 Redistricting Committee to explain how today's
15 hearing fits into the redistricting process and
16 the schedule. Representative.

17 REPRESENTATIVE LEGG: Thank you,
18 Mr. Chairman. Every ten years, the Legislature
19 is required by our Constitution to redistrict
20 the states based on increases, decreases and
21 movements in population. Because Florida has
22 grown more than other states in the last ten
23 years, we will move up from 25 to 27 members of
24 the U.S. House of Representatives. Because
25 some parts of our states have increased or

1 decreased disproportionately in population,
2 many Senate and House districts will change,
3 either by adding or losing population.

4 When redistrict is completed,
5 congressional districts must equal in
6 population containing 696,345 people. The 40
7 Senate districts must also be nearly equal at
8 about 470,000 people, and our 120 House
9 districts must also be nearly equal at about
10 156,700 people. We have displays at the front
11 of the room showing the current boundaries of
12 the districts in the area of the state and the
13 numbers of persons which must be added or
14 subtracted from the current districts to
15 achieve that equal population.

16 Equality of representation isn't the only
17 legal requirement redistricting plans must
18 meet. The law and important court cases
19 governing redistricting are explained in detail
20 on the House and Senate websites. Those
21 websites are listed on the "Redistricting 2012"
22 brochure that was available when you came in.

23 Our "Redistricting 2012" brochure
24 summarizes federal and state laws, and outlines
25 topics we hope you will discuss here at today's

1 meeting. If you did not get a copy when you
2 came in, they are available on the table
3 outside the meeting. Our staff will be happy
4 to get you a copy of the brochure if you need
5 it.

6 The brochure also lists House and Senate
7 websites. The websites are packed with
8 information about redistricting Florida,
9 including an explanation of the laws and
10 important court cases governing redistricting.
11 The two websites are complementary and are
12 updated frequently. Visit both and check back
13 often.

14 It is a great way to stay current about
15 how your new congressional, new State Senate
16 and State House districts are taking shape.

17 The websites also deliver to your
18 fingertips all the demographic information that
19 will be used in drawing districts, and the
20 exact same computer programs that legislators
21 and their professional staff will use.

22 Any member of the public can participate
23 in building plans or seeing maps submitted by
24 legislators or other citizens. Before, during
25 and after this hearing, Senate and House

1 professional staff are available to show anyone
2 the simple steps to getting an outline,
3 building districts and submitting a plan now or
4 in the weeks to come.

5 Recommendations from citizens and groups
6 of citizens will be made public -- will be made
7 publicly available. In fact, as of this
8 afternoon, 50 public submissions of partial or
9 completed maps and many other written ideas for
10 maps are available on the Web.

11 And during the time that we drove from our
12 meeting in Naples this morning to this evening
13 here, we received three more public
14 submissions. After this week, I am sure those
15 numbers will increase dramatically.

16 The submission of the proposed maps that
17 makes sense for your community is the single
18 most effective form of public participation in
19 this redistricting process.

20 The redistricting schedule under which we
21 are operating is imposed by the State
22 Constitution. The Constitution does not permit
23 the Legislature to act on state legislative
24 maps before the second year after the census;
25 in other words, before 2012. We accelerated

1 this process as much as possible by moving up
2 the 2012 legislative session from March to
3 January, and by beginning our statewide
4 hearings five months in advance of the 2012
5 session.

6 It has been suggested that the Legislature
7 should draw the maps first and then ask for
8 public to comment. We believe that is putting
9 the answer ahead of the question.

10 There should be no preconceptions created
11 by politicians, but, rather, public testimony
12 should be free and unrestricted.

13 In fact, the principal author of the
14 Florida's new redistricting standards and the
15 Chairperson for the Fair District campaigns are
16 on record and in agreement with the notion that
17 no new maps should be -- be not drawn until
18 after the public has an opportunity to comment.

19 Our intention is to use the recommendation
20 made at the 26 public hearings and through our
21 Internet sites as the basis for developing one
22 or more options for district maps.

23 We will discuss those options in an open
24 public meeting before any votes are taken, even
25 in committee.

1 In other words, what we are literally
2 saying is if you look at those maps outside
3 this room, the ones actually submitted by the
4 Legislature -- to the Legislature by Florida
5 residents, we are literally starting the
6 legislative process with those maps and other
7 suggestions from the public.

8 So if you want to know where we will begin
9 our deliberation, it is with those public
10 submissions, testimonies from these meetings
11 and other public input.

12 Throughout the process, we will solicit
13 additional public comment so that proposed maps
14 can mature with the public involved, all before
15 the Legislature approves the final map.
16 Whatever the Legislature passes then is
17 submitted for judicial review to ensure that
18 the final plans meet every single legal
19 requirement.

20 Because our purpose today is to hear from
21 you, all the time between now and 9:00 p.m.
22 will be used to ensure that every member of the
23 public who is here and wishes to speak will
24 have the time to present testimony and be
25 listened to respectfully without interruption

1 or argument.

2 If after every citizen has had his or her
3 say there is time remaining before our
4 scheduled adjournment, any member of the
5 Committee may make any statement or offer any
6 observation. Of course, any member of the
7 Legislature may today or at any time propose a
8 map or a plan, and we will make it available to
9 the public.

10 Mr. Chairman, I hope this description of
11 our schedule and process helps set the stage
12 for a successful and productive meeting
13 tonight.

14 SENATOR GAETZ: Thank you, Representative,
15 and you will notice that many of us will be
16 making notes during the hearing tonight. There
17 will be also a video record made of the hearing
18 so that everything that everyone says will be
19 on the record. We can refer back to it as we
20 are deliberating in Tallahassee, but, also, at
21 the end of the hearing, we are going to ask
22 members of the Committee to answer any
23 questions, offer any observations, make any
24 suggestions that they might want to make or if
25 the spirit moves them to make a statement of

1 some sort. We have done that at every single
2 hearing.

3 And then if there are questions of fact
4 that come up, and that has happened at every
5 hearing, we will try, time permitting, to
6 answer any questions of fact, because once in a
7 while, things get in the bloodstream that
8 aren't quite factual, and this is an
9 opportunity -- everybody is entitled to their
10 own opinion, but this is an opportunity for all
11 of us to leave here at least with the same set
12 of facts.

13 Now, we -- the good news is we have a
14 large number of people who would like to
15 testify tonight, and we want to hear every one
16 of them. That means that in fairness and
17 respect to your friends and neighbors who have
18 come to testify, we are going to ask everyone
19 to limit their verbal comments to about three
20 minutes.

21 Now, if you've got a longer script, we
22 would love to have it all. If you have
23 additional comments that you would like to make
24 and time doesn't permit it, then just provide
25 those comments to one of the members of our

1 professional staff.

2 All of what you would submit tonight in
3 writing or verbally will be in the record and
4 distributed to all the members of the House and
5 Senate committees, whether they are here or
6 not, and made available as a part of the public
7 record for all members of the Florida public,
8 all citizens.

9 What I would like to do is call three
10 names at once, and we have -- over here on my
11 left in the front row, we've got an on deck
12 circle.

13 So if I call you, please come forward and
14 get in the on deck circle. That way, you can
15 move right up and speak and we won't waste time
16 waiting for folks to wind their way through the
17 audience. Instead we will be able to get to
18 everybody, hopefully, who would like to chat
19 this evening.

20 We are starting with Curtis Hamilton,
21 representing the AARP, and Mr. Hamilton,
22 following your testimony, we would like to hear
23 from Lorenzo Tindal, and then if Kevin Shea
24 will come. Lorenzo and Kevin Shea, if you will
25 take your place in the on deck circle.

1 Mr. Hamilton, thanks for starting us off
2 tonight, and the floor is yours.

3 MR. HAMILTON: Thank you. Good evening,
4 Chairman, committee members, and visiting
5 legislators. My name is Curtis Hamilton. I
6 live in Cape Coral. I am pleased to speak as
7 an AARP volunteer and as President of the Cape
8 Coral AARP chapter.

9 AARP is a strictly nonpartisan
10 organization that seeks to improve the quality
11 of life for all of us as we age. It has over
12 39 million members nationally and almost three
13 million here in Florida.

14 Transparency and timeliness are key
15 elements of the redistricting process and must
16 be followed. The voters of Florida we feel
17 have spoken clearly about redistricting by
18 decisively passing Amendments 5 and 6 and I
19 want to compliment you for your 26 statewide
20 hearings, which have gone forward with full
21 disclosure and public input.

22 The public needs not only the opportunity
23 to comment, but to have those comments
24 meaningfully considered and not cast aside as
25 part of a political game. We expect our

1 Legislature to act with integrity and honor for
2 the citizens of Florida, and not to end up with
3 a gerrymandered mess that is left to the courts
4 to decide.

5 The timeliness of the process is crucial.
6 The procedural steps, both legislative and
7 non-legislative, must be achieved in order for
8 there to be timely qualification of the 2012
9 election candidates with new districts and for
10 campaigns prior to voters casting their
11 ballots.

12 So you need, obviously, to complete this
13 project sooner rather than later. We ask you
14 to post your proposed maps, of course, as soon
15 as possible, which you have indicated you are
16 willing certainly to do.

17 In conclusion, I want to say thank you for
18 your really excellent website. I hope that you
19 keep your focus on my favorite comment about
20 government, "Of the people, by the people and
21 for the people," which makes Fair Districts not
22 just a choice, but a necessity. Make Florida
23 proud of you. Thank you.

24 SENATOR GAETZ: Thank you very, very much.
25 Excellent testimony.

1 And now, following Mr. Tindal and
2 Mr. Shea, if Jim Roach would come forward and
3 take his place in the on deck circle.

4 Mr. Tindal, thank you very much for coming
5 here tonight. You could be other places, sir,
6 and we appreciate your giving us some time.

7 MR. TINDAL: Thank you, Chairman Gaetz,
8 and thank you all the Representatives from the
9 State of Florida for attending our fair city of
10 Lehigh Acres in southwest Florida.

11 I am sure there are many concerns here
12 tonight about the redistricting, and many
13 people, you know, who are not going to be able
14 to speak, you know, have concerns. My main
15 concern is that there may be a dilution of the
16 minority vote due to the -- due to the
17 redistricting.

18 And I have a question, you know, for the
19 Chair and Senator Benacquisto and
20 Representative Caldwell, who represent our
21 area: Is there a map currently drawn of the
22 proposed redistricting?

23 And in just closing, I would like for the
24 entire body here to keep with the spirit of the
25 state and federal standards, and I am asking

1 all of you to truly consider the framework of
2 Section 2 and 5 of the Voting Rights Act when
3 you are reviewing the redistricting public
4 input. Thanks.

5 SENATOR GAETZ: Thank you very much, sir.
6 Appreciate your testimony.

7 Now we will hear from Kevin Shea, and when
8 Mr. Shea is finished, Jim Roach and then Ben
9 Nelson from the City of Bonita Springs.

10 Mr. Shea, thank you for coming tonight.
11 We are grateful for your testimony.

12 MR. SHEA: Mr. Chairman, Vice-Chair,
13 members, ladies and gentlemen, I am Kevin Shea
14 from Lehigh Acres. I have been very interested
15 in the issue of redistricting for 50 years. I
16 started studying intensely this issue in 1960
17 when I was in high school and subsequent
18 college and university. I have also done two
19 stints with the Department of Commerce, Bureau
20 of Census.

21 I was in the 2000 census, the area group
22 leader for Lehigh and the greater area of this
23 county. I have -- I am a retired federal
24 administrative hearing officer, and I have
25 studied this issue from history, political

1 science and law.

2 When this thing was adopted, as an
3 analyst, it appeared to me that things had
4 gotten a little too clever by two. However,
5 the proponents of this did not realize the
6 legal significance of the U.S. Supreme Court
7 case of Bartlett v. Strickland, which declared
8 that Section 2 of the CRA was not applicable in
9 certain ways.

10 What we need here is to think in terms of
11 Florida as a unified state of people working
12 together to solve our problems, not split into
13 a variety of competing ethnic clashes and so
14 forth. Miami-Dade has like 19 subgroups of
15 Hispanics.

16 We do not need ethnic warfare in this
17 state, ethnic gerrymandering, which is just as
18 bad as incumbent self-protection racket, which
19 has been the standard for redistricting for
20 multiple census.

21 The structure should follow natural
22 geographic and county lines per Section 21 of
23 Article III. However, I have listened to
24 numerous testimony in these meetings, and there
25 seems to be a repetition about community

1 interest.

2 However, community interest is not the
3 defined constitutional standard, although I
4 realize there was an attempt to propose such a
5 supplemental amendment during this last
6 election.

7 What is the natural process here locally
8 is to end the gerrymandered districts that we
9 already have, such as Senate District 27.
10 Also, on the east coast where Boynton Beach is,
11 it has an infamous reputation as one of the 20
12 most gerrymandered districts in the United
13 States.

14 SENATOR GAETZ: Mr. Shea, I need to ask
15 you if you could put a bow on it just because
16 we have so many people behind you.

17 MR. SHEA: Thank you very much.

18 SENATOR GAETZ: Thank you, sir.

19 MR. SHEA: The natural demarcation line is
20 the western boundaries of Palm Beach, Broward
21 and so forth, and to go north from that, the
22 natural three structures.

23 I will volunteer my analytics. If you
24 wish to, you can ask me for some analysis and
25 write-ups, and I would be most happy to do that

1 work.

2 SENATOR GAETZ: Thank you very much, sir.

3 We appreciate your testimony and your offer.

4 MR. SHEA: Thank you very much, sir.

5 SENATOR GAETZ: Our next speaker is Jim
6 Roach, and following Jim is Ben Nelson and then
7 Brian Farrar with the Bonita Springs Chamber.

8 Mr. Roach, appreciate your taking time to
9 come tonight, and the floor is yours.

10 MR. ROACH: Good evening, Senator and
11 Representatives. Thank you for coming to
12 Lehigh for taking our input. My name is Jim
13 Roach. I live in Cape Coral, but I come out to
14 Lehigh quite often, and I think Lehigh is a
15 good place to have this hearing. If you go
16 back ten years and look at the lines and you
17 look at the community of Lehigh, we have a
18 Senate district -- State Senate district that
19 divides Lehigh in half, north and south, and we
20 have a House district, two districts, that
21 divide it east and west.

22 So Lehigh being a community, as you draw
23 the maps this next time, would be nice to leave
24 us as a community here. I think that is
25 important.

1 I would also like to talk a little bit
2 about what we have heard a lot in the media
3 about providing us maps to talk about first,
4 and I think we have heard often enough, "Show
5 us the maps," and walking in today, I did see
6 the maps you have printed out from other
7 submissions, and that is a very good start.
8 But for the average voter, the average one of
9 us to look at that software and draw complete
10 state maps is a little difficult. We don't
11 have the resources you do. I am glad to see 50
12 people did submit maps. I think that is
13 important.

14 My question for our local Representatives,
15 Caldwell and Aubuchon, and Senator Benacquisto,
16 now that we have maps, and you had mentioned in
17 the opening that you were going to use those to
18 start from, do you plan on having public
19 meetings this fall so that we can come and talk
20 to you about the maps that have been submitted?
21 I think that would be an excellent way for us
22 to give you input based on something we can see
23 instead of something we might not see.

24 Let's see, a couple of other things just
25 on the general topic of what I think about when

1 I looked at those maps. I have to go back. My
2 father was in World War II, received a Purple
3 Heart, I was in Vietnam, received a Bronze
4 Star, fighting for our right to vote and
5 fighting, not only for that, but for our right
6 -- for our votes to count.

7 So if I can leave you with one thing as --
8 and most of you know I am a candidate for
9 Congress in an unnamed district in 2012, but
10 what I would like you to think about is what I
11 think about every day, and that is that my
12 country is more important than my party, and
13 the people of southwest Florida are more
14 important than my party, and the truth is more
15 important than my party. Please think about
16 that when you draw the lines. Thank you very
17 much.

18 SENATOR GAETZ: Thank you very much, sir,
19 and thank you for your service to our country.

20 And now we would -- we will recognize Ben
21 Nelson from the City of Bonita Springs, then
22 Brian Farrar from the Chamber, and then Donald
23 Eslick, if you would come forward and join the
24 on deck circle.

25 Mr. Nelson, thank you for coming, and you

1 are recognized, sir.

2 MAYOR NELSON: Thank you very much. It
3 is good to be recognized somewhere.

4 I want to thank all of you, first of all,
5 for putting on this forum, for being here
6 tonight, and we really appreciate that.

7 It is really easy for us to kind of
8 critique the shape of the existing districts as
9 they are, it is real easy, as a matter of fact,
10 but one thing that I cannot do is discredit
11 your service. You have all served us very
12 well. For the City of Bonita Springs, on
13 behalf of our City Council and the 45,000
14 citizens, thank you so much for being
15 assessable for us, thank you so much for being
16 there for us and for representing us and -- the
17 best you can. You have always been there for
18 us.

19 We've provided your staff with a map. We
20 -- having invited us to tell you what to do, we
21 decided to tell you what to do. Isn't that
22 nice?

23 SENATOR GAETZ: Good man.

24 MAYOR NELSON: No problem. It is our
25 pleasure. And in a -- as a matter of fact, we

1 have our good neighbors here from Estero, we
2 agree on this subject. And is their
3 representative from Ft. Myers Beach here?
4 Seeing none, they agree with us, too. My City
5 Manager is going to have me for this, but --

6 SENATOR GAETZ: Are you sure you are not a
7 candidate for Congress?

8 MAYOR NELSON: Not at all, sir, not at
9 all.

10 But, anyway, I think that you will find
11 that our suggestion here, I won't go through
12 what it is there, but I think that you will
13 find them to be geographically compact, I think
14 you will find them to be concise, I think the
15 numbers add up, and I think that our
16 communities, more so over than that, we have so
17 much in common.

18 Our good friends here in Estero, ourselves
19 and Ft. Myers Beach, we share the Estero Bay
20 Aquatic Preserve, we share our watershed, we
21 share the DRGR. There are so many things we
22 have in common. We think that we are just --
23 all of these communities that you represent are
24 wonderful communities, but I think that this
25 speaks exactly to what this legislation ought

1 to reflect, and that is common need, common
2 good, common borders and good geographical
3 sense.

4 And I would thank you for your
5 consideration, and if you have any questions
6 during this process, especially -- especially
7 when you start to try to paste all of these
8 comments together, I have all the greatest
9 respect for that process, I have no idea how
10 you are going to do that, but we are there for
11 you. If you need some additional comments from
12 the communities and from municipalities, it is
13 our pleasure to comment. So thank you very
14 much, and, please, we are there for you. Thank
15 you.

16 SENATOR GAETZ: Thank you very much, and
17 thanks so much for the submission. That will
18 be included in the considerations that the
19 Committee takes under advisement. We are very
20 grateful. This is the kind of information we
21 could not get otherwise.

22 Brian Farrar from the Bonita Springs
23 Chamber, then Donald Eslick, and then Marilyn
24 Edwards, if you would come forward.

25 And, Mr. Farrar, thanks for being here

1 tonight. The floor is yours, sir.

2 MR. FARRAR: Thank you very much. Thank
3 you, Mr. Chairman and all the committee members
4 that are here this evening. My name is Brian
5 Farrar. I am here on behalf of the Bonita
6 Springs Area Chamber of Commerce.

7 We are essentially a business
8 representative community that covers southern
9 Lee and part of northern Collier County, and we
10 see Mr. Richter here, thank you very much. But
11 we want to be here tonight to speak on behalf
12 of the City's recommendation. We support the
13 Mayor and the maps that the City of Bonita
14 Springs has provided to you all.

15 As a member of the Corkscrew Regional
16 Ecosystem Watershed Land and Water Trust Board,
17 I am a member of that as well, having that all
18 within one district as well means something to
19 me and the southern drainage of this whole
20 southern Lee area.

21 Beyond that, I will be brief and allow
22 everyone else to speak. Thank you very much.
23 Have a good evening.

24 SENATOR GAETZ: Thank you very much, sir,
25 excellent testimony, and we look forward to

1 considering the information that you have
2 provided to us.

3 And Donald Eslick with the -- I think it's
4 -- is it Estero, sir?

5 MR. ESLICK: Yes.

6 SENATOR GAETZ: Estero Council of
7 Community Leaders. And we very much appreciate
8 your taking time to be with us.

9 MR. ESLICK: Do you want to announce the
10 other backup here?

11 SENATOR GAETZ: Sure. Marilyn Edwards.
12 That is -- you're moving around. And then
13 Philip Douglas with Brooks Concerned Citizens.
14 Mr. Eslick, thank you very much.

15 MR. ESLICK: Thank you, Mr. Chairman. I
16 am Dan Eslick. I Chair the Estero Council of
17 Community Leaders. Estero is a community,
18 unincorporated Lee County, and the Council of
19 Community Leaders is a network of all the
20 communities within that community. We have
21 about 25,000 registered voters, about 40,000
22 people. We tripled in size in the last decade,
23 so we've understood a little bit about growth.

24 Three or four major points I would like to
25 make. One is that the people of southwest

1 Florida deserve to have their own voice
2 represented by people from southwest Florida.
3 We don't need anymore cross-state districts.
4 We've had four of them this last decade. That
5 -- it is unfair. It is unfair to the
6 Representatives and the Senators, and it is
7 unfair to the citizens on the east coast, as
8 well as it is to those on the west coast. That
9 is especially down here in the southern part of
10 the state where you have the Everglades in the
11 middle. It just doesn't make a whole lot of
12 sense. So that is a key point that I would
13 like to make, and I hope you will carry that
14 back.

15 Secondly, Estero, like Bonita, is in the
16 southern end of Lee County. We are an
17 unincorporated community in Lee County, so our
18 government is Lee County government, so we want
19 to be in a Lee County district. We work
20 closely with our neighbors in Bonita Springs.
21 I like to identify with the maps that the Mayor
22 has just presented, both of which are all Lee
23 County, House and Senate districts, very, very
24 important.

25 The community of interest aspect of Estero

1 is very important. We have a community plan
2 for the entire community adopted by the county
3 board. Everything that we have done in
4 managing our growth over this last decade was
5 guided by that, so everybody in the community
6 really identifies with what we have been doing.
7 So it is very important for the whole thing to
8 be together.

9 The real key to the problem in -- as it
10 relates to the State Senate district if you
11 have west coast and east coast districts is how
12 you deal with the district to our south. I
13 would recommend that the Collier County Senate
14 district go up and include Hendry, Glades and
15 Highlands Counties. That would make -- it is
16 almost a perfect fit for that Senate district,
17 and that allows Lee County then to have four
18 House districts and an entirely -- an entire
19 Senate district with about 150,000 people left
20 over to move into another one.

21 So very much appreciate the opportunity to
22 talk to you tonight. Good luck in your
23 deliberations. We look forward to working with
24 you.

25 SENATOR GAETZ: Thank you very, very much.

1 And, Ms. Edwards, you are up next, Philip
2 Douglas and then Douglas Patterson.

3 Ms. Edwards, thank you for coming tonight,
4 and we are looking forward to your testimony.

5 MS. EDWARDS: Thank you very much, Mr.
6 Chairman. I am Marilyn Edwards. I am the
7 coordinator for the Brooks Concerned Citizens,
8 representing Spring Run and The Brooks.

9 I am here to ask you, and join the chorus,
10 that you eliminate cross-state legislative
11 districts; in particular, our district, State
12 Senate District 27. By doing this, you would
13 be meeting your redistricting objectives of
14 contiguity and preservation of communities of
15 interest.

16 The residents of southeast coast of
17 Florida face issues far different from the
18 issues facing those of us on the southwest
19 coast. Both of us need and deserve our own
20 Senate -- single Senator who can address our
21 unique concerns. Our community supports the
22 maps presented by Bonita Springs Mayor Ben
23 Nel- -- did I say the wrong thing?

24 SENATOR GAETZ: No, ma'am. You are live,
25 you are good, you are doing well.

1 MS. EDWARDS: We ask that Estero and
2 Bonita Springs be included in all Lee County
3 legislative districts, the House, the Senate,
4 as well as the -- along congressional lines, as
5 we all work closely together and share common
6 goals. Thank you for listening.

7 SENATOR GAETZ: Thank you so much, ma'am.

8 After Douglas Patterson, our next
9 presenter would be Kimmie Correll.

10 And so Mr. Douglas, Philip Douglas, we
11 thank you for being here tonight, sir, and
12 honored to hear your testimony.

13 MR. DOUGLAS: Thank you very much,
14 Senator. It is a pleasure to be here. And I
15 wanted to reaffirm what Mayor Nelson said and
16 the two speakers following him. We do not want
17 cross-state districts. That is emphatic. I
18 cannot be more emphatic that that is something
19 that is not wanted in south Lee County and in
20 Lee County. We want to be represented by a
21 single Senator and a single Representative.

22 I also would like to say that recently
23 passed Constitutional Amendments 5 and 6, which
24 were not embraced by lot of members of the
25 Legislature, need to be followed, and if they

1 are followed, the community of interest for
2 south Lee County will be included properly.

3 Now, nobody is questioning the process,
4 but if we see gerrymandered cross-state
5 districts when the Legislature convenes and
6 puts these out for final disposition, we will
7 know two things:

8 One, you have failed to listen to the
9 residents here tonight; and number two, I hate
10 to unfortunately say this could be termed a
11 charade. I am not saying that, but the proof
12 is in the pudding. Hopefully you will hear us.

13 Thank you very much for your hard work,
14 and appreciate your time.

15 SENATOR GAETZ: Thank you very much.

16 And for another dose of pudding, Douglas
17 Patterson, and following Mr. Patterson is
18 Kimmie Correll and then Gary Verwilt with the
19 Realtor Association of Greater Ft. Myers.

20 Mr. Patterson, thank you for being here,
21 sir.

22 MR. PATTERSON: Thank you, Chairman and
23 Representatives.

24 SENATOR GAETZ: And may we ask you to hold
25 the mike a little closer to you so we can get

1 every word.

2 MR. PATTERSON: Sure. Thank you.

3 SENATOR GAETZ: Thank you.

4 MR. PATTERSON: Thank you, Chairman and
5 Representatives. First of all, I would like to
6 make a statement and say that it is Lehigh
7 Acres, not Lehigh. And I want to thank you for
8 considering the valuable input of our citizens
9 in the redistricting plan and the procedure
10 that is following.

11 My comments basically are set up for House
12 District 27. I feel with 159.6 percent
13 population increase in our area, that we need
14 to increase House District 27 to reflect that
15 so that we will have a fair representation in
16 our area. That's basically all I have to say.

17 SENATOR GAETZ: Thank you very much, sir.

18 Ms. Correll, did I get that correct?

19 MS. CORRELL: You did, thank you.

20 SENATOR GAETZ: Thank you so much, and
21 after Ms. Correll, we have Gary Verwilt and
22 then -- this one is a little bit more
23 challenging for me, Ita Neymotin or Neymotin --
24 Neymotin, I'm sorry. Thank you very much.

25 Ms. Correll, you are recognized.

1 MS. CORRELL: Good evening to you all. I
2 am appreciative of being here and having the
3 opportunity to speak. This is the first time I
4 have ever done something of this nature. My
5 background is interior decorating, so this is
6 nothing like that.

7 I am a native of Florida, born in Miami,
8 Florida, raised there for the first two decades
9 and went off to college in Alachua County, and
10 then moved over here to Lee County. I spent
11 the years raising my children in Lee County,
12 down in Marco Island and Collier County, and
13 now am retired in Charlotte County. Now that
14 the -- I -- as a retired citizen of the state
15 of Florida, I understand now how important it
16 is that we pay attention to what is going on
17 within the politics, and so I am thankful to
18 have the opportunity to be a part of this.

19 It is important to me that District 16
20 that stretches from the east coast to the west
21 coast be modified so that it is more beneficial
22 to the people living in the areas. I feel that
23 Charlotte County has grown enough that it can
24 support a district of its own, and I understand
25 that the center of the state, though the

1 residents are very diversified and spread out,
2 need to be either grouped with the east coast
3 or the west coast.

4 I think for some reason it seems as though
5 from Interstate 95 east you seem to have a lot
6 of congestion, and, therefore, the population
7 supports one district, whereas we on the west
8 coast here are still in the growth of the area
9 and possibly could blend in with the center of
10 the state better. I believe that the
11 agriculture areas in the middle of the state
12 usually seem to work more with the west coast
13 than they do with the east coast.

14 So if those comments can be of any help, I
15 am thankful to be here and I will be watching
16 and I will get on the maps and do what I can.

17 SENATOR GAETZ: Good. Thank you so much.

18 MS. CORRELL: Thank you all.

19 SENATOR GAETZ: Thank you, ma'am.

20 Following Mr. Verwilt is -- try me again
21 on this -- Neymotin, Ita Neymotin, and then
22 Pete Quasius, or Quasus.

23 Mr. Verwilt, you are recognized, and
24 thanks for coming here on behalf of the
25 realtors.

1 MR. VERWILT: Senator -- let me try that
2 again a little bit further back. Thank you.
3 Senator, thank you very much for having us, and
4 I would like to welcome you all and thank you
5 for all of your interest, energy and
6 enthusiasm. It certainly is well noted, and we
7 appreciate you being here this evening to
8 listen to us.

9 For those of you who do not know me,
10 again, my name is Gary Verwilt. I am President
11 of the Realtor Association of Greater Ft. Myers
12 and the Beach. Our association is currently
13 over 4,500 strong, and we are greatly
14 interested and involved in the political
15 processes that take place here locally and at
16 the state and on the national levels.

17 We are looking forward to this
18 redistricting process and know how difficult it
19 is. Right now, Lee County has three state
20 Senate districts: 21, 27, 37. We also have
21 five State House districts, these being 71, 72,
22 73, 74 and 75. As such, our association
23 believes that it would be a real disservice to
24 our members to dilute this type of excellent
25 representation. Others have alluded to the

1 same issue in many of your other hearings.
2 This type of representation is critical for
3 southwest Florida.

4 We do agree with the fact that cross
5 district -- cross-state districts must be
6 eliminated, and we are going to take it one
7 step farther by saying the coastal areas --
8 first, we have diverse communities within our
9 own region. The coastal areas of Sanibel,
10 Captiva and Ft. Myers Beach are quite different
11 than the more rural areas of Alva, Olga,
12 Buckingham, parts of Lehigh Acres and over to
13 Hendry, Glades and the western portions of Palm
14 Beach County.

15 These locations have a rural texture with
16 large farms, citrus groves, large equestrian
17 lots and communities, and their needs are much
18 removed from those coastal areas, which is why
19 it doesn't make sense to lump these areas all
20 together. It also doesn't make sense to
21 aggregate these coastal communities, as well as
22 Cape Coral, with inland communities.

23 Our realtors are community experts, and
24 just as realtors specializing in Cape --
25 Captiva waterfront development wouldn't be the

1 expert to selling Buckingham farmland, we
2 shouldn't expect our elected officials to have
3 expertise for every area, and we feel these are
4 best left separated as they are presently
5 configured. This would be in keeping with the
6 preservation of community interests and the
7 preservation of cores of prior districts.

8 We ask that you look into this regrouping
9 in such a manner as keep -- keeping the
10 communities in separate districts, and I thank
11 you for the opportunity to speak to you this
12 evening, sir.

13 SENATOR GAETZ: Thank you very, very much.
14 Very useful testimony.

15 And is it Ida or Ita? Ita?

16 MS. NEYMOTIN: It is Ita, yes. Thank you,
17 Mr. Chairman.

18 SENATOR GAETZ: Thank you, and you are
19 recognized, and following Pete Quasius is
20 Council Member Thomas Leonardo, the City of Ft.
21 Myers.

22 Ita, you are recognized. Thanks for
23 coming.

24 MS. NEYMOTIN: Thank you. Good evening,
25 and thank you for taking time to listen to all

1 of us here today. My name is Ita Neymotin, and
2 I am an attorney. I have lived here in Lee
3 County for about 10 years. I have worked as a
4 prosecutor in both Hendry and Glades County.

5 Having seen the problems and having met
6 the people in all three counties, I can tell
7 you there is a great deal of common areas of
8 interest between Ft. Myers, LaBelle, Moore
9 Haven, and even Alga and Olga. I know we
10 Floridians are all hard-working people and we
11 all care about Florida. But we all have
12 individual concerns as well.

13 Ft. Myers Beach and other beach
14 communities are more concerned with tourism and
15 offshore drilling. We in the inland
16 communities are more concerned with the job
17 market and with the agricultural industry.

18 As it stands now, District 27 is
19 contiguous and compact. We are currently
20 represented by 7.5 percent in Tallahassee
21 through our legislators, and I ask that you
22 please not dilute our representation. I
23 likewise ask that you keep communities of
24 interest together.

25 Thank you for your time.

1 SENATOR GAETZ: Thank you very much,
2 ma'am. Very helpful.

3 Mr. Quasius, thank you for being here
4 tonight, and we are delighted to hear your
5 testimony, look forward it.

6 MR. QUASIUS: Thank all of you for your
7 service. I understand that this is not an easy
8 job. It is one that will dictate for the next
9 decade what kind of representation we have.

10 I represent the Caloosahatchee Citizens
11 Association, and I think I will add my refrain
12 to the common cause you are hearing: We want
13 our representatives to represent our community,
14 to understand what our concerns are, to share
15 them and hopefully to adequately represent
16 them. We were delighted with the cross
17 country -- or cross-state district we have,
18 because Ms. Benacquisto decided to see the best
19 side and move over to the west coast, so that
20 was to our advantage. And it is a hard job, we
21 understand that. It makes little sense to have
22 someone representing and living on the east
23 coast trying to understand the issues that we
24 have here in Lee County. I think we need to
25 have our own representation. I think we need

1 to have people who are living and working and
2 growing up in our communities to represent us,
3 and I look forward to seeing maps that
4 represent that.

5 SENATOR GAETZ: Thank you, sir.

6 Following Council Member Thomas Leonardo
7 from the City of Ft. Myers, we have Joseph
8 Russo and then Bill, and I believe it is either
9 Dakos or Dakos.

10 Mr. Leonardo, council member, first thank
11 you for your service to your community and to
12 the people of the State of Florida, and you are
13 recognized.

14 COUNCILMAN LEONARDO: Thank you,
15 Mr. Chairman. Good evening, all honorable
16 elected officials, and welcome to beautiful Lee
17 County. My name has been mentioned, Tom
18 Leonardo, I am a city councilman for the City
19 of Ft. Myers, representing Ward 6, the newest
20 and eastern most of our city's six wards.

21 Our city has been described as the last
22 great city in Florida. We are the county seat
23 for Lee County and the urban center for
24 southwest Florida. Once the recession ends,
25 our city and Lee County will continue to grow

1 in population and prominence in the life of our
2 state.

3 I am here tonight to speak in favor of
4 maintaining the current boundaries of Senate
5 District 27 so ably represented by Senator
6 Lizbeth Benacquisto. There are many reasons
7 for this, and let me share a few of these
8 reasons with you.

9 Currently the City of Ft. Myers benefits
10 from Lee County being represented by three
11 State Senators and five State Representatives.
12 This fact has provided us with multiple
13 benefits, and obviously we would not like to
14 see this changed.

15 The way Senate District 27 is now
16 configured, we believe that we share many
17 interests with other communities within the
18 district, even though the district spans a
19 cross-section from the east to the west coast.

20 We are not a coastal community, as has
21 been previously mentioned, and thus we share
22 more in common with inland communities than
23 with the community -- coastal communities of
24 Sanibel, Captiva and Ft. Myers Beach, as an
25 example.

1 Historically, Ft. Myers has always been
2 linked to the inland communities of southwest
3 Florida. As in the past, as it is today, we
4 are the commercial hub for these inland
5 communities, and we will remain so far into the
6 future.

7 Thank you for the process which allows for
8 public input and complete transparency. You
9 mentioned the law that disallows any
10 predetermined map. We appreciate that law. It
11 would be like -- if that was allowed, it would
12 be like a judge making a decision without
13 hearing the evidence.

14 I wish you continued success in your
15 public outreaching, and thank you again for
16 listening to us.

17 SENATOR GAETZ: Thank you very much,
18 Councilman.

19 Mr. Russo, nice to see you, and we
20 understand that you have a map to show us as
21 well, is that right, sir?

22 MR. RUSSO: Yes, I do. It is very nice to
23 see you again, Senator Gaetz, and everyone
24 else. My name is Joseph Russo. I am here
25 today as a student from Florida Gulf Coast

1 University where, among other things, I study
2 political science, and actually, my newest
3 professor is actually Mr. -- Representative
4 Caldwell right there where I take his course on
5 redistricting, so --

6 SENATOR GAETZ: Now, wait a minute.

7 MR. RUSSO: -- maybe this will get me some
8 extra credit.

9 SENATOR GAETZ: Wait a minute. At the
10 last hearing, you were trying to suck up to a
11 different professor.

12 MR. RUSSO: I am trying to do as much with
13 my grades as in due time.

14 SENATOR GAETZ: Now, are you a student or
15 are you running for office?

16 MR. RUSSO: Give me a few years and we
17 will see.

18 Over here I wanted to talk about the
19 congressional districts in southwest Florida.
20 Since everyone is seemingly talking about the
21 State House and the State Senate districts, and
22 they are very knowledgeable, I want to bring
23 over a perspective of the congressional
24 districts in southwest Florida.

25 Obviously, due to the census, we have

1 grown over 20 percent in the southwest Florida
2 area, so we pretty much need another
3 congressional district, and this is my proposal
4 here for how that would best be solved.

5 In the north, you have in Manatee and
6 Sarasota Counties Congressional District 13,
7 currently seated with Vern Buchanan. In the
8 south, you have Congressional District 14,
9 currently seated with Connie Mack, and that
10 goes up with Lehigh Acres and just over in Ft.
11 Myers, just south of Colonial is the boundary.
12 And then you have Charlotte County, Cape Coral
13 and all of the interior counties taking up the
14 new district of 27 that I have numbered there.
15 But that is my proposal of how a district would
16 be set up in a southwest Florida area.

17 And I know there's been a lot of talk
18 about the east-west coast districts. I think
19 this kind of goes along with what everyone was
20 saying with that. And with the interior
21 counties all composed into one district, there
22 would be a lot of like representation in that
23 as well.

24 But, again, I would like to thank everyone
25 here for hearing me speak once again, and I

1 wish you the best to your trip in Clewiston
2 tomorrow on your clubhouse turn tour here, and
3 I think you very much for representing the
4 State of Florida and I hope to one day probably
5 be in your seat, but --

6 SENATOR GAETZ: Thank you. Thank you,
7 Mr. Russo. I have no doubt.

8 Bill Dakos -- is it Dakos?

9 MR. DAKOS: It is. Better than any
10 telemarketer.

11 SENATOR GAETZ: And then following
12 Mr. Dakos, Mark Castellano with the Teachers
13 Association of Lee County, and then Craig
14 Briscoe, if you will be in the on deck circle.

15 Mr. Dakos, thank you for coming tonight,
16 and you are recognized.

17 MR. DAKOS: Thank you so much for being
18 here tonight, and thank you for serving the
19 greatest state in the nation.

20 I would like to just re-elaborate what
21 Mr. Russo said actually, because I do feel that
22 we need another Representative here from
23 Congress. Living here for 22 years, I have
24 seen the growth, and it cannot be denied that
25 this area has grown tremendously over the past

1 ten years. I hope that you consider that, and
2 thanks again for being here.

3 SENATOR GAETZ: Thank you, sir, very, very
4 much. Appreciate it.

5 And next, Mark -- Mark Castellano,
6 representing the Teachers Association of Lee
7 County. Thank you very much for being here,
8 sir, and we are anxious to hear your testimony.

9 MR. CASTELLANO: Thank you, Senator. I
10 appreciate the opportunity, all the legislators
11 here today.

12 Very simple, I don't have -- I wish -- I
13 don't have a plan or anything to offer you. I
14 do want to share just a couple of thoughts. I
15 think that you have heard the majority of
16 people talking about the lack of cross-state
17 districts. Senator Benacquisto, I want to
18 share with you, your predecessor, Senator
19 Aronberg, used to describe your district, which
20 I consider the poster child for gerrymandered
21 cross-state districts, he used to describe it
22 beautifully, he would say, "Oh, I represent
23 Palm Beach and I represent Lee County and I
24 represent some of the bass swimming in Lake
25 Okeechobee." We always loved that.

1 Basically I would say that you have heard
2 from a number of people and you are going to
3 hear from me that we want districts that
4 represent us fairly, and that are not -- and
5 the word "gerrymandered" has been used so much,
6 but basically that is the sentiment that many
7 of us have, and we have had for decades, and I
8 would urge you to please consider that, making
9 communities, local areas -- respecting the
10 counties more so than what is currently the
11 practice.

12 I think the last thing I want to share
13 with you is this thought: It is very
14 frustrating, and it has been for years, that in
15 Florida we tend to -- we feel compelled
16 oftentimes to legislate or to govern through
17 the Constitution, through constitutional
18 amendments. Amendments 5 and 6 were very
19 heartfelt amendments, and they passed rather
20 overwhelmingly. And we ask you to please
21 represent that, and I would -- I am so longing
22 for the day that we don't have to try to
23 legislate this state through constitutional
24 amendments, and that gives you -- that puts the
25 onus on you. That puts the onus on you to do

1 the right thing.

2 As a teachers --representative of the
3 teachers in this county, you know, class size
4 amendment is near and dear to my heart. I
5 don't mean to get off on it, but I've always
6 felt that the class size amendment was not
7 necessary if the Legislature had ever done what
8 I believe would have been the right thing to
9 do.

10 So this is another example, in my opinion,
11 of that. The reason that those amendments were
12 passed was because fair districting needed to
13 have been done. Thank you very much.

14 SENATOR GAETZ: Thank you very much, sir.

15 And next Craig Briscoe, please, and
16 following Mr. Briscoe, Brenda Skupny and then
17 Cristina Cook.

18 Mr. Briscoe, the floor is yours, sir.

19 MR. BRISCOE: Thank you. I do want to
20 thank you for the opportunity of listening to
21 us this evening. Granted, there has been
22 critics of the process by various
23 contingencies; however, since we are a republic
24 and not a democracy, I have the full faith and
25 confidence that you, elected officials, will

1 draw the districts which best serve the
2 constituents that you serve, regardless of your
3 party affiliation. With that said, it is my
4 sincere hope, however, that Lee does get its
5 own Senate seat.

6 And finally, I do want to thank you for
7 the resources that you've made available
8 on-line. I watched this morning in Naples and
9 am here this evening, and you guys have done a
10 fantastic job of making this information
11 available, not only in the streaming, as well
12 as the documentation of the meetings and
13 agenda, and for that, I am very proud to have
14 many of you as my representative.

15 SENATOR GAETZ: Thank you very much, sir.

16 Is it Skupny? Thank you very much for
17 being here, Ms. Skupny, and we are delighted to
18 have your testimony.

19 MS. SKUPNY: Thank you for having me.
20 Thank you for being here. I appreciate you
21 taking your time to visit us. And, again, my
22 name is Brenda Skupny. I live in Cape Coral.
23 I recognize a lot of faces here in front of me,
24 and thanks for being here and representing us.
25 I think you do a great job.

1 I personally have many concerns regarding
2 redistricting, particularly since the law under
3 Amendments 5 and 6 appear to conflict with the
4 Federal Voters Rights Act of 1965. I am sure
5 that lawsuits are unavoidable. I feel that
6 Amendment 5 and 6, that was the intent behind
7 some of the proponents of that. But I ask that
8 you take into careful consideration the cost to
9 taxpayers when you draft the new districts.

10 In 2010, Ft. Myers/Cape Coral metropolitan
11 area ranked sixth in population in the state of
12 Florida. We have over 700,000 people. Yet we
13 are the minority constituency in our State
14 Senate districts. In fact, in District 21,
15 Senator Bennett's district, we share him with
16 five other counties. I respectfully request
17 that in drawing Senate districts, that Lee
18 County is given the considerations due by
19 virtue of our population for a Senate district
20 contained with the majority of population Lee
21 County. Thank you again for being here, and I
22 appreciate all you do.

23 SENATOR GAETZ: Thank you very much.

24 And next we will hear from Christina Cook,
25 and then following Ms. Cook, Gary Lee and then

1 Charles Dauray.

2 Ms. Cook, thank you so much for coming
3 this evening.

4 MS. COOK: Thank you for having me and
5 providing all of us with this opportunity. You
6 all have a very challenging task ahead of you,
7 and I would like to add my voice to those you
8 are hearing this evening and respectfully
9 request that you give serious consideration,
10 given the population of Lee County, of the
11 importance of having most, if not all, of Lee
12 County represented by one Senate district.
13 Thank you very much.

14 SENATOR GAETZ: Thank you very much,
15 ma'am.

16 After Gary Lee and Charles Dauray -- and I
17 hope I have that right -- John McNamara, please
18 come into the on deck circle.

19 Mr. Lee.

20 MR. LEE: Mr. Chairman, thank you very
21 much for the invite, and also for being here to
22 represent the Legislature. I am going to stick
23 to the first rule that was adopted this morning
24 and how you are counting brevity. I understand
25 you get bonus points for brevity.

1 SENATOR GAETZ: We give extra credit
2 points, bonus points, and you get a free piece
3 of pie at Perkins.

4 MR. LEE: Thank you. I praise the effort,
5 the transparency which you are doing on behalf
6 of the state. The public input that you are
7 doing is absolutely fabulous.

8 I have been a student of redistricting,
9 reapportionment, since 1972. I played a role
10 in '72, '82, '92, 2002 and now 2010, and a lot
11 has happened in the evolvement of the court
12 cases and so on that have come down by the
13 Supreme Court of the United States, by the
14 Voters Rights Act of 1965.

15 I am going to hand up to the Committee, if
16 I may, and not read the full resolution which
17 the Lee County Republican Party adopted this
18 past Saturday unanimously. May I give you the
19 guts of it, which says, "Now, therefore, be it
20 resolved that Lee County Republican Committee
21 calls upon the Florida Legislature to adopt a
22 redistricting and reapportionment plan that
23 protects the integrity of counties, cities and
24 other common interest, and provides for true
25 representation for resident citizens in

1 southwest Florida." That was adopted
2 unanimously by our committee on behalf of
3 160,000 Republicans in Lee County.

4 Three or four other points, if I may. We
5 prefer north-south districts has been
6 represented here by previous testifiers. We
7 hope you will do away with the east-west axis
8 for representation. For 20 years, Lee County
9 has been bifurcated, trifurcated, and not given
10 the representation that we should have for the
11 population in particular that we have achieved.
12 The Lee population has grown enormously in the
13 last ten years. When you combine it with
14 Charlotte and Collier County, you are looking
15 at a million two, a million three hundred
16 thousand people.

17 Next point that I would make is that we
18 prefer that we have a consolidated
19 congressional district as much in Lee County as
20 possible. We would like at least one and a
21 half or three quarters State Senate seats in
22 Lee County, which our population would justify.
23 And if you look at the House of
24 Representatives' representation, we should be
25 entitled to at least another seat that would

1 give us four members in the House of
2 Representatives.

3 I think your good efforts, again, are
4 laudable. The compliance problems you will
5 have with 5 and 6 will be enormous. If we were
6 betting people tonight, I am sure we would bet
7 that this will end up in the courts, which
8 means that a Special Master ends up drawing
9 those districts, bringing it back to the
10 Legislature for affirmation or ratification. I
11 hope that doesn't happen, but when I have read
12 carefully 5 and 6, I don't see how you can meet
13 the criteria.

14 SENATOR GAETZ: Thank you.

15 MR. LEE: And it is interesting that the
16 advocates of that have not -- have failed not
17 to draw seats that I think you had asked them
18 to do.

19 SENATOR GAETZ: Thank you very much, sir.

20 MR. LEE: Yes, sir. Thank you very much.

21 SENATOR GAETZ: Appreciate your testimony.

22 And next, Mr. Dauray, could you help me
23 with the pronunciation?

24 MR. DAURAY: Dauray.

25 SENATOR GAETZ: Say again, sir.

1 MR. DAURAY: Dauray, Charles Dauray.

2 SENATOR GAETZ: Very good. Thank you,
3 sir, and thank you for your testimony.

4 MR. DAURAY: Thank you, Senator. Thank
5 you, Senators and Representatives.

6 When this meeting began tonight, you
7 outlined and listed the communities from whence
8 you came. And I would venture to say, with all
9 due respect to some of the communities on the
10 east coast, which are wonderful communities,
11 that many of the people in the audience haven't
12 the slightest idea where you are coming from.
13 They haven't visited your communities. They
14 know little or nothing about you. Conversely,
15 some of you know little or very little about
16 the west coast, and that is understandable, but
17 yet we are joined. We are joined by what I
18 like to call political contrivance, political
19 manipulations, so that the west coast ends up
20 being an appendix to some perceived or real
21 power centers on the east coast, and we are
22 kind of tired of that over here on the west
23 coast, I want you to know that. We have
24 matured, we have a powerful power base, we are
25 common sense people and we are looking for home

1 rule. Thank you very much.

2 SENATOR GAETZ: Thank you, sir.

3 Following Mr. McNamara, Ray Rodriques,
4 please, and then if Terry Miller will come
5 forward and join us in the front row.

6 Mr. McNamara, delighted to have you here,
7 and the floor is yours.

8 MR. McNAMARA: Thank you, sir. Good
9 evening. My name is John McNamara, I am from
10 Cape Coral.

11 SENATOR GAETZ: And could we get you to
12 speak just a little closer into the mike?

13 MR. McNAMARA: I'm sorry.

14 I voted in my first election at the age of
15 18 in 1986 as part of the voter uprising in
16 Alabama that elected the first Republican
17 Governor since reconstruction. My earliest
18 political memories, having my father sit me
19 down in January of 1977 to watch Jimmy Carter
20 be sworn in as President because he was from
21 neighboring Georgia. I've participated in our
22 democracy for a long time. I have been an
23 observer of politics for even longer.

24 I stand before you tonight because I fear
25 for the future of our democracy. While

1 gerrymandering is not new, it dates back to at
2 least 1812, we have taken it to new heights.
3 Only four times since 1970 has the re-election
4 rates for incumbents in Congress been less than
5 90 percent. Most Representatives run in such
6 safe districts they no longer have to answer to
7 the general public. All they have to do is win
8 their primary election. This means many
9 elected officials have to convince primary
10 voters, who are normally the most partisan of
11 people, that the candidate deserves the seat.
12 What we end up is not divided government, but
13 divisive government.

14 While a nation itself might be slightly
15 center right in its view of the world, the
16 elected leaders end up being either hard left
17 or hard right. This leaves a huge goal, which
18 as the most recent hissy fit over the debt
19 ceiling showed, is difficult, if not
20 impossible, to bridge. And while the extreme
21 left and extreme right shouts at each other,
22 the large number of us in the middle are
23 ignored. We don't have a voice. We aren't
24 given a choice. We aren't stuck with
25 dysfunctional government, we are stuck with

1 dysfunctional politics.

2 But in Florida, we have an answer to the
3 problem. In 2010, even as electing a very
4 large number of conservative voter candidates,
5 more than 60 percent of Floridians backed two
6 amendments which would outlaw gerrymandering.
7 More people supported these amendments than
8 supported Rick Scott or his opponent.

9 Ladies and gentlemen, the voters of
10 Florida have clearly spoken. They want these
11 protected districts to end. They want the
12 freedom to choose their representatives, not
13 have one forced on them by the minority of
14 voters. They want to have their voices
15 restored.

16 This redistricting process is an
17 opportunity for everyone. It is an opportunity
18 for Florida to take the lead and serve as an
19 example to the rest of the country on how
20 civility can be restored to our politics by
21 bringing back the center, it is an opportunity
22 to restore choice to thousands of
23 disenfranchised Floridians, and it is an
24 opportunity for our lawmakers to become
25 something more than just politicians. You can

1 become leaders, you can become statesmen and
2 stateswomen for the State. You were elected to
3 carry out the will of the people. In 2010,
4 they let you know what that was. Please, I am
5 asking you to just carry out your duty to the
6 state and its citizens. Thank you.

7 SENATOR GAETZ: Thank you very much, sir.
8 Excellent testimony.

9 Following Ray Rodriques and Terry Miller,
10 if Tom Martin would come forward and be ready
11 to testify.

12 Mr. Rodriques, thank you very much, sir,
13 for being here, and we would love to hear what
14 you have to share with the Committee.

15 MR. RODRIGUES: Thank you. My name is Ray
16 Rodriques, and I am the Vice-Chair of the Lee
17 County Republican Party, and I want to thank
18 you for coming to Lee County tonight. I know
19 that the summertime is the time that you get
20 generally your break from session and you get
21 to come home, take care of your business and
22 your families, and I appreciate the fact that
23 all of you have volunteered to take on this
24 challenging assignment of redistricting and
25 spend your summer going all over Florida, and

1 we are happy that you are here tonight.

2 I have been a resident of Lee County for
3 17 years. In my time here, I spent a decade
4 working for GE corporate as a manager, and
5 during that time, I learned project managing
6 the GE way. And the GE way for project
7 managing was to identify a problem, gather the
8 data. After all the data had been gathered,
9 analyze the data, and then when you had
10 finished the analysis, then prepare a proposed
11 solution. I believe by coming here tonight
12 without maps, you are following that process.
13 You are gathering the data from across the
14 state in order to identify what your potential
15 solutions will be, and I thank you for doing
16 that and respecting the citizens of Florida
17 enough to get our input before you make your
18 decisions.

19 Ten years ago, Amendments 5 and 6 did not
20 exist. Today they are part of the state's
21 Constitution. The Fair Districts people led a
22 statewide effort, they collected \$9 million in
23 contributions and they ran a great campaign to
24 get these amendments passed. But now that they
25 have what they want, they are suddenly quiet

1 when it is time to do the real work, rolling up
2 your sleeves and implementing 5 and 6. Now,
3 normally silence wouldn't be a problem, except
4 for the fact that so many of the words in
5 Amendments 5 and 6 are ambiguous. Can someone
6 please explain the phrase, "denying or
7 abridging the equal opportunity of racial or
8 language minorities to participate in the
9 political process or diminish their ability to
10 elect representatives of their choice" in the
11 concept of drawing districts? How far should
12 the Legislature go to do things that will
13 ensure minority voters have the ability to
14 elect representatives of their choice? Should
15 you split up a city? Should you split up a
16 county? Or even multiple cities or multiple
17 counties?

18 I appreciate the fact that folks have
19 brought maps here for you to see, and I
20 encourage all of us to do that. What
21 disappoints me is you are near the end of this
22 process and no one from Fair Districts has
23 showed up and given you a proposal on how to
24 implement the amendments that they advocated
25 that we support. It is time for them to step

1 up and do the right thing and give you some
2 guidance. I think by being silent they are
3 dropping the ball and not finishing the job
4 when it comes to implementing 5 and 6. And
5 here's where I am coming from: I believe in
6 the Constitution. The Constitution is giving
7 you, the Legislature, the authority to do
8 redistricting. And my fear is this is nothing
9 but a back-door attempt to get it out of your
10 hands and put it in the courts where it does
11 not belong.

12 You have a very difficult job ahead of
13 you. I thank you for taking it on. Good
14 night.

15 SENATOR GAETZ: Thank you very much, sir.

16 Terry Miller, Tom Martin and then Governor
17 Kottkamp. We will hear from Governor Kottkamp
18 tonight, that is great.

19 Mr. Miller.

20 MR. MILLER: Thank you. Again, my name is
21 Terry Miller, and I live in Cape Coral, and I
22 want to welcome you all here this evening and
23 thank you for giving us the time to bring our
24 input to you and take it into consideration in
25 that.

1 I think you all have your work cut out for
2 you. The job ahead of you is daunting, and I
3 do not envy you whatsoever. But my comments
4 tonight are going to be a little different than
5 what we have heard thus far this evening and
6 probably what you have heard throughout the
7 course of your travels through the state.

8 A lot of people have spoken about
9 east-west districts, north-south districts, and
10 while I believe we need to get rid of the
11 east-west districts, I want to talk about
12 following city lines as required by 5 and 6.

13 Five and 6 require that districts be
14 compact and they use the boundaries that are
15 naturally formed by cities. The problem with
16 this is that many city boundaries are not
17 compact, which means if you try to use the
18 boundaries to draw legislative districts, you
19 will not achieve the compactness as required by
20 5 and 6. While many of the cities in Lee
21 County may have compact lines, that is not the
22 case for the rest of the state of Florida.
23 Take a look at cities like Tampa, Orlando and
24 some of the other large cities throughout this
25 state, and you are going to find cities with

1 very uncompact lines, and I want you to tell me
2 how you can produce a compact district that
3 meets the requirements of 5 and 6. These
4 districts will be anything but compact.

5 To me, it seems you are going to have to
6 split many cities across the state in order to
7 draw these compact districts. That, or you
8 will have to follow some other sort of
9 political boundary lines to achieve the
10 required result.

11 I am concerned that just -- by just trying
12 to follow those wordings of these amendments,
13 you are going to result in your proposed maps
14 going to the court, just like Mr. Rodriques
15 spoke of, and it is important to point this out
16 now especially as it relates to municipal
17 boundaries. Thank you.

18 SENATOR GAETZ: Thank you very much, sir.

19 Next, Tom Martin, then Governor Kottkamp,
20 and then Victor -- I think it is -- is it
21 Dotres, Datres?

22 Mr. Martin, thank you for being here, and
23 the floor is yours, sir.

24 MR. MARTIN: Thank you for your time, and
25 thank you, all of the Representatives and

1 Senators, for being here. I am a 25-year
2 resident of the area, and I just want to harp
3 on one point while I am here, and that is the
4 explosion of growth that has taken place during
5 my lifetime here in southwest Florida area. I
6 think that as a result of that, we definitely
7 deserve a representative district at the DC
8 level more so than currently exists, and I will
9 go off of the naïvety of youth and allow that
10 to happen by way of demographics and so on, but
11 that is all that I have to say.

12 SENATOR GAETZ: Thank you very much,
13 Mr. Martin. That is not naïve at all.

14 And, ladies and gentlemen, it is a
15 pleasure to welcome the Honorable Jeff
16 Kottkamp, former Lieutenant Governor of
17 Florida. Governor.

18 LIEUTENANT GOVERNOR KOTTKAMP: Thank you,
19 Mr. Chairman and members. Welcome, again, to
20 southwest Florida. Having served on the
21 redistricting committee ten years ago, I am
22 very mindful of the time commitment that each
23 of you have made, the effort of your staff, you
24 put so much time into this, and it's just
25 begun.

1 I was asked to speak briefly about a
2 little historical context to the conversation
3 you are hearing here tonight about diluting the
4 county and splitting the county.

5 Ten years ago, as you will, we debated the
6 maps and debated the maps and debated the maps,
7 and voted and voted and voted. When we got
8 down to the final vote, we actually operated
9 under a motion to limit debate, five minutes
10 for, five minutes against. Not surprisingly,
11 the five minutes for was debate conducted by
12 the majority party, Republicans. But what may
13 surprise you is that most of the time in
14 opposition to the maps was also done by
15 Republicans; in particular, Representative
16 Bruce Kyle from right here in Lee County, and
17 his argument was Lee County is in the top ten
18 in population, but it is the only county in
19 Florida in the top ten in population that
20 doesn't have a Senate seat with the majority of
21 the population comprised from that county. So
22 that is why you are hearing this over and over.
23 This has been a long-standing issue for this
24 community.

25 I will say that we are enormously proud of

1 the members of our legislative delegation.
2 They are talented and they care deeply about
3 this region, and we are grateful for their
4 service, but I wanted to share that historical
5 perspective, because I think it is important to
6 know this is not a new idea here in southwest
7 Florida. Thank you for your service and thank
8 you for being here.

9 SENATOR GAETZ: Thank you, Governor.

10 Is it Dotres?

11 MR. DOTRES: Dotres, you had it right --

12 SENATOR GAETZ: Dotres, I had it right the
13 first time, okay. And following Victor's
14 testimony, Geri Gallagher with Planned
15 Parenthood, and then Lora Greenwell with IUPAT,
16 Local 2301, if you would please come forward.

17 Victor, the floor is yours.

18 MR. DOTRES: Thank you, sir.

19 SENATOR GAETZ: You are following the
20 Governor.

21 MR. DOTRES: I know, that is the big time.

22 Good evening, Senator. Good evening, all
23 the members on the panel. I want to thank you
24 for being here. My name is Victor Dotres.

25 As I was driving here today and when I

1 came in through the door and I saw all these
2 people in the gymnasium, I thought to myself,
3 wow, what a great country we live in if you
4 think about it. I mean, there's a lot of other
5 countries that people are not able to assemble
6 like this like we are, and I see all these
7 people here, and any one of us can come to this
8 microphone and we can grab the mike and we can
9 express ourselves freely, we can give our
10 comments, share our ideas, and, you know, we
11 can even give our critiques, like you have
12 heard tonight, you know. But then I think to
13 myself, you are going to have people who are
14 not going to be happy, you are going to have
15 some people who are going to complain about
16 certain things, and you have heard across the
17 state you will have a few people who are going
18 to file lawsuits, but, you know, in the end,
19 when all this is done, in the end, there will
20 not be one map, no matter who draws it up,
21 okay, no matter who draws up the map, there
22 will not be one map who is going to make every
23 single person happy, no matter what. But I
24 think the most important -- the most important
25 part is how this process and how these maps are

1 being created. That is the most important part
2 to me. And I believe, and I think I can speak
3 for many people here, most people here, if this
4 process is done openly, fairly and honestly,
5 that is the most important part. I want to
6 thank you all for your service to our state.
7 God bless you.

8 SENATOR GAETZ: God bless you, sir, and
9 thank you.

10 Now, Geri Gallagher from Planned
11 Parenthood. Is Geri Gallagher here? If not,
12 we will pass Geri and go to Lora Greenwell.
13 Lora Greenwell, are you here, please?

14 I'm sorry, Richard Jones, I don't give you
15 much of a warning, but if you are here,
16 Mr. Jones. Are you here, sir? All right,
17 thank you very much. I'm sorry that I didn't
18 give you much of a chance to get down here.
19 Then Edd Weiner with the Lehigh Acres Economic
20 Development Board, and then Armor Persons.

21 Mr. Jones, we are very pleased to have
22 your testimony, and you are recognized, sir.

23 MR. JONES: Thank your, sir, and thank you
24 for this opportunity, and I will keep it short.
25 I kind of have just a real quick question. I

1 was wondering why, after the voters -- 60
2 percent of the voters voted for Amendments 5
3 and 6, why the Florida House would appropriate
4 \$30 million to overturn those amendments.
5 Furthermore, to me, that would seem like if we
6 are spending 30 million to overturn it, we
7 would have to spend another 30 million to
8 defend it. So the State is essentially
9 defending itself, and I just don't understand
10 that after that kind of vote. Thank you.

11 SENATOR GAETZ: Thank you very much. And,
12 Mr. Jones -- Mr. Jones, I hope your time
13 tonight -- thanks for giving your time so far.
14 I hope you will have a chance to stay, because
15 you have asked a question, we have had a number
16 of other questions asked, and we are going to
17 give members of the House and Senate an
18 opportunity to speak to those questions when
19 you are finished with public testimony. So
20 thank you, Mr. Jones.

21 Next is Edd Weiner. Is that correct, sir?

22 MR. WEINER: Yes, sir, it is.

23 SENATOR GAETZ: And, Mr. Weiner, you are
24 recognized, and then after you speak is Armor
25 Persons and then Joan A. Lewis Patterson.

1 Mr. Weiner.

2 MR. WEINER: Thank your, Senator. On
3 behalf of the Lehigh Acres Chamber of Commerce,
4 I want to welcome you all to Lehigh Acres. I
5 am a member of the Board, and I am appreciative
6 for Representative Caldwell and Senator
7 Benacquisto to using their baseball bats to
8 convince you that Lehigh Acres is the place to
9 hold this meeting.

10 On behalf of -- on behalf of Lehigh Acres
11 Community Council, I am the President of the
12 Community Council, we welcome you to Lehigh
13 Acres. On behalf of the Lehigh Acres Community
14 Planning Panel, I am the President of that, and
15 we welcome you to Lehigh Acres. And because I
16 am bored and have absolutely nothing to do with
17 my time, I am the CEO of Economic Development
18 in Lehigh Acres and again welcome you to Lehigh
19 Acres.

20 There are two things I want to get out
21 before I talk about Lehigh Acres specifically.
22 I was many hundreds of thousands of years ago
23 an elected official on the east coast in
24 Plantation. Representative Rogers, good to see
25 you again. And we had the same discussion many

1 years ago about connecting Broward County and
2 Collier County with dissimilarities. I would
3 suggest to you, ladies and gentlemen, that
4 connecting east coast and west coast is a
5 totally dysfunctional thing. There is
6 absolutely nothing in common since I have lived
7 on both coasts with the east coast and the west
8 coast, and I would suggest that you need to use
9 your north-south districts as your planning
10 areas.

11 I have heard several comments made on a
12 single Senator in Lee County. That is a
13 wonderful idea, except that the Senate district
14 is 470,000. We have 680,000 people in Lee
15 County. Do the math, 200,000 people fall off,
16 and the way things have gone in previous years,
17 Lehigh Acres is probably one of the areas that
18 would fall off the radar when you put that
19 Senate district together. So I would suggest
20 to you that maybe Lee County needs two Senators
21 equally representing the east side of the
22 county and the west side of the county.

23 On to Lehigh Acres specifically, we are a
24 community of 86,000 people, 86,724 people. We
25 are identical to Cape Coral. Well, Cape Coral

1 needs to catch up a little bit, but we are
2 identical to Cape Coral, because we are an
3 unplotted community as Cape Coral is. The
4 difference between Cape Coral and Lehigh Acres
5 is they are a city and we are not. We find
6 ourselves in the unenviable position of
7 bringing businesses to Lehigh Acres and having
8 to go through Lee County government.

9 I have spent the last two years trying to
10 work with the State of Florida, with Lee County
11 government, with other agencies, to see how we
12 can progress in Lehigh Acres. I would urge
13 you -- and I have produced some maps for the
14 House district and the Senate district.
15 Unfortunately, I am technologically challenged
16 --

17 SENATOR GAETZ: And, Edd, we are out of
18 time, so if you could bring it in for a
19 landing.

20 MR. WEINER: Very well. Thank you, sir.

21 I will distribute these. I will work with
22 Jason to get them on your computers. That is a
23 good way to get rid of me. But I would suggest
24 to you, sir, that Lehigh Acres needs to be
25 represented by its own House district and by

1 its own Senate district following the
2 interstate to the east of Interstate 75. Thank
3 you for your time.

4 SENATOR GAETZ: Thank you very much.
5 Thanks, and we would be delighted to have the
6 maps that you have provided.

7 Next, Armor Persons and then Joan A. Lewis
8 Patterson and then Michelle Guerin, please.

9 Mr. Persons, thank you for being here, and
10 we are delighted to have your testimony.

11 MR. PERSONS: The -- there you go. I
12 appreciate as just a resident, not official or
13 anyone --

14 SENATOR GAETZ: We are going to let you
15 start over. We want to get every single golden
16 word.

17 MR. PERSONS: Testing.

18 SENATOR GAETZ: Hang on just a second. Is
19 there a doctor in the house?

20 MR. PERSONS: Okay.

21 SENATOR GAETZ: You're good. Thank you.

22 MR. PERSONS: Thank you. I just want to
23 thank each of y'all for just letting a simple
24 resident of the Bayshore community -- I am not
25 representing any organization or anything. We

1 are a -- I live in a rural equestrian community
2 that is in Senate District 21 right now, and I
3 have been hearing all this talk about the east,
4 west. I would actually prefer being in an
5 east-west like Senate District 27, only because
6 so much of that area is a rural area. It to me
7 would make a lot more sense as the
8 Representative to have someone that is a lot of
9 area that is the same that I could talk to
10 rather than all of Lee County that represents
11 the beaches and the incorporated cities, we
12 would be lost. So I think the inner counties
13 and the western parts of Lee and of -- I'm
14 sorry, the eastern parts of Lee County and the
15 western part of Palm Beach is well represented
16 by that district, and I would like, it if it
17 would be possible, that Bayshore -- we run
18 right up next to District 27, Senate District,
19 and I would love to have that included in
20 there.

21 For the record, Bayshore is defined as
22 from, on the east side, State Road 31, on the
23 north, the Lee County line, on the west, I-75,
24 and on the south, the Caloosahatchee River.

25 Thank you.

1 SENATOR GAETZ: Thank you very much, sir.
2 Very helpful.

3 Next, Ms. Patterson, are you here? Thank
4 you so much for being here this evening, ma'am,
5 and we are anxious to hear your testimony.

6 MR. PATTERSON: Greetings to all of you.
7 I am going to speak in a very limited basis for
8 Lehigh Acres. I have lived here 21 years --

9 SENATOR GAETZ: And could you speak a
10 little closer to the mike, ma'am?

11 MR. PATTERSON: I have lived here 21
12 years. I have lived in the county 31 years.
13 This will be my 17th election, and I want to
14 break down our precincts here in Lehigh.

15 We have 15 precincts, and they are sliced
16 and diced in many ways. For instance, House 72
17 will have nine, 73 will have six. The Senate,
18 27 has 11, Senate 21 has four. We are
19 fortunate, I guess, that all 15 are in U.S.
20 House District 14.

21 We have been sliced and diced vertically
22 to the east, vertically to the west and right
23 down the middle in the times that I have lived
24 in this county, and we have never been a
25 collective unit except under Connie Mack's

1 district, which includes all Lee County
2 basically.

3 So my plea is that when you look at areas
4 like this, that if you are doing a better way
5 than splitting us across the state, which I
6 don't think works well for all of us in Lee
7 County, I would hope you would consider that.

8 But I also have heard a lot tonight, and
9 it's about what I intended to talk about, but I
10 would like to mention that Ms. -- Senator
11 Benacquisto is not the only one that has a
12 district that runs across the state. I believe
13 U.S. House 16 also has that problem of crossing
14 the state, going down into Immokalee and
15 picking up little groups of voters along the
16 way, and it was very gerrymandered. And for
17 you that have been a long as long as I have,
18 you might remember how we got rid of that guy
19 that was an incumbent. And I would like to see
20 the east-west end as long as that it is for the
21 good of the communities and the way you draw
22 your lines, and I recognize that it is a hard
23 job and I appreciate your efforts. Thank you.

24 SENATOR GAETZ: Thank you very much,
25 ma'am.

1 Next, Michelle Guerin, and following
2 Ms. Guerin, Arthur Wells and then Steve Sherman
3 with the NAACP.

4 Ms. Guerin, thank you so much, and we are
5 looking forward to what you might have to share
6 with us.

7 MS. GUERIN: Thank you very much for
8 having me here tonight and for listening to all
9 of us, we really appreciate it, and I will try
10 to remain as respectful as possible, but I am a
11 little annoyed.

12 The people spoke back in 2009 when myself
13 and hundreds of volunteers worked thousands of
14 hours collecting 150,000 signatures on
15 petition. The people spoke again in 2010 when
16 over 60 percent, close to 63, of registered
17 voters in Florida instructed the legislation
18 that we wanted fair districting. We were tired
19 of the gerrymandering that was going on.

20 Now you are asking the people to speak
21 again. This time I hope you are listening. We
22 want you to follow the amendments that were
23 passed back in 2010, Amendments 5 and 6, and we
24 want you to draw maps and present them to us
25 for comment in a timely fashion. We want to

1 make sure that our elections in 2012 will be
2 fair, that each voter in Florida has the right
3 to vote. One person, one vote. Thank you.

4 SENATOR GAETZ: Thank you. Very good
5 testimony.

6 We have more good news. The good news is
7 that we have had as we have progressed through
8 our hearing twice as many people sign up to
9 speak as we had at the beginning. That is the
10 good news. In order to make sure we hear them
11 and also give time so that we answer some of
12 the factual questions that people want answers
13 to tonight and questions they asked, we are
14 going to have to be a little tighter on the
15 time limit. Everybody's been pretty good so
16 far, but now I apologize, just in order to show
17 respect to all of those people now who have
18 signed up and still want to speak, I would like
19 to ask if you could hold your verbal comments
20 to two minutes, and then if you have written
21 information, we will take that beyond the two
22 minutes.

23 And with that, Mr. Wells, we are delighted
24 to have your testimony.

25 MR. WELLS: Senator Gaetz, I am thrilled

1 that you and the other Senators and
2 Representatives are here. My name is Arthur
3 Wells. I have been a resident of Lee County
4 for 12 years. I am a Korean era veteran. And
5 this expressive democracy is why I served my
6 country in that particular way. God bless
7 America.

8 SENATOR GAETZ: God bless you, sir, for
9 your service.

10 MR. WELLS: I've voted in every election
11 since 1956 when I was 21. I voted for
12 President Eisenhower. In 2008, I appeared on a
13 panel with Susan Eisenhower, the granddaughter
14 of the President, on behalf of President Obama.

15 Members of my family have been devoted to
16 the Republican party since 1863 when my
17 great-grandfather was freed as a slave. Again,
18 I voted for President Eisenhower in 1956.

19 I changed my resident -- my registration
20 to Democrat early this year because I was so
21 offended by the rhetoric in Tallahassee and in
22 Washington. I, like Mr. Ramirez, was a manager
23 at General Motors -- at General Electric. In
24 fact, I was the first -- among the first
25 African-American personnel managers in a

1 commercial business in General Electric.

2 Recently I -- I normally dress better than
3 this, but recently I suffered a monstrous
4 financial loss because of the lack of
5 enforcement of regulations in governing by
6 ideology and pledges --

7 SENATOR GAETZ: And, Mr. Wells, I am very
8 respectful of your service and your family's
9 history, but I would ask you --

10 MR. WELLS: May I have 30 seconds?

11 SENATOR GAETZ: Yes, sir.

12 MR. WELLS: May I have 30 seconds?

13 SENATOR GAETZ: Please put a bow on it.

14 MR. WELLS: Okay, rather than common
15 sense, what I'd like to speak to is Amendments
16 5 and 6, which the citizens of Florida have
17 demonstrated overwhelmingly they favored. And
18 the House of Representatives and the State of
19 Florida is using my taxes to defeat something
20 that over 60 percent of the citizens of the
21 state of Florida voted in favor of, and that is
22 unconscionably wrong.

23 SENATOR GAETZ: Thank you, sir. And,
24 again, thank you for your service.

25 Steve Sherman with the NAACP, and then

1 Clara Anne Graham, President of the League of
2 Women Voters of Lee County, then Dr. Pat Fish
3 with the League of Women Voters and then Laura
4 Miller with the League of Women Voters and then
5 Lloyd Fish with the League of Women Voters. So
6 we will get a -- we will get a good recitation
7 from the League this evening.

8 Mr. Sherman, thank you for being here, and
9 you are recognized.

10 MR. SHERMAN: Thank you. Thank you for
11 your service and holding this meeting this
12 evening.

13 My name is Steve Sherman. I am the
14 Political Action Chairman for the NAACP Chapter
15 5110 here in Lee County. We come to you this
16 evening to ask you to speed up the process as
17 much as possible by addressing redistricting at
18 the beginning of the legislative session, and
19 also providing as much time for public hearing
20 after the maps are produced as there is now.
21 This will provide a much smoother process and
22 also be of substantial savings to the citizens
23 of Lee County and make the jobs for our
24 supervisors of voting much easier. Thank you.

25 SENATOR GAETZ: Thank you, sir.

1 And now we will hear from Clara Anne
2 Graham, President of the League, and then
3 Dr. Pat Fish with the League and Laura Miller
4 with the League, please be on deck.

5 Ms. Graham, thank you for coming and thank
6 you for your service to the League of Women
7 Voters.

8 MS. GRAHAM: Thank you. Good evening. My
9 name is Clara Anne Graham, President of the
10 League of Women Voters of Lee County, a former
11 state board treasurer for eight years,
12 currently a member of the League of Women
13 Voters of the United States 11-member Climate
14 Change Task Force, and a practicing accountant.

15 As you are aware, the League of Women
16 Voters was instrumental in the passage of the
17 constitutional redistricting Amendments 5 and
18 6. This effort was a culmination of 30-year
19 commitment to bring fairness into the
20 redistricting process, and the fifth campaign,
21 with many roadblocks along the way. The
22 voters, all voters, whom you are to represent,
23 have spoken.

24 We are concerned with what we perceive as
25 a lack of and concern for prudent and fiscal

1 responsibility by utilizing taxpayer dollars
2 for a lawsuit to try to circumvent the voters'
3 voice. In previous public hearings, the
4 Committee has stated that the entire
5 redistricting process will be 100 percent
6 transparent. Will you please tell us the
7 amount of taxpayer dollars that have been spent
8 in a full written disclosure in detail,
9 including the total lawsuit monies?

10 Also, Representative Weatherford, will you
11 as Chair of this Committee recommend to the
12 Speaker Cannon that the House drop its
13 participation in the lawsuit fighting
14 Amendments 5 and 6?

15 My League button is purple, an equal
16 blending of Republicans, red, and Democrats,
17 blue. We urge you to comply with Amendments 5
18 and 6.

19 SENATOR GAETZ: Thank you, ma'am. Thank
20 you very much.

21 And next we will hear from Dr. Pat Fish
22 with the League, then Laura Miller with the
23 league and then Dr. Lloyd Fish with the League.

24 Dr. Fish, thank you very, very much for
25 being here.

1 DR. P. FISH: Thank you. I am a retired
2 chemistry professor, but after retirement, I
3 got -- had time then to become more involved in
4 voting, which has been through the League of
5 Women Voters. And I have a number of
6 questions, but the one I would like to ask now
7 is if you think that June of 2012 is going to
8 be soon enough for people to qualify for
9 districts for which they don't even know where
10 they exist, or is this really just going to be
11 another stalling tactic? Thank you.

12 SENATOR GAETZ: Thank you very much,
13 Doctor. And I hope, Doctor, that your schedule
14 will permit you to stay, because I think there
15 will be some useful and hopefully reassuring
16 information for you about the schedule.

17 And now we would be delighted to hear from
18 Laura Miller, then Dr. Lloyd Fish and then Rick
19 Murphy, the Superintendent of Hendry County
20 Schools.

21 Laura Miller representing the League.

22 MS. MILLER: Thank you for this
23 opportunity to have input in the redistricting
24 process. My name is Laura Miller, and I am a
25 past President of the League of Women Voters of

1 Lee County. I have been a member of the Lee
2 League for 25 years. Also, in my other life, I
3 was a university professor.

4 Some of us were in Tallahassee ten years
5 ago when redistricting was being considered the
6 last time, and we heard comments from a number
7 of legislators from both political parties. I
8 heard at least three Republican legislators in
9 a variety of venues volunteer the comment that
10 the Democrats have done this -- have done it
11 their way for years, and now it is our turn.
12 Since the League is nonpartisan -- a
13 nonpartisan organization, and our members
14 habitually look at both sides of an issue
15 before taking a position, we find such partisan
16 remarks distressing.

17 My question is this: In the current
18 redistricting process, can you assure us that
19 legislators are thinking of what is best for
20 the voters of Florida? Partisanship should not
21 have a place in a matter that involves all of
22 us, and we hope that neither party is
23 practicing it now.

24 SENATOR GAETZ: Thank you very much,
25 Ms. Miller.

1 And next we will hear from Dr. Lloyd Fish,
2 then Rick Murphy, Superintendent Murphy, and
3 then Tonda Soisson-Lawson.

4 DR. L. FISH: Good evening, gentlemen and
5 ladies.

6 SENATOR GAETZ: Good evening, sir.

7 DR. L. FISH: I am Lloyd Fish, and I am
8 the Secretary of the League of Women Voters of
9 Lee County, although I am a male. And as a
10 matter of fact, you laugh, but there are
11 20 percent of our chapter that are males, so it
12 is in name only. We have both genders.

13 I guess two things that I would like to
14 say briefly. One, that I would second what Jim
15 Roach said earlier in the evening, and two, I
16 would disagree what Mr. Rodriques said insomuch
17 as he stated that it was the responsibility of
18 the fair elections committee, the people that
19 promoted 4 and 5 -- 5 and 6, pardon me,
20 amendments, to draw the lines. I feel that
21 actually it is your job, that is what you were
22 elected to do. You are the people that have to
23 draw the lines. We are not the experts, but --
24 and I guess the second part of that question is
25 when are you going to come back to us and have

1 another setting where you can show us what the
2 lines are so that we can make meaningful
3 comments? That's all.

4 SENATOR GAETZ: Thank you so much,
5 Dr. Fish.

6 Mr. Superintendent, having once played a
7 superintendent on television, I appreciate the
8 good work that you do, and we thank you for
9 your service to the people of the county and to
10 the children and families and employees of your
11 school district. You are recognized, sir, with
12 our gratitude.

13 SUPERINTENDENT MURPHY: Thank you, Senator
14 Gaetz, and it is a pleasure seeing you and some
15 of the committee members again. I will see you
16 in Clewiston bright and early in the morning, I
17 take it. I think you will enjoy the trip.

18 First of all, I would like to thank you
19 for all coming out, spending your time. Our
20 time is very valuable. I found that out later
21 in life, serving as a public servant.

22 Clewiston and LaBelle are two cities that
23 we have in Hendry County. We have outlying
24 areas, of course. Hendry County is about
25 39,000 plus people on record. A year ago,

1 unemployment was 20.6 percent. Right now in
2 July, we are the highest in the state, 16.2
3 percent.

4 One thing we do have, we have plenty of
5 land, plenty of natural resources, plenty of
6 water, clean air, some great people, a lot of
7 room from growth, and I welcome anything we can
8 do to promote growth and education. We want
9 growth in many ways.

10 Currently, the 27th District has served us
11 well. Aronberg was a great Senator,
12 Ms. Bullard is a great Senator. Congressional,
13 Alcee Hastings, one of the best,
14 congressional -- Congressman Rooney is doing a
15 great job. Grimsley is, of course, one of the
16 best. And so whatever we do -- whatever we do,
17 we want to represent Hendry County the fairest
18 way.

19 My idea, and it is only my idea speaking,
20 27th District is not going to work in the
21 future. I feel that since we have two cities
22 spread apart in a vast rural area, I think that
23 on Clewiston's side, I think the county could
24 be better served with a east coast majority, on
25 the LaBelle side, the west coast majority.

1 I do serve on the Southwest Educational
2 Alliance Board, and also the Work Force Board.
3 I deal with a lot of issues on both sides. It
4 is always hard to get service on both sides of
5 the county. I have fought the university
6 system to get dual enrollment in our high
7 schools. I think that needs to be considered
8 also.

9 You have some great plans, I've looked at
10 them, I've liked some of them, but I would like
11 that to be considered, because Hendry County is
12 a great place to have growth, and we are going
13 to have it, we welcome that change.

14 SENATOR GAETZ: Thank you very much,
15 Mr. Superintendent.

16 SUPERINTENDENT MURPHY: Thank you.

17 SENATOR GAETZ: Tonda Soisson-Lawson, and
18 then Larry Hart and then William Jennings,
19 followed by Ruby Daniels.

20 Thank you so much for being here, and you
21 are recognized, ma'am.

22 MS. SOISSON-LAWSON: Thank you. First of
23 all, thank everyone for coming and listening to
24 us, and I am here as a Lehigh Acres resident
25 since 1997. I have seen all the growth that

1 has happened since, and am anticipating and
2 looking forward to all the growth in our
3 future.

4 My head is spinning after all this
5 information, I know you all are as well, so I
6 am just going to get to my third point. With
7 everything that you have heard here tonight
8 about the communities or the city lines or the
9 populations, I am going to just remind you that
10 we are people, and we have -- this is our
11 community, and not even Lee County, I am just
12 speaking to -- from Lehigh Acres. We have
13 eighty -- almost 87,000 people. We are split
14 in half. We are trying to grow for the future.
15 We do not want to, as city councilman said from
16 Ft. Myers, rely on Ft. Myers being our economic
17 hub for the inland. We are going to be our own
18 economic hub out here in the future, okay. And
19 we need one Representative that is going to
20 advocate for us and help us grow and help us be
21 a great part of Lee County, but our own part of
22 Lee County. Thank you.

23 SENATOR GAETZ: Thank you so much, ma'am.

24 Larry Hart. Thank you, Mr. Hart, for
25 being here, and we recognize you.

1 MR. HART: Thank you so much. For the
2 record, my name is Larry Hart. I had the
3 privilege of being born and raised in the city
4 of Ft. Myers, and let me thank each and every
5 one of you for what you do every day. But we
6 are at a critical point, and I believe in the
7 five Bs: Be brief, baby, be brief, because it
8 is going to be a long night if we are not.

9 We need to understand that this is the
10 state of Florida first, and we need to
11 understand that you have a responsibility to
12 the state of Florida. I cannot draw your map
13 for you, but I can give you input when you
14 bring the map back to us.

15 I would ask you to consider the
16 communities and consider our needs and not
17 yours. I would ask you to continue to do the
18 great job, because I do not know a Senator that
19 represents us, or a Representative, that I am
20 not proud of. I don't know one that I have not
21 had the privilege of visiting in Tallahassee,
22 did not welcome me with open arms, and believe
23 me, I spent a lot of time up there.

24 I had the privilege of serving this
25 community for 22 years in law enforcement and

1 six years as a police chief, I continue to
2 serve this community in a government capacity,
3 has made my government service over 32 years.
4 I want you to do one thing for me, and that is
5 very simple: Do the right thing.

6 SENATOR GAETZ: Thank you very, very much.

7 Next -- next we will hear from William
8 Jennings. Mr. Jennings, are you here, sir? In
9 that case, Ms. Daniels, we are delighted to
10 have you step forward. And Pat, I think, and I
11 apologize, it is not your handwriting, it is my
12 eyes, Pat Carnevale, with the Democratic
13 Women's Club, and then David Lindsay with the
14 water control district, if you will come
15 forward.

16 Ms. Daniels, it is all yours.

17 MS. DANIELS: Thank you. Good evening.
18 My name is Ruby Daniels. I am the President of
19 ALVA, Inc., and our name stands for A Living
20 Vision of Alva, Incorporated. We are a
21 relatively new organization in a very old
22 community in northeast Lee County. We are very
23 rural. And our focus for organizing was
24 community planning. We have developed a
25 community plan that will go before the Lee

1 County Board of County Commissioners at the end
2 of September for adoption, and we are now
3 beginning to work on developing the land
4 development codes to underwrite our community
5 plan.

6 In another year or so, our community
7 planning efforts will be pretty much finalized,
8 and we realize that while we plan for ALVA, we
9 are a part of the larger Lee County community.

10 Our concern is that we are a part of House
11 District 72, which seems to always be held by
12 someone who lives in Punta Gorda, Charlotte
13 County. That person is naturally more attuned
14 to representing the needs of his constituents
15 in Charlotte County than in the small number of
16 Lee County residents. Being so far apart
17 geographically, there is rarely any
18 communication between our community and our
19 Representative. Further, we feel more closely
20 aligned to Lee County and its issues than
21 Charlotte County.

22 As we look to the future, we believe our
23 interests would be better served by someone who
24 lives in Lee County and is subject to the daily
25 ebb and flow of what happens locally and is

1 familiar with our local issues. Also, a local
2 Representative would be more accessible to us.
3 We respectfully request that you pull us into a
4 House district that will require a Lee County
5 resident to serve as our Representative in
6 Tallahassee.

7 We are also in Senate District 27 and face
8 the same set of circumstances with the House
9 district: Isolation, lack of communication,
10 geographic distance. Senator Benacquisto and
11 her predecessor, Senator Aronberg, have both
12 made efforts to overcome this problem, and we
13 are appreciative of that.

14 SENATOR GAETZ: And, ma'am, because of
15 time and the many people lined up behind you,
16 if you could wrap it up, I would be grateful.

17 MS. DANIELS: Thank you. We support a
18 movement to have a senatorial district for Lee
19 County and that we be a part of it. Thank you
20 for giving me the opportunity to speak.

21 SENATOR GAETZ: Of course. Thank you
22 very, very much, Ms. Daniels.

23 And I believe -- I apologize, Pat
24 Carnevale, Carnesvale -- all right -- with the
25 Democratic Women's Club, 213 Radcliff Avenue.

1 Okay, I'm sorry.

2 David Lindsay with the East County Water
3 Control District, then Michael Swords and then
4 Cheryl Byrd.

5 MR. LINDSAY: Good evening, everybody. It
6 is good to see so many people from our Lee
7 County delegation on this committee. That is
8 fantastic. I am the district manager of the
9 East County Water Control District that is
10 based in Lehigh Acres. I know you have heard
11 tonight that Lehigh Acres boasts a population
12 of 87,000 people, which would serve as a great
13 population center for a House district.

14 Lehigh Acres is not incorporated. We
15 receive a lot of our general services from Lee
16 County, but we do have two -- two governments
17 in Lehigh Acres that are based in Lehigh Acres:
18 The East County Water Control District and the
19 Lehigh Acres Fire District. The East County
20 Water Control provides the drainage, and, of
21 course, the fire district with the fire. And I
22 believe, and I think a lot of people believe
23 that the best government is the government that
24 is the closest to the people, and I think that
25 is very important. So I think that if we can

1 get a House district drawn around Lehigh Acres
2 and drawn around our fire district and our
3 water control district and around Matt
4 Caldwell, who is our resident here in Lehigh
5 Acres, that would be fantastic.

6 And also we have a district -- a Senate
7 District drawn around both of the two districts
8 in Lehigh Acres that would also have a Lee
9 County Senator in that district, we would
10 greatly appreciate it. Thank you.

11 SENATOR GAETZ: Thank you, sir.

12 Michael -- is it Swords, is that correct,
13 sir?

14 MR. SWORDS: Swords, yes, thank you.

15 SENATOR GAETZ: Swords. And I apologize,
16 sir, I don't know what LAEDB means, but that is
17 who you are representing, according to this
18 card, and maybe you can tell us about them.

19 Then Cheryl Byrd and then Nathan, I
20 believe it is Stovall, or Stovix, S-t-o-v --
21 Stout, Stout, okay. You should have been a
22 doctor, Nathan.

23 Michael, you are recognized, and thank you
24 so much for being here.

25 MR. SWORDS: Thank you. And that acronym

1 stands for the Lehigh Acres Economic
2 Development Board.

3 SENATOR GAETZ: Great. Thank you so much.

4 MR. SWORDS: Distinguished Senators and
5 Representatives, thank you for coming to Lehigh
6 Acres, Florida, our community, a community that
7 is approximately 100 square miles with a
8 population of 87,000, as you have heard
9 tonight, according to the 2010 census.
10 Delegates, please note that our community is a
11 young community, approximately 60 years old.
12 We are one of the fastest-growing communities
13 in southwest Florida. Lee County, with
14 approximately 640,000 in the county, Lehigh
15 Acres is the second-largest community in the
16 county by land mass and population.

17 Our community began as a bedroom community
18 approximately 60 years ago. Approximately ten
19 years ago, we had a population between thirty
20 to 35,000, and in ten years, you have heard the
21 numbers, we are almost 87,000. That is a
22 phenomenal growth. Based upon previous growth
23 and homes available here in our community, we
24 anticipate that in the next ten years, our
25 community could reach the target population of

1 a community -- a complete community that
2 qualifies for its own Representative.

3 While we are an unincorporated community
4 today, please recognize that Lehigh Acres is a
5 sleeping giant in the making. We are evolving
6 into a major city in the state of Florida, and
7 we believe within the next ten years, we may
8 very well be a city.

9 We ask that based upon these
10 considerations, that you consider Mr. Weiner's
11 request for two Senators for our community, in
12 addition for a Representative for Lehigh Acres.
13 We have tremendous needs, we have a tremendous
14 land mass here and we have a tremendous
15 population that needs representation. Thank
16 you.

17 SENATOR GAETZ: Thank you very much, sir.

18 Cheryl Byrd is our next testifier,
19 followed by Nathan and then followed by Dennis
20 Holland, and if Michael Neven would be prepared
21 to come forward.

22 Ms. Byrd, thank you, and we are delighted
23 to hear your testimony.

24 MS. BYRD: Good evening. I am Cheryl
25 Byrd, a two-year resident of Cape Coral.

1 Previously I was a 19-year resident of Dare
2 County, North Carolina, where I served as a
3 county commissioner for eight years. While
4 living there, I actively participated in public
5 input processes for county redistricting in
6 1992 and state redistricting in 2002.

7 I urge you to seek help from groups in
8 other states such as North Carolina and
9 Virginia, which went through the same
10 experience after the 2000 census, and now have
11 legislative and congressional districts which
12 are regarded as fair by most residents of those
13 states.

14 An essential characteristic of a good
15 district is that residents who live in it know
16 who represents them and have some reasonable
17 ability to meet with their Representatives. I
18 think our -- many of our current districts
19 don't satisfy that criteria.

20 Districts which split up cities, small
21 counties and even unincorporated areas that are
22 active, identifiable communities discourage
23 citizen participation in their state and
24 federal government. They also create confusion
25 when voters see campaign signs or literature

1 for a person they like, only to discover that
2 the person's name is nowhere to be found on
3 their ballot on election day.

4 Finally, they also create unnecessary work
5 for county election boards, which are charged
6 with keeping track of who resides in every
7 district you create. Errors are almost
8 guaranteed when you split up local voting
9 jurisdictions.

10 Draw districts which -- first ignore the
11 question of adequate representation of our
12 minority populations. Then look and see if our
13 minorities don't have a better chance of
14 electing someone who more closely identifies
15 with them than the current voting district
16 plans. Zoo-shaped districts, which give a
17 district to minority populations outright while
18 preserving many more districts for non-minority
19 incumbents, are no favor to anyone. That is
20 why the voters so overwhelmingly voted for the
21 Fair District amendments to the Florida
22 Constitution. Other states have found that if
23 enough districts provide a reasonable --

24 SENATOR GAETZ: And, ma'am, again, in
25 deference to those behind you, could I ask if

1 you might summarize, please?

2 MS. BYRD: Okay. I will just finish this
3 last -- this one point, and I will pass these
4 comments on to you.

5 SENATOR GAETZ: Thank you.

6 MS. BYRD: Other states have found that if
7 enough districts provide a reasonable chance
8 for a person from a minority group to be
9 elected, their plans have passed through
10 federal review process successfully. The
11 districts do not have to be more than
12 50 percent minority.

13 And I have a few other comments, so --

14 SENATOR GAETZ: We will be happy to take
15 them for the record, pass them out to our
16 members. Thank you very much, ma'am.

17 Next, Nathan Stout. Mr. Stout?

18 MR. STOUT: You got that right, thank you.

19 SENATOR GAETZ: Absolutely. Are you a
20 physician?

21 MR. STOUT: No, I -- no, I am a --

22 SENATOR GAETZ: Are you a teacher? That
23 is a classroom voice.

24 MR. STOUT: No. I am a certified public
25 accountant.

1 SENATOR GAETZ: Well, I am going to listen
2 to you.

3 MR. STOUT: Yeah.

4 SENATOR GAETZ: You have the floor, sir.

5 MR. STOUT: Thank you very much, and I
6 welcome you here and I welcome everyone here,
7 and certainly Senator Benacquisto and Senator
8 Richter and my good friend, Gary Aubuchon, and
9 come back more often, Gary. And we are so
10 proud of Representative Caldwell. And I can
11 tell you right now, I have lived in this town
12 for 30 years, I am a fourth-generation Lee
13 Countian, and I have never seen this much power
14 east of the interstate in my life. So thank
15 you for coming.

16 I am Chairman of the East County Water
17 Control District, I am also on the Board of the
18 Chamber of Commerce, and you have heard
19 everything about our community, how it is
20 growing. We are going to grow and continue to
21 grow. We will be 300,000 people, close to
22 that, some day. So we need to start now with a
23 Representative that works this area solely. I
24 don't care who you attach us to, but put all
25 80,000 people in Lehigh Acres in one district.

1 SENATOR GAETZ: Thank you.

2 MR. STOUT: We are going to continue to
3 grow, and so we need that. And, again, I want
4 to thank everyone for coming out tonight.

5 SENATOR GAETZ: Thank you very, very much,
6 sir.

7 Dennis Holland, and following Mr. Holland,
8 I believe it is Michael Neven and then Jerry D.
9 Carrick and then Pete Burkert.

10 Mr. Holland?

11 MR. HOLLAND: Yes.

12 SENATOR GAETZ: Thank you.

13 MR. HOLLAND: My name is Dennis Holland.
14 I have lived in Lee County since 1980. I would
15 like to say I am a retired design engineer, but
16 I am an unemployed design engineer.

17 You folks are sitting here listening to us
18 to give testimony on a job that you are to do.
19 You've got staff. There is a program out
20 there. My main question, show of hands would
21 be a simple thing, how many of you have
22 actually used the program that is out there on
23 the Web right now for redistricting? How many
24 people in the audience have? They outnumber
25 you.

1 You folks should have had maps. You
2 should have had something laid out so that
3 people have something to talk about other than
4 what I saw in the lobby, which was a good first
5 start.

6 Your deadline is a little too long. You
7 need to shorten it up. It should be shortly
8 after the first of this year, not in June, to
9 get your work done. If you can't get it done,
10 say so to the public, and then we will do what
11 we have to do in order to get maps made up.

12 That is my comment. Have a nice week.

13 SENATOR GAETZ: Thank you, sir.

14 MR. NEVEN: Hi, there. I am a little loud
15 normally.

16 SENATOR GAETZ: You woke us up.

17 MR. NEVEN: I just want to make sure you
18 are not sleeping, that is all.

19 SENATOR GAETZ: We are not anymore.
20 Thanks, Michael.

21 MR. NEVEN: My name is Mike Neven. First
22 of all, I want to say thank you for being here
23 tonight. I think it is wonderful you chose
24 Lehigh to have this forum. This is something
25 that is good for our image.

1 First of all, I would like to let you
2 know, I am a small businessman, I am a realtor,
3 and I am a chamber board member, but I am here
4 to speak for myself and not for them. I have
5 been living in the community of Lehigh Acres
6 for 27 years, and you notice I said the word
7 "community." Lehigh Acres is not, due to
8 manufactured fear and ignorance, a city yet.
9 We will be some day. We need to be.

10 I also am a member of what we call the
11 dumbbell district, and it is very well named
12 because of the fact that we have nothing in
13 common with the other end of the dumbbell or
14 the bar. Lehigh is part of Lee County, and
15 Lehigh is all part of Lehigh. My -- I am here
16 to say keep Lehigh together and keep Lehigh
17 part of Lee County where I pay my taxes and do
18 my entertaining. That is all I have to say.
19 Thank you.

20 SENATOR GAETZ: Thank you very much.

21 Next is Jerry Carrick and then Pete
22 Burkert, and then Ken Thompson, if you would be
23 ready, please.

24 MR. CARRICK: Good evening, and thanks to
25 the delegation. Welcome to Lehigh Acres, the

1 fastest-growing community in southwest Florida,
2 saying that with a lot of excitement, I am a
3 business guy here for the last seven years.

4 Lehigh is a great community. We need to
5 be one district. We need to hold our community
6 together. We are fast growing, we have a lot
7 of challenges, and when we are split, it just
8 polarizes all the efforts that we do when we
9 need to come to you for help. We need a
10 Representative who we know him so we aren't
11 split so we have one common goal.

12 So thank you very much for coming, and
13 thank you for bringing Jason along out there.
14 He has helping me try to rig those maps out
15 there, I am lost, but he is going to aid me
16 this week and we will get an accurate map in to
17 you. So --

18 SENATOR GAETZ: Thank you very much.
19 Thanks for your submission of a map.

20 Pete Burkert. Is it Burkert?

21 MR. BURKERT: Yes, it is, sir. Thank you
22 very much.

23 SENATOR GAETZ: Thank you for being here.

24 MR. BURKERT: Good evening, everyone,
25 Senators and members of the House. My name is

1 Pete Burkert, I am a local attorney, been a Lee
2 County resident for 34 years.

3 I think what has become relatively
4 apparent from all the conversation is that the
5 Fair Amendments passed in a year that was
6 arguably very difficult for these kind of
7 amendments, which makes its victory even that
8 much more impressive, meaning that the
9 63 percent that occur generally would have been
10 perhaps higher in other years, which means that
11 the public meant it when they passed it and
12 they really wanted these amendments. And I
13 think as those of you who are going to be
14 responsible for the outcome of this, you ignore
15 the amendments, you work around the amendments
16 at your peril, and you should be cautious of
17 whatever you do and whatever comes out, that it
18 clearly meets the test of these amendments.

19 I believe that looking at the wording of
20 the amendments, there are two things that are
21 really clear, that when you start this from
22 your computer, that the drawing of these
23 district lines must be totally blind and
24 totally neutral in these two areas: One, the
25 voter registration by party of the people

1 involved. You cannot know when you start this
2 process off how many Democrats, how many
3 Republicans, are in each district. That
4 violates the Fair Amendment -- Fair Amendments.

5 Secondly, you can't put in the address of
6 incumbent members. That violates it. If it is
7 determined later on that your computer program
8 has those two components as part of the initial
9 setting of the districts, I believe you will
10 have violated the Fair Amendments. This --
11 those two elements need to be completely
12 excluded of it.

13 Going beyond that, I believe the most
14 important sub-unit for use in setting these
15 districts is the county. The county is used by
16 Florida in a variety of ways, whether it is
17 water management districts, judicial circuits.
18 The county needs to be the focus.

19 In order to try to make an effort, a
20 strong effort, to preserve minority districts,
21 I think you should work from the core of urban
22 areas and outwards. In other words, there's
23 got to be a place to start when you build a
24 district, isn't it? You could start in
25 Pensacola and work down, you can start in Key

1 West and work up, you can pick a county and
2 start there, but I believe the starting point
3 ought to be the core areas, the core urban
4 areas, and work out from there somehow, paying
5 attention to these county lines, first of all,
6 and in counties that are big enough that have
7 more than one district, you go down to city
8 lines.

9 SENATOR GAETZ: And, sir, you've made some
10 very good points, but in deference to those
11 behind you, I did let you run a little over --

12 MR. BURKERT: Thanks.

13 SENATOR GAETZ: -- and if you could
14 summarize, I would be grateful.

15 MR. BURKERT: Fifteen seconds.

16 As a recent candidate for State Senate, as
17 Senator Benacquisto knows, and who ran for
18 District 27, it is my view as well that
19 District 27 ought to fall apart completely. It
20 does not meet the test of compactness. Pure
21 and simple, it should fall, and Lee County
22 deserves its own seat. I said that in my
23 campaign, and I stick with that tonight.

24 SENATOR GAETZ: Thank you, sir. Thank you
25 very much.

1 Ken Thompson? Ken Thompson is next and
2 then we have -- this individual already
3 spoke -- Cathy Michiels, and then Dena
4 G-e-r-a-g-h-t-y with the drug courts.

5 So, Ken Thompson, do we have Ken Thompson
6 here? We will pass him.

7 Cathy Michiels? Is it Michiels?
8 Ms. Michiels, we really -- I'm sorry I didn't
9 give you more notice, but thanks -- no, you are
10 doing fine. Thanks so much for being here, and
11 you are recognized, ma'am.

12 MS. MICHIELS: Thank you, and thank you
13 all for coming here and giving me this
14 opportunity to speak.

15 Pretty much everybody has said, you know,
16 a lot of what I had written and wanted to say,
17 so I am just going to reiterate a couple things
18 and point out something that hasn't been said.
19 And, again, 63 percent of Lee County voted for
20 this 5 and 6 amendments, 60 percent of Florida
21 voters. It is not 50, 51 percent, it is over
22 60. It is a great majority.

23 You need to not make this a charade that
24 it is purported to be, and the millions of
25 dollars of our taxpayer money that you are

1 spending regardless of, again, the semantics of
2 how you are going to defend it, it is our
3 taxpayer money, you are fighting for what we
4 wanted. In the meantime, you are firing
5 people, policemen, teachers, firemen, to spend
6 the money on this. Are you kidding me? No,
7 that -- it is beyond ridiculous.

8 And the other thing I would like to point
9 out is we are spending trillions, trillions of
10 dollars and our civilian population to give the
11 right to vote in Iraq and Afghanistan, and you
12 are going to sit here and go back to
13 Tallahassee and take our rights away.

14 SENATOR GAETZ: Ma'am, we are -- could we
15 keep it to Florida redistricting?

16 MS. MICHIELS: I get that, but my point
17 is --

18 SENATOR GAETZ: Because we don't control
19 Afghanistan --

20 MS. MICHIELS: I understand.

21 SENATOR GAETZ: -- so bring it back down
22 to us.

23 MS. MICHIELS: Okay. But you get the
24 point. We are fighting for our rights, for our
25 right to have fair districts here, and our

1 taxpayer money should not be used to
2 disingenuously take away our rights. And we
3 are onto you, we smell what you are cooking,
4 and we will be back with more petitions if you
5 try and take our rights away.

6 SENATOR GAETZ: And, ma'am --

7 MS. MICHIELS: Mark my word.

8 SENATOR GAETZ: Time. Thank you so much.

9 MS. MICHIELS: Thank you.

10 SENATOR GAETZ: Appreciate your being
11 here. The louder you talk, the more applause
12 you get, now you keep that in mind.

13 And, ma'am, could you please let us know
14 -- sh, sh, sh, hey, in the back, be nice now to
15 this lady. Tell us how to pronounce your name,
16 ma'am.

17 MS. GERAGHTY: Geraghty.

18 SENATOR GAETZ: Geraghty. And,
19 Ms. Geraghty, would you pull the microphone
20 close to you so we can get every word?

21 MS. GERAGHTY: Yes, sir. Yes, sir. Thank
22 you very much.

23 Thank you, Mr. Chairman, and thank you to
24 the legislative delegation that is present. We
25 appreciate your work, and we know the time and

1 effort that you have put in.

2 I am a native Floridian, I am rather proud
3 of that, and I have lived in Lee County in the
4 city of Ft. Myers for 42 years. We have
5 enjoyed a great deal of growth in this area,
6 and while there has been a great deal of talk
7 about the cross-state districts not being
8 totally representative of the people, I believe
9 it is through the efforts of this cross
10 districts and the other representation that we
11 have had from our wonderful delegation that has
12 taken us from a sleepy little Florida community
13 into contiguous, diverse, productive
14 communities that can hold hands and go forward
15 in progress. Thank you.

16 SENATOR GAETZ: Thank you so much,
17 Ms. Geraghty.

18 And I apologize, Damon -- I believe it is
19 Sheldon or Shellon -- Shelor. And is there --
20 there is. And following his testimony, we will
21 hear from Lucille -- and now, Lucille lives at
22 104, I think, Ortona Street in Lehigh Acres,
23 but, Lucille, I apologize, I am sure it is my
24 eyes, but if it is Moffatt or something like
25 that. And then following Lucille, Kenneth

1 Taylor.

2 Thank you very much, sir, and you are
3 recognized and we're delighted to have your
4 testimony.

5 MR. SHELOR: Thank you very much. A lot
6 of people slaughter my name, so that is okay, I
7 am used to it.

8 But, once again, thank all of you all for
9 coming out here to our community. This is -- a
10 comment was made, this is probably the most
11 power we have seen out east of I-75, and I
12 believe that is true. I am a 36, 37-year
13 resident of Lehigh Acres, seen a lot of
14 changes. When I moved here, there was less
15 than 10,000 people and no traffic lights and no
16 McDonald's or fast food places. So we have
17 seen lots of change. Southwest Florida has
18 seen a lot of change. We have seen a lot of
19 growth.

20 The point I want to make, and I am not
21 going to reiterate a lot of things that were
22 made here tonight, points that were made here
23 tonight, but essentially you can look at Lee
24 County, look at a lot of the unincorporated
25 areas of Lee County, which we have a lot in

1 common east of I-75, and it creates a very
2 nice, compact, contiguous House district. I
3 think you need to seriously consider that. And
4 I think that is the main thing that you are
5 hearing tonight is to not have -- and I won't
6 use the word "gerrymandering," but I just did,
7 but stretched out, odd-shaped, snake, curly Qs
8 for districts. We need to have good contact
9 with our Representatives. This is a
10 representative community, and it is important
11 not only for the people, but also their
12 Representatives to be in an area, know the area
13 and have contact with the people they
14 represent.

15 And so, again, I thank you. I will be
16 brief, hopefully I will get that piece of pie
17 for being brief, and thank you for coming out
18 tonight.

19 SENATOR GAETZ: Just sign Representative
20 Legg's name to the slip, you'll have a piece of
21 pie. Thank you very much.

22 And now my deep apologies, Lucille.
23 What's your last name, ma'am?

24 MS. MOFFATT: Moffatt.

25 SENATOR GAETZ: Moffatt, I got it right.

1 MS. MOFFATT: Moffatt, yes, M-o-f-f-a-t-t.

2 SENATOR GAETZ: Okay. Well, you are
3 recognized, and we are delighted to have you
4 here tonight.

5 MS. MOFFATT: Yes. Well, good evening,
6 everyone. We are happy in Lehigh Acres to have
7 you here. It is a long time that we need to
8 see something like this happening in Lehigh. I
9 am an old Wall Street girl, and after I
10 retired, I came to Lehigh, such a beautiful
11 place, and we try our very best to have it as a
12 very nice community.

13 We listen every year to all the
14 legislators coming in and speaking to vote for
15 them, which we all get together, because we
16 need improvement in Lehigh Acres, but the
17 moment we do so, first, some of them, when we
18 vote, we don't know them, and it is worse when
19 they get through, we are left in the dark.

20 Right now in Lehigh Acres, although we are
21 under one umbrella, we have a lot of Carribean
22 folks living here. We have the Spanish people
23 living here. And what I want to know, when we
24 regroup, who does it benefit? Does it benefit
25 Lehigh Acres? Does it benefit the legislators?

1 Many of us are laypeople. We do not understand
2 about this sharing up of the county -- or of
3 the districts, but we want to know -- one thing
4 we want to know, that Lehigh Acres -- sometimes
5 we can't even see it on the map, even when the
6 weather report is going out, our name is not
7 there, and that is the truth. So we want to be
8 on the map. And we understand the reason why
9 we are not getting things is because we have no
10 power. But, believe me, we are going to get
11 power now, because when the Representatives
12 come, they promise us Jesus. Only Jesus they
13 don't promise us. Everything in the world.
14 But, believe me, if we don't get what we want,
15 we are going to give them Father, Son and holy
16 ghost. So --

17 SENATOR GAETZ: Well, before you take up a
18 collection, if you could wrap up, your time is
19 limited.

20 MS. MOFFATT: We will have to go to the
21 legislators for the collection, because we are
22 all broke.

23 SENATOR GAETZ: At every -- Ms. Moffatt,
24 at every single hearing, somebody has the best
25 line, and tonight, by acclamation, you get the

1 prize, and that -- that, Ms. Moffatt, is pie a
2 la Mode on Representative Legg at Perkins.
3 Thank you for your testimony.

4 And now Kenneth Taylor, Mr. Taylor, and
5 following Mr. Taylor, Woody Hanson and then
6 Joseph Whalen.

7 MR. TAYLOR: Thank you, sir. I speak for
8 two constituents tonight, first for the armed
9 forces veterans of southwest Florida. I am a
10 retired Navy officer with 23 years service to
11 my country, and I would like to state very
12 emphatically that the veterans of southwest
13 Florida, of which there are thousands, one of
14 the most populous areas in the state for
15 retired veterans, we are very keen on
16 Amendments 5 and 6 and protecting our rights.
17 As you know, thousands -- hundreds of thousands
18 of Americans have died to protect those rights,
19 and I ask you to consider the fact that we are
20 talking about basic democracy here. We are
21 talking grass roots level ability of the public
22 to influence our legislation to be fairly
23 represented, which we certainly have not been.

24 The barbell thing, everybody has talked
25 about it enough, when I retired down here, I

1 was appalled to see that that was actual fact,
2 and I cannot in any conscience figure how the
3 State could have let that happen. That is
4 absolutely outrageous and unconscionable and
5 does not represent Lee County at all.

6 Lee County has over 680,000 people. We
7 are growing rapidly. You have heard that. We
8 have a lot to be thankful for. We deserve a
9 U.S. Congressman in Lee County. We deserve to
10 have better representation in the House. It is
11 ludicrous to have five Representatives dividing
12 up this county. That means no Representative
13 has a majority part of the county that he is
14 concerned about. We need better
15 representation. It is absolutely insane to
16 have five House members in -- that touch on Lee
17 County, some of them just barely.

18 I also want to speak quickly, I am
19 Vice-Chairman of the Democratic Party of Lee
20 County. My counterpart spoke, so I thought I
21 should say the same. Over 70 percent of the
22 Democrats in -- the 106,000 Democrats in Lee
23 County voted for Amendments 5 and 6. We are
24 passionate about it, as one of the other
25 Democrats said. We worked very, very hard,

1 thousands and thousands of hours for these
2 amendments. We expect the Legislature to do
3 the right thing, to follow the will of the
4 people, to not play games with us, because as
5 many speakers have said, we are certainly
6 watching.

7 And, finally, I want to say one thing: I
8 learned something tonight that I didn't know
9 and I should have known being Vice-Chairman.
10 That \$30 million of our public funds have been
11 appropriated by the State Legislature to defeat
12 the will of the people. That is an outrage,
13 okay. It is our money. Thank you.

14 SENATOR GAETZ: Thank you. And,
15 Mr. Taylor, first of all, thank you for your
16 service to our country. Everybody here
17 appreciates that. And, secondly, I hope you
18 can stay until the end, because every once in a
19 while, something gets in the bloodstream that
20 is not quite true, and I think we will have a
21 chance to at least provide some factual
22 information, and then that way, everyone can
23 make judgments about those facts. Thank you,
24 sir, and thanks again for your service.

25 Woody Hanson. Mr. Hanson, followed by

1 Joseph Whalen, followed by Linda Carter.

2 MR. HANSON: Good evening, my name is
3 Woody Hanson, for the record, and thank you for
4 being here, and I think most importantly, I
5 thank everybody for being here and making us
6 feel part of a community that cares.

7 My family got here quite a while ago. My
8 mama's side got here in 1866 and my dad's side
9 got here in 1884. I used to think that was
10 important, but what really is important is that
11 we are here tonight.

12 And what I really want to speak to is an
13 issue that I believe that is near and dear to
14 each and every one of us, and that is water. I
15 grew up on the Caloosahatchee River, and I've
16 watched that river just go to hell. And
17 there's a lot of straws in the ground in Lehigh
18 Acres, and there's a lot of straws in the
19 ground in Cape Coral that are going to be real
20 concerned about the quality of their water.

21 SENATOR GAETZ: And, sir, I would love to
22 chat with you after the hearing about water
23 quality, but if we could keep it to
24 redistricting or bring it back to
25 redistricting.

1 MR. HANSON: I cannot thank you enough,
2 because that takes me right there.

3 SENATOR GAETZ: Great.

4 MR. HANSON: The river, if you did not
5 know, runs east and west, and that is why I am
6 here for a cross-state representation, because
7 of that geometry, and I cannot thank you,
8 Senator, for bringing that point more clear --

9 SENATOR GAETZ: Thank you.

10 MR. HANSON: -- than what you just did.

11 SENATOR GAETZ: Great. Thank you very
12 much, Mr. Hanson.

13 Joseph Whalen, followed by Linda Carter,
14 and followed by Thomas -- I think it is
15 Bruzzesi, and I apologize, sir, if I have your
16 name wrong.

17 Mr. Whalen, you are recognized. We are
18 delighted to have you here tonight.

19 MR. WHALEN: Thank you, Senator Gaetz.
20 Also, thank you, Senator Benacquisto,
21 Representative Caldwell, my partner, Lehigh
22 Acres resident. I am the current President/CEO
23 of the Lehigh Acres Chamber of Commerce. That
24 having been said, I am not speaking to you
25 tonight as the President/CEO of Lehigh Acres

1 Chamber of Commerce, most notably because that
2 will no longer be my title in about 30 days and
3 four hours and -- not that I am counting,
4 because I am moving on to bigger and better
5 things.

6 But, anyway, I am here to speak for my
7 family. And I know all of you -- I would
8 assume all have family. I try as much as
9 possible to, whenever I speak with you
10 personally one-on-one or to you as a group, to
11 do your best. I know it is very, very
12 difficult in Tallahassee to do what you have to
13 do, what you have been elected to do. This
14 obviously is one of those instances. I
15 sincerely appreciate the fact that you are
16 bringing this to the people, the redistricting,
17 and I think it is a very admirable effort, and
18 I certainly hope that it is going to shine the
19 light upon the people that it is intended to
20 do. In fact, I have heard Representative
21 Caldwell speak on redistricting two times now,
22 and he is an aficionado on redistricting and
23 the history of it, and I am not just giving him
24 props and love, I am just saying it really is
25 amazing what he does.

1 But getting back to my original point, I
2 am the current executive for the Lehigh Acres
3 Chamber of Commerce, but more importantly than
4 that, I am a husband to Jennifer. Jennifer
5 teaches fifth grade at Lehigh Elementary. My
6 daughter just started kindergarten at Lehigh
7 Elementary. My son is going to be three on
8 September 17th, which I just found out is
9 actually Constitution Day. Did you guys know
10 that? That is actually when they signed the --
11 yeah. So my son was born on Constitution Day,
12 okay, enough about that. I will get to the
13 point about my family.

14 I strongly believe that this community,
15 this county, needs our own representation. I
16 am a strong believer in the closer you have
17 your representation to home, the better you are
18 represented. Obviously, we have heard about
19 Senate District 27, and I am a firm believer
20 that we need to bring it all over here on the
21 west coast.

22 SENATOR GAETZ: Thank you.

23 MR. WHALEN: Thank you.

24 SENATOR GAETZ: Thank you very much, sir.

25 MR. WHALEN: Appreciate your time. Thank

1 you.

2 SENATOR GAETZ: And next, Linda Carter.

3 Ms. Carter, thank you for coming tonight. You
4 could have been anywhere else, but you came to
5 hang out with us, and we are grateful for your
6 testimony.

7 MS. CARTER: Yes, I am Linda Carter, and
8 one of the things that I want to bring to you
9 that is a national problem, as we looked at
10 disaster preparedness, we have -- this county
11 has five Representatives. Lehigh Acres is 143
12 square miles, the size of Orlando. With five
13 different people representing Lee County, if we
14 get hit with a natural disaster like they got
15 hit up north with Irene and the rest of them,
16 are we going to get all five of them to agree
17 on what we need in Lehigh? We need a unified,
18 consolidated disaster preparedness plan and all
19 of you working together to protect this
20 community of 143 square miles in case we have a
21 natural disaster. If we don't do it now, we
22 cannot wait until Katrina and -- or Andrew and
23 everything in the past. We need to prepare now
24 and look to the future for our children, their
25 children and do it now. Thank you.

1 SENATOR GAETZ: Thank you very, very much.

2 And our final speaker this evening, and I
3 apologize that I don't -- I am not able to
4 divine his name. I am sure it is my eyesight.
5 Thomas J. -- is it Bruzzesi?

6 MR. BRUZZESI: Very good pronunciation, by
7 the way.

8 SENATOR GAETZ: All right. You are
9 recognized, sir, for two minutes.

10 MR. BRUZZESI: How are you doing, folks?
11 I appreciate having the opportunity to speak in
12 front of you. I've listened to everybody
13 tonight, and before I wanted to get up here and
14 speak, I wanted to listen to everybody.

15 This what you all are doing here is a very
16 good thing tonight. A government is supposed
17 to be of listeners, not lecturers, okay, of
18 citizens, not elitists, and of change and not
19 stand still. By you giving everybody the
20 opportunity to get up here and speak like
21 myself tonight, this is a great display of
22 that, and I really appreciate that.

23 But I want to say that when we talk about
24 redistricting here, in each and every one of
25 these districts, folks, we have a huge, huge

1 problem, okay, we have a huge problem of
2 unemployment. You are all elected officials.
3 As you know, I have put on there, I am a 2012
4 Republican candidate. I am stepping up for the
5 American people to put people back to work.
6 You have an entire federal government can't
7 create one job.

8 SENATOR GAETZ: Well, sir, we need to
9 bring it back to redistricting in Florida.

10 MR. BRUZZESI: I will. Inside these
11 districts, folks, we have a lot of people
12 unemployed, and every one of you officials need
13 to step up, bring this message to Washington
14 and say, "Hey, we got to get people back to
15 work," and that is what needs to happen. Okay.
16 So I'm am asking you all tonight, each and
17 every one of you in your district, okay, to get
18 out there, go back to Washington and say, "Hey,
19 we got a big problem here, we need to change
20 it." If you can't -- if you can't do it, ask
21 me and I will tell you how.

22 SENATOR GAETZ: Thank you very much, sir.

23 MR. BRUZZESI: Thank you very much.

24 SENATOR GAETZ: Thank you for your
25 testimony.

1 Ladies and gentlemen, we have had 64
2 individuals come forward and provide their
3 input tonight, and I don't know about other
4 members, but I have made nine pages of notes,
5 and we are also going to have a written
6 transcript and a video transcript of everything
7 that all of you said. But we have reached the
8 part of our hearing tonight where you have
9 asked a number of specific questions, we are
10 going to give members an opportunity to make
11 any comments they wish to make, and I will turn
12 to Representative Legg on behalf of the House
13 for any comments he might wish to make, and
14 then I have made a few notes on questions that
15 I will try to make sure we get covered.

16 So let me start first with members of the
17 House of Representatives who are here who would
18 like to offer any comments or answer any
19 questions. Members of the House? Wow, enjoy
20 the moment. It is not going to last.

21 Representative Caldwell.

22 REPRESENTATIVE CALDWELL: Just quickly, I
23 wanted to give all my colleagues a chance if
24 they wanted to, but thank you all very much for
25 coming out here this evening and sharing your

1 thoughts and your concerns, for keeping this a
2 very civil evening, and I know that the body
3 here will leave very impressed with the civic
4 engagement that we have here in this community
5 and appreciate everything that you have brought
6 here this evening. Thank you very much.

7 SENATOR GAETZ: Thank you very much,
8 Representative. Any other members of the House
9 wish to offer any comments?

10 If not, members of the Senate who are on
11 the Senate Reapportionment Committee, any
12 comments from members of the Senate?

13 Senator Storms.

14 SENATOR STORMS: Thank you, Mr. Chair. I
15 appreciate your leadership, and I appreciate
16 folks being as kind as you -- we've only had
17 one little incident of veins popping out of
18 people's necks and foreheads, and so that was
19 really good, I appreciate that.

20 I did want to address this sort of
21 overarching message sometimes that I have
22 heard, and that is that this is a charade and
23 that we are all, I don't know, engaging in
24 something. And I just have to say that I
25 have -- I am a registered Republican for those

1 of you who don't know, so -- and I was
2 appointed to this committee. I've done my due
3 diligence. I thought that I worked very hard
4 in trying to listen and trying to go back to my
5 district. I had staff come down and train me
6 how to do District Builder, and I am training
7 my own office and I got my own office staff on
8 how to do that, but for people -- you know, I
9 just want to say to you that for this Senator,
10 and I think that everybody on the Committee
11 agrees that we're spending our own time to come
12 and do this. For instance, yesterday I was in
13 the pediatrician's office with my two kids at
14 three o'clock, we had an appointment. At 5:09,
15 I was still in my pediatrician's office and I
16 hadn't been seen yet. So I had to call my
17 husband and say, "Come relieve me in the
18 pediatrician's office," so I could get down to
19 the next meeting in Sarasota that I needed to
20 get to. When I finished that meeting at nine
21 o'clock at night, I had to drive back to
22 Ellington to get my clothes, because I didn't
23 take them to the pediatrician's office. My
24 aide met me there. And so then I drove to
25 Naples. And I don't tell you this so that you

1 can feel sorry or bad about it, but that is a
2 lot to go through for a charade that nobody
3 knows much about, you know. I mean, usually if
4 you are engaging in a charade, you do it in
5 front of an audience, but I was by myself
6 driving down I-75 to get to Naples in the
7 morning and then to drive over here to Lehigh
8 Acres.

9 So I am saying to you, I don't know about
10 any massive part of a charade or a conspiracy,
11 but as far as the members of this committee are
12 concerned, we are taking this seriously. We
13 appreciate the right to vote. Some of us went
14 to jail for civil rights on this committee, and
15 they have a long history in battling for
16 people's right to vote. So everybody here is
17 taking that seriously, myself included, and I
18 just thought that that was appropriate to say
19 that for the record.

20 So thank you for your service here tonight
21 in holding us accountable, and thank you for
22 those of you who disagree with the districts,
23 saying that in a civil manner, too. I, for
24 one, sincerely appreciate that.

25 SENATOR GAETZ: Thank you very much,

1 Senator Storms.

2 Other members of the Senate? Senator
3 Benacquisto.

4 SENATOR BENACQUISTO: I just want to say
5 in closing for us as members of this
6 delegation, thank you so much for coming out
7 this evening and for sharing your heartfelt
8 concerns about your community and what you want
9 to see happen in the future. The pride in
10 Lehigh Acres is entirely evident in your
11 comments, and for those commenting on Lee
12 County as a whole, we hear that pride as well
13 and we take it to heart. So thank you for your
14 participation.

15 SENATOR GAETZ: Thank you very much.

16 I would like to turn to Representative
17 Legg, our Speaker Designate of the Florida
18 House. Representative Weatherford typically is
19 here and co-Chairs meetings. He has done
20 yeoman's service and been at hearing after
21 hearing, and tonight he had to go home for a
22 family issue, to be with his young family, so
23 Representative Legg is representing the House
24 of Representatives tonight.

25 REPRESENTATIVE LEGG: Thank very much,

1 Senator Gaetz. I just want to say on a
2 personal note, thank you very much. This was a
3 very informative meeting. As someone that
4 comes from north Tampa, Pasco County, I know
5 very little about this part of the state, and I
6 know the Senator has nine pages of notes, he
7 must have took a little -- few more notes than
8 me, I have about seven pages of notes. But it
9 is something that we just don't get in
10 Tallahassee. We don't get the details and we
11 don't get the logistics and the nuances of the
12 districts of what you put here today, and I
13 know it helps me as we go into and we start to
14 put these maps together in a couple of weeks
15 when we go to committee weeks. Without a
16 doubt, it was instrumental to inform me, and I
17 know many of our House colleagues absolutely
18 who are not from this part of the state needed
19 this information.

20 You know, as the Senator said earlier, and
21 he is probably going to go over a couple of
22 questions, I just wanted to highlight a couple
23 of issues or a couple of topics that were
24 stated that may have been off the mark just a
25 little bit and provide a little bit of clarity

1 and a little bit of information as sometimes
2 our friends in the press may not get everything
3 exactly right and it kind of snowballs from
4 that point.

5 There was a couple of statements about a
6 20 to 30 million dollar slush fund that is used
7 to -- for lawsuits to fights amendments. That
8 is simply not accurate. The Florida House --
9 and Senator Gaetz would know this better than
10 anyone else. The Florida House has
11 \$30 million, but it is set aside for reserves
12 for building maintenance, for computers, for
13 all sorts of House infrastructure. If there
14 was \$30 million set aside, I am confident that
15 the Senate would have taken it from us and put
16 it in other categories during the budgeting
17 process. So there is no \$30 million dedicated
18 to some sort of lawsuit out there.

19 Now, what -- you don't have to take my
20 word for it. I heard some individuals out
21 there say, "Well, give us a list, give us a
22 breakdown." Well, I will give you the
23 breakdown. If you would like, you can pull it
24 up for yourself so you can look and verify and
25 pull all the facts up. If you go to

1 www.transparencyflorida.gov, all of Florida
2 House's expenses are on that website. So you
3 can pull it up for yourself, you can look at
4 it, you can see it, you can double-check it,
5 you can see where the money is being spent and
6 how it is being appropriated.

7 And I just want to say something for
8 myself, and I am sure some of my fellow
9 colleagues would agree with this, is that
10 regardless of what happens in the court system,
11 regardless of what happens, when I was elected,
12 I put my hand on the Bible and I was sworn to
13 uphold the Constitution of the United States
14 and the Constitution of the State of Florida
15 and whatever is in that. That is Amendment 5
16 and Amendment 6, and that is what I am going to
17 do and that is what we are going to do in this
18 process. We are going to do it to the best of
19 our ability.

20 Now, there's folks in here that I am sure
21 got a little upset and get angry saying you've
22 got to do it exactly. If you look at that, it
23 is a complex issue. We are going to do a good
24 faith effort and try our darnedest to do
25 everything possible to uphold 5 and 6, because

1 I believe in this country, I believe in the
2 Constitution, the voters passed that, we swore
3 we would uphold it, and that is exactly what
4 the House and I am sure that the Senate is
5 going to do when we go into session.

6 So with that, Mr. Speaker, Mr. President,
7 you did an amazing job, especially on this
8 tour, and I am sure you have other things to
9 kind of highlight.

10 SENATOR GAETZ: Thank you very much,
11 Representative Legg.

12 I made a list of specific questions or
13 data points that came up so that as that great
14 Democratic Senator Daniel Patrick Moynihan
15 said, "Everyone is entitled to their opinion,
16 but not everyone is entitled to their own set
17 of facts." So in that spirit, the gentleman
18 from AARP who started our evening off, and did
19 so well, talked about a timeline. Let me
20 mention a couple of facts that relate to the
21 timeline that might give you some more
22 information.

23 First, the census information upon which
24 we are legally obliged to base redistricting
25 comes from the U.S. Bureau of the Census.

1 Florida was not the last state to get our
2 census data from the federal government, but we
3 were one of the last states. Other states get
4 their census bureau data before Florida. Now,
5 why is that? Because there are a number of
6 states that have their elections on
7 odd-numbered years. Louisiana was mentioned
8 tonight. Louisiana has its elections on
9 odd-numbered years, so they get their census
10 data first. The census data doesn't come all
11 at once to every state. It comes in groupings.

12 Secondly having to do with the timeline,
13 the state of Illinois was mentioned. Well, we
14 could have done it like Illinois did it. They
15 are done. The way they did it -- they are a
16 one-party state. The way they did it was they
17 had a committee of legislators who literally
18 went in a back room, who developed a set of
19 maps, who came to the floor of the Legislature
20 without any public hearings, and the maps were
21 voted on, the Legislature left town. We could
22 have done that, and there are those who might
23 have wanted to do it that way. It used to be
24 done that way in Florida. But our Senate
25 President and our House Speaker said that we

1 would do it the hard way, which was to cut
2 after we had measured, and that meant going
3 first to the people of Florida and asking for
4 criticism, for input, for suggestions, and we
5 have received all kinds of comments about
6 process, but we have also received hundreds of
7 specific suggestions of the kind we got
8 tonight. Representative Legg is right. We
9 couldn't have heard the information that was so
10 local and so specific to Lee County and Lehigh
11 Acres and this area sitting in an echo chamber
12 in Tallahassee only listening to politicians.
13 We had to get that information from you,
14 because you live here, you work here, your
15 economic units are here, your schools are here,
16 and you made it very clear what you wanted.

17 We have accelerated the process as much as
18 constitutionally we are able to do so.
19 However, any legislator at any time can present
20 a map for discussion, any citizen can, any
21 special interest group can. We have now over
22 -- I think we have 51 maps now. Many of them
23 are outside for you to look at. All of them
24 are on the Internet for you to look at. And at
25 every single meeting, we invite Democrats or

1 Republicans to provide us with any additional
2 information they have.

3 I Chair the Senate Reapportionment
4 Committee. Here is what we are going to do at
5 our first meeting, which is on September 22nd.
6 We are going to call to order, we are going to
7 take roll, do a little housekeeping details,
8 and then we are going to try to right a wrong
9 that was done ten years ago. The Democratic
10 Leader of the Senate, Senator Nan Rich, was in
11 the Legislature as a House member ten years
12 ago, and ten years ago she was told as a
13 Democrat, "We don't even want to look at your
14 maps. We don't need to look at your maps."
15 She wasn't allowed to present one. Nobody
16 apparently cared about her proposals as a
17 member of the minority. We can't unwind
18 history, but we can make sure that we don't
19 make the same mistake. So the very first thing
20 we will do in our meeting on the 22nd of
21 September is to turn to the minority party and
22 give them the first chance to provide any maps
23 or any input, and then we will go to options
24 that come out of our hearings and come out of
25 the input that we have received from all of

1 you, options that may be articulated by
2 Democrats or Republicans. But the first turn
3 at bat will come for those who were turned away
4 and told they would not be welcome ten years
5 ago, and that is the members of the minority
6 party in this state.

7 Now, let me mention a couple of other
8 things, and that is there was an individual who
9 said that his major concern was a dilution of
10 minority seats, and is there a map, he said,
11 that has been developed that would prove that
12 there is no dilution of minority seats. He
13 puts his finger on a key issue here that seem
14 -- Amendments 5 and 6 aren't a bumper sticker
15 issue. It is, as Representative Legg said, an
16 issue where there is some values that some
17 people might think have tension between them or
18 competition between them.

19 The notion of ensuring that there is no
20 regression of minority districts, no reduction
21 in minority districts, as is required by the
22 Federal Voting Rights Act may in some people's
23 minds, in some people's minds, be at some odds
24 with having compact districts. So there is a
25 tension there.

1 The district -- the congressional district
2 in this state that is used as the poster child
3 for gerrymandering is the Third Congressional
4 District. It is the salamander district. It
5 was ordered by the federal courts in order to
6 preserve minority rights. Wasn't developed by
7 the Legislature, it was ordered by the federal
8 courts. So there is going to be tension there
9 that we are going to have to resolve. And that
10 individual who testified and asked about
11 that -- about that tension and asking for
12 assurance that minority districts would be
13 protected has put his finger on probably one of
14 the biggest issues we are going to have to
15 resolve.

16 Then there were seven different references
17 tonight from seven different testifiers using
18 the term "community of interest," a community
19 that is together economically, together
20 culturally, together geographically. It could
21 be a coastal district, in some cases there was
22 a reference to that, or an inland district.
23 Well, Representative Weatherford and I and
24 others tried to get the term "communities of
25 interest" included in the Constitution when

1 Amendments 5 and 6 were being debated. The
2 Supreme Court wouldn't let us do it. And so
3 what we have to tell you tonight as a factual
4 matter, not to argue, but as a factual matter
5 is the term "communities of interest" is not in
6 Amendments 5 and 6. So, again, there is
7 tremendous value in the testimony we heard
8 about communities of interest, but that in some
9 people's minds may be at some odds with some of
10 the requirements for compact districts or
11 districts that may not necessarily be a
12 community of interest. If you develop lines
13 for districts along county lines or city
14 borders, that could divide communities of
15 interest, we have heard that testimony. So I
16 just ask you to appreciate that tension and ask
17 you to give us the kind of guidance you gave us
18 tonight, because those will be serious debates.
19 Not everybody will be happy as that gets
20 resolved. But communities of interest is
21 important, it is valid, but we lost the fight
22 to get it into the constitutional language.

23 And then time after time after time
24 tonight, we heard the importance of Lehigh as a
25 community, and believe me, that -- we got that

1 one loud and clear, loud and clear. But we
2 couldn't have gotten it just sitting in
3 Tallahassee. All of you wouldn't have come to
4 Tallahassee. All of you wouldn't have had the
5 time, you might not have been able to put gas
6 in the car to get there. So the fact that we
7 got this information so many ways from people
8 who live and work here is something that is
9 special, that made this well worth my time
10 coming all the way from northwest Florida.

11 Then there was an individual who said,
12 "Well, the average voter can't draw complete
13 state maps." Well, factually, that is not
14 true. There is a 13-year-old, he and his
15 sister drew 120 House districts and they
16 presented them, and they look pretty good.
17 Now, he was a precocious 13-year-old, but he
18 was 13. And there are people from all over the
19 state, from different races, different
20 backgrounds, different groups, who have made
21 proposals. But it is not a requirement that
22 you draw a statewide map. What we are
23 interested in is what you gave us tonight, and
24 that is tell us about your community, show us
25 where you think the lines ought to be drawn

1 here.

2 Now, if you want to draw a map that goes
3 all the way to Pensacola, have at it, but you
4 don't need to. You only need to give us your
5 advice and guidance about the area in which you
6 live. And lots of people have done that. So
7 it is just not true that the average voter
8 can't draw maps.

9 Question: Will there be other
10 opportunities for input later as more maps are
11 drawn? Yes, there will be. First,
12 Representative Weatherford, Speaker Designate,
13 and I intend to ask members of our committees,
14 and we intend to ask the Speaker and the
15 President of the Senate to ask all legislators
16 to hold town hall meetings or tele-town halls
17 once we get a little further into the process
18 and either we have more maps or less maps or we
19 boil it down to some options so that we can
20 have another round of input from you.

21 Now, obviously, we couldn't take both
22 committees around for 26 more hearings, or we
23 would then really violate what our friends of
24 the League of Women Voters don't want us to
25 violate, and that is the timeline. But I think

1 what we can do is provide other ways for input
2 by town hall meetings, tele-town hall meetings,
3 and we are considering videoconferencing and
4 other ways that we can make sure that there is
5 input opportunities further into the process.

6 Another question that was raised, we don't
7 want cross-state districts, and we had people
8 who clapped for that, and we had people who
9 told us the reasons why that is a bad idea.
10 Then the very next person stood up and said on
11 behalf of at least one part of the business
12 community, we want a cross-state district.
13 Now, obviously we are not going to be able to
14 make both parties happy there. One way or the
15 other, there's going to have to be lines drawn,
16 and at that point, there may be somebody who is
17 slightly dissatisfied. But I will tell you
18 this: There is nobody on this panel who drew
19 the districts that they are in. I am in a
20 Senate district that was drawn by people who
21 are long gone from public office, and any work
22 that I do, term limits are going to bounce me
23 out, I will be long gone before the next
24 redistricting. So there is no pride of
25 authorship here, and we are as interested in

1 resolving some of these geometric anomalies as
2 you are, maybe more so. But we won't be able
3 to make both sides happy in keeping a
4 cross-state district and not keeping one. That
5 will be hard to win that argument and get
6 everybody happy.

7 There were several people who said, and
8 with great eloquence and great passion, 5 and 6
9 got 63 percent of the vote and they need to be
10 followed. Representative Legg spoke on behalf
11 of the House. Let me speak on behalf of the
12 Senate.

13 I take the same oath that House members
14 take, and all of the Senators take that oath,
15 too. Personally, I voted against Amendments 5
16 and 6 because they should have included the
17 term "communities of interest" or "commonality"
18 so that we could have taken into account some
19 of the values that were expressed tonight. I
20 thought it was deficient in not including
21 communities of interest. So I went in the
22 voting booth and I cast a secret ballot, which
23 is now not so secret, against Amendments 5 and
24 6. But the minute that they became law and I
25 was appointed to this committee, then my oath

1 to preserve, protect and defend the
2 Constitution of the United States and of the
3 State of Florida trumps any political opinion I
4 might have. The Senate will fully and
5 completely implement Amendments 5 and 6. The
6 question is not if. The question, as we have
7 talked about some of these issues where there
8 is tension between people of good will taking
9 different sides, both believing that they
10 support Amendments 5 and 6, the question is not
11 if, the question is how we do this in the most
12 just and equitable fashion possible.

13 The representative for the realtors said
14 that more representatives provide more
15 strength. Other people said no, no, no, no,
16 no, fewer representatives who have more focus
17 provide more strength. Again, both arguments
18 are valid arguments and sincere. We are not
19 going to be able to make both sides happy. So
20 bear that in mind. That is going to be
21 something we are going to be debating about,
22 and we need your further input.

23 Then from the City of Ft. Myers, there was
24 a representative who said keep Senate District
25 27 as it is now configured, because it provides

1 a community of common interest. As I have
2 mentioned, communities of common interest are
3 not in the Constitution. We are going to have
4 to -- we are going to have to balance those
5 values.

6 Ms. Skupny pointed out that there were
7 conflicts inherent in Amendments 5 and 6 with
8 the Federal Voting Rights Act. Now, we hope
9 that is not true. We presented Amendments 5
10 and 6 for a pre-clearance, the House and Senate
11 did, not the Governor, the House and Senate
12 presented 5 and 6 for pre-clearance to the
13 Federal Justice Department, and we made the
14 argument that we believe that there is a
15 balance that can be struck between the Voting
16 Rights Act and Amendments 5 and 6. There are
17 some people who think there is an inherent
18 conflict, but this is going to be a serious
19 issue, but we believe that there is a balance.
20 It won't make everybody happy, but we believe
21 there is a balance and we can fulfill 5 and 6
22 without violating the Voting Rights Act.

23 There were a couple of folks who said, oh,
24 well, this is going to end up at the courts
25 anyway. And it will, because the law says

1 after we do our work, we have to take our work
2 product to the Florida Supreme Court, and then
3 there will be all sorts of people who will
4 intervene and they will say, "yes, but," or
5 "no, doggone it," in their intervening in the
6 Florida Supreme Court. Then it has to go to
7 the federal level, either to the federal
8 judiciary or the Federal Justice Department.
9 So it will -- it will by law wind up in court.

10 But I have to tell you this, again, as a
11 fact, it is not a good fact, I don't like this
12 fact: Representatives of special interest
13 groups, members of special interest groups,
14 have already testified in these hearings,
15 before the first vote is taken, before the
16 first district is decided upon, they have
17 already told us they are taking all of this to
18 court. And you as the taxpayers, I am a
19 taxpayer, sadly, we are going to wind up paying
20 for it. So I think going to court is
21 inevitable, but we are going to try to work
22 very hard to make sure that as we go to the
23 Supreme Court of Florida and to the federal
24 level, that we can say, "Look, we went across
25 the state of Florida. The districts we

1 developed were not developed based on
2 Tallahassee talk, but based upon specific
3 testimony that came from hearings like this."
4 We are going to quote you, you are going to see
5 your own words, because that is the best way to
6 armor ourselves up and say that whatever we
7 take would have less of a chance of being
8 challenged, although the court challenges, I
9 think, are inherent.

10 Then another individual asked -- from the
11 League asked is June of 2012 soon enough for
12 qualification for the 2012 election cycle.
13 Well, June better be, because for the last
14 seven election cycles, qualification has
15 occurred in either June or July. So
16 qualification date is probably not going to
17 change. There is nothing in the law, there is
18 nothing in any plan I have seen to change the
19 qualification date.

20 Then a representative of the League,
21 Dr. Fish, Mr. Dr. Fish, said, quote, "It is not
22 the League's job to draw lines." That is true.
23 It is the Legislature's job to draw lines and
24 propose those lines to the courts. The
25 question is, what comes before the Legislature

1 proposes to the courts? Well, in 2002, it was
2 the League of Women Voters who devised the
3 first set of maps. And interestingly, in
4 Georgia, there the League of Women Voters this
5 week not only prepared and publicized their own
6 redistricting maps, but the League of Women
7 Voters of Georgia this week organized a map
8 fair at the Georgia State Capitol to encourage
9 members of the public to present alternative
10 maps. Quote, "Our goal throughout the whole
11 process is to ensure that citizens have a
12 voice," said the President of the League of
13 Women Voters of Georgia, quote, "and what
14 better way to do this than bringing people and
15 people's maps down to the Capitol." So even
16 within the League of Women Voters, there's not
17 entire agreement on this. In Georgia, the best
18 thing in the world was for League members to
19 encourage others to draw maps and engage in the
20 process. In Florida, not so much this time,
21 but it was exactly the right thing to do the
22 last time. So you can see that even people of
23 good will have sometimes some difficulty in
24 agreeing with themselves even within the same
25 organization.

1 Then there was another comment from
2 somebody who said you ought to seek help from
3 groups in other states, and they mentioned
4 Virginia, the Carolinas, Texas and I think
5 another one. We want to let you know first
6 that we have met with representatives from
7 those other states and others to share ideas
8 about the redistricting process and how to move
9 it forward. In fact, the State of Florida is
10 providing assistance to other states now in the
11 development of the kind of websites that we are
12 using in Florida, websites which are at the
13 cutting edge and are unprecedented anywhere in
14 the United States. So we are sharing
15 information back and forth, and that was an
16 excellent suggestion.

17 There was another comment made by a League
18 representative who said, "Shorten the deadline
19 so that you are not voting in June." As far as
20 I know, there is -- there is no requirement
21 that the Legislature vote in June. Instead, we
22 have moved the legislative session up two
23 months, we have moved committee weeks up two
24 months, we began to have these hearings five
25 months before the session would start, and

1 Representative Weatherford and I plan to do
2 everything we can not to cut off debate, not to
3 tell people they can't have another idea, but
4 to try to move the process as responsibly as we
5 can. There is no effort or intention to drag
6 it out to the last day. If everybody uses --
7 everybody in this process, the Legislature, the
8 Attorney General, the Florida Supreme Court and
9 the Federal Justice Department, if everybody
10 uses all the time that they legally can, we
11 could be in a two-minute drill at the end. The
12 point is we should use only that time that we
13 necessarily have to use. So thanks for making
14 that point to us. Join us in making that point
15 to the Attorney General of Florida, the Florida
16 Supreme Court and the Justice Department, not
17 to hurry it up, but to only use the time they
18 need for review so that we can get these maps
19 out.

20 And then an individual who had been a
21 Senate candidate made an excellent point. He
22 said, "If you use Republican and Democrat
23 registration data, and if you use incumbents'
24 addresses in preparing these maps, you will
25 have lost faith with the people." Let me tell

1 you, in the Senate software, we are not using
2 any political registration data. We are using
3 all kinds of descriptors provided by the Bureau
4 of the Census. But we made the decision that
5 we will not show ourselves or anybody else how
6 many Republicans or Democrats are in a proposed
7 district. Instead, we want to use the criteria
8 that are in Amendments 5 and 6 and are in the
9 Federal Voting Rights Act and in the federal
10 court cases, not how many Democrats or
11 Republicans are there. That ought to be beside
12 the point.

13 And both Chairman Weatherford, Speaker
14 Weatherford, and I have given instructions to
15 our professional staff. We don't want to see a
16 single map that shows the address of a single
17 incumbent. I don't know and don't want to know
18 where the members of the Florida Senate,
19 Democrat or Republican, live. It won't show up
20 on the map. And I would suspect before it is
21 over you are going to have members of Congress
22 and members of the Senate and members of the
23 House of Representatives who will wake up and
24 discover that districts have been drawn to be
25 equitable and sensible and lawful, and they are

1 not in them. But we are not here to protect
2 incumbents' addresses. We are here to have
3 lawful, equitable, sensible districts.

4 Then -- two more comments. I don't want
5 this to become a hostage situation. Two more
6 comments. Someone talked about strangely
7 shaped districts. That is an extremely
8 generous term for what some of these districts
9 look like. Let me reassure you again that we
10 didn't draw the districts we are in. It was
11 drawn by other people, and in some cases, drawn
12 by the courts. More than one person tonight
13 stated his concern or her concern about
14 districts that cross several counties,
15 including those that run nearly coast to coast.
16 We appreciate the input, but here is a fact for
17 you: Let's take House District 112, for
18 example. For the last ten years, House
19 District 112 has gone from Collier County all
20 the way across the state to Miami-Dade and
21 Broward Counties. Here is the dirty little
22 secret. The Legislature didn't draw that
23 district. The Legislature drew a different
24 district that did not go coast to coast. A
25 federal court ordered that District 112 include

1 Hispanic communities in Collier County, because
2 Collier County is subject to review of Section
3 5 of the Federal Voting Rights Act, and a
4 federal court drew that district.

5 So the point is simply that sometimes the
6 strangely shaped districts come from, if you
7 will pardon the expression, court-ordered
8 gerrymandering. And so we have to be very
9 careful as we draw these districts that we
10 don't run afoul of court orders or obvious
11 court decisions, but we've also got to cut the
12 rattails off some of these districts, I will
13 tell you. I live in Congressional District 2,
14 my wife, Vicki, sitting over there and I, and
15 we are in a little tiny rattail. Four or five
16 blocks of our community are in a congressional
17 district where until recently the congressman
18 lived a couple, three hundred miles away. And
19 it was done solely, in my view, for political
20 purposes back in 2002. So I understand it, I
21 am -- I am insulted by it myself in my own
22 congressional district, and many of us feel
23 this way and we are going to do everything we
24 can to fix it.

25 Last comment. I was so pleased, I was

1 personally pleased to discover that someone
2 said that a community 60 years old is young. I
3 am personally delighted to have 60 described as
4 young.

5 Thank you very much and thanks for your
6 attention tonight. And with that,
7 Representative Legg moves we rise.

8 (Whereupon, the proceedings were
9 concluded.)

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE WEATHERFORD: Good morning.

3 Thank you all for being here this morning. My
4 name is Will Weatherford, and I have the honor
5 of chairing this meeting today with my
6 co-Chairman, Senator Gaetz, and the Joint
7 Senate/House Redistricting hearing is called to
8 order.

9 We are pleased to be joined by several
10 members of the Florida House and Senate today.
11 In a moment, I am going to ask each and every
12 one of them to introduce themselves to you so
13 that you have an understanding of who you are
14 talking to. We have people from all over the
15 state and everywhere from the Panhandle down to
16 the Florida Keys, and we want to give them an
17 opportunity to introduce themselves to you.

18 We want to give a special thanks to the
19 *Naples Daily News* for allowing us to use this
20 wonderful facility, and we also want to thank
21 you all for being here. It is a great turnout
22 already, and I am sure people will continue to
23 spill in, but we are glad to hear your comments
24 and your recommendations that will help us
25 shape the congressional, Senate and House

1 Districts for the next decade.

2 Again, my name is Will Weatherford, and
3 our sole purpose here today is to hear from the
4 public about how you believe the legal
5 standards governing redistricting should be
6 applied in your community so that you are
7 represented in Washington and Tallahassee
8 fairly, equitably and sensibly.

9 Our procedures today are very important,
10 but they are also simple, and so it is very
11 important that you sign in so we can create a
12 public -- an accurate public record of all the
13 attendees and speakers, and if you opt to join
14 our e-mail list, we can also keep you informed
15 about the redistricting process in the months
16 ahead. If you have not signed in, please raise
17 your hand, and a staff member will give you an
18 attendance card. So if we've got a couple of
19 hands up, just keep them up for a moment. And
20 if you wish to speak today and you have not
21 filed out an attendance card, also raise your
22 right hand or left hand, depending on which
23 side you want to come from, and raise your hand
24 and we will get a card for you and we will make
25 sure that you get your public testimony heard.

1 It is the same attendance card to check in or
2 to speak.

3 So before we begin, I am going to ask
4 Senator Gaetz -- we do this at every hearing,
5 and I think it is important and it kind of sets
6 the tone for the hearing, but I am going to ask
7 my co-Chairman, Senator Gaetz, to give us a
8 little bit of a perspective about some of the
9 history in redistricting, a little bit about
10 the legal standards that we have to follow and
11 a little bit about what we hope to get out of
12 the public testimony from you today. We have
13 had many hearings around the state of Florida.
14 We are happy to be in Collier County, it is a
15 beautiful part of the state, and we are excited
16 about today's hearing. And so with that, I am
17 going to turn it over to my co-Chairman,
18 Senator Don Gaetz.

19 SENATOR GAETZ: Thank you very much, Mr.
20 Speaker.

21 Every ten years, the Legislature is
22 required by our State Constitution to
23 redistrict the state based on increases,
24 decreases or movements of population within the
25 state. Because Florida has grown more than

1 many other states in the last ten years, we
2 picked up two new members of the U.S. House of
3 Representatives. So we go from 25 to 27
4 members of the U.S. House. New York lost two,
5 Florida picked up two. Part of the job of this
6 process is to locate where those two new
7 congressional districts would be.

8 Because some parts of our state have
9 increased or decreased disproportionately in
10 population, many Senate and House districts
11 will change. In fact, Chairman Weatherford and
12 I believe that all of them will change, either
13 adding or losing population or moving their
14 borders.

15 When redistricting is completed,
16 congressional districts must be equal, and they
17 must contain 696,345 people. That is a hard
18 number. The 40 Senate districts in the state
19 must also be nearly equal at 470,000 people.
20 There can be a little bit of variation there.
21 And our 120 House districts must also be nearly
22 equal at about 156,700 people. There are
23 displays that you saw when you came in today
24 showing the current boundaries of districts in
25 this area and the number of persons who have to

1 be added to or subtracted from current
2 districts in order to achieve equal
3 representation.

4 But equality of representation, while
5 important, is not the only legal requirement
6 that redistricting plans have to meet. The
7 laws and the important court cases governing
8 redistricting are explained in detail on the
9 House and Senate websites, and we hope you will
10 go to those websites. The websites are
11 explained on the "Redistricting 2012" brochures
12 that were available to you when you came in,
13 and we would certainly make them available to
14 you as you leave today if you would like to
15 pick them up. That brochure summarizes the
16 federal and state laws, and outlines topics
17 that we really need your advice on and your
18 input on at today's hearing. If you didn't get
19 a copy when you came in, as I said, pick up a
20 copy when you leave.

21 The websites -- the House and Senate
22 websites are packed with information about
23 redistricting in Florida, including an
24 explanation of the laws and important court
25 cases governing redistricting. The two

1 websites, the Senate and House website, are
2 complementary, they are updated frequently, and
3 it is a great way to stay current on plans that
4 are presented and yet have an opportunity to
5 see the schedule, see how the redistricting
6 process is moving forward.

7 The websites also deliver to your
8 fingertips all of the demographic data that
9 will be used in drawing districts and the same
10 computer programs that legislators and
11 professional staff will use. That way, if you
12 want to, if you want to, any member of the
13 public can participate in building a plan for
14 your neighborhood or your community or your
15 part of Florida, or for the whole state if
16 you'd like, and you can also see all of the
17 maps that have been submitted so that you can
18 determine how they might affect your area. And
19 a large number of maps have already been
20 submitted.

21 Before, during and after this hearing,
22 House and Senate staff will be available to
23 show anybody the simple steps to getting
24 on-line, to building districts and moving lines
25 around if you want to do that, and if you want

1 to submit a plan, House and Senate staff can
2 show you how to do that. Don't be afraid of
3 that process. It is pretty simple. I am
4 techno stupid. It took them about 15 minutes
5 to show me how to use the software, the same
6 computer programs, the same software that
7 professional staff and the courts and also
8 legislators are using.

9 Recommendations from citizens and groups
10 of citizens will be made publicly available
11 immediately as soon as we see them. In fact,
12 as of this morning, 50 public submissions of
13 partial or completed maps and many -- over a
14 hundred other written descriptions for maps are
15 available on the Web, and many of them are
16 available in the lobby as you came in. So the
17 maps are there, and we would love to have you
18 look at the maps and then in your testimony
19 today say "the map that" -- and you can use the
20 name of the individual or group that has
21 submitted it, "that map works for us" or
22 "doesn't work for us, here is why, here is how,
23 here is how it ought to be changed." We have
24 received, in fact, a new map this morning
25 already from a Naples resident. And after our

1 final hearing in Clewiston, I am sure that
2 those numbers will increase. The submission of
3 proposed maps, the submission of your ideas
4 that makes sense for your community is the
5 single most effective form of public
6 participation in the redistricting process.

7 Now, the redistricting schedule under
8 which we are operating is imposed by the State
9 Constitution. That is important. There has
10 been a little bit of -- I wouldn't say
11 misinformation, but a little bit of confusion
12 about the timeline and the process. The
13 Constitution of Florida does not permit the
14 Legislature to act on state legislative maps
15 before the second year after the census; in
16 other words, 2012. Now, we have accelerated
17 the process as much as we are legally able to
18 do this year. We have moved up the 2012
19 session from March, when it would usually
20 start, until January, we have begun our
21 statewide hearings five months in advance of
22 the 2012 session, and we have moved up our
23 committee meetings from December to September
24 so that plans can be considered immediately in
25 September and there can be voting in committees

1 as soon as any committee wants to go forward.

2 I might mention that one of the things we
3 have learned in this process is that ten years
4 ago, the person who is now the Democratic
5 Leader of the Senate, Senator Nan Rich, she was
6 in the House of Representatives ten years ago,
7 and she was not even permitted to present a
8 map, she said, ten years ago, which was
9 absolutely unfair and it was wrong. And so the
10 commitment that I have made as Chairman of the
11 Senate Reapportionment Committee is that at our
12 first meeting in September, right after we call
13 the meeting to order, we are going to give
14 Senator Rich the chance as Democratic Leader
15 that she did not have ten years ago that she
16 should have had to take the floor first and
17 present any maps that she wants to present
18 alongside the other maps that are already
19 available and that might be available by that
20 time.

21 Now, it's been suggested that the
22 Legislature ought to draw maps first and then
23 say to the public, "Here they are if you have
24 any comments." We believe that that puts the
25 answer ahead of the question. We think there

1 ought to be no preconceptions created by
2 politicians, but, rather, public testimony
3 should be free and unrestricted. In fact, a
4 principal author of Florida's new redistricting
5 standards and Ellen Freidin, the Chairperson
6 for Fair Districts, both have provided
7 information, Ellen Freidin testified before a
8 joint committee of the Senate and the House
9 saying that there is no way that maps should be
10 drawn until public comment is heard first. And
11 we certainly agree with her.

12 In Georgia, the League of Women Voters not
13 only prepared and publicized its own
14 redistricting maps, but it organized a map fair
15 at the Georgia State Capitol to encourage
16 members of the public to present their own
17 alternative maps. Quote, "Our goal throughout
18 the whole process is to ensure that citizens
19 have a voice," said the President of the League
20 of Women Voters of Georgia, quote, "and what
21 better way to do this than bringing people and
22 maps to the Capitol." And we would certainly
23 agree with Ellen Freidin from Fair Districts
24 and the President of the Georgia League of
25 Women Voters that it is very, very important to

1 listen first, to have the public present their
2 ideas and have an open process throughout.

3 Our intent is to use the recommendations
4 made at these 26 public hearings and through
5 our Internet sites and through the testimony
6 that you provide in meetings in Tallahassee and
7 any input you provide your own legislators as
8 the basis for developing one or more options
9 for district maps. And it was suggested at a
10 recent hearing by one of the testifiers that a
11 county had gone through its own redistricting
12 and had established six options, and then based
13 on those six options, put those out so that
14 everyone saw them before the first vote was
15 taken. And Speaker Weatherford and I think
16 there is some value to that. So probably what
17 will happen is that based on all the
18 information we are getting from these hearings,
19 we will put out several options drawn from the
20 testimony in these hearings, and then those
21 options will be publicly available, you will
22 see them, and before any vote is taken, we will
23 have public testimony and any vote will be
24 taken -- will be taken in public. In other
25 words, what we are saying is, if you look at

1 the maps outside of this room submitted by
2 people across the state, if you look at what
3 the League of Women Voters has done so well in
4 Georgia, if you look at the advice given by the
5 Chair of the Fair Districts campaign, then the
6 maps submitted by people across the state of
7 Florida ought to and will form the basis for
8 the legislative process going forward. So if
9 you want to know where we will begin our
10 deliberations, if you want to know where are
11 the maps, it is the maps that we receive from
12 the public and the maps that are generated
13 through the legislative process that we will be
14 using as the basis for our recommendations to
15 the full Legislature. Throughout the process,
16 we will also solicit additional public comment
17 so that proposed maps can mature with the
18 public involved, all before the Legislature
19 approves any final maps.

20 And then the Legislature doesn't get to
21 finally decide what the lines or the maps or
22 the districts ought to look like. That is
23 subject to judicial review. It is a
24 requirement of law that any -- any proposals
25 that come out of the Legislature then have to

1 be submitted to the courts at the state level
2 and it has to be submitted for judicial review
3 at the federal level before there can be a
4 final map or maps.

5 Because our purpose today is to hear from
6 you, as soon as I conclude, Mr. Speaker, all
7 the time between now and 11:00 a.m. will be
8 used to ensure that as many members of the
9 public as possible can share their testimony
10 and be listened to respectfully.

11 If after our citizens here have an
12 opportunity to have their say, if there is time
13 remaining before adjournment, and we hope there
14 might be, then any member of the Committee,
15 Republican, Democrat, House member, Senator,
16 may make any statement, answer any question,
17 offer any observation, and, of course, any
18 Democrat or Republican member of the Committee,
19 if they feel so moved, can present any map at
20 any time for consideration.

21 Mr. Chairman, I hope that this description
22 of our schedule and our process helps set the
23 stage for a successful hearing.

24 REPRESENTATIVE WEATHERFORD: Thank you
25 very much. Thank you very much, Senator Gaetz,

1 and before we move into the public testimony,
2 we are just going to take about two minutes to
3 go around the room here very briefly for the
4 members to get the opportunity to introduce
5 them to you, and for you to know exactly who
6 you are talking to. I think we've got
7 everybody here, so I will start right here with
8 our friend from southwest Florida,
9 Representative Aubuchon.

10 REPRESENTATIVE AUBUCHON: Thank you,
11 Mr. Speaker, and I am just -- I represent
12 District 74 just to the north, and I am a proud
13 member of the southwest Florida delegation.

14 REPRESENTATIVE PASSIDOMO: Good morning,
15 everybody. Kathleen Passidomo, District 76,
16 which is Naples, Marco Island, Everglades City.
17 I am so thrilled to be home after spending the
18 entire summer on the road, to be back with my
19 friends and family here in Naples. I would
20 like to point out, our favorite former
21 Representative is sitting over there in the
22 corner. Dudley Goodlette, do you want to just
23 raise your hand? Thank you for coming.

24 REPRESENTATIVE NUNEZ: Good morning. My
25 name is Jeanette Nuñez, and I am proud to

1 represent House District 112, which consists of
2 portions of Collier, Broward and Dade County.

3 REPRESENTATIVE WILLIAMS: Good morning. I
4 am Trudi Williams. I represent District 75,
5 and that is the northern portions of Collier
6 County and southern parts of Lee County. Thank
7 you for coming.

8 REPRESENTATIVE LEGG: John Legg, I
9 represent Pasco County.

10 REPRESENTATIVE PRECOURT: Steve Precourt,
11 west side of Orlando, portions of Orange, Lake
12 and Osceola Counties.

13 REPRESENTATIVE CORCORAN: Richard
14 Corcoran, I represent Pasco County and Pinellas
15 County. I just want to say at the onset, too,
16 that I will probably stand on the side a lot.
17 It is not because I am not completely
18 captivated and tired, it is because I have five
19 children and my third daughter, who is eight,
20 she said she wanted to go horseback riding, so
21 Dad thought it would be good to take them all
22 horseback riding and, well, now, after a
23 bruised tailbone, I spend a lot of time
24 standing. I'd also like to thank the *Naples*
25 *News* for the hardest chair so far.

1 REPRESENTATIVE CAMPBELL: Good morning.

2 My name is Daphne Campbell, District 108 from
3 Miami-Dade County.

4 REPRESENTATIVE ROGERS: Good morning, my
5 name is Hazelle Rogers. I am from Broward
6 County, representing 1.8 million residents. My
7 District is 94. This is my 23rd hearing. It
8 is good to be here this morning. I hail -- my
9 cities are Lauderhill, Lauderdale Lakes,
10 Margate, Tamarac, Oakland Park, Plantation,
11 Sunrise, and, of course, my home city is
12 Lauderdale Lakes.

13 REPRESENTATIVE BAXLEY: Thank you. I am
14 Dennis Baxley, serving in the Florida House
15 from District 24, Ocala, Marion County. Good
16 to be with you.

17 REPRESENTATIVE BERNARD: Good morning,
18 State Representative Mack Bernard, District 84,
19 West Palm Beach, Florida.

20 REPRESENTATIVE CHESTNUT: Good morning,
21 Chuck Chestnut, State Representative, House
22 District 23, a portion of Alachua County and a
23 portion of Marion County.

24 REPRESENTATIVE CLARKE-REED: Good morning,
25 State Representative Gwyndolen Clarke-Reed,

1 representing the northeast part of Broward
2 County, starting in Deerfield Beach, Oakland
3 Park, Pompano Beach, Wilton Manors, North
4 Lauderdale, a little bit of Tamarac and a part
5 of Ft. Lauderdale. Glad to be here.

6 REPRESENTATIVE JULIEN: Good morning, John
7 Patrick Julien representing House District 104,
8 which is in Miami-Dade County. It is a
9 pleasure to be here.

10 SENATOR LATVALA: Thank you. I am Jack
11 Latvala. I represent the 16th Senatorial
12 District, Pinellas and Hillsborough, and I
13 apologize to you for being in my shirt sleeves,
14 but I had a little wardrobe malfunction and I
15 am a long way from home.

16 SENATOR NEGRON: Joe Negron, I am Senate
17 District 28, southeast Florida.

18 REPRESENTATIVE NEHR: State Representative
19 Peter Nehr. I represent District 48 in
20 Pinellas County.

21 REPRESENTATIVE JONES: Good morning, Mia
22 Jones, State Representative, Jacksonville,
23 Florida.

24 SENATOR DETERT: Good morning. I am State
25 Senator Nancy Detert from Sarasota. I

1 represent parts of Charlotte County, Sarasota
2 and Manatee, and it is great to be here.

3 SENATOR JOYNER: Good morning. My name is
4 Arthenia Joyner. I am State Senator from
5 Hillsborough, Pinellas and Manatee. That is
6 Tampa, St. Pete and Bradenton.

7 SENATOR BENACQUISTO: Good morning,
8 everyone. My name is Lizbeth Benacquisto.
9 Thank you all for being here this morning. I
10 am proud to represent Senate District 27, which
11 covers wonderful communities in Lee County,
12 Glades County, Hendry County, Charlotte County
13 and Palm Beach County.

14 SENATOR RICHTER: Good morning. I am
15 Garrett Richter, and I would like to thank you
16 all for joining us today. This is my district,
17 and I join Kathleen Passidomo when we welcome
18 our wonderful colleagues in both the House and
19 the Senate. And to Phil Lewis, thank you, to
20 the Naples daily newspaper, for making this
21 facility available for our public meeting, and
22 this is what it is all about is to hear from
23 you, and I just want to thank you all very,
24 very much for getting up and showing your
25 interest in our government. Thank you all.

1 SENATOR GAETZ: And my Senate district is
2 in coastal northwest Florida from Pensacola to
3 east of Panama City.

4 REPRESENTATIVE WEATHERFORD: All right. I
5 think we got everybody. Thank you all.

6 We are planning on adjourning at
7 11:00 a.m., so we're going to spend the next --
8 from now until 11:00 hearing public testimony.
9 Because we have probably close to 50 folks who
10 have already signed up to speak, we are going
11 to try to limit comments to about three
12 minutes. We run on a point system, and those
13 points are given based on brevity, so those of
14 you who are creative in finding ways to deliver
15 messages quickly, we give bonus points. But,
16 no, we want to hear from you, we want to listen
17 to you, we want to give you the opportunity and
18 the respect that you deserve to have your
19 comments heard, you will get that, and we just
20 ask that you also show the same respect and
21 courtesy to the Committee. So thank you all
22 for being here.

23 I am going to probably read out three or
24 four names at a time. We also have a
25 spill-over room, and so as this room continues

1 to fill up, there may be folks in the
2 spill-over room. We want to give them enough
3 time to come over and have an opportunity to
4 speak.

5 So our first up is the Collier County
6 Supervisor of Elections, Ms. Jennifer Edwards.
7 Ms. Edwards, thank you for being here and thank
8 you for the service here in Collier County.
9 And after Ms. Edwards, we are going to have
10 Michael Reagen and then William Poteet,
11 followed by Chuck Mohlke.

12 MS. EDWARDS: Good morning.

13 REPRESENTATIVE WEATHERFORD: Good morning.

14 MS. EDWARDS: I am Jennifer Edwards, and
15 welcome to Collier County and a special hello
16 to our delegation members.

17 REPRESENTATIVE WEATHERFORD: Ms. Edwards,
18 I may need you to get a little closer to the
19 microphones.

20 MS. EDWARDS: Okay. Is this better?

21 REPRESENTATIVE WEATHERFORD: That is
22 perfect.

23 MS. EDWARDS: Great. Well, as you know, I
24 am an election administrator, and in doing so,
25 I join my colleagues across the state in urging

1 you in helping us to provide great service to
2 our voters. You change election law, and
3 administrators like me implement those changes.
4 In addition to following the state and federal
5 election laws, election administrators and our
6 great staff have a passion to provide an
7 excellent service to our voters.

8 I want to share with you, and the screen
9 is behind you, the three requests that you can
10 grant that will assist election administrators
11 and our staff to provide continued outstanding
12 service to voters.

13 Number one, please respect voter
14 tabulation districts, or VTDs, to the extent
15 possible. Number two, avoid irregular
16 boundaries to the extent possible. These have
17 a tendency to split neighborhoods. And number
18 three, please adopt maps early in the
19 legislative session to avoid election and voter
20 confusion in 2012.

21 We have a few examples to share with you
22 to show you some of the irregular boundaries in
23 Collier County. Here is Congressional District
24 25, and next we have Senate District 39. You
25 can see this demonstrates irregular boundaries

1 in our communities. And next we have House
2 112, and then we have a representation here of
3 Golden Gate City. This shows a split in
4 representing House 101, as well as 112. And
5 Golden Gate City is also a census-designated
6 place, so here is a community that is split
7 down the middle.

8 The final slide, we have taken the liberty
9 of using, of course, your timeline and
10 depicting it in a colorful way, pink at the
11 top -- doesn't look like pink this morning, but
12 it is pink, and it is the length of your
13 session. Yellow is the number of days that you
14 have allotted for the review by the Attorney
15 General's Office, and blue is the number of
16 days for the review by the Florida Supreme
17 Court, and orange is the 60 days for the U.S.
18 Justice review. And as you can see, with our
19 -- with our primary being scheduled
20 August 14th, qualifying is the first week of
21 June, which is that green line near the bottom,
22 and if it takes U.S. Justice the full 60 days,
23 we won't get their approval until a week after
24 qualifying. And, in addition, election
25 administrators under federal law are required

1 to mail the military and overseas ballots 45
2 days before the election, which is June 30th.

3 I know that the time it will take the
4 other agencies to review your district
5 timeframes is totally out of your control.
6 However, this timeline emphasizes the
7 importance of my earlier stated third request:
8 Please adopt maps early in the legislative
9 session to avoid election and voter confusion
10 in 2012, to aid election administrators and our
11 staff across the state in being prepared and
12 providing good service to all of our voters.
13 And on behalf of the voters of Collier County,
14 thank you.

15 REPRESENTATIVE WEATHERFORD: Thank you,
16 Ms. Edwards. Ms. Edwards, I will just say we
17 have heard from a lot of supervisors, but that
18 was the most detailed and probably informative
19 presentation I have seen thus far, and in a
20 very quick manner. Thank you very much.

21 Next up which have Mr. Michael Reagen with
22 the Greater Naples Chamber of Commerce,
23 followed by William Poteet and Chuck Mohlke.

24 Mr. Reagen, you are recognized, sir.

25 MR. REAGEN: Thank you very much,

1 Mr. Chairman. Good morning. Everything I say
2 this morning is on behalf of the Chamber of
3 Commerce, the Collier building industry, Naples
4 Board of Realtors and the Economic Development
5 Council of Collier County, and everything that
6 we say this morning has been put together with
7 the close collaboration of the Supervisor of
8 Elections' offices. I've got four maps and one
9 graph, and I've got five and a half minutes to
10 share them with you.

11 Number one, map number one, looking at the
12 southern area of our state, we see the issue as
13 it stands today. Several districts criss-cross
14 the entire east-west expanse of the state.
15 Legislators in these districts are put in the
16 position of representing several diverse
17 population. The current maps, frankly, seem to
18 hold limited regard for compactness, political
19 subdivisions and communities.

20 Map number two, here we take a closer look
21 at the southern section of our state. Collier
22 County is currently divided among five
23 legislative districts. District 75 holds a
24 portion of Collier's northwest corner.
25 District 77 holds a small portion of Collier

1 County north of Main Street and Immokalee and
2 extends north to Highlands. District 101 holds
3 a large section of Collier County, extends
4 across the state into Broward County. District
5 112, similar eastward expansion to District
6 101, runs clear across the state to Dade County
7 and the city of Durrell. And District 76 is
8 the only district that lies completely within
9 Collier County and represents the largest
10 portion of the western coastal community.

11 As we look to create a solution to this
12 challenge, the following three things are
13 terribly important: One, new boundaries should
14 keep Collier County districts intact locally to
15 the greatest extent possible; number two, new
16 boundaries should ensure the proposed districts
17 clearly are compliant with the standards of the
18 Voting Rights Act; third, new boundaries should
19 permit Collier County voters to elect
20 Representatives of their choice to the greater
21 extent possible.

22 The third map we have is a proposed
23 solution. It divides Collier County among
24 three legislative districts, as opposed to
25 five, allowing communities of interest to

1 remain better intact. The new district lines
2 are also better attuned to existing political
3 subdivisions. District 75 in the north
4 acquires an additional section of Collier, then
5 extends into Lee County. District 101 contains
6 a large portion of Collier County with a
7 western section of Dade County. District 76
8 compacts land-wise in the west, but remains the
9 only district held entirely within Collier
10 County.

11 Our fourth map shows representatives of
12 the same solution, but highlights which
13 sections in each county that lie with the
14 specified legislative districts. All of the
15 proposed district lines are respectful of
16 Collier County communities of interest, as
17 reflected in the Voter Tabulation Districts --
18 precincts, if you will -- submitted to the
19 Census Bureau by our Supervisor of Elections.

20 Graph. This solution achieves an equal
21 population for criteria of redistricting as
22 well. As you know, the ideal total population
23 per district is 156,678 people. Districts 75,
24 101 and 112 must lose populations. Districts
25 76 and 77 must gain populations.

1 The population counts for the three
2 districts that we are suggesting would be as
3 follows: District 75 would have 156,992
4 people, and would represent 38.4 of the
5 district's total population. District 76, 56,
6 82 with 100 percent of the population of
7 Collier County. District 101 would have
8 155,126 people, with Collier residents
9 representing 67.4 percent of the district's
10 total population. And Districts 77 and 112
11 would no longer hold sections of Collier
12 County.

13 Mr. Chairman, thank you, sir.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much. You beat me to the punch. That was
16 very detailed. Thank you very much, and thank
17 you for what the Chamber does here in Collier
18 County. We appreciate that, sir. Very good
19 information.

20 Next up we have Mr. Poteet, followed by
21 Chuck Mohlke, and then I believe it is Liza
22 McClenaghan, or McLendon, I apologize if I am
23 mispronouncing that, but I think you know who
24 -- did I lose my mike there? Do we have a
25 malfunction? Okay. And we are back. Okay.

1 All right. We've got Mr. Poteet --
2 Mr. Poteet, followed by Chuck Mohlke and then
3 Liza.

4 Mr. Poteet, you are recognized, sir.

5 MR. POTEET: Good morning. I thank you
6 for the opportunity to speak before you, and I
7 am here on behalf of myself and no other
8 organizations, I want to make that clear.

9 I agree with Mr. Reagen on a number of
10 points that he had. I don't have a map. I
11 don't have a magic number of the number of
12 Representatives, but I do know more is better.
13 We currently have five State Representatives
14 that cover Collier County, two Senators, and
15 with that we get more coverage and more voice
16 in Tallahassee.

17 If you reduce the number, we are going to
18 have less voice, we'll have less people on the
19 committee structure, which is vitally important
20 for getting any of the bills through, and so,
21 you know, we are not going to be -- we are a
22 small county, so we need more voice. And when
23 we get people like Chairman Grimsley who covers
24 just a little piece of Immokalee, but also
25 represents the interests of Collier County and

1 is here on a regular basis, that is a very good
2 thing for our community.

3 And so I just say when you take into
4 consideration and you look at the east-west
5 districts, a lot of people would like to cut
6 them out. I have talked to Representative
7 Nuñez and Representative Hudson, and both of
8 them like traveling and visiting us on a
9 regular basis and do a fine job and they give
10 us representation, a voice in our legislation
11 and also a voice in the other representative --
12 or other county districts, so they know what
13 Collier County wants. And so more is better.
14 Thank you.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much. We appreciate those comments.

17 Next up we have Chuck Mohlke, and then we
18 have Liza and then Shari Monetta.

19 Mr. Mohlke, thank you, sir.

20 MR. MOHLKE: Thank you, Mr. Speaker.
21 Thank you, Senator Gaetz.

22 I appear here for three purposes. One, to
23 support unreservedly the comments of our
24 Supervisor of Elections, and hope that the
25 Committee will support the ideas presented to

1 you by Mr. Michael Reagen.

2 Second, I want to compliment Senator Gaetz
3 on his opening remarks and on the recent
4 reported comments that he made in several of
5 the newspapers that indicate the great
6 flexibility of you, Senator, and the other
7 members of the panel in respect to how you are
8 going to proceed to inform the public about
9 your final decisions regarding redistricting.

10 And, third, this expedited procedure that
11 you are on I think is in the public's interest.
12 We are so pleased that you have such a
13 representative panel here today to hear these
14 remarks, and we thank you very much for your
15 participation and for your -- we welcome you on
16 behalf of Collier County. Thank you.

17 REPRESENTATIVE WEATHERFORD: Thank you
18 very much.

19 Next up we have Liza, and, Liza, I am
20 going to ask you to say your last name just so
21 we get it on the record the right way.

22 MS. McCLENAGHAN: Good morning, Liza
23 McClenaghan.

24 REPRESENTATIVE WEATHERFORD: McClenaghan.
25 I'm sorry that I didn't say that right. And

1 after Ms. Liza, we have Shari Monetta and then
2 Michael Lyster, followed by Chris Straton. You
3 are recognized.

4 MS. McCLENAGHAN: Good morning, Chairman,
5 members of the redistricting committees. I
6 would like to begin with some praise for the
7 present, move quickly to the future and then
8 review some lessens learned from past
9 redistricting.

10 Congratulations to you and your staff on
11 the creation of My District Builder. With this
12 software, the Legislature has created a
13 superior geographical information system for
14 the public use to provide our own submissions,
15 as well as to review proposals of the
16 legislative committees and other organizations.
17 In 2001, the Florida Legislature deployed
18 FREDS. That was an envy of many states. With
19 this track record, you know how to create the
20 tools needed to accomplish your task in an
21 unimpeded fashion.

22 Many states have already completed their
23 redistricting, and at least two states have
24 completed the review with the U.S. Department
25 of Justice for pre-clearance under Section 5.

1 The responsibilities and timeline of the
2 Legislature to reapportion and redistrict the
3 legislative seats and redistrict the
4 congressional seats following the release of
5 decennial census needs to be clarified and
6 expedited. Even as the current redistricting
7 process is unfolding, it has become obvious
8 that the voters may not know the districts in
9 which they will be eligible to cast their
10 ballots, and candidates may not know which
11 districts they will contest by June 2012 for
12 the August 2012 primary.

13 Submitted for your consideration is
14 proposal to amend the Florida Constitution to
15 begin the reapportionment/redistricting process
16 the year of the decennial census release and
17 complete it by the end of the year. Voters and
18 candidates can then be prepared for the
19 election season in the second year following
20 the census, along with the Division of
21 Elections and the Supervisors of Elections. I
22 have submitted this language to your staff.

23 Article III, Section 16, and Article X,
24 Section 8, require only minimal language
25 changes. If necessary, you should consider a

1 special redistricting session so that the
2 Legislature's budget process is not impacted.
3 The cost every ten years would be not as great
4 compared to the upheaval caused by this
5 extended process. All current steps would
6 remain in Section 16, but the Florida
7 institutions' portion must be completed by
8 December 31st of the year following the
9 decennial census. In Article X, if necessary,
10 the effective date of the census can be moved
11 forward. While the issue of redistricting is
12 still on our minds, please bring these
13 amendments to the ballot.

14 Another key component of the redistricting
15 process is the creation of the Voter Tabulation
16 Districts, or VTDs. The U.S. Census timeline
17 has a submission of these precinct-like units
18 early in the decennial census process.

19 I ask that you involve the public in the
20 review at the county level to assist in
21 identifying communities of interest and any
22 changes in any political subdivisions. This
23 will make your task easier and allow for the
24 public input at a critical time in the process.

25 Ten years ago, the Democratic party and

1 Republican parties of Collier County came
2 before a similar body and asked that you not
3 draw districts across the Peninsula from east
4 to west. I make that request again today.
5 There is little that eastern Collier County
6 shares with western Broward and Miami-Dade for
7 legislative and congressional representation.

8 Here is a quick review of what we learned
9 in 2002. Please respect minority districts.
10 In 2002, your districts plowed right through
11 the census-designated places of Immokalee and
12 Golden Gate, which our Supervisor of Elections
13 shared with you in a map earlier. Please
14 respect political subdivisions. In a midnight
15 drawing exercise, you divided the city of
16 Everglades City in two when you found State
17 Road 29.

18 REPRESENTATIVE WEATHERFORD: Ms. Liza, I
19 know we are about three and a half minutes in.
20 I would like to try to get to put a bow on it,
21 if you could, and then we will also take your
22 statement in whole and make sure it is part of
23 the record.

24 MS. McCLENAGHAN: Sure. I have submitted
25 it, thank you.

1 Please respect communities of interest as
2 shown in Senate 37 and 39, and then please note
3 that we had a lot of confusion, we, voters,
4 when we have split precincts.

5 Interstate 75 is a man-made obstacle, and
6 last time one committee took the east side of
7 the road and one took the west side of the road
8 and sometimes you drew it down the middle,
9 creating populations with no -- districts
10 within populations.

11 In closing, I would like to -- in closing,
12 I would like to remind the Committee that
13 Collier County is a covered jurisdiction under
14 the Voting Rights Act, and we wonder why you
15 are holding this meeting at eight o'clock in
16 the morning when the people impacted by that
17 portion are at work. Thank you for your time.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much. Thank you very much.

20 Ladies and gentlemen, I don't know who it
21 was that shouted. I will handle it with the
22 timing, and we appreciate that. We want to
23 give everybody a chance to speak, but we do --
24 we've got 50 people to speak. I don't know
25 where Vi Steffan is in this room. Vi, are you

1 here? You are the last person on my list right
2 now. I want to make sure I get you a chance to
3 speak, so if everyone would be respectful of
4 Vi, we will try to get to her as well.

5 So, Shari, you are recognized. Thank you
6 very much for being here today.

7 MS. MONETTA: Good morning, members.
8 Thank you for visiting Naples today.

9 My name is Shari Monetta. I am here as a
10 private citizen. I have lived in Collier
11 County for 15 years today. I have been
12 following your listening tour since June, and
13 am frustrated when I hear special interest
14 groups at every stop attack a process that
15 gives citizens the ability to tell their
16 legislators what we want them to do when they
17 draw the new district lines. I am talking
18 about groups like the League of Women Voters,
19 who are heavily involved in the political
20 process and who promote civic participation.
21 Getting involved with redistricting is very
22 important, yet the League has decided to
23 criticize you rather than offer any substantial
24 ideas of its own. It is funny this is
25 happening, because a decade ago, the League was

1 the first group to publicly submit a
2 redistricting plan. I am not sure what
3 accounts for this change of heart, except for
4 the fact that now Amendments 5 and 6 are part
5 of the state's Constitution.

6 The League, which supports these
7 amendments, knows the wording of these
8 amendments is so vague that it will be
9 impossible for you to fulfill their
10 requirements. That is why the League refuses
11 now to show its hand and offer any ideas on how
12 you should draw -- redraw the district
13 boundaries. I am disappointed the League and
14 their allies have taken this position, but it
15 comes as no surprise, given that Amendments 5
16 and 6 are so ambiguous.

17 I don't envy the position of this
18 Committee. It is unfortunate that these
19 amendments will result in multiple lawsuits
20 being filed against any plan you ultimately
21 pass. I urge you to work as hard as you can to
22 draw good maps. Don't listen to criticism from
23 groups who have no interest in seeing this
24 Committee succeed in its work. Thank you for
25 allowing me to speak this morning.

1 REPRESENTATIVE WEATHERFORD: Thank you,
2 Shari, we appreciate your comments.

3 Next up we have Michael Lyster. Following
4 Michael will be Chris Straton and then David
5 Easlick.

6 Mr. Lyster, thanks for being here, sir.
7 You are recognized.

8 MR. LYSTER: Good morning. I am Mike
9 Lyster, I am here as a private citizen. I want
10 to thank you all for taking the time to have an
11 open and transparent process via the website
12 and these hearings. As representatives of the
13 citizens, it is refreshing to see you go out
14 and listen to the opinions of the citizens
15 prior to your decision-making.

16 I am a resident of Collier County. I have
17 been a resident for 12 years. Our son,
18 daughter-in-law, grandson and granddaughter are
19 residents of Collier County. Our youngest son
20 is a resident of Miami-Dade. So I have a keen
21 interest in the future of Florida and your
22 activities.

23 The growth in the -- as you said, Senator,
24 the growth in Florida gives us two more
25 Congressmen, and Collier County has shared in

1 that growth and we would like to see you give
2 us our own representation.

3 Amendments 5 and 6 require contiguous,
4 compact districts. Good luck on that. As you
5 know, there are many municipal boundaries that
6 are not compact and contiguous, and so it is
7 going to be left to your best judgment to come
8 up with meeting Amendment 5 and 6 and
9 supporting the efforts of everybody you hear
10 from.

11 Finally, let me just echo the words of our
12 Supervisor of Elections. As a clerk in a
13 voting precinct for the last six elections, I
14 appreciate your expedited process and I wish
15 you best of luck to get that out as soon as you
16 can so that we can get our election processes
17 prepared and all the citizens notified so we
18 have an efficient and effective election.
19 Thank you.

20 REPRESENTATIVE WEATHERFORD: Thank you
21 very much.

22 Next up we have Chris Straton.
23 Ms. Straton. And then following Ms. Straton,
24 David Easlick and Jacob Winge, I believe, or
25 Winge, yes, I believe is what it is, and then

1 Joyce Fletcher.

2 You are recognized. Thank you.

3 MS. STRATON: Thank you. Good morning.

4 My name is Chris Straton, and I, too, am here
5 as a private citizen.

6 What I have in my hand are the five maps
7 that the county commission boundaries have been
8 drawn up and shared with the public. The
9 public has an opportunity to react to those in
10 a timely fashion. Even now when we anticipate
11 the Board of County Commissioners will be
12 approving these maps and deciding which map to
13 accept on September 13th, candidates who have
14 already announced for the Board of County
15 Commission seats are very concerned that this
16 decision be made quickly, because it will
17 affect who their constituents will be, who will
18 be voting for them.

19 The timeline that Mr. Gaetz explained
20 early did not state that the Committee would
21 work to come up with maps immediately. He did
22 not tell us when you would be having the maps
23 presented to the legislators to vote on. It is
24 critical that the people that want to run for
25 office be informed quickly so that they have

1 the opportunity to campaign effectively.

2 The Supervisor of Elections talked about
3 the concern of not having voter confusion and
4 wanting you to move quickly. We agree with
5 that, but the other side of the coin is the
6 voters are entitled to know who is going to be
7 possibly running for office.

8 Failure to move up the schedule to early
9 in your session is nothing more than making it
10 easier for the incumbents, and we all know that
11 when Amendments 5 and 6 were passed, the
12 electorate in Florida said we want compact,
13 contiguous and districts that do not -- excuse
14 me, I have to check my words -- do not favor
15 any party or incumbent, and failure to have
16 these -- your maps drawn up and approved
17 quickly in the legislative session is nothing
18 more than favoring the incumbents. Thank you.

19 REPRESENTATIVE WEATHERFORD: Thank you,
20 Ms. Straton. I hope you can stick around also,
21 Ms. Straton, because I believe that Senator
22 Gaetz and the members of the Committee at the
23 end will have an opportunity to address some of
24 the questions in regard to the timeline and the
25 maps. And sometimes things get out into the

1 bloodstream about the direction or the timeline
2 that we have had, and I think we can clarify a
3 lot of the questions that you had. So if you
4 can, please stick around to the very end.

5 And after that, next up, we've got
6 Mr. David Easlick --

7 MS. STRATON: Excuse me, I think that is
8 important that everybody be informed of, and
9 not just at the end of the session.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much.

12 Next up we've got David Easlick.
13 Mr. Easlick, thank you for being here, sir,
14 followed by Jacob Winge and then Joyce
15 Fletcher.

16 You are recognized, sir.

17 MR. EASLICK: Good morning, committee
18 members. I am glad to see you here in Naples.
19 I am David Easlick, and I have been here about
20 ten years. My parents came down in 1972, and
21 it took me a while to find them.

22 But my main concern is it is basically,
23 guys, KISS, keep it simple, stupid, because
24 this is going to be a horrible mess. I am a
25 member of the Michigan State Bar Association

1 for 35 years, and I know the legal fraternity
2 is going to be out there just tearing this
3 thing apart. Amendments 5 and 6 created a
4 terrible disaster, and I think that the -- you
5 know, the faster you can get this thing done,
6 the simpler you can get this thing done.
7 Jennifer is going to have an impossible job,
8 but she has given you some good help there, and
9 I think you ought to take a good look at it,
10 and Mr. Reagen from the Chamber of Commerce is
11 good, and, you know, if we don't do any
12 gerrymandering, if we look at this thing
13 compactly and get it done. Thank you.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, sir.

16 Next up we have Jacob Winge, followed by
17 Joyce Fletcher with the League of Women Voters,
18 and then Cosme Perez.

19 Jacob is -- it says he is with the Collier
20 Youth Political Activists. Welcome for being
21 here, sir.

22 MR. WINGE: Yes, good morning,
23 Representatives and Senators. Thank you for
24 allowing me and other members of the public to
25 speak to you in this very important process.

1 I, first of all, would like to echo the
2 words of our Supervisor of Elections and others
3 in saying to please do this process as quickly
4 as possible. There is a time when you have to
5 put politics aside and put principle and people
6 first on either side, Democrats, Republicans,
7 non-party, because if you don't do this process
8 effectively and quickly, it is going to affect
9 all sides, state, county and even city level
10 politics, as far as candidates running for a
11 variety of offices.

12 I also want to say, just coming from a
13 history perspective, I am on the Board of
14 Directors of the Collier County Museum, I don't
15 believe that you can represent both sides of
16 the State of Florida, which is culturally and
17 historically different, effectively and
18 efficiently, not good or bad, effectively and
19 efficiently. I live in Congressional District
20 25 and I live in House District 112, and it is
21 not -- I am not pointing any fingers, saying
22 good or bad job, but it is about effectively
23 and efficiently representing the people, and I
24 don't see how you can do that when both sides
25 of the state are completely different in

1 history and culture. Thank you so much.

2 REPRESENTATIVE WEATHERFORD: Thank you,
3 Mr. Winge.

4 Next we have Joyce Fletcher, and following
5 Joyce Fletcher is Cosme Perez, followed by
6 Estela Perez.

7 Joyce, thank you very much for being here.

8 MS. FLETCHER: Good morning. Thank you
9 all for coming to Naples and being here and
10 giving us this opportunity.

11 My name is Joyce Fletcher. I am
12 Vice-President of the League of Women Voters of
13 Collier County, and was a local coordinator to
14 help pass Amendments 5 and 6.

15 I have been requested by one of our
16 legislators to not repeat the message you have
17 heard about maps from the League of Women
18 Voters at every stop. While I will not belabor
19 this point, I must insist that you get maps out
20 to the public. Now that you have heard what
21 the public has to say, we must see what you are
22 proposing and truly have an opportunity to
23 comment, not in Tallahassee or by e-mail, but
24 all over the state and face to face.

25 We know the Constitution mandates that you

1 complete the State Legislature redistricting in
2 2012, and we believe there should be no reason
3 that you could not have maps, true public
4 comment and be ready to vote the first week of
5 session in January.

6 Here in Collier County, we have been
7 forced to live with our county being divided
8 into five State House districts since 2002.
9 How can Collier and its history and -- truly be
10 represented in such a design? The 2010 census
11 reported 321,520 citizens in Collier County.
12 This would entitle us to just over two
13 Representatives. Please look at how to keep
14 the most of Collier County in two districts, no
15 more districts reaching from the Atlantic to
16 the Gulf.

17 While we do not have enough citizens to
18 have a Senator to represent just Collier
19 County, we do need to continue to have a one --
20 to have most of the county in one Senate
21 district, perhaps with southern Lee County.

22 I, too, Representative Weatherford, had
23 trouble with My District Builder, but, you
24 know, the Constitution requires that you draw
25 the maps, not the citizens. Besides, we don't

1 have all the input that you have gleaned from
2 the meetings you have held all over the state.
3 Please do draw the maps now and distribute them
4 through every media possible. Give us time and
5 face-to-face ways to comment so you can be
6 ready to vote on the maps in early January.
7 Thank you.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much.

10 Next up we have Cosme Perez and Estela
11 Perez. Now, I am guessing perhaps that Mrs.
12 Perez is your wife?

13 MR. PEREZ: Yes, I think she is declining.

14 REPRESENTATIVE WEATHERFORD: Are you sure
15 you don't want her to go first? I don't want
16 to get you in trouble back home, so --

17 MR. PEREZ: Only because she is declining.

18 REPRESENTATIVE WEATHERFORD: Okay, okay,
19 all right. Good to see you, Ms. Perez. Mr.
20 Perez, you are recognized to speak. Thanks for
21 being here, sir.

22 MR. PEREZ: Thank you very much for
23 letting me -- thank you for being here. First,
24 my name is Cosme Perez, and I came here -- I am
25 going to read it, because I came here with my

1 wife to this county in 2002, and ten years
2 later, we are retiring now here. We have two
3 kids that are grown up, raised up in Miami and
4 they are okay. First we wanted to sell the
5 house in Miami and then come to Naples for our
6 dream house and retire here. We participated
7 in many community events without regards of
8 ethnic or racial concern, but noticed that
9 there was a leadership gap in the Hispanics.

10 In 2003, we participated -- we joined a
11 fraternity, and this fraternity conduct a
12 Columbus Day parade in Golden Gate City. We
13 helped organize this parade to bring to
14 Hispanics to participate for the first time.
15 That is a big group here in this county. This
16 resulted in the church that produced this
17 parade activated a scheduled mass in Spanish
18 with a Spanish priest that we still have now in
19 two churches. So the Hispanic groups here are
20 50 percent -- 57 percent increase, and Collier
21 County has its share about that. And there is
22 no -- I know that this may not be what about
23 the map, but listen to this. We have held --
24 even Jennifer with the elections campaign,
25 trying to work on the polls, but the Hispanics

1 don't vote, don't vote. There is a very low
2 turnout of Hispanic votes in this county, and
3 it is because probably the sign of this areas
4 and the concern they have, you know, who is
5 representing them.

6 As a part of the Hispanic -- I was part of
7 the Hispanic -- I was a member of the Hispanic
8 Advisory Board of Collier County Commission for
9 six years, and no one recommendation was ever
10 submitted to the Board by this Commission, by
11 this Board. And it is important, because the
12 issues discussed there month after month, the
13 Hispanics and the public didn't come to this
14 public session to listen to what we were
15 discussing.

16 Now, we can talk about dividing the
17 Florida map into 120 -- 200 congressional
18 districts.

19 REPRESENTATIVE WEATHERFORD: Mr. Perez, I
20 am going to have to ask you to help me wrap it
21 up a little bit.

22 MR. PEREZ: Yes. But we need leader of
23 Hispanic background to help get the Hispanic
24 vote out. And I want you to consider those
25 areas. There is no Hispanics here -- there are

1 Hispanics here, but not fifty -- 25 percent as
2 should be, and I think that they should have
3 this type -- this type of conference available
4 to them, too, so they can understand the system
5 so they can vote and be concerned. Right now,
6 they are not concerned.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much, Mr. Perez. I do think it is
9 important to point out that Collier County is a
10 Section 5 county. What that means is that it
11 is federally protected by the Department of
12 Justice, and that any changes to the districts
13 have to be cleared by the Department of Justice
14 for that very reason. And so I thank you for
15 your comments, sir.

16 I apologize, because Ms. Perez was not
17 speaking, I kind of fell behind here, so I am
18 going to announce somebody's name that probably
19 was not prepared, but Annisa Karim. Ms. Karim,
20 I'm sorry I didn't give you more time to
21 prepare. Following Ms. Karim, we've got Jim
22 Burke, and after Mr. Burke, we have Patricia
23 Forkman and then Neville Williams.

24 Thank you very much for being here.

25 MS. KARIM: Thank you very much. My name

1 is a Annisa Karim. I am the President of the
2 Collier County Democratic Club, but today I am
3 here as an individual speaking on my own
4 behalf.

5 I want to thank you for coming to Collier
6 County. I would say beautiful Collier County,
7 it is kind of overcast today, but usually --

8 REPRESENTATIVE WEATHERFORD: It is not
9 just because the Legislature is in town, too.
10 I just wanted to point that out for the record.

11 MS. KARIM: I thought it was because the
12 legislators are in town -- no.

13 I want to thank you for coming here, and
14 although these are comments you may have heard
15 across the state over and over, I think it is
16 important to make them again, because these are
17 the voices of the citizens.

18 This is the first time that I have
19 actually been paying attention and involved in
20 a redistricting process. And, of course, you
21 know that we are doing this concurrently. In,
22 you know, Collier County we are redrawing our
23 Board of County Commissioner districts and our
24 school board districts and, of course, we are
25 going through this redistricting process with

1 you, and it is very different.

2 Our Supervisor of Elections, I have to
3 congratulate her, I have to give her a big
4 thumbs-up, because her and her staff have done
5 an amazing job. They have given us five
6 different maps on which to comment. Not only
7 that, but they have actually given us the
8 opportunity on more than one occasion to
9 comment on these maps. We are able to make
10 substantive comments. Not only do we want
11 these maps to be fair to the citizens, but we
12 want to be able to look at a map and say, "You
13 know, I think District 4 is not right here. I
14 think District 1 here, you know, does not
15 respect community boundaries." And so we are
16 able to, as citizens, give substantive
17 comments. And that is really what I was hoping
18 for from the Legislature.

19 Given that we do not have maps, I do urge
20 you to adopt early in your session a map, maybe
21 by early January, so that we, as voters, one,
22 may have the opportunity to maybe know who
23 might be representing us, and, two, may, as
24 voters, know maybe where our district
25 boundaries are.

1 This is not a political -- this is
2 actually a non-partisan process. It doesn't
3 matter whether you are Democrat or Republican.
4 This is going to affect the state and all of
5 the decisions made within the state in the next
6 ten years.

7 So I urge you -- thank you for coming to
8 Collier County. Thank you for hearing us.
9 Please give us maps that we can make
10 substantive comments on and stop spending
11 taxpayer money on fighting Amendments 5 and 6
12 that the Collier County -- or, rather, the
13 state voters overwhelmingly approved. So thank
14 you very much. Have a great day.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much. Great testimony.

17 Next up we have Jim Burke, Commissioner
18 from the North Naples Fire District, followed
19 by Patricia Forkman, Neville Williams and then
20 Charles Willits.

21 Commissioner, good to see you.

22 COMMISSIONER BURKE: Thank you. First of
23 all, panel, thanks for the opportunity to
24 speak, and secondly, I want to commend you on
25 the job you are doing in bringing this out to

1 the public. I do not envy the job you have in
2 front of you.

3 But I am not here with maps or demographic
4 breakouts. I am more concerned with the
5 language you are dealing with. As an example,
6 the district has to be compact. Well, I am
7 sure everybody in this room has a feeling about
8 what compact is. Let me give you mine. I grew
9 up in a Catholic parish of 15,000 people. We
10 could all walk to Mass on Sunday. That is
11 compact. Be careful with that.

12 The other one is political boundaries.
13 What does that mean? City, county commission,
14 fire districts, of course, and things like
15 that. That is a delicate issue.

16 But the third piece of language you are
17 dealing with that I really like is -- I am
18 having a senior moment -- practicable. Wow,
19 that is a good one. I can't figure that one
20 out. But my concern is you've got to deal with
21 it, thank God not me, but you are dealing with
22 it, be careful with it, get yourself some
23 definitions. Let's not end up in court with
24 every one of these. So thanks for the time.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much, Commissioner. It is good to see
2 you.

3 Next up we have Patricia Forkman. Ms.
4 Forkman, thank you very much for being here,
5 followed by Neville Williams, Charles Willits,
6 and Steven Hemping.

7 MS. FORKAN: Thank you. My name is
8 Patricia Forkan.

9 REPRESENTATIVE WEATHERFORD: I'm sorry
10 about that.

11 MS. FORKAN: That is fine. We moved here
12 a year ago from Maryland. We were quite used
13 to having a close relationship with our member
14 of Congress. Imagine our surprise when we went
15 to vote and learned that our member of Congress
16 was living in Miami.

17 We are living in the Lely Resort area. It
18 has been -- how shall I say kindly --
19 gerrymandered, and we understand that it is a
20 situation having to do with the voters' rights.

21 So one of the suggestions that I have and
22 a number of us that live in Lely that would
23 like to be brought back into the Naples family
24 is -- Representative Passidomo's district
25 includes us and Senator Richter's district

1 includes us. So we would like you to look at
2 those particular situations. There is one
3 Hispanic group that -- a small group that is
4 part -- that is south of where we live that
5 apparently has caused justice to go in and
6 scoop out many more of us than are part of the
7 Hispanic voting block. So that is the primary
8 thing that I am here to talk about and hope
9 that you will consider.

10 The other thing that I am quite interested
11 in, but I don't know really how you would look
12 at this, I worked in Washington, DC, for a
13 number of years, and I have to compliment you.
14 I have never been to a hearing in Washington
15 where there were this many people on the
16 committee who are here and staying. Normally
17 most of you would have left by now. So it is
18 really kind of great to see --

19 REPRESENTATIVE WEATHERFORD: Those are all
20 members of the Sergeant's office that won't let
21 us leave, so we are good.

22 MS. FORKAN: I came down here with a
23 strong belief that we should protect the
24 Everglades. And when I look at how one member
25 of Congress has, at least in this area, the

1 whole of the Everglades, it would be
2 interesting to look at, when you are doing the
3 congressional district, to look at whether we
4 could get two Congressmen who could represent
5 Florida more vigorously, let's say, for the
6 Everglades. So that was the other thing I
7 wanted to bring up, that one person is
8 enough -- is not enough, really, as long as you
9 can possibly get it out to like say Route 29 or
10 something like that where there is more of an
11 interest on the members' part that would be
12 representing this as congressional district.
13 Thank you very much.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, Ms. Forkan. We appreciate that.
16 Very good, substantive advice, and we will take
17 it to heart.

18 Next up we have Neville Williams, followed
19 by Charles Willits, Steven Hemping and then
20 Norine Hemping.

21 MR. WILLIAMS: Yes, thank you for coming
22 and for listening. And I just want to endorse
23 what my wife just said, because I can't say it
24 better. So I waive most of my time, other than
25 to say --

1 REPRESENTATIVE WEATHERFORD: You are one
2 smart man, sir.

3 MR. WILLIAMS: But I don't think that the
4 Representative of District 25, U.S. Congress,
5 really wants all those alligators in his
6 district just so he can have a small piece of
7 voting block over here. And I feel -- I really
8 want to go on record as a protest that we feel
9 unrepresented. As my wife said, we could --
10 our Congressman was Chris Van Hollen, we could
11 see him anytime we wanted. I have no idea how
12 to get ahold of the Congressman over in Miami.
13 It does seem strange and really needs to be
14 addressed. Thank you.

15 REPRESENTATIVE WEATHERFORD: Very good
16 point. Thank you, sir.

17 Next we have Charles Willits.
18 Mr. Willits, thank you for being here, sir, and
19 I hope I said that last name right.

20 MR. WILLITS: You sure did, thank you.

21 I am a native Floridian and a resident of
22 Collier County for 18 years. I am speaking on
23 my own behalf, and my only interest in coming
24 today is to comment on the irregular boundaries
25 that have been mentioned already, Golden Gate

1 City, the area around Lely. And had I known
2 that our Supervisor of Elections had presented
3 the wonderful slide show saying the exact same
4 thing, I wouldn't need to come here today. So
5 I yield the rest of my time.

6 REPRESENTATIVE WEATHERFORD: All right,
7 smart man. Thank you very much. As I said, we
8 are giving bonus points out for brevity, sir.
9 You are leading the charge there, Mr. Willits,
10 so thank you very much.

11 Now, Steven, I see that you are planning
12 on going before your wife. Now, is that a
13 smart decision on your part? I just -- I want
14 to give you every opportunity --

15 MR. HEMPING: That decision was made
16 outside.

17 REPRESENTATIVE WEATHERFORD: Okay. All
18 right. Okay, you got to ask first.
19 Mr. Hemping, good to see you, sir, and you are
20 recognized.

21 MR. HEMPING: Good to be here this
22 morning. I am really representing myself as a
23 citizen of Collier County and Florida, but I am
24 past Chair of the Democratic party, so most
25 people probably know that here already. But I

1 appreciate you being here, and I would like to
2 get at the issue, and it is the unspoken word,
3 the gerrymandering issue. I mean, we are all
4 dealing with that here. Both major political
5 parties deal with this across the United
6 States. But here in Florida, it is an issue
7 that we have to take up, and voters of Florida
8 are really fed up with gerrymandering, you
9 know. The reason the Amendments 5 and 6 passed
10 with 63 percent majority really represented the
11 citizenry saying, hey, it is time for us to do
12 the job and make sure that all Floridians are
13 represented, not just one political party who
14 happens to be in control at this point. So
15 voters want fair, compact, contiguous district
16 lines drawn, we have already heard that, but
17 that is the goal.

18 If you could bear with me, I would like to
19 have some statistics brought forward to this
20 meeting this morning showing how negative
21 gerrymandering really is to the citizenry of
22 the state of Florida. We have -- 41 percent of
23 our registered voters in Florida happen to be
24 Democrat, 36 percent are registered Republicans
25 and the rest are NPAs or other, which is

1 23 percent.

2 If you look at our existing congressional
3 makeup, we actually have 19 Republicans,
4 whereas we probably should have ten if you look
5 at the pure statistics, and we only have six
6 Democrats in Congress. This is a perfect
7 example of how to do gerrymandering, okay, and
8 how one political party has over the last 20
9 years taken control of the state, unfairly for
10 really the majority of the populous in Florida.
11 So I suggest that this is an issue that needs
12 to be taken up. I know it is a challenge, I am
13 not saying it isn't, and I know you've got
14 pressures, but we have pressures, too, and we
15 are voters and we would like to be represented
16 like everyone else.

17 If I could just keep going a little bit,
18 if you look at the State House and State
19 Senate, in the State Senate, we have 40 seats.
20 There are 28 Republicans, which is a 70 percent
21 majority, and 12 Democrats. When 41 percent of
22 the voting population is Democrat, I can't
23 understand why there's only 12 Democrats
24 elected. I do know why, because we have been
25 gerrymandered here for a long time.

1 So just looking purely at the numbers, you
2 can see that we really don't have a represented
3 democracy, and I would like to commend you on
4 your effort here, but I would also like to
5 challenge you to really look at gerrymandering
6 in a big way.

7 If I have another minute?

8 REPRESENTATIVE WEATHERFORD: You don't
9 have another minute, but you've got about a
10 sentence and a half.

11 MR. HEMPING: Okay, all right. Let me
12 just say one thing about our community here,
13 and it's been brought up before. We have
14 Representative Passidomo here, who really is
15 the only one of our nine represent -- people
16 that represent us in State House, Congress and
17 State Senate, and we really need more people
18 focused on Collier County. We really don't
19 want Miamians supporting us, they don't know
20 our needs. And we don't really want people
21 in --

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Mr. Hemping.

24 MR. HEMPING: Okay. Thank you for --

25 REPRESENTATIVE WEATHERFORD: Whatever you

1 missed, I am sure that Ms. Hemping is going to
2 get. So thank you very much.

3 Dr. Hemping, thank you very much for being
4 here, and I feel sorry for your husband that he
5 went before you. I know you are going to take
6 it out on him later.

7 DR. HEMPING: Don't feel sorry for him.
8 In 2011, we are a team and we are co-equals.

9 MR. HEMPING: Good.

10 REPRESENTATIVE WEATHERFORD: Amen.

11 DR. HEMPING: My name is Dr. Norine
12 Roberts Hemping. I am a first-generation
13 American. Both my parents came to this country
14 with their parents seeking the American dream.
15 My parents had little of this world's material
16 goods, but they gave me something more
17 precious, the values which have made us a great
18 nation: Belief in the common good, respect for
19 one another, love of learning, participation in
20 a representative government. My parents are
21 buried a couple hundred miles north of here in
22 Clearwater, Florida, where they lived for 30
23 years of their retirement.

24 My uncles, though immigrant kids, all
25 served in the U.S. Army, Navy and Air Force in

1 World War II. One of the greatest strengths of
2 this, the greatest generation, was their
3 unselfish willingness to work together. They
4 put aside their differences to achieve uncommon
5 goals from victory against Hitler to building
6 highways, providing housing for returning
7 veterans, to supporting quality public
8 education for all.

9 As a nation and state, we are again facing
10 immense challenges. Millions of Americans are
11 anxious, worried and angry. As state
12 legislators, will you take your responsibility
13 seriously and work to strengthen our political
14 process by ending the unjust practice of
15 gerrymandering? Or will you choose to take us
16 further down the path to despair by destroying
17 what is left of our representative democracy?
18 The Boston Tea Party was never about cutting
19 and avoiding taxes. It was always and only
20 about the tyranny of being taxed while being
21 denied representation.

22 You are public servants. What do those
23 two words mean to you? Are you using the power
24 and influence of the office you hold to blindly
25 serve one ideology, one political party? Will

1 you make choices pleasing only to your base?
2 Will you make decisions which serve only to
3 further enrich the millionaires and
4 billionaires and hope for enough crumbs from
5 their corporate tables --

6 REPRESENTATIVE WEATHERFORD: Doctor, we
7 would like to keep the comments focused on
8 redistricting, if we could.

9 DR. HEMPING: -- to buy your reelection?
10 Or do you believe that being in public office
11 is a sacred trust with all the people that you
12 must honor and never break? Will you rise
13 above divisive partisan politics and meet your
14 obligation to present fairly drawn
15 redistricting reapportionment maps to the
16 people of Florida in a timely fashion, or will
17 you behind closed doors collude with cynical,
18 mean-spirited partisans to draw gerrymandered
19 district maps that destroy any last hope of the
20 people for representative democracy, thus
21 further disenfranchising millions of us
22 Floridians?

23 Will you find the courage to use
24 taxpayers' dollars to pay impartial IT
25 professionals to draw up district maps which

1 are fair, compact and contiguous, or will you
2 keep spending more millions of taxpayers'
3 dollars in misguided efforts to undermine the
4 express will of nearly two-thirds of Florida
5 voters by fighting Fair Districts Now?

6 When one party gains a super majority in
7 the State Legislature, you are at risk to act
8 like the schoolyard bully just because your
9 numbers are bigger. Like schoolyard bullies,
10 you can hurt others just because you can.
11 Gerrymandering is --

12 REPRESENTATIVE WEATHERFORD: Dr. Hemping,
13 I am going to have to ask you to try to help us
14 wrap it up here.

15 DR. HEMPING: Sure. I urge you to turn
16 away from the extremist ideologies. I urge you
17 to listen to your better angels. Give us fair
18 reapportionment maps. This is the best and
19 only way to restore the people's faith and
20 competence in the Democratic party. You do not
21 have 160 choices, you have but two. Number
22 one, either you lift high the lamp that gives
23 us --

24 REPRESENTATIVE WEATHERFORD: Ms. Hemping,
25 we are about a minute over. I would really

1 like to ask you to help us wrap it up.

2 DR. HEMPING: -- fair districts, or number
3 two, slam shut the golden door in our faces by
4 gerrymandering again. Thank you.

5 REPRESENTATIVE WEATHERFORD: Thank you.
6 And for those -- for those who -- if we run
7 over, what we will do is if you've got a
8 written statement, we will take that. It will
9 go into the record. It will be just as
10 valuable and utilized as if you had a chance to
11 speak it out right here into the microphone.
12 So we will give -- everything that you want to
13 say will go on the record and will be a part of
14 the process. We just want to give everybody an
15 opportunity to speak.

16 Ellie Cantor is next. Ms. Cantor, I don't
17 know if I gave you enough of a heads-up. I
18 apologize for that. That is my fault. She is
19 with the Collier County Democratic Executive
20 Committee.

21 Following Ms. Cantor, we have Randal Long.
22 Following Randal Long, we have Joe Russo and
23 then James Kelly.

24 Ms. Cantor, I'm sorry about that.

25 MS. CANTOR: That is quite all right.

1 Very good, I need it. Thank you, and I am glad
2 to be here.

3 I am urging you to adopt a timeline for
4 redistricting that makes sense for Florida.
5 Failure to approve the maps in early January of
6 2012 will assuredly delay final approval of new
7 districts until close to election day. Vote on
8 the final plans on the floor by no later than
9 the end of the first week of session, if you
10 can do this by Friday, January 13th. The
11 schedule -- and I won't go into the schedule
12 for presenting this to the courts. However,
13 the Legislature does send the plans to the U.S.
14 Department of Justice, who has 60 days to
15 review, and if they take all that time, the
16 districts will be finalized June 18th. The
17 problem with that is obvious and been stated
18 before today. We need you to revise your plan.
19 While this may be presented by June 18th,
20 candidates, however, must register to run by
21 June 8th. And so, again, it is an issue of not
22 knowing what their district is, nor
23 constituents being well-informed of who their
24 Representatives are.

25 I had an opportunity to serve on the New

1 York State Senate Redistricting Committee as a
2 member of senior staff up in Albany, New York,
3 and so I really did learn firsthand what
4 reapportionment means, though our mechanics
5 were somewhat different a few years ago. I
6 have lived in Florida now for 20 years, but
7 while I know that 63 percent of the people
8 voted for Amendments 5 and 6, our Fair
9 Districts amendments, which says districts must
10 be contiguous unless otherwise required, must
11 be compact, as equal in population as feasible,
12 and where feasible, must make use of existing
13 city, county and geographical boundaries, but
14 what we all know and I learned firsthand by
15 experience is that the party that is in power
16 is the one that draws the lines and they have
17 the final say. And so, as you know, you have
18 this responsibility, and what I am asking
19 primarily at this point is to honor a schedule
20 that will allow for fair districts. Thank you.

21 REPRESENTATIVE WEATHERFORD: Thank you
22 very much. Thank you for your comments.

23 Next we have Randal Long, Mr. Long.
24 Following Mr. Long is going to be Joseph Russo,
25 followed by James Kelly and then Jeff

1 Dentinger.

2 MR. LONG: Good morning, panel. I am
3 Randy Long. I am a citizen of Collier County,
4 have been here for 13 and a half years. I was
5 born and raised in Coral Gables, so I know both
6 sides of the state. I have worked in central
7 Florida and I have worked in Palm Beach area,
8 and Broward, and so I have a pretty good sense
9 of the state.

10 As Mr. Willits said, I think that you have
11 received a mandate. You have received a clear
12 picture of what the desire -- I would just ask
13 you to be bipartisan, to be as a group that
14 cares for the entire state, no matter what your
15 particular ideology is, and please represent
16 Florida in the very best sense. I was so
17 embarrassed with our Congress and our President
18 in the whole process that we just experienced
19 this summer. Our country needs to stand up,
20 and Florida is the fourth-largest state, we
21 need to be the leaders in this country. And
22 please do the right thing for us and for our
23 country. Be the leaders. Thank you.

24 REPRESENTATIVE WEATHERFORD: Thank you for
25 those words of inspiration. We appreciate

1 that.

2 Joseph Russo? Is Mr. Russo here? Good to
3 see you, Joseph. Followed by James Kelly, Jeff
4 Dentinger and James McDonald.

5 MR. RUSSO: Good morning, Representatives
6 and Senators. I know you are all thinking, who
7 is this kid here that is probably the youngest
8 person to speak today. My name is Joseph
9 Russo. I am a student at Florida Gulf Coast
10 University where Professor Bergerson here, one
11 of the smartest men that I probably know, is
12 one of my teachers over there and --

13 A VOICE: Suck up, suck up.

14 REPRESENTATIVE WEATHERFORD: There are no
15 easy As in his class, I can tell by looking at
16 him.

17 MR. RUSSO: I got to try, come on.

18 Anyhow, I am here today to speak to you as
19 somebody that has been politically active since
20 eight years old when my dad took me out
21 canvassing in his city council election. I
22 have been very involved in the political
23 atmosphere of this state. But I am here mainly
24 to talk about the southwest Florida region and
25 its respects to gaining another congressional

1 seat.

2 With over 20 percent growth in the past
3 ten years, it is quite obvious that southwest
4 Florida, being one of the fastest growing and
5 one of the most prestigious areas in our state,
6 could very well deserve and outright needs
7 another congressional district. If we look
8 right now, we have Collier and southern Lee,
9 and that district that we have, 14 and 13. If
10 we can look at the maps, we can clearly see
11 that there is another opportunity to put a
12 congressional district right between the two.
13 Personally, I would propose Collier and
14 southern Lee be linked up in the current
15 district we have here, and then Manatee and
16 Sarasota County keep their other district up
17 there, and we plop District 27, the new seat
18 that we have gained, right in between in
19 northern Lee and in Charlotte County. And in
20 that, we can also group that district with the
21 interior and the rural counties of Hendry,
22 Glades and all the others.

23 But I want to again thank you very much
24 for having this transparent process and
25 allowing me to come speak here today. I know

1 it is a great opportunity for myself to address
2 all of you, and thank you very much for being
3 our representatives and for doing this process
4 very, very well. Thank you.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Mr. Russo, and good luck in your
7 political future. I think everybody --
8 everyone on this Committee, we know young
9 talent when we see it, so good luck to you,
10 buddy.

11 Next up we've got James Kelly, and
12 following Mr. Kelly, Jeff Dentinger and then
13 James McDonald.

14 Good to see you, sir.

15 MR. KELLY: Thank you very much. I am a
16 member of the Southwest 9/12 Project, and also
17 a citizen of the country, although my -- I have
18 a party and I have affiliations and I have
19 interests, I am just a citizen speaking about
20 citizens being represented. So I want to thank
21 you for being here. I have been in the county
22 for a few years. I really appreciate your
23 taking the time. I had a printer malfunction,
24 so I am reading from an iPhone. I apologize
25 for that.

1 REPRESENTATIVE WEATHERFORD: God bless
2 technology.

3 MR. KELLY: I am embarrassed to say it was
4 a backup.

5 Anyway, this morning I speak about my
6 feelings towards Amendments 5 and 6. As I read
7 these amendments, I realized that they are
8 actually very open to interpretation because of
9 so many terms that are not well-defined, and
10 that gives me great pause. I don't understand
11 how the words "practicable," "feasible," can be
12 interpreted, for instance, meaning -- when
13 their meaning varies so much from person to
14 person. How can you draw maps that will use
15 lines that seem practical and feasible as our
16 18 million Floridians who might define those in
17 their own way?

18 Another one that's been mentioned already
19 is "compact." I think words like "compact" are
20 also fairly relative and they are not
21 specifically defined in the amendments. My
22 question is, is there one standard for
23 compactness that you all as Representatives and
24 Senators will use when drawing your new lines?
25 What is the standard? I think it is important

1 that you have a specific standard.

2 Finally, the amendments stated that you
3 need to follow existing political boundaries.
4 They don't specify what those boundaries are.
5 Are they city boundaries, are they existing
6 state -- lines in State House, State Senate,
7 congressional districts? Or are they
8 census-designated places like Naples Park and
9 Lely?

10 My point in raising these questions is
11 that the open-endedness of these amendments
12 will most likely mean that tax dollars will be
13 spent on endless lawsuits over whatever maps
14 are drawn. I don't want -- I don't want that,
15 and I don't want judges to draw the maps. I
16 want you to draw the maps. While this process
17 may be -- while this process may be a sincere
18 attempt to get the maps drawn without the court
19 system, I haven't heard a clear explanation --
20 hopefully, I will -- of what you are doing to
21 prevent that. Is there a clear objective
22 standard that you are aiming that, if achieved,
23 will show overwhelming evidence that the
24 Legislature has met the standard required by
25 both state and federal law?

1 A couple of comments that I would like to
2 make is there's two young gentlemen that stood
3 up today who were the youngest speakers, and
4 they make the most sense because they speak
5 common sense. And I think that is something
6 that we can all grab ahold of as left and
7 right, whatever party we have, you know, that's
8 the way it is. I think as citizens of the
9 U.S., that is what makes us great. However,
10 elections do have consequences, and that is for
11 the majority and the minority. I lived in
12 Texas when the minority moved to Oklahoma to
13 avoid this process. I'd like a show of hands
14 from the minority who say they won't do that.
15 No, I'm sorry, I am just trying to make light.

16 Anyway -- and I would also like to echo
17 one more comment --

18 REPRESENTATIVE WEATHERFORD: It is a long
19 ride to Georgia from here.

20 MR. KELLY: Did I say Georgia? I mean
21 Texas anyway. Oh, no, you're right, it is
22 Oklahoma, Georgia. Okay. I am from Georgia,
23 you threw me off.

24 Anyway, the last thing I would like to say
25 is there's a person that has been mentioned on

1 both sides of the issue, and that is our
2 Supervisor of Elections, outstanding. She is
3 -- I think she would be a great asset to you
4 guys in your deliberations. So thank you for
5 being here and thank you for --

6 REPRESENTATIVE WEATHERFORD: Thank you,
7 sir, thanks for your comments.

8 Next we have Jeff Dentinger. Mr.
9 Dentinger, I hope I said your last name right
10 there, sir. Thanks for being here. And then
11 we have James McDonald and then Ms. Linda
12 McDonald, and if I was James McDonald, I would
13 at least offer Ms. Linda the opportunity to go
14 first, and then Mary Kniaz, I believe. I hope
15 I said that right.

16 You are recognized, sir.

17 MR. DENTINGER: Hi, legislative members.
18 My name is Jeff Dentinger, and I have two
19 suggestions for priorities on redistricting.
20 One is military. We are in a financial crisis.
21 To protect our state sovereignty, we need
22 independence. To supply our fuel needs for the
23 military and our people, I suggest making an
24 environment for corporate refining of oil. Any
25 area willing to build a refinery should be --

1 REPRESENTATIVE WEATHERFORD: Sir, these
2 are -- I hope -- is this going to be focused on
3 redistricting? Okay, good.

4 MR. DENTINGER: -- northwest Florida.

5 Two, education. This year, budget
6 appropriations for education come down to a
7 midnight meeting in the Capitol. Resulting
8 education funding for graduate studies was
9 increased, and undergraduate studies was
10 decreased.

11 REPRESENTATIVE WEATHERFORD: Mr.
12 Dentinger, I don't like to ever interrupt
13 anybody speaking, but this hearing is about
14 redistricting and not about -- there's a lot of
15 town hall meetings and opportunities to talk
16 about education and oil and everything else.
17 We would like to --

18 MR. DENTINGER: If you could come down --
19 if it comes down to making a decision about a
20 district, if you could lean towards public
21 schools, I would appreciate it. If you could
22 have a little bit of mandering towards public
23 schools, that would be fine, just no
24 gerrymandering. Thank you.

25 REPRESENTATIVE WEATHERFORD: Okay. Thank

1 you very much, sir. We appreciate that.

2 Next up we have Mr. James McDonald.

3 MR. McDONALD: I yield to the Chair's
4 wisdom and send my wife.

5 REPRESENTATIVE WEATHERFORD: You are a
6 smart man, Mr. McDonald.

7 MS. McDONALD: You know, I used to be
8 tall.

9 REPRESENTATIVE WEATHERFORD: Ms. McDonald,
10 it is great to see you. Thank you for being
11 here, and your husband is one smart man.

12 MR. McDONALD: Yes, he is.

13 REPRESENTATIVE WEATHERFORD: You are
14 recognized to speak.

15 MS. McDONALD: Thank you. My name is
16 Linda McDonald. I am here representing mostly
17 myself. Wait, you can't have that. We have to
18 know who you are. However, I am also the Chair
19 of Collier TIGER, which is Together in
20 Government and Education Reform, and represents
21 the teachers and non-instructional personnel in
22 the public school here in Collier County.

23 First of all, the teachers weren't too
24 thrilled about the timing of this, but since I
25 retired last year after 40 years, I am here.

1 So my big concern is we all know Democrats
2 and Republicans throughout our history have
3 done gerrymandering. The people of Florida
4 just voted and said stop. All of us said stop.
5 So that is what we need to do, we need to have
6 fair and -- oh, my goodness, I don't envy you
7 this job, because I looked at that and I
8 thought, oh, it is -- you know, it is not an
9 easy job. So nobody in their right mind is
10 going to expect it to be perfect for everyone.
11 Please, what we are asking is that you do it as
12 fairly as you can.

13 Now, I happen to personally know a
14 Republican on this group that I know is a fair
15 man, because I grew up -- helped his kids grow
16 up in our church. Yes, that would be the
17 Senator, Mr. Richter, who does still live here
18 as far as I know. Did you move? Thank you.

19 REPRESENTATIVE WEATHERFORD: Now, did you
20 say fair? Isn't he a banker? I am just
21 kidding, I am just kidding. We love Senator
22 Richter.

23 MS. McDONALD: He is a banker, he is a
24 banker, but he is really a good man. So this I
25 know personally, not politically, I don't know,

1 but, yeah, I pretty much do. He is a good
2 human being and he will be fair.

3 All I am asking is that the rest of you
4 please remember that we're not asking you to be
5 perfect. We are asking you to give it your
6 best shot, to not think, oh, wait, if I go in
7 there, I will get more Republican votes, or if
8 I go in there, I will get more Democratic
9 votes. Whatever side you are on, please -- I
10 live in District 101. The people in Broward
11 really don't have all the same, yeah, problems
12 or concerns that I have here. So I would like
13 to not have 101 include half of the coast, and
14 a lot of people have said that.

15 And I also just have to say how incredibly
16 wonderful Jennifer Edwards is and the work she
17 has done for this community. Thank you.

18 REPRESENTATIVE WEATHERFORD: Thank you.
19 And, Ms. McDonald, we have to agree with you
20 that Senator Richter is a good man, and much
21 like Mr. McDonald, the reason he is a good man
22 is because he married way up, so he is a
23 good --

24 MR. McDONALD: Thank you, I appreciate
25 that.

1 REPRESENTATIVE WEATHERFORD: You are
2 welcome, sir. You are recognized.

3 MR. McDONALD: I appreciate that. I came
4 with 12 pages of notes today, and I am down to
5 this. So everything that I felt I needed to
6 say today has been said, except I want to echo
7 the welcome and appreciation to all of you for
8 being here. It is very impressive that you
9 would travel across the state, down the state,
10 up Airport Road, to be here today and to hear
11 what we have to say. I may not have voted for
12 many of you, but I respect the offices that you
13 hold and I accept the will of the people who
14 elected you to office, feeling that you were
15 the best candidates to represent all of us, not
16 just Republicans who may have put you in office
17 or Democrats who may have put you in office,
18 but all of us. I accept that and I respect you
19 for being in that position.

20 And I ask today that you respect the voice
21 of the people who supported Amendments 5 and 6,
22 that said, you know, 200 years of
23 gerrymandering, we're tired of it, let's go
24 ahead and clean it up and do it right. So I
25 ask you to do that. Thank you very much.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much, sir. We appreciate those comments.

3 Next up we have Mary --

4 MS. KNIAZ: Kniaz.

5 REPRESENTATIVE WEATHERFORD: -- Kniaz.
6 Thank you very much. I'm sorry, I was
7 struggling with that.

8 After Ms. Kniaz, we have Lydia Galton.
9 Following Ms. Galton, we have Douglas Wilson
10 and then Doug Fee.

11 You are recognized, ma'am.

12 MS. KNIAZ: Hi. My name is Mary Kniaz. I
13 am a new Florida resident. I currently live in
14 Lely Resort, plan to stay there the rest of my
15 life. I was really surprised, as were my
16 neighbors who spoke here earlier today, to
17 discover that I was represented by a
18 Congressman whose office is on the other side
19 of the district, and whose district extends way
20 over to Miami. I moved to Naples because I
21 thought Naples was wonderful, and I don't think
22 it has a lot in common with Miami.

23 Lely Resort is comprised entirely in
24 precinct 155. Right next door to us is
25 precinct 157, which I think is a majority

1 Hispanic community, and that is the reason that
2 Lely has been cut off and put all the way over
3 with Miami in a congressional district. We are
4 represented by Kathleen Passidomo and by
5 Senator Richter, and actually there are two
6 senatorial districts in Lely Resort, I believe,
7 divided by Wildflower Drive.

8 I am here to ask that Lely Resort be
9 placed in one congressional district, in the
10 congressional district that covers the rest of
11 Naples with whom we have a common newspaper,
12 common beaches, common banks, common businesses
13 and just a common sense of community. We have
14 nothing whatever in common with Hialeah or
15 Miami. So I would ask that if you feel that
16 you need to put precinct 157 in with what is
17 considered to be a community of interest,
18 perhaps a Hispanic community of interest,
19 although I don't quite get that, because
20 precinct 157, I believe, is majority Mexican
21 Hispanic, whereas Miami is Cuban Hispanic, and
22 it is kind of like saying Brazil and Portugal
23 should elect the same Representatives, that
24 they have more in common than they do with
25 their immediate neighbors, but if you feel that

1 it is necessary to cut out that one
2 neighborhood and put it with -- as it is now I
3 think in Representative Nuñez' District, go
4 ahead and do that, but Lely Resort belongs in
5 Naples, and I would ask that you put it in a
6 Naples congressional district. Thanks.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much.

9 Next we have Ms. Lydia Galton with the
10 League of Women Voters of Collier County,
11 followed by Douglas Wilson, Doug Fee and then
12 Scott Duval.

13 MS. GALTON: Good morning, legislators. I
14 just want to assure you that I am not here to
15 criticize your committee. I just -- as the
16 President of the League of Women Voters of
17 Collier County, I want to make some suggestions
18 to you to make the process better.

19 The timeline that you have currently
20 published is really unrealistic. As our
21 Supervisor of Elections has already pointed
22 out, she will be unable to mail absentee
23 ballots by September 21, because the courts
24 could still be hearing redistricting
25 challenges. Your timeline gives candidates for

1 office insufficient time to qualify by
2 June 8th. The districts could still be in the
3 courts, and the challengers won't even know
4 whether they live in the districts, so how in
5 the world could they run?

6 Very importantly, your timeline gives the
7 electorate very little time for review. You
8 have to -- your maps won't be unveiled, as you
9 currently plan it, till late in January, and we
10 will have very little time to comment on it.

11 You are charged by the Constitution to
12 create these maps, and you are charged by
13 Amendments 5 and 6 to create them in accordance
14 with the rules of those amendments. So I urge
15 you, please, file all your maps by October 3rd.
16 Make them available to the electorate so that
17 we can comment on them, whether you do this
18 electronically or any other way, but make them
19 available to us. Hold the floor vote on the
20 legislative districts on January 13th. As you
21 very well know, the congressional districts
22 could be drawn today and voted on tomorrow if
23 you wanted to.

24 On election day 2012, the Department of
25 Justice could still be reviewing totally drawn

1 districts. If so, can you assure me that our
2 votes will count? Will we let the United
3 States Supreme Court decide another
4 presidential election because of the sloppiness
5 of Florida's legislators? Let's not be fodder
6 for Saturday Night Live. Thank you.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much. And, Ms. Galton, I hope -- I know
9 you probably plan on sticking to the end. I
10 think you bring up some great points, and I
11 know that Senator Gaetz is taking copious
12 notes, he's probably got seven pages of notes
13 already, and he will address some of the very
14 questions you asked, so thank you.

15 MS. GALTON: Thank you very much.

16 REPRESENTATIVE WEATHERFORD: Yes, ma'am,
17 thank you.

18 Next up we have Doug Wilson with the ACLU,
19 thank you very much for being here, Mr. Wilson,
20 followed by Doug Fee, Scott Duval and then
21 Peter Simmons.

22 MR. WILSON: Good morning. It is a
23 pleasure to be here.

24 I would like to say at the outset that I
25 listened carefully to Senator Gaetz' opening

1 remarks, and I was very gratified by what I
2 heard. Others have expressed and you all have
3 received a letter from several leading
4 organizations of the Fair District coalition
5 which expressed concern about the timeline.
6 Senator Gaetz said in considerable detail that
7 it was his commitment to ensure that the
8 timeline would be moved as far back towards the
9 present as possible in order to respond to
10 those concerns. And, Senator, if you are able
11 to deliver on that, you will have earned our
12 gratitude and our respect, and I thank you for
13 that.

14 The -- of course, Amendments 5 and 6 were
15 about gerrymandering, and Steve Hempling has
16 spoken eloquently and with statistics about the
17 evils of that. And what he didn't say was that
18 the way that it works is that gerrymandering
19 seeks to spread out the votes of the majority
20 over a lot of districts and concentrate the
21 minority in a few districts, and that is how,
22 in a state with a five to four preponderance of
23 one party over the other, it is the minority in
24 registration which has two-thirds of the
25 electoral districts. Well, there is the Tea

1 Party influence in the last election, yeah, the
2 majority did a great job of selling in some
3 districts that they might not otherwise have
4 won. But this is an evil that is against our
5 democracy. It is an evil that has been
6 practiced by both parties, this is not a
7 partisan thing. And it is something that will
8 be remedied by observing and following in good
9 faith Amendments 5 and 6.

10 In that regard, I want to mention
11 something else. These amendments are not new
12 and strange and radical. I was at the Collier
13 County redistricting hearing just Monday night
14 on our own local county redistricting process.
15 Amendments 5 and 6 don't cover county
16 redistricting, but the criteria the County
17 staff displayed were almost verbatim with
18 Amendments 5 and 6. And what they explained
19 was that these concepts are common in every
20 jurisdiction in the country -- almost every --
21 that has seemed to eliminate gerrymandering.
22 These are not something radical that you are
23 going to have to really cope with. There is a
24 large body of experience in the country in how
25 to implement that, and all we ask is that you

1 proceed to do that in good faith, and in
2 that -- in so doing, you will fulfill the
3 promise that democracy gives us all, and that
4 is that the majority does rule and that the
5 public has fair input into that process.

6 Now, as an ACLU person, we will be
7 watching, and the districts -- the maps that
8 you draw will be -- and I want to say this to
9 you, I completely support the idea of multiple
10 maps. Our County staff had five of them, they
11 were discussed at length, they presented
12 various options, and the fact that you present
13 multiple maps will indicate a good faith
14 attempt to look at different solutions in
15 applying these criteria. That itself will be
16 evidence of your good faith. And the --

17 REPRESENTATIVE WEATHERFORD: Help me --
18 help me wrap it up, sir. I don't want to
19 interrupt you, but --

20 MR. WILSON: All right. I have delivered
21 my message the best I can, and I thank you for
22 your attention.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much.

25 Okay. Next we have Mr. Doug Fee. Is Doug

1 here? Thank you, sir, thank you, and you are
2 just trying to steal those bonus points, right,
3 to be the quickest. We know what you are
4 doing, great job. No, thank you very much for
5 being here, Mr. Fee, we appreciate it.

6 And after Mr. Fee, we've got Scott Duval.
7 Mr. Duval, thanks for being here. Peter
8 Simmons is after Scott, and then Roger Brown
9 and Ms. Sandra Brown, and we will let them
10 figure out which order they want to come in.

11 MR. DUVAL: Good morning. My name is
12 Scott Duval. I am a resident of Collier
13 County, but I am also here as a member of the
14 Bonita Springs Area Chamber of Commerce
15 Government Affairs Committee, and I can't make
16 the meeting tonight in Lehigh Acres, so I am
17 here to offer my preemptive approval of the
18 maps that are going to be submitted this
19 evening by the City of Bonita Springs.

20 One of our main issues is the bifurcation
21 of the city of Bonita Springs. This happens
22 with just the odd boundaries that are present
23 in Collier County as well, the very odd
24 boundary of House District 112, House District
25 75, and then the Florida Senate District 27 and

1 37 are the districts that bifurcate the city of
2 Bonita Springs. So we just ask for you to use
3 wisdom in coming up with fair and logical
4 boundaries, using political subdivisions or
5 geographic boundaries, not man-made boundaries
6 like I-75.

7 So thank you very much for your time.
8 Really appreciate all of your efforts, and God
9 bless your efforts.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much, Mr. Duval.

12 Next we have Mr. Peter Simmons with the
13 Simmons Group, and then Roger Brown, Ms. Sandra
14 Brown, and then we've got former
15 Representative, Mr. Dudley Goodlette.

16 MR. SIMMONS: Good morning. My comments
17 are brief as well. Peter Simmons from Bonita
18 Springs, and I would concur with the last
19 comments just made here to keep Bonita Springs
20 intact, and also, what a nice problem that
21 Florida has, we are actually gaining
22 representation in the United States Congress.
23 Many of the communities up north and states up
24 north and other places don't have that luxury.
25 They are trying to figure out how to draw

1 districts with less representation, so I
2 applaud all of your efforts.

3 We -- what won't change are the state
4 districts, that number will not change, but in
5 the congressional representation, I also urge
6 expanded representation for southwest Florida.
7 Applaud your efforts, I know you have been
8 around the state, and I would applaud everybody
9 that is here and involved to realize this is
10 not the end of the process, this is the
11 beginning of the process, it will continue in
12 Tallahassee and please keep up the good fight.
13 Thank you very much.

14 REPRESENTATIVE WEATHERFORD: Thank you.
15 We have Mr. Roger Brown.

16 MR. BROWN: (Inaudible) support it.

17 REPRESENTATIVE WEATHERFORD: Thank you.
18 He said supports Ms. Edwards' presentation in
19 the beginning. You are another proud member of
20 the Jennifer Edwards fan club, which I am
21 noticing is quite large here in Collier County,
22 so -- great job.

23 Now, Ms. Sandra Brown, are you also a card
24 carrying member of the club? Would you like to
25 speak? Great, her comments has been covered,

1 very nice. Thank you very much.

2 Now we would like to turn it over to
3 former Representative Dudley Goodlette. Mr.
4 Goodlette is, in my opinion -- and this is just
5 my opinion, I won't speak for the whole
6 Committee, but when I think of former statesmen
7 in the Legislature, I think of Dudley
8 Goodlette. He was a great leader for the State
9 of Florida, so thank you.

10 MR. GOODLETTE: Thank you, Mr. Chairman.
11 Thank you for reducing the size of the mike
12 here too. I will be short.

13 First of all, let me say welcome to many
14 of you -- many of you I have had the pleasure
15 of working with or working for when I was in
16 the Speaker's office, and I applaud you for
17 your public service. I also want to just sort
18 of focus for a couple of minutes on what -- on
19 the important constitutional issues that you
20 are about in this redistricting and
21 reapportionment process.

22 Obviously, reapportionment springs from
23 our founding fathers. I would urge you to read
24 Federalist Paper No. 58, written by James
25 Madison in February of 1788, 223 years ago, and

1 he spoke and underscored the importance of the
2 census and the periodic review and
3 reapportioning districts to ensure
4 representation in this representative democracy
5 that we are so proud of.

6 I would also in that vein like to
7 congratulate your staffs. I think that the
8 letter that you -- that was sent to the
9 Department of Justice on March the 29th of this
10 year outlining some of the issues that need to
11 be dealt with, particularly for counties like
12 Collier that are in pre-clearance counties,
13 that has been alluded to before and I won't
14 take anymore of my time to dwell on those
15 issues, but it was -- the letter from your
16 staff was very well stated, the issues were
17 very thorough, and particularly as it relates
18 to the subject of retrogression. And I know
19 Congressman Diaz-Balart addressed this group
20 and spoke about that, and I applaud his
21 thoughts, and I know that you are going to be
22 deliberate in that process.

23 And, finally, I would like to say that I
24 do applaud and I think that they're the
25 laudable goals in the passage of Amendments 5

1 and 6, and I do think that it does make the
2 challenge that you face a little bit more
3 difficult than the challenge we faced ten years
4 ago when I was sitting in -- privileged to sit
5 in one of the seats that you are occupying now.
6 But I would urge that the proponents,
7 successful as they were, 63 percent of the
8 people in Florida voted for those amendments,
9 and I think that was a strong message, I would
10 suggest that -- and hope that the proponents of
11 that -- and my good friend, Dan Gelber, their
12 counsel, would offer up to you some guidelines
13 for clarification as to what the intent of the
14 drafters of that language might have been, and
15 I think -- I think that they can do that and I
16 am confident that they will do that.

17 And, finally, I would just want to wish
18 all of you well. I know that, as just
19 indicated, this process is evolving. It will
20 conclude -- it will begin to conclude when you
21 are in the committee meetings beginning next
22 month and the legislative session that begins
23 on January the 10th. We are very fortunate to
24 have a quality representation from southwest
25 Florida, and I know because of my years in

1 Tallahassee that the representation from around
2 this state is outstanding.

3 Thanks to each one of you. Thank you very
4 much, Mr. Chairman.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Representative. Always good to see
7 you, and please give Mrs. Goodlette our best.

8 Next up we have -- I'm sorry, I kind of
9 blew through that because we had some folks who
10 didn't speak, I did not give you enough time
11 here, but Gregory Gargan. Gregory, are you
12 here, sir? Thank you very much for being here,
13 you are next. And following that, we have
14 Ms. Marlene Gargan. So we have Gregory and
15 Marlene, and we will let y'all decide who wants
16 to go first, and then following the Gargans, we
17 have Colleen MacAlister and then Jasper Medici.

18 Mr. Gargan.

19 MR. GARGAN: Thank you all. Thanks for
20 being here. Welcome to Collier County and
21 Naples. My name is Greg Gargan. I am a
22 resident of Naples and a six-year resident of
23 Florida.

24 I would like to start by saying I am both
25 discouraged and encouraged when I come here. I

1 was originally discouraged because I saw the
2 original or the current Florida legislative
3 district map, and after seeing that, I know why
4 the Fair Districts amendment passed by nearly a
5 two-thirds approval vote.

6 However, I am encouraged also and a little
7 spoiled -- first of all, I am encouraged by
8 your presence here. I didn't realize I would
9 be addressing the whole group. This is like a
10 joint member of -- you know, a joint session of
11 Congress I am talking to here, and I appreciate
12 that and the openness of this exchange. But I
13 am also encouraged and spoiled because of the
14 fine job done by the Collier County
15 redistricting team who drew and presented
16 options for the Collier County Commissioners'
17 districts and school board districts this past
18 week, and I only hope that those drawing the
19 state districts are as unbiased and talented.

20 Now, I realize you are here to listen, and
21 in some respects you are just the messengers.
22 So please be aware that none of my remarks are
23 directed toward any of you personally. If they
24 are perceived as negative, it is not my
25 intention. They are meant to be constructive

1 and to illustrate a point. And I apologize,
2 because I have some redundancy in my
3 presentation, but I have to go that route even
4 though some of my remarks might have been said
5 before.

6 Now, I am fairly -- I have a fairly strong
7 sense that you have a fair idea of the meaning
8 of "fair districts" in the Fair District
9 amendments, but I would like to go over a
10 couple of the elements intrinsic to those
11 amendments just on to make sure that we are on
12 the same page. As a help in communication, I
13 have also prepared some visual aides to assist
14 in overall understanding. These are
15 technically old.

16 REPRESENTATIVE WEATHERFORD: May we get
17 somebody to help out Mr. Gargan there? We've
18 got about 23 speakers to go after you, so I
19 don't want to rush you, but we have to kind of
20 stay on the timeline, so --

21 MR. GARGAN: Okay. I can just hold -- I
22 can just hold these up.

23 "Contiguous," it is a big word that in
24 this context refers to how two or more parts of
25 a district are joined together. I don't think

1 we should have a problem with that, but bear
2 with me.

3 Joining sections A and B of this district
4 makes them contiguous if they are joined like
5 this, with a fairly long common boundary. Next
6 slide. Joining sections A and B in this
7 district makes them non-contiguous, or not
8 contiguous. Fair Districts requires contiguous
9 boundaries, and the current map is why I am a
10 little upset about it and why I bring this
11 point up. We should stay with contiguous.

12 Now, I know that there are many
13 constraints, the boundaries -- besides
14 boundaries being contiguous, things like
15 boundaries must contain the exact correct
16 population count, boundaries should be natural
17 boundaries when appropriate, et cetera, et
18 cetera.

19 REPRESENTATIVE WEATHERFORD: Mr. Gargan,
20 we are -- I don't want to rush you. We are
21 familiar with a lot of these terms, and I don't
22 want to interrupt you, but everybody's got to
23 get a chance to speak, and we are going to be
24 very tight to getting to the very end, so
25 please kind of get to it.

1 MR. GARGAN: Okay. Once you have drawn
2 the boundaries, I want you to step back and
3 take a look at the silhouettes of those
4 boundaries, okay, like you did when you were a
5 kid and laid in the grass, looked up at the sky
6 and saw the cloud formations, okay, you see the
7 silhouettes, that looks like George
8 Washington's profile, whatever. Well, if what
9 you have drawn, if the silhouettes look
10 anything like these, okay, a kitchen utensil --

11 REPRESENTATIVE WEATHERFORD: Mr. Gargan, I
12 think we get your point, and I hear it loud and
13 clear, I think everybody does, and what we will
14 do is we will find a way to put those out so
15 that as everyone is leaving today, they can
16 look at each and every one, but I want to give
17 your wife an opportunity to speak and the other
18 23 people behind you.

19 MR. GARGAN: Okay.

20 REPRESENTATIVE WEATHERFORD: But your
21 point is well taken, sir, I can assure you.

22 MR. GARGAN: I would recommend sticking
23 with some basics.

24 REPRESENTATIVE WEATHERFORD: With that.

25 MR. GARGAN: Yeah, where at all possible.

1 I know that is not possible.

2 REPRESENTATIVE WEATHERFORD: We get it.

3 Thank you very much.

4 MR. GARGAN: These -- these -- things like
5 these --

6 REPRESENTATIVE WEATHERFORD: Mr. Gargan, I
7 got to keep moving, sir, I'm sorry.

8 MR. GARGAN: I am coming to a close.

9 REPRESENTATIVE WEATHERFORD: You are way
10 over. You are way over by two minutes, I'm
11 sorry.

12 MR. GARGAN: Really?

13 REPRESENTATIVE WEATHERFORD: Yes, you had
14 a great presentation, it was very entertaining
15 and I didn't want to interrupt it because of
16 the slides, but we've got to move forward out
17 of respect to the 23 people who have not had a
18 chance to speak yet. We've got to keep going.

19 Ms. Gargan, you are recognized. If you
20 want to finish his presentation for him, you
21 are welcome to do so.

22 MS. GARGAN: I had thought of that, but I
23 have to speak -- I am Marlene Gargan. Most
24 everybody calls me Mickey. I do have to speak
25 as a representative, the Chairperson of the

1 Collier County Democratic Party.

2 I reiterate everything Jennifer Edwards
3 said. She has got to be the -- among the top,
4 fairest, most transparent Supervisor of
5 Elections ever. She is just really helpful to
6 everybody.

7 It is important to move that timeline up.
8 It is unfair to have the maps drawn after the
9 date that the people have to declare candidacy.

10 The east-west boundary districts just do
11 not give proper representation. Again, Miami
12 and Dade County do not have the same economic
13 values, population statistics, everything, as
14 just -- it is too diverse. It needs to be --
15 we need to have a Collier County district.

16 There is also a need to -- for you to
17 encourage the state party leaders, the state
18 leaders, to not spend anymore money fighting
19 Fair Districts Florida. If trends need to be
20 more logical or more spelled out, then do that,
21 but stop spending the taxpayers' money for
22 that. And, again, do use districts 5 and 6 in
23 good faith requirements.

24 REPRESENTATIVE WEATHERFORD: Thank you.

25 Okay. Yes, ma'am, thank you, we are honored to

1 be here.

2 Next up we have Colleen MacAlister
3 Ms. MacAlister, who is on her way down. Next
4 after Ms. MacAlister, we have Jasper Medici,
5 John McCullough, and Francis Schwerin.

6 You are recognized.

7 MS. MacALISTER: I had waived, but since
8 you called me, I will just reiterate what has
9 been said by so many people about the timeline,
10 I think it is a concern. I consider open and
11 transparent to be open and transparent with
12 respect to the maps as well, and I would hope
13 that this Committee would figure out a way --
14 and the League seemed to indicate that on-line
15 was okay. On-line is not okay for everybody.
16 I would hope that you would invite this kind of
17 comment after you have the maps, I would hope
18 that you would have some alternatives for us to
19 look at, and even if you have to combine some
20 of these hearings so that we travel 30 minutes,
21 that is okay. I would just like your timeline
22 to include the open and transparent review and
23 discussion of the maps. Thank you.

24 REPRESENTATIVE WEATHERFORD: Thank you.

25 Jasper Medici. Mr. Medici, thank you for

1 being here, sir. I hope I said that name
2 right, and then John McCullough, Francis
3 Schwerin, or Schwinn, and then John Sorey, I
4 think is what it is, from the City of Naples.
5 I hope -- I am not sure I got that right. But
6 you are recognized, Mr. Medici.

7 MR. MEDICI: Okay. The name is Jasper
8 Medici.

9 REPRESENTATIVE WEATHERFORD: Medici.

10 MR. MEDICI: Medici.

11 REPRESENTATIVE WEATHERFORD: Yes, sir.

12 MR. MEDICI: Like the Medicis over in
13 Italy.

14 REPRESENTATIVE WEATHERFORD: Yes.

15 MR. MEDICI: Okay. Thank you for coming
16 to Naples. I appreciate the opportunity to
17 talk to you. I am a resident in Collier
18 County, I have been here two years. I have
19 been coming down here for about 15 or 16 years,
20 visiting a friend of mine who I have known
21 since the third grade, about 76 years now, so
22 we are pretty good friends, and I know Collier
23 County and Naples since then.

24 I know you have heard a lot about the Fair
25 Districts amendments on your listening tour.

1 You have heard from many people who want you to
2 follow city boundaries so that communities
3 won't be split up, so that districts will be
4 compact. However, I wanted to point something
5 out to you. Have you taken a look at many of
6 the city boundaries across the state? If you
7 look at these municipal lines, you will see
8 what the problem is. They are not compact.
9 Sometimes they are barely contiguous. How will
10 you follow Amendments 5 and 6, which tell you
11 to make compact districts, that use things like
12 municipal boundaries when these boundaries
13 themselves aren't compact? Districts will look
14 bizarre if you do that, and many times will be
15 neither contiguous nor compact. I am not sure
16 you will be able to follow the Fair Districts
17 amendments under circumstances like this. This
18 is just one of the problems with the
19 amendments.

20 The amendments say you can follow existing
21 political boundaries, but doesn't specify what
22 those are. I don't know if these -- those
23 refer to a line such as census-designated
24 places or current state legislative district
25 lines, or if there are some other form of lines

1 you could choose to follow, because the
2 amendments just don't clarify what you are
3 referring to. I hope you will be able to draw
4 these maps that will benefit the state for the
5 next decade. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you,
7 sir. Mr. Medici, thank you very much. We
8 appreciate that.

9 Next up we have John McCullough,
10 Mr. McCullough here. After Mr. McCullough, we
11 have Francis Schwinn, Schwerin -- Schwerin, I'm
12 sorry about that, and then John Sorey, the
13 Councilman from City of Naples, and you are
14 recognized, sir, thank you.

15 MR. McCULLOUGH: John McCullough, citizen,
16 Florida native, Ocala, West Palm Beach, Collier
17 County. I have also lived across America. I
18 came through Florida's segregated schools, and
19 you have no idea how proud I am to see so many
20 people of our minorities join us up here. It
21 is a wonderful growth to see.

22 The Constitution does not mention
23 political parties or special interest. The
24 republic charges you to be responsible to the
25 people, not to the parties. I think those are

1 very important.

2 I have come through the gerrymandering of
3 the state of Florida, and it has been a total
4 insult to the intelligence of mankind to see
5 what our legislators have done to us. So
6 finally we have these amendments that have been
7 passed. Now is the time for you to prove
8 yourselves. I look at the maps that we have in
9 the back, and I still see in the major
10 population areas some very, very strange
11 configurations. Now, I think the people of the
12 state of Florida have matured enough so that we
13 can take care of our whites, our blacks, our
14 Latinos.

15 So please keep that in mind. We do not
16 need this gerrymandering. We need the shapes
17 that the people of Florida voted for. Thank
18 you.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much.

21 We have Francis -- there we go --

22 MR. SCHWERIN: Frank.

23 REPRESENTATIVE WEATHERFORD: Frank, okay,
24 that's true, sorry about that. I'm sorry I was
25 butchering your last name there, too, I

1 apologize.

2 MR. SCHWERIN: That is --

3 REPRESENTATIVE WEATHERFORD: Good to see
4 you, and after Frank, we've got John Sorey and
5 Tom Menaker and then Ray Lenardson. Good to
6 see you, Frank.

7 MR. SCHWERIN: I just want to thank you
8 for coming, Mr. Chairman and Senator, and also
9 Garrett and our own Representatives and
10 Representative Nuñez. I would just like to say
11 that this is an open, transparent process. I
12 want to commend you for your strong advocacy of
13 Amendments 5 and 6, and that you are going to
14 be -- not advocacy, but your pledge to adhere
15 to that -- those two amendments that were
16 overwhelmingly passed by the population.

17 I just want to give us a brief history
18 lesson. I sort of feel like this is student
19 government. And the reason I say that is we
20 can all talk like this, we have all our input,
21 but really what happens is that there is
22 judicial review and there is review by the
23 Florida Supreme Court and that then they get
24 reviewed by the Justice Department. So
25 whatever we decide in all the hours and months

1 of testimony will be compressed in very short
2 weeks. And so the Amendment 5 and 6 have had
3 the paradoxical effect of reducing public
4 input, because the judges could just -- could
5 just outline their own district, and how much
6 time are we going to have to testify or how
7 many people will testify.

8 Now a history lesson. We are one of five
9 counties. Why is that? Why in 2011 do we
10 still adhere to a 1964 Voting Rights Act? And
11 I just want to remind everyone that back then,
12 Collier County had 20,000 residents, it was
13 100 percent Democrat, we were a Confederate
14 state, we had segregated schools. We are now
15 living the -- we are now living a remedy for a
16 problem that existed under Democrat rule, under
17 the Confederacy, now 50 years later. We need
18 to change that. But since we have to adhere to
19 that, I am calling it student government.

20 So please do your best, but I understand
21 whatever you do may just be totally torn up and
22 shredded by the five or six judges that are
23 going to look at it. So thank you very much.

24 REPRESENTATIVE WEATHERFORD: Thank you.

25 Councilman Sorey, thank you for being

1 here, sir, and thank you for your patience.
2 After the councilman, we will have Tom Menaker,
3 Roy Lenardson and Charles Van Meter.

4 COUNCILMAN SOREY: Thank you,
5 Mr. Chairman, and thank you for being here and
6 thank you for taking your time out of your
7 schedule to go around the state and listen to
8 our citizens.

9 I am here today to speaking on myself, not
10 as a member of city council, because we haven't
11 taken a position on that yet, and one of the
12 things, Mr. Chairman, that I learned from the
13 private side is to be brief and not repeat
14 what's already been said, but just three or
15 four quick things.

16 Number one, I think it is very clear, the
17 citizens here, how they feel about certain
18 things. Amendment 5 and 6, you are going to
19 have to have the wisdom of Solomon to decide
20 how to take those nine variables and make
21 districts. I am a big fan of Jennifer Edwards
22 and what she has done as far as our voting. I
23 have served on the canvassing board, and I know
24 how dedicated we are to be sure all our
25 citizens are properly represented. A number of

1 items that we have talked about as far as the
2 way we redistrict, I support the chamber
3 process as far as trying to get all of Collier
4 County properly drawn.

5 So I thank you for being here and thank
6 you for all of our citizens and for this
7 process.

8 REPRESENTATIVE WEATHERFORD: Councilman,
9 thank you, sir, and thank you for the service
10 to this community and our state.

11 Next we have Tom Menaker. Is Tom here?

12 MR. MENAKER: My concerns have been well
13 expressed, and I pass.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much. We appreciate that.

16 Next we have Roy Lenardson, Mr. Lenardson,
17 and after Mr. Lenardson, we have Charles Van
18 Meter, followed by Vi Steffan.

19 MR. LENARDSON: Thank you very much.

20 REPRESENTATIVE WEATHERFORD: Vi, I'm
21 sorry. You should have told me that two hours
22 ago. I would have got it right then.

23 MR. LENARDSON: My name is Roy Lenardson,
24 and I live in eastern Collier County, actually
25 in Florida's newest community, in Ava Maria.

1 I think you have been handed a tremendous
2 problem. I agree with many of the things that
3 I heard. However, words like "compact,"
4 "feasible" and "practical" are being presented
5 as the Holy Grail. I really think they are a
6 meal ticket for lawyers and partisan
7 fundraisers, and so I am very concerned about
8 where that is going to go. I hope that -- or I
9 would defer to the folks like Jennifer Edwards
10 more than those people I just mentioned, so I
11 would encourage you to do that.

12 I had the opportunity to work on two
13 different redistricting commissions in my home
14 state where I am originally from, 1990 and
15 2000. We have all of these rules, we have a
16 bipartisan commission that votes, we have
17 all --

18 REPRESENTATIVE WEATHERFORD: Would you
19 tell us what state that is, by the way?

20 MR. LENARDSON: Maine.

21 REPRESENTATIVE WEATHERFORD: Maine.

22 MR. LENARDSON: And we have a tremendous
23 problem where we have two congressional
24 districts. I would just like to give you a
25 very brief history here. We have all of the

1 words that they are presenting, we have a
2 bipartisan commission, it is a two-thirds
3 majority required, and then it gets the
4 signature of the voter and then it goes to the
5 Governor. It goes to the courts every single
6 ten years, and that is to divide up two
7 congressional districts of 100 percent white
8 people. So I would encourage you to really
9 listen to what the folks have said here today
10 and not expect to be handed a Holy Grail.
11 Thank you very much.

12 REPRESENTATIVE WEATHERFORD: Thank you.
13 And what I wouldn't pay to have the geography
14 of Maine and make things a lot easier, right?
15 But I am glad I don't have their weather,
16 right? So, anyway, thank you very much for
17 being here, sir. We appreciate that.

18 Next we have -- let's see here. Make sure
19 I get this right. That was Mr. Lenardson,
20 right? Yes, sorry. Charles Van Meter.
21 Charles, thank you for being here, and then we
22 have Vi Steffan, and then following Ms.
23 Steffan, we have Luis Bernal and then Laurel
24 Paster.

25 MR. VAN METER: Good morning, I am Zac Van

1 Meter. I have been a resident of Collier
2 County for five, going on six years. I live
3 here with my wife and my baby, and I plan to
4 live here as long as the good Lord lets me.

5 Thank you for being here today to gather
6 input. You have heard a lot of criticism today
7 from various interest groups about not having
8 maps for us to comment on. I want you to know
9 that I disagree with these groups. I think
10 being a good legislator means listening to your
11 constituents, then taking the appropriate --

12 REPRESENTATIVE WEATHERFORD: Charles, let
13 me ask you to step a little closer to the mike,
14 too.

15 MR. VAN METER: Okay. I think being a
16 good legislator means listening to your
17 constituents and then taking the appropriate
18 course of action.

19 The supporters of Fair Districts did a
20 really great job gathering petitions, raising
21 \$9 million, getting Amendments 5 and 6 passed
22 with I think it was a 63 percent vote, if I am
23 correct there. However, I think that they have
24 only done half of the work. Now that these
25 amendments are part of our Constitution, the

1 supporters of Fair Districts should explain
2 what the language of the amendments actually
3 means by providing you with at least, and I
4 mean at least, a legal brief. They should
5 offer maps to show what a fair district
6 actually looks like, the shape of and -- or
7 whatever they are talking about. I really
8 would like to see an example of that.

9 The amendments also contain this vague,
10 fuzzy, very misconstrued language like
11 "compact," "feasible," I think one was
12 "practicable," I didn't even know that was a
13 word, which Fair Districts knew, and they knew
14 this, that they would make this basically
15 impossible to implement. Since these
16 amendments will be so difficult to implement, I
17 mean very difficult, the courts are going to
18 wind up drawing these new districts, which is
19 going to do one thing, it is going to weaken
20 the power of the Legislature, and the entire
21 purpose of Fair Districts, it is going to
22 weaken that as well.

23 Please know that many of us here in
24 Collier County appreciate your efforts and
25 don't want the courts to draw the new maps. I

1 hope this outcome doesn't come to pass, but my
2 -- and I hope you will be able to draw good
3 maps for our state. Thank you for your
4 service. I appreciate your time this morning.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, sir. We appreciate that.

7 Vi, thank you very much for your patience,
8 and we got to you and we've got some folks
9 after you, so thank you very much.

10 MS. STEFFAN: Yes, you did, yes,
11 congratulations. Thank you for the opportunity
12 to speak before this group on this very
13 important issue, and I also want to thank every
14 single one of you for being here today.
15 Everyone here in Collier County and the state
16 of Florida appreciates your attendance here
17 before us today.

18 My name is Vi Steffan, and now sometimes I
19 will be known as V. I am from -- I am a member
20 of the League of Women Voters.

21 In 2010, 63 percent of the electorate
22 voted in favor of the Fair Districts Amendments
23 5 and 6 to our State Constitution. That is an
24 essential part and requirement of this whole
25 redistricting process. The State Legislature

1 attacked the language of Amendments 5 and 6 and
2 lost at the Supreme Court level. Having now to
3 face the mandate of the electorate to follow
4 the rational, non-political method of shaping
5 the state and federal districts, the State
6 Legislature is spending taxpayer money in suing
7 to invalidate Amendment 6 and declare it
8 unconstitutional, putting the citizens of
9 Florida in a very unique position of actually
10 suing themselves over an issue in which
11 63 percent of us approve. The citizens want
12 the Legislature to implement the Fair Districts
13 standards required by the constitutional
14 provisions passed by two-thirds of the
15 electorate last year.

16 I was pleased to hear Senator Gaetz'
17 description of the process that will be
18 undertaken, and I urge the Legislature to
19 seriously consider the recommendations offered
20 by the public. Sadly, that hasn't always been
21 the case, specifically in 2002 redistricting
22 process in which we've ended up with the
23 gerrymandered maps that we now have. But I
24 also want to urge the Legislature on behalf of
25 the Florida citizens to immediately withdraw

1 the expensive Amendment 6 lawsuit and respect
2 the will of Florida voters who want the new
3 Fair Districting standards in that amendment to
4 be applied. Thank you for your time.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much. We appreciate that, Vi. And
7 although you may have a short-term nickname
8 that is new, I can assure you, Senator Gaetz,
9 people have been much more creative in
10 nicknames for the two of us over the last six
11 weeks, so we appreciate you allowing me to mess
12 up your name.

13 Next up we have Laurel Paster. Ms.
14 Paster, thank you very much for being here --
15 actually, I'm sorry, Ms. Paster, I think I may
16 have skipped someone. Luis Bernal? I had Mr.
17 Bernal first and then Ms. Paster. Mr. Bernal
18 is with the Council for Hispanic Business
19 Professionals, then Ms. Paster, followed by
20 Alexander, I believe, Grantt and Steve Hart.

21 MR. BERNAL: Good morning, Senators and
22 Representatives. Good morning, everybody. My
23 name is Luis Bernal. I am a board member of
24 the Council for Hispanic Business
25 Professionals, an organization created by the

1 Greater Naples Chamber of Commerce. I am a
2 resident of north Naples for six years now. I
3 was born in Columbia and become a citizen of
4 the United States in 2005.

5 I want to thank you -- to thank all of you
6 on the Committee for being here and for
7 listening to us citizens before drawing your
8 district maps.

9 I am here today to remind you a little bit
10 about minority representation. Collier County
11 is one of the only five counties in Florida
12 whose entire electoral system is monitored by
13 the United States Department of Justice under
14 Section 5 of the Voting Rights Act because of
15 past discrimination against Hispanics. We
16 demand change to ensure that southwest Florida
17 Hispanics have the ability to elect their
18 Representative of our choice today and for
19 years to come.

20 You may be aware that in the past ten
21 years, the Hispanic population in Collier
22 County has increased by 69 percent. Whether we
23 like that or not, that is a trend that is being
24 like that for years to come, it is being across
25 the country. And Hispanics today are

1 26 percent of the county population, the
2 largest minority in Collier. Hispanics are
3 here, not only in Miami. I used to live in
4 Broward County, my son was born there, so I
5 know Hispanics in both parts of the swamp, but
6 we are here.

7 Currently, portions of Collier County are
8 part of the -- of a district based in
9 Miami-Dade County, which evidently raises
10 strong questions to common southwest
11 Floridians. I live, as I said, for five years
12 in Broward, and moved to Naples for a number of
13 reasons that are shared today by many Hispanics
14 living now in southwest Florida.

15 Southwest Florida got its name for a
16 reason. It is not just south Florida. This
17 vertical boundary between Collier and Broward
18 Counties is like that for some reason. We are
19 living in a distant part of our state which
20 should not be regarded as an appendix of any
21 other region. The five-county area of
22 southwest Florida includes counties other than
23 Miami-Dade or Broward. It just makes sense.
24 Nonetheless, a principal position of the maps,
25 the district -- the different districts, the

1 maps show different shades that reflect very
2 little the daily concerns of southwest
3 Floridians, especially those residents like
4 myself who live here year-round.

5 With all my respect, I urge you to make
6 sure Hispanic representation is commensurate
7 with a current demographic trend across the
8 state and the country. Most importantly, I
9 invite you and all elected officials to
10 overcome prejudice and be aware of the rise
11 in -- raise in economic, cultural and political
12 influence of Hispanics in Florida and elsewhere
13 in the United States, and adjust your political
14 strategies accordingly.

15 Thank you for visiting Naples, and please
16 come more often. Thank you.

17 REPRESENTATIVE WEATHERFORD: Thank you.

18 Next up, Ms. Paster, thank you for your
19 patience, ma'am, and we look forward to hearing
20 from you, and then following you will be
21 Alexander Grantt, Steve Hart and Matthew
22 Coppers.

23 MS. PASTER: Yeah, thank you so much for
24 coming. If I were you, I would be completely
25 zoned out by now, I think, after hearing so

1 many speakers and the repetition.

2 REPRESENTATIVE WEATHERFORD: We are
3 building up an endurance with all these
4 meetings around the state, so --

5 MS. PASTER: Good for you.

6 I am interested, as many of the speakers
7 have been, to see redistricting in Florida that
8 will represent all constituencies. I am also
9 concerned about the timeline that legislators
10 are planning to follow to complete the
11 redistricting. I am not going to repeat the
12 Amendments 5 and 6 and the gerrymandering
13 parts, because you've heard it all.

14 If the legislators follows their present
15 plan, though, districts will not be finalized
16 before said deadline, which will make it more
17 difficult or impossible for any challenger to
18 mount an effective campaign. I am hoping that
19 you will make the final plans by Friday,
20 January 13th, 2012, so that people who want to
21 run for office will know which district they
22 will be running in and the boundaries of that
23 district before the qualifying deadline. If
24 fair elections are to exist, the time necessary
25 for the various segments of the process, which

1 Jennifer Edwards outlined so carefully, they
2 must be acknowledged and respected. For
3 Florida to become respected as a responsible
4 and fair state once again, after our history,
5 we need to have this occur. Thank you.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much.

8 Next we have Alexander Grantt, followed by
9 Steve Hart, Matthew Coppers and Douglas Rankin.

10 MR. GRANTT: Yes, good morning, Alexander
11 Grantt. A little background: I was on the
12 original incorporation committee for the City
13 of Bonita Springs, so I did do six districts
14 for city council when I was on there. I always
15 -- I was on the local planning agency for the
16 City the first time for four years, and I was
17 on the city council for four years. From my
18 educational background, I have a Master's
19 degree from North Carolina State University,
20 that's 40 years ago, but I minored in
21 statistics in that -- for that Master's degree,
22 and even though it was for pigs and horses, et
23 cetera, but people, it is the same situation,
24 okay, just put people instead of pigs.

25 Okay. Now, we have -- in Lee County, we

1 have 635,000 permanent residents. We have
2 325,000 permanent residents in Collier County.
3 That is 960,000 people. State Senate, you have
4 480,000, roughly, in each State Senate
5 district. Take the 960,000 people in Lee and
6 Collier County, the southern portion of Collier
7 -- of all of Lee -- Collier County, southern
8 portion of Lee County, one State Senate
9 district, one State Senate district for the
10 rest of Lee County, and that takes care of two
11 State Senate districts.

12 For the House District 75 -- I am from
13 Bonita Springs. We want to have all of Bonita
14 Springs in one State House district. Simplest
15 thing to do, to put all of the city of Bonita
16 Springs, all of town of Ft. Myers Beach, all of
17 Estero Fire District, all of the San Carlos
18 Park Fire District and the South Trail Fire
19 district in one State House district. That
20 takes care of your 160,000 people for that
21 House district.

22 On the U.S. Senate -- U.S. Senate -- U.S.
23 Congress, sorry. U.S. Congress, you have -- in
24 order to have two U.S. Congressmen representing
25 southwest Florida, you need 1,400,000 people.

1 Okay. So that is 700,000 people per U.S. House
2 district. You have to have -- what I would
3 recommend is to have Collier, Lee -- all of
4 Collier County, all of Lee County, all of
5 Charlotte County, that would give you 160,000
6 people -- 1,160,000 people in those three
7 counties for two congressional seats. If you
8 include DeSoto, Glades, Hendry and Highlands
9 County, you could probably wind up with another
10 200,000 people.

11 REPRESENTATIVE WEATHERFORD: Mr. Grantt,
12 this is great information, but I am going to
13 have to ask you to wrap it up.

14 MR. GRANTT: Okay. But that is how I
15 would separate this into two U.S. House
16 districts.

17 REPRESENTATIVE WEATHERFORD: Thank you for
18 that counsel. That is very good -- very good
19 advice. Thank you.

20 Next up we have Steve Hart, followed by
21 Matthew Coppers and then Douglas Rankin. Hart
22 waiving? Okay. Thank you very much, sir,
23 thanks for being here. Both physically waving
24 and figuratively waiving, thank you, that is
25 good.

1 Next we have Matthew Coppers.

2 Mr. Coppers, you are here, and then finally we
3 have Douglas Rankin. After Mr. Rankin goes, we
4 are going to give members of the Committee an
5 opportunity to ask -- to offer any insight or
6 ask any -- or offer some solutions or answer
7 some questions, and then finally, Senator Gaetz
8 was on 15 pages of notes an hour ago, I don't
9 know how many he has now, but he's got a lot of
10 answers for questions that have been asked. I
11 want to give him time to address the audience
12 as well, let you hear from him.

13 So, Mr. Coppers, you are recognized to
14 speak, sir.

15 MR. COPPENS: First off, I want to
16 apologize for my horrible handwriting. It is
17 actually Matthew Coppens.

18 REPRESENTATIVE WEATHERFORD: No, it is
19 probably my eyes, don't worry.

20 MR. COPPENS: I have a lot of doctors and
21 lawyers in my family, so I get their
22 handwriting.

23 I am actually a former member of student
24 government, and I could say what is happening
25 here today is not student government. This is

1 actually Florida democracy in action, and what
2 happens here today does actually represent all
3 Floridians and for the next ten years. So the
4 person that said that before me really was
5 wrong.

6 A lot of what has been said before is what
7 I really do want to echo. I am a member of
8 the -- pardon me -- of the Greg Gargan fan
9 club. I love on how easily drawn out it was.
10 Please try to implement something similar to
11 that. I have seen it done before. Alabama
12 already has theirs drawn out. We would love to
13 see something like that here.

14 Floridians did want fair, compact and
15 contiguous districts throughout the state, and
16 the passage of Amendments 5 and 6 sent a
17 message that we no longer care for
18 gerrymandering, pretty simple. Three point one
19 million Floridians supported this -- these two
20 amendments, and that is something that I do
21 want to impress on you guys. This is something
22 that the Floridians do want, and we just ask
23 that you do implement it in a fair and timely
24 manner. Thank you.

25 REPRESENTATIVE WEATHERFORD: Thank you

1 very much, Mr. Coppens. I'm sorry I misspoke
2 on your name.

3 Last, but certainly not least, sir we have
4 Mr. Douglas Rankin.

5 MR. RANKIN: Right, and while I am a
6 Republican party official, since we have
7 approved nothing, I am here as an individual.

8 I have lived in Florida my entire life,
9 except for a few months. My family has been on
10 the lower west coast of Florida since 1925.
11 And I will tell you from a number of situations
12 that the west coast is not the east coast, and
13 please keep it that way. All you have to do is
14 go look at the true color Landsat photograph up
15 in St. Petersburg Aquarium, you will see our
16 coast is green, and theirs is asphalt and
17 concrete. No offense, but that is what the
18 photograph shows.

19 Historically, I-95, or before that, U.S. 1
20 migrated to the east coast and before it became
21 full and like that, and then I-75, or U.S. 41
22 before that, migrated to the west coast. They
23 are entirely different situations. I have been
24 here in Naples for 28 years. This is not the
25 east coast. We have been very lucky with some

1 good east coast representation, but I don't
2 want to rely on luck. I want to have a
3 continuous matter.

4 As far as some of the comments I heard
5 earlier, it is not your fault that the ultra
6 liberal Democratic party left so many of its
7 constituents, resulting in the voting that you
8 heard before. I grew up in Florida most of my
9 life under Democratic rule, and I will tell you
10 that you are doing a yeoman's fair, honest job
11 compared -- far and above what they did, that
12 is for sure. They invented the word
13 "gerrymandering," and I won't even discuss
14 their record on --

15 REPRESENTATIVE WEATHERFORD: Just try to
16 keep the comments focused on the redistricting.
17 I don't want to get too partisan here, all
18 right.

19 MR. RANKIN: -- how they treated
20 minorities. But I am very proud that the
21 Republican party is doing the right thing
22 and --

23 REPRESENTATIVE WEATHERFORD: Well, I will
24 just say this: I hear you and I appreciate
25 those comments, but I will tell you, we work

1 very closely with our Democratic colleagues
2 that are on this committee and we are all
3 working together in this.

4 MR. RANKIN: And I don't mean to be that,
5 but --

6 REPRESENTATIVE WEATHERFORD: I understand,
7 I understand.

8 MR. RANKIN: -- I had to put something on
9 the record. Historically it is called a boll
10 weevil Democrat, it is a conservative Democrat,
11 their party left them and that is probably why
12 you are seeing the voting, it is not because of
13 anything you did. And -- but please keep the
14 west coast, the west coast, and I thank you
15 very much for your time.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 Mr. Rankin. Thank you, sir. Oh, good, we have
18 another -- we have another speaker, and it is a
19 public official, Commissioner, Commissioner Tom
20 Hanny. Commissioner, thank you very much for
21 being here, sir. Look, you are just the man
22 with impeccable timing, right, you just swoop
23 right in here at the end. And we are happy to
24 have you, and we are grateful for your service
25 to Collier County. You are recognized.

1 COMMISSIONER HANNY: Mr. Chairman, thank
2 you very much. Actually, I did fill out a
3 speaker slip long ago, along with a friend of
4 mine that wasn't recognized, but, anyway, I
5 want to welcome you to our great community.
6 Thank you for your time. I know these are a
7 lot of extra efforts that you have made to
8 serve the public, and for that, maybe we can
9 find a banker to buy you lunch or something
10 like that.

11 REPRESENTATIVE WEATHERFORD: Maybe we can
12 get him to give me a loan.

13 COMMISSIONER HANNY: This process and the
14 comments that you are hearing today is no
15 different than the last redistricting that we
16 had here in southwest Florida about having
17 district lines drawn up against the east coast
18 and the west coast. From what I recall in
19 working with former State Representative Mike
20 Davis, those were actually decided by the
21 courts. It wasn't decided by the legislators.
22 We do want to have representation of southwest
23 Florida. We are more like Lee County than the
24 east coast of the state of Florida, but I can
25 tell you, I have worked very close and enjoyed

1 the working relationship I have had with
2 Representative David Rivera, now Congressman
3 David Rivera, and Representative Nuñez has done
4 an outstanding job and will always represent
5 our community.

6 I do want to read something from a speaker
7 who signed up, Cheryl Couture, who is a
8 founding member of Southwest Florida 9/12.
9 Cheryl had to work this morning, and she would
10 like to take this -- to thank the legislators
11 for the hearing. She also would like to
12 express her concern for the open
13 interpretations of the Amendments 5 and 6 that,
14 like the words "practical" and "feasible," the
15 citizens have an interest in decisions
16 regarding representation that is made by --
17 decisions made by the courts, and want to thank
18 you again for giving the citizens the
19 opportunity -- for sharing their concerns. The
20 amendments were ambiguous, in my opinion, and I
21 think former Senator -- former Representative
22 Dudley Goodlette said it well is the
23 legislators can clarify that in the Florida
24 Statutes. And, again, I want to -- I want to
25 thank you for your time in our great community.

1 I do speak on -- by myself and not the Board of
2 Commissioners. Thank you.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much, Commissioner. We appreciate that,
5 and we apologize for missing you early on, but
6 it was good to have you here.

7 Ladies and gentlemen, that is all for the
8 speakers who signed up to speak. What we would
9 like to do at this moment, we've got a few
10 minutes left, is to ask for members of the
11 Committee, if they have any suggestions or
12 comments, and we will start off with House
13 members and then Senators and then we will turn
14 it over to Senator Gaetz.

15 Yes, Representative Williams for a
16 comment. If we could get the microphone to
17 her.

18 REPRESENTATIVE WILLIAMS: Having been to a
19 dozen of these or so over the past couple of
20 months, I have to say that this has been the
21 most enjoyable group we have had the pleasure
22 to listen to.

23 REPRESENTATIVE WEATHERFORD: Yes.

24 REPRESENTATIVE WILLIAMS: Thank you so
25 very much for your grace and civilness. You

1 would not believe what we have endured over the
2 past several weeks, and God bless
3 Representative Weatherford and Senator Gaetz,
4 because they have been to just about every one
5 of these. So thank you, and it's been a
6 pleasure to be here and listen to you folks.

7 REPRESENTATIVE WEATHERFORD: Thank you,
8 Representative Williams.

9 Any other comments from members from the
10 house? We've got a quiet bunch today. How
11 about members of the Senate? Any Senators who
12 would like to speak? Give them your speech
13 last night, maybe you could --

14 SENATOR DETERT: Yes, I had to yell at my
15 own community last night, and I am from
16 Sarasota, and they are generally a lot more
17 polite and classy than they were last night.
18 So we were kind of loaded for bear this
19 morning, and everybody -- when you said
20 welcome, you acted like we are at your home.
21 We are sitting here, my Democratic and
22 Republican friends here, and just very
23 impressed with really the civility in your
24 community. So thank you for being
25 participants, because the way to make your

1 government work the way you want it to work is
2 to participate, and you did that in such a
3 lovely civil way, and I thank you.

4 REPRESENTATIVE WEATHERFORD: Any other
5 members from the higher chamber that would wish
6 to speak? We have to say that as House
7 members, we have to call them the higher
8 chamber. Yes, Senator Richter, former House
9 member, I would like to point out.

10 SENATOR RICHTER: Yes, I would like to
11 echo my comments and tell each and every one of
12 you in this room how very, very proud I am to
13 represent you in Tallahassee. Thank you for
14 your input. Thank you for your good ideas. It
15 is clear to me in this meeting that there's
16 significant concern over the timeline and the
17 fair districts, and that message came through
18 rather loud and clear, and I thank you for the
19 repetitive message and the different variance
20 on that message, but thank you all very much.
21 I am very proud to represent each and every one
22 of you. Thank you.

23 REPRESENTATIVE WEATHERFORD: Thank you,
24 Senator.

25 Okay. Now is the time we are going to

1 turn it over to my esteemed colleague, Senator
2 Gaetz, and allow him to speak on some of the
3 questions that were asked, maybe provide some
4 clarity on some things that have kind of gotten
5 into the bloodstream. And, again, I just want
6 to thank everyone for being here, for providing
7 a hearing that I think was both civil,
8 informative and very helpful to us as members
9 of this committee. So thank you all very much,
10 and I will turn it over to Senator Gaetz.

11 SENATOR GAETZ: Thank you very much,
12 Mr. Speaker, and as is my want, because I am a
13 former reporter, even though we -- we make
14 electronic recordings of every word that is
15 said and there is a record that all of us can
16 go back to, I still tend to trust my own notes,
17 and I make them at every hearing, and what I
18 did today was also try to write down some of
19 the questions that were asked and some of the
20 factual points that we could just provide, not
21 get into any disagreement with anybody who
22 testified, one side or the other, but, rather,
23 when there were factual matters, try to make
24 sure we all leave here with the same data.

25 First of all, the timeline, which I think

1 was the -- a theme that many people echoed,
2 starting with Supervisor Edwards. Let me give
3 you just a couple of facts that might help you
4 understand where we are and why we are in the
5 circumstance we are.

6 First of all, we're not able to do
7 anything until we get census data from the
8 Bureau of the Census. Now, Florida was not the
9 last state to get census data, but we were one
10 of the last. The census -- Bureau of the
11 Census does not disgorge all population data to
12 all states at once. Instead, it is in tranches
13 or groups. And as I said, we weren't the last,
14 but we were one of the last, and as soon as we
15 got the data, we immediately put it on-line,
16 and then as soon as the session was over, we
17 immediately began having these hearings. But I
18 wanted you to know that the data that some of
19 the states that you have heard about, the data
20 that they received was months ahead of ours.

21 Secondly, there were a couple of folks in
22 hearings yesterday and today who mentioned
23 states that have concluded their redistricting
24 process already, and that is true. But, for
25 example, Louisiana, which was mentioned,

1 Louisiana is a state which holds its elections
2 not on even years, but on odd years, and so the
3 Bureau of the Census then responds to that by
4 giving them their census data before they give
5 their census data to those of us who do our
6 elections on even years. So that is why you
7 will see some states already finished, not
8 because there is a nefarious plot somewhere,
9 but because the Census Bureau stages its data
10 release and because some states have elections
11 earlier than others.

12 And then there are other states who do
13 things a little differently than Florida.
14 Illinois, for example, is a one-party state,
15 and they got their redistricting done in record
16 time. I think they may -- they may have set
17 the record for redistricting in this cycle. It
18 is a one-party state. They had a group of
19 legislators who literally went into a back
20 room, drew maps, came out, said, "Take it or
21 leave it," went to the floor, did a vote, they
22 were in, they were out, they were gone. There
23 were no public hearings. That is one way to do
24 it, and it has been done that way in Florida,
25 you know, years and years and years ago.

1 Speaker Weatherford and I and our
2 presiding officers chose to do something
3 different. We took a risk, and as the Speaker
4 has said from time to time, it is a
5 chicken-and-egg argument, but we took the risk
6 of listening first, and drawing after we
7 listened, but I wanted you to understand part
8 of the reason why we have the schedule we do.

9 But the schedule we have is an accelerated
10 schedule, and Supervisor Edwards' excellent
11 testimony, I would want to point out one thing,
12 and that is that, perhaps it was our fault, but
13 the timeline that she was referencing was a
14 timeline that was published, but a timeline
15 that now pertains is the one that is functional
16 after the passage of the elections legislation
17 that we passed in this session of the
18 Legislature, which does provide a more
19 accelerated timeline. And she made three
20 suggestions, and I can only speak for myself,
21 but I can tell you that the VTDs have been on
22 our minds from the very beginning in terms of a
23 building block for districts. Our committee in
24 the Senate has been observant of the VTD
25 process from the very first time that our

1 committee got together in an organizational
2 meeting.

3 She said avoid irregular boundaries where
4 possible. We sure agree with that. As I will
5 point out in a moment, there are some
6 circumstances in which the courts are deciding
7 on the irregular boundaries, not us, but to the
8 extent that we can, we will take her advice.

9 And then third, she said do everything you
10 can to move the process without delay, and that
11 is absolutely true, and that is why Speaker
12 Weatherford and I are committed to making sure
13 that we go forward with committee meetings, not
14 in December, which is the usual schedule, but
15 in September, and I have committed that at the
16 very first meeting in September, which is the
17 week of September 19th, that is the first time
18 that we can meet based on the call of our
19 presiding officers, we will immediately turn to
20 the Democratic Leader because, as I mentioned
21 in my opening comments, ten years ago she was
22 told, "No, thanks, we don't want to hear your
23 maps, don't want to even see your maps." Well,
24 I think -- you can't go back and redo what was
25 done ten years ago, but I think you can start

1 on the right foot by saying that the minority
2 has rights, and we are going to start with the
3 Democratic Leader, and then we are going to go
4 to all of the other maps that have already been
5 presented and maps that will be presented, and
6 those will all be available for discussion and
7 debate beginning with our first meeting, which
8 will be on September -- the week of
9 September 19.

10 The second thing I wanted to mention,
11 Mr. Speaker, was in response to the fine
12 testimony from the Chamber of Commerce
13 representative, who talked about the need to
14 have maps based on communities of interest.
15 Well, there was a reference made to the fact
16 that the Legislature tried to get some language
17 in the constitutional amendments and we failed.
18 That is true. Representative Weatherford and I
19 and others tried to get the term "communities
20 of interest" into the constitutional language
21 dealing with Fair Districts. The Supreme Court
22 said no. So although "communities of interest"
23 was mentioned many times today, many times in
24 all of our hearings, it is not included in the
25 constitutional language, I wish it were, and

1 so, therefore, we are going to have to try to
2 balance that very legitimate value with the
3 fact that it is just not included in the
4 constitutional language that the Fair Districts
5 folks brought to the voters and did a great job
6 in getting passed.

7 Then third, there was a comment made that
8 more representatives in Tallahassee is better.
9 Well, that is a debate and a tension we have
10 heard in this meeting and in all the other
11 meetings. Is it better to -- I happen to live
12 in Okaloosa County, which is way up in
13 northwest Florida, and we have -- we have two
14 Senate districts that bisect Okaloosa County.
15 I have parts of five counties, and my
16 counterpart, Senator Evers, has parts of those
17 same five counties. He's got the northern
18 tier, I've got the southern tier. They are
19 divided by a military reservation. And is that
20 a good idea or a bad idea for Okaloosa to have
21 two Senators? Some say, well, if you've got
22 two Senators, you've got two chances, you know.
23 You know, if Gaetz drops the ball, and he is
24 subject to doing that, at least we got Evers.
25 But on the other hand, there are people who

1 have testified today and said, "We want
2 somebody who is dedicated solely to our
3 community. We don't want them to have divided
4 interests." So I only mention that to say
5 that, well, while it is easy to say implement
6 Amendments 5 and 6, you also have to balance
7 these two very legitimate points of view that
8 we have gotten in today's hearing, and that is,
9 is it better for Collier County to have more
10 voices in Tallahassee, or is it better for
11 Collier County, for example, to have fewer
12 voices, but have those voices dedicated more
13 directly to Collier County. We are delighted
14 to have heard your input on that issue.

15 Then there was an individual who asked a
16 very good question: Why have an 8:00 a.m.
17 meeting? Well, frankly, we ended last night at
18 9:00 p.m. in Sarasota, and we will be having a
19 meeting beginning at 6:00 p.m. today in Lehigh
20 Acres. Tomorrow morning, we will be at I think
21 8:00 a.m. in Clewiston. So we have had
22 meetings in the morning, in the afternoon and
23 in the evening, and that is the only way we
24 could do it. We didn't decide to single out
25 Naples for torment and make you get up early.

1 It just worked out that way. So if anybody is
2 to blame, Senator Richter.

3 A very good question, a very good
4 question: When is the first time that maps
5 will be presented in the legislative process?
6 The answer is, the week of September 19th.

7 The next question -- now, I will say this:
8 That is not the last time. That is -- the
9 question was, when is the first time? We have
10 160 members of the Legislature representing a
11 wide spectrum of political beliefs, and,
12 obviously, as you can see, all over Florida.
13 Now, if we were to say that here is the drop
14 dead date beyond which you cannot speak, you
15 cannot offer an additional thought, you cannot
16 try to improve on what somebody has already
17 proposed, there would be Democrats and
18 Republicans standing on their desks, screaming
19 their lungs out that it would be an unfair
20 process. So what I can tell you is in the
21 Senate, we will begin in the week of
22 September 19th looking at any and all maps that
23 are presented at that time. However, I cannot
24 guarantee you that some of my Senate colleagues
25 won't come in later and say, "You know, looking

1 at what is presented and then going back and
2 reflecting on what we heard at 26 hearings,
3 I've got an improvement on that," or "I've got
4 a better idea." I can't stop that, and
5 candidly, in a representative assembly, you
6 shouldn't stop that. Representative
7 Weatherford and I don't have that kind of
8 authority, and we shouldn't have that kind of
9 authority.

10 Then we heard some very useful comments
11 from spokespersons from the League of Women
12 Voters, and they made two comments that I would
13 like to just make sure we have some facts on.
14 First, they -- the representative said the
15 Legislature should draw the maps first. Again,
16 it is a chicken-and-egg argument. Should we
17 listen first and should we then try to collate
18 the information we have gotten from people
19 around the state and say what seems to make
20 sense, or should we come in and say, "Here are
21 the maps," and then as somebody said today, we
22 would be accused of already making up our minds
23 and just trying to shove something down
24 people's throats.

25 I would only say that the League itself

1 can't decide, because in Georgia, the League of
2 Women Voters says maps should be drawn by the
3 public first. Ellen Freidin, the person who
4 led the Fair Districts campaign, testified
5 before the Senate and House and said wouldn't
6 dream of drawing maps until first there was
7 public hearing and public comment. So even
8 within the League of Women Voters, an
9 outstanding organization, there's not really a
10 unanimity of feeling about that.

11 Then there was a very useful comment made
12 by the President -- I believe this individual
13 was the President of the Democratic Club, and
14 talked about the local maps, county commission,
15 school board maps, and said that in that case
16 here, five different options were presented for
17 discussion. And Speaker Weatherford and I have
18 talked about that, and I think that is an
19 excellent suggestion. There's not going to be
20 a map that is going to be presented in the
21 Senate. I can guarantee you that with the
22 divergence of opinion that Senators have on
23 these topics, there will be several different
24 options presented so that there will be an
25 opportunity maybe to take parts of different

1 options and try to meld them together. So
2 there won't be a map, and I think it was an
3 excellent suggestion to have five options,
4 somebody else said six options, that could be
5 presented and debated.

6 Then I am really glad to learn about the
7 Lely Resort community. You see, this is the
8 kind of information we could never get in an
9 echo chamber in Tallahassee, just listening to
10 each other. If you hadn't presented that
11 testimony today, I think it came from three
12 different people who live in that community, we
13 wouldn't have that information, and the Lely --
14 the first person who spoke from Lely said
15 divide the Everglades because one person, one
16 Representative, is not enough. The very next
17 speaker took the opposite view. The only
18 reason I make that point is that there is a
19 legitimate tension between those who say that
20 an area ought to have one Representative, and
21 those who say, no, we would like to have more
22 than one voice, and we have to work on
23 balancing that. That is why your testimony was
24 so important.

25 A comment was made about irregular

1 boundaries. I think that is the politest
2 description of some of those boundaries that I
3 have heard, irregular. Two comments. First,
4 we didn't develop them. The Senate seat that I
5 ran for was drawn by other people, and so I
6 have no pride of authorship in the Senate seat
7 that I have and in the boundaries that I have
8 now. Neither does anybody else here. We want
9 to improve on them. And let me just say this:
10 Some of us are among the insulted. I happen --
11 I happen to live in a rattail of a
12 congressional district. My -- the
13 congressional district I am in, which is
14 Congressional District 2, starts way over near
15 Tallahassee and then comes over all the way to
16 my little community of Niceville, which is on
17 the Gulf Coast, and I am in a little -- a
18 little rattail of that district. So, believe
19 me, there are those of us who want to solve
20 those problems as much as we can possibly.

21 There was a very useful comment made by
22 someone who said there are more Democrats than
23 Republicans in population, yet Republicans have
24 more Representatives in the Legislature, and
25 unless you fix that, it won't be Fair

1 Districts, it will be proof of gerrymandering,
2 that testifier said. Well, here's our problem:
3 Our problem is -- I will just take the Senate
4 districts, for example. There are 40 Senate
5 districts. Twenty-eight are currently held by
6 Republicans. But eight of the districts held
7 by Republicans voted for Barack Obama
8 overwhelmingly. So now we are left with the
9 riddle. Do we have a circumstance in which
10 you've got Republican Senate districts that
11 were persuaded that President Obama had a
12 better message, a better campaign, would be a
13 better President, or do we have a whole bunch
14 of people who were inclined to vote for Barack
15 Obama, but then who looked down ballot and
16 said, "You know, doggone it, the Republican
17 candidate for State Senator seems to have a
18 better message or a better campaign or
19 resonates more with my values"? See, the fact
20 is that it may not be proof of gerrymandering.
21 It may be proof of the independence of our
22 voters. We can't force Republicans to vote for
23 Republicans, or Democrats to vote for
24 Democrats, and the fastest-growing group of
25 voters in this state are Independents and

1 non-affiliated voters, and we sure as the
2 dickens can't predict who they are going to
3 vote for.

4 So it probably won't turn out to be
5 something perfect where the exact percentage of
6 Republicans or Democrats is what is reflected
7 in the Legislature, because we have Democrats
8 voting for Republicans, and Republicans voting
9 for Democrats. So I would just ask you to keep
10 that in mind, getting a perfect arithmetic
11 balance may not be possible. This isn't the
12 old Soviet Union. You know, people have an
13 independent view of how they are going to vote.

14 And then there was someone who made a good
15 comment and said, you know, we ought to pay
16 impartial IT professionals to draw the maps.
17 Well, I am looking for the first impartial
18 person I can find in this process. I think
19 even IT professionals have opinions. But I
20 will say this: Both the House and the Senate
21 have employed IT professionals, and I don't
22 know what their party affiliations are, and I
23 don't intend to inquire, but they are
24 professionals, they are geeks, they are nerds,
25 they have green eyeshades, we keep them in

1 offices where there are literally no windows,
2 and they are the ones -- they are the ones who
3 will work the technical side of this. But the
4 Constitution says that elected representatives,
5 people that you -- that you can reach out and
6 elect or un-elect, our Constitution says we are
7 the ones who have to -- who have to actually
8 draw the lines at the end of the day and
9 propose them to the judicial branch of
10 government. So we can't -- we can't offload
11 the constitutional responsibility unless we
12 amend the Constitution.

13 Then we had a person who said that she
14 worked on the New York State redistricting
15 process, and I made a note here, she is hired
16 here. So see me later. And she said, you
17 know, we ought to vote on final plans on
18 January 13th, which is three days after the
19 Legislature goes into session. What I want to
20 know is, in New York, did you vote on your
21 reapportionment and redistricting plans three
22 days after you went into session? See, we may
23 be able to, because we have been in all these
24 hearings, really come in with your voices
25 ringing in our ears. But the vast majority of

1 the Senate and the House have not been at these
2 hearings. So when we come in and make our
3 report and offer our recommendations, those
4 individuals who you may have also spoken to in
5 town hall meetings or in their offices or run
6 into them at church or at the grocery store and
7 talked to them about your views, they are going
8 to want to have something to say, they are
9 going to want to engage in debate, and believe
10 me, in the Senate, and I know in the House,
11 too, they are going to want to ask a lot of
12 questions about -- to us about what we have
13 heard. So it would be nice to vote on
14 January 13th, but it would be, I think,
15 unlikely to be able to shut down debate three
16 days after the legislative session starts. But
17 we sure will want to vote as soon as we
18 reasonably can.

19 Then there was -- there were several
20 people who said, you know, gosh, there was a
21 mandate for Amendments 5 and 6, and they ought
22 to be adopted and they ought to be implemented,
23 and they will be, believe me. Everybody up
24 here has taken an oath to preserve and protect
25 the Constitution of the United States and of

1 the State of Florida. Those two provisions are
2 in the Constitution, whether some people like
3 them or not, and we are going to implement
4 them. But the question is not whether we are
5 going to implement them, but how they should be
6 implemented, and we have seen today some
7 tension between the definitions of
8 "compactness" or making sure that minority
9 districts don't regress. Are we going to use
10 city boundaries when city boundaries in some
11 cases look like a Rorschach blot? So there are
12 tensions as to how, but there is no debate that
13 we will implement them. But that is why these
14 hearings have been so valuable.

15 And then, Mr. Speaker, a question, is
16 there one standard for compactness? Life would
17 be simpler if there were. It is a fact that
18 Florida is the first state, maybe we won't be
19 the last, but we are the first state to have
20 all of the features included in Amendments 5
21 and 6 placed into a State Constitution. We are
22 the first state. So in a lot of ways, we are
23 going to be charting new ground, and when you
24 chart new ground in this world, you wind up,
25 sadly, sadly, charting that ground, in many

1 cases, in court. So I would predict to you, it
2 is not my hope, but it is my prediction that
3 the definitions of "compactness" will arise out
4 of case law in this state and in other states.

5 Now, we did have some mathematicians
6 testify before us, and they said the most
7 compact geometric figure is a circle, the next
8 most compact is a square, the third most
9 compact is a rectangle. Have you looked at the
10 map of Florida? We are not a square or a
11 circle or a rectangle, and so the definitions
12 of "compactness" will probably be sort of built
13 in flight and then reviewed by the courts.
14 That is probably what is going to happen.

15 Then there were three testifiers who said,
16 "How do we prevent lawsuits? How do we prevent
17 this dragging on and on and on into the courts?
18 Is there some template that we could use that
19 would give us armor against lawsuits?" No. I
20 wish there were. First, remember, we are the
21 first state to have all of these requirements
22 at one time placed on our Constitution.
23 Secondly, members of special interest groups,
24 who have every right to do so, have already
25 testified before the first vote has been taken

1 that there will be lawsuits and they intend to
2 file them. So I think that it may be the case
3 that some people intended from the beginning
4 that this matter would have to go to the
5 courts. That is their right, but -- but it
6 doesn't give us an easy answer to how to
7 prevent lawsuits.

8 But while there is -- while there is no
9 sure protection against lawsuits, I think a
10 good approach is to do what Speaker Weatherford
11 and I and our members have been doing, and that
12 is to listen first, develop a record based on
13 what people are saying. It is fine to talk
14 about the process, we have heard a lot of
15 process discussion, but it is even more
16 valuable to hear the very specific direction
17 and guidance we have gotten from so many people
18 today and around the state about neighborhoods
19 and communities, how they ought to be bounded,
20 how they ought not to be divided. That is
21 probably the best armor, if there is any armor,
22 knowing that ultimately we are probably going
23 to wind up in court, no matter what plan is
24 devised.

25 The other thing I think that you can do to

1 try to avoid unnecessary lawsuits is to make
2 sure that the minority is represented and
3 respected, and that this -- certainly we do
4 have a Republican majority in the Legislature,
5 but there are minority members, Democratic
6 members, on this Committee, and as several
7 people have mentioned, Senator Detert, we work
8 closely with our minority members, even though
9 I happen to be a Republican, and a sign, I
10 think, of good faith will be turning first to
11 our minority members and our Democratic Leader
12 at our first meeting and saying, "Ten years
13 ago, you didn't get a chance to offer your
14 maps. By golly, you are going to get your
15 chance first, along with everybody else. You
16 are not going to be discriminated against."

17 Then another member of the League raised
18 an excellent question about is the timeline
19 unrealistic. It could be. The timeline could
20 be unrealistic if everyone in the process takes
21 all the time they legally can instead of taking
22 only the time that they need. So Speaker
23 Weatherford and I and our members, our
24 presiding officers, are committed, as we have
25 shown, to moving up the session, moving up

1 committee weeks, moving up hearings, proceeding
2 as quickly as we legally can and practically
3 can. However, we would urge you to talk with
4 and communicate with the other players in the
5 process and urge them to take only the time
6 they need, the Attorney General, the Supreme
7 Court of Florida, the federal justice
8 department, let's get this job done, you know,
9 not too fast, let's measure twice and cut once,
10 this is important for the next ten years in our
11 state. But let's not let the other players in
12 the process elongate the process anymore than
13 is absolutely necessary as well. And that is
14 why we would again urge our good friends in the
15 League of Women Voters to do what they did in
16 2002, to do what their brothers and sisters are
17 doing in Georgia, and that is move from being a
18 critical but useful observer to being a
19 participant and providing direct guidance to
20 assist us in how to go forward.

21 And then the League representative said,
22 "Could this all result in a circumstance in
23 which our votes don't count in the 2012
24 precedential election?" Well, here's the good
25 news. The boundaries of Florida are not going

1 to change as a result of the redistricting
2 process. We are not going to be able to invade
3 Alabama. We are not going to lose any
4 territory to Florida. And so -- well, we might
5 invade Alabama, but -- but -- so the
6 presidential election is not going to be
7 affected, and everybody ought to be sanguine
8 about that.

9 There was a -- several comments made about
10 the east-west boundary districts and how
11 unfortunate it is that they exist and the fact
12 that they make little sense, and a number of
13 you referenced your thoughts about aligning
14 Collier County districts with communities in
15 Miami-Dade and Broward. But here it is
16 important to reiterate what others have
17 mentioned, and that is that districts in
18 Collier County, because they are a Section 5
19 county, have to be pre-cleared by federal
20 authority for compliance with the Federal
21 Voting Rights Act.

22 Now, here is how this process can go.
23 House District 112 was actually drawn based on
24 a court order in federal court ten years ago.
25 The Legislature drew the district one way, but

1 it was a federal court that ordered that
2 District 112 be drawn the way that it has been
3 drawn. So I only mention this so that you will
4 understand factually, we don't get the last
5 word. The salamander district, which is
6 Congressional District 3, the one that is the
7 poster child for gerrymandering, was not drawn
8 by the Legislature, it was drawn by the federal
9 courts. So we just need to keep that in mind.

10 Then the question was made, will we invite
11 comments after all maps have been presented?
12 Well, it could probably be difficult and cause
13 concern for those who want to move the process
14 along to go back out and have two and a half
15 months of additional hearings after the
16 Legislature has gone into session, but we are
17 considering videoconferencing, we are
18 considering other methods of making sure that
19 people who would like to have an opportunity to
20 comment on additional maps, including the 50
21 maps we already have, that they get that
22 opportunity without having to go to the expense
23 of coming to Tallahassee. Not everybody can
24 come to Tallahassee. Usually we see too many
25 lobbyists, too many people with \$1,000 suits

1 and \$300 shoes, and not as many people of the
2 kind that we are seeing in today's meeting.

3 And then the comment that was made by Vi,
4 or as we now call her, V. She asked about the
5 lawsuit against Amendment 6, and here is where
6 Vi has done us a real service. She made it
7 clear she was talking about the lawsuit against
8 Amendment 6. Here is where the bloodstream has
9 gotten -- has gotten really poisonous. There
10 is no lawsuit having to do with Amendment 5.
11 There is no lawsuit that's yet been filed by
12 anybody having to do with legislative
13 redistricting. The only lawsuit, as Vi
14 indicated, that has been filed was filed by a
15 Democratic Congresswoman and a Republican
16 Congressman having to do with the congressional
17 redistricting process.

18 Now, it is true that there is a lawsuit,
19 it is true that there's all kinds of discussion
20 about it and people are involved in it.
21 Doesn't have anything to do with any of our
22 districts. But here is what Speaker
23 Weatherford has said at every single hearing.
24 He said we are not going to be distracted by
25 that lawsuit. Our job is to implement 5 and 6.

1 Our job is to be consistent with the federal
2 court cases and the other legal requirements
3 that we have, and unless a court tells us
4 differently, we are going to go forward and
5 implement Amendments 5 and 6 and the other
6 legal requirements that we have. The question
7 is not whether, but as I pointed out before,
8 the question is how. And you have given us --
9 you have given us testimony that in some cases
10 disagrees with other testimony as to how, but
11 you have given us very thoughtful insights that
12 we can use to try to balance those competing
13 and very legitimate values.

14 This has been the most valuable public
15 hearing we have held anywhere in the state of
16 Florida, and it has been because of you. Thank
17 you very much.

18 REPRESENTATIVE WEATHERFORD: Thank you,
19 Chairman Gaetz, and thank you all for being
20 here today, and with that, Senator Gaetz moves
21 that we rise.

22 (Whereupon, the proceedings were
23 concluded.)

1 P R O C E E D I N G S

2 SENATOR GAETZ: Good morning, ladies and
3 gentlemen. Thank you very much from being
4 here, and we would ask if you are here for the
5 hearing on redistricting and reapportionment
6 that you take your seats. If you are a member
7 of the Committee, please find a spot.

8 The Joint Senate House Redistricting
9 hearing is called to order. We are pleased to
10 be joined today by several members of the
11 Florida House of Representatives and the
12 Florida Senate, who serve on those chambers'
13 respective redistricting committees, and in a
14 moment we are going to ask them to indicate who
15 they are and whether they serve in the House or
16 the Senate and the area of the state they come
17 from just so you will know who you are sharing
18 your opinions with.

19 We want to thank the Hendry County
20 Department of Health for allowing us to use
21 this facility. This is not my first time here.
22 I was here about a year ago where we met with
23 folks from this county to talk about primary
24 care issues, and many of the things that were
25 said in this room turned out to influence

1 healthcare legislation that we passed this past
2 year in the Florida Legislature.

3 We particularly want to thank those who
4 have come here to share their comments and
5 their recommendations to help share
6 Congressional, Senate and House Districts for
7 the next decade.

8 I am Don Gaetz. I am a member of the
9 Florida Senate. My District runs from
10 Pensacola to east of Panama City. I serve the
11 five coastal counties of northwest Florida's
12 Gulf Coast, and I will be chairing today's
13 hearing which is also being webcast statewide
14 by the Florida Channel over the Internet, and
15 here is what that means.

16 It means that you are on television. So
17 before you stand up to testify, check your
18 makeup, check your hair, straighten your tie,
19 because there are typically thousands of people
20 across Florida who are following each one of
21 these hearings on the webcast.

22 Our focus today is to hear from the public
23 about how you believe the legal standards
24 governing redistricting should be applied in
25 your community.

1 The question is not if those standards
2 will be applied. The question is not if
3 Amendments 5 and 6 will be followed. The
4 question is how, and as we have learned in each
5 one of the hearings from testimony, there are
6 differences of opinion among people in
7 communities, people of goodwill as to some of
8 the fine points of how the Federal standards
9 ought to be applied or State standards ought to
10 be applied. So we are interested in your views
11 on that question.

12 Our procedures today are simple but
13 important. It is important that you sign in so
14 that we create an accurate public record. We
15 have a little form for you to sign. This just
16 shows that you are here, but it is the same
17 form if you want to speak.

18 So if you have not signed in or if you
19 just want to observe or if you want to speak,
20 please raise your hand. We will get you one of
21 these forms and make sure that you have an
22 opportunity to share your views with the
23 members of the House and the Senate this
24 morning.

25 Why don't we at this point take a moment

1 so that you will know who you are talking with
2 this morning, and let's pass the microphone and
3 let's start if we can with Representative
4 Denise Grimsley.

5 We are in Grimsley world here and want to
6 thank you very much for allowing us to be in
7 your part of Florida.

8 REPRESENTATIVE GRIMSLEY: Thank you,
9 Mr. Chairman, and good morning, and members,
10 welcome to District 77, one of the sweetest
11 towns in America. We appreciate you being
12 here, and for you of the community, thank you
13 very much for coming out today. I see
14 Commissioner Toller out there as well.

15 I have talked to a lot of I and I know it
16 was early, but I really appreciate you guys
17 coming out to offer your testimony today and
18 welcome, members welcome.

19 You are in a great town, stop and spend a
20 little money over here and get to know some of
21 the residents.

22 REPRESENTATIVE PASSIDOMO: I am Kathleen
23 Passidomo, House District 76, which is Collier
24 County. I represent the City of Naples, the
25 City of Marco Island and Everglades City and I

1 am so thrilled to be here. Thank you.

2 REPRESENTATIVE ROGERS: Good morning, I am
3 Hazelle Rogers from Broward County, a large
4 base. It is approximately 1.8 million
5 residents, the most diverse county in the State
6 of Florida. I represent District 94, eight
7 cities, Lauderdale Lakes, Margate,
8 Oakland Park, Tamarac, Plantation, Sunrise and
9 it is good to be here to listen to what you
10 have to say. Thank you.

11 REPRESENTATIVE CAMPBELL: Good morning, my
12 name is Daphne Campbell, District 108, which
13 includes four cities, North Miami, Miami
14 Shores, (inaudible) Biscayne Park. Welcome.

15 REPRESENTATIVE ALBRITTON: Good morning.
16 My name is Ben Albritton, I serve in the
17 Florida House. I represent south Polk, Hardee
18 and northwestern Highlands counties.

19 REPRESENTATIVE JULIEN: Good morning, my
20 name is John Patrick Julien, representing House
21 District 104, which is in Miami Dade County.

22 House District 104 represents the cities
23 of North Miami Beach, North Miami, Miami
24 Gardens, Opa Locka, Miami and unincorporated
25 Miami-Dade. It is a pleasure to be here.

1 SENATOR NEGRON: Good morning, I represent
2 District 28 in the Florida Senate. That is the
3 Treasure Coast and northern Palm Beach County,
4 a little bit of western Palm Beach County and
5 Okeechobee.

6 A VOICE: Do you have a name?

7 SENATOR NEGRON: Joe Negron.

8 REPRESENTATIVE BERNARD: Good morning, my
9 name is Mack Bernard. Since we are in the
10 sweetest county in the -- in Florida I
11 represent the sweetest cities in Florida, which
12 includes the cities of Belle Glade, Pahokee and
13 South Bay, and also it is good to be in Taylor
14 country, and I want to welcome everyone who is
15 here because I represent the districts right
16 down the street.

17 REPRESENTATIVE CALDWELL: Good morning, my
18 name is Matt Caldwell. I represent District
19 73, which is just a little west of us, Lehigh
20 Acres, Ft. Myers, down into rural Corkscrew.

21 SENATOR JOYNER: Good morning, I am
22 Arthenia Joyner, I represent Senate District
23 18. That is Hillsborough, Pinellas and
24 Manatee, St. Petersburg and Bradenton and I am
25 happy to be here this morning.

1 REPRESENTATIVE KIAR: Hello, everybody.
2 My name is Martin Kiar. I represent District
3 97 in the Florida House, which is located
4 solely within Broward County. Thank you all so
5 much for coming out today to share your input
6 with us.

7 REPRESENTATIVE REED: Good morning, I am
8 State Representative Gwyndolen Clarke- Reed. I
9 represent House seat 92 in Broward County,
10 representing seven cities, and this is my 26th
11 hearing.

12 So I have had the distinct honor of
13 traveling with Senator Gaetz all the way.
14 Welcome this morning. Looking forward to
15 hearing from you.

16 REPRESENTATIVE THURSTON: Good morning, I
17 am Perry Thurston and I represent House
18 District 93, and it is a pleasure to be in your
19 area this morning.

20 REPRESENTATIVE JONES: Good morning, I am
21 State Representative Mia Jones, representing
22 Jacksonville, District 14.

23 REPRESENTATIVE CHESTNUT: Good morning.
24 My name is Chuck Chestnut, House District 23.
25 That is a portion of Alachua County and a

1 portion of Marion County. Glad to be here.

2 REPRESENTATIVE TRUJILLO: Good morning, my
3 Nam is Carlos Trujillo. I represent Florida
4 House District 116 which is southwest Miami
5 Dade County.

6 REPRESENTATIVE WILLIAMS: Good morning, I
7 am Trudi Williams, House member from District
8 75, which is Lee and Collier, parts of Collier
9 County. Glad to be here.

10 SENATOR GAETZ: Joining me in chairing
11 today's hearing is the former Speaker Pro Temp
12 of the Florida House of Representatives, and
13 now back serving his community, Representative
14 Dennis Baxley, and Representative Baxley and I
15 will be working together today.

16 You may see me having to leave a little
17 bit early to catch my transportation all of the
18 way back to the central time zone in northwest
19 Florida, but I can assure you that if I do miss
20 any testimony that I will look at the video
21 record of the testimony so that I hear every
22 single word that every single person here
23 testifies with.

24 And before we go any further I would like
25 to ask Speaker Baxley if he would explain how

1 today's hearing fits into our redistricting
2 process and into the schedule.

3 Mr. Speaker.

4 REPRESENTATIVE BAXLEY: Thank you,
5 Chairman Gaetz. Every ten years the
6 Legislature is required by our Constitution to
7 redistrict the state based on increases,
8 decreases and movements of the population.

9 Because Florida has grown more than other
10 states in the last ten years we will move up
11 from 25 to 27 members of the U.S. House of
12 Representatives.

13 Because some parts of our state have
14 increased or decreased disproportionately in
15 population, many State and House Districts will
16 change, either adding or losing population.

17 When redistricting is completed,
18 Congressional Districts must be equal in
19 population and contain 696,345 people. The 40
20 Senate Districts must be nearly equal at about
21 470,000 people and our 120 House Districts must
22 all be nearly equal to about 156,700.

23 We have displays at the front of the room
24 in the entrance foyer showing the current
25 boundaries of districts in this area of the

1 state and the number of persons which must be
2 added to or subtracted from current districts
3 to achieve this equal representation.

4 The quality of representation isn't the
5 only legal requirement redistricting plans must
6 meet.

7 The laws and important court cases
8 governing redistricting are explained in detail
9 on the House and Senate websites. Those
10 websites are listed on the Redistricting 2012
11 brochure that was available to you when you
12 came in or you can pick one up as you leave.

13 Our Redistricting 2012 brochure summarizes
14 the Federal and State laws and it outlines the
15 topics we hope to discuss here at today's
16 hearing.

17 If you did not get a copy when you came
18 in, they are available on the tables outside
19 this meeting room in the foyer. Our staff will
20 be happy to get you a copy of the brochure if
21 you need it.

22 The brochure also lists the House and
23 Senate websites. These websites are packed
24 with information about redistricting in
25 Florida, including explanation of laws and

1 important court cases governing redistricting.

2 The two websites are complimentary and are
3 updated frequently. Visit both and check back
4 often. It is a great way to stay current about
5 how your new Congressional State Senate and
6 State House Districts are taking shape.

7 The websites also deliver to your
8 fingertips all of the demographic information
9 that is used in drawing districts and the exact
10 same computer programs that Legislators and
11 professional staff will be using.

12 You, the public, can participate in
13 building plans or seeing maps submitted by
14 Legislators or citizens. Before, during and
15 after this hearing Senate and House
16 professional staff are here available to show
17 anyone the simple steps to getting online,
18 building districts and submitting a plan now or
19 in the weeks to come.

20 Recommendations from citizens and groups
21 of citizens will be made publicly available on
22 this website. In fact, as of this morning, 51
23 public submissions of partial or complete maps
24 and new ideas for maps are available on that
25 website.

1 After this week I am sure those numbers
2 will increase and you can follow the process.
3 The submission of proposed maps that makes
4 sense for your community is the single most
5 effective form of public participation in this
6 redistricting process.

7 The redistricting schedule under which we
8 are operating is imposed by the State
9 Constitution. The Constitution does not permit
10 the Legislature to act on State legislative
11 maps before the second year after the census,
12 in other words, not before 2012.

13 We accelerated this process as much as
14 possible by moving up the 2012 legislative
15 session from March to January, and I don't
16 think that has ever been done before, and by
17 beginning our statewide hearings five months in
18 advance of the 2012 session.

19 It has been suggested that the Legislature
20 should draw maps first and then ask the public
21 for comment. We believe that that puts the
22 answer ahead of the question.

23 There should be no preconceptions created
24 by politicians, but rather public testimony
25 should be free and unrestricted. In fact, a

1 principle author of Florida's New Redistricting
2 Standards and the chair person for Fair
3 Districts Campaign are on record in agreeing
4 with us the notion that new maps should not be
5 drawn until after the public has had an
6 opportunity to comment on this process.

7 Our intent is to use the recommendations
8 made at these 26 public hearings and through
9 our internet sites as the basis for developing
10 one or more options for District maps.

11 We discuss those options in open public
12 meetings before any votes are taken in any
13 committee.

14 In other words, what we are literally
15 saying is if you look at those maps to our
16 right, your left, the ones actually submitted
17 to the Legislature by Florida residents, we are
18 literally starting the legislative process with
19 those maps and other suggestions from the
20 public.

21 So if you want to know where we will begin
22 our deliberations, it is with those public
23 submissions, testimony from these meetings and
24 other public input.

25 Throughout the process we will solicit

1 additional public comment so that proposed maps
2 can mature with the public involved, all before
3 the Legislature approves the final maps.

4 Whatever the Legislature passes then is
5 submitted for judicial review to ensure that
6 the final plans meet every legal requirement.

7 Because our purpose today is to hear from
8 you, all of the time between now and the close
9 of this meeting at 11:00 will be used to ensure
10 that every member of the public who is here and
11 wishes to speak will have time to present
12 testimony, be listened to respectfully without
13 interruption or argument.

14 If after every citizen has had his or her
15 say there is time remaining before our
16 scheduled adjournment, then any member of the
17 committee may make any statement or offer any
18 observation and, of course, any member of the
19 Legislature may today or at any time propose a
20 map or plan and we will make it available to
21 the public.

22 Mr. Chairman, I hope this description of
23 our schedule and process helps set the stage
24 for a very successful hearing.

25 SENATOR GAETZ: Thank you very much,

1 Representative Baxley. We, the good news is we
2 have a goodly number of people who have already
3 signed up to speak, and if this hearing is like
4 other hearings, during the hearing there will
5 be people coming in or people who are in the
6 audience now who hadn't planned to speak, but
7 the spirit will move them and they will decide
8 they would like to speak, and if so, we want to
9 hear from you.

10 So what we have done in each one of our
11 hearings is to be fair to the people who are at
12 the back end and haven't signed up to speak yet
13 or who may be coming in a little bit late in
14 the hearing, on their way now and the people
15 who are at the end of those who have already
16 signed up, we try to have a little time limit
17 out of respect for those people who are going
18 to come later, your friends and neighbors who
19 also want to testify.

20 So what I am going to do is call out three
21 names at a time so you know that you are on
22 deck. If I call you out, be ready if you can
23 so that you can be ready to come forward,
24 because we don't want to miss a single word of
25 what you might want to share with us.

1 And we are going to hold to a time limit
2 of about three minutes. If you run two or
3 three or four seconds over, I am not going to
4 get upset, but if you sort of kind of roll on
5 like a preacher we used to have at my church,
6 we may -- we may point out to you that there
7 are others behind you who would like to speak.

8 Our first speaker is Joshua Deese and then
9 Brian Whitehall and then Clayton Williams.

10 So Joshua Deese with the Hendry County
11 Young Democrats, you are up. We are delighted
12 to have you begin our hearing this morning and
13 the floor is yours, sir.

14 MR. DEESE: Thank you. Good morning,
15 everyone. My name is Joshua Deese, I am a
16 senior at Clewiston High School and a pre-law
17 student at Edison State College. I am here
18 representing the Hendry County Young Democrats.

19 SENATOR GAETZ: And if I could just ask
20 you, the microphone is sort of off center
21 there. If you wouldn't mind speaking as
22 directly as you can into the mike.

23 MR. DEESE: Sure.

24 SENATOR GAETZ: Thanks, Joshua.

25 MR. DEESE: Okay. So I thank you for

1 allowing me this opportunity to voice my
2 opinion.

3 With Congressman Thomas Rooney, I along
4 with many other people in this community feel
5 that he has neglected us in his constituency.

6 He hardly comes here and he has made it
7 quite clear that we are -- that he is slightly
8 interested in representing our constituency.

9 I among the others feel that he represents
10 his sole community in Palm Beach, Wellington
11 and Stuart, which are more upscaled
12 communities.

13 There are people here in Clewiston, Moore
14 Haven and Labelle, they do not contain a large
15 population of people with a high socioeconomic
16 status.

17 It has been my understanding that
18 Representative Hastings has wanted to draw into
19 our constituency. It would be easier for him
20 to do so, apart from us being represented with
21 Congressman Rooney, as the line divides
22 straight through Clewiston and Belle Glade.

23 This would not only boost Representative
24 Hastings' population to a more ideal standard
25 to whether he would like to boost his

1 population up, but it would also give both
2 racial minorities and minorities of lower
3 socioeconomic statuses a better feel to be
4 represented by their constitu -- in their
5 constituency.

6 So I -- I hope that you would take into
7 consideration to allow Congressman Hastings to
8 be joined into our District. I yield the rest
9 of my time. Thank you.

10 SENATOR GAETZ: Thank you very much, and
11 thanks so much for coming here today and for
12 your leadership as a high school student. I
13 mean, hey, as a State Senator you would be
14 highly articulate.

15 As a high school student you are doing
16 really great. Let's give this guy a round of
17 applause.

18 And next if we could hear from Brian
19 Whitehall and following Mr. Whitehall, Clayton
20 Williams and then Mayor Paul Puletti from the
21 City of Labelle.

22 Mr. Whitehall, thank you for coming, and
23 you are recognized.

24 MR. WHITEHALL: Thank you. Brian
25 Whitehall, City Administrator from your

1 neighbors to the north, Okeechobee, and we
2 bring greetings today.

3 I am representing not only the City but
4 the County, as we have no other representation
5 here.

6 I am like the prior person, I think we are
7 well represented from Senator Joe Negron and
8 our other Representatives and Senators.

9 We have kind of a unique situation in
10 Okeechobee inasmuch as we have an influence
11 from the Treasure Coast area, but we also have
12 our roots predicated in agriculture and central
13 Florida values.

14 And so the uniqueness presents a dilemma I
15 think for redistricting inasmuch as we would
16 prefer to have representation from the Treasure
17 Coast and central Florida.

18 Our current districts are set up perfectly
19 in our estimation, and I think as I said, our
20 Representatives and Senators do a great job
21 representing us. So it is short and sweet
22 message that I wanted to deliver today, that is
23 it.

24 And I also want to, if it is possible, to
25 present you with a resolution from the City of

1 Okeechobee that articulates that.

2 SENATOR GAETZ: Please do, please do.

3 Thank you very, very much.

4 Now, Clayton Williams, we are delighted to
5 have him here, representing the City of
6 Okeechobee, and then following Mr. Williams,
7 Mayor Puletti and then if Janet Taylor from the
8 Hendry County Commission will be on deck.

9 Mr. Williams, the floor is yours and we
10 are looking forward to your testimony.

11 MR. WILLIAMS: Thank you, Mr. Chairman,
12 and members of the Committee. Clayton
13 Williams, City Council, Okeechobee. We enjoy
14 our representation that we have from Senator
15 Negron, Senator Alexander and Mike Horner and
16 Dr. Berman.

17 Like the City Manager just said, we are
18 kind of unique. We are part Treasure Coast
19 part, center part of the state. I personally
20 serve on the Central Florida Regional Planning
21 Council and we enjoy this representation and we
22 appreciate your consideration.

23 I just want to say also, nothing against
24 the sweetest town in the country, but we have
25 low calorie speckled perch. We are the home of

1 the speckled perch in Okeechobee.

2 SENATOR GAETZ: I see where this hearing
3 is headed.

4 MR. WILLIAMS: Yes, so -- so come to
5 Okeechobee some time and we will feed you some
6 speckled perch.

7 SENATOR GAETZ: Sounds like --

8 MR. WILLIAMS: Thank you for coming.
9 Thank you very much. Appreciate it. And now,
10 Mr. Mayor, if you are here we would be
11 delighted to hear from you, followed by
12 Commissioner Taylor, and then I think it is Mel
13 Karau. Mel Karau, I apologize.

14 Mr. Mayor, thanks for your service to the
15 city and the community and you are recognized,
16 sir.

17 MR. PULETTI: And thank you for the
18 opportunity to be here. What I would like to
19 speak on is our legislative, our Florida
20 legislative lines.

21 There are three main issues that the City
22 of Labelle is concerned with. One is that
23 Hendry County remain whole in whichever
24 District we end up in.

25 Secondly we prefer State House District 77

1 to retain its characteristics of representing
2 the central portion of the state.

3 And the third issue that the residents of
4 Labelle and the city government of Labelle is
5 concerned with is, we would prefer our Senate
6 District, we are currently in Senate District
7 39 and it is very hard for us to find
8 commonality.

9 I represent a city of 4,800 people who
10 share with Miami-Dade County, and we would
11 prefer to be not included with Miami-Dade
12 County, but be included in a Senate District
13 that represents the interior portions of the
14 state.

15 SENATOR GAETZ: Thank you very much,
16 Mayor.

17 MR. PULETTI: Thank you.

18 SENATOR GAETZ: Thank you, sir.

19 MS. TAYLOR: Good morning.

20 SENATOR GAETZ: Thank you very much for
21 allowing us to be here, and if everybody who is
22 new to this area, I visited here before, but if
23 you turn around you will see the Janet B.
24 Taylor name and picture on the back of this
25 room, and Commissioner, thank you for letting

1 us come to your house today. You are
2 recognized.

3 MS. TAYLOR: We are more than glad to have
4 you and you have to forgive my voice. I had
5 surgery, but we really welcome you to Hendry
6 County and we have been pleased with our
7 representation that we have had.

8 But, you know, Hendry County is one of the
9 five pre-clearance counties by the Department
10 of Justice for election laws and we are hoping
11 when you are doing the redistricting that you
12 will remember that, and some of what the young
13 Democrat said is quite true.

14 We are now split with two Representatives
15 from Congress for our little small town and I
16 don't know that it is an advantage or a
17 disadvantage for us to have two
18 Representatives, but when you are doing your
19 redistricting maps we hope that you would take
20 into consideration that we do want to remain
21 whole, whole as a community and the
22 representation from Congressman Hastings I
23 think that would do us well.

24 Again, we thank you for coming and just
25 please remember that we want to stay whole here

1 in our county.

2 SENATOR GAETZ: Thank you very, very much,
3 Commissioner, and Mel Karau is next and
4 following Mr. Karau, Robert Rense, and then
5 Terry Koopman.

6 Mr. Karau, thank you for being here, sir,
7 and the floor is yours.

8 MR. KARAU: Thank you for allowing me to
9 be here today. I am Chairman of the Republican
10 Party in Hendry County and I will echo much
11 what our Mayor said, Paul Puletti.

12 We would like to remain whole as a county
13 and we don't feel that we are getting the
14 representation from the east coast that we
15 deserve and we are quite happy with the
16 representation of our Representative Grimsley
17 and Tom Rooney. They represent us well.

18 And if we could stay within the central
19 part of Florida, I think that represents our
20 county best as opposed to splitting it up with
21 the east coast.

22 And I would just like to add that Labelle
23 is the home of the famous armadillo race that
24 is put on by Rotary.

25 SENATOR GAETZ: We are going to hear more

1 about this. I know that. Thank you,
2 Mr. Chairman.

3 Next, Robert Rense, Mr. Rense, and
4 following Mr. Rense, Terry Koopman and then if
5 Donna Storter, Glades County Commissioner, will
6 be ready to speak as well.

7 Mr. Rense, we are very pleased, you could
8 have been someplace else this morning. You
9 came to spend time with us and we are grateful.

10 MR. RENSE: And thank you for coming too,
11 Mr. Chairman, Representatives. My name is
12 Robert Rense, and I am the President of the
13 Glades Area Minestorial Association which
14 consists of the western Palm Beach County,
15 Okeechobee and Hendry county.

16 And I am just coming to say that the most
17 important thing to us is that we have the
18 districts drawn up so that you have one voice
19 and one vote, and that the power vote of those
20 who are minorities of those are not diminished
21 by redrawing the districts in such a way that
22 they do not have an impact.

23 We also are concerned about making sure
24 that when you draw those districts, that you
25 consider communities of interest, that those

1 who have common interest are together in those
2 districts so that they can be represented very
3 well.

4 But again we look forward to seeing what
5 your districts will end up looking like and
6 give our support when it is drawn in such a way
7 that all citizens have an equal right or equal
8 voice in the voting process. Thank you.

9 SENATOR GAETZ: Thank you, great words,
10 sir. We really appreciate that. And next,
11 Terri Koopman, Ms. Koopman and then
12 Commissioner Storter and then Teresa Jenkins,
13 if you could be ready.

14 Ms. Koopman, thank you for taking time
15 from your day and we look forward to your
16 testimony.

17 MS. KOOPMAN: Good morning, my name is
18 Terri Koopman, I live in beautiful Lake placid
19 and part of District 77.

20 I am here this morning to talk about the
21 fact that I want my county to be altogether.

22 Representative Albritton you are a really
23 nice man, but he has this little hunk of
24 Highlands County and we want Highlands County
25 to be of a piece. So please, the people in

1 Avon Park really want to be part of the rest of
2 us.

3 The other thing is, the voters of this
4 state overwhelmingly approved Amendments 5 and
5 6, and I would ask in the strongest possible
6 terms for you to withdraw your lawsuit in a
7 time when you are spending money that our
8 schools need your money.

9 It is our money, and as far as the
10 Congressional Districts are concerned, I am
11 sorry, I live in Highlands County and it is a
12 rural area, it is a beautiful rural area. We
13 have nothing in common with the high rise
14 condos in Palm Beach or the people on the Gulf
15 Coast either.

16 So please, put us with people that have
17 more of our interest, with Glades County, with
18 Desoto county, with Hardee County. Keep us
19 together with people of similar interest,
20 because essentially our rural interests are not
21 well represented by someone who has way more
22 constituents on the coast.

23 The other thing is, thank you so much for
24 coming and for listening to us. My husband
25 gave his life to defend our rights for liberty,

1 and I want representative government.

2 I want to be able to vote for those people
3 who will represent me well and not have
4 Representatives choose who the voters are.

5 Thank you.

6 SENATOR GAETZ: Thank you, and, ma'am,
7 thank you for the service and sacrifice of your
8 husband.

9 Next we will have Commissioner Storter, we
10 appreciate you being here, Commissioner, then
11 Teresa Jenkins and then Martha Hoover from the
12 League of Women Voters.

13 Commissioner, you are recognized and we
14 are delighted you are here.

15 COMMISSIONER STORTER: Thank you. I am
16 delighted to be here. I recognize Mr. Negron,
17 Mr. Caldwell and Ms. Grimsley, Senator
18 Benacquisto is not here. Oh, she just came in.
19 I didn't see you come in, Liz, thank you.

20 I am one of five County Commissioners in
21 Glades County. It is probably the fourth
22 smallest in the state. I had a lot of problems
23 finding user friendly census data, but we are
24 physically constrained, you know what that
25 means. We are (inaudible), which is a real

1 area of critical economic concern and yet
2 Glades County has no debt. We do have certain
3 issues though.

4 Senator Benacquisto's District, if you
5 look at it on a map, it looks like a salamander
6 squated on the map.

7 We are not happy with that.
8 Twenty-three percent of the voters in Glades
9 County live in my District, so obviously we are
10 going to have to make some District changes
11 from the Commission level.

12 It includes Old Town and north Labelle,
13 but 72 percent of my voters have a Hendry
14 County zip code. At the other geographical end
15 of Glades County is Buckhead Ridge where
16 26 percent of the Glades County voters reside
17 and all of them have an Okeechobee County zip
18 code.

19 There are other out of county zip codes in
20 Glades County, residences for Clewiston mailing
21 addresses, and Venice, and that is Hendry and
22 Highlands County.

23 A total of 47 percent of the voters
24 registered in Glades County have an out of
25 county zip code. So it is probably safe to

1 assume that the total household population
2 follows those same ratios.

3 So basing legislative representation on
4 addresses could result in very unfair
5 representation with Glades County, so please
6 consider that.

7 We have felt very well represented by our
8 Congressman Rooney and especially by
9 Representative Denise Grimsley, but we are
10 divided by those Senate Districts and we would
11 like to have that whole.

12 Also we are a part of other Heartland,
13 Florida consertions, cooperatives. We identify
14 better as the previous speaker spoke, with the
15 interior rural counties such as Hardee, Desoto,
16 Okeechobee and Highlands and even Hendry
17 County. We do not want to be divided.

18 You have heard that again and again I want
19 to thank you for this, for not drawing those
20 maps until you did hear from us. Thank you.

21 SENATOR GAETZ: Thank you very much,
22 Commissioner, and Commissioner, before you
23 leave, the problem, the anomaly you have
24 described about the voting addresses, would you
25 be sure you talk with either Alex Kelly or John

1 Guthrie from our staff to make sure we have a
2 complete understanding of the -- of that issue,
3 how many people are involved and where they
4 are, so that we do not neglect that issue.

5 Thank you very much, Commissioner.

6 Next we will hear from Teresa Jenkins and
7 then Martha Hoover from the League of Women
8 Voters and then Jean Finks from the League of
9 Women Voters.

10 Ms. Jenkins, thank you for coming. The
11 floor is yours.

12 MS. JENKINS: Well, good morning, and
13 thank you, Mr. Chairman, Representatives. I
14 thank you for the opportunity to speak.

15 I also represent the League of Women
16 Voters. We are from Charlotte County, so we
17 were on the road at the crack of dawn this
18 morning to come here to speak about this
19 important issue.

20 The League has a couple of concerns, one
21 of which is the Legislature's published
22 timeline for drawing the District maps.

23 What the League believes is that we feel
24 that these, the timelines are unfair to our
25 Florida voters, to our Supervisors of

1 Elections, as well as to potential candidates.

2 The published timeline seems to wait to
3 finalize the District maps until the end of
4 session which is March 2012, and then the
5 courts, of course, the Justice Department have
6 their time to review the passage of the maps
7 and then review them.

8 And under the present timeline it seems
9 highly unlikely that the districts will be
10 approved before June 8, which is the deadline
11 for candidates to file their papers to run for
12 office.

13 So as it is, Florida districts may not be
14 finalized until August. So we understand that
15 the legislature's own lawyer has been quoted as
16 saying take the timeline will cause massive
17 voter confusion and we believe that as well.

18 We are concerned about our Supervisors of
19 Elections. They need to have sufficient time
20 to prepare for the elections and we are
21 concerned about challengers.

22 We are concerned about new candidates who
23 need to have sufficient time to mount an
24 effective campaign.

25 And so while the Legislature will hold

1 interim committee meetings from September
2 through December, perhaps that time could be
3 used to draw district maps. Then allow the
4 public to comment and then prepare the final
5 plans to submit to the full House and Senate
6 before the Legislature convenes.

7 The uncertainty as to what a district is
8 going to look like helps incumbents. It
9 doesn't help challengers, and these incumbents
10 are already known to the voters.

11 So these efforts to protect incumbents
12 perhaps, seem to undermine our fair competitive
13 elections, and some citizens have come
14 demanding that the timeline be accelerated, and
15 in response we understand that you intend to
16 bring the maps to the floor for a vote in
17 January, but still we don't believe this is
18 acceptable.

19 So what we are asking is for a published
20 accelerated timeline to adopt a rule requiring
21 all maps to be filed by October 3rd of 2011.
22 Adopt a rule requiring all committee action on
23 redistricting plans be completed by the end of
24 2011, and adopt a rule requiring that all plans
25 be voted on during the first week of 2012

1 session.

2 SENATOR GAETZ: I am sorry. I apologize.

3 MS. JENKINS: Thank you for your time.

4 SENATOR GAETZ: Yes, and Ms. Jenkins, I
5 hope since you came so far that you will have a
6 chance to stay until the end of the hearing.
7 Senator Negron and Representative Baxley will
8 give you some information I think that may
9 provide some reassurance.

10 I think it may be possible that the League
11 is operating off of an a old schedule that you
12 are troubled by. So I hope you can hang out
13 until the end of the hearing.

14 MS. JENKINS: That would be wonderful.
15 Thank you so much.

16 SENATOR GAETZ: All right, sure, thank you
17 so much, Ms. Jenkins.

18 And next we will hear from Martha Hoover,
19 representing the League, and then from Jean
20 Finks, representing the League and then from
21 Joseph, I am sorry, we already heard from
22 Joseph. You were there twice you were so good.

23 Then we are going to hear from Ashley
24 Tripp with the LORE Alliance.

25 And so Ms. Hoover, you are recognized and

1 think you for being here.

2 MS. HOOVER: Well, thank you. My name is
3 Martha Hoover and I live in Port Charlotte, and
4 I do represent the Charlotte County League of
5 Women Voters.

6 We are concerned about three specific
7 issues relative to redistricting reform.

8 First, the timeline for drawing district
9 maps is unfair to Florida voters. The plan to
10 wait to finalize district maps until at least
11 the end of the session results in Florida's
12 maps not being finalized until August of 2012.

13 The primary election is August 14th. Your
14 own lawyer rightfully says that this will cause
15 massive voter confusion and Election
16 Supervisors will have insufficient time to
17 prepare for elections.

18 Challengers and new candidates will have
19 little or no time to mount their campaigns and
20 voters will be voting for candidates they do
21 not know.

22 We therefore ask the Legislators to debate
23 and pass maps during the first week of session,
24 holding interim committee meetings from
25 September through December.

1 Commit to prepare and file district maps
2 by October the 3rd, 2011. Adopt a rule
3 requiring all committee action on redistricting
4 plans be completed by the end of 2011, and
5 requiring that all plans be voted on during the
6 first week of 2012 session. The current
7 timeline is simply an incumbent protection
8 plan.

9 Our second concern relates to spending
10 taxpayer money to oppose fair districts. Over
11 \$1 million of taxpayer money is already spent
12 hiring lawyers to fight the will of the Florida
13 voters, with another 30 million set aside for
14 future court battles.

15 The Florida House is using taxpayer money
16 to attack and invalidate a provision of our
17 State Constitution that was supported by
18 63 percent of Florida voters.

19 All of this money is being spent while
20 teachers are being laid off and social services
21 are being cut.

22 We ask the Florida House to immediately
23 withdraw from the lawsuit and respect the will
24 of the 63 percent of Florida voters who want
25 the new redistricting standards applied.

1 Our last point is where are the maps
2 provided by the Legislature? We had hoped that
3 you would provide sample maps for public
4 comment during these hearings. With 26
5 hearings we have not seen a single map from the
6 Legislature.

7 We demand that the Legislators commit to
8 holding another round of public hearings with
9 real maps that we can see which the citizens
10 can comment on.

11 So I thank you for your time and on behalf
12 of the Charlotte County League of Women Voters,
13 thank you very much.

14 SENATOR GAETZ: Thank you very much,
15 ma'am, and I hope for the same reasons -- I am
16 sorry, I am not quite sure how to make this
17 work.

18 I hope you will have a chance to stay
19 until the end of the hearing because again I
20 think it may be possible that the scripts were
21 written before some events occurred that may
22 give you some reassurance.

23 MS. HOOVER: I hope so.

24 SENATOR GAETZ: Thank you so much, ma'am.

25 Next, Jean Finks from the League of Women

1 Voters.

2 MS. FINKS: Good morning, and thank you
3 for the opportunity to speak, Mr. Chairman. I
4 am from Charlotte County now, but I used to
5 live in Volusia County in Deland, and also in
6 Tallahassee. So I see some of my
7 Representatives, former Representatives here.

8 Mr. Chairman, thank you for telling us
9 that it is not if, but how, but my question to
10 you is, how much.

11 In the name of transparency can you tell
12 us how much all of these hearings have cost us,
13 the taxpayers, and we don't have a map to show
14 for it? We don't think the Legislature should
15 be spending our money needlessly.

16 Although there have been good comments at
17 this hearing and I am sure you are hearing them
18 from some of the others, we could have done
19 that by e-mail.

20 The Legislature shouldn't be spending
21 money on opposing fair districts and the
22 lawsuit that is presently pending is another
23 waste of our tax dollars.

24 We are on both sides of that lawsuit and
25 we are spending money on both sides. All that

1 money could be set aside as our people have
2 said, for more schools, more arts in the
3 schools, more science in the schools. We think
4 this is a poor waste of our tax dollars.

5 It is very clear that you are asking to
6 protect your own incumbencies and you are
7 trying to fight new people who might have new
8 ideas.

9 The Legislature should be working to
10 uphold the constitutional provisions that two
11 thirds of us have already approved. So we ask
12 the House to immediately withdraw from the
13 lawsuit and respect the will of the people in
14 letting fair districting go forward in a more
15 expeditious and hopefully not as tax --
16 unworthy a process. Thank you.

17 SENATOR GAETZ: Thank you very much,
18 ma'am, for being here this morning.

19 And next, Ashley Tripp, if Ms. Tripp is
20 here, followed by Joseph Spratt, then Kevin
21 McCarthy.

22 Ms. Tripp, thank you for taking the time
23 to be with us and the floor is yours.

24 MS. TRIPP: Good morning. Thank you for
25 the opportunity to speak. I appreciate the

1 opportunity. I think it is important that we
2 do have this opportunity to share with you our
3 thoughts.

4 Again, I am with the Lake Okeechobee
5 Regional Economic Alliance of Palm Beach
6 County.

7 We are really working hard to improve the
8 economy in that region, but one thing that we
9 have in common all the way around the lake is
10 that we have Lake Okeechobee at the center and
11 the heart of our industries.

12 I would like to propose that when you look
13 at your redistricting that you encompass Lake
14 Okeechobee in the Senator, the Florida Senate
15 as well is the Florida House congressional maps
16 and the congressional maps because of our
17 common interest.

18 I have heard several times from many of
19 the different speakers this morning was
20 commonalities, commonalities, and then as our
21 agriculture industry, our tourism industry as
22 well as Lake Okeechobee and we need greater
23 representation, strong, stronger representation
24 in this whole region of south Florida and
25 central Florida.

1 We are the Belle Glade, Pahokee and South
2 Bay is part of the Freddie district, the
3 Florida rule heartland and it is great, we fit
4 into that because of our lifestyles yet it
5 often works against us because we are in a
6 metropolitan county and metropolitan
7 districting.

8 So we would just like for you to consider
9 when you do the redistricting to consider the
10 commonalities that the communities around Lake
11 Okeechobee and all of the different counties
12 around there have in place.

13 So I thank you for your time, and anything
14 I can ever do for you, please let me know.

15 SENATOR GAETZ: Thank you. Thank you very
16 much for that very useful testimony. Joseph
17 Spratt is next, following Mr. Spratt, Kevin
18 McCarthy and then Dr. Deborah Misotti, if I
19 have that name pronounced correctly.

20 Mr. Spratt, thank you very much, and you
21 are recognized, sir. We are glad to have you.

22 MR. SPRATT: Mr. Chairman and members.
23 First let me welcome you to Hendry County, and
24 thank you very much for coming here to listen
25 to our request and our concerns.

1 Our House District has worked well for 30
2 plus years. We have been blessed to have very
3 well-qualified and dedicated Representatives,
4 at least for the last 16 years, okay, okay,
5 for the last eight. Thank you, Representative
6 Grimsley.

7 This is because it has been comprised of
8 like communities, the like interests and we
9 have had Representatives that have walked the
10 walk, talked the talk. They are part of our
11 communities that understand our people, their
12 jobs and their industries, their problems and
13 the solutions thereto.

14 We are a rural agricultural based district
15 comprised of hard working, caring, God fearing
16 and conservative people. Our Senate district
17 on the other hand has always been attached to
18 the coast one way or another, and they have
19 very different problems, ideas and solutions.

20 We are kind of like a flea on the dog's
21 back. Mainly, just a nuisance, sometimes
22 getting a scratch. In fact, today our Senate
23 District runs from where you sit to Key West.

24 Senator Bullard, and I served in the House
25 with Senator Bullard and she is a good friend,

1 represents us well. However, I do not believe
2 that you can fairly represent a district with
3 such diversity that is over seven hours from
4 one end to the other.

5 We have nothing in common with the
6 majority of the constituents in this district
7 and we feel we need a more level playing ground
8 when it comes to our State Senate District.

9 I have invested most of my adult life in
10 representing and fighting for the people in
11 this county, as well as this district on rural
12 and agricultural issues.

13 First as a City Commissioner, then a
14 County Commissioner, and as a Senate
15 Representative. These people are the very core
16 of our society, working every day, providing
17 jobs, producing food and fiber and thus
18 contributing to the economic stability of this
19 state no matter what the circumstances.

20 I strongly urge you to seriously consider
21 drawing a House District much as it has been
22 for the past 30 years, and that our Senate
23 District be drawn to one of like communities
24 with like interest and like problems looking
25 for like solutions.

1 Let's preserve Florida's Heartland with
2 proper representation and not draw us to
3 coastal communities where our voices will not
4 be heard.

5 Again, thank you for being here and
6 listening to us, you have a daunting task. May
7 God speed.

8 SENATOR GAETZ: Thank you. Thank you,
9 Representative, for your great service to this
10 community.

11 Next we will hear from Kevin McCarthy,
12 then Dr. Deborah Misotti, and then Margaret
13 Shaw, please.

14 Mr. McCarthy, thank you for being here,
15 and we welcome your testimony.

16 MR. MCCARTHY: Thank you, and I want to
17 thank you for being here and coming out and
18 listening to the people, particularly here in
19 the Glades.

20 I have been a private business owner for
21 24 years, spent six years on the City
22 Commission in Clewiston and eight years on the
23 County Commission, and from a congressional
24 standpoint I think we have been very fortunate.
25 I think we are well represented by Congressman

1 Rooney and we are well represented by
2 Congressman Hastings, but I think that
3 primarily is because he was born out in the
4 Glades and he has a real appreciation and I am
5 very grateful for his representation of our
6 area.

7 I am a little afraid of what might happen
8 if we have a new election with somebody else
9 representing that has the same problem as our
10 Senate District. Our Senate District does not
11 get represented in this area.

12 A lot of times in our legislative
13 delegation meetings our Senator doesn't show
14 up. We have Senator Benacquisto here, before
15 her, Senator Aronberg who doesn't have a single
16 voter in Hendry County. They cut across the
17 lake, they are at our legislative delegation
18 meetings.

19 I think it is very important that we have
20 a Senate that represents our area, represents
21 the center part of the state, the rural areas.
22 Ashley Tripp made mention of the Freddie
23 region, also in the reset region they get
24 pulled next the tri cities in Palm Beach County
25 and we go up into the center of the state and

1 it makes a lot of sense.

2 We have a lot in common but our Senate
3 District does not represent us and does not
4 represent us well. So I would ask you that
5 when you start drawing those lines that you,
6 you remember that, and draw us a Senate
7 District that makes sense.

8 Our House of Representatives seat has been
9 great and Joe went back 16 years, but I think
10 we go back long before that with Burt Harris,
11 we have been well represented for a long time.

12 I have been in Tallahassee every year for
13 the past 24 years, spent six trips up to D. C.
14 and it is very welcoming when you walk in and
15 you make those appointments and you go see your
16 Representative as opposed to when you make your
17 appointments and you see a staff member and you
18 see the staff members because they don't think
19 we are important.

20 You see the Representatives because they
21 know who we are and they want to represent us.
22 So I think it is important, it is important for
23 the people that are here.

24 Once again, thank you for coming out and
25 seeing the people. I think it is so much

1 better than an e-mail. So thank you so much.

2 SENATOR GAETZ: Thank you, sir. We
3 appreciate your comments.

4 Dr. Misotti, did I have that name
5 pronounced correctly, ma'am?

6 DR. MISOTTI: Yes, yes, you did.

7 SENATOR GAETZ: Thank you so much for
8 being here and the floor is yours, ma'am.

9 DR. MISOTTI: Okay, I would like to say
10 that I have lived in this area for almost nine
11 years now, and the one thing that I have
12 noticed is the great divisiveness in the area
13 simply because there is not the proper
14 representation for the demeanor and the
15 economic stature of the people in this area.

16 I would like to reiterate exactly what
17 Mayor Paul Puletti said. We need
18 representation for the entire county with the
19 same Representative. I strongly, strongly
20 recommend that we follow the District 77.

21 Denise Grimsley, our Representative, has
22 been wonderful. She has stepped into local
23 situations. She was easy to speak with. I --
24 my lifestyle is very different from most
25 people's. I run an educational primate

1 sanctuary.

2 I have people come in from all over the
3 world to study the apes and monkeys that I work
4 with. We ran into a very difficult situation
5 with the State Senate when they were going to
6 incorporate into the Everglades clean up bill a
7 \$10,000 bond that was going to be required for
8 a sanctuary and because we were a 501-C3, that
9 was very difficult for us.

10 I attempted to contact my State Senator 11
11 times, never received one return phone call.
12 When I finally reached one of her actual staff
13 members and spoke to them, she said that the
14 Senator didn't have time for such small issues,
15 which I really did not appreciate.

16 I went to Representative Grimsley. She
17 put me in touch with Senator, former Senator
18 Dave Aronberg, and though he was not my
19 Senator, he went to the Senator, Senate floor
20 to speak on behalf of our sanctuary, and I
21 greatly appreciated that.

22 And the reason he did that is because he
23 understood the people in this area, he
24 understood the impact that various things have
25 on this area, and when you are redistricting I

1 would greatly appreciate it if you could keep
2 Hendry County whole and you could give us
3 representation for the people who actually live
4 here and not those in Miami-Dade County who
5 have a complete socioeconomic difference from
6 us. Thank you.

7 SENATOR GAETZ: Thank you, Doctor, very
8 much. I was going to say, we would provide
9 everybody with Representative Grimsley's cell
10 phone number, but it sounds like you already
11 have it.

12 Our next speaker is Margaret Shaw.
13 Ms. Shaw, if you are here, and then following
14 Ms. Shaw, Janice Grove. Margaret Shaw?

15 Thank you for taking time to be here today
16 and we are very grateful for your testimony,
17 ma'am.

18 MS. SHAW: Yes, I am here representing
19 myself as a citizen. I belong to three
20 political organizations, and I do want to say
21 that I am proud to say that Denise Grimsley is
22 my rep and will hopefully be Senator.

23 And I do empathize this -- let's see, with
24 Joe Spratt and the Commissioner that spoke
25 about how the city like Okeechobee is divided,

1 this is divided. Avon Park used to be divided
2 down Main Street.

3 We had Joe on this side and Adam Putnam on
4 this side. And so these things happen and that
5 was in a delegate District. I am proud to say
6 that Highlands County carried Joe Negron over
7 the top when he ran for Representative.

8 So we do have little pieces and parts of
9 our county that belong to other districts that
10 we are not voting as a whole, so I don't know
11 how to fix that.

12 I look at maps and I don't know how to fix
13 it, but we are -- it is necessary that we do
14 combine and put a lot of emphasis on what is
15 the rural economy and the tourism and
16 everything.

17 And I do think that some of the testimony
18 I have heard here today is amazing and I just
19 want to thank you for the opportunity that we
20 get our two cents' worth in that we would like
21 to see the Senate Districts and things that are
22 hurting these other people thought out real
23 well, but don't go over board and don't lose
24 Ms. Grimsley and Paul Rooney as their districts
25 are now proposed. Thank you very much.

1 SENATOR GAETZ: Thank you very much,
2 ma'am, for being here this morning. We are
3 very grateful to you.

4 Now Janice Grove, please, Ms. Grove. We
5 are very, very pleased to -- that you took time
6 to be with us today, and we are all anxious to
7 hear your testimony, ma'am. You have the
8 floor.

9 MS. GROVES: Well, I am just speaking for
10 myself. I live out in the sticks. I leave on
11 a dead end dirt road. No neighbors can see my
12 house and I can't see any of my neighbors'
13 houses and I love it.

14 There are 16 deer that come through my
15 area on a regular basis that we see them and we
16 even had between fawns this year, so we are
17 delighted, not too happy about the hogs and the
18 armadillos, but that is all right, we can't do
19 much about that. We get what we got.

20 I have been very, very pleased. I am a
21 native Miamian and we escaped to the real
22 Florida in 1979, gratefully, and have been
23 very, very happy with the representation that
24 we have had.

25 Both on the State and the Federal level,

1 we can always contact the people we need to
2 contact and they listen to us. I gave up on
3 e-mails some time ago.

4 It is so impersonal and people can't get
5 the nuances of what you are really saying and
6 the tone of your voice when you send an e-mail.
7 It is just there in print and so I am so very
8 grateful that you all do come out and listen to
9 us, because that is important.

10 I am politically active. I try to support
11 the Constitution and vote for the people I
12 think will do the best jobs. We have certainly
13 been blessed with Denise Grimsley and we do
14 want her to be our Senator, definitely.

15 Please see that those districts that we
16 stay there so we can get her elected, because
17 she does, not just work for us, but she works
18 for the State of Florida and for the goodness
19 of the people.

20 SENATOR GAETZ: Would you please come down
21 now?

22 MS. GROVES: I really, really think that
23 yes, we are primarily rural areas, and, yes, we
24 do have some areas that are larger. Sebring is
25 a larger area of population that some of you do

1 not have, but we are still not gigantic.

2 We are not Palm Beach and we are not Tampa
3 and we do think we are people that care about
4 what is going on in our area, and that is what
5 we need.

6 Our county is divided. We do have a small
7 area up in Avon Park that is in a different
8 Representative District. If that can be
9 changed I think that would probably be good,
10 and we do thank you for being here and letting
11 the little people actually have something to
12 say.

13 I have never been elected to anything and
14 nor do I care to be, thank you very much, but I
15 do care and I will get up and say what I think.
16 Thank you.

17 SENATOR GAETZ: And you said it well.
18 Thank you very much, ma'am. And now we have
19 someone who came all of the way from Orlando to
20 be with us, Stephen Garrett.

21 Mr. Garrett, thanks for the long drive and
22 we look forward to your thoughts.

23 MR. GARRETT: Good morning, and welcome, I
24 thank you for the welcome. Ladies and
25 gentlemen of our Legislature, I have only lived

1 in Florida for about three years, but in that
2 time my Congressional District has been
3 represented by three different persons of two
4 different political parties.

5 However, I don't consider this a bad
6 thing. I did attend two earlier hearings in
7 this series without commenting. I heard many
8 concerns that redistricting respect and honor
9 our Federal Civil Rights laws and that respect
10 and honor the wishes of the voters for compact
11 districts. I would like to echo those
12 concerns.

13 I also heard concerns that these bills
14 were in conflict. I urge you to recognize that
15 this is a false dichotomy, meaning both goals
16 may be more challenging than treating them
17 either/or, but meeting both goals is assurable
18 possible.

19 But beyond that I challenge you to honor
20 the diversity within your districts that you
21 draw, not diversity of age or race or any
22 demographic, but rather the diversity of ideas.

23 Our nation is in desperate need of
24 intelligent considerate civic debate and the
25 surest way to squelch that is to craft

1 districts in which the outcome of the general
2 election is a foregone conclusion.

3 Uncompetitive districts deface the value
4 of each and incremental vote and renders it
5 virtually meaningless. Competitive districts
6 raise up the value of the incremental vote and
7 encourages participation.

8 Uncompetitive districts teach our children
9 that those in power can act to protect their
10 own interest at the expense of the peoples.

11 Competitive districts place the people's
12 interest first, encourage our children and all
13 citizens to reflect on what truly constitutes
14 their interest.

15 Uncompetitive District breed distrust,
16 cynicism and apathy. Competitive districts
17 enliven debate, engage voters and bring
18 accountability to the floor.

19 Many may say these are foreign ideals but
20 they will choose and strive to create districts
21 to protect your own security in office.

22 My friends, subsequently can reflect
23 another false dichotomy. I suggest that
24 securing an office is completely compatible
25 with competitive districts.

1 I submit to you the true job security for
2 a public servant rests on consistent delivery
3 of exemplary public service, and that this is
4 what makes it possible for her or him to
5 consistently win vibrant, competitive
6 electorial elections.

7 Ladies and gentlemen, your own willingness
8 to craft competitive electoral districts would
9 be the fairest possible evidence of your own
10 suspicion that you are running for office. It
11 would indicate that you would not, you think
12 would not, you think you would not win a tough
13 well contested election in a competitive
14 district.

15 I feel that you may instead to choose to
16 craft districts which, if you will forgive me
17 saying so, in a jack-ass or respectively
18 pachyderm could vote.

19 Show your belief in your own worthiness
20 and show your belief in your constituents who's
21 government this is. Craft districts which are
22 respectful, honorable, legal, compact and
23 competitive.

24 SENATOR GAETZ: Thank you very much.

25 Thank you, sir. This concludes the individuals

1 who had signed up to speak or who, during the
2 course of the hearing, felt the spirit moved
3 them to speak.

4 We appreciate all of the information we
5 have received. Let me just say before I yield
6 the chair to Senator Negron because I said that
7 I wanted to stay for everybody who wanted to
8 speak but I have to dash now to get my
9 transportation back to the central time zone.

10 Let me say that the kind of information
11 that you provided today is the kind that would
12 be very difficult to get if all we did was just
13 check our e-mail.

14 The information we have gotten from these
15 hearings about specific neighborhoods and
16 communities and how those communities should or
17 should not be boundaried or divided is the kind
18 of thing we can't get from an echo chamber in
19 Tallahassee and we can't get, I don't think
20 just by checking the mail.

21 You got to get it by talking to people,
22 listening to people who live in the
23 neighborhoods and who live in the communities
24 and you have given us that information.

25 This has been extraordinarily helpful to

1 me as somebody who lives far, far away to get
2 firsthand the input that tells me how you feel
3 these districts ought to be drawn.

4 With that, Representative Baxley, I will
5 yield the Senate chair to Senator Negron and
6 thank you all for being here today.

7 Senator Negron and Representative Baxley
8 and the other members of the Committees will
9 now have a chance to react, offer any thoughts
10 they have, answer any questions and to sum up.
11 Senator Negron.

12 SENATOR NEGRON: Okay, we are now at the
13 portion of the meeting I will now offer any
14 House members an opportunity to make any
15 comments or ask any questions or respond in any
16 way to the comments that we have heard.

17 REPRESENTATIVE TAYLOR: Thank you,
18 Mr. Chair, and I want to thank the citizens for
19 coming out today.

20 There are two things that I think we can
21 agree on, Mr. Chair, and that is the testimony
22 from our citizens.

23 When we hear and do what they say,
24 democracy works best when we do what our
25 citizens ask us to do.

1 The other thing I wanted to do, and I
2 think we can agree on, Mr. Chair, is the fact
3 that with this being our last meeting, I just
4 want to commend our staff, I want to commend
5 the Sergeant's office for their work.

6 I mean, we know that this is a difficult
7 process. We have gone to 26 different
8 locations and they have done an outstanding job
9 of making sure we had the information, they
10 were here and I would like to do something
11 special for them and let them know that we
12 really appreciate the work that they have done.

13 I also wanted to thank the Florida
14 Channel, they have been here, they have been
15 streaming, they haven't missed a beat for the
16 most part in making sure that this information
17 is published out into the public.

18 So with that I know, Mr. Chair, this is
19 our last meeting, but I wanted to make sure
20 that those good folks are recognized for their
21 outstanding work. Thank you, Mr. Chair.

22 A VOICE: Thank you, Mr. Chair, and again,
23 being the humble gentleman that I am I let
24 Representative Taylor from Volusia County go
25 first, but he basically said exactly what I

1 wanted to say.

2 Being one that attended each and every
3 single one of the meetings, and I tend to like
4 to get to places early, because if you are not
5 early, you are late, that is my belief, and
6 being one that tends to leave places a little
7 bit later because I like to talk to
8 individuals, I, too, want to commend the staff
9 of the great State of Florida, because what we
10 have seen is dedication exemplified and
11 executed in a perfect and flawless manner.

12 The Sergeant's office and everybody else,
13 the Florida Channel, I have talked to you all
14 because you get here before us, and you leave
15 after us, and it truly is an honor to be able
16 to say that I am a co-worker of yours.

17 And I look forward to the rest of this
18 process in making sure that ever comment that
19 we have heard throughout these hearings that we
20 go back and we do the will of the people.
21 Thank you, Mr. Chairman.

22 SENATOR NEGRON: Thank you very much. Any
23 other members of the House wish to speak? We
24 will pass the microphone.

25 A VOICE: Thank you very much for coming

1 out this morning. I know it is early and for
2 those of us who have been to all 26 hearings,
3 as I have been, it has truly been an honor to
4 hear from the public and to hear what you have
5 to say about this process.

6 I -- this is my first time going through
7 redistricting here in the State of Florida, but
8 as an elected official in New York when I lived
9 there I went through redistricting where they
10 had my living room in one District and my
11 kitchen in another.

12 So I understand what redistricting is all
13 about, and I will intently look over the
14 information that I have taken down and what I
15 have received so that I will make sure that we
16 get the best maps out for everyone. Thank you.

17 SENATOR NEGRON: Okay, are there any other
18 House members that wish to make any comments?
19 And I think before we turn to, let's see if
20 there is any members of the Senate that wish to
21 comment.

22 We had one other member of the public who
23 has traveled to be here today and we certainly
24 want to hear his testimony and input, and that
25 is Joe Thomas. Is Mr. Thomas here?

1 If he is still here we will open public
2 testimony back up to have an opportunity for
3 him to speak if he still wishes to speak.

4 A VOICE: I think he left.

5 SENATOR NEGRON: Okay, we wanted to, we
6 wanted to -- I would rather err on the side of
7 caution. I think he may have had some vehicle
8 issues, but if we have a member of the public
9 that says they want to speak I want to make
10 sure that we give them that opportunity.

11 So now we will turn it over, are there any
12 members of the Florida Senate that wish to make
13 any comments or speak?

14 A VOICE: Well, the only person that we
15 left out, the only people we left out are the
16 interpreters, and let me just tell you, their
17 fingers have been flying.

18 They have been some very fired up people
19 and they have had to say some things that maybe
20 they would not like to interpret, or maybe they
21 would, because some of them were calling us
22 names. So maybe they were like, oh, this is
23 great, anyway, thanks for coming.

24 SENATOR NEGRON: Okay, are there any other
25 members of the Senate that wish to comment? If

1 not, I am going to turn over the floor to
2 Representative Baxley who is the House co-chair
3 to make some closing comments and answer any
4 questions if he wishes to, and then I will wrap
5 up.

6 REPRESENTATIVE BAXLEY: Thank you,
7 Chairman. Just so I might pick up any Mojo
8 left in the room, the high regard for Chairman
9 Grimsley, I wanted to share a factoid.

10 Many years ago when I was a small child,
11 my father who was my pastor, conducted the
12 wedding ceremony for her parents. So I get
13 part of the credit for my family for her being
14 here.

15 So she was kind enough to invite me back,
16 my father had passed away and let me be there
17 as a part of their 50th wedding anniversary.

18 I share that because I just want to touch
19 base with you that these are real people
20 devoting their real lives to try to make a
21 difference just like you are doing today by
22 spending time here for your community, and on
23 that note, today is my 39th wedding
24 anniversary. So thank you for letting us out
25 early so I can go home and celebrate that great

1 victory with my wife, five children and seven
2 grandchildren.

3 So that is just a personal aside that I
4 just want to thank all of the attendees. Each
5 of you bring unique perspectives that provide
6 information to us about Hendry County,
7 Okeechobee, Glades, Highlands and the other
8 nearby counties.

9 We could not be successful in this process
10 without your explanation of how it is that you
11 would implement these State and Federal
12 redistricting laws, and to that end and in
13 response to the points that were raised this
14 morning about the Legislature's expenditures,
15 in particular, the cost of having these
16 meetings, you can visit our site.

17 We truly offer transparency. It is
18 www.floridatransparency.gov, www.florida
19 transparency.gov and you can examine every
20 dollar of your tax money that the Legislature
21 spends, including the investment in these
22 hearings.

23 I really think that the investment in
24 doing these meetings is well worth it, because
25 it reminds us that this is your government. We

1 don't have seats in the Legislature.

2 They are your seats, particularly with
3 term limits. We go and sit in them for you to
4 represent you there as Senators and House
5 members, and so it is an honor to come before
6 you.

7 I would also like to share as a returning
8 member, I left the Legislature with term limits
9 and came back. I am probably one of the few
10 people in this room that actually has been
11 through this process as a member of a
12 redistricting committee.

13 I probably shouldn't say that given the
14 appearance of the map, but I was a freshman
15 then.

16 So Joe and Senator Joyner were there, and
17 of course, they have gone on to the Senate and
18 so I don't remember any time in our history
19 that as far as the timeline that we moved the
20 Legislature's meeting up.

21 That was a record event, and so I think we
22 have done a lot of things to try to create
23 adequate time for this process to be effective,
24 and the League of Women Voters did file maps
25 last cycle, the last time we did this.

1 They didn't file them until January. We
2 still got done on time, and incumbents, they
3 don't know where their districts are yet
4 either. We don't even know what we are running
5 for yet.

6 So we are all in this together, but I
7 thank you for the time that you have invested
8 and I certainly want to reiterate that I think
9 it is well worth the cost to hear from you, the
10 people, and with that I will turn it over to
11 you, Senator Negron.

12 SENATOR NEGRON: Thank you, thank you,
13 Chairman Baxley, for those comments, and I just
14 want to offer up a couple of observations in
15 response to some of the comments that were
16 made, and again, there are not right opinions
17 or wrong opinions on how we ought to do this.

18 They are just different points of view,
19 and in response to one of the comments from the
20 Charlotte County League representative talking
21 about, you know, where are the maps, where are
22 the real maps.

23 Well, I would argue that these are real
24 maps. These are maps that are drawn by the
25 citizens of the state of Florida, and in one of

1 our hearings earlier in the week we had a
2 13-year-old boy who, along with his sister,
3 drew a map of all 120 House Districts, and I am
4 sure many members of the Committee, I have
5 looked at the map, this was something that a
6 lot of thought was put into and it is something
7 that we will take into consideration.

8 So we consider the over 54 or partial maps
9 that have been submitted, those are real maps
10 and we do take them into consideration.

11 Also with this issue about, you know, we
12 should have had maps now. I would argue that
13 if we came here with maps I don't know, here is
14 what my response would be.

15 I happen to be a lawyer. When I go to
16 court I would like the Judge to hear the
17 evidence before she or he makes a ruling, and
18 so to me if we came in with maps already drawn
19 I think citizens would have the right to scream
20 to high heaven and say, let me understand this
21 process.

22 You did the work product and now you are
23 coming to listen to us, this is a charade. I
24 think the opposite argument would be made. I
25 think it is much more preferable for us to

1 listen to testimony from the public and then do
2 our work.

3 And I want to just follow up briefly on
4 what Chairman Baxley said about the information
5 that we have received.

6 Last night we were in Lehigh Acres. I
7 have heard of Lehigh Acres. I have seen it on
8 a map. I have not spent a significant amount
9 of time there. I got there early, had dinner
10 there, talked to some people. Apparently there
11 was an issue with one of your banks yesterday.
12 One of your banks was surrounded with police
13 tape and officers. I think there had been a
14 little incident there, but I didn't know Lehigh
15 Acres well, but after we spent time there, we
16 listened to people, there were specific things
17 that we would never know but for having been
18 there.

19 And I am just going to give one example
20 from the hearing today of something. I grew up
21 in West Palm Beach and we came to Belle Glade
22 and Clewiston it and Pahokee, so I know this
23 area, I was here a year ago with the healthcare
24 tour that we did, but Commissioner Storter had
25 the comment about the percentage of people

1 registered to vote here, but their addresses in
2 another location.

3 I don't mind admitting it, I did not know
4 that. I was not aware of that, and that is
5 something that we need to take into
6 consideration to make sure that when did we do
7 the reapportionment that we take that into
8 consideration.

9 So I think the fact that we are here, I
10 think the most important thing Legislators can
11 do is listen, and I think there are things that
12 we have learned today that are very valuable.

13 With regard to the timeline, it is our
14 goal to make sure that this process is done in
15 an orderly manner. There is no intent to wait
16 until the last minute to create confusion, but
17 I will say this.

18 The legislative process has rules that are
19 designed to protect the majority and the
20 minority parties, because those parties change
21 from time to time, and members have rights to,
22 there are members that aren't on the
23 Reapportionment Committee that are going to be
24 hearing this for the first time in September
25 when we have our first hearing in the Senate

1 and I think the House has a hearing scheduled
2 also for September or October.

3 So members have a right to look at the
4 maps, to file amendments, to say we don't like
5 the way this is done, we don't think this is
6 best for our community, and when the
7 Legislature convenes in regular session in
8 January, the League has talked about passing it
9 out the first week.

10 Well, it is up to the presiding officers
11 to set the schedule, but if you are a House
12 member or a Senator that has not spent the last
13 several months talking to voters and getting
14 this information, don't those House members and
15 Senators have a right to put their proposals
16 out, to debate them, to argue their points of
17 view.

18 So I think that we will do everything we
19 can to conclude the process in an orderly way,
20 but there are certain procedures that are set
21 up not to delay, but to protect all of us and
22 make sure there is meaningful input.

23 And I know all of you know this, but just
24 a quick reminder, that we are only one part of
25 the process. Once this is approved by the

1 Legislature, the Attorney General has a period
2 of time to review, and then the maps go to the
3 Florida Supreme Court, and then into the
4 Federal system to have the Attorney General's
5 Office look at the maps, especially for those
6 counties that are a part of previous court
7 orders.

8 So there are a number of participants in
9 the process, but it is our intent to have this
10 done in plenty of time so that there is a
11 seamless transition into our electoral
12 process.

13 And then I just want to mention one other
14 thing just as maybe a point of interest to
15 those of you who took the time to come this
16 morning. We really appreciate it. There has
17 been some talk and discussion, I think Senator
18 Gaetz initially brought it up, and I know
19 Chairman Weatherford indicated that he was
20 going to consider it, that maybe for the next
21 time we do this in ten years, that perhaps we
22 want to amend our Constitution or give you, the
23 voters, the opportunity to potentially amend
24 our Constitution to, if we did it this cycle,
25 to do this in 2011, so it is completely done by

1 the end of 2011 so that we are not quote,
2 unquote, cutting it so close, but you have our
3 assurances that we are going to do everything
4 we can within the rules.

5 We can't vote on the plan until 2012.
6 That is in our Constitution, but maybe we want
7 to give the voters an opportunity to say, how
8 about we do it a little earlier than our
9 current rules provide. So that is one of the
10 things that, that we are going to look at and
11 possibly consider for the future.

12 Again, I want to thank everyone for your
13 time, for your interest, I have taken three
14 pages of notes. I have a file that I keep all
15 of my notes, from Lehigh Acres last night, from
16 being in Naples, as we have gone all over the
17 state, to Key West, to Miami.

18 Every community is different, and just to
19 show you the kind of issues that have to be
20 worked out, we have heard in communities where
21 there is a line down the middle, for instance,
22 let's say Okeechobee, because that is in my
23 Senate District.

24 Okeechobee, half of Okeechobee I represent
25 and half is J. D. Alexander. Well, there are

1 some folks who say, that is pretty good,
2 because J. D. Alexander is the Chairman of the
3 Appropriations Committee, frequently ranked as
4 the number one or number two, at least in the
5 top three ranked Senators in the State of
6 Florida, so that is good, and then we have, you
7 know, a rookie coming along trying to carry his
8 part of the load, too.

9 So it is actually good for us to have two
10 people, but then we heard today from some
11 citizens that they would rather be represented
12 by one person.

13 They feel like it is better to have focus
14 rather than numbers. It is not that one side
15 is right or wrong. They were just differing
16 opinions of people with Good Will.

17 So those are the things we are going to
18 work through and I noticed that there seemed to
19 be some strong opinions particularly in the
20 State Senate District that being tied into a
21 District that goes all the way to South
22 Florida, that doesn't appear that the majority
23 of the people here today don't want that.

24 So that carries a lot of weight with me
25 when we look at the maps, because that is what

1 we are go -- those are the factors that, that
2 we are going to use.

3 So we really, really appreciate the time
4 that you took to be here today. Any other
5 House or Senate members?

6 I think Representative Grimsley should put
7 on a workshop for all of us, because I have
8 been to quite a few of these hearings and she
9 has gotten more shout outs and more compliments
10 than anybody.

11 So we are all doing the best we can, but
12 we can learn from you. So we will applaud your
13 service to this community and we appreciate
14 everything that you do and even those of us who
15 live closer to the east coast of Florida, where
16 I live in Stuart, believe me, we know about
17 this part of Florida.

18 A lot of my constituents don't. They
19 think that Florida is just Orlando, theme
20 parks, gated communities and golf courses. I
21 actually know that this is Florida. This is
22 the original Florida, and that meat does not
23 show up at Publix wrapped in saran wrap, that
24 someone actually has to have cattle and grow
25 food for us to eat, and we appreciate this part

1 of Florida.

2 We care about this part of Florida. We
3 think it is just as important as every other
4 part of Florida and that is one of the reasons
5 we chose to come to Clewiston.

6 So with that, Representative Baxley moves
7 we rise.

8 (Whereupon, the proceedings were
9 concluded.)

2 REPRESENTATIVE WEATHERFORD: Okay,
3 members, if we can get everybody to take their
4 seats, we are going to start here. Katie,
5 could you please call the roll?

6 THE CLERK: Representatives Adkins?

7 REPRESENTATIVE ADKINS: Here.

8 THE CLERK: Bernard?

9 REPRESENTATIVE BERNARD: Here.

10 THE CLERK: Chestnut?

11 REPRESENTATIVE CHESTNUT: Here.

12 THE CLERK: Dorworth?

13 REPRESENTATIVE DORWORTH: Here.

14 THE CLERK: Eisnaugle?

15 REPRESENTATIVE EISNAUGLE: Here.

16 THE CLERK: Fresen?

17 REPRESENTATIVE FRESEN: Here.

18 THE CLERK: Frishe?

19 REPRESENTATIVE FRISHE: Here.

20 THE CLERK: Holder?

21 REPRESENTATIVE HOLDER: Here.

22 THE CLERK: Horner?

23 REPRESENTATIVE HORNER: Here.

24 THE CLERK: Hukill?

25 REPRESENTATIVE HUKILL: Here.

1 THE CLERK: Jenne?
2 REPRESENTATIVE JENNE: Here.
3 THE CLERK: Jones?
4 REPRESENTATIVE JONES: Here.
5 THE CLERK: Kiar?
6 REPRESENTATIVE KIAR: Here.
7 THE CLERK: Legg?
8 REPRESENTATIVE LEGG: Here.
9 THE CLERK: Nehr?
10 REPRESENTATIVE NEHR: Here.
11 THE CLERK: Precourt?
12 Rogers?
13 REPRESENTATIVE ROGERS: Here.
14 THE CLERK: Rouson?
15 REPRESENTATIVE ROUSON: Here.
16 THE CLERK: Schenck?
17 REPRESENTATIVE SCHENCK: Here.
18 THE CLERK: Workman?
19 REPRESENTATIVE WORKMAN: Here.
20 THE CLERK: Chair Weatherford?
21 REPRESENTATIVE WEATHERFORD: Here.
22 THE CLERK: We have a quorum.
23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, Katie.
25 Good morning, members. We have a nice

1 long, full day today. How long we go will be
2 determined based on the amount of public
3 testimony we have and how much we want to talk
4 about the maps that we are going to be
5 proposing. So we are going to get everybody
6 out of here as soon as we possibly can, but we
7 also are going to make sure that we spend a lot
8 of time to thoroughly analyze the maps that are
9 before us.

10 As you know, we are here to workshop the
11 options for Florida state legislative and
12 congressional redistricting maps that were
13 passed by the respective subcommittees. Some
14 of you sit on those subcommittees, and some of
15 you do not, so in that regard, I would like to
16 thank the subcommittee Chairs and the
17 subcommittee members who worked very hard to
18 bring the product to this full Committee, and
19 we appreciate all the effort that you've put in
20 thus forth, as well as the staff, who have done
21 just a tremendous job from the very beginning
22 in making sure that we are prepared in all of
23 our meetings.

24 I had the opportunity to watch nearly
25 every subcommittee meeting, and it was the

1 product of what I thought was a very thoughtful
2 discussion. I feel like every member of the
3 subcommittee got a chance to learn about how
4 this process works, had their opportunity to
5 have input and frankly talk about something
6 that can be very personal to members of the
7 Committee and members of our body, and I
8 thought that the dialogue that took place was
9 very thoughtful and frankly appropriate and
10 respectful, and I appreciate all the members
11 for that.

12 I am also thrilled with the work product
13 that has been put forth, both in terms of how
14 those legal options that we have seem to
15 demonstrate great legal compliance, and the use
16 that -- the use of public input that we
17 utilized throughout the process when it was
18 legally appropriate.

19 So regarding today, I said back in
20 September that this Committee would give each
21 plan a second workshop, we would take a fresh
22 look, which is what we are here to do today,
23 and make sure that the public testimony that we
24 have gotten since December gets one more look
25 before we move forward and pass maps out of

1 this Committee.

2 Today's meeting will go just like this:
3 First we are going to consider the public
4 input. We will open the substance of the
5 meeting by letting any members of the public
6 who are here and wish to speak, the opportunity
7 to do so. So if you are here in the audience
8 and either you are here to share your thoughts
9 with us on these maps or perhaps you need to
10 supplement the information you have already
11 provided us, we will be giving you that
12 opportunity very shortly. Secondly, our staff
13 will then present us with public suggestions
14 regarding the maps that we've received since
15 releasing options -- since releasing the
16 options on December 6th. There's actually
17 quite a bit of public testimony we have
18 received since then. We have a lot of
19 feedback, and our staff is going to walk us
20 through it one at a time. When that is
21 concluded, we will then walk through the
22 options for Congress, State House and State
23 Senate, and try to see if we can't get some
24 good dialogue on that as well.

25 We will not be taking any votes today, so

1 we're not going to be taking any votes today,
2 we will not be going over amendments. Today is
3 simply a workshop.

4 We will be voting next Friday, though, in
5 this very Committee. So what does that mean
6 for each of us? This morning, the Rules and
7 Calendar Committee recommended that we readopt
8 the same procedure we had last year for
9 amendments for redistricting bills for this
10 Committee and for the floor. Basically what
11 that means is, assuming that this is approved
12 on the floor for next Tuesday, if you have any
13 proposed amendments to file to the bills that
14 we are workshopping today, those amendments
15 would have to be submitted by Wednesday of next
16 week, by noon. And the reason for that is
17 because the same rules -- we are going to have
18 a two-day -- basically a 48-hour rule to give
19 the members the opportunity of the public and
20 of the Committee to look at the amendments.

21 Now, substitute amendments only have to be
22 filed a day ahead of time, and so the deadline
23 for substitute amendments to the amendment
24 would have to be submitted by Thursday by noon.
25 So those are the two deadlines that you have to

1 make sure that you take into account before
2 next week's meeting.

3 So, after today, we will have a quick
4 turn-around. If you have an amendment, I
5 suggest that you work with our staff and make
6 sure that your amendments are properly prepared
7 and that you are properly prepared to discuss
8 them.

9 Again, this Committee will seek to vote
10 out a single map for Congress, a single map for
11 the State House and a single map for the State
12 Senate by next Friday. That would put
13 redistricting bills on the floor of the House
14 the week of Thursday, the week four of session.

15 With that said, are there any procedural
16 or timeline questions from members of the
17 Committee? Procedural or timeline?

18 Okay. Seeing none, before we hear from
19 the public, what we thought we might do and
20 kind of set a nice tone for the meeting is to
21 show you an example of how public input was
22 utilized throughout the process of making of
23 the maps that we have before us today, and to
24 help us out, we have the House's Office of
25 Public Information. They have prepared a very

1 short video that will walk us through some of
2 the highlights of how we utilized that public
3 input and how it impacted the process and the
4 map options so far. So we've got a short
5 little movie for everybody to wake you up. So
6 Jason, if you could, go ahead and turn that on
7 for us.

8 (Beginning of movie.)

9 THE NARRATOR: The Florida House of
10 Representatives continues to gather record
11 levels of public input as part of the 2012
12 redistricting process. Using traditional and
13 new media outreach, the House has spent the
14 last 16 months working to educate and engage
15 the public in all things Florida redistricting.

16 This effort fueled an unparalleled
17 response. The House now boasts 30,000 visitors
18 to each of its redistricting blogs. More than
19 500 fans on Facebook received 440 posts by
20 staff. Nearly 800 redistricting followers on
21 Twitter viewed 1,700 tweets. More than 40
22 tutorial videos are available on YouTube
23 showing residents how to take part in the
24 process, and especially how to use the House's
25 state-of-the-art My District Builder

1 application. The channel boasts more than
2 6,800 views.

3 In addition, more than 170 maps were
4 submitted to the Florida Legislature for their
5 consideration, 30 press releases were issued on
6 redistricting, and the House hosted five formal
7 media availabilities to help reporters
8 statewide better understand the redistricting
9 process and the My District Builder
10 application, 3,500 subscribers signed up to
11 receive regular e-mail updates about
12 redistricting, public service announcements in
13 English and Spanish ran in every major media
14 market in the state.

15 The 2011 redistricting public outreach
16 tour garnered nearly 5,000 attendees, and more
17 than 1,600 people provided public testimony.
18 In addition, hundreds more e-mailed, called or
19 posted the House's numerous resources. The
20 testimony is clearly reflected in the House's
21 proposed maps.

22 MR. SIERRA: I live in eastern Leon
23 County, and my House District is basically
24 based in Jacksonville, Senate district is in
25 Inverness. I would like to have these

1 districts more closer to home.

2 THE NARRATOR: How staff were able to
3 include these comments from Joseph Sierra in
4 each of the proposed congressional maps.

5 MS. WATSON: And we would like to be in
6 the same district as -- or all of Clay County
7 be together in something. That is our front,
8 and there's a lot of people here from Clay
9 County who feel exactly the same way.

10 MS. HUTTON: We would like our own
11 representation from somebody that is from Clay
12 County, that represents Clay County, the
13 values, the issues, the community.

14 THE NARRATOR: These comments from both
15 Lynn Watson and Marge Hutton were used in
16 several options of the proposed House maps,
17 which guarantee Clay County will have a
18 Representative that actually lives within the
19 county.

20 A VOICE: To see very core specifics
21 coming out, people who are very involved, like
22 the Supervisor of Elections, which I was
23 surprised that so many represented it coming
24 forward, saying, you know, draw the lines this
25 way, please, because it makes such a huge

1 difference in our jobs.

2 THE NARRATOR: The redistricting committee
3 heard from several Supervisors of Elections who
4 asked for a major reduction in splits of voter
5 tabulation districts, or VTDs. Our staff was
6 able to reduce these splits by more than
7 50 percent.

8 MS. REAM: In Hardee County, I definitely
9 would like to see that they keep us with the
10 inland counties.

11 THE NARRATOR: Each of the proposed State
12 House and congressional maps accomplished this
13 request from Kathleen Rheem.

14 MR. WELCH: I think in my particular area,
15 the main thing is to focus on the distinct
16 communities of interest between the coastal
17 communities that exist and the rural heritage
18 communities that exist in the eastern portions
19 of the county which are based on agriculture.

20 THE NARRATOR: During the meeting, Casey
21 Welch described that he would like to maintain
22 Highway 17 as an artery for districts in Hardee
23 County. All proposed maps reflect this design.

24 MS. DICKMAN: An appropriate dividing line
25 would be east and west more than by county

1 necessarily.

2 THE NARRATOR: In Wesley Chapel, Jocelyn
3 Dickman requested that districts in Pasco
4 County be divided east and west. Pasco County
5 happens to be the size of three House
6 districts, and each proposed map consists of an
7 east, west and central district.

8 MR. EASTMAN: I would like to see us have
9 a district where the student voice gets heard
10 as a unified thing instead of having us drawn
11 into a district that waters down our voice.

12 THE NARRATOR: In Orlando, Brian Eastman
13 asked for the UCF campus community to be kept
14 whole, and all proposed State House maps comply
15 with this request.

16 A VOICE: The area that I live in, my
17 district stretches 60 miles north and 20 miles
18 south, so we end up with a House district that
19 just is all over the place. So we don't have
20 much in common with many people in two other
21 counties, and actually not much to do in common
22 with people at the entire other end of this
23 county.

24 THE NARRATOR: House staff were able to
25 accomplish this request as all proposed House

1 maps create three compact seats entirely in
2 Brevard County.

3 A VOICE: I would go ahead and leave the
4 districts in Broward County more compact. I
5 would make the districts in Broward County
6 fewer.

7 THE NARRATOR: This request is reflected
8 in each of the proposed House maps, as they are
9 far more compact and aligned with municipal
10 boundaries.

11 MAYOR BLACK: I would like to recommend,
12 like I said, that instead of District 109,
13 which is one in particular going across from
14 Overtown, which is one of the most impoverished
15 neighborhoods, to Miami Beach, which is one of
16 the most exclusive, that they cut that off and
17 just let 109 stay on the other side of Miami --
18 the bridge from Miami Beach, because it doesn't
19 make any -- the salaries and the incomes are
20 completely different.

21 THE NARRATOR: Village of El Portal Mayor
22 Daisy Black's comments are reflected in the
23 proposed 2012 House maps. All proposals for
24 this House district now stop at Overtown. In
25 addition, they keep the Village of El Portal

1 whole.

2 MR. REYES: Right now we have four State
3 Representative districts that cut right through
4 the Town of Cutler Bay, and so we have four
5 Representatives for one -- a town of 40,000.
6 We have three congressional seats. So that
7 needs to change.

8 THE NARRATOR: Jamie Reyes' opinions are
9 reflected as each proposed House map keeps
10 Cutler Bay whole. Each of the proposed
11 congressional maps now keep Cutler Bay whole as
12 well.

13 MR. MATTHEWS: I was born in Sarasota and
14 I live in Bradenton now and I grew up by the
15 airport, and the airport sits right on the
16 county line, so the communities are very
17 intertwined. I know from experience that
18 there's a lot of community interaction between
19 the counties, so I hope they don't draw
20 districts strictly on county boundaries,
21 because if they do that, they will ignore that
22 community aspect, the greater community in
23 Sarasota and Manatee County.

24 THE NARRATOR: House staff paid particular
25 attention to David Matthews' comments as they

1 created congressional maps containing all of
2 Sarasota and most of Manatee. In addition, the
3 airport is in a singular district, and each
4 House map has four districts entirely in
5 Sarasota and Manatee County.

6 MR. RUSSO: Here in southwest Florida
7 where it is a lot more common sense, I think
8 that there should be three districts, as I
9 mentioned, southwest Florida, one in Sarasota
10 and Manatee County, the other in Charlotte and
11 north Lee, and the third in south Lee and
12 Collier, and in -- composing some interior
13 areas and interior counties here and there as
14 well.

15 THE NARRATOR: Joseph Russo's comments are
16 reflected in all of the proposed 2012
17 congressional maps precisely to how he
18 described the three districts in southwest
19 Florida.

20 MS. TRIPP: We are struggling
21 economically, and when I look, I can't help but
22 look at some of the districtings and seeing
23 that the masses of the populations are over in
24 the coastal regions, and then they come up and
25 sweep through the Glades and through the Lake

1 Okeechobee regions, and so you have -- it's all
2 split. But the mass -- the mass population in
3 the district is over on the coast, which have
4 no interest, have no same interest of the Lake
5 Okeechobee regions. So I am hoping that during
6 this process, that Senators and Representatives
7 will take a hard look at that and look at the
8 region at the heartland, and to preserve it, as
9 well as to enhance it economically.

10 THE NARRATOR: Each proposed congressional
11 map accomplishes Ashley Tripp's request, and
12 the proposed House maps respect her comments as
13 counties like Okeechobee, Glades and Highlands
14 are paired with other south Florida rural
15 counties.

16 House and Senate members took thousands of
17 valuable comments like this into account by
18 putting public testimony to paper, resulting in
19 new proposed maps for Florida State House,
20 State Senate and congressional districts.

21 To access more information about the
22 House's proposed maps or to submit public
23 input, visit Floridaredistricting.org and tell
24 us your story.

25 (End of movie.)

1 REPRESENTATIVE WEATHERFORD: All right.
2 Thank you very much. And if we could, let's
3 thank the Office of Public Information for
4 doing a great job on that video. They took a
5 lot of input, and I thought that was a
6 tremendous job. Kudos to you guys for doing
7 that. Thank you. We appreciate it.

8 With that, in light of public testimony,
9 since we have now shown you our video that
10 is -- I think it is up for an Oscar, is that
11 right, Alex? Have we submitted that yet?

12 MR. KELLY: Yes.

13 REPRESENTATIVE WEATHERFORD: We are pretty
14 sure it is being considered. We do have
15 members from the public that are here and wish
16 to speak. If you have not filled out a card,
17 we have them for you, we would like for you to
18 do that, but we do have one, I believe, that
19 has so far come forward. That is Chairman of
20 the Martin County Board of County
21 Commissioners, Mr. Edward -- I hope I am saying
22 this right -- Ciampi? Okay, great. Come on
23 forward, Chairman, and we welcome you here, and
24 thanks for being here and being a part of the
25 process. Sir, there is a mike -- you have to

1 push the button there, the mike will come on.

2 Great.

3 COMMISSIONER CIAMPI: I apologize. I
4 didn't hear my voice, but at home, we have
5 someone that does that and we have a couple of
6 minutes, so I apologize.

7 REPRESENTATIVE WEATHERFORD: Budget cuts,
8 sir --

9 COMMISSIONER CIAMPI: Yes.

10 REPRESENTATIVE WEATHERFORD: -- budget
11 cuts.

12 COMMISSIONER CIAMPI: So that means we
13 won't have it either, then.

14 My name is Edward Ciampi. I am the
15 Chairman of the Board of County Commissioners
16 in Martin County. I am representing more our
17 citizens since this was a unique opportunity to
18 get an opportunity to address you this morning.

19 We were up here, a large contingent of us
20 were up here from the Treasure Coast for
21 Treasure Coast legislative days, and when I
22 heard -- we had thought we had missed our
23 opportunity to address you on the mapping for
24 our area, and when I had heard that you would
25 be meeting this morning, everyone went home

1 yesterday, but I decided to stay an extra day
2 so that I would have a chance to present our
3 case personally.

4 For those of you that are not familiar,
5 Martin County is south of St. Lucie County and
6 north of Palm Beach County on the east coast.
7 We go from the ocean to Lake Okeechobee -- that
8 is perfect, thank you -- and we are a community
9 of approximately 144,000 residents. We have a
10 couple of famous residents that you might be
11 familiar with, Tiger Woods, Celine Dion, Venus
12 Williams, and everyone thinks of themselves as
13 --

14 REPRESENTATIVE WEATHERFORD: Representativ
15 e Will Snyder.

16 MR. CAMPO: True. Senator Joe Negron,
17 Gayle Harrell, we have been very well
18 represented. And those three names in
19 particular, one of the reasons that we -- that
20 I wanted to come to address you.

21 We have done this on our own. We recently
22 approved our commission district mapping. And
23 I can imagine what a challenge it must be to
24 try to map out the entire state. For us, we
25 were trying to balance about 25,000 people into

1 each district, and where that number 18 is in
2 blue is -- we call it west of the Turnpike, is
3 beautiful country with very few citizens. So,
4 for us, you know, to shape the five districts
5 were challenging. Some needed 1,000, some
6 needed to give up 2,000, just like you are
7 doing, and we were pretty successful in that
8 regard.

9 What our concern is, is Martin County, and
10 hopefully some of you know our reputation, is a
11 very unique place. We have a four-story height
12 limit. We do not allow any buildings to be
13 built higher than four stories. We have a very
14 environmentally sensitive population. We in
15 the last several years have taken our
16 publicly-owned conservation lands from about
17 eight or nine percent to 25 percent using -- we
18 have taxed ourselves a half a cent sales tax
19 and used that money to purchase conservation
20 land so that it would never be able to be
21 developed ever. And so the community has that
22 mind set.

23 Now, different from our neighbors to the
24 north and south, we have a very, very slow rate
25 of growth and think of ourselves as a -- sort

1 of a jewel in regards to very little
2 development, and very specific and defined
3 development. And because of that, we have been
4 fortunate with our representation in the past.
5 Representative Gayle Harrell and Representative
6 Will Snyder have done a remarkable job
7 understanding our key sort of aspects of life,
8 and we have been fortunate.

9 The concern now is that the way the maps
10 are potentially going to be drawn, Martin
11 County, the northern portion would go a lot
12 more up into St. Lucie County, and with the
13 possibility of that representation being -- the
14 voters coming a lot more from St. Lucie County,
15 and then south Martin County would potentially
16 be defined much more by Palm Beach County. And
17 residents -- there was a couple of articles in
18 the newspaper, and you know how it goes, some
19 blogs and some electronic newsletters have gone
20 around, and I started to receive a lot of
21 calls, and one of the reasons was that my
22 district is Palm City, which in the last census
23 has become the largest community, and for us,
24 large is 23,000 people. Palm City is defined
25 by the south fork of the St. Lucie River to our

1 east, 95 and the Turnpike to our west, the
2 canal that heads you into Lake Okeechobee to
3 our south. So it really is an isolated, kind
4 of very defined community.

5 The other community, the county seat is
6 the City of Stuart, and how the map looks to be
7 drawn is slicing those two communities to the
8 north and the south along Monterey Road, which
9 is not like U.S. 1. It is a big road for
10 Martin County, but in a lot of other counties,
11 it is a country road. And our concern was that
12 by splitting it like that and having some of
13 the votes go north and some of the votes head
14 south, it really did not give us the
15 representation that we were hoping to maintain
16 in Martin County.

17 If this was a one or a two-year process, I
18 think we would all be more comfortable with
19 that, understanding that things will change,
20 but this is a decade process, and our concern
21 is although in the past we have been very
22 well-represented by the folks that I had
23 previously mentioned, our residents are nervous
24 that that might not be the case in the years
25 one, two, three, four, five, six, seven, eight,

1 nine and ten.

2 So what we would hope is that -- and we
3 did work with the website, which I will
4 compliment you on is a very effective tool. We
5 have had our own version, our GIS system, which
6 allowed us to do it at the county level, but
7 for residents, including myself, to be able to
8 use yours, your mapping tool, was very, very
9 helpful. And what our goal would be is to have
10 all of Martin County inclusive fall to the
11 northern section district, and all of Stuart
12 fall to the southern district. We feel that
13 that would be a much more compact version, the
14 residents in Martin County, and especially in
15 those two neighborhoods, it is sort of like a
16 yin and a yang, Palm City and Stuart being
17 somewhat next to each other. Slicing it one
18 north and one south would then -- just as you
19 see that dip in the road right where 95 and the
20 Turnpike sort of intersect there, that is --
21 yeah, that is Palm City right in that section
22 that says -- right where -- if the cursor's a
23 little bit to the left, if it went the other
24 way where Palm City went north and Stuart went
25 south, it doesn't really affect a lot of the

1 other maps. We had a couple of different
2 variations that we were fair to understand your
3 position, which if we create our perfect map,
4 what does that do west, south and north. The
5 version that I can send to you that we have
6 worked on locally maintains very compact, it
7 would be very easily understood for our
8 residents, especially in the City of Stuart and
9 in Palm City, and would really not disrupt the
10 rest of -- a trickle effect, if you will, a
11 rippling effect for the rest.

12 And that is what I would have to say. I
13 can answer any questions if --

14 REPRESENTATIVE WEATHERFORD: Mr. Chairman,
15 if I could, first of all, thank you for taking
16 the time. I think it is -- it shows how much
17 you care about your community that you stay up
18 an extra day just to be here with us and sleep
19 through a redistricting committee hearing, so
20 we appreciate you participating in that.

21 But I will tell you, we have looked at
22 several different variations of this, and I
23 think what you are bringing forth certainly has
24 some validity to it. We would love to see what
25 you guys could suggest to us on paper. I know

1 in the map that we have currently here, the one
2 that we are looking at has the City of Stuart,
3 all of the municipality of Stuart, whole within
4 the brown district there, or the burnt orange
5 District maybe. The yellow district to the
6 south, I believe, has -- I think it is split
7 between the two. So Palm City -- is Palm City
8 unincorporated?

9 COMMISSIONER CIAMPI: Correct.

10 REPRESENTATIVE WEATHERFORD: Okay. It is
11 unincorporated. So part of the challenge we
12 have had in the process is, you know, that the
13 requirements that we live by speak specifically
14 to cities and counties and unincorporated
15 areas. We are able to view those, and we do
16 try to pay attention to them when they can, but
17 obviously, when you are trying to keep
18 deviations down and everything else, it gets
19 challenging.

20 But I will tell you the same thing I tell
21 the members of this Committee and every member
22 of the Legislature, if someone can bring forth
23 an idea that helps us supply our maps and make
24 them more compliant to the standards of
25 Amendments 5 and 6 --

1 COMMISSIONER CIAMPI: Right.

2 REPRESENTATIVE WEATHERFORD: -- we will
3 certainly take a very close look at them. So I
4 would encourage you to get those to us on
5 paper.

6 COMMISSIONER CIAMPI: We have them
7 electronically. We can submit them.

8 REPRESENTATIVE WEATHERFORD: That would be
9 great. And we will disseminate them to
10 everyone on the Committee, and may be something
11 we can take a look at next week when we are
12 doing amendments.

13 COMMISSIONER CIAMPI: Thank you very much.
14 I appreciate your time.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much. Members, does anybody else have a
17 comment or question for the Chairman?

18 Okay. Thank you, Commissioner.

19 COMMISSIONER CIAMPI: Best of luck.

20 REPRESENTATIVE WEATHERFORD: Take care.

21 Okay. Moving forward, is there anybody
22 else from the public that wishes to speak?
23 Anybody else? All right. Thank you very much,
24 again, Commissioner.

25 Now that we have gone through the

1 speakers, we are going to go ahead and hear
2 from our staff, who is going to walk us through
3 some of the public suggestions that we have
4 received via e-mail, letter, social media, et
5 cetera. These are all thoughts that we have
6 received from the public post December 6th
7 since we have put the maps out. And so with
8 that, Mr. Kelly, we are going to recognize you
9 first to talk about the congressional.

10 MR. KELLY: Thank you, Mr. Chair, members.
11 What myself and after me Jeff Takacs and Jason
12 Poreda are going to be doing is going through
13 public input, public suggestions that have been
14 received since the House published its options
15 for maps on December 6th, and we are going to
16 be focusing on suggestions that we oftentimes
17 in a general sense refer to as drawable
18 suggestions where an individual has critiqued
19 something and given us an alternative as to how
20 to potentially improve the map.

21 And so what you have in your packet in tab
22 one of your packet is you have the information
23 that myself, Jeff and Jason will be presenting,
24 and if you look at -- each page is numbered,
25 and you will see a number of e-mails and so

1 forth, and posts on social media that we have
2 received. And what I will do is I will refer
3 to the page number. I am not going to present
4 everything, so if I happen to skip something
5 that you are interested in, just please let me
6 know and I will be happy to double back and
7 answer any questions you may have.

8 But, again, tab one of your packets, the
9 information received pertain to a number of
10 different types of requests, whether it is
11 referring to how counties and cities are
12 treated, or like the prior discussion, how
13 unincorporated areas are treated, and for the
14 benefit of the discussion, what I will do is I
15 will use the maps that are up, all -- we have
16 all three congressional maps that are proposed
17 up and available, so I will scroll through
18 these just to give you an idea as to how these
19 comments relate to the maps as well.

20 So referring to page two in tab one,
21 referring to Nassau County, there was a comment
22 received from a Fernandina Beach commissioner
23 regarding complimenting for keeping Nassau
24 County whole. Nassau County is actually split
25 in two of the three maps that are proposed.

1 Map 9041 and map 9045 split Nassau County, and
2 I will just give you an example of that, but
3 map 9043, which is also House Bill 6005, that
4 particular bill keeps Nassau County whole
5 again. So that was feedback from Nassau
6 County.

7 Moving on to page three, feedback that
8 came from a Duval County resident
9 complimented -- complimented map 9041 as being
10 a preferred map. And 9041, just to take a look
11 at what that actually does in the Duval County
12 area, this is actually that map, and the
13 particular map places the east side of Duval
14 County in one district, the west side into a
15 different district, combining it with the
16 eastern part of Nassau County and the northern
17 parts of St. Johns County.

18 Moving on to page four and also page five,
19 the Clay County supervisor's office has
20 communicated with us regarding how
21 Congressional Districts 3 and 5 interact with
22 the geography, the roads and neighborhoods in
23 Clay County. If you -- as members of the
24 subcommittee, you will remember that some
25 changes were made in the subcommittee meetings

1 to already take some of this input. We have
2 received recently additional input from the
3 Clay County supervisor's office as to how to
4 best not split neighborhoods, best use
5 roadways. So some of this has actually already
6 been factored in, and then some of this we just
7 received.

8 The one tough thing that you do get into
9 with the congressional maps, this is a good
10 example, a good reminder, is that because of
11 the requirement to achieve perfect population,
12 there is -- in almost every congressional
13 district, there's going to be at least one
14 place where a neighborhood may have been split
15 in order to achieve that perfect population.
16 So sometimes that does factor in and that may
17 make certain recommendations not operable, but,
18 again, we will be taking a look at this
19 particular recommendation.

20 Moving on to page seven, let's skip page
21 six, moving on to page seven, the point was
22 raised -- if you remember the public meeting in
23 The Villages, a reminder about keeping The
24 Villages communities whole. The Villages is
25 encompassed by northeastern Sumter County,

1 southern parts -- small southern parts of
2 Marion County and generally the municipality of
3 Lady Lake in Lake County is generically
4 considered to be part of The Villages. And I
5 will just take you to each of the maps just to
6 show you how that area is impacted. And in map
7 9041, The Villages community is actually kept
8 whole, so just to give you an idea. As you can
9 see, The Villages right there on the screen,
10 and the county boundary, which will appear.
11 And The Villages, again, generally speaking, is
12 considered to be Lady Lake, the northeastern
13 side of Sumter and southern parts of Marion
14 County.

15 Taking a look at map 9043, again, a
16 similar configuration, although on the Lake
17 County side, the division very specifically
18 goes in to take all of Lady Lake and all of
19 Fruitland Park, and otherwise, no other parts
20 of Lake County.

21 In looking at map 9045, a similar
22 configuration; however, the Lake County impact
23 spreads a little further, almost up to Eustis,
24 but not including Eustis.

25 Moving on to page eight, a very lively

1 comment from a Lake County resident actually
2 regarding this configuration. The Grand Isle
3 community -- Grand Island community was split
4 by a roadway. One of the impacts of using
5 roadways, of trying to create a nice aesthetic
6 look using major roadways and so forth, is that
7 that can have the possibility of splitting an
8 unincorporated community, and so that happens,
9 and that happens in almost every map, and those
10 are some of the tough decisions that you have
11 to weigh over as far as whether using that
12 roadway is the legally appropriate measure to
13 take, or whether you want to take into
14 consideration that unincorporated community.
15 And that is the impact here, right where I am
16 mousing over, that is the Grand Island
17 community, and you can see the road goes right
18 down through the community.

19 Moving on to page nine, there were just
20 general requests to keep Marion County whole in
21 the congressional maps, reacting to, generally
22 speaking, the Fifth Congressional District as
23 is drawn in each of the congressional maps.
24 The fifth Congressional District is an
25 African-American opportunity district, an

1 existing district today. It does take in small
2 parts of the population. Most of the
3 population in Marion County is not encompassed
4 in Congressional District 5 in any of the maps,
5 but, nonetheless, parts of Marion County are.

6 Now, I'll just zoom in to give you a view
7 of exactly what is taken in Congressional
8 District 5. It is, generally speaking, the
9 municipality of Reddick that is taken into
10 account, which you can see is kept whole in
11 Congressional District 5, so that's a city is
12 kept whole in the district; otherwise, the
13 district, generally speaking, takes very
14 non-populated portions of the county.

15 Moving on to item ten, coming back to
16 Martin County, there was an e-mail received
17 just regarding the congressional districts, and
18 the individual also commented on the House
19 districts, and later Jeff Takacs will be going
20 over a number of public feedback we have
21 received regarding the discussion from earlier,
22 the House districts in Martin County, but
23 regarding the congressional district, the
24 request was simply to keep Martin County whole.
25 In all of the proposed maps, Martin County is

1 kept whole in the 18th Congressional District.

2 Moving on to item 11, there was a few
3 e-mails received regarding the 22nd
4 Congressional District, and that is the same in
5 all the maps, so I will go to that area in map
6 9045 to give you a view. The comment concerns
7 the portions of the district that were defined
8 largely just by the need to get equal
9 population, the portions of the district that
10 go into more southern central parts of Broward
11 County, the Plantation area. The design of the
12 districts, both 21 and 22, and even 20 was
13 largely predicated on municipal boundary lines,
14 and where municipalities could not be kept
15 whole, trying to avoid multiple splits of a
16 municipality. So if a municipality had to be
17 split once, trying to make sure it was only
18 perhaps split one time. And the area is also
19 largely defined by District 20, which is a
20 district that is impacted by both Sections 2
21 and Sections 5 the of the Federal Voting Rights
22 Act. So, again, the southern portion that the
23 resident is asking to be cleaned up or changed
24 is largely based on, again, equal population,
25 and then also trying to keep city splits to a

1 minimum, if not keep municipalities whole,
2 which there are several municipalities kept
3 whole in both 21 and 22 and even 20.

4 The 12th page in your packet, if you
5 remember from the subcommittee meeting regards
6 the City of Hialeah, which is split in all the
7 different maps, and during your last meeting in
8 the congressional subcommittee, we had a brief
9 presentation regarding this very issue, noting
10 that in an effort to draw the districts with a
11 more geometric type meeting point where the
12 three Hispanic majority-minority existing seats
13 meet, Districts 25, 26 and 27, as they are
14 proposed in these maps, trying to create a more
15 clear, defined meeting point, the City of
16 Hialeah is one of the few cities that is split.
17 Most cities are kept whole. It is one of the
18 few that is split, and, again, it was to try to
19 maintain existing opportunities for racial
20 language minorities, for language minorities,
21 but at the same time trying to create something
22 of a more aesthetically compact shape to the
23 districts, a meeting point that is more clearly
24 defined for the residents in the affected
25 communities. In order to look at possibly

1 keeping Hialeah whole, it would have to really
2 be a dramatic redesign of these districts, but,
3 again, that was the feedback from the City of
4 Hialeah making that request.

5 I am going to skip on to item number 14
6 and also item number 15. Both -- and Jeff will
7 cover this somewhat later, too, and that is the
8 House map. Regarding the Poinciana community
9 in -- which is split between Osceola and Polk
10 Counties, we have received feedback,
11 essentially somewhat conflicting feedback or
12 conflicting requests. Some residents of the
13 area, including one who even submitted a State
14 House map, some residents of the area request
15 that Poinciana be kept whole in the maps, and
16 some residents actually specifically request
17 that Poinciana not be kept whole in the maps.
18 And just to give you an idea, this is the
19 Osceola County/Polk County division, and as you
20 zoom in, you can probably best see this using
21 the VTDs. You see Poinciana here. Poinciana
22 is on both sides of the county line, and,
23 again, in some of the maps, it is kept whole,
24 in some of the maps, it is not kept whole, and
25 so, again, we've received a request to keep it

1 whole and a request to not keep it whole.

2 I am going to skip on to items 18 to 22,
3 which all relate to a similar issue, and that
4 is how the congressional districts in
5 Hillsborough and Polk County relate to each
6 other.

7 In this particular example in terms of map
8 9045, District 15 is predominantly a
9 Hillsborough County district with about 90,000
10 residents in Polk County. Taking a look at map
11 9043 -- and, forgive me, I should say if anyone
12 gets lost in terms of bill numbers and plan
13 numbers, everyone, in your packet, there is a
14 little cheat sheet with the plan numbers and
15 bill numbers just in case any of this gets at
16 all confusing. In map 9043, this map has the
17 greatest concentration of both counties in
18 terms of sharing the district or --
19 Hillsborough County is approximately
20 two-thirds -- a little more than two-thirds of
21 the district, whereas all of the City of
22 Lakeland and, in total, about 180,000 Polk
23 County residents are in the district. And then
24 in map -- in map 9041, the District does not
25 impact Polk County at all. And the different

1 comments received in some cases, if you are
2 looking at pages 18 and 22, some individuals
3 actually suggested that those communities of
4 Lakeland and that area should be combined with
5 parts of Hillsborough County, but the City of
6 Temple Terrace, the City of Tampa have
7 requested that District 15 be concentrated in
8 as much of Hillsborough as possible. In this
9 particular instance, District 15, minus 5,700
10 residents, is entirely in Hillsborough County.
11 Those 5,700 residents were actually used to
12 exactly balance the populations in Sarasota and
13 Manatee Counties, which are approximately 5,700
14 residents too many for a congressional seat.
15 So, in this case, District 15 and District 16
16 are basically paired up so that those counties
17 can -- and largely have a single Representative
18 who will come from their region. So, again,
19 some of the input requested something more like
20 what is in 9041, and some requested crossing
21 the county line, including the City of
22 Lakeland, that relationship between Polk and
23 Hillsborough.

24 Moving to page 23, this particular
25 individual requested -- in terms of looking at

1 District 14, requested that that district be
2 included entirely in Hillsborough County. The
3 issue that -- the difficulty in doing so is
4 that this district -- Hillsborough County is a
5 Section 5 protected jurisdiction. This
6 particular district has a population that is
7 approximately about half either
8 African-American or Hispanic, and so this
9 district likely falls under the review of the
10 pre-clearance process, and the argument would
11 be that the combined African-American/Hispanic
12 communities are able to select a candidate of
13 choice, perhaps and possibly not
14 African-American or Hispanic, but, nonetheless,
15 able to select a candidate of choice. So in
16 order to maintain that, the district needs to
17 go into Pinellas County. Taking the district
18 out of Pinellas County would almost certainly
19 put that relationship in jeopardy and would
20 probably create issues in terms of the
21 pre-clearance process for this district, but,
22 nonetheless, the constituent was nonetheless
23 asking to have the district entirely in
24 Hillsborough County.

25 Moving on to item number 26, these last

1 few items are actual maps that were submitted
2 by members of the public in response to either
3 proposals by the House or proposals by the
4 Florida Senate. Item number 26 that is in your
5 packet is a map submitted by the redistricting
6 of Florida class at Florida Gulf Coast
7 University. It is an interesting map in that
8 it paints two extremes. The map generally
9 creates very compact shapes in terms of
10 districts; however, it has a high degree of
11 likelihood that it would have eliminated all
12 three African-American and two of the three
13 Hispanic seats in the state of Florida,
14 existing districts today. So the map would
15 create some serious litigation concerns, but,
16 nonetheless, it is an articulation of a very
17 compact design and it paints those two
18 extremes.

19 Moving on to page 27, I won't spend much
20 time on this map. The individual submitted a
21 map in response to the House's; however, the
22 population numbers were not drawn to the
23 mathematical quality, so most of what the map
24 does would have to be adjusted before it could
25 be utilized.

1 Maps 165, 166 and 167 were all submitted
2 by a Hillsborough County resident who went sort
3 of through an evolution of amending some of the
4 House proposals. This individual was very much
5 looking at what is now 9043. Initially in --
6 on page 28 of your packet, plan 165, the
7 individual makes a change to the Sarasota,
8 Manatee and Hillsborough County -- or Counties
9 area such that the municipality of North Port
10 in Sarasota County is put in with a district
11 that includes all of Charlotte County. So
12 Sarasota County becomes split, but then what
13 the individual does is keep Manatee whole and
14 pushes that district, District 16, into
15 Hillsborough County. In terms of looking at
16 the different variables of compactness and
17 other measurements, this is basically an even
18 trade-off in terms of how the House maps
19 currently -- or the House's proposals currently
20 makes the districts more compact and so forth.
21 This is basically a trade-off. It doesn't
22 affect the overall totals in terms of county
23 splits or city splits, so this is probably a
24 great example of just what a policy decision
25 would be in terms of a public suggestion.

1 Maps 166 and 167 carry the issue further.
2 What this individual was doing was coming back
3 to the Poinciana community and was looking at
4 how to keep the Poinciana community whole in a
5 district. In map 166, the individual keeps
6 Poinciana whole, the District 17 that is
7 largely coming from the rural, whole counties
8 to the south of it, and in map 167, the
9 individual takes an Osceola County-based
10 district and grabs the bulk of the Poinciana
11 community. The noted effect though of doing
12 that is it did noticeably make the maps less
13 compact compared to the House's proposals.

14 Map 168 was actually submitted by a -- I
15 believe Sarasota County resident in response to
16 actually one of the Senate's proposed maps.
17 The individual in this case looked at the
18 districts in Broward and Palm Beach County, and
19 just to give you an example of how that might
20 relate to the House's proposed maps, which are
21 identical in that part of the state, this
22 individual essentially took Districts 21 and 22
23 for all intents and purposes, and instead of
24 running the districts north to south, ran the
25 districts east to west, but still with a focus

1 on trying to keep cities whole and so forth.
2 It is a different look to the map, and it does
3 potentially, depending on how the districts are
4 drawn, create an opportunity to possibly make
5 the districts more compact. It is something
6 that we are taking a look at as to whether or
7 not this kind of configuration could be
8 utilized to help any of the maps. Not sure
9 where that will end up, but we are taking a
10 look at it.

11 In terms of maps 172, 173 and 174, which
12 are pages 32 through 34 in your packet, 172 is
13 really just an earlier version of 174, so you
14 can probably disregard that and look at 173 and
15 174.

16 173, this individual was reacting to one
17 of the House's proposals, and in this
18 particular case was actually looking at some of
19 the districts in the same area, District 22,
20 was also looking at the districts along the
21 Treasure Coast, Brevard County and so forth.
22 The end result, generally speaking, was that
23 the individual created noticeably less compact
24 districts in terms of creating more coastal
25 districts, as opposed to using whole counties,

1 which actually had the effect of keeping the
2 districts more compact as well. So the
3 individual went more for a coastal district
4 design, and it actually made the compactness
5 scores less compact.

6 174 is a similar -- similar situation, and
7 the individual did the same thing on both
8 coasts, making the districts more coastal, for
9 instance, in the Sarasota and Manatee County
10 areas, using the highway as opposed to keeping
11 the counties whole, but, again, it had the net
12 result of making the districts somewhat less
13 compact.

14 And with that, members, there's some
15 information that -- public input that the
16 Committee, we received last evening as we were
17 getting ready for the meeting, so your packets
18 were already printed. There is an additional
19 -- some additional public input in your packets
20 that both Jeff and I in our presentations will
21 be speaking to, some last-minute input.

22 Lori Edwards, the Supervisor of Elections
23 in Polk County, again referring to this
24 particular packet, the Supervisor of Elections
25 of Polk County did submit to us for

1 consideration to take a look at some
2 communities that maybe could be better kept
3 whole in Polk County. Oftentimes the
4 Supervisors of Elections are concerned with
5 voter islands, that being where a voter, when
6 they draw the -- let's say the county
7 commission district or the school board
8 districts, and then you draw the state
9 legislative and congressional districts, you
10 have possibility of having sometimes one person
11 or two people who have a ballot unto themselves
12 that is completely unique. The net result of
13 that is that that voter's vote could be
14 revealed in terms of elections data when
15 somebody looks for somebody that fits that
16 exact profile. So we try to avoid that as much
17 as possible, and anytime the supervisor has any
18 consideration, which we take a look at it very
19 seriously to try to help avoid those voter
20 islands. So Ms. Edwards just submitted this to
21 us. We really haven't gotten to look at it
22 much more than just getting it last night,
23 preparing for today, but we are planning to
24 take a look at this.

25 Skipping on just a few pages to the fourth

1 page in this addendum, the Mayor of Tampa also
2 sent an e-mail recently, coming back to the
3 discussion of how Hillsborough and Polk County
4 line up together with their congressional
5 districts, the Mayor of Tampa sent an e-mail in
6 support of map 9041, again asking for that seat
7 that is mostly in Hillsborough County.

8 And relating also -- this will come up in
9 Jeff's presentation. The next page comes from
10 a current council member in the municipality of
11 Oldsmar in Pinellas County. This particular
12 individual asked that the House look at the
13 Florida Senate's version of Congressional
14 District 9, which stretches from northern
15 Hillsborough through northern Pinellas. This
16 particular individual made the case that
17 Oldsmar and that part of the county had a
18 relationship with northern -- northwestern
19 Hillsborough County, and they asked that it be
20 looked at. The reason why I mentioned the --
21 how that relates to Jeff's proposal is we've
22 actually received a resolution from the City of
23 Oldsmar that Jeff will get into that actually
24 requests very much the opposite. So it was an
25 interesting request, but, nonetheless, this

1 particular council member asked that
2 northwe- -- or northeastern or northern
3 Pinellas County be lined up with northwestern
4 Hillsborough County. And with that, I am going
5 to turn it over to Jeff, unless you have any
6 questions.

7 REPRESENTATIVE WEATHERFORD: Thank you,
8 Alex. Members, any questions for Alex before
9 we move forward to the House? Okay, great,
10 thanks.

11 Mr. Takacs, you are recognized.

12 MR. TAKACS: Thank you very much,
13 Mr. Chairman.

14 Before I get started going through the
15 House map public input that we've received, as
16 Mr. Kelly mentioned, don't forget that cheat
17 sheet that is in your packet that refers to the
18 bill number as it relates to the plan number as
19 well. I will probably generally be referring
20 to the plan number, so use that cheat sheet to
21 understand which bill that plan number lines up
22 with.

23 Going back to the main packet of public
24 input that we've received, if you look to page
25 36, we received some feedback from the Escambia

1 County Supervisors of Elections to try to avoid
2 those voter islands that Mr. Kelly described
3 just a moment ago within their county. This
4 was prior to the adoption of the amendment that
5 the House subcommittee had on each of the
6 proposals, and we believe that some of those
7 voter islands have been addressed by that
8 amendment, but we're not sure if they all have.
9 So what we have actually done is sent the
10 amended proposals to the supervisor's office,
11 asking that they review those and see if those
12 voter islands are still there or if there are
13 new ones, et cetera, and we are awaiting
14 further feedback from them. So that is page
15 36. And you will see on 37 and 38, that they
16 are pointing out the actual voter islands
17 between the districts.

18 Moving on here to -- to the next page,
19 page 40 here, let me -- to the best of my
20 ability, I am going to try to move around the
21 map to show some of the different aspects of
22 the public feedback that we have received and
23 so you can actually get a look at what the
24 proposal is. This is currently map number
25 9027. The thing about page 40, we received

1 some testimony from the folks in Navarre and
2 Navarre Beach and this area here where you see
3 where my mouse is, in Santa Rosa County, asking
4 that the folks of Navarre and Navarre Beach be
5 united together. Under the prior proposal by
6 the House subcommittee before the amendment,
7 that District 2 extended all the way to that
8 bottom section there, that little square type
9 section in Santa Rosa County. As you can see
10 in this amended version of 9027, that is no
11 longer, and now District 3 comes down to the
12 county line. That was in response to this
13 request. We were actually able to accomplish
14 what the folks in Navarre and Navarre Beach
15 were seeking in the amendment.

16 Moving on to page 41, this is actually
17 regarding District 4 and how it comes up into
18 the City of Crestview there just north of I-10.
19 Previously, prior to the amendment, the
20 district had just the city boundaries of the
21 City of Crestview within it, and we received
22 testimony asking if there was a better way to
23 use roadways and other areas right around
24 Crestview to make sure that neighborhoods that
25 are just outside of the city limits who really

1 consider themselves a part of Crestview be
2 included in that district, and as you can see
3 here, that was also accomplished by the
4 amendment by the subcommittee.

5 I am going to move ahead to page 43. This
6 came to us by a resident in Bay County asking
7 that -- there is a district wholly based in Bay
8 County there, District 6, and they asked that
9 the Panama City airport be included within that
10 district. As you can see -- I will zoom in
11 here just a little bit. Again, this was
12 something that we received prior to -- prior to
13 the -- to the amendment being adopted, and
14 there was a change made to include a major
15 portion of the airport wholly within District
16 6. So that was accomplished in response to the
17 public testimony that we received via that
18 e-mail.

19 Moving forward to page 45, 44 is a
20 previous communication that we received from
21 the Leon County Supervisors of Elections
22 office, the page 45 is actually an updated
23 response to the actual amendments that were
24 adopted by the -- by the House subcommittee.
25 They have asked that some specific areas that

1 relate to the boundary between Districts 8 and
2 9 be addressed to try to line up, similar to
3 the voter island concept, but just trying to
4 line up the districts to the county commission
5 districts or to precinct lines, and we are
6 currently reviewing those requests. You can
7 see the actual specific areas on pages 46, 47,
8 48 and 49. Just something to consider as we
9 would be reviewing those potential changes,
10 House District 8 is currently a
11 majority-minority black district, and so what
12 we would need to ensure is that those changes
13 did not bring the black voting age population
14 of that district below 50 percent. So that
15 would be something that would need to be
16 considered when looking at those changes.

17 I am going to zoom out here a little bit.
18 We've gotten a couple of phone calls from a
19 Taylor County resident who has left us some
20 voice mails regarding the rural counties in the
21 Big Bend area. Basically what this gentleman
22 is saying is that he would prefer that the
23 smaller rural counties in their region not be
24 tied to Leon County, if at all possible. As
25 you can see -- again, this is plan 9027. If

1 you look at that District 7, which has many
2 whole counties within it, Lafayette, Taylor
3 County here, Jefferson County, and so forth,
4 there is a portion of that district, as you can
5 see, in Leon County, which was simply done for
6 population equalization. So this would be the
7 actual plan that is closest to his request. He
8 did also on the voice mail ask that Taylor,
9 Madison and Lafayette Counties all be kept
10 whole and together within a district, and you
11 can see those three counties are here and that
12 is accomplished by the House plans.

13 Interestingly enough, I am going to zoom
14 in here on the Gadsden County/Leon County area.
15 We've received somewhat of opposite feedback
16 from some residents in northeastern Gadsden
17 County asking that they actually be linked with
18 Leon County and with northern Leon County.
19 There was some public testimony that we
20 received in the Tallahassee public hearing, if
21 you recall from the reports that we conducted
22 as a committee on the public input, it was NW-3
23 that outlined a specific attempt at a map that
24 Mr. Doug Croley submitted showing what he was
25 talking about as far as connecting northeastern

1 Gadsden County to northern Leon County. This
2 on page 51 is simply saying that they support
3 that concept that Mr. Croley brought forward.
4 Just as a consequence as you consider that,
5 that would be an additional county split
6 between Districts 8 and 9 if that were to be
7 addressed.

8 Moving on to page 52, this is a partial
9 submitted map that we received from Mr. Roy
10 Lyons. It specifically addresses -- I don't
11 have that map here on the screen, but I'll just
12 kind of go to that general area of the state so
13 you can look at it. It addresses the kind of
14 northeastern area of the state, excluding Duval
15 County. And what he proposes is a district
16 that would keep Baker, Union, Bradford Counties
17 whole, and then have portions of Columbia --
18 excuse me, it would have Nassau County whole as
19 well, and then portions of Clay County. When
20 you look at the map on the -- on the page
21 there, on page 52, some things jump out at me
22 when I first reviewed this map, the first of
23 which is that Columbia County would be split.
24 You can see there's a little bit of a
25 carve-out, kind of an odd-shaped carve-out on

1 the map there by Mr. Lyons, which would lead to
2 a county split for Columbia County. Also, too,
3 it would also -- thinking about -- and I will
4 get into this a little bit further when I
5 actually go into the workshop of the various
6 House proposals, but when you look at the
7 populations of Nassau and Duval Counties
8 combined, they equal roughly that of six House
9 districts. So if you were to take Nassau
10 County as Mr. Lyons has and placed it with
11 other counties that are not Duval County, it
12 would be a step away from that -- from that
13 concept. Also, he splits the City of Lake
14 City. And then also, too, looking at that
15 District 3 there on page 52, the population
16 deviation for that district would be minus
17 4,007, which would actually be a new low water
18 mark for population deviation on the plan,
19 which would affect the overall population
20 deviation for all of the House proposals. So
21 some things to consider in regards to that map.

22 Moving forward, we're going to kind of
23 zoom in here to the Duval County area on page
24 53. We received some comments from some
25 residents regarding the boundaries of Districts

1 15 and 16. As you can see here, District 15 --
2 let me see if I can show it a little bit here.
3 If you see where my mouse is there, that is
4 actually the St. Johns River, and you will see
5 that District 15 crosses over the river to grab
6 some population. We have received some
7 testimony similar to the one on page 53 that
8 suggests that the actual river be used as the
9 dividing line between the two districts. So
10 that is something that we are currently
11 reviewing as we move forward in this process.

12 Moving on to page 54, I will just kind of
13 zoom out here a little bit, we've received some
14 testimony from the residents of the beach
15 communities in Jacksonville Beach, Atlantic
16 Beach and Neptune Beach, which is in this
17 general area here. I will zoom in here just a
18 little bit further so you can see where those
19 areas are. We've received testimony from these
20 folks asking that the district to the south,
21 which is this pink district here, which is
22 wholly located in St. Johns County, come up and
23 grab these beach communities, and there's
24 specific reason for that as they talk about the
25 concept of District 11 and how it connects to

1 Nassau County. For those folks in this region
2 here, or in these three beach communities, for
3 them to travel north into Nassau County where
4 the other portion of this district is, they
5 contend that this is actually a non-contiguous
6 district because there is no way to get from
7 point A to point B. There was at one time a
8 ferry that connected the two areas of land
9 together, but it is my understanding that ferry
10 has been shut down or is in the process of
11 being shut down, so those folks are contending
12 that that is a non-contiguous district and just
13 talking about the general transportation issues
14 that would come from District 11 as it is
15 currently drawn. Thinking about connecting
16 those communities to the district to the south,
17 again, that would create an extra county split
18 and would also be a step away from that concept
19 that I talked about earlier of Nassau and Duval
20 Counties being six districts wholly contained
21 within the two counties.

22 But what I would like to do, Mr. Chairman,
23 thinking about this issue of contiguity, with
24 your indulgence, I would like to bring up Mr.
25 George Meros to talk about contiguity and how

1 that would work with this specific example.

2 REPRESENTATIVE WEATHERFORD: Mr. Meros,
3 you are recognized.

4 MR. MEROS: Thank you, Mr. Chairman. I
5 have looked at that issue, and we have done the
6 research on the requirements of contiguity, and
7 that district would comply with the contiguity
8 requirement. The contiguity requirement does
9 not require a specific roadway availability
10 from one point to another; in fact, waterways
11 can be crossed for contiguity purposes. So
12 there is no legal problem with that map based
13 on contiguity.

14 REPRESENTATIVE WEATHERFORD: Thank you.
15 Mr. Takacs.

16 MR. TAKACS: Thank you, Mr. Chairman.

17 I am going to move ahead to page 57. We
18 received some input from the Clay County
19 Supervisor of Elections office as it relates to
20 the districts in their region. They have made
21 two requests, the first of which is there's one
22 census block that is used as the boundary --
23 that is a part of the boundary, I should say,
24 between Districts 18 and 19. They just ask
25 that that one census block be swapped between

1 the two districts so that the district
2 boundaries line up with the boundaries of Camp
3 Blanding, which is a Florida National Guard
4 base in the region. We have reviewed that
5 request. That particular census block is
6 essentially a roadway and doesn't affect
7 population, so we are going to continue to
8 review that request.

9 The second piece of that request talks
10 about the actual plan that is on your screen
11 here, which is 9031, and how these districts
12 relate for Clay County, specifically Districts
13 15 and 18. But basically they basically gave
14 their comments saying they do not like this
15 option of the three options, because of the way
16 the districts traverse the various
17 neighborhoods within northeast Clay County. So
18 that was their input for that.

19 Moving on to page 59, Mr. Kelly already
20 talked about the community of Poinciana. We
21 have also received some comments regarding the
22 House maps as far as how Poinciana is
23 addressed, and I will kind of zoom in here a
24 little bit so you can see it. Again, thinking
25 about the community of Poinciana, it does cross

1 the county lines there. As you can see in this
2 House proposal, the District 43 there stops at
3 the county line, which would essentially split
4 the community of Poinciana between the
5 districts. Mr. Laytham expressed his
6 displeasure for that current configuration, and
7 to his credit, he did offer some maps in
8 suggestion of how to change that. If you look
9 at page 60, which is map 164, you can see how
10 he works to address that, and a couple of
11 things that jump out there, his District 42
12 takes areas of the district that's in Polk
13 County to presumably include all of Poinciana.
14 The one challenge with this is that the
15 District 43 in his map is an attempt to be a
16 majority-minority Hispanic district, but,
17 unfortunately, the Hispanic voting age
18 population of that district dips below
19 50 percent. It is a 49.15 percent. So that
20 would be a consideration there. His second
21 attempt at 163, map 163, actually puts District
22 43 to have all of the community of Poinciana.
23 One of the challenges that would be presented
24 with this map is it does create an extra county
25 split, and also, by trying to equalize the

1 population, he did end up also splitting the
2 City of Kissimmee between two districts, which
3 is currently kept whole in District 43 on the
4 House proposals.

5 Next, if you look at page 62, we are going
6 to talk about the east Orange County and east
7 Orlando region as it relates to District 50.
8 Essentially what this person has requested is
9 that the western portion of east Orlando be
10 separated from a district that would run up to
11 Interstate 95, which is what District 50 does.
12 So essentially, to put it in a different way,
13 they believe District 50 comes too far to the
14 west.

15 When you think of Orange County, and I
16 will talk about this a little bit more when
17 I've actually workshopped the various plans,
18 municipal boundary lines were heavily used in
19 the crafting of the districts in this region,
20 and thinking about where District 50 is, there
21 are no incorporated communities, no
22 incorporated cities within that area. So in
23 the other various districts in the Orange
24 County region, municipality lines were heavily
25 used there.

1 Also, too, I should mention, when you look
2 at Brevard County -- I am going to zoom out
3 just a little bit, and this was consistent with
4 the public testimony that we received from the
5 residents of Brevard County. They were seeking
6 three House districts that were wholly within
7 their county that would separate the northern,
8 central and southern portions of the county,
9 and you can see that on this proposal,
10 Districts 51 through 53 achieve that. Brevard
11 County's population is too large there. You
12 can see there is a portion of District 50 that
13 is in Brevard County, and that is because their
14 population is too large for four districts, so
15 that is where that extra district was built.
16 Thinking about how the lines were drawn in
17 Brevard County, when you start building to the
18 south and go north, that is what happens with
19 that extra area of population in northwestern
20 Brevard County.

21 I am going to move south here just a
22 little bit to Indian River County on page 63.
23 We received some testimony from some folks
24 seeking that Indian River County be split
25 between two different districts. It was also

1 suggested that Indian River County be linked in
2 a district with Brevard County as opposed to
3 Indian River County. Members, as you remember
4 from the summer tour and the places where we
5 have gone specifically in this Treasure Coast
6 area, we received a lot of testimony throughout
7 the state from folks in various counties asking
8 that their counties be kept whole, and that is
9 a principle that we have kept as much as
10 humanly possible on these proposals. So that
11 was what happened here. Obviously Indian River
12 County is kept whole within this district, and
13 for extra population, it goes into St. Lucie
14 County.

15 That also kind of dovetails with the
16 comments I just made about Brevard County.
17 Brevard County, that southern district there,
18 that county line is kept intact because of the
19 comments we received from the residents of
20 Brevard County asking that they have three
21 whole districts within the county, a northern,
22 central and southern district within the
23 county.

24 Next I am going to move south here to
25 Martin County. We have received quite a bit of

1 testimony from the residents of Martin County,
2 and they have said some various things.
3 Obviously we have had the Chairman of the
4 county commissioner here today to present the
5 view of keeping the unincorporated area of Palm
6 City whole, as well as keeping the City of
7 Stuart whole in the same district. We have
8 also received testimony from residents of
9 Martin County asking that Palm City be kept
10 whole, we have received testimony from the
11 residents of Martin County asking that Stuart
12 be kept whole, but not linking the two together
13 in the same district. They never -- they
14 didn't take that next step. They simply said,
15 "Please make Palm City whole," "Please make
16 Stuart whole." As it was discussed earlier,
17 the municipal boundaries of Stuart are kept
18 whole within District 83, as you can see here.
19 So, again, kind of some differing opinions from
20 the residents of Martin County.

21 Taking a step further from that, we have
22 also received testimony from the folks in
23 Martin County asking that a district in Martin
24 County not be connected with either St. Lucie
25 County or Palm Beach County, which would --

1 thinking about the population of all of the
2 surrounding counties, would only leave you one
3 option, which would be to connect Martin County
4 with Okeechobee County to the west.

5 And I will zoom in here a little bit.
6 Lastly, thinking about the various testimony
7 that we've received from the residents of
8 Martin County, we have also been asked to have
9 the St. Lucie River here used as the dividing
10 line between a northern Martin County district
11 and a southern Martin County district. And
12 what specifically is interesting about that
13 type of a request is that you see here where my
14 mouse is, this is the city boundaries of the
15 City of Stuart. If you were to use the river
16 as the boundary line, you would cut the City of
17 Stuart in half. So we have -- thinking about
18 the previous comments we have received, it
19 would be in conflict with other testimony we
20 received from residents seeking to seek all of
21 Stuart be kept whole within a district.

22 I am going to skip ahead. All of that
23 various testimony from the residents of Martin
24 County is in your packet, and let me get to the
25 ending page so you know where that goes from.

1 It goes to page 76.

2 Moving on to page 77 in the packet, this
3 deals with the City of Pembroke Pines and a
4 specific neighborhood within that community
5 called Pembroke Falls. It is currently divided
6 between two House districts, District 99 and
7 104. I will get to that area. And this
8 testimony asks that -- that that neighborhood
9 be kept whole within the district, preferably
10 104 as it mentions in the testimony. And that
11 is something that we are currently reviewing.

12 Moving back over to kind of the western
13 area of the state here up to Pinellas County,
14 as Mr. Kelly mentioned, we received a
15 resolution from the City of Oldsmar as it
16 relates to, specifically in this proposal,
17 House District 64. You will see here that -- I
18 will zoom out here just a little bit. As you
19 look at House District 64 there, you will see
20 that it has a portion in northwestern
21 Hillsborough County and then comes into
22 Pinellas County for population, and you will
23 see as it takes that dip to the south, it
24 actually has all of the cities of Oldsmar and
25 Safety Harbor within its boundaries. Both of

1 those cities are kept whole within that
2 district. Again, thinking about the testimony
3 that we received on the congressional maps,
4 what the testimony from the resolution was was
5 that the people of Oldsmar, the City Council of
6 Oldsmar has asked that they not be linked with
7 a district that connects to Hillsborough
8 County, again, thinking about the testimony
9 that we receive on the congressional map, that
10 it would be in conflict and that we have
11 received testimony asking that those two
12 communities be linked within a congressional
13 district, so we're trying to sort through that.

14 When you kind of zoom out and look at the
15 populations of Pinellas and Hillsborough
16 Counties, specifically Pinellas, you will see
17 that -- and, again, I am going to go more into
18 detail about the proposals later, but you will
19 see that there are five districts wholly within
20 the county, and for population purposes, two
21 counties -- two districts actually cross the
22 county lines, 64, again, is the focus of the
23 residents of Oldsmar. When you look at the
24 populations of Hillsborough and Pinellas
25 Counties in those northern -- in that northern

1 region specifically, there would have to be a
2 district that crosses the county boundary line.
3 For the city boundaries of Oldsmar and Safety
4 Harbor, they are right there on the county
5 line. So it just -- as -- from a map-drawing
6 principle, it just made sense as we -- if we
7 had to cross that county boundary line, to
8 include entire municipalities, thinking about
9 the standards that are in Amendment 5.

10 I am going to kind of sneak back down
11 south here. If you look to page 80, we have
12 received some testimony from some residents in
13 Charlotte County, as well as the Enterprise
14 Charlotte Economic Council, seeking that
15 Charlotte County be split between two
16 districts. Here you can see that on this
17 proposal, that Charlotte County is kept whole
18 and all together within a House district, kind
19 of similar to the Indian River example a moment
20 ago. As we traveled the state, we heard from
21 residents in basically every community asking
22 that their county be kept whole if at all
23 possible in this process, and that is able to
24 be achieved here mathematically for the
25 residents of Charlotte County.

1 And I continue to move south here to Lee
2 County. There are some testimony that we
3 received from a number of different residents
4 within Lee County, and the first is regarding
5 the unincorporated area of Estero. If you will
6 bear with me here, I will try to zoom in on the
7 map to find that general area. If you look in
8 this general area here where my mouse is, I am
9 kind of going around the basic parameters of
10 what Estero is. Currently, that unincorporated
11 area is divided between two House districts,
12 and we have received a significant number of
13 communications and e-mails from the residents
14 there asking to be kept whole within a
15 district, and specifically to be kept whole
16 within District 76, which is the yellow
17 district there.

18 Thinking about that from the map-drawing
19 perspective, we believe as we are reviewing
20 this that with a few minor adjustments to the
21 populations within the districts, that this
22 could be accomplished, but, again, we are still
23 reviewing that -- those requests that have come
24 in to us.

25 Moving forward to page 84, this deals

1 with -- on the area of Pine Island within Lee
2 County and how it relates to the Cape Coral
3 area. This specific testimony asks that Pine
4 Island not be included in a district that has
5 the City of Cape Coral in it, but would rather
6 be in this district here, the yellow district.
7 You can see Pine Island here. This was
8 something -- these comments were basically
9 tailored to map 9021, which was actually a map
10 that was not moved forward to the redistricting
11 committee by the House subcommittee. So all
12 three of the proposals have Pine Island in that
13 District 76, the yellow district there.

14 The next is dealing with the community of
15 Matlacha in Lee County. Let me see if I can
16 find that. Here we go. If you kind of zoom in
17 here, you can see the Matlacha community here
18 right next to Little Pine Island. The
19 boundaries of that community actually start in
20 this region here and cross the waterway and
21 come into this region here. The residents of
22 Matlacha have asked that they be kept whole
23 within a district and within that District 76
24 there to the west. Obviously, the biggest
25 consideration when contemplating that move is

1 that right now, as you can see, the waterway is
2 used as the boundary way between the two
3 districts. So you have to cross that
4 geographic boundary line in order to bring in
5 all of the community of Matlacha within
6 District 76.

7 Members, I am now going to go to that
8 additional public input packet that is in your
9 packet as well. If you go towards the back of
10 that packet, there are three specific things
11 that we have received basically yesterday that
12 we wanted to share with you.

13 The first was from Lori Edwards, who is
14 the Supervisor of Elections of Polk County.
15 She specifically talked about the communities
16 of Solivita and Winetta. Currently they are
17 both split within the county, and she has
18 requested that if we took a little bit closer
19 look at VTDs, that we could keep those
20 communities whole. Again, obviously, we just
21 received that commentary yesterday, so we are
22 currently reviewing that to see if that is
23 feasible. And if you look at that next page,
24 she does outline on the map where those areas
25 are. Also to -- forgive me, I actually skipped

1 one.

2 Prior to Ms. Edwards' request, we did
3 receive some commentary from a resident in Clay
4 County recommending maps 9025 and 9027. Those
5 maps -- and I will show you here on this
6 proposal. This actual -- actually, let me show
7 you those proposals. The request from the
8 resident there, and this actually echos the
9 comments that were made in the Jacksonville
10 public hearing that we heard, was that the
11 residents of Clay County wanted a district
12 wholly contained within the county. And you
13 can see here, if you look at District 18, that
14 district is wholly within Clay County, and that
15 is why this resident has voiced their support
16 for the two plans that do that.

17 And lastly, members, thinking about public
18 input that we've received, we actually received
19 a partially-submitted map yesterday from Graham
20 Stacy. It is map number 175. It is the last
21 page here of the additional input packet. It
22 is actually a full map, but he only changes
23 four districts, and it is in the east
24 Hillsborough County area, and I will show you
25 the current proposal for that region. What

1 Mr. Stacy was seeking to do was to keep some of
2 the unincorporated communities, thinking about
3 Fishhawk and Bloomingdale in this region right
4 here, together and not be split between
5 districts. When you look at the map that is on
6 your packet here, you will see, if you kind of
7 compare it to the proposed map, it appears that
8 Mr. Stacy kind of sacrifices compactness in
9 Districts 63, 58 and 57 to achieve this goal of
10 keeping some of those unincorporated areas
11 whole.

12 Mr. Chairman, that concludes the House
13 public input.

14 REPRESENTATIVE WEATHERFORD: Great. Any
15 questions for Mr. Takacs from the members?

16 Seeing none, we are going to move forward
17 to the Senate, and we've got Mr. Jason Poreda.
18 Mr. Poreda, you are recognized.

19 MR. POREDA: Thank you, Chairman. As we
20 kind of get the computer set up here for a
21 minute, I will just say we have received
22 considerably less public input regarding --
23 specifically regarding the State Senate map, so
24 we will kind of go a little bit in reverse
25 order that the other two maps would -- talking

1 about the written submissions first and then
2 talking about the maps.

3 We have received two full maps that are in
4 your packets here today, one by Patricia
5 Sullivan and another one by Bruce King. First
6 looking at Patricia Sullivan's map, she kind of
7 redrew the kind of the central part of the
8 state. That is page 87 in your books. She
9 kind of took District 20 and kind of centered
10 that around The Villages and north Lake County
11 communities and kind of drew a district there,
12 and then kind of redrawing the district kind of
13 surrounding that area as a result of drawing
14 that district. As you can see, District 14 and
15 District 9 as a result of those changes really
16 kind of have a long, irregular shape. It --
17 she also impacts very slightly District 1,
18 which is a district that traditionally elects a
19 minority candidate of choice. She also splits
20 Hernando County, which is kept whole on the
21 Senate map, and makes some additional county
22 splits as well. So there's some things to
23 consider in her map there.

24 Then on Bruce King's map, he made some
25 very minor tweaks to the map regarding city

1 splits, also kind of reorganized Lake County a
2 little bit and then has a different orientation
3 for the Panhandle districts. But that is the
4 two maps that we have received in entirety for
5 public submissions for the State Senate.

6 Now, kind of moving to some of the written
7 testimony that we have received regarding State
8 Senate map, first we will look at -- we
9 received some input from the residents of Pasco
10 County, as you can see here, just requesting
11 that the Pasco County -- Pasco County be
12 divided in a different way than it currently
13 is. That would obviously have an impact to the
14 districts that it is included in and possibly
15 the surrounding area.

16 Next, as we've heard from the other two
17 maps as well, requesting that The Villages be
18 kept whole. And as you can see here on this
19 map, on the Senate proposed map, The Villages
20 are kept whole. So that goal is accomplished
21 on this map as well.

22 And that is all the public input that you
23 have in your packet. There's a couple other
24 more general suggestions that we have received
25 that don't necessarily apply to one specific

1 map, but they are some good examples to show
2 here in the State Senate map, the first
3 regarding Putnam County, requesting that either
4 Putnam County be kept whole or splitting it
5 using the St. Johns River that you can kind of
6 see goes right by the City of Palatka and kind
7 of down that way. The difficulty with that, on
8 the current proposal, most of Putnam County is
9 kept entirely within District 20, as you can
10 see, but because of District 1, which is a
11 district that traditionally elects a minority
12 candidate of choice, that has the City of
13 Palatka and part of -- part of Putnam County,
14 it would be difficult to make those changes
15 there.

16 Then moving down to Polk County, we have
17 additionally received input about the Poinciana
18 communities that we have talked about in the
19 other maps, but more specifically, we have
20 received input about the City of Davenport,
21 requesting it be kept whole, and in the
22 district that is mostly in Polk County. And I
23 will turn on the city boundaries here so we can
24 see the City of Davenport. You can see right
25 there that it is currently split between two

1 districts, but this is actually an example of
2 something that -- that the Senate
3 Reapportionment Committee actually addressed in
4 the next version of this map, keeping that city
5 whole and in a district that is mostly within
6 Polk County.

7 The last piece of input that I will talk
8 about today is about the Hendry County. We've
9 received input from residents in that county,
10 and I will scroll the map down, requesting that
11 Hendry County right there, as you can see
12 highlighted, be kept whole and not be linked
13 with Palm Beach, Broward or Miami-Dade County,
14 just try to be kept with more rural
15 communities. As you can see, Hendry County is
16 kept whole; however, Hendry County is another
17 one of the Section 5 protected counties here in
18 the state and is currently linked with a
19 district that elects a minority candidate of
20 choice, so we have to take that into
21 consideration with Hendry County, kind of
22 limits what we can -- what is able to do with
23 that.

24 And, Chairman, that concludes the input
25 for the Senate.

1 REPRESENTATIVE WEATHERFORD: Great. Thank
2 you very much. Members, any questions?

3 Okay. Seeing none, members, we are now
4 going to move into the actual discussion in
5 greater detail the options that are on the
6 table, keeping in the order that we went before
7 with Congress, State House and State Senate.
8 As we go through the options, members, I
9 welcome your thoughts as to how you think we
10 should go through the process of narrowing down
11 the choices for State House and State -- and
12 congressional maps and Senate maps. So this is
13 your opportunity, after we do the quick brief
14 overview of the differences between the maps,
15 we would welcome conversation about any maps
16 that you are preferable to.

17 It would be my hope and goal, frankly,
18 that by the end of today, we could be in a
19 position where we would have some type of
20 preference as to a map that we would like to
21 move forward with for House, Senate and
22 congressional. That way, as members are trying
23 to file amendments and prepare for next week's
24 committee meeting, we are all kind of on the
25 same page.

1 So that being said, we are going to start
2 off with Mr. Kelly, I believe, who is going to
3 start off talking to us again about the
4 congressional map and the differences between
5 the three maps.

6 MR. KELLY: Thank you, Mr. Chair, and
7 thank you, members. I am just going to get the
8 maps lined up for your viewing.

9 REPRESENTATIVE WEATHERFORD: Mr. Kelly, I
10 may have gone out of order. Would you -- would
11 you like me to represent -- recognize the
12 Chairman of the committee first?

13 MR. KELLY: I would always defer to the
14 Chairman --

15 REPRESENTATIVE WEATHERFORD: Yes. First
16 of all, let me commend the Chairman of the
17 subcommittee, Representative Legg, who did a
18 great job in shepherding the three maps to us.
19 Representative Legg, you are recognized to
20 summarize in your opinion what you sent to the
21 full committee.

22 REPRESENTATIVE LEGG: Well, thank you,
23 Mr. Chairman, and you are way too kind with
24 your words, and Mr. Kelly does a much better
25 job than I could ever do, and you are giving me

1 too much credit to say that I shepherded.
2 Chair Holder and Vice-Chair Horner, they really
3 did all the heavy work. I just sat around and
4 watched them, so -- but with that,
5 Mr. Chairman, I just want to maybe get some
6 high level overviews for the members of the
7 full Committee so they kind of know what we
8 looked at and some of the rationale in terms of
9 a high-level view.

10 As you know, we had seven options to look
11 at in our subcommittee. I think that all seven
12 were a major improvement over the current
13 Florida congressional maps. I would have been
14 happy to present any of these -- any of the
15 seven maps to the full floor, because we -- I
16 do believe that all seven of them were lawful
17 and compliant with the new constitutional
18 amendments.

19 Our subcommittee had an interesting
20 discussion in our last meeting. We -- when we
21 narrowed the option down to our three top
22 choices, the subcommittee opted to use the
23 standards that are in the law, compare the maps
24 and pick the three choices that appear to best
25 balance the standards that are in the

1 Constitution and federal law. I thought it was
2 approp- -- that the appropriate recommendations
3 from the members of the subcommittee, a
4 recommendation, which basically was to let the
5 standards in the law guide us, and I supported
6 that recommendation. As a result, I think what
7 you have in front of you is three excellent
8 options for you to choose.

9 Just to speak briefly about the
10 differences and the similarity between those
11 maps, in all three, District 1 and 2 and 18 to
12 27 are identical. The differences occur
13 from -- basically from the north Florida
14 counties that are east of the Panhandle through
15 the central Florida and into the rural
16 communities of south Florida. Map 9041
17 stresses compactness slightly more so than the
18 other standards. As a result, map 9041
19 sacrifices some county and city splits. Map
20 9043 really performs the balancing act of all
21 three options, keeping more than 90 percent of
22 Florida municipalities whole. That in itself
23 is not some kind of legal threshold, but it is
24 still a nice milestone to achieve. Map 9045 is
25 in large part a similar map to 9041, except

1 that its attempt to keep some of the counties
2 whole that 94 -- 9041 splits.

3 So when you look at these maps, you will
4 see some trade-offs, and quite possibly you
5 might even see some pieces of the maps that can
6 be mixed and matched with others. I think the
7 subcommittee did an excellent job in that
8 regards, giving this Committee some real
9 choices.

10 With that, Mr. Chairman, I just want to
11 thank every member of the Committee for their
12 hard work, too, on this, and those are our
13 three recommendations to this Committee.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, Chairman Legg. We appreciate that,
16 and we do appreciate the hard work of the
17 Committee, and commend your co-Chair and your
18 Vice-Chair. You guys did a great job. And
19 with that, we will turn it over to Alex to walk
20 us through some of the detailed differences
21 between the three maps. You are recognized,
22 Mr. Kelly.

23 MR. KELLY: Thank you, Mr. Chair, and
24 thank you, members.

25 Using map -- using map 9041, let's say, as

1 a base where I will describe the common points,
2 and then we will look at the other two as to
3 where they differ. As Chair Legg said,
4 Districts 1 and 2 are identical in all of the
5 maps. Generally speaking, the districts just
6 lean on the principle of keeping counties
7 whole. The couple counties that are split are
8 purely done so for the sake of equal
9 population.

10 Moving to the southern end of the state,
11 Districts 18 through 27, District 18 is a
12 district that has all of St. Lucie County and
13 all of Martin County, for the sake of equal
14 population, a little bit of Okeechobee County
15 and then goes into northern Palm Beach County.

16 District 19, moving to the southwestern
17 part of the state, District 19 is all of the
18 incorporated municipalities of Lee County, most
19 of Lee County, minus some of the Lehigh Acres
20 and North Ft. Myers unincorporated areas, and
21 then it includes the coastline, including
22 Naples, the entirety of Naples, and other
23 communities along the coast in Collier County.

24 District 20, as we mentioned some earlier
25 regards to the public testimony, Districts 20,

1 21 and 22, all three districts are primarily in
2 Palm Beach and Broward Counties. District 20
3 also there does have an extension into Hendry
4 County, which is an important component.

5 District 20 today is a majority-minority seat
6 and today also serves the African-American
7 communities of Hendry County, which is a
8 Section 5 covered jurisdiction. So in terms of
9 maintaining that, the district runs over into
10 the Clewiston area, it includes the entirety of
11 that, and in an effort to maintain Section 5
12 compliance, the district, again, maintains its
13 majority-minority status, and in the manner
14 that it is drawn, the district actually
15 includes the entirety of several municipalities
16 in the southern Broward County portion and also
17 in the near Lake Okeechobee/Palm Beach County
18 portions.

19 And Districts 21 and 22, kind of went over
20 them before, they are drawn in a north-south
21 pattern with the intent of trying to respect
22 municipal boundary lines as much as possible,
23 and really actually borrowing directly from
24 some of the public plans that were submitted in
25 terms of a strategy for how to keep these

1 municipalities whole in terms of -- mentioned
2 earlier, some of the additional public input
3 that's been received, some of the additional
4 public input, if you look at District 20, the
5 additional public input, instead of coming
6 through the Loxahatchee and Royal Palm Beach
7 area, District 20 was brought through Palm
8 Beach Gardens, and so we are looking at that
9 just to see if there's any advantages in terms
10 of municipal splits and compactness and other
11 measurements just to see if there's anything
12 gained by taking a slightly different path. So
13 we are taking a look at that based on some of
14 the guidance that we have gotten from the
15 additional public input.

16 Twenty-one, again, and 22, as described,
17 are, generally speaking, drawn with the intent
18 of trying to respect the municipal lines. I
19 will give you a visual of that. We originally
20 looked at trying to use perhaps the Turnpike in
21 these counties in terms of designing the
22 districts. However, the municipalities tended
23 to cross that, to sort of cross those major
24 roadways. So when you look at, for example,
25 District 21 -- and this is actually a good

1 example of a municipality that perhaps with a
2 minor adjustment we can actually probably keep
3 whole in terms of -- in terms of Coconut Creek,
4 but looking at the municipalities, you will see
5 that in many cases, they are kept whole in one
6 district or the other in attempts to strike a
7 balance between complying with the Voting
8 Rights Act, but at the same time trying to
9 respect the political geography as much as
10 possible.

11 District 23 encompasses much of southern
12 Broward and also the northeastern areas of
13 Miami-Dade County. District 23 is in large
14 part impacted by what you have in Miami-Dade
15 County, which are four majority-minority
16 districts, three of which are Hispanic, one of
17 which is African-American. I will turn the
18 city boundary lines off, turn the counties back
19 on, just so you can see where the split occurs.

20 So in looking at District 24 is a
21 majority-minority African-American seat, also
22 with a concentration of Haitian-American
23 residents. And then scrolling back out,
24 Districts 25, 26 and 27, again, our strategy
25 here was obviously, one, to maintain compliance

1 with the Voting Rights Act, which was to
2 maintain the ability for these districts to
3 perform for the Hispanic community's candidate
4 of choice, but also to try to bring something
5 more of a clean look, a more compact, geometric
6 type look to where these districts meet. If
7 you remember from the subcommittee, for the
8 members of the subcommittee, we discussed a lot
9 using the Tamiami Trail as a line where kind of
10 diving in to the Fountainebleau area where the
11 districts all meet, trying to -- if you think
12 about how this translates not just to
13 redistricting, but ultimately to voters going
14 back out with new districts, using those clear
15 roadways to try to minimize voter confusion and
16 so forth, but, again, trying to bring a much
17 more compact shape, and the numbers bear out
18 that the districts are significantly more
19 compact than the existing plans.

20 Now, in terms of some points that are
21 fairly common, although not identical, in all
22 the maps, Congressional District 5 in all the
23 maps travels from the Jacksonville area through
24 Palatka to Gainesville through northern Marion
25 County -- we mentioned before about the public

1 testimony regarding the Reddick area -- and
2 then through Lake County into Apopka, some
3 differences in terms of this district compared
4 to the current map and the way it's been drawn
5 here, it is not perfectly identical in all
6 three submissions, although it is very, very
7 similar. First it was drawn in order to
8 maintain the existing opportunity for
9 African-American -- the African-American
10 community. The NAACP submitted a map that drew
11 the seat at exactly a 48 percent black voting
12 age population, so in all three examples, it is
13 just slightly above that, a couple hundredths
14 of a percentage above that, that mark being
15 that that's what the NAACP submitted.

16 The district now encompasses the entirety
17 of Green Cove Springs, the entirety of Palatka,
18 the entirety of Apopka. It no longer impacts
19 Seminole County, it no longer impacts Volusia
20 County. So to the extent possible, we tried to
21 marry up the provisions -- the sort of Tier 2
22 provisions in Amendment 6 that look at
23 political and geographical boundary lines and
24 try to make sure that if the district was
25 traveling through a city, where possible, it

1 could include the entirety of that city, and
2 where unnecessary, the district would not split
3 a county if that was not necessary to maintain
4 the opportunity to elect. So some very subtle
5 differences when you dive into the details.

6 In all the maps, District 7 keeps Seminole
7 County whole, albeit it does it in a different
8 fashion in each of the maps. In plan 9041,
9 Seminole County is whole and the
10 Seminole/Volusia County line is not crossed.
11 The district in all three maps does include the
12 entirety of Maitland and the entirety of Winter
13 Park, but in this particular example, 9041, all
14 the population that's not in Seminole is in
15 Orange County. Go look at plan 9043. In this
16 particular instance, beyond Maitland and Winter
17 Park, most of the additional population that's
18 not in Seminole County is in Volusia County.
19 The way it was drawn -- I will turn on the city
20 boundary lines. The way it was drawn is to
21 encompass the entirety of municipal boundary
22 lines in Volusia County. So the fact that it
23 is crossing the county line, it has all of
24 Deltona, all of De Bary, and I believe that is
25 Orange City. So while it is crossing a county

1 line, respecting those municipal boundary
2 lines. And then I do believe in 9045, it is
3 more similar to -- yes, it is more similar to
4 9041 in which it is all Seminole and then parts
5 of Orange County.

6 So in terms of northeast Florida, now to
7 get into some of the more significant
8 differences, in northeast Florida, the effects
9 of the map on Nassau County are similar in maps
10 9041 and 9045. Nassau County is split so you
11 have a district that is the east side of Duval
12 County, the east side of Nassau County and the
13 northern half of St. Johns, splitting the city
14 of St. Augustine.

15 In the case of map 9043, 9043, which had
16 the lowest county splits of all the maps, map
17 9043 split 22 counties. Map 9041 split 26.
18 Map 9045 split 23. Map 9043 attempts to use
19 the population that is left over from
20 Congressional District 5 in Duval, aligning
21 that with Nassau, aligning that with Baker, to
22 create a district that is otherwise the entire
23 remaining portions of Duval, all of Nassau and
24 all of Baker. And I will just put the county
25 lines on to give you that visual. In part,

1 that was how 9043 was able to maintain county
2 lines in a better fashion.

3 In terms of District 3, there is a similar
4 district in all the maps that is essentially a
5 north Florida district, in this case in 9043,
6 that district does not include any parts of
7 Baker or Duval Counties or Nassau County. So
8 in that case, in 9043, the district pushes
9 further down into the Marion County area as a
10 result. In looking at the effects of that, the
11 portion of District 11 that is Marion County is
12 what essentially is typically affected by how
13 far over District 3 comes. In every case,
14 Marion County is still a significant portion of
15 a congressional district, but in the case of
16 9043, it's less of a portion of a congressional
17 district.

18 In all three of the maps, if you look at
19 District 6, there's a similar district,
20 however, as it relates to the Seminole County
21 district that we mentioned earlier. In map
22 9043, the sort of Volusia/Flagler/St. Johns
23 County district with some of Putnam includes
24 the entirety of St. Johns, the entirety of
25 Flagler, and then it does not include the

1 entirety of Volusia. In the other plans, the
2 district splits St. Johns, still includes the
3 entirety of Flagler, but then keeps Volusia
4 whole. So essentially there is the trade-off
5 of either keeping Volusia or St. Johns County
6 whole, but, again, in map 9043, which splits
7 Volusia County, all the municipal boundary
8 lines were kept whole.

9 Coming back to District 11, which we
10 mentioned before, generally speaking, District
11 11 includes the entirety of Citrus County, some
12 or all of Sumter, portions of Lake. Depending
13 on how far down District 3 pushes south and
14 depending on how far District 12 pushes north,
15 that determines what portions of Lake County
16 are maintained in the seat. So, for example,
17 in map 9043, the district is entirely Hernando,
18 Citrus, the balance of population, the most of
19 the population in Marion, all of Sumter and the
20 Lady Lake and Fruitland Park areas, those
21 municipalities are kept whole. Whereas, go
22 look at 9041, 9041 only splits Marion County
23 two ways, because District 12 is pushing up and
24 taking in most of Hernando County. Now, as a
25 result of that though, Hernando County is split

1 in map 9041. Citrus County is kept whole.
2 Citrus County is kept whole in all of the maps.
3 Sumter County in this particular case is split,
4 and District 11 goes a little further into --
5 into Lake County, although it is not a
6 significant amount of population of Lake, the
7 bulk of the main cities in Lake that are
8 heavily populated are still in District 10.
9 But, again, that just gives you a sense of the
10 push on the district depending on what is going
11 on in Districts 3 and 12.

12 And then looking at map 9045, this
13 particular case, the sort of Pasco County-based
14 seat has the entirety of Hernando County, and
15 there is a seat that is most of the population
16 of Marion, all of Levy, all of Citrus, all of
17 Sumter and includes a greater portion, just
18 slightly though, but a greater portion of the
19 Lake County area. As a result of that, the
20 municipality of Leesburg is split in that
21 exchange.

22 In terms of how those districts sort of
23 create a sort of pressure in the middle of the
24 state, you always have a district that is --
25 District 10 that is in part Lake County, Orange

1 County, northern Polk. Depending on the other
2 districts, that affects the proportion of those
3 counties. In this particular example, looking
4 at map 9045, the proportions that are Lake,
5 Orange and Polk are fairly similar to each
6 other. It is actually about 250,000 residents
7 in Lake, about 10,000 fewer than that in
8 Orange, and then 180 or so thousand in Polk
9 County.

10 District 9 in all the maps attempts to
11 create something of an opportunity for Hispanic
12 Floridians to vote together, to coalesce, but
13 at the same time does so in a very compact
14 fashion, albeit a different fashion in each of
15 the maps. So in the case of 9045, the map
16 includes the entirety of the Poinciana
17 community, most of -- excluding what's north --
18 or northeast or west -- sorry, northwest of
19 Interstate 4, Osceola County, and then portions
20 of Orange. Give you a comparison to map 9041,
21 map 9041 doesn't include the southern, more
22 rural parts of Osceola County. So those parts
23 are cut off for a more east to west type
24 district. And then map 9043 attempts to create
25 more of a squared-up type District 9,

1 attempting to create a more compact shape. Map
2 9043 does not go into Polk County, that being a
3 major difference. Map 9043, the balance of the
4 population is definitely in Orange County with
5 a couple hundred thousand residents from
6 Osceola County, but it does not go into Polk.
7 So it respects the county boundary line in map
8 9043.

9 Taking a look at the Tampa -- Tampa Bay
10 area, there are some commonalities, but then
11 there's also some significant differences.
12 Again, we talked about how some of the maps
13 have a sort of Pasco-based seat that goes north
14 and grabs most or all of Hernando. Map 9041
15 does that. It grabs about 60,000 residents in
16 the Oldsmar area in Pinellas County. It
17 attempts to maintain Section 5 compliance with
18 District 14. Hillsborough County
19 African-American/Hispanic residents are
20 combined with Pinellas County African-American
21 residents. District 13 maintains a seat
22 entirely in Pasco -- I'm sorry, Pinellas
23 County.

24 District 15, thinking back to some of the
25 public input that you heard before, District 15

1 is the one where the Mayor of Tampa, the
2 municipality of Temple Terrace had communicated
3 their preference was this more Hillsborough
4 County-based version of District 15, which only
5 has 5,700 residents from Manatee County, so for
6 all intents and purposes, it is almost entirely
7 a Hillsborough County seat. The result of that
8 is that District 17, which is largely southern
9 Polk County, very rural parts of Polk County,
10 Bartow, those areas, southern Osceola and
11 several very rural counties kept whole, and
12 then also the entirety of Charlotte County,
13 that district has a more almost squared-up type
14 northern border to it, not perfectly squared,
15 the lakes and such in Polk County and Osceola
16 County make it difficult to create a nice
17 perfect line, but, nonetheless, it has a more
18 squared-up northern border. And because 15 is
19 entire- -- mostly in Hillsborough, and 16 is a
20 Sarasota/Manatee seat, you essentially have a
21 very clean sort of western wall to the district
22 until you get down to the entirety of Charlotte
23 County.

24 Just to show you how that changes in the
25 other maps, in the case of map 9043, District

1 15 is drawn more to try to really take in a
2 very, very compact shape. It includes the
3 entirety of Lakeland. In this particular
4 district, this is the most of Polk County that
5 is included in the 15th District, albeit it is
6 still more than a two-thirds Hillsborough
7 County seat. Again, District 16, similar to
8 the others, minus 5,700 residents, it is
9 otherwise the entirety of Sarasota/Manatee.
10 District 17 is similar, albeit because District
11 17 is going into sort of the Fishhawk -- or
12 south of the Fishhawk area, as Jeff was talking
13 about before, in Hillsborough County, it
14 accounts for some population there, doesn't go
15 as far north into Polk County, albeit Polk
16 County is probably still -- I think it is still
17 the most significant population base in the
18 various versions of District 17.

19 And then just to compare to map 9045, as
20 we kind of talked about before, the District
21 15, minus 90,000 residents, is otherwise
22 entirely in Hillsborough County. District 17
23 in this particular case takes in a greater
24 number of Hillsborough County residents. So in
25 terms of population, the Hillsborough and Polk

1 County residents would greater rival each other
2 in this district, with Charlotte sort of
3 trailing in third in terms of the county's
4 impact on District 17.

5 And with that, Mr. Chair, those are the
6 differences between the maps, and I would be
7 happy to answer any questions.

8 REPRESENTATIVE WEATHERFORD: Great.
9 Members, before we move to suggestions or
10 questions or any suggestions, are there any
11 specific questions about the maps or the
12 presentation that Mr. Kelly just provided us?
13 Any questions?

14 Okay. Seeing no questions, are there any
15 suggestions or comments based on the maps that
16 we just discussed?

17 REPRESENTATIVE HUKILL: Mr. Chair?

18 REPRESENTATIVE WEATHERFORD: Yes,
19 Representative Hukill, you are recognized.

20 REPRESENTATIVE HUKILL: Thank you,
21 Mr. Chair.

22 Yes, I do have a suggestion concerning
23 where we should be going on this. I think it
24 would be helpful to us as members and probably
25 help avoid some public confusion for us to

1 narrow in on a map today. The map I like is at
2 9043, which is behind tab HB 6005. I think
3 this is a great map. I think when you look at
4 various things like city splits and county
5 splits, it is an absolutely great map. It also
6 does a very good job with trying to balance the
7 various standards that we have to use in this
8 process.

9 And so my suggestion is that we use this
10 as a base map for next Friday and that we
11 narrow it down to that choice today, so that
12 everyone knows what map we are working off of.
13 And if there are potential changes that people
14 want to make or file amendments, we can use
15 this as our base map and draft to this map. So
16 my suggestion is that we narrow in and select
17 map 9043.

18 REPRESENTATIVE WEATHERFORD: Okay.

19 REPRESENTATIVE HUKILL: Thank you,
20 Mr. Chair.

21 REPRESENTATIVE WEATHERFORD: Thank you for
22 that suggestion. I think we've got
23 Representative Workman, Representative Bernard,
24 then Representative Schenck, we will go in that
25 order. You are recognized, Representative

1 Workman.

2 REPRESENTATIVE WORKMAN: Mr. Chairman,
3 thank you for recognizing me.

4 I wasn't thinking along those lines, but
5 now that she said it, based on Amendment 6, you
6 know, it sets a lot of standards, especially in
7 the second tier of the law, roadways, bridges,
8 waterways, county lines, city lines, and
9 looking at for 9043, I want to concur with that
10 statement. I think we should make that the
11 base map.

12 REPRESENTATIVE WEATHERFORD: Thank you
13 very much, Mr. Workman.

14 Representative Bernard, you are
15 recognized, sir.

16 REPRESENTATIVE BERNARD: Thank you,
17 Mr. Chair.

18 I think my question -- it may be a
19 question, not a suggestion, but going to -- I
20 guess we can look at 9043 since that is the one
21 that we're talking about. Looking at the
22 configuration of the south Florida
23 congressional maps, on 9043, I am looking at
24 District 20, 21, 22, 23 and 24. I am really
25 concerned about the way that these districts

1 have been drawn in regards to -- like
2 specifically District 24 where it goes into
3 Broward County. It just seems to me that if
4 the Tier 1 -- if we are looking at Tier 1 where
5 we are creating the minority districts first,
6 it just seems to me that that district should
7 be specifically in Miami-Dade County where we
8 would bring it down into only Miami-Dade
9 County, and going into the creation of District
10 20, to me, it is just -- just looking at it and
11 going into Amendment 6, I just believe that
12 there's other ways that we can -- we can
13 recreate that district for it to be different.
14 Going -- this -- going into -- a majority part
15 of that district is in Broward County, and
16 going into how we have drafted -- the House
17 maps that you draw, Mr. Chair, I was looking at
18 House map where you drafted District 92, 94 and
19 95 where they are predominantly
20 majority-minority seats. However, when you
21 come down to south of Broward in the House
22 maps, District 101 and 102, those are
23 additionally majority-minority seats also.

24 So, to me, it just seems like it would be
25 better and -- to have District 22 to be a

1 majority-minority district where it would come
2 down from the creation of District 92, 94, 95,
3 and then to come down along the east side and
4 then to capture District 101 and 102 according
5 to the House maps, and that way, District 22
6 would only be in Broward County, whereas we can
7 change how we draft District 20 where District
8 20 would be specifically only in Palm Beach
9 County, and where now that would -- now
10 District 24 would be in Dade County where it
11 would be a majority-minority seat, District 22
12 would be specifically only in Broward County,
13 and it would be a majority-minority seat if you
14 bring it down to cover those parts in District
15 101 and 102, and then now District 20, you can
16 reconfigure it to make that district,
17 specifically the population of Palm Beach
18 County, where the total -- the total population
19 of Palm Beach County, you have a 17.3 percent
20 black population and a 19 percent Hispanic
21 population. If you recreate District 20 where
22 it would go along the east side and to include
23 the cities of West Palm Beach, Palm Springs,
24 all the way down to Delray Beach and Boca
25 Raton, that would be a compact district and you

1 can still send that district out to the Glades
2 where it would cover the Cities of Belle Glade,
3 Pahokee and South Bay, and still include the
4 town of Clewiston, which would be a Section 5.
5 What that would do is it would change District
6 20 to potentially be more of a coalition
7 district. I haven't looked at the numbers, but
8 it seems like it would be a coalition district
9 in Palm Beach County where the residents of
10 Palm Beach County would get to elect a
11 Representative of their choice, Broward County
12 would get District 22 as a majority-minority
13 seat and would be as compact as possible, and
14 District 24 would shift down into only Dade
15 County and it would be compact as possible, and
16 that way, the maps would be better drawn and
17 the residents of Palm Beach County, Dade and
18 Broward would get to represent -- would get to
19 elect a Representative of their choice and it
20 would be compact.

21 REPRESENTATIVE WEATHERFORD: Thank you. I
22 think I know what you are talking about -- no,
23 it was actually a very good explanation, and I
24 appreciate you taking the time to offer that.

25 A couple of things. The first thing I

1 want to mention is the maps -- for all the
2 members, just so you understand, all the
3 districts that were referenced by Mr. Bernard
4 are actually the same in all three maps. So it
5 is -- the concepts he is talking about would
6 apply to all three of the maps in the same way.

7 The second thing, I want to be clear that,
8 you know, we are not drawing any maps first,
9 whether they are minority-majority maps or
10 otherwise. Certainly we are cognizant of what
11 the Constitution says, cognizant of the fact
12 that we do not want to have retrogression in
13 any of our majority-minority districts, but at
14 the same time, we are not drawing any first. I
15 want to clarify that.

16 Before I turn it over to Alex Kelly to
17 speak directly to your question, I will tell
18 you I think the beauty of this process and the
19 beauty of democracy and the beauty of the
20 legislative process and the committee process
21 is that any member at any time can offer an
22 amendment. So what you just said certainly is
23 a lot of information, sounds like a dramatic
24 change to the map. I would encourage you,
25 Representative Bernard, to put it on paper,

1 offer it as an amendment for next Friday's
2 meeting, so we can actually take a look at it,
3 analyze it. Wednesday, noon deadline is the
4 deadline for the amendatory process. We would
5 love to take a look at it. We have different
6 forms of measurement that we can utilize and we
7 have utilized for the last six months, and we
8 will take that amendment and those changes into
9 consideration, and if they make dramatic
10 improvement to the map, the members of this
11 Committee will have an opportunity to vote on
12 it. So with that, I would encourage you to do
13 that. And, Mr. Kelly, if you would like to
14 address some of the comments as well, you may.

15 MR. KELLY: Thank you, Mr. Chair.

16 Representative Bernard, we attempted over
17 the course of drawing the maps, several of the
18 items that you raised. In terms of -- starting
19 with District 24, in terms of maintaining its
20 majority-minority status, we were not able to
21 do so entirely in Miami-Dade County. You could
22 theoretically reduce the seat by six or seven
23 percentage points, but -- running over to the
24 coastline, but you still would have a question
25 as to whether that six or seven percentage

1 points is, in fact, a diminishment, and you
2 would still need to go to Broward County
3 somewhat to maintain the majority-minority
4 status.

5 So in terms of looking at that issue, we
6 have looked at that and don't believe that you
7 can maintain a majority-minority status for
8 District 24 entirely in Miami-Dade County.
9 And, again, at the very minimum, too, you would
10 also be raising a question as to whether the
11 drop in the black voting age population may be
12 significant enough to be a diminishment.

13 In terms of District 20, again, we had
14 problems with the numbers. Unless you actually
15 did combine some of those communities in
16 Broward County, as you mentioned, in terms of
17 like the State House map, today's State House
18 map, Districts 92, 93 and 94, 92 of which is --
19 which is actually a 34 percent black voting age
20 population, but in terms of using those
21 communities and in terms of going into Palm
22 Beach County without drawing in those
23 communities, it is very difficult, if possible
24 at all, to maintain the majority-minority
25 status.

1 REPRESENTATIVE BERNARD: Mr. Chair?

2 REPRESENTATIVE WEATHERFORD: Yes,
3 Representative Bernard.

4 REPRESENTATIVE BERNARD: Thank you,
5 Mr. Chair.

6 I didn't say for it to go into Palm Beach
7 County where I shifted District 22 to go along
8 the east coast from District 92, 94 and 95 and
9 then for it to go down all the way to the
10 county line, the Miami-Dade and Broward County
11 line, to cover the House District 101 and 102
12 where those are basically majority-minority
13 seats. So from 92, 94, 95, would come down to
14 the county line, to the Broward County line,
15 and not go into Palm Beach County.

16 REPRESENTATIVE WEATHERFORD: I think what
17 we will do, because we could probably stand
18 here all day and try to understand exactly what
19 we are talking about, I think it would be much
20 better and clearer for the Committee and for
21 the public who is watching if they could
22 actually see on paper what it is Representative
23 Bernard is talking about, so Representative
24 Bernard, if you could work on a hard copy and
25 as an amendment or maybe something that you

1 could submit to the Committee as a whole, I
2 think that we certainly want to make sure that
3 we are taking a look at that. And anyone else
4 who has suggestions in the same light, no
5 matter whether it is in south Florida or any
6 part of the state, we want to make sure that
7 these maps are as legally compliant as they
8 possibly can be, and we are willing to look at
9 any amendment in any form. So thank you for
10 bringing that forth, Representative Bernard.

11 Representative Schenck, did you have
12 something to offer to the conversation?

13 REPRESENTATIVE SCHENCK: I think so. As
14 we were going through the maps -- certainly I
15 want to congratulate Alex and staff on all the
16 hard work they have done on the congressional
17 maps. Alex, as you were going through them,
18 the thing I noticed, and I wanted to talk to
19 map 9041, is the fact that that map splits St.
20 Augustine and Nassau County, but it also splits
21 Sumter and Hernando County, and I find that
22 those splits are unnecessary, especially since
23 the other two maps do not do that. So it would
24 be my preference that we discard map 9041 and
25 focus on the other two.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much. Any other comments from the
3 Committee?

4 Representative Horner, you are recognized,
5 sir.

6 REPRESENTATIVE HORNER: Thank you,
7 Mr. Chairman.

8 I think 9043 is a fine map. I liked all
9 of them, and kudos to the team, did a great job
10 putting together. Chairman Legg and Chairman
11 Holder and the staff did a good job.

12 I just want to make sure that -- I think
13 in some of these other maps we've got some good
14 opportunities to reduce splits in some cities
15 and some counties. And so if there is some
16 opportunity to take some good concepts from the
17 other two and incorporate them in 9043, that we
18 will be able to do that through the amendatory
19 process. And I really look forward to seeing
20 Representative Bernard's amendment, so I hope
21 we are not getting too locked in to 9043 and
22 will be open to some of those changes.

23 REPRESENTATIVE WEATHERFORD: I will
24 address that. I think that is a good point.
25 Is there any other comments or suggestions

1 before we move forward?

2 Okay. Here is what I will say:

3 Representative Horner, you bring up a good
4 point. I think there's been several
5 suggestions made by members that 9043 should be
6 the congressional map that we work off of. I
7 am inclined to go in the same direction. I
8 think what it does is it brings clarity to
9 everybody if we have now one map that we are
10 focusing on, which would be 9043.

11 But to Representative Horner's point, we
12 are not locked in to everything in 9043, and if
13 people want to bring forth amendments, if
14 there's some of the other maps that have been
15 submitted that you like certain portions of
16 them better, we can file amendments to 9043 and
17 make it a better product. So what we are going
18 to do, just for -- so everybody has a clear
19 understanding, we are going to move forward
20 with 9043, that will be the map that we will
21 take up next Friday, and we can file amendments
22 to that map.

23 So if anybody has any questions about
24 that, concerns about that, now would be a good
25 time to talk about it. Any questions or

1 concerns? Yes, Representative Rogers, you are
2 recognized.

3 REPRESENTATIVE ROGERS: Thank you,
4 Mr. Chair.

5 I don't know, when I came into this
6 meeting, I was under the assumption that we
7 weren't going to move any maps out of this
8 Committee today.

9 REPRESENTATIVE WEATHERFORD: We are not.

10 REPRESENTATIVE ROGERS: Okay.

11 REPRESENTATIVE WEATHERFORD: In fact, all
12 maps will be available next week. What we are
13 doing is, we are trying to give clarity to the
14 public. We are also trying to give clarity to
15 the members, so that 9043 appears to be the map
16 that everyone seems to be favorable to. No one
17 else has suggested another map. So for
18 purposes of clarity for next week, if you are
19 going to file an amendment, you would file an
20 amendment to 9043. So 9043 can be changed, it
21 can be amended. We are going to look at all
22 amendments and have votes on them. But 9043
23 would be kind of considered the base map. So
24 that is -- is that clear?

25 REPRESENTATIVE ROGERS: Very clear, but we

1 are not limited to just 9043?

2 REPRESENTATIVE WEATHERFORD: No, but if
3 you liked a portion of another map, you could
4 essentially get to the same place in a
5 different way where you could take the -- you
6 could take the provisions of another map and
7 amend it onto 9043 and essentially it would
8 become the other map that you may have
9 preferred, so -- and if you want more detail,
10 we can get you with staff and myself and we can
11 talk further about -- to make sure that any
12 concerns that you have are addressed. Thank
13 you, Representative Rogers.

14 Any other comments or questions?

15 Okay. Thank you very much, Mr. Kelly. We
16 are now going to move forward into the House
17 map. Representative Schenck, who is co-Chair
18 of the House Committee, we'll give you an
19 opportunity to give us a brief overview while
20 Mr. Takacs is getting prepared. But great job
21 to you and co-Chair Dorworth. You guys did a
22 tremendous job in the House, and drawing 27
23 maps is one thing, drawing 120 maps is a
24 totally different thing, and I thought that you
25 guys did a great job. Really appreciate the

1 product you have brought forth, and look
2 forward to hearing about the differences
3 between the three, but you are recognized for a
4 brief introduction.

5 REPRESENTATIVE SCHENCK: Thank you,
6 Mr. Chair, and I just want to give a brief
7 overview before I turn it over to Jeff Takacs,
8 who I call the machine, and can probably talk
9 about it for hours, but I have warned him not
10 to.

11 The Committee co-Chair Dorworth and I
12 worked with were great, had a lot of good
13 suggestions, and so we limited -- passed on
14 three maps that we are going to talk about
15 today. So let me just quickly give the
16 overview.

17 Maps 9025 and 9027 are virtually
18 identical, with the exception of Districts 7, 8
19 and 9, which is in the Big Bend area, and I
20 have told Jeff to spend a little time with that
21 and those. And then map 9031 is identical to
22 9027 in the Big Bend area, but there are
23 several differences in Duval and Clay County,
24 as well as the central Florida area of Lake,
25 Seminole and Orange Counties as well. So map

1 9031 is -- is -- has a difference in two areas
2 of the state.

3 Mr. Chairman, those are the differences
4 between the three, and so then I would suggest,
5 much like we just did with the congressional
6 maps, we will have the machine go through those
7 maps, have some discussion and try to narrow it
8 from three to one so that we can have a working
9 base map for next Friday as well on the House
10 maps.

11 REPRESENTATIVE WEATHERFORD: That sounds
12 good. Thank you, Representative. And with
13 that, we will recognize Mr. Takacs to walk us
14 through the differences in the map.

15 MR. TAKACS: Thank you, Mr. Chairman.
16 With Chairman Schenck's blessing, I would like
17 to go through a three-hour presentation on the
18 120 districts of the map.

19 REPRESENTATIVE SCHENCK: Not granted.

20 MR. TAKACS: I would like to kind of do
21 this on a region-by-region basis and walk
22 through the map as we travel around the state.

23 If you look at the Panhandle region there,
24 looking at Districts 1 through 4, you will see
25 that essentially that region is bookended by

1 Districts 1 and 4 that are wholly within their
2 respective counties of Escambia and Okaloosa,
3 Districts 2 and 3 cross from Escambia into
4 Santa Rosa, and then Santa Rosa into Okaloosa.
5 An interesting point, the population of Santa
6 Rosa is that in that it can be kept whole
7 within a House map; however, it is land-locked
8 between two counties that have to be split. So
9 that is why you see the configuration the way
10 that it is as far as Santa Rosa being split
11 between Districts 2 and 3.

12 Moving forward here into the -- moving
13 east from Districts 5, and I will talk about
14 the Big Bend area. As Chairman Schenck
15 mentioned, Districts 7, 8 and 9 are one of the
16 pivot points, decision points, between maps
17 9025 and 9027, and I will show those one by one
18 as we continue to move forward.

19 District 5 here, you can see whole
20 counties was the driver of the building of this
21 district. As you can see, all of these
22 counties are whole here, Jackson County and so
23 forth. As you move south to District 6, it is
24 wholly contained within Bay County, and Panama
25 City is kept whole within that region as well.

1 I should also mention District 1 in Escambia
2 County does keep the City of Pensacola whole as
3 well. District 2 is the City of Gulf Breeze.
4 So that is a common theme as we travel about
5 the map as far as using municipal boundary
6 lines as dividing lines and keeping cities
7 whole within the various districts.

8 Again, this is map 9025, and you can see
9 what District 7 does -- I'm sorry, this is map
10 a 9027. What you can see here is what District
11 7 does is it has a larger swath of smaller
12 rural counties and keeps them all united,
13 thinking about Lafayette and Taylor, Jefferson,
14 Wakulla, Franklin and so forth, keeping them
15 all together within a district, and then for
16 population purposes, having it in a portion of
17 Leon County.

18 District 8 is a majority-minority black
19 district. It does contain all of Gadsden
20 County -- again, thinking about keeping
21 counties whole within this process, it contains
22 all of Gadsden County, as well as portions of
23 Leon.

24 The biggest pivot point between maps 9027
25 and 9025 is really District 9. You can see

1 here on this option that District 9 is wholly
2 contained within Leon County. I will show you
3 the other option, which is 9025. Bear with me
4 for just a moment. And I will kind of toggle
5 back and forth so you can see the difference
6 between the two. Here is District 9 in this
7 option, which is 9025, and you can see that it
8 has more of a portion of Leon County as far as
9 its -- the way that it is cut, and it actually
10 splits the City of Tallahassee in three, and
11 then it goes into Jefferson, Taylor and
12 Lafayette Counties. Again, I will kind of go
13 back and forth, but, again, this -- obviously,
14 this district is not wholly contained within
15 Leon County. Another difference, again, as I
16 mentioned, is that this option splits the City
17 of Tallahassee between three districts. The
18 other option, which I will go back to, splits
19 the City of Tallahassee twice. You can see
20 this version here. So, again, that is the only
21 difference between maps 9025 and 9027, so I
22 will continue to move forward and explain
23 essentially both of those maps simultaneously.

24 Moving on into the north and northeast
25 Florida region here, you can see District 10

1 again keeping counties whole within this
2 district. A portion of Alachua County is used
3 for District 10. In a previous draft of these,
4 and this was something that the subcommittee
5 examined, there was an option that would have
6 had the Alachua County only split twice, but
7 what that does is essentially for population
8 purposes, would then actually split Union
9 County between two districts there, 19 and 10.
10 So their preference was to make that third
11 split within Alachua County to keep Union
12 County whole, and then, again, this district be
13 based on keeping counties whole.

14 I am going to move into the Nassau and
15 Duval County area. As I had mentioned earlier,
16 if you look at the populations of Nassau and
17 Duval combined, they equal roughly that of six
18 House districts, and you can see that this plan
19 and all of the plans -- I should say Duval
20 County is another pivot point in one of the
21 maps, and I will explain that at the end, but
22 in maps 9025 and 9027, that principle is
23 adhered to with these six districts, again,
24 using -- Nassau County being kept whole, and
25 then coming into Duval, and then the other five

1 districts being wholly contained within Duval
2 County.

3 Districts 13 and 14 recreate
4 majority-minority black districts within the
5 region, and, again, thinking about county lines
6 and other roadways as far as boundaries, that
7 was the driver as far as building Districts 12,
8 15 and 16.

9 I will zoom out here a little bit and talk
10 about kind of the area just below Duval County.
11 When you look at St. Johns County, District 17
12 here, that district is wholly contained within
13 St. Johns County. It is then connected here,
14 District 24, as far as the county, which is a
15 district that has all of Flagler County and
16 then a portion of St. Johns County, and then
17 that comes into areas of Volusia County, which
18 I will talk about in a moment.

19 Moving here just over a bit, as we saw on
20 the video a moment ago, the residents of Clay
21 County requested that they have a district
22 wholly contained within the county. That is
23 here in District 18. Sorry about that. And
24 you will see that that -- that district does
25 keep the City of Orange Park whole and keeps

1 the City of Green Cove Springs whole, but
2 within District 19, again, using municipal
3 boundaries to attempt to keep cities whole as
4 much as possible. District 19, including that
5 southern portion of Clay, has all of Putnam
6 County, as well as all of Bradford and Union
7 Counties whole within it.

8 Moving over into kind of this area here,
9 District 20, this recreates a black opportunity
10 district within Alachua and Marion Counties.
11 District 21 has the remaining portion of
12 Alachua County, and then keeps these two
13 counties whole. Bear with me for just a
14 minute. I'm trying to see where I can see all
15 the county names. Sorry. There we go,
16 excellent. Now we can all see the county names
17 as we look through these districts as well. So
18 District 21 keeps all of Gilchrist and Dixie
19 Counties whole within it as well. Again,
20 keeping counties whole, the next district,
21 which is District 22, has all of Levy County
22 and then a portion of Marion County. District
23 23 is contained all within Marion County. That
24 was something we heard from the public
25 testimony from those residents, keeping --

1 trying to keep a district wholly within Marion
2 County. Actually, I am going to turn those
3 county names off, if you will bear with me, so
4 that we can see the district numbers as well.

5 Now I will talk about the Volusia County
6 area. Thinking about how District 24 comes
7 into Volusia County, if you take that
8 population and what is left within the county,
9 you can create three districts wholly contained
10 within Volusia County, and that is achieved by
11 Districts 25 through 27. District 26 recreates
12 a black opportunity district, and then District
13 25 has kind of more of the coastal areas here,
14 and some cities are kept whole here in the
15 southern end, and then District 27 consists of
16 basically the southern end of Volusia County.

17 Moving on to central Florida, central
18 Florida is one of the decision points between
19 maps 9025, 9027 and 9031. Again, this
20 configuration for central Florida is the same
21 between 9025 and 9027. It is different in
22 9031, and I will discuss that at the end rather
23 than try to go back and forth. It is a rather
24 large area, and I will just describe that at
25 the end.

1 Looking at -- if you look at -- here we
2 go. I wanted to turn those county boundaries
3 on. If you look at Seminole County here with
4 Districts 28 and 29, they are both wholly
5 contained within Seminole County, and using a
6 major roadway of U.S. 17/92 as the dividing
7 line between the two districts. I will kind of
8 zoom in here a little bit, too, so you can see
9 some of the municipal boundaries, as keeping
10 cities whole, again, was a theme as far as
11 building these districts in this region, as I
12 had mentioned earlier. Looking at the City of
13 Lake Mary and looking at the City of Longwood,
14 they are both kept whole, as well as the city
15 here, which is Winter Springs, as well as
16 Oviedo. So those are all kept whole between
17 the two districts.

18 As you -- as you move to the south here
19 with District 30, it does span Seminole and
20 Orange County. Thinking of the Maitland area,
21 as well as Altamonte Springs, those are areas
22 that have a lot of commonalities, even though
23 the county line separates them.

24 REPRESENTATIVE WEATHERFORD: Jeff, there
25 are some curious members who are wondering if

1 when you were helping draft District 30, if you
2 were trying to make it look like a 1957 Chevy.
3 Would that be appropriate?

4 MR. TAKACS: Mr. --

5 REPRESENTATIVE WEATHERFORD: Zoom in on
6 that for us. Is it a Chevy?

7 MR. TAKACS: Folks, I have said that
8 redistricting is an art, not a science, but --

9 REPRESENTATIVE WEATHERFORD: Just kidding,
10 of course.

11 MR. TAKACS: Certainly, certainly.

12 Thinking about -- kind of talk about
13 Orange County a little more globally. Thinking
14 about Orange County, again, this is a big pivot
15 point between the different maps. If you look
16 at this region here, I am going to kind of pull
17 out Districts 45, 46 and 48. District 45 would
18 be a new black opportunity district within the
19 region, District 46 would recreate a
20 majority-minority black district in the region
21 and District 48 would recreate a
22 majority-minority Hispanic district within the
23 region. That majority-minority Hispanic
24 district spans Orange and Osceola County, and I
25 will talk about that in a moment, but we were

1 able to keep that district wholly within Orange
2 County, again, looking at county boundaries as
3 the driver of keeping these districts within
4 counties.

5 District 49, as was mentioned in the
6 video, kind of a UCF-based district, and I have
7 already talked about kind of Districts 50
8 through 53 here in the Space Coast area, so I
9 will kind of move into the more of a center
10 area of the state.

11 District 31, a northern Lake County-based
12 seat, which does come into areas of Orange
13 County here. District 32 wholly based within
14 Lake County. District 33 keeps Sumter County
15 whole. It looks at the area that is The
16 Villages. That has been mentioned previously.
17 Interestingly enough, the House subcommittee
18 examined this in great detail many weeks ago as
19 far as the concept of trade-offs between
20 keeping counties whole and cross-county
21 jurisdictions, and they were able to determine
22 that they can achieve both by keeping Sumter
23 County whole, as well as this region known as
24 The Villages. Again, looking at this region,
25 thinking about District 34, again, that keeps

1 all of Citrus County whole, comes into
2 Hernando. District 35 keeps all of Hernando
3 County whole.

4 When you look at Pasco County, its
5 population is that of -- equally of three House
6 districts, so that is what is achieved here
7 with 36 through 38. Again, trying to equalize
8 the populations, but utilizing roadways is --
9 was the driver as far as the separation between
10 the western, central and eastern districts
11 within Pasco County.

12 Moving into the Polk/Osceola region here,
13 I will kind of start out of order here. If you
14 look at District 40, that is a district wholly
15 contained within Polk County and has the most
16 of Lakeland within it. District 39 has the
17 northern portion there of Polk County, and then
18 for population purposes, comes into Osceola
19 County. District 41, again, wholly contained
20 within Polk County. As we look at Districts 39
21 and 41 -- actually, I'm going to zoom in and
22 look at some of the city boundaries here.
23 There are a lot of municipalities within Polk
24 County, as you can see, that have a lot of
25 meandering boundaries. As we have looked at

1 the boundaries between 39 and 41, we are
2 continuing to evaluate if there's opportunities
3 to keep more cities whole within this county,
4 within the districts, and we are going to
5 continue to evaluate that, and continue to
6 evaluate that across the map, to be honest.

7 Looking at District 42, it has the
8 majority of Osceola County and comes into the
9 eastern portion of Polk County. As I mentioned
10 here, District 43 is a majority-minority
11 Hispanic district that is wholly contained
12 within Osceola County. This would be a new
13 opportunity for Hispanic-Americans in that
14 region to elect a candidate of their choice
15 that previously did not exist.

16 I will kind of move to the -- I will move
17 to this region here. Thinking about the
18 four-county region of Pinellas, Hillsborough,
19 Sarasota and Manatee Counties, if you look at
20 the county boundaries here, you can see that
21 they are all kept intact, and that's because
22 those four counties' populations are that of
23 equal of 18 House districts. So what we did
24 was put those 18 House districts wholly within
25 those four counties and tried to cross county

1 boundary lines as few as possible, thinking
2 about Districts 64 and 70, crossing county
3 boundary lines. I should mention District 70
4 is a black opportunity district. And then
5 looking at the way that 70 kind of bisects
6 Sarasota and Manatee County, it was actually
7 enabling us to have four whole districts within
8 both of those two counties. So that would
9 explain that region here. And just kind of
10 coming back up to Hillsborough County, I should
11 mention that in this region, District 61
12 recreates the black majority-minority district,
13 and District 62 is actually a majority-minority
14 Hispanic district. That used to be an
15 opportunity district, but with the population
16 growth in that region of the Hispanic
17 community, it is now a majority-minority
18 district within the county. You can see
19 basically we just kind of segmented that off as
20 almost like a wheel as far as looking at this
21 area here from 63, 58, 57, 59 and 60; again,
22 keeping all of those districts wholly within
23 the county, using roadways as the predominant
24 divider between the districts and when possible
25 -- the City of Tampa is a large city, it is

1 actually too large to be kept whole within a
2 House district, so it is divided within this
3 plan. I will kind of zoom out here and talk
4 about --

5 REPRESENTATIVE WEATHERFORD: If we could,
6 I think Mr. Kelly wanted to add something to
7 the conversation.

8 MR. KELLY: Thank you, Mr. Chair. I just
9 wanted to note, too, as it pertains to the
10 minority opportunity and majority-minority
11 districts in the Hillsborough County area,
12 Hillsborough County is a Section 5-covered
13 jurisdiction, so there is a significant amount
14 of legal issues involved in terms of
15 maintaining those opportunities. Just wanted
16 to add that.

17 REPRESENTATIVE WEATHERFORD: Thank you.
18 Continue.

19 MR. TAKACS: Thank you, Mr. Chairman.

20 As you look at this larger central Florida
21 area, again, trying to keep counties whole was
22 the driver here. You can see that these two,
23 Hardee and DeSoto Counties, are kept whole
24 within this district as it moves up into Polk
25 County. As you recall from the video, we

1 received testimony asking for U.S. 17 to be the
2 major artery of a district, and that is
3 achieved with District 56. District 55 keeps
4 all of Highlands, Okeechobee and Glades County
5 whole, then for population purposes, comes into
6 St. Lucie County, which is a county that has to
7 be split based on its population. I mentioned
8 Indian River County earlier in the public
9 comment. It is kept whole within District 54,
10 and, again, coming into St. Lucie for extra
11 population.

12 Looking at St. Lucie County, District 84
13 is wholly contained within the county. It is
14 actually not -- they don't have that
15 opportunity now. They are -- they sought that
16 in the public testimony that we received, that
17 they wanted to have a district wholly contained
18 within the county, and District 84 achieves
19 that.

20 We have talked a little bit at length
21 about Martin County and how it is divided.
22 There is one thing that I should mention --
23 actually two things I would like to mention.
24 One is that we have taken a pretty serious look
25 at the concept of keeping Martin County whole

1 within a House map, the population of Martin
2 County is so that it could be kept whole, but
3 the -- there are several challenges that are
4 presented with that.

5 When you look at the way District 82 is
6 configured and how it comes into Palm Beach
7 County here, the population of Palm Beach
8 County that is in District 82 then allows us to
9 have eight districts in Palm Beach County
10 wholly contained within the county. And I will
11 zoom in here a little bit. You will see that
12 that Palm Beach County/Broward line is kept
13 intact based on that population. So thinking
14 about that, just taking a step back, if you
15 were to take that population out of this
16 district and put Martin County whole all within
17 a district, what you would end up happening is
18 that all of the districts essentially south of
19 Martin County would end up needing to be
20 redrawn, and that county line be broken. And
21 then also thinking about as you move to the
22 north and to the west, all of these districts
23 would push up and push to the northwest, so you
24 would see a potential of 70 to 80 districts
25 that would need to be redrawn as a consequence

1 of keeping Martin County whole within this
2 plan.

3 Martin County is situated in that it is in
4 between two counties, St. Lucie and Palm Beach,
5 that need to be -- that need to be split based
6 on its population, but it is also surrounded by
7 counties that can be kept whole as you look at
8 Okeechobee County and Glades County and so
9 forth. So that is a challenge that was
10 presented there.

11 Again, talking about Palm Beach County, as
12 I mentioned, eight districts are wholly
13 contained within the county. There are two
14 districts that I want to point out
15 specifically, Districts 87 and 88. District 87
16 would be a new majority-minority Hispanic
17 district within the county, it would be a new
18 opportunity for Hispanic Americans in that
19 region. And District 88 is a majority-minority
20 black district that runs north to south along
21 transportation corridors, thinking about 95 and
22 U.S. 1. As you can see here, as we kind of
23 zoom in here a little bit, you can see that
24 city boundaries were heavily examined as we
25 were building the districts in this region and

1 trying to keep cities whole within this various
2 districts within this county.

3 I will move forward here to Broward
4 County. Again, that Palm Beach County/Broward
5 line is kept whole, as you can see here. When
6 you look at Districts 92, 94 and 95, they are
7 black opportunity districts. And you can see,
8 again, looking at the concept of keeping cities
9 whole and using roadways was predominantly
10 used, when possible, when building these
11 districts.

12 When you think about the more urban areas,
13 and we will talk about this as I move forward
14 into Miami-Dade County, thinking about there
15 are so many municipalities in Broward and
16 Miami-Dade Counties, that what we tried to do
17 was if we had to break a city boundary was
18 use -- was use roadways in order to do that.
19 So that way when voters are trying to
20 understand what district they live in, they can
21 say, well, if you live between this street and
22 this street, and this street and this street,
23 you are in the district, and that is what you
24 can see here by a lot of the square-like shaped
25 districts within Miami-Dade County.

1 I should mention that District 101 here
2 that is in Broward County, wholly in Broward
3 County, is a black opportunity district, and
4 District 102 here is a majority-minority
5 district that crosses both into the Broward and
6 Miami-Dade County lines.

7 Thinking about Miami-Dade County as a
8 whole, all of the 11 majority-minority Hispanic
9 districts are recreated within this proposal.
10 That was actually as a result of an amendment
11 that the House subcommittee examined to make
12 changes to District 113 to do that, to recreate
13 that majority-minority district. Looking at
14 Districts 107, 108 and 109, they are
15 majority-minority black districts, with
16 concentrations of Haitian populations --
17 Haitian-American populations, I should say,
18 being within Districts 107 and 108.

19 Again, as you look at this county as a
20 whole, there's a lot of square or
21 rectangle-shaped districts that are using
22 roadways as their boundaries to create those
23 smooth edges and create those shapes. And,
24 again, thinking about city boundary lines,
25 we -- they talked Cutler Bay in that video,

1 that is kept whole within this region as well.

2 Moving a little bit further south, when
3 you look at Districts 117 and 120, 120 is the
4 district that has all of Monroe County within
5 it. That was requested by the people of that
6 region, and then it comes up here into
7 Miami-Dade County for population purposes. And
8 then District 117 is a black opportunity
9 district within this region. That is actually
10 a recreation of that opportunity for those
11 residents in that region.

12 I will zoom out here and kind of curve up
13 here to the western side and just kind of
14 finish out by talking about Collier, Hendry and
15 Lee Counties. You can see here Collier County
16 has three districts within it. District 80 has
17 the northern portion of the county, and then
18 includes all of Hendry County, again, keeping
19 counties whole within this district as much as
20 possible. Looking at District 105, it crosses
21 Collier County into Miami-Dade County and
22 Broward County. That is a similar
23 configuration to a district that exists today
24 that was as a result of a DOJ pre-clearance
25 issue, and that was linking the Hispanic

1 communities within Collier to that of
2 Miami-Dade and Broward Counties. District 106
3 is wholly contained within Collier County. It
4 also keeps the City of Naples whole and runs
5 along Tamiami Trail here as its border within
6 the district between it and 105.

7 Again, looking at Lee County, as we will
8 finish up these two maps, Lee County has a
9 population that is roughly that of four House
10 districts, and you can see that there are four
11 districts that are wholly contained within the
12 county in this proposal. District 77 is the
13 bulk -- actually has all of the City of Cape
14 Coral within it, and that is the bulk of that
15 district, 78 has all of the City of Ft. Myers
16 within its boundaries, District 76 has all of
17 Bonita Springs and Sanibel within its
18 boundaries and links those barrier islands
19 together with areas to the south, and then
20 District 79 is an east Lee County seat.
21 Thinking about Lehigh Acres and the testimony
22 that we received there, that was their desire,
23 to see that created. And that is essentially
24 maps 9025 and 9027.

25 What I would like to do briefly is just

1 talk about the differences of where 9031 has
2 with those other maps, and it is in two
3 regions. It is in the northeast Florida area
4 with Duval and Clay Counties, and then in
5 central Florida, and I will just briefly
6 describe both of those and show those to you
7 here visually.

8 The major difference with 9031 is when you
9 look at Districts 15 and 18 and how they
10 connect Duval and Clay Counties, you can see
11 that, thinking about the previous plans,
12 District 18 kept all of Clay County whole
13 within those plans. This would deviate from
14 that. District 18 comes down into areas of
15 Clay County. And then District 15 is, you
16 know, a smaller geographic shape and then comes
17 in to grab all of Orange Park within Clay
18 County. So that is the difference with 9031 in
19 that region.

20 In looking at central Florida, the biggest
21 difference here is when you look at District
22 45. When I mentioned the previous maps,
23 District 45 was a -- is a black opportunity
24 district with a VAP, a black VAP, of roughly
25 40 percent. That decision point removes

1 that -- removes that seat and only has the
2 majority-minority black district within it
3 here, which is 46. And you can see the ripple
4 effect of what happens with the various
5 districts within Lake, Seminole and Orange
6 Counties. There are -- now you see three
7 districts cross the Seminole County/Orange
8 County line, 29, 30 and 49, and then District
9 39 becomes the district that is wholly
10 contained within Lake County, and then 32
11 becomes a southern Lake County using the
12 Turnpike as a dividing line as it crosses into
13 Orange County.

14 Mr. Chairman, those are the differences.

15 REPRESENTATIVE WEATHERFORD: Thank you
16 very much, Mr. Takacs.

17 Members, are there any questions of Mr.
18 Takacs in regard to the three maps that we just
19 walked through? Any questions? Questions or
20 suggestions?

21 REPRESENTATIVE NEHR: Suggestions.

22 REPRESENTATIVE WEATHERFORD: Let's do
23 questions first. Are there any questions
24 first?

25 Okay. Seeing no questions, Representative

1 Nehr, you are recognized for a suggestion or
2 comment.

3 REPRESENTATIVE NEHR: Thank you,
4 Mr. Chair.

5 That was a great presentation, thank you
6 so much. And based on this presentation, I
7 noticed, and please let me know if I am wrong,
8 that the maps 9025 and 9027 are almost nearly
9 identical. And what I noticed also in these
10 two maps is that they both create a new very
11 compact seat in Orange County. What I really
12 like about that new seat is that it has a
13 significant African-American population, and I
14 think that this is a great opportunity for
15 minority constituents.

16 So when I also no- -- when you were
17 mentioning the map 9031, I noticed that it did
18 not create that seat. So I would prefer that
19 we created that seat, so I would prefer maps,
20 Mr. Chairman, 9025 and 9027, and I would
21 suggest that we don't even consider 9031.

22 REPRESENTATIVE WEATHERFORD: Okay. Thank
23 you for that suggestion.

24 Members, any other suggestions?

25 Representative Workman, you are recognized

1 for a suggestion, sir.

2 REPRESENTATIVE WORKMAN: Thank you very
3 much, Chairman.

4 I don't like 9031 either, just what it
5 does to Clay County, to be honest with you. So
6 9025 or 27 I think are the better two.

7 REPRESENTATIVE WEATHERFORD: Okay. Thank
8 you for that comment.

9 Representative Holder, you are recognized
10 for a comment -- anybody else on deck? No,
11 okay. Representative Holder, and then
12 Representative Adkins.

13 Representative Holder, you are recognized.

14 REPRESENTATIVE HOLDER: Thank you,
15 Mr. Chair.

16 9027 definitely gives Leon County -- if we
17 remember in the very beginning when we were
18 looking at this area, Leon County would have
19 its own seat, which in 9025, it doesn't. And I
20 think that that makes 9027 a lot more
21 consistent with following the county lines,
22 which we have been talking about. So I would
23 -- I would suggest 9027 over 9025.

24 REPRESENTATIVE WEATHERFORD: All right.
25 Thank you, Mr. Holder.

1 Representative Adkins for a comment.

2 REPRESENTATIVE ADKINS: Thank you,
3 Mr. Chairman. I recall staff mentioned that
4 map 9027 would only split Tallahassee two ways
5 as opposed to the three ways in the other map.
6 So it is a subtle difference, but I think it is
7 an important one, and I think that 9027 is a
8 map that I certainly would be comfortable with.

9 REPRESENTATIVE WEATHERFORD: Okay. Other
10 comments, suggestions, questions?

11 Representative Kiar, you are recognized
12 for a comment.

13 REPRESENTATIVE KIAR: Thank you,
14 Mr. Chair. Actually, it is a question with
15 regard to District 104. I thank you very much
16 though.

17 I am just wondering -- I am pretty
18 familiar with this area and I was wondering, is
19 that a Hispanic access seat now, or no?
20 District 104?

21 REPRESENTATIVE WEATHERFORD: I think
22 Representative -- not Representative -- Alex
23 Kelly is going to answer that question.

24 REPRESENTATIVE KIAR: Thank you.

25 MR. KELLY: Thank you, Mr. Chair.

1 Representative, I believe the Hispanic
2 voting age population exceeds about 43 percent
3 probably at this time. That may be too low to
4 say that it's got a reasonable chance of
5 performing for a Hispanic candidate. It
6 certainly increases the number of Hispanic
7 Floridians in a seat in that area, but I
8 probably would hesitate to call it an
9 opportunity district, because typically in that
10 part of the state, when you look at -- in terms
11 of voting age population and then actually
12 participating in the electoral process, there
13 is sometimes a 10 to 15 percent drop-off in
14 that. But, again, it is certainly a greater
15 concentration than the prior districts.

16 REPRESENTATIVE KIAR: Thank you. May I
17 ask one other question, Mr. Chair?

18 REPRESENTATIVE WEATHERFORD: Yes, sir.

19 REPRESENTATIVE KIAR: Thank you. Then the
20 only other question I was wondering, I am
21 looking at -- I am just curious. I think it is
22 District -- I want to say 105 where it
23 stretches from basically Collier all the way to
24 Miami-Dade, and I just -- I was just thinking
25 about this while I was watching, as I was

1 looking at it. Is that -- is that only in
2 Collier County, or does that go all the way
3 across the state?

4 REPRESENTATIVE WEATHERFORD: Jeff, you are
5 recognized.

6 MR. TAKACS: Thank you, Mr. Chairman.
7 That district does cross Collier County
8 into Miami-Dade County, as well as Broward
9 County.

10 REPRESENTATIVE KIAR: Thank you. May I
11 ask a follow-up, Mr. Chair?

12 REPRESENTATIVE WEATHERFORD: Yes for a
13 follow-up.

14 REPRESENTATIVE KIAR: I am just wondering,
15 you know, and this is my own personal -- I
16 don't really understand if this is right or
17 not, but I know that in, for example, the
18 current Senate map, not the one that was
19 passed, but the one that people are still
20 currently serving in, it kind of reminds me to
21 be a similar district to Dave Aronberg's former
22 district and Lizbeth Benacquisto's district
23 right now where it just stretches across the
24 state, and I know, for example, in the Senate
25 maps they determined that they wanted to cut

1 that, because they believed it didn't comply
2 with the new amendment. So I am just
3 wondering, on this one district, because it
4 does seem to stretch straight across similar to
5 that, is it -- does this district comply with
6 the new amendments when it comes to compactness
7 and things of that nature?

8 REPRESENTATIVE WEATHERFORD: Very good
9 question, and I think Alex has got an answer
10 for it.

11 MR. KELLY: Thank you, Mr. Chair.

12 Representative, ten years ago the
13 Legislature attempted to redraw something of
14 this seat entirely on the western side of the
15 state in Collier County and so forth. The
16 Department of Justice refused to pre-clear the
17 seat. The House had to go to federal court
18 with the Department of Justice there. The
19 concern there was that Collier County, which is
20 a covered jurisdiction under Section 5 of the
21 Voting Rights Act, the concern there was that
22 Hispanic Floridians would not be able to elect
23 a candidate of choice. Had the Legislature
24 just connected the seats in Miami-Dade, they
25 would be able to elect a candidate of choice as

1 part of -- I believe it was a court settlement
2 -- counsel is nodding yes -- as part of a court
3 settlement. The Legislature agreed to redraw
4 that seat, connecting it with Miami-Dade
5 Hispanic residents to maintain that ability to
6 elect. So that seat was actually a
7 court-ordered drawing.

8 Just so you know, in terms of a
9 difference, in terms of talking about
10 cross-state seats, as part of that settlement,
11 the effect of it was that there was another
12 district that was also drawn across state in
13 order to minimize what that court settlement
14 required, and that cross-state district has
15 been eliminated. But, again, this seat was
16 actually required per a court settlement and a
17 refusal to pre-clear.

18 REPRESENTATIVE KIAR: Thank you,
19 Mr. Chair. That was very helpful.

20 REPRESENTATIVE WEATHERFORD: Okay, great.
21 Any other questions, suggestions, from members?

22 Yes, Representative Rogers, you are
23 recognized.

24 REPRESENTATIVE ROGERS: I am asking for a
25 definition of "opportunity districts."

1 REPRESENTATIVE WEATHERFORD: You would
2 like a definition of "opportunity districts"?

3 REPRESENTATIVE ROGERS: As it relates
4 to --

5 REPRESENTATIVE WEATHERFORD: A legal
6 definition?

7 REPRESENTATIVE ROGERS: No, I will take
8 your --

9 REPRESENTATIVE WEATHERFORD: No, you don't
10 want mine. Mine would probably not be as
11 accurate. We have Mr. Meros here. Is there a
12 legal definition of an opportunity district,
13 and if so, maybe our legal counsel could give
14 that to us.

15 You are recognized, Mr. Meros. Thanks for
16 being here. Would you turn the microphone on,
17 please?

18 MR. MEROS: There really is no precise
19 definition of an opportunity district or an
20 influenced district. The notion is that the
21 minority population would be sufficient to have
22 a significant influence and impact on policy
23 decisions. Sometimes you might want to say an
24 opportunity district might be one that could,
25 in fact, elect the minority's candidate of

1 choice, but may not. But those are -- those
2 are not legally precise terms. I guess you
3 didn't like that --

4 REPRESENTATIVE WEATHERFORD: For a
5 follow-up.

6 MR. MEROS: -- explanation.

7 REPRESENTATIVE ROGERS: Okay. How does
8 that differ from a coalition district?

9 REPRESENTATIVE WEATHERFORD: Mr. Meros?

10 MR. MEROS: Well, a coalition district is
11 one where either the minority population would
12 coalesce with another minority population and
13 vote similarly, or a minority population would
14 coalesce with a non-minority population and
15 vote similarly. That is the notion of two
16 groups getting together and voting in the same
17 way.

18 REPRESENTATIVE WEATHERFORD: Maybe we can
19 have more coalition voting in the Florida
20 Legislature, what do you think about that?

21 Representative Rogers, do you have a
22 follow-up? You are good? Okay, great.

23 Thank you, Mr. Meros, for clarifying both
24 of those terms for us. We will continue to
25 work on our coalition building in the Florida

1 House for sure.

2 Any other questions or suggestions from
3 members?

4 What I have gotten from this is, you know,
5 there was a couple of suggestions to not move
6 forward with 9031 on the premise that it did
7 not have the minority-majority seat and the
8 access seat in Orange County. There was some
9 suggestion -- when you really look at 9025 and
10 9027, they are essentially the same everywhere
11 except for in the Tallahassee area. You have
12 one that has three county splits, or three
13 districts in one county; the other one has two.
14 I think in the spirit of the law and what we
15 are trying to do, the preferable district would
16 be 9027, which I think we had a few people
17 mention. So that doesn't mean that anything in
18 9025 or anything in 9031 that you may like,
19 members, or anything else cannot be
20 incorporated, but for the purposes of moving
21 forward and for clarity for the membership who
22 are going to be filing amendments, I think we
23 should move forward with 9027, and any
24 amendments that members may have can address
25 them to 9027 for next week's committee meeting.

1 Does anybody have any questions or
2 comments about that? Representative Kiar, you
3 are recognized.

4 REPRESENTATIVE KIAR: Thank you,
5 Mr. Chair. So the maps are -- the only map
6 then that is going to move forward is 9027 at
7 this time? So the other two are -- is that
8 what you --

9 REPRESENTATIVE WEATHERFORD: It is not --
10 they will all be available for the committee
11 meeting next week, but the truth is now the
12 nuances between the districts are now becoming
13 much smaller. And so as opposed to hearing and
14 taking the time to go through three maps, the
15 idea would be we focus on one map. If you like
16 a portion of another map, you can file an
17 amendment, we would help you file the amendment
18 to add that -- those distinctions to 9027. So
19 it is -- if you want to incorporate any of the
20 maps that we are currently looking at now or
21 any other thing, or any other map that has been
22 drawn in the past, we can incorporate it, but
23 just so that members are clear about what to
24 draft amendments to, we are going to focus on
25 9027.

1 REPRESENTATIVE KIAR: Thank you very much.

2 REPRESENTATIVE WEATHERFORD: Any other
3 questions?

4 Okay, great. Moving forward, we are going
5 to move to the Senate map introduction. Before
6 we do that, I would like to recognize Chairman
7 Representative Nehr, who has done a great job
8 on the Senate maps, and along with his partner,
9 Representative Hukill.

10 Representative Nehr, you are recognized to
11 give us a brief description, and then we will
12 turn it over to Jason Poreda to explain the
13 difference, or explain the map.

14 REPRESENTATIVE NEHR: Thank you,
15 Mr. Chairman.

16 Before Mr. Poreda gives a more detailed
17 presentation of the Senate map proposal, I
18 wanted to share with the members of the
19 Committee some details regarding the plan as a
20 whole and how it compares to the current
21 district plan that we have right now.

22 For the 40 districts in this map, there is
23 only a 1.84 percent total population deviation.
24 Compared to the current map, the bill reduces
25 the number of county splits from 45 all the way

1 down to 31, and the number of city splits from
2 126 to the really low number of only 78, and I
3 think that is a very, very good thing that we
4 did.

5 In looking at some of the more
6 mathematical compactness scores relating to
7 perimeters and height and width of districts as
8 it looks on the map, this proposed committee
9 bill consistently improves the compactness of
10 Florida's 40 State Senate districts. Looking
11 at some of the more functional compactness
12 measures, such as drive times, the bill again
13 consistently improves these measures of
14 compactness compared to the existing State
15 Senate map.

16 The bill maintains Florida's commitment to
17 compliance with the Federal Voting Rights Act
18 of 1965, both Sections 2 and 5, and the
19 Florida's constitutional standards regarding
20 racial and language minorities. In fact,
21 Mr. Chairman, the bill increases the number of
22 50 percent plus Hispanic voting age population
23 districts from three in the current map to five
24 in the proposed committee bill. So the bill
25 would most likely increase representation for

1 Hispanic Floridians.

2 Mr. Chairman, thank you for the
3 opportunity, and that concludes my comments.

4 REPRESENTATIVE WEATHERFORD: Thank you
5 very much, and congratulations again. With
6 that, we will move to Mr. Poreda, who is going
7 to walk us through some of the details of the
8 map.

9 MR. POREDA: Thank you, Mr. Chairman. I
10 will try to get through the map as briefly as
11 possible so we can get out of here. So I will
12 kind of follow along with what Mr. Kelly and
13 what Mr. Takacs did and kind of talk about the
14 map regionally, as opposed to getting into the
15 specifics of exactly what each district does.

16 So I will first talk about Districts 2 and
17 4, which kind of work in conjunction to each
18 other. They are kind of horizontally drawn
19 districts that one includes the coastal
20 community of those counties, the other, the
21 more rural parts of those counties, and then
22 ends at the county line of -- I will turn on
23 the county names so you can see them -- of
24 Jackson and Bay County before moving further
25 east.

1 Kind of talking about -- I will kind of
2 start with talking about -- it's District 6 on
3 this map, but kind of talk about it with
4 District 3 and District 14 that you see there.
5 District 6, 3 and 14 all encompass basically
6 just whole counties. You can see District 6 is
7 made up entirely of whole counties,
8 specifically, Gadsden, Calhoun, Gulf, Liberty,
9 Franklin, Taylor, Wakulla, Jefferson, Leon,
10 Madison and Hamilton Counties. District 3
11 encompasses a lot of the counties -- whole
12 counties along the Nature Coast, as well as a
13 part of Marion. District 14 includes all of
14 Clay County, Bradford County and Alachua
15 County. So you can see that the -- how they
16 were all drawn.

17 Then kind of moving over into the
18 northeast Jacksonville area, I will first talk
19 about District 1 that you see here on the map,
20 which kind of stretches from the Jacksonville
21 area down through St. Johns County and the
22 Putnam County, eventually ending up in the
23 Daytona Beach area around in Volusia County.
24 That is a district that was redrawn that
25 traditionally elects a minority candidate of

1 choice, and this map kind of maintains that
2 same opportunity. District 5 and District 8
3 kind of drawn keeping with that minority
4 opportunity district that you see right there
5 kind of in mind. District 5 encompasses most
6 of the rest of Duval County and then keeps
7 Nassau County whole, and District 8 kind of
8 runs along the coast of St. Johns and Flagler
9 down into Volusia County there.

10 You can see here District 20 keeps -- has
11 the majority of Marion County, including all of
12 the City of Ocala, the majority of Putnam
13 County, and then goes a little bit into Lee and
14 Sumter Counties to keep The Villages community
15 whole, and then some of the municipalities here
16 in Lee County whole as well on the north side.

17 Kind of getting into the central Florida
18 area, District 19 is another district that
19 recreates a -- or kind of maintains a -- the
20 opportunity for minorities in the areas of
21 Orange County and part of Seminole County to
22 elect their candidate of choice, a district
23 that has traditionally elected their candidate
24 of choice.

25 District 24 is a new majority Hispanic

1 district that was drawn in central Florida that
2 encompasses part of Orange, Osceola and Polk
3 Counties. And then you can see some of the
4 public input that we received from Volusia
5 County was asking to keep the majority of that
6 county wholly together, and which this does
7 going a little bit south into Brevard County
8 and also Orange County for population.

9 Kind of going back over to the Gulf Coast,
10 you can see that kind of south of District 3
11 and District 20 that we talked about before,
12 District 11 here encompasses most -- all of
13 Hernando County and then a lot of Pasco and
14 Sumter Counties.

15 And then kind of in the Hillsborough area,
16 as we mentioned before, Hillsborough County is
17 a Section 5-protected county. District 18 that
18 you see here is a district that was redrawn to
19 create the opportunity for minorities in that
20 area to elect their candidate of choice. This
21 map kind of recreates that opportunity.
22 District 10 and District 13 are drawn wholly
23 within either Pinellas or Hillsborough County
24 to kind of give them a seat there. District 15
25 kind of wraps around that majority-minority

1 district that we talked about before,
2 encompassing the rest of Osceola County and the
3 north part of Polk County and a little bit of
4 south Orange County there.

5 In the center of the state, you see
6 District 17 that keeps several counties whole,
7 including the south part of Polk and then going
8 over to include the more rural parts of St.
9 Lucie and Martin Counties. And District 28 and
10 26 kind of run along the coast, the Space
11 Coast, down to the Treasure Coast here, kind of
12 keeping those communities whole there.

13 Going kind of back over to the Gulf Coast
14 real quick, you can Sarasota County was kept
15 whole in District 23, and then the more coastal
16 areas of Lee and Collier County were kept whole
17 or kept together in District 37.

18 Moving back over to kind of the southeast
19 Florida area, kind of zoom in a little bit so
20 you can see the District 29, which is a -- it
21 looks like a very thin district that kind of
22 runs from Palm Beach to Broward County. That
23 is a majority-minority black seat that was
24 recreated on this map. And the other districts
25 that you can see drawn around them kind of keep

1 those communities together kind of around
2 there, and a lot of respect was drawn to city
3 boundaries. Maybe I can try to turn them on so
4 you can see them, zoom in a little bit. That
5 is how some of these areas in here were drawn,
6 keeping that minority district in mind,
7 obviously splitting some cities, but where
8 possible, keeping the other boundaries whole.

9 And then as you go south, District 39, as
10 I mentioned before, residents of Hendry County
11 were asked to not be connected with residents
12 of Dade County. That is another district
13 that -- because of Hendry and Collier Counties'
14 Section 5 protection, that is another district
15 that was drawn -- recreated to maintain the
16 same opportunity that exists today in that
17 district.

18 And then there are three other districts
19 in Dade County that have a voting age --
20 Hispanic voting age population of above
21 50 percent. That would be 38, 36 and 35 here
22 on the map.

23 District 33 that you see there kind of
24 stretches over the Broward/Miami-Dade line.
25 That is a district that is a majority-minority

1 black seat that was redrawn as well.

2 And that's kind of the basic points of the
3 map.

4 A VOICE: Is there a fourth?

5 MR. POREDA: I'm sorry, that is right.
6 District 40 that you see right here that has
7 part of Hialeah, that is actually a fourth
8 majority-minority Hispanic district in Dade
9 County.

10 REPRESENTATIVE WEATHERFORD: Okay, great.
11 Members, any questions for Mr. Poreda in regard
12 to the Senate map? Okay, Representative Kiar.

13 REPRESENTATIVE KIAR: I just have a quick
14 question. I have been wondering about -- on
15 District 39, you see how there's -- you know,
16 it is a big district, but then all of a sudden,
17 there's like a little line that shoots all the
18 way through to butt up against the other
19 majority-minority district, and I am just
20 wondering, that little line right there, what's
21 the need for it and does that make a district
22 contiguous?

23 REPRESENTATIVE WEATHERFORD: You are
24 recognized.

25 MR. POREDA: Yes, that district does

1 remain contiguous. It is all wholly kept
2 together. The reason for those -- that kind of
3 extension of the district is to increase the
4 black voting age population of the district to
5 maintain that same opportunity since it is
6 connected to Collier and Hendry County, the
7 protected counties under Section 5.

8 REPRESENTATIVE KIAR: Just one follow-up?

9 REPRESENTATIVE WEATHERFORD: You are
10 recognized.

11 REPRESENTATIVE KIAR: So I guess my
12 follow-up question to that is, does that then
13 decrease the black voting age population of
14 District 33, or does that still remain the
15 same?

16 REPRESENTATIVE WEATHERFORD: You are
17 recognized.

18 MR. POREDA: It doesn't decrease it under
19 50 percent. It is still an over 50 percent
20 majority-minority seat. The exact
21 percentage -- if you will give me a moment.
22 The percentage of the black voting age
23 population in District 33 that you see there on
24 the map is 57.75. On the current map that it
25 is right now, it is currently 59.23 percent.

1 REPRESENTATIVE KIAR: Thank you. Thank
2 you, Mr. Chair.

3 REPRESENTATIVE WEATHERFORD: You're
4 welcome. Thank you.

5 Any other questions? Representative
6 Bernard, did you have a question? You are
7 recognized, sir.

8 REPRESENTATIVE BERNARD: Thank you,
9 Mr. Chair. This will also be long-winded.

10 REPRESENTATIVE WEATHERFORD: Then you can
11 probably predict what my suggestion will be.

12 REPRESENTATIVE BERNARD: But I just want
13 to get it on the record, Mr. Chair.

14 REPRESENTATIVE WEATHERFORD: Please do so.

15 REPRESENTATIVE BERNARD: This is my
16 attempt to redo the minority districts in
17 District 29 and 33, which will change the
18 current -- this map, District 25, 29, 30, 34,
19 31, 32 and 33.

20 First let's go into District 29. What I
21 am proposing is based on the map that we -- the
22 House map that we picked, to configure it to be
23 more along the line of District 92, 94 and 95.
24 District 92, the total black population is
25 52,674.84. The District 94 is 85,310.57.

1 District 95 is 89,304. That would lead you to
2 a total of 227,290 black population. If you
3 combine those three districts, that totals
4 466,169, which would change that district to a
5 total black population of 48.76.

6 In regards to the Hispanic population in
7 that district, the -- in District 92, the total
8 Hispanic population is 27,530, in District 94,
9 it is 18,842 and in District 95, it is 26,206,
10 which would total 72,578.35, which would lead
11 you to a total Hispanic population of 15.57.

12 The total Haitian population in that
13 district, in 92, is 16,391, 16,527, 20,150,
14 which is a total of 53,068 population, which
15 would lead you to a total of 11.38 Haitian
16 population.

17 The total District 29 now would be --
18 basically it would look like exactly District
19 92, 94, 95, and where it wouldn't stretch into
20 Palm Beach County and where it would maintain a
21 compact shape in Broward County. The cities
22 that it would include would be -- it would make
23 the cities of Deerfield Beach more compact, Ft.
24 Lauderdale more compact, Oakland Park more
25 compact, Pompano Beach more compact, Wilton

1 Manors, Lauderdale Lakes, Margate, North
2 Lauderdale, Tamarac, Lauderhill, Lazy Lake,
3 Plantation, North Lauderdale and Sunrise, and
4 that would be that district.

5 What it does is it changes how you would
6 draw the districts, the population in Palm
7 Beach County would also have to change. Based
8 on the current House map that we -- that we
9 said we are going to go with, currently
10 District 87 as it is drawn is a
11 majority-minority seat, and District 88 --
12 District 87 is a majority Hispanic seat and
13 District 88 is a majority-minority seat. If a
14 district is drawn from -- from the top of the
15 -- I think from North Lake all the way down to
16 the Delray Beach line, and it includes -- if
17 you go from Military Trail east to Dixie, or if
18 you go all the way out to the ocean, where if
19 you include the districts of 89, 90 and 91,
20 that would give you a total population of --
21 the total black population would be 30 percent,
22 the total Hispanic population would be
23 28 percent. The total voting age population, I
24 believe, would be near a 28 percent black
25 population and about a 26 percent Hispanic

1 population. Therefore, in Palm Beach County,
2 the residents of Palm Beach County would be
3 able to elect a Representative of their choice
4 by creating a coalition district where now they
5 would be different.

6 Now, what that -- the cities that this
7 district would include would be the cities of
8 Delray Beach, Boynton Beach, Lake Park, Lake
9 Worth, Lantana would be a stronger district,
10 Mangonia Park, Riviera Beach, West Palm Beach
11 would be much stronger. You would have the
12 cities of Cloud Lake, Glen Ridge, Green Acres,
13 Lake Shores, Palm Springs, Hypoluxo and the
14 City of Atlantis.

15 Next, because of the total population of
16 Broward County, based on the census, Broward
17 County's got a population of 1,748,066
18 population. The total population for Broward
19 County is 26.7 black, 25.1 percent Hispanic,
20 43.5 percent white. So the total black
21 population in Broward County is 466,733.62 and
22 the total Hispanic population is 438,764.66 and
23 the total white population is 760,408.71. By
24 changing District 29 to be predominantly in
25 Broward County, now what we can do is we have

1 to change District 33, which is a -- which is
2 now a Miami-Dade and a Broward County seat.
3 What I am proposing is that the Miami-Dade
4 District 33 seat would stay only in Dade
5 County, and that would include the district of
6 107, 108 and 109, which is the districts that
7 we drew out of this Committee. Now, what
8 you -- then what you would have to do is
9 District 31, as is proposed, what I am
10 suggesting is that we make that a coalition
11 district where it would be compact where you
12 would include the district of 101 and 102 and
13 you could add part of District 100 and part
14 of -- where you would probably split Miami
15 Gardens into two. By doing that, then District
16 31 would be a coalition district where it would
17 be -- you could probably add -- if you add
18 District 101 and 102, the total black
19 population for District 101 and 102 is
20 138,277.21, the total Hispanic population is
21 112,012.46 and the total Haitian population is
22 18,000. What I am proposing is that by
23 changing District 29 and 33, they would be more
24 compact and you would additionally add two
25 coalition districts and one in Broward and one

1 in Palm Beach County where those residents in
2 Broward and in Palm Beach County would get to
3 elect a Representative of their choice.

4 Thank you, Mr. Chair.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much, Representative Bernard. We
7 appreciate that very thorough explanation, and,
8 again, I think I would suggest, as opposed to
9 responding to it, I think you've got some very
10 interesting suggestions there, I think we would
11 like to see them, and would encourage you or
12 other members to take a look at it in an
13 amendatory process, and that way we can see it
14 exactly for what it is and have a chance to
15 vote on it next Friday, but thank you very
16 much.

17 Representative Clarke-Reed, you are
18 recognized.

19 REPRESENTATIVE CLARKE-REED: Thank you,
20 Mr. Chair, and thanks for indulging me in this
21 question that has been coming up. Will you
22 please tell me, in all of these maps that we
23 are drawing, how are we counting the prison
24 population? Are they counted as voters in the
25 district that the prison is in? I just want to

1 clarify that.

2 REPRESENTATIVE WEATHERFORD: I think I
3 know the answer to this, but I want to make
4 sure we are saying it right, so I am going to
5 let Alex answer.

6 MR. KELLY: Thank you, Mr. Chair.

7 Representative Clarke-Reed, every Florida
8 resident, including inmates, are counted. So
9 whatever district they are counted in, they are
10 counted as a resident.

11 In terms of -- and just, you know, where
12 this subject goes sometimes in terms of things
13 like whether a minority district will perform
14 and things like that and does the prison
15 population affect that, you do look at
16 additional -- additional information to verify
17 that a district will perform. So if you have a
18 prison in a district, and if that district is
19 perhaps, let's say, a minority district, you
20 still look at additional information to make
21 sure that the district would perform, or have a
22 likelihood of performing for a minority
23 candidate of choice. But every Florida
24 resident who was here in the state April 1,
25 2010, is counted in this process.

1 REPRESENTATIVE CLARKE-REED: Follow-up,
2 Mr. Chair?

3 REPRESENTATIVE WEATHERFORD: For
4 follow-up.

5 REPRESENTATIVE CLARKE-REED: Thank you
6 very much, Mr. Chair.

7 Thank you for that answer. Follow-up: Is
8 -- are the prisoners counted to the district
9 that they come from or their home district or
10 are they counted to the district that the
11 prison is in?

12 REPRESENTATIVE WEATHERFORD: They are
13 counted in the district that they live in,
14 which would be the prison that they are in.

15 REPRESENTATIVE CLARKE-REED: I don't think
16 you answered my question.

17 REPRESENTATIVE WEATHERFORD: Yes, I did.
18 They are counted in the prison that they are
19 in.

20 REPRESENTATIVE CLARKE-REED: They are
21 counted in the prison that they are in?

22 REPRESENTATIVE WEATHERFORD: Yes.

23 REPRESENTATIVE CLARKE-REED: Okay, thank
24 you.

25 REPRESENTATIVE WEATHERFORD: Any other

1 questions, suggestions?

2 Okay. Well, I think as we move forward
3 with the Senate map, certainly Representative
4 Bernard and many others have suggested ideas,
5 certainly they can do that by filing
6 amendments. Again, the amendment deadline is
7 Wednesday at noon. Substitute amendments would
8 be Thursday at noon. So please get those in in
9 time for that.

10 Well, members, this has been a long
11 committee meeting. If anyone doesn't have
12 anything else to share, I just want to thank
13 you for your indulgence today. I think we've
14 got a lot of work done. And as I explained
15 earlier, things are going to move very quickly
16 now, and next Friday when we ultimately take
17 these maps to the floor, we will -- I'm sorry,
18 as we vote to take these maps to the floor, we
19 will be making some decisions. So if you need
20 or if you think you need our staff to help you,
21 please reach out to them, but with that, I
22 appreciate everyone's thoughts today and
23 Representative Schenck moves we rise.

24 (Whereupon, the proceedings concluded.)

HOUSE REDISTRICTING COMMITTEE MEETING

FRIDAY, JANUARY 27, 2012

Transcribed by:

CLARA C. ROTRUCK

Court Reporter

1 T A P E D P R O C E E D I N G S

2 REPRESENTATIVE WEATHERFORD: Okay,
3 members, if we can get everybody to take their
4 seats and get settled, we are going to get
5 started. If we can get everybody to get
6 settled, I think we have everybody seated.

7 Katie, if you would, please call the roll.

8 THE CLERK: Representatives Adkins?

9 REPRESENTATIVE ADKINS: Here.

10 THE CLERK: Bernard?

11 REPRESENTATIVE BERNARD: Here.

12 THE CLERK: Chestnut?

13 REPRESENTATIVE CHESTNUT: Here.

14 THE CLERK: Dorworth?

15 REPRESENTATIVE DORWORTH: Here.

16 THE CLERK: Eisnaugle?

17 REPRESENTATIVE EISNAUGLE: Here.

18 THE CLERK: Fresen?

19 REPRESENTATIVE FRESEN: Here.

20 THE CLERK: Frishe?

21 REPRESENTATIVE FRISHE: Here.

22 THE CLERK: Holder?

23 REPRESENTATIVE HOLDER: Here.

24 THE CLERK: Horner?

25 REPRESENTATIVE HORNER: Here.

1 THE CLERK: Hukill?
2 REPRESENTATIVE HUKILL: Here.
3 THE CLERK: Jenne?
4 REPRESENTATIVE JENNE: Here.
5 THE CLERK: Jones?
6 REPRESENTATIVE JONES: Here.
7 THE CLERK: Kiar?
8 REPRESENTATIVE KIAR: Here.
9 THE CLERK: Legg?
10 REPRESENTATIVE LEGG: Here.
11 THE CLERK: Nehr?
12 REPRESENTATIVE NEHR: Here.
13 THE CLERK: Precourt?
14 REPRESENTATIVE PRECOURT: Here.
15 THE CLERK: Rogers?
16 REPRESENTATIVE ROGERS: Here.
17 THE CLERK: Rouson?
18 REPRESENTATIVE ROUSON: Here.
19 THE CLERK: Schenck?
20 REPRESENTATIVE SCHENCK: Here.
21 THE CLERK: Workman?
22 REPRESENTATIVE WORKMAN: Here.
23 THE CLERK: Chair Weatherford?
24 REPRESENTATIVE WEATHERFORD: Here.
25 THE CLERK: A quorum is present.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much, Katie.

3 Good morning, members. Thank you for
4 hanging around on a Friday. We are certainly
5 going to try to be judicious with everyone's
6 time, but I think we all know that we are here
7 to do a very important job, so we are not going
8 to rush through it. We are going to make sure
9 everybody has an opportunity to participate.

10 I want to thank the Committee. I think
11 this has been a very long process, and
12 hopefully today will be the culmination of a
13 committee that has been very deliberate,
14 started nine or ten months ago, and has worked
15 for a product -- multiple products that I think
16 we can be proud of.

17 Members, at our last meeting, we
18 workshopped seven options for Florida's two
19 State Legislative maps and Congressional map.

20 Regarding the State House map, last week
21 members of the Committee recommended that we
22 take up House Joint Resolution 6011, which is
23 plan 9027, this week.

24 Regarding the Congressional map, there
25 were members of the Committee that recommended

1 that we take up House Bill 6005, which is plan
2 9043, this week as well. As such, today we
3 will take up the maps in the following order:

4 The proposed State House map, House Joint
5 Resolution 9011 will be first. The proposed
6 Congressional map, House Bill 9005 will be
7 second, and the proposed Senate map, House
8 Joint Resolution 9001 will be third.

9 There are amendments drafted to each of
10 these. There are two amendments drafted to
11 House Joint Resolution 9011, there are two
12 amendments drafted to House Bill 9005 and
13 there's -- that is a six, okay. We have a
14 misprint on my script. It is not 9001, 9006.
15 That is probably an important thing to point
16 out. And -- what's that? 6001. Okay. So let
17 me clarify that for everyone.

18 The House Joint Resolution for the State
19 Senate map is 6001, not 9001. That is my
20 fault, I apologize for that, 6001.

21 In regard to amendments, there are
22 amendments drafted to each of these. There are
23 two amendments drafted to the House map, 9011,
24 there are two amendments drafted to the
25 Congressional map, 9005, and there's one

1 amendment drafted to the House Joint Resolution
2 for the Senate map, 6001.

3 Just so that we are all on the same page
4 here, Vice-Chairman Precourt has filed an
5 amendment to each of these Bills, and I have
6 filed amendments both to the House State map
7 and to the Congressional map.

8 Everyone here should have received an
9 e-mail from me Wednesday noting that I filed my
10 amendments based on a request from three
11 organizations, including the League of Women
12 Voters of Florida, who very recently submitted
13 maps for our consideration.

14 I filed those amendments as a courtesy to
15 those organizations so that their suggestions
16 for us and their critiques of us could be heard
17 here on the record. As I have stated
18 repeatedly to everyone here, that if you have a
19 way to make these maps more legally appropriate
20 or compliant, we certainly want to give your
21 ideas a fair consideration.

22 I did ask that they be here to explain
23 their maps in the same manner that every other
24 proposal before you has been explained. Just
25 at the outset, I want to let you know that they

1 have declined to explain via a letter that they
2 sent us last evening.

3 Now, with that said, members, there are --
4 are there any questions of us or anything I
5 have stated thus far about the process going
6 forward for today? Any questions?

7 Okay. Seeing no questions, at this time,
8 we are going to take up House Joint Resolution
9 9011, which is -- 6011, which is also State
10 House Map 9027. Members, this is the sixth tab
11 in your packets.

12 Representative Schenck, who is Co-Chair of
13 the Committee, you are recognized to explain
14 the Bill, sir.

15 REPRESENTATIVE SCHENCK: Thank you,
16 Mr. Chair, and it is great to be here on
17 another Friday redistricting with you and the
18 rest of the Committee.

19 Last week as a committee, we decided to
20 consider HJR 6011, which is also map 9027, as
21 the base map for this week. HJR 6011 makes
22 dramatic improvements to Florida's State House
23 map, particularly when you just look at the map
24 side by side with the current House map that
25 was adopted in 2002.

1 Overall, it has a 3.97 percent population
2 deviation. The Joint Resolution splits only 30
3 of 67 counties, compared to 46 in the current
4 map, and only splits 84 of a total of 411
5 cities in the state, compared to 170 on the
6 current map.

7 Just to put that in perspective, by
8 population and geography, you must split 29
9 counties. So splitting 30 counties is only one
10 above what is physically even possible.

11 Pursuant to federal and state law, this
12 proposed map preserves the existing
13 opportunities for racial and language
14 minorities in Florida to elect the candidate of
15 their choice. We believe that this map
16 actually creates new opportunities in certain
17 areas of the state. It does all of this while
18 also being significantly more compact than the
19 current map.

20 To be very frank, Mr. Chair and members of
21 the Committee, I am astounded as to how compact
22 the staff was able to get all 120 districts,
23 even most of the minority districts.

24 With that, Mr. Chairman, we are all
25 familiar with the Bill, and so I will turn it

1 over to you for amendments.

2 REPRESENTATIVE WEATHERFORD: Okay. Thank
3 you very much for the explanation.

4 Members, we are going to move right into
5 the amendatory process, so why don't we move on
6 to the first amendment.

7 Amendment number one, State House Map
8 9049, which is by Vice-Chair Precourt.
9 Representative Precourt, you are recognized to
10 explain your amendment, sir.

11 REPRESENTATIVE PRECOURT: Thank you,
12 Mr. Chair.

13 Members, this amendment, which is also map
14 9049, I believe you have it in your packets, it
15 makes a number of changes to the base map. And
16 due to the detail that we have here, I am going
17 to go ahead and turn it over to staff to
18 provide a much more detailed presentation.

19 The guys who can run the computer like a
20 wizard, but overall, the amendment seeks to
21 make what you guys had as an already good
22 product even better.

23 Some of the changes resulted from staff
24 just going back and taking a second and a third
25 look at what they had already drawn, and, you

1 know, really it is more like a 20th and a 30th
2 look.

3 So we had them go back and take a second
4 and third look over the map, find other
5 improvements that could be made, and we also
6 got more comments from members of the public
7 and several Supervisors of Elections, as well
8 as local county and municipal officials. So
9 we've got a number of things that we considered
10 in making these changes and improvements.

11 In addition to several other things
12 though, I think you are going to see something
13 very impressive. The staff were able to
14 make -- reduce -- changes that reduces the
15 cities split from an already impressive only 84
16 down to 75. So that is something to pay close
17 attention to as we are going through this
18 presentation.

19 And with that, Mr. Takacs, can you go
20 ahead and take us through the changes
21 themselves?

22 REPRESENTATIVE WEATHERFORD: You are
23 recognized, Mr. Takacs.

24 MR. TAKACS: Thank you, Mr. Chairman.

25 Members, in your packets, there are --

1 there's an amendment packet in each of your
2 binders. So if you want to take a look at
3 that --

4 REPRESENTATIVE WEATHERFORD: And, members,
5 if you can, it is actually a separate packet,
6 if you pull it out, it's -- you got it, okay.

7 MR. TAKACS: Thank you, Mr. Chairman.

8 I am just going to walk through the
9 different areas of the map that are changes
10 between the map that was workshopped last week
11 and the amendment that Vice-Chair Precourt has
12 filed.

13 First we are going to look in Pinellas
14 County. I am going to zoom in here. We were
15 able to discover that the city -- the Town of
16 Indian Shores could be kept whole, all within
17 one district. You will see here that there is
18 the city there on the screen.

19 By just making a minor adjustment to the
20 boundaries of 66 and 69, all of the Town of
21 Indian Shores is brought into District 66.

22 Moving over to Brevard County, a similar
23 situation. As we were scoping through the map
24 and looking for different areas, different
25 cities and municipalities that could be kept

1 whole within the map, we discovered that both
2 the City of Palm Bay, which you see here on the
3 screen, as well as the City of Melbourne Beach,
4 could be kept whole.

5 You see this is actually the amendment
6 before you, and that is what is accomplished
7 here, both the City of Palm Bay and the City of
8 West Melbourne -- I'm sorry, Melbourne Beach
9 are whole within the two districts.

10 Moving further south into Miami-Dade
11 County, we were able to discover that the Town
12 of Medley could be kept whole within a
13 district.

14 The adjustment was made between Districts
15 103 and 110. You will see here -- there, that
16 is where the Town of Medley's boundaries are,
17 and you can see that now that is all brought
18 into District 103.

19 Staying in Miami-Dade County, the Town of
20 Sweetwater can also be kept whole within a
21 district. So the adjustment was made to
22 District 105 to include all of that city within
23 the district.

24 One of the other things that we were doing
25 as we were reviewing this map was to see if

1 there were ways to improve the way that
2 districts follow natural or geographic boundary
3 lines, and one of those examples in this
4 amendment is the difference -- the boundary
5 between Districts 100 and 107.

6 As you zoom in here, you will see that the
7 city boundary there kind of zigs and zags right
8 along U.S. 1, and there were some boundary
9 issues there where we were trying to pick up
10 pieces of that particular municipality, which
11 was already split between the two districts.

12 So what we did -- I will turn the city
13 boundaries off. As you can see, we just
14 straightened out that line to use U.S. 1, you
15 know, that geographic boundary line between the
16 two districts.

17 A similar concept in Volusia County
18 between Districts 26 and 27. There was a --
19 East Graves Avenue was used as the boundary
20 between the two districts here, and I will zoom
21 in and show you that here in just a moment.

22 And basically what we did was we
23 straightened out that line. It does affect two
24 people that are -- that were in that un- --
25 kind of that jagged edge that we had

1 previously, but, again, we have smoothed that
2 out between Districts 26 and 27, and you will
3 see here that's where that line is here. We
4 just straightened that line out, again, to
5 better follow the roadway.

6 As the Chairman said, thinking about
7 public testimony, I will move into Lee County.
8 We received a significant amount of testimony
9 from the folks of the Estero community in Lee
10 County requesting that they be kept whole.

11 As we had mentioned in the meeting last
12 week, that we believe that maybe with some
13 possible minor adjustments to the districts,
14 that could be achieved, and that's what's done
15 here.

16 You will see in District 76, which is the
17 yellow district here, this is the general area
18 of Estero, and as you can see, the lines were
19 adjusted to make Estero whole within that --
20 within that particular district.

21 I should also note that as we were looking
22 at Lee County as a whole, we made some changes
23 to District 78 as well. It still has all of
24 the City of Ft. Myers within its boundaries,
25 but we wanted to use the roadways as a better

1 boundary and geographic boundary between
2 Districts 78, 79, and 78 and 76. So that's
3 what that change is there.

4 Going back to the concept of keeping
5 cities whole, we took a hard look at Polk
6 County, and I'm going to turn the city lines
7 back on so that you can see.

8 When you look at the Bill that we
9 workshopped last week versus this amendment
10 that is before you today, we were able to
11 determine that four municipalities in Polk
12 County could be kept whole with some
13 adjustments between 39 and 41, as well as a
14 minor adjustment to 42.

15 The municipalities that are kept whole --
16 I will kind of zoom in here a little bit closer
17 so you can take a look. The cities that are
18 now kept whole is Auburndale. You can see they
19 are wholly within 39, Lake Alfred, which is
20 wholly within 41, Haines City, which is here,
21 that is wholly within 41, and then as I
22 mentioned, with a minor adjustment to 42, the
23 City of Frostproof is now wholly within that
24 district.

25 Moving up into Duval County, thinking

1 about the testimony that we reviewed last week,
2 we heard from some testimony that there was a
3 request to see if there were some districts
4 that could better follow the St. Johns River as
5 a use of a geographic boundary between the two
6 districts.

7 After last week's meeting, we took a look
8 at Duval County as a whole to see if that could
9 be achieved, and you will see here, with the
10 amendment, that it is. If you look between
11 Districts 15 and 16 now that the St. Johns
12 River is used as the boundary between the two
13 districts, as we adjusted the population
14 between those two districts, what we were also
15 able to discover was that we could improve the
16 compactness of 14 and 12, as you can see here
17 on the screen, and then also increase or
18 improve the functional compactness, thinking
19 about drive times, for the residents of
20 District 11, which is the green district here
21 that comes into Nassau County and into portions
22 of Duval. So that is, again, what the Duval
23 County change would look like.

24 REPRESENTATIVE WEATHERFORD: Mr. Takacs,
25 if you could, I think Mr. Kelly wanted to add

1 something to that.

2 MR. KELLY: Thank you, Mr. Chair.

3 Just to add to this, looking at District
4 13, which is right in the center of the county,
5 it has been a fairly compact seat in any of the
6 designs, but what we did notice in examining
7 this is that we had split several
8 neighborhoods.

9 So what we did was we adjusted a number of
10 the lines just to make sure that a neighborhood
11 is completely in one district or completely in
12 another. So we did some general cleanup to
13 District 13, which is also a majority-minority
14 seat. Just wanted to add that. Thank you,
15 Mr. Chair.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 Mr. Kelly.

18 Mr. Takacs, you are recognized to
19 continue.

20 MR. TAKACS: Thank you, Mr. Chairman.

21 Moving south into Palm Beach County, when
22 we looked at Districts 81, 85 and 86, we saw
23 two things: One, that there was a possibility
24 for those districts to be drawn more compactly,
25 and also to bring in the unincorporated area of

1 the acreage to make that wholly within one
2 district.

3 So that is what this portion of the
4 amendment does here. The acreage area that I
5 am talking about. I will turn the city
6 boundaries off -- is in this general vicinity
7 here. It is kind of an inverted L-shape. So
8 what we did was kind of we smoothed this line
9 out here and then brought the line down here.

10 I should also mention that while doing so,
11 we were still able to keep the municipalities
12 of Wellington, Loxahatchee Groves and Royal
13 Palm Beach wholly within 86 as a part of that
14 change. That was not -- those municipalities
15 were not affected in this amendment. They were
16 always in 86 to begin with.

17 I am going to move back up. We received
18 some comments from various Supervisors of
19 Elections' office. You know, as we mentioned
20 last week, one of those was from the Clay
21 County Supervisor's Office. I am going to zoom
22 in here real close. They asked that one census
23 block that was on the boundary between
24 Districts 18 and 19 be moved into District 19.

25 I am going to do my best to zoom in on

1 that particular census block so you can see
2 what we're talking about. They requested that
3 that be done so that the boundaries line up
4 with the Camp Blanding Florida National Guard
5 base. So that is done here in this amendment.

6 And if you will bear with me here, I will
7 work to find that -- that particular census
8 block. It affects no population, it was along
9 a roadway, and actually what we did was we
10 actually brought in the census block that was a
11 very small census block on top of the one they
12 asked so that it would create a squared-off, 90
13 degree angle for that roadway.

14 I am going to go over to Leon County now.
15 As we had mentioned last week, the Supervisor
16 of Elections' Office in that county asked us
17 for a series of changes between the boundaries
18 of Districts 8 and 9. You can see them here.

19 In the series of requests that they gave
20 us, there were three requests that they asked
21 in whole, and their second request was actually
22 a two-part request.

23 What we had found is we had looked at
24 making all three of those changes, that the
25 black -- the black voting age population for

1 District 8, which is currently a
2 majority-minority black district, would
3 actually have dropped to 49.99 percent, taking
4 away that majority-minority status for that
5 particular district.

6 So what we did was we made all of the
7 changes possible to preserve that
8 majority-minority district and also following
9 the request of the Supervisor of Elections. So
10 of the three requests, we essentially honored
11 two and a half of those requests.

12 And lastly, Mr. Chairman, ending at the
13 beginning, the Escambia County Supervisor of
14 Elections' Office asked us to take a look at
15 the boundary between Districts 1 and 2 and how
16 they interacted with the city boundary of
17 Pensacola.

18 I am going to zoom in here so you can take
19 a look at what we did. What we did was in this
20 region here, we initially had used, I believe,
21 this roadway here where my mouse is as the
22 boundary in this particular area of the two
23 districts, and they requested that we drop that
24 down so that it would match up with the City of
25 Pensacola's line, and so we did that in

1 accordance to their request.

2 And, Mr. Chairman, that is the amendment.

3 REPRESENTATIVE WEATHERFORD: Thank you
4 very much, Mr. Takacs.

5 Members, are there any questions on the
6 amendment? I think we had a question from
7 Representative Bernard. You are recognized,
8 sir.

9 REPRESENTATIVE BERNARD: Thank you,
10 Mr. Chair.

11 Jeff, going back to -- in Palm Beach
12 County, District 85 and 86, it appears to me
13 that initially you had the community of Century
14 Village in -- I think in District 85, and I
15 don't know where it is at now, if it's been
16 shifted to District 86, or is it still in 85?

17 REPRESENTATIVE WEATHERFORD: You are
18 recognized.

19 MR. TAKACS: Thank you, Mr. Chairman.

20 Let me get to that area on the map and we
21 can -- we can see. Thinking about the
22 amendment, Mr. Chairman, I can tell you that --
23 and I will zoom in here a little bit closer,
24 Representative Bernard.

25 The only area that was affected in 85 is

1 this area here, and then when you look to 86 to
2 make up for the population in order to make the
3 districts more compact, that came from this
4 area here. So I don't know if you are able to
5 see, if that shows you enough visually to
6 answer your question.

7 REPRESENTATIVE BERNARD: Okay. So is it
8 in 86 now? I just want to know which one --

9 REPRESENTATIVE WEATHERFORD: I think what
10 he is saying, Representative Bernard, is that
11 the swap of population was between those two
12 districts of 85 and 86.

13 REPRESENTATIVE BERNARD: Thank you very
14 much, Mr. Chair.

15 REPRESENTATIVE WEATHERFORD: Any other
16 questions, members, in regard -- Representative
17 Jones, you are recognized.

18 REPRESENTATIVE JONES: Thank you,
19 Mr. Chairman, and I know I heard you state what
20 the breakdown was in terms of the number of
21 cities and the difference with what this
22 amendment made. Can you tell us what that
23 split count is?

24 REPRESENTATIVE WEATHERFORD: You are
25 recognized.

1 MR. TAKACS: Thank you, Mr. Chairman.

2 After the amendment, there would be 75
3 Florida cities that are split. Prior to this
4 amendment, it was 84.

5 REPRESENTATIVE WEATHERFORD: Thank you
6 very much. Any other questions, members?

7 Okay, seeing none, is there any public
8 testimony on the amendment? Any public
9 testimony on this amendment?

10 Okay. Members, any debate on the
11 amendment?

12 Seeing no debate, Representative Precourt,
13 you are recognized to close on the amendment.

14 REPRESENTATIVE PRECOURT: Thank you,
15 Mr. Chair, and just in closing, I want to draw
16 everyone's attention to the level of detail in
17 tightening this up and the effort that staff
18 put into this.

19 It was -- they were tremendously helpful,
20 and you can see how difficult it is and how
21 challenging to get this just right. So thank
22 you, Mr. Chair, for tasking us with this.

23 REPRESENTATIVE WEATHERFORD: Thank you.
24 And with that, if the administrative assistant
25 would please call the roll.

1 THE CLERK: Chair Weatherford?
2 REPRESENTATIVE WEATHERFORD: Yes.
3 THE CLERK: Representative Adkins?
4 REPRESENTATIVE ADKINS: Yes.
5 THE CLERK: Bernard?
6 REPRESENTATIVE BERNARD: No.
7 THE CLERK: Chestnut?
8 REPRESENTATIVE CHESTNUT: No.
9 THE CLERK: Dorworth?
10 REPRESENTATIVE DORWORTH: Yes.
11 THE CLERK: Eisnaugle?
12 REPRESENTATIVE EISNAUGLE: Yes.
13 THE CLERK: Fresen?
14 REPRESENTATIVE FRESEN: Yes.
15 THE CLERK: Frishe?
16 REPRESENTATIVE FRISHE: Yes.
17 THE CLERK: Holder?
18 REPRESENTATIVE HOLDER: Yes.
19 THE CLERK: Horner?
20 REPRESENTATIVE HORNER: Yes.
21 THE CLERK: Hukill?
22 REPRESENTATIVE HUKILL: Yes.
23 THE CLERK: Jenne?
24 REPRESENTATIVE JENNE: No.
25 THE CLERK: Jones?

1 REPRESENTATIVE JONES: No.

2 THE CLERK: Kiar?

3 REPRESENTATIVE KIAR: No.

4 THE CLERK: Legg?

5 REPRESENTATIVE LEGG: Yes.

6 THE CLERK: Nehr?

7 REPRESENTATIVE NEHR: Yes.

8 THE CLERK: Precourt?

9 REPRESENTATIVE PRECOURT: Yes.

10 THE CLERK: Rogers?

11 REPRESENTATIVE ROGERS: No.

12 THE CLERK: Rouson?

13 REPRESENTATIVE ROUSON: No.

14 THE CLERK: Schenck?

15 REPRESENTATIVE SCHENCK: Yes.

16 THE CLERK: Workman?

17 REPRESENTATIVE WORKMAN: Yes.

18 REPRESENTATIVE WEATHERFORD: Show the
19 amendment passes.

20 Members, at this time, I am going to turn
21 the gavel over to Vice-Chair so that I can
22 explain the next amendment.

23 REPRESENTATIVE PRECOURT: Thank you,
24 Mr. Chair. Okay. You are recognized to
25 explain the next amendment.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much.

3 Members, probably a little unc customary, if
4 that is even a word, for the Chairman of the
5 Committee to offer an amendment, but I thought
6 it was important.

7 The League of Women Voters and many
8 organizations have followed this process since
9 the very beginning. They have traveled around
10 the state with us as we did public hearings and
11 have been, frankly, a part of this throughout
12 from the very first day this committee met.

13 And so when they asked us to consider a
14 map that they had taken the time to draw, I
15 thought that it would be perfectly appropriate
16 for this committee to do so, and so I offered
17 it because the workshop process had been done,
18 we are now into the amendatory process.

19 So the only way essentially to consider it
20 would be to file it as an amendment, and I
21 thought that that would be the appropriate
22 thing to do.

23 We have worked extremely hard to make this
24 process a no-surprises process. We have made
25 this, I believe, to be very open, very

1 transparent. I think we have followed the
2 letter to the law up until the very end. And I
3 have to say I am a little bit disappointed that
4 the League has chosen not to speak, and I want
5 to just one more time before I go into the
6 explanation of the map, I know there are
7 members of the representative of the League of
8 Women Voters that are here, Mr. Wilcox, who
9 serves as their lobbyist.

10 Mr. Wilcox, we would love to have you come
11 and express any of your thoughts on this map.
12 I know y'all worked hard on it. We have had
13 many others express thoughts, and just one more
14 time we would love to give you a chance to do
15 that or share any words with the Committee.
16 Not prepared to do that? Okay.

17 Well, I think the citizens of Florida
18 deserve better than a 12-page letter the night
19 before the Committee meets, and I think the
20 citizens of Florida deserve better than a map
21 proposed to this Committee two and a half days
22 before we take a vote.

23 We put our maps out on December 6th,
24 members, we put all of our maps out on
25 December 6th. We have been talking about them

1 for six or eight weeks. Any amendments could
2 be filed, any comments could be made. We've
3 made adjustments to the maps based on
4 suggestions from members of this Committee and
5 members of the public.

6 We have made adjustments based on what we
7 thought to make the map more legally compliant.
8 And, frankly, I find it disappointing that
9 anyone would suggest first calling our maps --
10 looking at them in a derogatory manner saying
11 that they don't follow the letter of the law,
12 and then refusing to stand before us and
13 explain to us how theirs does, and I am very
14 disappointed by that.

15 But, Mr. Chairman, since we don't have
16 members to speak on that, I think that it is a
17 frankly unfortunate political and more likely
18 probably a legal stunt that this is taking, and
19 I frankly find it offensive personally how
20 hard -- given how hard this Committee and given
21 how hard this Chamber has worked to try to make
22 this process fair and open.

23 And with that, that is my explanation of
24 the amendment.

25 REPRESENTATIVE PRECOURT: Thank you,

1 Representative Weatherford.

2 Members, are there any questions of the
3 Representative on the amendment?

4 Seeing no questions, is there any public
5 testimony on this amendment? Second chance,
6 another bite at the apple.

7 Seeing no public testimony, members, we
8 are moving right into debate. Is there anyone
9 that wishes to debate on this amendment?

10 Representative Eisnaugle, you are
11 recognized in debate.

12 REPRESENTATIVE EISNAUGLE: Thank you,
13 Mr. Vice-Chairman. I will keep it brief.

14 I view this amendment and the letter that
15 I have had a chance to review, the 12-page
16 letter, as nothing more than pre-textual. The
17 letter states that the House map is plainly
18 drawn to favor incumbents. It has an entire
19 section discussing that.

20 I was incredibly disappointed when I read
21 the letter, because while it mentions several
22 members of the Legislature and several
23 districts who are not drawn into the same
24 district, it utterly fails to discuss and
25 adequately discuss those members who are drawn

1 into the same district as other members.

2 And, Mr. Vice-Chairman, it -- you know, I
3 was shocked by that, frankly, because
4 personally I know that there are members drawn
5 into the same district as other members.

6 Frankly, sir, you and I are drawn into the
7 same district in this map, and yet this letter
8 fails to even put it in a footnote. I find it
9 disingenuous, I find the amendment
10 disingenuous, and, Mr. Chairman, I am also
11 offended by it, and I encourage the Committee
12 to reject this amendment.

13 REPRESENTATIVE PRECOURT: Thank you,
14 Representative Eisnaugle.

15 Further debate on the amendment?
16 Representative Workman.

17 REPRESENTATIVE WORKMAN: I was going to
18 speak, but Eric has chinned me up, and I did
19 review the map and, you know, they try to do
20 this nesting thing that flies in the face of
21 our minority districts.

22 They create a map that is going to be
23 difficult to get Hispanics elected in
24 predominantly Hispanic areas, and I find it
25 insulting, because we spent so much time early

1 making maps that would not degrade their right
2 to choose, to elect a person of their choice,
3 and these maps tend to -- well, not tend to --
4 seem to fly in the face of that basic tenet
5 that we put together.

6 It reduces the black. I can go on and on
7 with what it reduces in regards to our minority
8 populations, but I won't. So I certainly want
9 to say that I am in favor of voting this map
10 down loudly.

11 REPRESENTATIVE PRECOURT: Thank you,
12 Representative Workman.

13 Further debate? I think we have a
14 question or debate from Representative Frishe.
15 You are recognized.

16 REPRESENTATIVE FRISHE: It's kind of a --
17 thank you, Mr. Chairman. It is kind of a
18 question. I thought we were hearing from the
19 League of Women Voters. Clearly we are hearing
20 from the Audubon Society, because we are
21 talking about nesting now, not redistricting.

22 REPRESENTATIVE PRECOURT: Thank you for
23 that comment, Representative Frishe.

24 Now we will move to Representative Nehr.
25 You are recognized in debate.

1 REPRESENTATIVE NEHR: Thank you,
2 Mr. Chair.

3 You know, it is very inherent in this
4 process that we hear from people and
5 organizations regarding the maps and how --
6 suggestions on how to improve those maps.

7 We have heard many suggestions over the
8 course of many months that we have gone around;
9 however, it is always consistent in those cases
10 that the citizens and the groups took the time
11 to explain all of their reasonings behind the
12 suggestions and the changes.

13 And, likewise, our own staff made many
14 recommendations, and in addition, explained
15 them fully to everyone how they affected the
16 legality of the maps.

17 Everything I have heard and seen when I
18 looked at the maps and the letter I have read
19 does not explain anything. The League does not
20 explain why they say our maps are poorly drawn,
21 they don't explain why theirs are better.

22 Now, I have no idea why they have done
23 that, why they refuse to come out and explain
24 anything. It is -- as far as I am concerned, I
25 don't see any reason why any of us could vote

1 in favor of the League's maps today, and I
2 suggest that everyone vote this amendment down.

3 REPRESENTATIVE PRECOURT: Thank you,
4 Representative Nehr.

5 Further debate on the issue?
6 Representative Julien, you are recognized.

7 REPRESENTATIVE BERNARD: Bernard.

8 REPRESENTATIVE PRECOURT: Bernard, sorry.

9 REPRESENTATIVE BERNARD: We look alike.
10 Thank you, Mr. Chair.

11 REPRESENTATIVE PRECOURT: Justice is
12 blind.

13 REPRESENTATIVE BERNARD: Thank you,
14 Mr. Chair.

15 At this time, I am going to vote against
16 the map since we received -- I think it was
17 filed on Monday, and I haven't had the chance
18 to review the map fully to understand the
19 impact of the map. So at this time, I will
20 vote against the map.

21 REPRESENTATIVE PRECOURT: Thank you,
22 Representative Bernard.

23 Representative Horner, you are recognized
24 in debate.

25 REPRESENTATIVE HORNER: Thank you,

1 Mr. Chairman.

2 I've spent a little bit of time looking at
3 the subcommittee product, looking at the
4 League's map, and the thing that strikes me is
5 the exceptional job that the subcommittee did
6 and the staff has done in using whole counties
7 in putting these districts together, or keeping
8 districts entirely within a county. To be only
9 one over your -- the mathematical possibility
10 is, frankly, amazing.

11 It looks to me the League gave precedence
12 to this nesting concept and felt that nesting,
13 which is not mentioned anywhere in the
14 Constitution, was somehow more important than
15 preserving political boundaries, and
16 specifically county boundaries.

17 And we spent all summer hearing from folks
18 that it was important to preserve these county
19 boundaries, we needed to go by Amendment 5. So
20 just looking at it on its face, our maps have
21 fewer county splits and they are more compact.
22 So it is an easy choice for me, and I will be
23 voting down this amendment.

24 REPRESENTATIVE PRECOURT: Thank you,
25 Representative Horner.

1 Further debate?

2 REPRESENTATIVE HUKILL: Yes.

3 REPRESENTATIVE PRECOURT: Representative
4 Hukill, you are recognized in debate.

5 REPRESENTATIVE HUKILL: Thank you,
6 Mr. Chairman.

7 I have to reiterate what some people have
8 said. We did spend a lot of time, many members
9 traveled throughout the state this year, so
10 that we could hear from so many people in very
11 different parts of the states and how they felt
12 that we should be completing this process.

13 And yet when I look at this amendment and
14 some of these districts, and they're areas that
15 we visited, which you look at Duval County and
16 you look at Polk and the Space Coast and
17 southwest Florida, I can't even find the words
18 to describe some of these districts.

19 And I think that if we had the
20 opportunity, I know we don't, but if we had the
21 opportunity to go back face-to-face and visit
22 some of these areas, that at the very least,
23 the people we spoke to would be extremely upset
24 and probably would be very vocal and -- about
25 these particular types of districts.

1 I do want to compliment the members of the
2 public who did spent an awful lot of time
3 devising their maps and giving us comments so
4 that we could understand their thinking and how
5 they arrived at their feeling about the maps
6 and the maps that they created, and I think
7 that it is a compliment to the many people who
8 did take the time to explain it to us, because
9 it is very important to us, and that is -- and
10 even more important today as we sit here and
11 the League refuses to explain how they
12 developed their districts and what their
13 process and what their thought process was.

14 So I do once again want to compliment the
15 subcommittees and also this Committee, and I
16 would vote not in favor of this amendment.

17 REPRESENTATIVE PRECOURT: Thank you,
18 Representative Hukill.

19 Further debate? Representative Dorworth,
20 you are recognized in debate.

21 REPRESENTATIVE DORWORTH: Thank you,
22 Mr. Chairman. Like you, the allergies in town
23 can get to me a little bit, so forgive my -- my
24 voice is a little weak today.

25 But I do find some irony that the

1 organization whose battle cry throughout the
2 legislative hearings on redistricting was "Show
3 us the maps," showed us the maps about 60 hours
4 before we were expected to vote on the maps.

5 When you, Mr. Chairman, and the Chairman
6 in the Senate, Senator Gaetz, made a
7 conscientious decision for us to travel
8 throughout the state, hold hearings and to have
9 the most transparent process certainly in the
10 history of redistricting in the state of
11 Florida, and possibly in this country, by
12 offering an open-source software so that people
13 could see the programming tools that we use,
14 they made the conscientious decision to bring a
15 map, to not share with us who authored that
16 map.

17 We have no idea who did, we don't know
18 what computers were used for it, we don't know
19 if they were operatives for one particular
20 political party, we don't know anything about
21 it. And today we as a deliberative body are
22 being asked to vote on them. We are not able
23 to ask any questions.

24 And the juxtaposition to me of our
25 committee staff standing before you, week after

1 week, offering amendments and showing why we
2 were doing it, improving compactness, showing
3 fewer city splits, fewer county splits,
4 adhering to all the standards set forth by
5 Amendments 5 and 6 in our Constitution were
6 brought there, and instead what we see today is
7 a map, a half-hearted explanation and a
8 steadfast refusal to address it all.

9 So I think it is pretty obvious which way
10 I am leaning on that, but I think I would be
11 very much opposed to doing it. Thank you.

12 REPRESENTATIVE PRECOURT: Thank you,
13 Representative Dorworth.

14 Representative Legg, I believe you wanted
15 to debate.

16 REPRESENTATIVE LEGG: Thank you,
17 Mr. Chair.

18 You know, going throughout the state and
19 the public hearings, I have attended over half
20 of them, and one of the -- kind of the
21 nomenclature that was said is dealing with
22 compactness, and many of the folks and mainly
23 from the League of Women Voters said when they
24 said, you know, when we asked them what was
25 their definition of "compactness," and they

1 says, "Well, we'll know it when we see it," you
2 know.

3 And I looked at -- I look at the map up
4 there and I look at our region, or my region,
5 in particular, the Tampa Bay region over there,
6 and if that is the definition -- their
7 definition of "compactness" compared to our --
8 the map that's been proposed, I would be
9 shocked and amazed.

10 My three-year-old could draw something a
11 little bit more compact than that. That is
12 anything but compact. I find it is kind of
13 insulting to those many folks that went out
14 there and spoke at the public hearings and the
15 definition of "compactness," you know.

16 And I will just have to also say, you
17 know, for once, I am going to enjoy voting
18 against Chair Weatherford for -- I think it's
19 the first time I've ever done that.

20 REPRESENTATIVE PRECOURT: I am sure he is
21 happy that we could tee this up for you.

22 Further debate, anyone? Any further
23 debate? Okay. Seeing no further debate,
24 Representative -- Chair Weatherford, you are
25 recognized to close on your amendment.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much, Chairman.

3 Before I close, I know we have had a
4 chance to hear from all the members of the
5 Committee, but I do think that there are
6 probably some -- some legal issues and maybe
7 some details that I am probably not equipped to
8 answer to close out this debate and make sure
9 that everyone has all the information before we
10 take a vote.

11 So I would like to just very briefly, as
12 part of my close, ask staff and our legal team
13 to walk us through some of the details that are
14 in this map that I think need to be
15 transparently discussed before we take a vote.
16 So I would like to transfer that over to Mr.
17 Kelly.

18 REPRESENTATIVE PRECOURT: You are
19 recognized, Mr. Kelly.

20 MR. KELLY: Thank you, Mr. Chair and
21 members, and Mr. Chair, pursuant to your
22 request, in the time that we were afforded when
23 the letter was received last night.

24 We did -- as staff, we did a cursory
25 review of the letter, again, to the extent of

1 time we had. Right now, Mr. Fairbrother is
2 passing out a copy of the letter to any of the
3 members who have yet to see it.

4 There were -- we do note some statements
5 made in the letter that are, in fact, not
6 correct, and in other cases are revealing in
7 terms of this process and the legal issues
8 involved in this process.

9 First, page one of the letter, the League
10 and others state that their maps contain more
11 whole counties and more whole cities than do
12 the Legislature's proposed maps.

13 However, looking at the tables provided on
14 pages three to four, their own data illustrates
15 that this is not the case. In terms of county
16 splits -- Mr. Takacs has put on the screen a
17 chart for you.

18 In terms of county splits, the House map
19 proposed, the Precourt amendment that was just
20 adopted, the House map only splits 30 counties,
21 the League map splits 32.

22 In terms of -- and just to -- this covers
23 the Congressional map briefly as well. In
24 terms of the Congressional map, the amendment
25 that is being considered later today would

1 split 21 counties. The League amendment would
2 split 22. Not a great difference, but,
3 nonetheless, the statement on page one of the
4 document is inaccurate.

5 In terms of municipal splits, as you can
6 see on the screen, in terms of the State House
7 map, the Precourt amendment brings the city
8 split total down to 75. The League amendment
9 is at 70. Out of Florida's 411 municipalities,
10 there's a difference of five.

11 Note, in terms of the document that was --
12 the letter that was provided by the League,
13 they are stating that there are over 1,000
14 cities in the state of Florida.

15 Not sure whether it was an intentional or
16 unintentional inaccuracy, but at the time of
17 the 2010 census, there were 411 municipalities,
18 incorporated municipalities, in the state. It
19 is likely that they are including data related
20 to unincorporated communities, but,
21 nonetheless, the data in the letter is not
22 accurate.

23 There are a very similar number of
24 municipal splits in the State House map being
25 proposed by the House and the map being

1 proposed by the League.

2 In terms of the Congressional map, again,
3 looking at the screen, the Precourt amendment
4 that you will be looking at later today brings
5 the total number of city splits in the House's
6 proposal down to 27. The League's proposal is
7 at 36.

8 Moving on in the document, page eight of
9 the League's letter state that the districts
10 are very similar to the 2002 districts, and
11 that the new districts contain almost
12 60 percent of their old constituencies.

13 We found that 52 of the 120 districts, so
14 less than half, shared that 60 percent or
15 greater population of a district from the 2002
16 map. However, when you factor in that many of
17 the minority districts by law will result in
18 sharing similar constituencies, this statistic
19 turns out to be relatively misleading in terms
20 of its use and the actual compliance with the
21 law.

22 On page nine of the letter, the League
23 references -- just, again, to a very specific
24 example -- the League references the division
25 between the districts that would be represented

1 by Representative Adkins and Representative
2 Renuart, and that line -- according to what the
3 League has found is that that line is a short
4 distance from Representative Renuart's
5 residence.

6 What is failed to be mentioned in the
7 letter is that that division is the St.
8 Johns/Duval County line. The line was used in
9 adherence to following county boundary lines.
10 What is also failed to be mentioned in the
11 letter is that the League's submission uses the
12 same line in their map.

13 By implication, the particular accusation
14 and others also brings into question -- well,
15 actually, illustrates that the League's data
16 includes the residence of the members, at least
17 some of the members of the Legislature.

18 In addition to that, by using the same
19 line, the question then does come up, did the
20 League intend to favor Representative Renuart
21 in the drawing of their map.

22 At the very end, page 11 of the letter,
23 the League acknowledges that the proposed State
24 House map by the House is more compact than
25 their proposed State House map. The assertion

1 that is made following is that this is the
2 result of due to the House's proposed map not
3 being as adherent to political and geographical
4 boundary lines.

5 However, as was just mentioned in the
6 League's own data tables on pages three to four
7 of the document, they actually show that the
8 House -- Jeff, if you could go back to that
9 visual -- they actually show that the House
10 used county lines slightly more frequently than
11 the League did, and in addition, nothing the
12 correction that we noted earlier about city
13 splits, the House used -- the House split fewer
14 cities in the Congressional map, the League
15 split fewer cities in the State House map, but
16 both numbers are very comparable, and in every
17 case, all the numbers on the screen are a
18 significant departure from the existing maps.

19 Those numbers being relatively equal or
20 similar in terms of county splits and city
21 splits, the data then just does come back to
22 point that the State House proposed map by the
23 House is significantly more compact than the
24 proposed amendment.

25 That is it, Mr. Chair, in examining the

1 letter. The letter did not actually address
2 your questions about who drew the map, how the
3 lines were picked. The letter did note that
4 the lines were picked based on corresponding
5 with the League's proposed State Senate map,
6 but in that case, it didn't note how those
7 lines were picked for that map, nor were there
8 any questions answered regarding the
9 methodology of drawing districts in a manner
10 which does seem to subordinate compactness in
11 an irregular fashion compared to other
12 standards.

13 Thank you, Mr. Chair, that is our
14 analysis.

15 REPRESENTATIVE PRECOURT: Thank you, Mr.
16 Kelly, for that very thorough analysis in such
17 a short time frame, I might add. Who knows
18 when you have a little bit more time to go
19 through this and dig further?

20 Chair Weatherford, are you finished with
21 your close?

22 REPRESENTATIVE WEATHERFORD: Well, I just
23 -- I wanted to give the opportunity -- we have
24 members of our legal team here. Just very
25 briefly, if there's anything that we've missed

1 or that the Committee needs to be aware of
2 before we take a vote, I would like to give
3 them that opportunity, Mr. Meros.

4 MR. MEROS: Thank you, Mr. Chair and
5 members. I will be brief, but there are some
6 very important legal matters to consider here.

7 If this map had been proposed on
8 December 6th or any day after that, I would
9 have advised this Committee that it violates
10 the amendments -- it violates Amendment 5, it
11 violates the Voting Rights Act, and I will be
12 brief about some portions of it, but I would
13 like Mr. DeGrande to talk about the Hispanic
14 districts in south Florida, because that is a
15 particularly egregious example of the
16 violations of law here.

17 I would like to talk about the issue of
18 compactness and just go directly into that, and
19 Mr. Takacs has some districts that I would like
20 to compare.

21 Now, compactness has all different sorts
22 of mathematical measurements, but one of the
23 key elements of compactness is the visual
24 element, and as Dr. Bernie Grothman said, whose
25 opinion about how to assess minority Voting

1 Rights Act was accepted by the U.S. Supreme
2 Court in the Jingles case.

3 Dr. Grothman says the best way to look at
4 compactness is the intraocular test, and that
5 is if it leaps out at you and hits you between
6 the eyes, you know it isn't compact. And so
7 let's look at some of these districts.

8 On the left is the House map in the Duval
9 County area, which, by the way, includes two
10 majority-minority African-American seats,
11 which, nonetheless, are amazingly compact,
12 particularly as against 2002. Look at District
13 2 on the right. I don't know how you would
14 describe that.

15 I can tell you that I am sure Chair Legg's
16 three-year-old could do a better job than that
17 in drawing that map. That is not a
18 majority-minority district. That is -- that is
19 a regular district with no explanation
20 whatsoever as to how that could be compact.
21 And if I am correct, and Jeff will correct me
22 if I am wrong, that crosses the St. Johns River
23 in an area where there is no bridge. So bring
24 your boat if you want to be in that district.

25 Going down further south to the next area,

1 and particularly looking at the Districts 54,
2 55, 84, on the House map, and then compare that
3 with District 78. One of the things you always
4 worry about in compactness measures is whether
5 there is a loop-around or a horseshoe or
6 something like that surrounding a district.
7 Again, there are no Section 2 or legal
8 requirements to do so. Seventy-eight is
9 unprotected and absolutely uncompact.

10 Going a little further south from there to
11 the Pasco County area, right, and look at --
12 look at what the House did on the left, compact
13 districts within the county, and look at the
14 jagged edges and the knife stabs along the
15 county for no other legal reason, no legal
16 compulsion.

17 Going further south to District -- to the
18 areas of District 78 and District 76 on the
19 House map, and one might not believe that that
20 -- that District 68 includes something north of
21 the number and south, but, again, that is a
22 district. I don't know what you would call it,
23 it is not a majority-minority district. It has
24 appendages, it has jagged edges.

25 It has all of the things that if this

1 House had done in maps, you would have been
2 excoriated for doing. You cannot explain this
3 by any common sense measurement without someone
4 accusing you of having a political reason to do
5 so.

6 The only other thing I will say, again,
7 because I do need to be brief, the notion of
8 nesting is not in and of itself a nefarious
9 concept, but the first thing to notice, it is
10 not in Amendment 5.

11 If the House, again, had interposed a
12 concept that was not in Amendment 5, you would
13 have been lambasted from the beginning about
14 doing so.

15 Another thing about nesting, beware, there
16 are studies, including the University of
17 California study, that says that nesting makes
18 it much more difficult to preserve minority
19 voting rights, it makes it much more difficult
20 to preserve county and other geographical
21 boundaries.

22 And when I think about nesting in a common
23 sense way, if you have a Senate district and
24 three House districts, ask yourself, can a
25 citizen who wants to become a Legislator, who

1 is not a Legislator, win in the House or the
2 Senate when you have three House members vying
3 for a Senate seat who are already in the area
4 and have name ID, can citizen Legislator win
5 that Senate district? I don't think so.

6 Think about a Senator coming into the
7 House. Can a Senator who represents that
8 entire area be beaten by a citizen Legislator
9 in an area by virtue of nesting? I don't think
10 so. I cannot imagine that this House would
11 have been applauded for a concept that might
12 have the effect of incumbency protection.

13 So with that, I would ask if Mr. DeGrande
14 can talk briefly about south Florida.

15 REPRESENTATIVE LEGG: Mr. DeGrande, you
16 are recognized.

17 MR. DEGRANDE: Thank you, Mr. Chairman.
18 Good morning, members.

19 If I may, we have significant concerns
20 that in south Florida, the districts that were
21 crafted will not only violate the Federal
22 Voting Rights Act, but would also violate the
23 provisions of Tier 1 of Amendment 5.

24 In fact, this plan would take you probably
25 to a place prior to pre-1992 redistricting.

1 In the late 1980s, when I was elected to
2 the House of Representatives and was privileged
3 to sit at that table, we had seven
4 majority-minority Hispanic seats. After the
5 1992 redistricting, as of the 1994 election, I
6 believe, there were ten performing
7 majority-minority Hispanic seats. The 2002
8 plan created 11, and this plan, in my analysis,
9 would take it to, at best, nine.

10 Now, you see some of the districts that
11 look in their face to be more than 50 percent
12 VAP. Let me walk you through some of the
13 issues that exist there.

14 For Hispanic districts, you normally want
15 to have anywhere from minimum, bare minimum,
16 55, but better, 60 percent Hispanic VAP,
17 because you have to factor in for the low
18 citizenship rate, registration rate, et cetera,
19 and make sure that those districts perform.

20 This plan has elements of both cracking
21 and packing to defeat the rights of minorities
22 to elect candidates of choice. You see three
23 districts in Miami-Dade County that are
24 Hispanic districts that are over 90 percent
25 Hispanic, and then you see some 50 some percent

1 districts, and some of them are adjacent to
2 each other and it makes you wonder why they
3 weren't balanced.

4 If you look, for example, at District 107,
5 that is 55 percent Hispanic VAP. It is
6 adjacent to District 117, which is at 90.6
7 percent VAP. It is adjacent to District 118,
8 which is 87.9 percent VAP. It is adjacent to
9 108, which is 81 percent VAP. Now, that
10 district, which is 107, only 55 percent
11 Hispanic VAP, is actually only 46 percent
12 Hispanic registered voters.

13 Now, we have looked at one particular race
14 that was recent to see how these districts may
15 have performed. We looked at the
16 Rubio/Meek/Crist Senate race. In this
17 district, Senator Rubio would have gotten
18 elected, and Senator Rubio was overwhelmingly
19 the Hispanic candidate of choice, but only
20 because he was also in that district the white,
21 non-Hispanic candidate of choice.

22 So what it tells you is that's more of a,
23 at best, coalition district, but not a true
24 majority-minority Hispanic district.

25 We look now at District 106, which is

1 53 percent Hispanic VAP. It is adjacent to
2 District 108, which is 81 percent. In the
3 proposed League of Women Voters district map,
4 106 has an actual percentage of Hispanic
5 registered voters of only 37 percent.

6 Now, District 120, which is 50.67 Hispanic
7 VAP, neighbors District 118 at 87.9, District
8 119 at 91 percent. The actual percentage of
9 Hispanic registered voters in that district is
10 only 40 percent.

11 Now, again, we looked at the
12 Rubio/Meek/Crist race. That district would
13 also have elected Senator Rubio, who was
14 clearly the Hispanic candidate of choice, but
15 also because the non-Hispanic white candidate
16 -- he was the non-Hispanic white candidate of
17 choice in that election. Again, indicates
18 that, at best, it would be a coalition
19 district, not truly a majority-minority
20 District.

21 District 115, which is 51.37 percent
22 Hispanic VAP, is in proximity of District 114
23 at 82.8, to District 117 at 90.6. Now, this
24 district has an actual percentage of Hispanic
25 registered voters of only 33 percent.

1 Now, again looking at that Rubio race,
2 this district would not have favored Senator
3 Rubio, because although he was clearly the
4 Hispanic candidate of choice, in that
5 particular district, he was not the white,
6 non-Hispanic candidate of choice. And that
7 illustrates the problems with that district
8 where Hispanics do not have an equal
9 opportunity to elect a candidate of choice.

10 I could go very briefly, if you want, into
11 some of the African-American districts. In my
12 opinion, the League of Women Voters' map
13 contains only one majority black district
14 predominantly within Miami-Dade County. That
15 is District 98, and that District is a bare
16 minimum 51 percent in black voter registration.

17 The League of Women Voters proposed
18 Districts 99, 101 and 102 are retrogressed back
19 to 49 percent black registration, 45 percent
20 black registration and 46 percent black
21 registration, respectively.

22 In my opinion, Mr. Chairman, the map
23 suffers from both cracking and packing. There
24 is clearly evidence in Miami-Dade County that
25 the three prongs of Jingles are met. Most

1 recently, there was also a study regarding
2 polarized voting in Miami-Dade County to craft
3 their redistricting plan, which certainly
4 indicates, based on that analysis and data,
5 that the three prongs of Jingles are met in
6 Miami-Dade County.

7 And, therefore, a conscious effort to
8 dilute minority strength in some districts, and
9 at the same time, pack minorities in another
10 district to diminish the opportunity to create
11 effective adjoining districts I believe would
12 violate the Voting Rights Act and certainly
13 violates Tier 1 of Amendment 5. Thank you,
14 Mr. Chairman.

15 REPRESENTATIVE PRECOURT: Thank you,
16 Mr. DeGrande.

17 Chairman Weatherford, back to you.

18 REPRESENTATIVE WEATHERFORD: Thank you,
19 Mr. Chairman.

20 I want to apologize to the Committee and
21 to the members who are here for the longest
22 close in history, but I think it was necessary,
23 and I am not going to drag this out much
24 longer, but I will just say that the integrity
25 of this process and the manner in which this

1 process has gone forward for the last eight
2 months is very important to this Committee, and
3 not just important to me, but the fact that we
4 are protecting the integrity of this process.

5 This is the first time that the
6 Legislature, and particularly the House, has
7 had a chance to pass maps with new
8 constitutional standards. So we are setting
9 a -- we are setting a course for how future
10 Legislators and how future members of this
11 Chamber will handle the redistricting process,
12 and that is an important thing, it is bigger
13 than this map, it is bigger than today.

14 And so I believe it is incumbent on me and
15 on us to protect the integrity of that process.
16 A lot of people predicted there would be a
17 January or February surprise from the House.
18 When we first put out our maps and people
19 recognized the amount of incumbents that would
20 be running against each other, many members
21 within this room did not believe these were
22 going to be the real maps.

23 They thought surely members would not draw
24 maps that would take themselves out of their
25 districts. Who would do that? They thought

1 surely there will be some January surprise or
2 February surprise that will come into the
3 process and will save everyone.

4 Little did we know that not only were we
5 going to stay the course and do what we said we
6 were going to do since March, but that the
7 January surprise would come from the very
8 organization that told us that they didn't
9 think that we would be transparent or open or
10 that we would follow the law.

11 And so the January surprises come from
12 them, and to -- for anyone to say -- and this
13 is what I took most issue with in that
14 letter -- for anyone to say that any type of
15 political and/or incumbent protection was
16 considered in this map is just wrong.

17 There is over -- according to accounts
18 from the media, not me, one out of every three
19 members who sits on that floor with us does not
20 live in their district or is paired with
21 someone else, one out of every three.

22 I would challenge any member of this
23 Committee to go find any state in the United
24 States of America that was not issued a court
25 order that has ever drawn out a third of their

1 membership, a third.

2 So, with that, I am going to read you a
3 quote that I heard from the League by their
4 Chair just a few months ago that said, "We
5 remain concerned that the citizens will have
6 minimal time to give substantive comment on the
7 real maps being concerned by the Legislature --
8 being proposed by the Legislature." We have
9 given citizens plenty of time to consider our
10 maps. They have given the citizens none.

11 And for that, members, for the integrity
12 of this process, I would ask that you vote down
13 this amendment. I never thought I would ask
14 members to vote against my amendment, but in
15 this case, I will, and help us protect the
16 integrity of this process.

17 Thank you, Mr. Chairman.

18 REPRESENTATIVE PRECOURT: Thank you,
19 Chairman Weatherford. Members, Chairman
20 Weatherford having closed on the amendment --
21 procedurally, remember, we are voting on the
22 League of Women Voters Weatherford amendment
23 right now.

24 We will get back to voting on the
25 underlying Bill in a minute, but with that

1 closed, Katie, will you please call the roll on
2 this amendment?

3 THE CLERK: Chair Weatherford?

4 REPRESENTATIVE WEATHERFORD: No.

5 THE CLERK: Representative Adkins?

6 REPRESENTATIVE ADKINS: No.

7 THE CLERK: Representative Bernard?

8 REPRESENTATIVE BERNARD: No.

9 THE CLERK: Chestnut?

10 REPRESENTATIVE CHESTNUT: No.

11 THE CLERK: Dorworth?

12 REPRESENTATIVE DORWORTH: No.

13 THE CLERK: Eisnaugle?

14 REPRESENTATIVE EISNAUGLE: No.

15 THE CLERK: Fresen?

16 REPRESENTATIVE FRESEN: No.

17 THE CLERK: Frishe?

18 REPRESENTATIVE FRISHE: No.

19 THE CLERK: Holder?

20 REPRESENTATIVE HOLDER: No.

21 THE CLERK: Horner?

22 REPRESENTATIVE HORNER: No.

23 THE CLERK: Hukill?

24 REPRESENTATIVE HUKILL: No.

25 THE CLERK: Jenne?

1 REPRESENTATIVE JENNE: No.
2 THE CLERK: Jones?
3 REPRESENTATIVE JONES: No.
4 THE CLERK: Kiar?
5 REPRESENTATIVE KIAR: No.
6 THE CLERK: Legg?
7 REPRESENTATIVE LEGG: No.
8 THE CLERK: Nehr?
9 REPRESENTATIVE NEHR: No.
10 THE CLERK: Precourt?
11 REPRESENTATIVE PRECOURT: No.
12 THE CLERK: Rogers?
13 REPRESENTATIVE ROGERS: No.
14 THE CLERK: Rouson?
15 REPRESENTATIVE ROUSON: No.
16 THE CLERK: Schenck?
17 REPRESENTATIVE SCHENCK: No.
18 THE CLERK: Workman?
19 REPRESENTATIVE WORKMAN: No.
20 REPRESENTATIVE PRECOURT: And, members, by
21 your vote, show that amendment fails. And I
22 will turn the gavel back over to Chairman
23 Weatherford.
24 REPRESENTATIVE WEATHERFORD: Thank you
25 very much, Mr. Vice-Chair.

1 Members, we are back on the Bill. Is
2 there any public testimony on the Bill? Any
3 public testimony on the Bill?

4 Seeing none, is there any debate on the
5 Bill as amended? Any debate on the Bill? You
6 have public testimony? Yes, sir, please come
7 forward. We are going to need you to fill out
8 a card -- oh, I'm sorry, you did that.

9 MR. TERRELL: Yes.

10 REPRESENTATIVE WEATHERFORD: Our fault.
11 Mr. Ryan Terrell, you are recognized, sir.

12 MR. TERRELL: Thank you, Mr. Chairman and
13 members of the Committee. I am going to try
14 and be brief.

15 I have been a member who has been
16 participating in the process, who has been
17 going on the Senate side particularly and
18 working on Senate maps, but I did want to bring
19 to the attention one potential issue that I did
20 have with the House map that we are voting on,
21 particularly in the Tallahassee area.

22 One of -- I think it was the November
23 Senate Reapportionment Committee meeting, we
24 had members from the Nature Coast who came and
25 testified about what exactly the Nature Coast

1 is, and what counties and cities identify as
2 being part of the Nature Coast.

3 Unfortunately, it looks like the Nature
4 Coast is split under this map. Residents from
5 the counties of Taylor County and Lafayette
6 County, particularly cities of Mayo and Perry,
7 identified as being a part of the Nature Coast,
8 along with Dixie, Levy and Gilchrist and Citrus
9 Counties. Those were the counties that they
10 identified as the Nature Coast.

11 The problem that we have here is that if
12 you look at District 7 under this map, compared
13 to other maps that this Committee has reviewed
14 last week, the travel time from one end of the
15 district to the other has expanded
16 exponentially.

17 To go from Port St. Joe, which is on the
18 western end of the district in Gulf County, to
19 Mayo, which is in Lafayette, which is all the
20 way on the eastern side, is a two hour and 53
21 minute drive from one end to the other.

22 One of the other proposals that this
23 Committee considered last week would have gone
24 from Port St. Joe just to Leon County. Leon
25 County and Wakulla County would have been the

1 dividing line. That would have cut down the
2 travel time by an hour from one end of the
3 district to the other.

4 So my concern with this Committee is that
5 maybe with particular -- in that area of the
6 map, it doesn't look like any other areas are
7 majorly affected by changing the Capitol
8 region. So maybe it might be better to just
9 try and reduce the travel time to increase
10 better representation for the Tallahassee area,
11 and that is really my request for this
12 Committee.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much for your comments. We have a
15 question from Representative Kiar?

16 REPRESENTATIVE KIAR: It is not a
17 question, it is more of a quick comment.

18 REPRESENTATIVE WEATHERFORD: Okay. You
19 are recognized.

20 REPRESENTATIVE KIAR: I just wanted to --
21 and this has absolutely nothing to do with the
22 substantive portion of these maps. I just want
23 to let the Committee know how proud I am of
24 this young man.

25 I've actually known him for a number of

1 years. His family lives in my district. Ryan
2 has recently moved to Tallahassee, and I always
3 tell him if I lose by one vote, I am going to
4 blame him, but I just want to --

5 A VOICE: What makes you think he's voting
6 for you?

7 REPRESENTATIVE KIAR: That is true, that
8 is a good point. But I do want to let
9 everybody know Ryan has been working very hard
10 on these issues from the beginning, and unlike
11 many other people, Ryan is a college student
12 who just is interested in the process, and I
13 think that is a real testament to just
14 Floridians. I am very proud of him, I just
15 wanted to mention that. Thank you, Mr. Chair.

16 REPRESENTATIVE WEATHERFORD: Thank you,
17 Representative Kiar, and Ryan, thank you, and I
18 think that it speaks to the process, you know,
19 the fact that technology and the openness that
20 this process has created has allowed people
21 just like Ryan to come and give substantive
22 thoughts and ideas, and we really appreciate
23 you coming in today and we will certainly take
24 your ideas and your suggestions into thought.

25 So we have one more stop, and that is the

1 floor, so we will look into it. Thank you very
2 much.

3 MR. TERRELL: Thank you.

4 REPRESENTATIVE WEATHERFORD: Any other
5 members of the public who wish to speak? Yes,
6 ma'am, please come forward. If you can
7 identify yourself, and we will get you to fill
8 out a speaker card, if you could, after you
9 speak. You are recognized, ma'am.

10 MS. OFNER: I would be glad to fill out a
11 speaker card. I am Eleanor Ofner, I am a
12 resident and a voter in Wakulla County, and I
13 have been to Mayo, and it seems to me that Mayo
14 is much more akin to the Alachua area,
15 Gainesville, as a metropolitan area, which
16 people in south Florida don't understand we
17 don't really have them up here.

18 But in -- we very much relate to Leon
19 County, and in a number of ways, because many
20 people from Wakulla County work in Leon County.

21 In addition, the Leon County, Wakulla
22 County, Gadsden County, Jefferson County, these
23 counties work together on transportation issues
24 and other issues, social issues. So I think it
25 is important that you take a look again at

1 this.

2 I was hoping that one of the amendments
3 was coming up might have addressed this in
4 terms of our -- what we consider our
5 metropolitan area, our city area. So I hope
6 you can still consider that. Thank you very
7 much.

8 REPRESENTATIVE WEATHERFORD: Thank you
9 very much. We appreciate you taking the time
10 to speak, and if you could fill out that card.

11 MS. OFNER: This is what you want me to
12 fill out?

13 REPRESENTATIVE WEATHERFORD: Yes, ma'am.
14 Thank you so much.

15 Any other members of the public wishing to
16 speak?

17 Okay. Any debate on the Bill as amended?
18 Debate on the Bill?

19 Seeing no debate, Representative
20 Schenck -- we're back to Representative
21 Schenck. Representative Schenck, you are
22 recognized to close on the Bill.

23 REPRESENTATIVE SCHENCK: Thank you,
24 Mr. Chair. Just some closing comments to sort
25 of summarize up the map.

1 In HJR 6011, our subcommittee placed a
2 focus on keeping counties whole and adhering to
3 county lines in those cases where a county was
4 larger than the size of a district, and I think
5 we have accomplished that.

6 In this Committee, we took the next step
7 of further reducing city splits, reducing the
8 -- that number by 95 splits from the current
9 House map that was adopted ten years ago.

10 Both of these are, of course, consistent
11 with the law and much of the public input we
12 received throughout the state. Regarding that
13 public input, members, when you read the
14 district-by-district explanation in the Bill
15 analyses, it makes it clear how much public
16 input impacted the designs of each district.

17 In fact, I think we have adopted
18 amendments in the subcommittee and now in this
19 Committee based specifically on public input.
20 We have a process, members, that has worked.
21 Where we can bring together our legal
22 obligations and the input of the public, that
23 is the right thing to do, and I believe that is
24 the thing we have now done.

25 Thinking about compactness, when you look

1 at the districts in Brevard County, Pasco
2 County, Lee County, and really throughout the
3 map, it is remarkable how much more compact
4 they are. We even made most of the minority
5 districts very compact as well.

6 Speaking of which, we did maintain those
7 existing minority districts, and we even
8 created additional opportunities in Orange
9 County, Osceola County and possibly other
10 places.

11 All in all, I really do ask for everyone's
12 vote, and before I close, Mr. Chair, I would
13 like to give one more final thanks not only to
14 our committee staff, as many of you have
15 experienced the machine, Jeff Takacs, and the
16 amount of expertise and Alex and the rest of
17 our subcommittee.

18 I would also like to give a thanks to my
19 excellent co-Chair, Chairman Dorworth, and a
20 lot of members of the Committee, you know. We
21 had members like Representative Bernard and
22 Julien, which today I learned were two
23 different people, Representatives Clarke-Reed
24 and Rogers, who went to almost every public
25 hearing we had over the summer, Representative

1 Baxley and Frishe and others, and the amount of
2 work, time and effort that they have put into
3 this map I think makes it legally compliant.

4 With that, I am proud to close on the
5 House maps, Mr. Chair.

6 REPRESENTATIVE WEATHERFORD: Thank you
7 very much, Representative Schenck, always
8 levity in your close, my friend, and with
9 having closed on the Bill, would the
10 administrative assistant please call the roll?

11 THE CLERK: Chair Weatherford?

12 REPRESENTATIVE WEATHERFORD: Yes.

13 THE CLERK: Representative Adkins?

14 REPRESENTATIVE ADKINS: Yes.

15 THE CLERK: Bernard?

16 REPRESENTATIVE BERNARD: No.

17 THE CLERK: Chestnut?

18 REPRESENTATIVE CHESTNUT: No.

19 THE CLERK: Dorworth?

20 REPRESENTATIVE DORWORTH: Yes.

21 THE CLERK: Eisnaugle?

22 REPRESENTATIVE EISNAUGLE: Yes.

23 THE CLERK: Fresen?

24 REPRESENTATIVE FRESEN: Yes.

25 THE CLERK: Frishe?

1 REPRESENTATIVE FRISHE: Yes.
2 THE CLERK: Holder?
3 REPRESENTATIVE HOLDER: Yes.
4 THE CLERK: Horner?
5 REPRESENTATIVE HORNER: Yes.
6 THE CLERK: Hukill?
7 REPRESENTATIVE HUKILL: Yes.
8 THE CLERK: Jenne?
9 REPRESENTATIVE JENNE: No.
10 THE CLERK: Jones?
11 REPRESENTATIVE JONES: No.
12 THE CLERK: Kiar?
13 REPRESENTATIVE KIAR: No.
14 THE CLERK: Legg?
15 REPRESENTATIVE LEGG: Yes.
16 THE CLERK: Nehr?
17 REPRESENTATIVE NEHR: Yes.
18 THE CLERK: Precourt?
19 REPRESENTATIVE PRECOURT: Yes.
20 THE CLERK: Rogers?
21 REPRESENTATIVE ROGERS: No.
22 THE CLERK: Rouson?
23 REPRESENTATIVE ROUSON: No.
24 THE CLERK: Schenck?
25 REPRESENTATIVE SCHENCK: Yes.

1 THE CLERK: Workman?

2 REPRESENTATIVE WORKMAN: Yes.

3 REPRESENTATIVE WEATHERFORD: Okay. With
4 that, show that the Bill passes, or the HJR
5 passes.

6 Members, we are going to move forward. At
7 this time, we are going to take up House Bill
8 6005, which is also Congressional Map 9043.
9 Members, that is the third tab in your packets.

10 Representative Legg, Chair Legg, you are
11 recognized to explain the Bill.

12 REPRESENTATIVE LEGG: Thank you,
13 Mr. Chairman.

14 Mr. Chairman, last week our Committee made
15 the recommendation of HB 6005 to you, which is
16 also map 9043, as the base map to build on. I
17 want to briefly describe that map in kind of a
18 large view.

19 First, HB 6005 is a complete redistricting
20 map of Florida's new 27 congressional
21 districts. Unlike the House and the Senate
22 maps, the Congressional map has a population
23 deviation of zero percent.

24 The Bill reduces the number of county
25 splits from 30 on the current map to just 22.

1 It reduces the city splits from the current 110
2 at the current map to just 39 as compared to
3 the current Congressional map.

4 The Bill significantly improves the
5 compactness of Florida's Congressional map in
6 terms of perimeter, width/height measurements
7 and in terms of drive time measurements.

8 The Bill also maintains Florida's
9 commitment to the Florida Voter Rights Act and
10 Florida's new constitutional standards
11 regarding racial and language minority.

12 With that, Mr. Chair, that is the overview
13 of the Bill.

14 REPRESENTATIVE WEATHERFORD: Thank you
15 very much, Chair Legg.

16 Members, moving forward, I believe we have
17 an amendment by Representative Precourt.
18 Vice-Chair Precourt, you are recognized to
19 explain your amendment.

20 REPRESENTATIVE PRECOURT: Thank you, Chair
21 Weatherford.

22 This amendment, members, is also map 9047,
23 you also have it in your package, and it,
24 again, makes a number of changes to the
25 underlying map that's already been adopted.

1 Staff will make more detailed
2 presentation, just like we did previously, but
3 briefly, the overall amendment reduces the
4 number of cities split from 39 down to 27, a
5 substantial reduction, and reduces the number
6 of counties split from 22 down to 21.

7 Additionally, the amendment improves the
8 likelihood of minority representation, and
9 Alex, I believe, will be getting into the
10 details on that as well.

11 So with that, Mr. Chairman, I would like
12 to have Mr. Kelly give a more detailed
13 presentation of the changes that are proposed
14 in this amendment.

15 REPRESENTATIVE WEATHERFORD: Okay. Thank
16 you very much, Representative Precourt.

17 Alex, if you could maybe give us a little
18 more further explanation on the amendment.

19 MR. KELLY: Thank you, Mr. Chair and
20 members, and I will walk through initially the
21 municipal issues in the amendment.

22 Just moving first to the Pinellas County
23 area of the map -- and we will turn on the city
24 boundary lines so that you can see those.

25 What the amendment does is the amendment

1 places the entirety of the municipalities of
2 Tarpon Springs and Oldsmar into Congressional
3 District 12. In addition to that, Gulfport is
4 placed entirely into Congressional District 13.

5 While we are in the Pinellas/Hillsborough
6 area, at the advice of counsel, District 14 has
7 shifted to -- proportionally greater to the
8 Hillsborough County side. If you look sort of
9 to the region where I am moving the mouse at
10 this point, that portion was previously in the
11 earlier design of District 14. It's now been
12 moved to the Hillsborough County side.

13 The point raised by counsel is that
14 District 14 is a district that has a
15 significant coalition of African-American,
16 Hispanic and other minority voters. That
17 district, as a result of being in Hillsborough
18 County, is a Section 5-covered jurisdiction,
19 and that district needed to have a slight
20 increase due to the minority population.

21 Effectively what the increase does is the
22 total minority population of the district is
23 approximately 53 percent of the district, so it
24 is just a small shift ensuring that the
25 minority population is essentially a majority

1 of the district as compared to the non-minority
2 population in the district.

3 So, again, it is a small shift, and
4 incidentally, that request also corresponded --
5 for different reasons, but that request
6 corresponded with a significant amount of
7 public input that you had and that you reviewed
8 during your prior meeting.

9 We will move to Broward County now, and,
10 again, along the lines of issues relating to
11 municipal splits, the City of Coconut Creek is
12 now entirely included in Congressional District
13 21, the municipality of Wilton Manors is now
14 entirely included in Congressional District 22.

15 Moving down a little further into Broward
16 County, the municipality of Hallendale Beach is
17 now entirely included in Congressional District
18 23; likewise, the City of Hollywood is now
19 entirely included within Congressional District
20 23.

21 Moving down further, looking at
22 Congressional District 24, again, we have the
23 city lines featured, a view with them not
24 featured, now a view with them on. North Miami
25 and North Miami Beach now are both also

1 included entirely in Congressional District 24.

2 Moving to the other side of Congressional
3 District 24, the municipality of Opa-Locka is
4 also entirely included in Congressional
5 District 24. And just as a side note, a piece
6 of public input that was actually received in
7 the Florida Senate regarding the Opa-Locka
8 airport, the request was if the city was to be
9 entirely included, have the airport, and just
10 to match up with the public input, which we do
11 share back and forth with the other Chamber,
12 the airport is also entirely included within
13 District 24 as well.

14 Moving to Palm Beach County, there are two
15 additional municipalities that are kept whole,
16 both Loxahatchee Groves and the municipality of
17 Lake Park are kept whole in this region, both
18 in the proposed Congressional District 20.

19 And we will move briefly to Polk County.
20 The municipalities of -- I will turn the county
21 off here -- Auburndale, which is what is
22 highlighted here, Auburndale and Dundee are now
23 wholly located within districts.

24 In addition to that, taking a step back to
25 the county level, at the county level, the

1 county of Osceola County is now wholly included
2 in Congressional District 9. Okeechobee County
3 is now wholly included in Congressional
4 District 17. So that was two more counties --
5 county splits that were reduced.

6 Now, the City of Bartow had been kept
7 whole previously in the prior versions of the
8 map, but in this particular case, the City of
9 Bartow has been moved entirely into the 15th
10 Congressional District as opposed to previously
11 it was in the 17th Congressional District.

12 In addition to that, changes were made to
13 the 5th Congressional District, the proposed
14 5th Congressional District, which today is just
15 slightly under a 50 percent -- has just
16 slightly under a 50 percent black voting age
17 population.

18 House maps proposed previously had
19 proposed a 48 percent district; however, the
20 opportunity was identified to increase the
21 black voting age population above 50 percent.
22 I will turn on the county boundaries to give
23 you an idea of the effect.

24 So the district -- the principal change,
25 the district now would come into Seminole

1 County, increasing the black voting age
2 population to just slightly above 50 percent.
3 I believe it is exactly 50.06 percent.

4 In addition to that, in terms of the
5 9th -- the proposed 9th Congressional District,
6 which has been sometimes referred to as a sort
7 of Hispanic opportunity district, or at the
8 very least, a potentially future opportunity,
9 the district would now have approximately a
10 41.3 percent Hispanic voting age population.

11 The district previously in this particular
12 iteration, this particular map, did not come
13 into Polk County, although some of the other
14 House suggestions had brought the district into
15 Polk County.

16 So this is more tracking what this
17 district did in some of the other maps that the
18 Committee has looked at. It would now come
19 into Polk County. The net effect did not add
20 to any -- in terms of this district, did not
21 add to any city splits, and, in fact, as we
22 just covered, it actually kept Osceola County
23 whole.

24 And, Mr. Chairman, with that, that is the
25 amendment.

1 REPRESENTATIVE WEATHERFORD: Thank you
2 very much, Mr. Kelly, for the detailed
3 explanation.

4 Members, are there any questions to Mr.
5 Kelly or Mr. Precourt on the amendment? Any
6 questions?

7 Seeing no questions, is there any public
8 testimony to the amendment?

9 Seeing no public testimony, is there any
10 debate on the amendment? Any debate?

11 Seeing no debate, Representative Precourt,
12 you are recognized to close on the amendment.

13 REPRESENTATIVE PRECOURT: Thank you,
14 Mr. Chair. Once again, I just appreciate all
15 the help from staff. With the level of detail
16 that is required on these things, it is a lot
17 of work.

18 REPRESENTATIVE WEATHERFORD: Thank you
19 very much. Having closed, would the
20 administrative assistant please call the roll.

21 THE CLERK: Chair Weatherford?

22 REPRESENTATIVE WEATHERFORD: Yes.

23 THE CLERK: Representative Adkins?

24 REPRESENTATIVE ADKINS: Yes.

25 THE CLERK: Bernard?

1 REPRESENTATIVE BERNARD: No.
2 THE CLERK: Chestnut?
3 REPRESENTATIVE CHESTNUT: No.
4 THE CLERK: Dorworth?
5 REPRESENTATIVE DORWORTH: Yes.
6 THE CLERK: Eisnaugle?
7 REPRESENTATIVE EISNAUGLE: Yes.
8 THE CLERK: Fresen?
9 REPRESENTATIVE FRESEN: Yes.
10 THE CLERK: Frishe?
11 REPRESENTATIVE FRISHE: Yes.
12 THE CLERK: Holder?
13 REPRESENTATIVE HOLDER: Yes.
14 THE CLERK: Horner?
15 REPRESENTATIVE HORNER: Yes.
16 THE CLERK: Hukill?
17 REPRESENTATIVE HUKILL: Yes.
18 THE CLERK: Jenne?
19 REPRESENTATIVE JENNE: No.
20 THE CLERK: Jones?
21 REPRESENTATIVE JONES: No.
22 THE CLERK: Kiar?
23 REPRESENTATIVE KIAR: No.
24 THE CLERK: Legg?
25 REPRESENTATIVE LEGG: Yes.

1 THE CLERK: Nehr?

2 REPRESENTATIVE NEHR: Yes.

3 THE CLERK: Precourt?

4 REPRESENTATIVE PRECOURT: Yes.

5 THE CLERK: Rogers?

6 REPRESENTATIVE ROGERS: No.

7 THE CLERK: Rouson?

8 Schenck?

9 REPRESENTATIVE SCHENCK: Yes.

10 THE CLERK: Workman?

11 REPRESENTATIVE WORKMAN: Yes.

12 REPRESENTATIVE WEATHERFORD: Show the Bill

13 -- show the amendment is adopted.

14 Okay. I think I am going to have to turn
15 the gavel back over to the Vice-Chair again.

16 REPRESENTATIVE PRECOURT: Thank you,
17 Chairman. Chair Weatherford, you are
18 recognized to explain this amendment.

19 REPRESENTATIVE WEATHERFORD: Thank you
20 very much, Mr. Chairman.

21 Members, I am not going to go into the
22 near detailed explanation. I think we have
23 touched on the process under which these maps
24 were brought forth to us, but what I would like
25 to do is to turn over to our legal team to talk

1 about some of the specifics, and ask them to
2 walk us through maybe some of the details or
3 potential challenges that this map may have.

4 And so, with that, as part of the
5 explanation, if Mr. Meros and potentially
6 Mr. DeGrande could come up and walk us through
7 that very briefly, we would appreciate it. You
8 are recognized, sir.

9 MR. MEROS: Thank you, Mr. Chair and
10 members, and I will be very brief, and I will
11 limit my testimony to just a very few
12 instances.

13 Once again, with regard to the League of
14 Women Voters' Congressional map, I find serious
15 constitutional and -- or serious Florida
16 constitutional problems with regard to the
17 notion of the obligation not to diminish the
18 opportunity to elect representatives of choice,
19 as well as potential Federal Section 5
20 violations.

21 Regarding Congressional Amendment 5, what
22 the League of Women Voters has done has taken a
23 district that has been historically in the 48
24 to 50 percent African-American population,
25 which has elected an African-American for the

1 past 20 years, which was created by a Federal
2 District Court in 1990 as a result of
3 litigation brought by then Representative
4 Miguel DeGrande to try to create protections
5 for minorities, and has cut that district from
6 48 percent or 50 percent to 35 percent.

7 To some extent, that is a matter -- that
8 is a personal matter for Mr. DeGrande and a
9 personal matter for me, because I represented
10 some of the parties in 1990, and at that time,
11 there had not been an African-American
12 congressional -- congressperson elected in
13 Florida since reconstruction.

14 After that and after the Federal District
15 Court came in and recognized minority Voting
16 Rights Act, thereafter there were three
17 African-Americans elected. Thereafter, that
18 has stood the test of time and has consistently
19 elected an African-American as the population's
20 candidate of choice.

21 What has happened -- we have a standard,
22 which all of you heard from the testimony from
23 the proponents of Amendment 5 and 6, that is a
24 Tier 1 standard that says that we shall not,
25 must not diminish the opportunity of citizens

1 to elect a candidate of their choice.

2 That diminishment standard, by the words
3 of the promoters of Amendment 6, is a Section 5
4 type analysis as to whether there's any -- any
5 movement backwards, whether the population is
6 less able to elect a candidate by virtue of a
7 change.

8 I suggest to you that it doesn't take a
9 lawyer, it doesn't take careful analysis to
10 know that when you go from 48 or 50 percent
11 African-American population to 35 percent, you
12 have made that district less able to elect a
13 candidate of choice. That is absolutely a
14 diminishment by any means and by any stretch of
15 the imagination.

16 Worse still, in the central Florida area,
17 the public testimony will reflect that there
18 were 10 to 15 members of the African-American
19 community, including ministers of churches in
20 that area, that urged that that district
21 remain, and that they remain in congressional
22 -- proposed Congressional District 5.

23 What has happened by virtue of what the
24 League of Women Voters has done here is to
25 displace over 80,000 African-Americans in

1 central Florida and put them in a white
2 district which will not elect an
3 African-American or their candidate of choice.

4 That cannot be justified by me as a matter
5 of law and as a matter of common sense. It
6 ignores the public testimony, it ignores the
7 Tier 1 standard, it ignores what the proponents
8 said would never be a diminishment.

9 Now, very briefly, the -- I say Alcee
10 Hastings' seat, I apologize, I don't remember
11 the proposed district number, but there is a
12 District 23 in this proposed map is a map -- is
13 a district that touches a Section 5 county
14 under the federal voting rights, and -- Voting
15 Rights Act, and so care, much care must be
16 taken with any potential that the Department of
17 Justice would not pre-clear this district by
18 virtue of any diminishment of the electoral
19 opportunities of African-Americans or
20 minorities in that district.

21 This district has less black voting age
22 population, two or three points, than the
23 proposed map. It, to me, is tempting fate and
24 asking for a delay, asking for a refusal for
25 pre-clearance to do that. Why would we do

1 that? Why would we provoke the Department of
2 Justice and possibly risk a Section 5
3 pre-clearance when the result would be voters
4 would be confused, there would be delays in
5 drawing the map, and ultimately potentially a
6 federal court drawing an interim map simply by
7 virtue of that decision?

8 That same issue is -- the same thing is at
9 risk in the Hillsborough and Pinellas County
10 area where there is a district that, again, is
11 in Hillsborough County, which is a Section 5
12 district that does reduce the minority
13 population to some extent, and, again, temps a
14 Section 5 challenge or a Section 5 refusal to
15 pre-clear that need not occur.

16 A cynical mind would say messing with
17 those two districts is an intent to have
18 justice pre- -- refuse to pre-clear and delay
19 the process. Whatever the result is, it makes
20 no sense, it is not a rational thing to do, and
21 I think would violate the law. Thank you.

22 REPRESENTATIVE PRECOURT: Thank you,
23 Mr. Meros. Chair Weatherford?

24 REPRESENTATIVE WEATHERFORD: Thank you. I
25 was just saying, I wanted to give Mr. DeGrande

1 an opportunity as well to speak and give some
2 legal analysis on this map. Thank you.

3 REPRESENTATIVE PRECOURT: Mr. DeGrande,
4 you are recognized.

5 MR. DEGRANDE: Thank you, Mr. Chairman.

6 Members, I think Mr. Meros has covered
7 most everything I would say, except I will take
8 you back to 1990 and that litigation.

9 At that time, as Mr. Meros mentioned,
10 there had not been an African-American elected
11 to Congress since reconstruction. There was
12 one majority Hispanic-American seat, and as a
13 matter of fact, until Claude Pepper passed away
14 in 1989, Claude Pepper was the Hispanic
15 candidate of choice in that district, and when
16 he passed away, Ileana Ros-Lehtinen became the
17 Hispanic candidate of choice in that district.

18 When we got to the remedy phase in that
19 litigation, there was an impasse in the
20 congressional, and the Court had to draw a map,
21 and both members of the Legislature and
22 Plaintiffs had an opportunity, and Intervenors
23 had an opportunity to propose maps to the
24 Special Master, which ultimately would go to
25 the three-judge panel, and in those maps, we,

1 the Plaintiffs, actually drew four
2 African-American congressional seats, and the
3 Court did not accept it.

4 The Court -- there was one seat that
5 became colloquially known as the barbell
6 district because it joined areas of Orlando and
7 Tampa through the I-4 corridor, and the Court
8 said no, that is too much. But this plan with
9 three African-American seats is a good plan.

10 And when you look at District 3, that
11 district is basically the template of what a
12 three-judge federal panel drew, improved in
13 2000 and greatly improved now in this amendment
14 that you just passed by keeping more cities
15 intact and respecting and adhering to the
16 standards of Amendment 5.

17 So that district, as it has been proposed
18 by the Legislature, to me, is nothing more than
19 following the dictates of a federal court that
20 knew what the limits were in terms of a
21 district that would stretch the boundaries of
22 constitutionality.

23 It found that template to be
24 constitutional. That template has been
25 significantly improved upon in the amendment

1 that you just passed, and, therefore, I think
2 that it is wholly compliant with constitutional
3 provisions.

4 I agree fully with Mr. Meros that this
5 amendment would not be, because of the reasons
6 he stated. Thank you very much.

7 REPRESENTATIVE PRECOURT: Thank you,
8 Mr. DeGrande.

9 Chair Weatherford, further explanation of
10 the amendment?

11 REPRESENTATIVE WEATHERFORD: No.

12 REPRESENTATIVE PRECOURT: Okay. Chair
13 Weatherford having explained the amendment,
14 members, are there any questions on the
15 amendment? Representative Jenne, question on
16 the amendment.

17 REPRESENTATIVE JENNE: Thank you, and I am
18 not sure if this would be appropriate now or
19 later. It is more on the mechanism. When the
20 two gentlemen were just speaking, I had some
21 questions about how we figure out minority
22 representation.

23 So I am not sure if it would be better to
24 ask that question now on this, or to wait later
25 on when we are back on the --

1 REPRESENTATIVE PRECOURT: If -- yes, if
2 it's -- Chair Weatherford.

3 REPRESENTATIVE WEATHERFORD: I was going
4 to say, if I could answer that, Mr. Chairman,
5 if it pertains to this specific amendment, we
6 can do it. If it is not, we can do it later at
7 the end of the meeting.

8 REPRESENTATIVE JENNE: Chairman, I will
9 wait then, thank you.

10 REPRESENTATIVE PRECOURT: Representative
11 Rogers, you are recognized for a question.
12 Thank you. Any further questions on the
13 amendment, members?

14 Okay. Seeing no further questions, we are
15 on to public testimony. I don't believe we
16 have any testimony cards filled out. I don't
17 see anyone approaching the podium.

18 So seeing no further public testimony,
19 members, we are into debate. Any debate on the
20 amendments?

21 Okay. Seeing no debate on the amendment,
22 Chair Weatherford, you are recognized to close.

23 REPRESENTATIVE WEATHERFORD: Thank you
24 very much, Mr. Chairman. I think I would echo
25 the comments I made earlier in my close on the

1 House map in regard to the process and why I
2 think that this amendment should be voted down
3 strictly on those purposes.

4 But I also think that our counsel, who has
5 done this for a very long time and is very
6 well-schooled in the legal matters that involve
7 redistricting, I think have laid out some
8 significant problems with this map.

9 And so for those reasons, and for the
10 reasons in regards to the process, I would urge
11 members of this Committee to vote no.

12 REPRESENTATIVE PRECOURT: Thank you, Chair
13 Weatherford. Having closed on the amendment,
14 members, please recall we are voting on the
15 amendment, not the underlying Bill.

16 Katie, will you please call the roll?

17 THE CLERK: Chair Weatherford?

18 REPRESENTATIVE WEATHERFORD: No.

19 THE CLERK: Rep Adkins?

20 REPRESENTATIVE ADKINS: No.

21 THE CLERK: Bernard?

22 REPRESENTATIVE BERNARD: No.

23 THE CLERK: Chestnut?

24 REPRESENTATIVE CHESTNUT: No.

25 THE CLERK: Dorworth?

1 REPRESENTATIVE DORWORTH: No.
2 THE CLERK: Eisnaugle?
3 REPRESENTATIVE EISNAUGLE: No.
4 THE CLERK: Fresen?
5 REPRESENTATIVE FRESEN: No.
6 THE CLERK: Frishe?
7 REPRESENTATIVE FRISHE: No.
8 THE CLERK: Holder?
9 REPRESENTATIVE HOLDER: No.
10 THE CLERK: Horner?
11 REPRESENTATIVE HORNER: No.
12 THE CLERK: Hukill?
13 REPRESENTATIVE HUKILL: No.
14 THE CLERK: Jenne?
15 REPRESENTATIVE JENNE: No.
16 THE CLERK: Jones?
17 REPRESENTATIVE JONES: No.
18 THE CLERK: Kiar?
19 REPRESENTATIVE KIAR: No.
20 THE CLERK: Legg?
21 REPRESENTATIVE LEGG: No.
22 THE CLERK: Nehr?
23 REPRESENTATIVE NEHR: No.
24 THE CLERK: Precourt?
25 REPRESENTATIVE PRECOURT: No.

1 THE CLERK: Rogers?

2 Rouson?

3 Schenck?

4 REPRESENTATIVE SCHENCK: No.

5 THE CLERK: Workman?

6 REPRESENTATIVE WORKMAN: No.

7 REPRESENTATIVE PRECOURT: Members, by your
8 vote, the amendment fails, and I will turn the
9 chair back to Chair Weatherford.

10 REPRESENTATIVE WEATHERFORD: Thank you
11 very much, Mr. Vice-Chair.

12 Members, we are back on the Bill. Is
13 there any public testimony in regard to the
14 actual Bill as am- -- no appearance cards,
15 okay, so we are good.

16 Any debate on the Bill, members?

17 Seeing no debate -- I'm sorry, do you have
18 a question? Sure, we will do a question.
19 Representative, you are recognized.

20 REPRESENTATIVE ROGERS: Thank you,
21 Mr. Chairman. After listening to the comments
22 around the League of Cities -- League of Women,
23 corrected, League of Women's maps, I just
24 wanted to be reminded of the definition the
25 Committee used to determine if districts were

1 racially fair, and was it not -- what was it?
2 What did we use? I know we -- I like our maps,
3 I like our comments, I attended --

4 REPRESENTATIVE WEATHERFORD: Does that
5 mean you are voting for them?

6 REPRESENTATIVE ROGERS: Just keep --
7 answer my question. I like it, you know, not
8 that much, but I am telling you --

9 REPRESENTATIVE WEATHERFORD: I think I
10 know the question you have.

11 REPRESENTATIVE ROGERS: -- I attended 25
12 of the 26 meetings around the state and I heard
13 the comments, and just remind me again, because
14 I know we are comparing those maps, and I
15 wanted to know our definition.

16 REPRESENTATIVE WEATHERFORD: Let me
17 restate your question, and you tell me if I am
18 asking the right question for you so I can --
19 and get our attorneys.

20 I think what you are asking is, you want
21 to know what standard are we using when we are
22 looking at what is diminishment of a minority
23 district, how are we determining diminishment?
24 Okay.

25 Because that is more complicated than I

1 can probably answer, so I would probably ask
2 our general counsel to walk us through that and
3 give us that explanation. You are recognized.

4 MR. MEROS: Representative, the standard
5 we are using is the standard in Amendment 6,
6 because it is a Congressional map. It is the
7 same as in Amendment 5. It is the Tier 1
8 standard that says you shall not diminish the
9 opportunity of citizens to elect candidate of
10 choice.

11 What everyone has agreed that standard
12 means is a -- is a -- the standard for Section
13 5 of the Federal Voting Rights Act, which now
14 applies to all districts in the state, as
15 opposed to the five districts that it applies
16 to under the Federal Voting Rights Act.

17 And the notion there is that there shall
18 be no backsliding, not going backwards in the
19 opportunity of citizens to elect a candidate of
20 choice. That is different than standards under
21 Section 2, and what -- and particularly in the
22 reenactment of the Federal Voting Rights Act
23 and Section 5 of the Federal Voting Rights Act.

24 Congress made it clear in their analysis
25 that the language of Section 5 had changed

1 somewhat in response to the Georgia v. Ashcroft
2 decision, which suggested somewhat of a
3 weakening of what that standard was, and
4 Congress said it intended to make it clear that
5 in every district, the issue is whether
6 minority citizens are less able to elect a
7 candidate of choice in the new district than
8 they were in the old district.

9 Now, I know some would argue that, well,
10 what that means is you can take a district from
11 50 percent down to 35 percent, because once you
12 crunch a bunch of numbers, the minority
13 candidate has a pretty good chance or an equal
14 chance of winning. But that is not what
15 Amendment 6 says. That is not what Congress
16 said even about the Federal Voting Rights Act.

17 What Congress said and what the Floridians
18 said is if you backslide, if you make it less
19 able to elect a minority candidate, then that
20 is a violation. Now, if you go from 50 percent
21 to 35 percent, maybe someone, maybe an
22 African-American candidate will win, maybe an
23 incumbent. But it is not about the incumbent,
24 it is about the population that originally
25 elected an African-American candidate.

1 And so the notion that there is no going
2 backwards from 50 percent to 35 percent, to me,
3 defies common sense. It defies the law and it
4 defies every analysis of voting rights that I
5 am aware of.

6 REPRESENTATIVE WEATHERFORD: Thank you,
7 Mr. Meros.

8 Ms. Rogers, did you have a follow-up?

9 REPRESENTATIVE ROGERS: No, Mr. Chair.
10 Thank you very much. Can I just make a
11 comment?

12 REPRESENTATIVE WEATHERFORD: Yes, you may.

13 REPRESENTATIVE ROGERS: I really enjoyed
14 the process, really enjoyed working with you,
15 so -- and looking forward to the next vote.

16 REPRESENTATIVE WEATHERFORD: Well, thank
17 you very much. I appreciate that.

18 Representative Jenne, you are recognized,
19 sir.

20 REPRESENTATIVE JENNE: Thank you, Chairman
21 Weatherford, I appreciate it. And I think the
22 question is really best given to you, and thank
23 you so much, as always, for being here with
24 your answers, and I know we have a lot of
25 detailed questions.

1 Piggy-backing a little bit off of
2 Representative Rogers' question, is there any
3 mathematical formula that we can use to try to
4 determine -- and this is really a blanket
5 question for any of the maps --

6 REPRESENTATIVE WEATHERFORD: Sure.

7 REPRESENTATIVE JENNE: -- to be completely
8 honest. But is there a formula, numeric or
9 otherwise, that we can use to determine if we
10 are harming minority representation, or is that
11 just a straight numbers game?

12 MR. MEROS: If one is harming minority
13 representation in what way, I'm sorry?

14 REPRESENTATIVE JENNE: I'm sorry,
15 weakening it in some way, I apologize.

16 MR. MEROS: Meaning the diminishment
17 standard?

18 REPRESENTATIVE JENNE: The diminishment
19 standard, yes, sir.

20 MR. MEROS: Sure.

21 REPRESENTATIVE JENNE: Is there a numeric
22 formula, or some other type?

23 MR. MEROS: There is no set formula to
24 assess that. It is a -- it is an assessment
25 that is in part based on electoral results in

1 the past, it is based on registration of
2 minority voters, it is based on turn-out.

3 It is based on the minority population in
4 that area and their wishes, any number of
5 things that in combination come up with the
6 notion as to whether people in that district
7 have gone backwards in their -- in their
8 ability to elect a candidate of choice.

9 The one thing that is clear is that after
10 enactment of the congressional -- or after
11 Congress reenacted Section 5, the language was
12 intended to make it clear that one cannot say,
13 well, you can backslide a little bit in one
14 district, but strengthen another and you are
15 okay, or that you can think more about a
16 coalition district and backslide traditionally
17 and maybe that's okay. Congress said no. The
18 question is less able.

19 Now, less able, again, would have to look
20 at all sorts of factors: Registration,
21 turnout, the -- you know, the polarization in
22 that area, any number -- the wishes of the
23 minority community, such as the Orlando
24 community. And so my analysis of that is I
25 cannot imagine a case where going from

1 50 percent to 35 percent means that you are not
2 less able to elect a candidate of choice.

3 Maybe there are, but I don't -- I can't
4 imagine it. But it is a -- it is a complex and
5 comprehensive analysis that you have to
6 undertake.

7 REPRESENTATIVE JENNE: A brief follow-up,
8 Mr. Chair, if that's all right?

9 REPRESENTATIVE WEATHERFORD: You are
10 recognized.

11 REPRESENTATIVE JENNE: You mentioned
12 turnout, and it kind of led to another
13 question --

14 MR. MEROS: Sure.

15 REPRESENTATIVE JENNE: -- that I had had,
16 and that is basically election performance data
17 and how or if it was even used to determine if
18 the districts diminished the ability of
19 minorities to elect candidates of their choice.

20 MR. MEROS: Well, I can tell you what the
21 House did was to focus on districts that had
22 historically performed for African-Americans or
23 for Hispanics, because now non-diminishment was
24 statewide, and tried very carefully not to
25 diminish the population percentages more than

1 one or two or three points, or sometimes more,
2 and in doing so there, to comply with other
3 standards, such as compactness and complying
4 with city and county boundaries.

5 And the reason for that was obvious.
6 Diminishment means diminishment. If you reduce
7 it more than a few percentage points, you at
8 least facially have to address the possibility
9 that there is a diminishment. And so that is
10 very much how the House went about doing it.

11 And, again, one of the things here we have
12 to realize is if we delay the process or permit
13 there to be challenges to the map that have
14 some possibility of succeeding, then this is
15 taken away from the Legislature and the
16 legislative prerogative and put into the court
17 simply by virtue of the delay involved in
18 having this sort of thing litigated.

19 As a matter of just policy and as a matter
20 of legal prudence, one would never want to do
21 that.

22 REPRESENTATIVE WEATHERFORD: Thank you,
23 Mr. Meros.

24 REPRESENTATIVE JENNE: One last follow-up?
25 Mr. Chair, thank you.

1 REPRESENTATIVE WEATHERFORD: Sure. You
2 are recognized for a follow-up.

3 REPRESENTATIVE JENNE: And this is the
4 last one, sir. Thank you so much for being up
5 there to answer these questions in a kind of --
6 one bridges off the other.

7 The next and my final question here is,
8 are we improperly overpacking a district with
9 minority voters if we place more of that group
10 in a district than is necessary to allow
11 minority voters their personal choice and --
12 but simultaneously violate other criteria? Do
13 you see the gist of the question?

14 MR. MEROS: Sure, sure. That essentially
15 is an issue of are you packing minorities in a
16 given dis- -- that is a Section 2 sort of
17 claim. Are you packing minority voters in a
18 district and thereby diluting their strength
19 which could be in two districts rather than one
20 district?

21 With regard to Congressional 5, you are
22 clearly not doing that, because, remember,
23 there are two standards that -- the Tier 1
24 standards that the voters wanted and that the
25 proponents of these districts have set from

1 start to finish, and that is there is a Section
2 2 protection for minority and there is a
3 Section 5 protection statewide, so don't worry,
4 all of the concerns that this Legislature
5 raised about the possibility of weakening
6 minority voting rights, they said don't worry.
7 When you talk about diminishment, the issue is
8 are you backsliding, are you making it less
9 able for a minority to be elected. That is a
10 different standard, that is a very strong
11 standard. And so that is not packing. If that
12 district is at 48 or 50 percent, and when you
13 take it to 35 percent, someone is less able to
14 elect a candidate of choice, that is not
15 packing, that is complying with that standard.
16 That is -- the Legislature didn't do that. I
17 didn't do that. The voters of Florida did
18 that.

19 REPRESENTATIVE JENNE: Sir, thank you.

20 REPRESENTATIVE PRECOURT: Follow-up,
21 Representative Jenne?

22 REPRESENTATIVE JENNE: Mr. Chairman, no,
23 thank you, and I appreciate it.

24 REPRESENTATIVE PRECOURT: Representative
25 Chestnut, you are recognized for a question.

1 REPRESENTATIVE CHESTNUT: Thank you,
2 Mr. Chair. In terms of the -- we were talking
3 about performance data, I think the question
4 came up. Does staff have access to performance
5 data at all?

6 REPRESENTATIVE PRECOURT: Mr. Meros, you
7 are recognized.

8 MR. MEROS: The public has access to it,
9 the staff has access to it, you can -- you can
10 go to places where there's all sorts of
11 election data, so, sure. And in drawing
12 districts that have significant minority
13 populations, it is incumbent upon us to look at
14 those matters. And if you will recall in the
15 debates before when this House was asking about
16 how can we do these, the framers of the
17 amendment said of course you look at election
18 data and performance data when it comes to
19 minority districts. That is part of the
20 calculation you have to do to comply with the
21 law.

22 REPRESENTATIVE PRECOURT: And since that
23 is a technical question on the system itself, I
24 would like to have Mr. Kelly address that as
25 well. Alex?

1 MR. KELLY: Thank you, Mr. Chair.

2 Representative Chestnut, yes, data is in
3 the application right here that you are looking
4 at on the screen.

5 REPRESENTATIVE CHESTNUT: Thank you.

6 REPRESENTATIVE PRECOURT: And that you
7 have access to, as well as everyone else.

8 REPRESENTATIVE CHESTNUT: Thank you.

9 REPRESENTATIVE PRECOURT: Representative
10 Bernard, you are recognized for a question.

11 REPRESENTATIVE BERNARD: Thank you,
12 Mr. Chair.

13 Mr. Meros, going to District 5, I guess,
14 was it -- I guess the 2002 map, was that
15 district short in terms of population?

16 MR. MEROS: I will defer to staff on the
17 specifics of that. I -- Alex, if you want to
18 answer that.

19 REPRESENTATIVE WEATHERFORD: Mr. Kelly,
20 you are recognized -- I will tell you what.
21 He's going to probably have to pull that out.
22 I don't think he has it off the top -- do you
23 have it?

24 MR. KELLY: Thank you, Mr. Chair.

25 Jeff, if you could pull up the current

1 congressional map.

2 REPRESENTATIVE WEATHERFORD: This is so
3 much better than 1980. We would have run out
4 of crayons by now.

5 REPRESENTATIVE CHESTNUT: Go ahead, Alex.

6 REPRESENTATIVE WEATHERFORD: I don't think
7 Mr. Kelly can see it from here. We need to get
8 him some bifocals like you've got there.

9 MR. KELLY: Okay. So the population
10 deviation was 37,289 under in District 3.

11 REPRESENTATIVE CHESTNUT: Follow-up,
12 Mr. Chair?

13 REPRESENTATIVE WEATHERFORD: You are
14 recognized for a follow-up.

15 REPRESENTATIVE CHESTNUT: Thank you.

16 What I -- I guess what I want to find out
17 is since the district was created in nineteen
18 -- if that -- the concept of the district was
19 created in 1992, and the population changed
20 from 1992 to 2002 and then two thousand and --
21 in 2012, if the population is declining, do we
22 still -- if we had to get the numbers from
23 somewhere else, would we have -- would we have
24 to kind of like -- if the numbers were in Key
25 West, would that district have to be created

1 from Jacksonville to Key West to make up that
2 number, if that is how it would -- for
3 minorities to elect a representative of their
4 choice?

5 MR. MEROS: Entirely appropriate question,
6 and the answer is certainly no. When
7 population shifts occur, one has to go back and
8 figure out what can be done. A Section 5
9 analysis does not mean -- and I say Section 5,
10 an Amendment 5 diminishment standard -- does
11 not mean if that population vanishes, you have
12 to create something you cannot. What you do
13 have to do is look at it and say can you make a
14 good faith effort to avoid backsliding with a
15 population as it exists now. And so certainly
16 that is a factor.

17 Clearly there is sufficient population in
18 that district to avoid non-diminishment,
19 because -- to avoid diminishment. If we were
20 to take it to 35 percent, then one of the
21 factors would be, well, wait a minute, there
22 are alternative maps that better comply than
23 earlier that don't -- that don't diminish so
24 much, and those alternatives is the very proof
25 that there is backsliding.

1 But you are absolutely correct, the
2 population shifts are a factor that you have to
3 take into consideration.

4 REPRESENTATIVE CHESTNUT: Thank you.

5 REPRESENTATIVE WEATHERFORD: Okay.

6 Members, any other questions? Mr. DeGrande,
7 did you want to add to that explanation?

8 MR. MEROS: He is going to correct my
9 mistakes.

10 REPRESENTATIVE WEATHERFORD: Okay.

11 MR. DEGRANDE: Absolutely not. Just one
12 additional comment, at least how I interpret
13 the constitutional amendments.

14 When the voters voted to say no
15 diminishment, in the same way that it could be
16 assumed that they knew what all the intricacies
17 were of the amendment, it could also be assumed
18 that they needed a configuration of the
19 districts that they didn't want diminished.
20 And so an argument to say that the, you know,
21 current District 3 shouldn't be redrawn the
22 same way, if it can be redrawn with the same
23 template in a manner that does not diminish, it
24 would seem to me that that is exactly what the
25 voters that voted for Amendment 5 and 6 were

1 asking this Legislature to do, because they
2 would have known that, okay, that is what it
3 looks like now, we don't want it diminished.
4 So I don't see -- again, not only do I see that
5 as simply following a template that was
6 approved by a three-judge court, but also very
7 consistent with the intent of the voters in
8 Amendment 5 and 6.

9 And to your point, Mr. Chairman, in 1990
10 when I was a member of the House, we had a
11 computer that was I think \$5 million in a
12 cooled environment that had less computing
13 capacity than your laptop today to do
14 redistricting. That's how much we've advanced.

15 REPRESENTATIVE WEATHERFORD: You are aging
16 yourself, be careful, Miguel.

17 Representative Jones, I think you had a
18 question.

19 REPRESENTATIVE JONES: Thank you,
20 Mr. Chairman. We talked earlier about the
21 number of counties that had been split into
22 multiple districts. Do we have that
23 information for the congressional in comparison
24 to 2002?

25 REPRESENTATIVE WEATHERFORD: We do, I

1 think we do. If I could restate that, I think
2 what you would like to see is the data on the
3 amount of county splits we had in the 2002
4 congressional map versus the 2012 suggested
5 congressional map?

6 MR. TAKACS: Thank you, Mr. Chair. The
7 2002 congressional maps split 30 counties. The
8 proposal, as amended, would only split 21
9 counties. So it would keep nine additional
10 counties whole.

11 REPRESENTATIVE JONES: One final question.

12 REPRESENTATIVE WEATHERFORD: You are
13 recognized for a question.

14 REPRESENTATIVE JONES: How are we
15 measuring compactness for the congressional
16 seats?

17 REPRESENTATIVE WEATHERFORD: Very good
18 question, and I will let staff answer that as
19 well.

20 MR. TAKACS: Thank you, Mr. Chair.

21 Representative Jones, there's a number of
22 different ways to measure compactness. There
23 are some -- there are some traditional scores
24 that are utilized based on perimeter or area of
25 the districts, width plus height test, and

1 sometimes you take a ratio of those different
2 numbers. Those are actually all included in
3 the planned data report that is in your packet
4 for each bill.

5 In addition to that, we have implemented a
6 number of functional measures that measure
7 items such as drive time, mileage, the average
8 mileage to cross a district, mileage based on
9 physically what you actually can drive. So
10 there is functional compactness measured as
11 well.

12 In addition to that, a comment that was
13 utilized in a number of the maps, not just the
14 congressional, was during a course of the
15 summer meetings, a number of individuals from
16 the public oftentimes made a case that
17 compactness and county boundary lines tended to
18 be relative equals in their eyes. And so that
19 comment was factored in in terms of the drawing
20 and in terms of the debate and discussion in
21 your various subcommittees.

22 REPRESENTATIVE JONES: Thank you,
23 Mr. Chairman.

24 REPRESENTATIVE WEATHERFORD: You're
25 welcome. Members, any other questions?

1 Okay. We are back on debate. Is there
2 any debate on the bill? Debate on the bill as
3 amended?

4 Seeing no debate, we are now going to
5 recognize Representative Legg to close.

6 REPRESENTATIVE LEGG: Thank you,
7 Mr. Chair. I just want to briefly go over some
8 numbers that Representative Jones was just
9 asking. Forty-six of the 67 counties are kept
10 whole. Only 27 of the 411 cities in the state
11 have been split, versus the current
12 congressional map, which has over 110 splits
13 right now.

14 The -- this congressional map has been
15 held true to Amendment 6 by keeping county and
16 city boundaries. It's also held true to all
17 the public testimony that we have heard
18 throughout the state about keeping the
19 communities and cities and counties together.
20 This -- the districts are significantly more
21 compact than Florida's current congressional
22 map, and the district also maintains a
23 likelihood that minority communities can elect
24 a candidate of their choice.

25 And with that, Mr. Chair, I just want to

1 echo the words of Chair Schenck and just say
2 thank you to our co-Chairs, Chair Holder and
3 Vice-Chair Horner, and all our committee staff
4 who worked on this, and look forward to
5 presenting it on the floor if this Committee
6 passes.

7 REPRESENTATIVE WEATHERFORD: Thank you
8 very much, Representative Legg. And with that
9 closed, would the administrative assistant
10 please call the roll.

11 THE CLERK: Chair Weatherford?

12 REPRESENTATIVE WEATHERFORD: Yes.

13 THE CLERK: Rep Adkins?

14 REPRESENTATIVE ADKINS: Yes.

15 THE CLERK: Bernard?

16 REPRESENTATIVE BERNARD: No.

17 THE CLERK: Chestnut?

18 REPRESENTATIVE CHESTNUT: No.

19 THE CLERK: Dorworth?

20 REPRESENTATIVE DORWORTH: Yes.

21 THE CLERK: Eisnaugle?

22 REPRESENTATIVE EISNAUGLE: Yes.

23 THE CLERK: Fresen?

24 REPRESENTATIVE FRESEN: Yes.

25 THE CLERK: Frishe?

1 REPRESENTATIVE FRISHE: Yes.
2 THE CLERK: Holder?
3 REPRESENTATIVE HOLDER: Yes.
4 THE CLERK: Horner?
5 REPRESENTATIVE HORNER: Yes.
6 THE CLERK: Hukill?
7 REPRESENTATIVE HUKILL: Yes.
8 THE CLERK: Jenne?
9 REPRESENTATIVE JENNE: No.
10 THE CLERK: Jones?
11 REPRESENTATIVE JONES: No.
12 THE CLERK: Kiar?
13 REPRESENTATIVE KIAR: No.
14 THE CLERK: Legg?
15 REPRESENTATIVE LEGG: Yes.
16 THE CLERK: Nehr?
17 REPRESENTATIVE NEHR: Yes.
18 THE CLERK: Precourt?
19 REPRESENTATIVE PRECOURT: Yes.
20 THE CLERK: Rogers?
21 REPRESENTATIVE ROGERS: No.
22 THE CLERK: Rouson?
23 Schenck?
24 REPRESENTATIVE SCHENCK: Yes.
25 THE CLERK: Workman?

1 REPRESENTATIVE WORKMAN: Yes.

2 REPRESENTATIVE WEATHERFORD: All right.

3 And with that, show HJR 601 passes -- I'm
4 sorry, 605 -- 6005 passes.

5 We are now moving on to HJR 6001, which is
6 also the State Senate Map 9004. Members, this
7 is in the first tab in your packets. This is
8 the last HJR we will go through.

9 Representative Nehr, you are recognized to
10 explain the House joint resolution.

11 REPRESENTATIVE NEHR: Thank you,
12 Mr. Chairman. I want to share with you some
13 details regarding House Joint Resolution 6001
14 as a whole, and how it compares to the current
15 State Senate district map.

16 For the 40 districts in this particular
17 map, there is only a 1.84 percent total
18 population deviation. And compared to our
19 current map, the bill reduces the number of
20 county splits from 45 all the way down to 31,
21 and the number of city splits from 126 down to
22 a very low number of 78.

23 Looking at some of the more mathematical
24 compactness scores relating to perimeters and
25 height and width of districts, this proposed

1 committee bill consistently improves the
2 compactness of Florida's 40 State Senate
3 districts. And looking some at the more
4 functional compactive measures, such as drive
5 times, the bill again consistently improves
6 these measures of compactness compared to the
7 existing State Senate map. The bill maintains
8 Florida's commitments to compliance with the
9 Federal Voting Rights Act, both Section 2 and 5
10 of Florida's constitutional standards regarding
11 racial and language minorities. Thank you,
12 Mr. Chairman.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much. Are there any questions on the
15 bill? Yes, you are recognized for a question.

16 A VOICE: Mr. Chairman, thank you, as
17 always. The first question is this,
18 Representative Nehr: Is this -- basically this
19 is the same map that the Senate passed off
20 their floor?

21 REPRESENTATIVE WEATHERFORD: Actually, if
22 I could interject just really quickly, we're
23 going to get to an amendment by Representative
24 Precourt.

25 A VOICE: That will get us to that

1 posture.

2 REPRESENTATIVE WEATHERFORD: That will get
3 us to that posture?

4 A VOICE: Thank you, yes.

5 REPRESENTATIVE WEATHERFORD: Would you
6 like to wait to get there?

7 A VOICE: Yes, absolutely, sir. Thank
8 you.

9 REPRESENTATIVE WEATHERFORD: Okay. Well,
10 then, any other questions before we move to the
11 amendatory process?

12 Seeing none, we are going to move to
13 amendment number one by Representative
14 Precourt. You are recognized to explain the
15 amendment.

16 REPRESENTATIVE PRECOURT: Thank you,
17 Chairman Weatherford.

18 Members, again, you have the amendment in
19 front of you. This amendment is a little bit
20 different than the others. It is also map
21 9008, and it conforms to this bill that we have
22 in front of us, the one that passed through the
23 Senate subcommittee and that we workshopped in
24 our last meeting. It conforms that bill to the
25 Senate map included in SJR 1176, 1176, which is

1 the bill that the Senate passed last week.

2 I will let staff again outline the
3 detailed changes that were made, but in
4 summary, the amendment reduces the number of
5 cities that were split by 24 cities, reduces it
6 by 24, decreasing that down to only 54 cities
7 that are split, and it also lowers the total
8 population deviation to two percent. So with
9 that, Mr. Chair, we ought to have Mr. Poreda --

10 REPRESENTATIVE WEATHERFORD: Yes, why
11 don't we do that, if we could, staying in the
12 same light here, why don't -- Mr. Poreda, if
13 you could enlighten us on some of the
14 differences between the former map and what the
15 amendment would do, thank you.

16 MR. POREDA: Absolutely. Thank you,
17 Mr. Chairman.

18 The amendment makes several changes all
19 around the map. It actually decreases the
20 amount of cities split by 24 cities, going from
21 78 to 54 cities all around the map. In many
22 cases, some of those changes are just one or
23 two census blocks where no people live in them
24 that were changed to keep the city whole, and
25 rather than take the Committee through every

1 single one of those little, tiny changes, I
2 will highlight some of the three or four
3 examples to kind of show some of the larger
4 examples and then go from there.

5 First we will go to the Lake County area
6 once it comes back up. This you can see, this
7 is probably the largest change that is most
8 visible on the map. Previously the three
9 cities considered the Golden Triangle of
10 Eustis, Tavares and Mt. Dora were split. On
11 this map, those three cities are kept whole.
12 And I think the city lines are -- yes, there
13 you go. So you can see those three cities that
14 are in the green District 11 right there, those
15 are the Golden Triangle cities that are kept
16 whole. And by keeping those three cities
17 whole, the district was actually -- District
18 10, the pink district directly underneath it,
19 was actually able to keep the City of Leesburg
20 whole and the City of Fruitland Park whole,
21 which were both cities that were previously
22 split in the previous map.

23 Next we will kind of go to the Orange
24 County area to see the City of Oakland, that
25 little city right there. This is an example of

1 a city that Senate reapportionment staff saw
2 that they could keep whole, and made that
3 change to the map. So that is one of the
4 changes that you can see there.

5 The next example is an example of a city
6 where the Polk County Supervisor of Elections,
7 as well as public input, suggested they keep
8 whole. That is the city of Davenport in Polk
9 County. Previously, the City of Davenport was
10 split. That is Haines City right there.
11 Davenport is right above that. You can see it
12 is kept whole in the District 16 just above
13 Haines City. Right there, yeah, that is the
14 City of Davenport. Previously, this was a city
15 that was split. The Polk County Supervisor of
16 Elections suggested to try to keep that city
17 whole, and there was a lot of public input
18 speaking to that effect as well, and they were
19 able to make that change.

20 Another example of the many changes
21 throughout the map are small, little changes
22 that Supervisors of Election throughout the
23 state asked. If we go to the Pensacola area
24 real quick, you can see that -- if we zoom in
25 on the City of Pensacola, the borders between

1 Districts 1 and 3 were altered very, very
2 slightly, in some cases, just a couple of dozen
3 people were affected. Those changes were
4 recommended by the Escambia County Supervisor
5 of Elections to try to keep -- try to prevent
6 some of the voter islands, the concept that we
7 talked about last week where there might be a
8 school board district that overlaps just ever
9 so slightly with one of the Senate districts,
10 so then that would -- only a couple dozen
11 people would get a unique ballot and you would
12 be able to figure out how they voted. So
13 that's very, very minor changes to that, and
14 the rest of the changes throughout the map are
15 kind of in the same light, recommended by the
16 Supervisors of Elections around the state.

17 REPRESENTATIVE WEATHERFORD: Great. Thank
18 you very much, Jason.

19 Members, are there any questions in regard
20 to the amendment? Questions on the amendment?

21 Is there any public testimony on the
22 amendment? I don't think we have any cards.

23 Any debate on the amendment? Seeing no
24 debate on the amendment, you are recognized to
25 close the amendment, Representative Precourt.

1 REPRESENTATIVE PRECOURT: Thank you, Chair
2 Weatherford. Again, thank you to staff for all
3 the detailed hard work they did on this, and I
4 waive close.

5 REPRESENTATIVE WEATHERFORD: Having waived
6 close, would the administrative assistant
7 please call the roll.

8 THE CLERK: Chair Weatherford?

9 REPRESENTATIVE WEATHERFORD: Yes.

10 THE CLERK: Representatives Adkins?

11 REPRESENTATIVE ADKINS: Yes.

12 THE CLERK: Bernard?

13 REPRESENTATIVE BERNARD: No.

14 THE CLERK: Chestnut?

15 REPRESENTATIVE CHESTNUT: No.

16 THE CLERK: Dorworth?

17 REPRESENTATIVE DORWORTH: Yes.

18 THE CLERK: Eisnaugle?

19 REPRESENTATIVE EISNAUGLE: Yes.

20 THE CLERK: Fresen?

21 REPRESENTATIVE FRESEN: Yes.

22 THE CLERK: Frishe?

23 REPRESENTATIVE FRISHE: Yes.

24 THE CLERK: Holder?

25 REPRESENTATIVE HOLDER: Yes.

1 THE CLERK: Horner?
2 REPRESENTATIVE HORNER: Yes.
3 THE CLERK: Hukill?
4 REPRESENTATIVE HUKILL: Yes.
5 THE CLERK: Jenne?
6 REPRESENTATIVE JENNE: No.
7 THE CLERK: Jones?
8 Kiar?
9 REPRESENTATIVE KIAR: No.
10 THE CLERK: Legg?
11 REPRESENTATIVE LEGG: Yes.
12 THE CLERK: Nehr?
13 REPRESENTATIVE NEHR: Yes.
14 THE CLERK: Precourt?
15 REPRESENTATIVE PRECOURT: Yes.
16 THE CLERK: Rogers?
17 REPRESENTATIVE ROGERS: No.
18 THE CLERK: Rouson?
19 REPRESENTATIVE ROUSON: No.
20 THE CLERK: Schenck?
21 REPRESENTATIVE SCHENCK: Yes.
22 THE CLERK: Workman?
23 REPRESENTATIVE WORKMAN: Yes.
24 REPRESENTATIVE WEATHERFORD: Okay. So the
25 amendment passes.

1 We are back on the bill. Is there any
2 debate on the bill as amended? Any debate on
3 the bill? Any questions on the bill? Do you
4 have a question? Representative Jenne, we are
5 back to you, questions on the bill.

6 REPRESENTATIVE JENNE: Thank you, thank
7 you, Chairman, and, again, I always appreciate
8 it.

9 And I guess what my question is, I have
10 seen public comment that -- and I guess beauty
11 is in the eye of the beholder, but I've heard a
12 lot of public comment after the Senate map had
13 come out that our map -- our map meaning the
14 map governing the House seats -- was better.
15 I've read public commentary from members and
16 other folks who had said that.

17 So my question is this: Outside of
18 legislative tradition, why do we want to vote
19 this map out? Is this the best product we
20 have, or is there something we can do moving
21 forward, because I know there are some concerns
22 with this map?

23 REPRESENTATIVE WEATHERFORD: What I would
24 say is if your curiosity peaks you to such an
25 extent, you can certainly file an amendment to

1 change the map. We have had the maps out since
2 December the 6th. We have been following the
3 Senate map very closely. We send e-mails
4 regularly out to every member of this Committee
5 and of the chamber to let them know what the
6 amendment deadlines are. If any member of this
7 Committee or of the chamber would like to file
8 an amendment, we have another crack at it on
9 the floor, and if you feel like you can improve
10 the map, we would encourage you, Representative
11 Jenne, to file that amendment and explain it on
12 the floor.

13 REPRESENTATIVE JENNE: I always appreciate
14 your encouragement, Chairman, thank you.

15 REPRESENTATIVE WEATHERFORD: You're
16 welcome. Any other questions?

17 Seeing no questions, any debate on the
18 bill?

19 Seeing no debate on the bill, you are
20 recognized to close on the bill, Representative
21 Legg -- or, I'm sorry, Representative Nehr.

22 REPRESENTATIVE NEHR: Thank you,
23 Mr. Chairman.

24 I don't have much to add, members. I just
25 want to reiterate that the bill, when you

1 reflect on those issues that are pertinent in
2 the law, makes improvements in every single way
3 in terms of compactness, use of city, county
4 and other boundaries, and in terms of
5 representation for racial and language
6 minorities. And at this time, Mr. Chair, I
7 just want to thank my co-Chair, Representative
8 Hukill, for all her hard work that she's put
9 into this particular bill. Also I want to
10 thank the redistricting staff as a whole,
11 especially Alex Kelly, for their hard work, and
12 with that, Mr. Chairman, I close.

13 REPRESENTATIVE WEATHERFORD: Thank you
14 very much. Having closed on the bill, would
15 the administrative assistant please call the
16 roll.

17 THE CLERK: Chair Weatherford?

18 REPRESENTATIVE WEATHERFORD: Yes.

19 THE CLERK: Representatives Adkins?

20 REPRESENTATIVE ADKINS: Yes.

21 THE CLERK: Bernard?

22 REPRESENTATIVE BERNARD: No.

23 THE CLERK: Chestnut?

24 REPRESENTATIVE CHESTNUT: No.

25 THE CLERK: Dorworth?

1 REPRESENTATIVE DORWORTH: Yes.
2 THE CLERK: Eisnaugle?
3 REPRESENTATIVE EISNAUGLE: Yes.
4 THE CLERK: Fresen?
5 REPRESENTATIVE FRESEN: Yes.
6 THE CLERK: Frishe?
7 REPRESENTATIVE FRISHE: Yes.
8 THE CLERK: Holder?
9 REPRESENTATIVE HOLDER: Yes.
10 THE CLERK: Horner?
11 REPRESENTATIVE HORNER: Yes.
12 THE CLERK: Hukill?
13 REPRESENTATIVE HUKILL: Yes.
14 THE CLERK: Jenne?
15 REPRESENTATIVE JENNE: No.
16 THE CLERK: Jones?
17 REPRESENTATIVE JONES: No.
18 THE CLERK: Kiar?
19 REPRESENTATIVE KIAR: No.
20 THE CLERK: Legg?
21 REPRESENTATIVE LEGG: Yes.
22 THE CLERK: Nehr?
23 REPRESENTATIVE NEHR: Yes.
24 THE CLERK: Precourt?
25 REPRESENTATIVE PRECOURT: Yes.

1 THE CLERK: Rogers?

2 REPRESENTATIVE ROGERS: Yes.

3 THE CLERK: Rouson?

4 REPRESENTATIVE ROUSON: No.

5 THE CLERK: Schenck?

6 REPRESENTATIVE SCHENCK: Yes.

7 THE CLERK: Workman?

8 REPRESENTATIVE WORKMAN: Yes.

9 REPRESENTATIVE WEATHERFORD: Okay. Let's
10 show that it passes favorably.

11 Okay, members, we are almost there. A
12 couple of announcements that we want to get out
13 of the way here. I appreciate everyone hanging
14 in there with us, but before I make some
15 parting comments, I want to walk through the
16 process of where we go from here.

17 The plan right now is that next week we
18 should have second reading of these bills on
19 Thursday. Amendments would be due to the
20 Committee by 12:00 p.m. on Tuesday. That's
21 that -- the two-day rule that we've got to give
22 everyone opportunity to see amendments. At a
23 minimum, I will have two amendments.

24 First, we are in possession of a single
25 joint resolution from the Senate for both state

1 legislative -- for both state legislative maps.
2 That joint resolution contains the State Senate
3 map that they passed, and it essentially
4 contains language, without any details, as a
5 parking spot for the State House map to be put
6 into it. We will be taking up the joint
7 resolution passed by the Florida Senate, and
8 amending it to the State House map.

9 Second, we are in possession of a single
10 general bill from the Senate for the
11 congressional map. I will be offering an
12 amendment to strike the congressional map as
13 passed by the Florida Senate and replacing it
14 with the congressional map that we passed here
15 today. In addition to that, in the maps passed
16 by the Florida Senate, they include a
17 plain-language description of the geography of
18 each of the districts as whereas clauses in the
19 beginning of the bills. My amendments will
20 also include a plain-language description of
21 the State House and the congressional maps.
22 Essentially, if you look at the bill analysis
23 of the bills that were passed today, the
24 whereas clauses will be almost exactly the
25 same, very similar to those.

1 Are there any questions on what I just
2 walked through or on the process between now
3 and Friday? Representative Bernard, you are
4 recognized for a question.

5 REPRESENTATIVE BERNARD: Thank you,
6 Mr. Chair. Regarding the House maps that we
7 passed out, do we expect any amendments filed
8 by staff or anything like that from now until
9 next week, or is this it?

10 REPRESENTATIVE WEATHERFORD: As far as
11 changes to the map we just pass -- at this
12 stage of the game, I would say we don't have
13 any plans to file any additional amendments.
14 Certainly we have had people who showed up just
15 today offering suggestions, and I think that is
16 part of the fluid process of this, so if new
17 amendments come forth, they certainly would be
18 filed by Tuesday and we'd give everyone ample
19 opportunity to look at them, and we encourage
20 anyone, if you feel like you can make an
21 improvement to this map and make it in
22 compliance with the law better than what we
23 have done, we certainly would ask you to do so.
24 Good question.

25 Any other questions before we move

1 forward?

2 If I could just -- really quickly, I just
3 think that -- I want to thank the indulgence of
4 this Committee, of all the subcommittees and
5 really everyone who participated in this
6 process. We have been doing this for quite
7 some time. We've gotten to know each other
8 very well. We've sat through a lot of public
9 hearings. We had thousands of people come
10 before us and tell us what they thought, and I
11 think it is really historic. And what I said
12 earlier about us charting a course for the
13 process in the future, I really meant that. I
14 feel like it is our obligation to do this in
15 the right way so that when people come behind
16 us in 2022 and 2032 and '42 and so forth, that
17 we have laid a foundation that is honorable and
18 holds up the integrity of this process. I feel
19 like we have done that. I am very proud of you
20 and your contributions to this.

21 We are not done, but I certainly want to
22 thank all of our co-Chairs who worked extremely
23 hard to get the product to this Committee, and
24 I want to thank all the members of this
25 Committee for your support.

1 We had -- in the essence of thanks,
2 there's a couple of folks I want to thank.
3 First of all, we want to thank our
4 redistricting staff. Alex Kelly and -- I have
5 never witnessed a staff that has worked harder.
6 I mean, these guys have been -- you know, we
7 know our staff and this process work hard the
8 last three or four weeks of session. They have
9 been working that hard for three or four months
10 straight. And you guys all deserve a good
11 vacation, so -- and a bonus. I will try to
12 talk to the Speaker. I am not sure I can pull
13 that trigger for you. But Alex Kelly and Jeff
14 Takacs and Jason Poreda and Katie Crofoot and
15 Ben Fairbrother and Jeff Silver, these folks
16 have really sacrificed a lot of time, time with
17 their families, to try to make this process go
18 smooth, and we just cannot thank you all
19 enough. We are very proud of the product you
20 have put forth.

21 I also want to thank the House -- the
22 Office of Public Information. They have done a
23 wonderful job of making sure all the things
24 that we are doing have been available to the
25 public, and we are very grateful for that.

1 I want to thank Speaker Cannon. Speaker
2 Cannon came to me early on -- I think I have
3 told you all this story, but when he told me I
4 was going to Chair this Committee, he had a big
5 smile on his face, and I wasn't sure why he was
6 smiling, but I've figured it out now, and that
7 he knew this was going to be a challenge, but
8 he entrusted me with this opportunity to guide
9 this process, and I thank the Speaker for
10 making sure that this process was a fair and
11 open one.

12 And, frankly, lastly, and I will close
13 with this, I want to thank all the citizens who
14 have worked so hard to make this product what
15 it is. This truly is a product of thousands of
16 people. It truly is a product that
17 incorporated more thoughts, more public
18 testimony, more input, than I think anybody at
19 the beginning of this process would have
20 imagined, and we should be proud of that as a
21 committee, I look forward to presenting it on
22 the floor, and I thank you all for working with
23 me.

24 And, Representative Rouson, you've got
25 that look on your face, I know you want to say

1 something, so I will recognize you, too, sir.

2 REPRESENTATIVE ROUSON: Thank you very
3 much, Mr. Chair. I do want to say that I think
4 people have had an opportunity to be heard.
5 You certainly have been a good Chair, allowing
6 folks to speak. And I attended a lot of the
7 hearings, like everybody else here, but I have
8 to say to you that it wasn't until today that I
9 really heard invectives, pejoratives, reference
10 to organization as being like a three-year-old,
11 you know. Maybe it is because we couldn't
12 speak at some of the public hearings that we
13 didn't hear it before. Like I've said to you,
14 I think some of us have prided ourselves on
15 being able to attack policy, procedure, as
16 opposed to character of men or character of
17 organizations or refer to each other in terms
18 that are less than endearing. I hope that when
19 this does get to the floor and as we continue
20 this process, that as a statesman and not so
21 much as politicians we remember in our comments
22 that, you know, extremism and attacking
23 people's motives and character, we need to look
24 out for that and be concerned. I certainly
25 would never tell an organization that they

1 acted like a three-year-old, or use some of the
2 other words that I heard today, I would never
3 say that to a follow State Representative. If
4 I have done it, I apologize, and -- but
5 certainly this has been a tense process, but as
6 we move towards the floor, I hope we are guided
7 by our real purpose here.

8 REPRESENTATIVE WEATHERFORD: Mr. Rouson, I
9 appreciate those comments, and the ones at
10 least that you stated never came out of my
11 mouth, but I will say this: If someone is
12 going to attack the integrity of this Committee
13 and attack the integrity of the process under
14 which we've spent the last eight months working
15 for, then we have every single right to push
16 back, we have every single right to defend
17 ourselves and to defend, frankly, this process.
18 It is not defending people. We are not talking
19 about people. This is not about organizations
20 or people. This is about a process, this is
21 about a constitutional obligation that we
22 signed up for. And when we follow that
23 constitutional mandate and people challenge
24 that integrity and the integrity of the people
25 who sit on that Committee, then as Chairman and

1 as a member of this Committee, we have every
2 right to challenge that, and we will continue
3 to do that, and if people challenge it on the
4 floor, we will challenge it there as well.

5 But I welcome your comments, I take your
6 words to be genuine, and we should be careful
7 as to the types of words that we utilize when
8 we are expressing our thoughts. But I view it
9 as Chairman of this Committee who has worked to
10 guide this process through in a legal manner,
11 that if someone tries to attack the manner in
12 which we led this Committee, that we will push
13 back, and we will answer those questions with
14 honesty and with integrity, and we will make
15 sure that when this map passes the floor,
16 everything we have done up until this point
17 will be for the right reasons and we will
18 follow through on the things that we said when
19 we started out.

20 So thank you, and with that, if there's no
21 other comments, Representative Nehr moves we
22 rise.

23 (Whereupon, the proceedings were
24 concluded.)

FOR THE RECORD REPORTING TALLAHASSEE FLORIDA 850.222.5491

The Journal OF THE *House of Representatives*

Number 12

Friday, February 3, 2012

The House was called to order by the Speaker at 1:00 p.m.

Prayer

The following prayer was offered by the Reverend A. D. Lenoir, Sr. of Westview Baptist Church of Miami, upon invitation of Rep. Campbell:

Dear gracious Creator of the Universe, we come to You now in the most humblest way that we know how—asking for Your forgiveness of our sins of commission. Those we had in our minds and hearts, set on doing and did, and then the sins of omission—those we were clueless of committing.

Then, Creator, we thank You for Your allowing us to be able to make a difference in our communities, one person a time, that makes a difference in our world, one family at a time. We also thank You for the joy we share in doing this great work You have commissioned us to do.

We also thank You for all Your great blessings, even those that come through the trials, tests, and troubles we face. Thank You, for always thinking of us when we so often forget about You.

Loving and Caring Creator, we pray for Your grace and mercy this session and all sessions to come—that Your presence will overshadow our indifferences and variations of ideas and viewpoints on matters.

We praise You, thank You, and need You now and forever more. In the most excellent, most encouraging name that is above all names we pray, and the House said Amen.

The following members were recorded present:

Session Vote Sequence: 663

Speaker Cannon in the Chair.

So the bill passed and was certified to the Senate.

CS/HB 517 —A bill to be entitled An act relating to reducing and streamlining regulations; amending ss. 455.271, 468.4338, 468.525, 468.8317, 468.8417, 475.615, 475.617, 475.6175, 477.0212, 481.209, 481.211, 481.213, 481.217, 481.315, 489.116, and 489.519, F.S.; revising certain licensure requirements and continuing education requirements for reactivating a license, certificate, or registration to practice certain professions and occupations regulated by the Department of Business and Professional Regulation or a board or council within the department, including community association management, employee leasing, home inspection, mold-related services, real estate appraisal, cosmetology, architecture and interior design, landscape architecture, construction contracting, and electrical and alarm system contracting; amending s. 469.002, F.S.; providing an exemption from licensure as an asbestos consultant or contractor for activities involving pipe or conduit used for gas service; amending s. 475.6235, F.S.; revising registration requirements for appraisal management companies; amending ss. 468.391, 475.25, 475.42, 475.624, 475.6245, 475.626, 476.194, and 477.0265, F.S., relating to auctioneering, real estate brokering and appraisal, barbering, and cosmetology; revising language with respect to certain penalties; revising grounds for discipline to which penalties apply; amending s. 475.628, F.S.; requiring the Florida Real Estate Appraisal Board to adopt rules establishing professional practice standards; amending s. 373.461, F.S.; requiring certain appraisers to follow specific standards of professional practice in appraisals involving the restoration of the Lake Apopka Basin; amending s. 468.841, F.S.; exempting landscape architects from complying with provisions related to mold assessment; amending s. 474.202, F.S.; revising the definition of the terms "limited-service veterinary medical practice" and "veterinary medicine"; providing an effective date.

—was read the third time by title.

Representative Grant offered the following:

(Amendment Bar Code: 769789)

Amendment 5 (with title amendment)—Between lines 532 and 533, insert:

Section 31. Paragraphs (c) and (d) of subsection (1) of section 475.611, Florida Statutes, are amended, paragraphs (t) through (x) are redesignated as paragraphs (u) through (y), respectively, and a new paragraph (t) is added to that subsection, to read:

475.611 Definitions.—

(1) As used in this part, the term:

(c) "Appraisal management company" means a person who performs appraisal management services regardless of the use of the term "appraisal management company," "appraiser cooperative," "appraiser portal," "mortgage technology company," or other term.

(d) "Appraisal management services" means the coordination or management of appraisal services for compensation by:

1. Employing, contracting with, or otherwise retaining one or more licensed or certified appraisers to perform appraisal services for a client; or

2. Acting as a broker or intermediary between a client and one or more licensed or certified appraisers to facilitate the client's employing, contracting with, or otherwise retaining the appraisers.

(t) "Subsidiary" means an organization that is owned and controlled by a financial institution that is regulated by a federal financial institution regulatory agency.

Section 32. Subsection (4) of section 475.6171, Florida Statutes, is amended to read:

475.6171 Issuance of registration or certification.—The registration or certification of an applicant may be issued upon receipt by the board of the following:

(4) If required, proof of passing a written examination as specified in s. 475.616. ~~No certification shall be issued based upon any examination results obtained more than 24 months after the date of examination.~~

Section 33. Subsection (1) of section 475.6235, Florida Statutes, is amended, and subsection (9) is added to that section, to read:

475.6235 Registration of appraisal management companies required; exemptions.—

(1) A person may not engage, or offer to engage, in appraisal management services for compensation in this state, advertise or represent herself or himself as an appraisal management company, ~~or use the titles "appraisal management company," "appraiser cooperative," "appraiser portal," or "mortgage technology company," or any abbreviation or words to that effect,~~ unless the person is registered with the department as an appraisal management company under this section. However, an employee of an appraisal management company is not required to obtain a separate registration.

(9) This section does not apply to:

(a) Any financial institution, as defined in s. 655.005, that owns and operates an internal appraisal office, business unit, or department; or

(b) An appraisal management company that is a subsidiary owned and controlled by a financial institution, as defined in s. 655.005, regulated by a federal financial institution regulatory agency.

TITLE AMENDMENT

Remove line 36 and insert:

medical practice" and "veterinary medicine"; amending s. 475.611, F.S.; revising the definition of the terms "appraisal management company" and "appraisal management services"; amending s. 475.6171, F.S.; revising requirements for the issuance of registration or certification upon receipt of proper documentation; amending s. 475.6235, F.S.; revising provisions relating to titles an appraisal management company must be registered to use; providing exemptions from registration requirements; providing an

Rep. Grant moved the adoption of the amendment, which was adopted by the required two-thirds vote.

Representative Grant offered the following:

(Amendment Bar Code: 791331)

Amendment 6 (with title amendment)—Between lines 532 and 533, insert:

Section 31. Subsection (12) is added to section 455.213, Florida Statutes, to read:

455.213 General licensing provisions.—

(12) The department shall waive the initial licensing fee, the initial application fee, and the initial unlicensed activity fee for a military veteran who applies to the department for a license, in a format prescribed by the department, within 24 months after discharge from any branch of the United States Armed Forces. To qualify for this waiver, the veteran must have been honorably discharged.

TITLE AMENDMENT

Remove line 36 and insert:

medical practice" and "veterinary medicine"; amending s. 455.213, F.S.; waiving initial licensing, application, and unlicensed activity fees for certain military veterans; providing an

Rep. Grant moved the adoption of the amendment, which was adopted by the required two-thirds vote.

Representative Grant offered the following:

(Amendment Bar Code: 769059)

Amendment 7 (with title amendment)—Between lines 532 and 533, insert:

Section 31. Paragraph (c) of subsection (2) of section 475.451, Florida Statutes, is amended, present subsections (4) through (8) are renumbered as subsections (5) through (9), respectively, and a new subsection (4) is added to that section, to read:

475.451 Schools teaching real estate practice.—

(2) An applicant for a permit to operate a proprietary real estate school, to be a chief administrator of a proprietary real estate school or a state institution, or to be an instructor for a proprietary real estate school or a state institution must meet the qualifications for practice set forth in s. 475.17(1) and the following minimal requirements:

(c) "School instructor" means an individual who instructs persons in the classroom in noncredit college courses in a college, university, or community college or courses in a career center or proprietary real estate school.

1. Before commencing to provide such instruction, the applicant must certify the applicant's competency and obtain an instructor permit by meeting one of the following requirements:

a. Hold a bachelor's degree in a business-related subject, such as real estate, finance, accounting, business administration, or its equivalent and hold a valid broker's license in this state.

b. Hold a bachelor's degree, have extensive real estate experience, as defined by rule, and hold a valid broker's license in this state.

c. Pass an instructor's examination approved by the commission.

2. Any requirement by the commission for a teaching demonstration or practical examination must apply to all school instructor applicants.

3. The department shall renew an instructor permit upon receipt of a renewal application and fee. The renewal application shall include proof that the permitholder has, since the issuance or renewal of the current permit, successfully completed a minimum of 7 classroom or distance learning hours of instruction in real estate subjects or instructional techniques, as prescribed by the commission. The commission shall adopt rules providing for the renewal of instructor permits at least every 2 years. Any permit that which is not renewed at the end of the permit period established by the department ~~shall~~ automatically reverts ~~revert~~ to involuntarily inactive status.

The department may require an applicant to submit names of persons having knowledge concerning the applicant and the enterprise; may propound interrogatories to such persons and to the applicant concerning the character of the applicant, including the taking of fingerprints for processing through the Federal Bureau of Investigation; and shall make such investigation of the applicant or the school or institution as it may deem necessary to the granting of the permit. If an objection is filed, it shall be considered in the same manner as objections or administrative complaints against other applicants for licensure by the department.

(4) A real estate school may offer any course through distance learning if the course complies with s. 475.17(2).

TITLE AMENDMENT

Remove line 36 and insert:
medical practice" and "veterinary medicine"; amending s. 475.451, F.S.; authorizing distance learning courses as an acceptable alternative to classroom instruction for renewal of a real estate instructor permit; providing that distance learning courses are under the discretion of the school offering the real estate course; requiring distance learning courses to adhere to certain requirements; providing an

Rep. Grant moved the adoption of the amendment, which was adopted by the required two-thirds vote.

The question recurred on the passage of CS/HB 517. The vote was:

Motion

Rep. Aubuchon moved that, pursuant to Rule 8.2, the presentation and remarks portion on CS for SJR 1176 and CS for SB 1174, made on Thursday, February 2 and Friday, February 3, 2012, be spread upon the *Journal*. The motion was agreed to.

Remarks on CS for SJR 1176 and CS for SB 1174

Speaker Cannon: Members, we are about to consider the Senate's redistricting bills, but before we do that I wanted to ask Chair Weatherford to share with us the good work that he and his committee and subcommittees have done during the last eight months. Chair Weatherford will then yield to the subcommittee chairs and vice chairs to explain each of our plans, accompanied by a presentation, which has also been emailed to each one of you. Upon completion of the presentations, we will move into consideration of the bills. We will be taking up several amendments and you will have the opportunity to ask questions. In order to streamline and facilitate debate on the amendments, please notify your respective leader if you wish to be recognized to speak in debate.

With that, Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. And Mr. Speaker, thank you for this opportunity to address the membership on this very important matter. Members, this is going to take a little bit of time to walk through this presentation. I think we sent an email out, but basically—as the Speaker stated, before we actually get to the amendatory process, we're going to walk you through each bill—so, each map. So we'll walk through the House map, the Congressional map, and the Senate map, and we're going to start that process in just a moment. So, it is going to take a little bit of time. We ask you please to keep the noise down so everyone can hear all the details that are being spoken of.

For the sake of your questions, your debate, and the process, we will go through, as I said, the House floor, we're going to have the opportunity to hear individually, all 120 House districts, all 27 Congressional districts, and the 40 proposed state Senate districts. Prior to that, I'm going to walk everyone through the process and the events that led to today. In order that we are all on the same page regarding what went into the redistricting process and, most importantly, how the results have impacted us.

It was in late 2010 that we had the first opportunity to publicly unveil the technology that the House has utilized in developing this redistricting process. That application, as you all know, is known as MyDistrictBuilder™. Early in 2011, our staff began a process of outreach, prior to even receiving the census data, by means of a social media and direct communications with likely stakeholders. For example, we outreached to supervisors of elections, civil rights organizations, and local government officials. In March of 2011, Florida received its census data. By April of 2011, our committee and subcommittees began meeting, learning about the application of the Federal and State redistricting laws and learning about the results of the census and announcing our 26-city tour.

Starting in June and all the way through September of 2011, we began what many of us called a 'listening tour.' We had the opportunity to listen and hear from nearly 5,000 people who attended those 26 public meetings in 25 different cities throughout our state. Those summer meetings generated more than 70 hours of public testimony. They helped encourage 177 submissions of redistricting maps—compare that to four, 10 years ago—and they helped encourage thousands of other emails, letters, phone calls, and faxes that we've received since then.

For last summer's public input meetings, we conducted outreach, including Spanish language outreach, via various newspapers, radio, and television outlets, and other estimates and other means with an estimated reach of greater than 4 million Floridians. On most days, if you Google or Bing to search the phrase 'Florida redistricting,' our website, www.floridaredistricting.org, is the number one website. In addition, the House's MyDistrictBuilder™ online redistricting application averages over 200 visitors per day who utilize it.

Our goal, as everybody in here knows, was to cast a wide net and to allow different ways for Florida's residents to participate in this process, and that's exactly what has taken place. What could be difficult about a process like this is that people often look first before they tell you how to go forward—they look back first before they tell you how to go forward, and that's also exactly what happened. Because we, as a legislature, had to confront the reality that the districts were to serve, that were served, and today could be redrawn in a more meaningful and a more legal and appropriate manner. We had to confront the reality that the redistricting process should and would be held to a higher set of standards than we've ever held ourselves before.

Then our subcommittees and our redistricting committees went through a process of narrowing down legislative produced options, while at the same time amending those options with additional public feedback—receiving all that along the way. With that, members, we have three maps to present to you today, and I believe they are framed by the standards of the law. They are influenced by the public and the input that we received, and they are supported by the documented record of our subcommittees and our full committee.

Members, as we go through this presentation you will see the district, or districts, being discussed on the screen. We have also emailed this presentation to everyone, so you should have it in front of you. So when we formally take up the bills later, you can use the emailed version of this presentation if you need a reference point for the map or for districts that we're discussing during second reading. And with that, Mr. Speaker, I'd like to please recognize Representative Schenck, who is co-chair of the House committee, to start the presentation of the House map.

Speaker Cannon: Thank you, Chair Weatherford. Members, please be reminded that we will entertain questions once all the presentations have concluded and we take up the Senate bills. Representative Schenck, you are recognized to begin explanation of the State House map.

Rep. Schenck: Thank you, Mr. Speaker, and I know you asked to go through them thoroughly, so I thought maybe I'd take 30 minutes on each House district—we'd get through it sometime next week. Let me thank you,

let me thank Chairman Weatherford about giving us the most open process we've had in redistricting. Members, HJR 6011, which redraws all 120 House districts, represents Florida's 18.8 million residents. The map drawers, which I could not say enough good things about, were Mr. Jeff Takacs—who we called 'the machine'—and Mr. Alex Kelly, who spent many, many hours in front of computers drawing these. The total range of population deviation for the districts is just under 4 percent. We use this range because it was particularly helpful in keeping counties whole and also drawing districts wholly within boundaries of counties.

Two points that were very important to our subcommittee were keeping districts whole and within boundaries of our county. The State House map drawn 10 years ago only kept 21 counties whole. This proposed State House map keeps 37 counties whole. By population and geography, it is only possible—it is only possible to keep a maximum of 38 counties whole, and we keep 37. The State House map drawn 10 years ago split 170 of Florida's 411 incorporated municipalities. This proposed State House map only splits 75 of those municipalities. In terms of the various ways that you can measure compactness, this proposed State House map is dramatically more compact than the State House map drawn 10 years ago. As State and Federal law guide us in terms of opportunities for racial and language minorities, this proposed State House map fulfills our legal obligations and even creates what we believe are some new opportunities. And in doing so, most of the minority districts are even compact. With that, members, let's start looking at the districts.

As you can see up on the big board, taking a look at Districts 1 to 4, the population of Escambia, Santa Rosa, and Okaloosa counties is nearly equal to that of four State House districts. Accordingly, each of these districts is largely anchored to one of the three counties, with Districts 1 and 4 being entirely located within a single county.

Districts 5 to 6 represent the populations of Walton, Bay, Holmes, Jackson, and Washington counties. Bay County has a district entirely within its borders and the remaining four counties are kept whole.

Districts 7, 8, and 9 keep several counties whole, only splitting Leon County. However, I think we did so in a meaningful way, ensuring that the city of Tallahassee, which is larger than the size of a State House district, is only split into two different districts and that Leon County gets a district entirely within its borders. District 8 is a majority-minority district that includes the entirety of Gadsden County.

Moving on, members, to Districts 11 to 16. They represent the entirety of Duval and Nassau counties, which happen to have populations equal to that of six House districts. Nassau County is kept whole within this configuration. One of the changes we made in the Redistricting Committee was to ensure that St. Johns River was followed as a geographical boundary line. Districts 13 and 14 are majority-minority districts that have been drawn in a much more compact configuration than the districts that were drawn 10 years ago.

Districts 17 and 24 through 27 represent putting exactly five districts within the boundaries of St. Johns, Flagler, and Volusia counties. Three entire districts were included within the boundaries of Volusia County and one entire district was included within the boundaries of St. Johns County. Cities like DeLand, Deltona, and St. Augustine are kept whole. Also of note, during this entire process, we once received public input via a postcard from a Flagler County resident. She wanted a Flagler County-based district that aligns with southern St. Johns County, and District 24 addresses that request.

In the center of North Florida, Districts 10, 18, and 19, and 20 to 23 manage to keep 10 counties whole. District 18 was designed as a very compact district, entirely within the boundaries of Clay County. As requested, we heard multiple times from Clay County residents they want to be kept whole. This configuration also creates both a seat entirely in Marion County and a second seat that is more than two-thirds in Marion County. District 20 will keep seven cities whole and, at that same time, maintain a

district that historically elects the African-American community's candidate of choice.

District 34 and 35 pair Citrus and Hernando County, which, together, have the population of two House districts.

District 33 includes the entirety of Sumter County and the cities of Lady Lake and Fruitland Park, and then portions of southern Marion County that are often associated with The Villages—a compact community that's boundaries extend into Sumter, Lake, and Marion counties.

Districts 36 to 38 divide Pasco County into three very compact districts, as the population of the county is nearly equal to three districts. And with that, Mr. Speaker, I would like to yield to my co-chair, Representative Dorworth, to continue the explanation of the proposed House map.

Speaker Cannon: Representative Dorworth, you are recognized to explain House Districts 28 through 32 and 39 through 79.

Representative Dorworth: Thank you, Mr. Speaker, and if could just take a quick second to echo the sentiments of Co-Chair Schenck about our staff. And I really don't think you can understand the enormity of dividing this state and having Congressional maps and Senate maps, and State House maps. The job they did was nothing short of stellar and they call the man 'the machine' because he's a machine, so Jeff Takacs and Alex Kelly are best in class as far as I'm concerned. We are very, very blessed to have them here.

Now, if I may, let me just go through the districts in Central Florida to start. Districts 28 to 32 and 44 to 49 represent much of the Central Florida region. District 32 met the goal of including one district entirely in Lake County and Districts 28 and 29 met the goal of including two districts entirely in Seminole County. Our subcommittee looked at multiple configurations of this area and ultimately passed amendments that improved the numbers of cities kept whole here.

Districts 46 and 48 are both majority-minority districts, and District 45, we believe, may be a new opportunity—a second opportunity for the African-American community in Orange County to elect a representative of their choice. The compactness and adherence to county lines of these districts improve greatly as compared to the State House map drawn 10 years ago.

Districts 50 to 53 represent Brevard County moving into east Orange County. Three entire districts are located within Brevard County in a very compact design. Members, as you are probably starting to see, we heard a theme all summer long that people wanted districts entirely located within a single county when possible. This is an example of a legally appropriate decision that also addresses that public input.

Districts 39 to 43 represent the bulk of Polk and Osceola counties. District 43, which is entirely located in Osceola County and keeps the city of Kissimmee whole, is a new majority-minority Hispanic district. Districts 40 and 41 are wholly located in Polk County. This design of Polk County is very much what the Polk County Commission requested for the State House map. Both our subcommittee and the full committee made changes in Polk County that led to several additional cities being kept whole.

District 56 is also in Polk County, encompassing Bartow and all of Hardee and Desoto counties. The district uses US 17 as a transportation artery, which was a specific request from the public. Districts 57 and 64 encompass most of Hillsborough County. The bill creates three east Hillsborough Districts, keeping Plant City and Temple Terrace whole. Districts 61 and 62 are both majority-minority districts in what is a Section 5 Voting Rights Act county. Of the nine districts in Hillsborough County, seven of them are entirely within the boundaries of the county.

District 64 is about two-thirds Hillsborough County and one-third of the population in Pinellas County, including the entirety of Oldsmar and Safety Harbor. Districts 65 to 69 are all entirely within Pinellas County, meaning

that five of the seven districts in Pinellas County are entirely within Pinellas. There are a significant number of municipalities in Pinellas County many of which are kept whole. Pursuant to the request of the public, these proposed districts make a particular effort to keep small cities whole in Pinellas County.

District 70 connects the four counties in this region: Hillsborough, Manatee, Pinellas, and Sarasota counties. A mathematical note about these four counties: they happen to be the size of 18 districts. District 70 historically elects African-American candidates and is partially located in the Section 5 covered county, Hillsborough County. Therefore, it was important to make an effort to maintain its ability to elect a candidate of choice. In addition to that, the district is used in such a way that the population it covers in Manatee and Sarasota allows the remainder of those two counties to be represented by two districts that are mostly in Manatee County and two districts that are entirely in Sarasota County, both of which were requests from the public.

So, of these 18 districts in Hillsborough, Manatee, Pinellas, and Sarasota, 14 of them are located entirely within one county. Districts 75 to 79 encompass all of Charlotte and Lee counties; in fact Charlotte County is District 75. Lee County happens to be nearly equal to the size of four State House districts. Therefore, its borders are not crossed in this map. In our most recent committee meeting, an amendment was done in response to a public input to make the community of Estero whole. Every incorporated city in Lee County is also kept whole.

District 55 encompasses the entirety of Okeechobee, Highlands, and Glades counties, along with a few thousand residents of western St. Lucie County. District 54 is the entirety of Indian River County along with a small portion of St. Lucie County. With that, Mr. Speaker, I yield back to Chair Weatherford.

Speaker Cannon: Chair Weatherford, would you yield to Representative Frishe? Representative Frishe, you are recognized to explain House Districts 80 to 120.

Rep. Frishe: Thank you, Mr. Speaker. And like my co-chairmen on this committee, I'd like to echo their thanks to our staff who have been just outstanding in this effort.

Mr. Speaker, members, District 82 to 84 encompasses the remainder of St. Lucie County, all of Martin County, and approximately 60,000 residents in northern Palm Beach County. Port St. Lucie is larger than the size of the State House district. Otherwise, every other city in these two counties is kept whole.

You look at Districts 81 and 85 to 91. The remainder of Palm Beach County includes eight districts that are entirely within the borders of the county. If you reflect on the districts drawn in the State House map 10 years ago, there is no longer a district that encompasses both sides of the Okeechobee—something that we heard a great deal about in public hearings. Instead, you have a western Palm Beach County district. The turnpike is used as a geographical divider for some of the districts in the county, and the overall compactness of these districts has significantly improved.

District 86 includes the entirety of Wellington, Loxahatchee Groves, and Royal Palm Beach.

District 88 maintains the existing majority-minority African-American district and not one district crosses the Palm Beach/Broward County line.

Moving to Broward County, 10 of the 14 districts in the county are entirely located within the county. They are all major improvements in terms of compactness, even the four districts that historically elect African-American candidates—District 92, 94, 95, and 101 are very compact. And District 95 also maintains a significant Caribbean-American community.

Moving into northern Miami-Dade County, District 107 and 108 have significant concentrations of Haitian Americans maintaining the two districts in the State House that historically allows this language-minority community to choose a candidate of their choice.

When you look further at districts like 103, 110, and 111 you'll see that the proposed State House map looks frequently toward roadways in Miami-Dade County as boundaries. Most of the district lines, or many of the district lines, were straightened, squared off, and neighborhood boundaries were looked to as frequently as possible so as to not divide neighborhoods—not to split them up. There is also some, were some, changes done in both subcommittee and committee to improve the use of municipal lines here, and also to maintain the existing districts that enable Hispanic communities to choose a candidate of their choice.

Looking further into Miami-Dade County at Districts 112, 114 to 119, overall Miami-Dade County represented dynamic improvements in terms of compactness of the districts. Most of the districts in this slide are districts that traditionally perform for Hispanic candidates, although District 117 historically elects an African-American candidate. In all cases, we maintain the ability to elect the minority community's candidate of choice.

Down at the bottom, District 120 is Monroe County. That also encompasses portions of southern Miami-Dade.

District 105, and this one you'll notice is a Section 5 Voting Rights district that is about two-thirds in Miami-Dade County and one-third in Collier County. In the State House map that was created 10 years ago, a similar district was created as the result of a settlement with U.S. Department of Justice and Federal Court that required that the Hispanic community in Collier County maintain the ability to elect a Hispanic candidate. To accommodate that court settlement, a second district that crossed the state was also created 10 years ago. However, in the proposed State House map, only this district crosses the middle of the state—that being the district that was necessary pursuant to the court settlement.

Moving further into Collier County, pursuant to a request of the Greater Naples Chamber, there are only three districts in Collier County. District 106 is entirely within the county and includes the city of Naples. District 80 is the northern Collier County district and also includes all of Hendry County. And with that, Mr. Speaker, I would like to yield back to Chairman Weatherford.

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. Mr. Speaker that concludes the presentation of the State House map. Mr. Speaker, I would ask you to please recognize Representative Legg to begin the explanation of the Congressional map.

Speaker Cannon: Representative Legg, you are recognized.

Rep. Legg: Thank you, Mr. Speaker. This is CS/HB 6005, which are the Congressional districts. Members, as you know, we have 27 Congressional districts—plus two this time around, versus 10 years ago. The two new Congressional districts—as an interesting note, states like New York, Ohio, Pennsylvania, have all lost congressional representation, and we have gained two. The map drawers for this Congressional district, these Congressional maps, are Alex Kelly, Jason Poreda, Jeff Silver. The standard deviation for each of these districts, members, take a note of this, is zero. There is zero deviation in these maps to adhere to the one-person, one-vote principle. Members, 10 years ago, the former map consisted of 37 whole counties. This current map consists of 46 whole counties. The former map consisted of 110 city splits, this map has only 27, out of the 411, cities that are split.

Members, voters wanted a map that was compact. This Congressional map is more compact in every possible measurement than the map 10 years ago. Voters wanted a map that protected racial and language minorities. This map

fulfills that obligation in every capacity. Members, let's look at the descriptions of each of the districts.

Speaker Cannon: Members—Representative Legg, excuse me just a moment. Members, please give Representative Legg your attention. Keep the noise down. Representative Legg, you are recognized.

Rep. Legg: Thank you, Mr. Speaker. Starting in the panhandle, District 1 includes all of Escambia, Santa Rosa, Okaloosa, Walton counties, and a portion of Holmes County. District 2 includes a portion of Holmes and Madison counties, and all of Jackson, Washington, Bay, Calhoun, Gulf, Liberty, Franklin, Gadsden, Leon, Wakulla, Jefferson, and Taylor counties. District 3 includes a portion of Madison, Clay, Alachua, Marion counties and all of Hamilton, Suwannee, Lafayette, Dixie, Levy, Gilchrist, Columbia, Union, and Bradford counties.

In Northeast Florida, District 4 includes all of Baker and Nassau counties and a majority of Duval County. Looking back to the district in this general area drawn 10 years ago, it stretched from Duval County all the way to Tallahassee. We received feedback from Tallahassee residents asking that they no longer be connected to Jacksonville in a district, and District 4 accomplishes this.

District 5 includes a portion of Duval, Clay, Putnam, Alachua, Marion, Lake, Seminole, and Orange counties. In this district, the municipalities of Eatonville, Green Cove Springs, Hawthorne, Palatka, and Reddick are all kept whole. The core of this district is very similar to the core of the existing district, a district that has historically elected an African-American to Congress. The first version of this district was drawn by a Federal court in 1992. Prior to that, the state of Florida had not had an African-American member of Congress since Reconstruction.

District 6 includes a portion of Putnam County, the majority of Volusia County, and all of St. Johns and Flagler counties.

Moving on to central Florida, District 7 includes portions of Volusia, Seminole, and Orange counties, keeping several cities whole throughout the district.

District 8 includes all of Brevard and Indian River counties and a portion of Orange County.

District 9 includes all of Osceola and portions of Orange and Polk counties. Over the past several months, we have received feedback from the people of Osceola County requesting that they be kept whole in a Congressional district, as well as requests for us to link Osceola and Orange counties. Furthermore, we received numerous requests from the public to create a district that acknowledges the growth of the Hispanic community in Central Florida. In that regard, we've married up these two different requests from the public, and done so while keeping an entire county and several cities whole.

District 10 includes a portion of Orange and Polk counties and the majority of Lake County.

District 11 includes all of Citrus, and Hernando, and Sumter counties, and a portion of Lake and Marion counties. In terms of population, Marion County is still the most significant county in this district, even though the county is divided.

In the Tampa Bay region, District 12 includes all of Pasco County and a portion of Hillsborough and Pinellas counties, keeping several cities whole.

District 13 is wholly contained in Pinellas County and keeps 21 municipalities in the county whole. In this district, along with District 14, were amended in committee due to both concerns about the Voter's Right Act of compliance with District 14, but also a public request from Pinellas County residents who wished to be in Pinellas County districts. District 14 includes a portion of Hillsborough and Pinellas counties. Ten years ago, a similar configured district stretched down in Manatee and Sarasota counties. We

received input from the public calling for that district to be removed from those two counties and go more into Hillsborough County, and that is exactly what we did. This district is covered under Section 5 of the Federal Voting Rights Act.

District 15 includes the eastern portion of Hillsborough County and the western portion of Polk County. And with that, Mr. Speaker, I'd like to yield to our subcommittee co-chair, Representative Holder, to explain Districts 16 through 27.

Speaker Cannon: Representative Holder, you are recognized to explain Districts 16 through 27.

Rep. Holder: Thank you, Mr. Speaker. District 16 includes the majority of Manatee County and all of Sarasota County. The people of those two counties overwhelmingly asked that they be connected in a Congressional district, and that's exactly what we did.

District 17 includes portions of Polk, Hillsboro, Manatee, and Lee counties, and all of Hardy, Desoto, Highlands, Okeechobee, Glades, and Charlotte counties.

District 18 includes all of St. Lucie and Martin counties and a portion of Palm Beach County. You may remember that that district is the area the state that, drawn 10 years ago, stretches from Palm Beach County all the way across the state to Charlotte County. We heard from residents from the Treasure Coast, and frankly, throughout the state, calling for the end of cross-state districts, and so we did away with that district.

District 19 includes the majority of Lee County and portions of Collier County including all of Naples.

And moving southeast to southeast Florida, District 20 includes portions of Hendry, Palm Beach, and Broward counties. District 20 is a Section 5 Voting Rights district. We received maps for this area that were submitted by members of the public who did an excellent job of keeping the municipalities whole, and we took that advice. This particular district keeps 14 municipalities whole.

District 21 includes portions of Palm Beach and Broward counties.

District 22 includes portions of Palm Beach and Broward counties, and like District 20, keeps many municipalities in the region whole. In fact, 20 municipalities are kept whole within that district.

District 23 includes portions of Broward and Miami-Dade counties. It keeps 16 municipalities whole, including Davie, Hollywood, and Weston.

District 24 also includes portions of Broward and Miami-Dade counties. This area of the state has traditionally elected an African-American to Congress and this district recreates that opportunity. Additionally, this district keeps several cities whole.

District 25 includes portions of Hendry, Collier, Broward and Miami-Dade counties. This district is also impacted by Section 5 of the Federal Voting Act, Federal Voting Rights Act.

District 26 includes portions of Miami-Dade and all of Monroe County.

District 27 is the second district that is wholly contained within a county and its all in Miami-Dade. The additional one point that I want to mention about Districts 25, 26, and 27 is they're drawn to create a more compact and cohesive meeting point between the districts, nearby and along the Tamiami Trail. In that way, we're able to both maintain these three majority-minority districts, but also design them in a more compact fashion. And with that, Mr. Speaker, I yield back to Chair Weatherford.

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you very much, Mr. Speaker. And Mr. Speaker, I now would like to recognize Representative Horner to explain the differences between the House and Senate versions of the Congressional map.

Speaker Cannon: Representative Horner, you are recognized.

Rep. Horner: Thank you, Mr. Speaker. Members, I'd like to discuss the differences between the Congressional map and CS for SJR 1176 that the Senate passed on January 17 and the proposed map just described to you by Chairman Legg and Holder in CS/HB 6005. Some of the overall differences between the two maps are the Senate's version of the Congressional map splits 24 counties and 46 cities; the House's version only splits 21 counties and 27 cities throughout the entire map.

The first area I'd like to talk about is, of course, Osceola County and Congressional District 9 on our map. Both the House and Senate drew the districts in a similar way, including all of Osceola and portions of Orange and Polk counties. The District 9 in our bill is noticeably more compact than its counterpart.

The next area I'll bring up is the Pasco/Hernando area and the Tampa Bay region. In the Senate's version—the Congressional map, Hernando and Pasco counties are linked together, which pushes the district to the north, containing Citrus and Sumter County, further into Lake County. As a result, the Senate's version of the map has a Congressional district that entirely spans northern Pinellas and Hillsborough counties. In the House's version of the Congressional bill, Hernando County is joined with Citrus and Sumter counties, whereas Pasco County is in the district that also has portions of north Pinellas and Hillsborough County. This configuration in the House's proposal also creates a district that is mostly in eastern Hillsborough and western Polk counties, keeping Plant City, Lakeland, and Bartow wholly within the district.

The next difference is also in the Tampa Bay region. In the House map, District 14 does not go into Manatee County, so that the district is wholly and more compactly located in Pinellas and Hillsborough counties. The Senate's version of the Congressional district dips into Manatee County.

Moving south along the Gulf Coast, the House version of the Congressional map keeps Sarasota County whole along with the majority of Manatee County. The most similar district in the Senate's version of the Congressional map splits Manatee, Sarasota, and Charlotte counties with the coastal side being in one district and the rural side being in another district.

Moving to District 17, the Senate's version splits Charlotte and Okeechobee counties. The House version keeps these counties whole.

The final area of significant difference in the two districts in Miami-Dade County and Monroe County. Both maps connect Monroe County with Miami-Dade County. However, the Senate's version of the map connects Monroe County with eastern Miami-Dade County, while the House's version creates what turns out to be a more compact design connecting Monroe County with western Miami-Dade County. And with that, Mr. Speaker, I'd like to yield back to Chair Weatherford.

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Chairman. I'd like to now recognize Representative Hukill to explain Senate Districts 14 through 22, 24 through 26, and 28. Oh, I apologize—I skipped. Representative Nehr, I haven't forgot about you, buddy. I still got your back. I'd now like to recognize Representative Nehr to explain the Congressional map.

Speaker Cannon: Representative Nehr, you are recognized.

Rep. Nehr: Thank you, Mr. Speaker. Members, we will now be discussing CS/HB 6001, which represents the redistricting of all 40 State Senate districts. This is an identical map to CS for SJR 1176 that our colleagues in the Florida

Senate passed on January 17th. The total range of population deviation for the districts is just under 2 percent, approximately plus or minus 1 percent. And the State Senate map drawn 10 years ago only kept 22 counties whole. HB 6001, before you here today, keeps 36 counties whole. The State Senate map drawn 10 years ago split 126 cities out of the 411 cities throughout Florida, and this proposed map only splits 54 cities. With that, members, let's look at the districts.

Taking a look at Districts 1 and 3, the population of Escambia, Santa Rosa, Okaloosa, Walton, Holmes, Jackson, Washington, and Bay counties are nearly equal to that of two State Senate districts. The two districts' primary boundary lines between them are Interstate 10 and the Intercoastal Waterway, the Yellow River, as well as several municipal lines.

District 5 is made up of entirely 11 whole counties: Calhoun, Franklin, Gadsden, Gulf, Hamilton, Jefferson, Leon, Liberty, Madison, Taylor, and Wakulla.

Now, looking at Districts 2, 7, and 11, you can see there are 12 whole counties between these three districts. District 7 is made up entirely of Alachua, Clay, and Union counties. And District 2 is made up of eight whole counties along Florida's Nature Coast—as well as a portion of Marion County. District 11 contains the other part of Marion County, only dividing the county into two districts. District 11, also, keeps the areas known as The Villages and The Golden Triangle—the cities of Eustis, Tavares, and Mount Dora—whole.

Districts 4, 6, and 9 consist of much of Northeast Florida. District 4 and keeps Nassau County whole, connecting it to Duval County. District 6 is drawn to maintain a district that historically elects the African-American community's candidate of choice in that region. And Districts 6 and 9 also meet the goal, that public input suggested, that St. Johns and Flagler counties be linked.

District 8 encompasses the majority of Volusia County and connects the county to northern Brevard County, and the district follows many municipal lines within the county, again accomplishing the goal of several people who testified at the Daytona Beach public hearing who requested there be fewer districts in the county and that their city lines be respected.

Moving to the Central Florida area, Districts 10, 12, and 13 are made up of Seminole County, as well as eastern Orange County and southern Lake County. And District 12 preserves the district that historically elects the African-American community's candidate of choice in the Orlando area. Districts 10 and 13 also meet the goal of both Lake and Seminole County residents who wanted to see their counties divided as few times as possible. These districts make sure both counties only have two State Senate districts. And with that, Mr. Speaker, I yield back to Chair Weatherford.

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. Please recognize Representative Hukill to explain Senate Districts 14 through 22, 24 through 26, and 28.

Speaker Cannon: Representative Hukill, you are recognized.

Rep. Hukill: Thank you, Mr. Speaker. Members, moving to the Gulf Coast, we see that District 20 keeps Hernando County whole and joins it with portions of Pasco and Sumter counties. This district makes use of county and municipal borders for the majority of its border. Moving back to the Central Florida area, Districts 14 and 16 are made up of southern Orange County, northern Polk County, and keeps Osceola County whole between the two districts. District 14 has an Hispanic voting-age population of over 50 percent. Several publicly submitted maps drew a similar district in the Orlando area.

Districts 15, 17, 19, 21, and 22 make up the Tampa Bay region made up of all of Pinellas and Hillsborough counties as well as parts of Pasco and Manatee

counties. Both Pinellas and Hillsborough counties have a state Senate district entirely within each county in District 17 and 21, respectively. This reflects the public testimony of residents of the two counties requesting that a Senate district be wholly located in their county. District 19 connects areas of Pinellas, Hillsborough, and Manatee counties and historically elects African-American candidates, and it is also partially located in a Section 5-covered county, Hillsborough County. Therefore, it was important to make an effort to maintain its ability to elect a candidate of choice.

Moving from the Gulf Coast, we move back to the east coast of the state looking specifically at Brevard and Indian River counties that are joined by District 18. This district limits the division of Brevard County to only two State Senate districts, which was a request of those who testified at the Melbourne public hearing. This district also does not divide any municipalities in either county.

Moving back to the Gulf Coast, we look at Districts 24 and 28. [District] 24 connects municipalities in eastern Manatee County, such as Myakka Head, Old Myakka, and Myakka City, within areas in eastern Hillsborough County and southwestern Polk County. District 28 keeps Sarasota County whole and connects that county with areas such as Port Charlotte and Grove City in eastern Charlotte County. And with that, Mr. Speaker, I would like to yield to our vice chair, Representative Workman, to continue the explanation of the proposed State Senate map, HB 6001.

Speaker Cannon: Representative Workman, you are recognized.

Representative Workman: Thank you very much, Mr. Speaker. As we continue to move around the map, we look next at District 26, which is a geographically large district made up of five whole inland counties in Hardy, DeSoto, Highlands, Glades, and Okeechobee. The district also connects these counties with southern Polk County, western St. Lucie, and Martin counties, and a portion of Charlotte County.

District 25 connects eastern parts of Indian River, St. Lucie, Martin, and eastern Palm Beach County. This area is linked together by the major transportation routes of Interstate 95 and US 1.

Moving back to the southern part of the state to the Gulf coast, District 23 and 30 link Lee County with the coastal portion of Collier County and the southern portion of Charlotte County.

District 30 keeps municipalities such as Cape Coral, Sanibel, Naples, and Marco Island are kept whole in District 30. Both Districts 23 and 30 use major transportation routes in the area, such as Interstate 75 and the Tamiami Trail, to connect these areas together.

Moving back to the East Coast, we'll now look at Districts 27, 29, 31, 32, 34, and 36. These are the six State Senate districts that make up the majority of Palm Beach and Broward counties. District 27 is wholly located within Palm Beach County and Districts 31 and 36 are wholly located within Broward County. District 29 is a majority-minority district in Palm Beach and Broward counties and has historically elected an African-American community's candidate of choice in that region.

Moving south in Miami-Dade County, we'll look at Districts 33, 35, 37, 38, and 39 all together. Districts 33, 37, and 39 traditionally offer Hispanic communities the opportunity to choose a candidate of their choice. District 38 historically elects an African-American candidate.

Moving further south, we will look at District 40, which has two whole counties in Monroe and Hendry County. This district also has parts of Collier and Miami-Dade counties. This district includes three Section 5 counties in Monroe, Collier County, and Hendry counties where the minority community has traditionally been able to elect an African-American candidate. And with that, Mr. Speaker, I yield back to Chair Weatherford.

Speaker Cannon: Chair Weatherford, back to you.

Rep. Weatherford: Thank you, Mr. Speaker. Members, those are the explanations of the Senate, House, and Congressional maps. And I think we've got it all out there.

Speaker Cannon: All right, we are now ready to take up the Senate bills. Take up and read CS for SJR 1176.

CS for SJR 1176 was read the second time by title on Thursday, February 2, 2012 (as previously shown in the *Journal* on page 328).

Speaker Cannon: Representative Nehr, you are recognized to explain the bill.

Representative Nehr: Thank you, Mr. Speaker. Members, this is CS for SJR 1176. It's the proposed State Senate map as passed by the Florida Senate. It is identical to the State Senate map that our Redistricting Committee passed in CS/HJR 6001. This is the same Senate map that we just explained during the presentation and that is the bill, Mr. Speaker.

Speaker Cannon: All right, are there questions to the sponsor? Representative Jenne, for a question.

Rep. Jenne: Mr. Speaker, thank you. Chairman Nelson, I have some questions here. I was hoping to start off with some that focus on the issues of racial fairness in the map. Oh, who did I say? I'm sorry, it's just, I'm in insurance and I just think of Bryan Nelson a whole heck of a lot. [laughter] Representative Nehr, I do apologize.

First of all, if you could, please tell us the definition of 'retrogression' as it is applied to this particular plan.

Speaker Cannon: Representative Nehr.

Rep. Nehr: Thank you, Mr. Speaker. I'm going to tell you, I'll have Representative Weatherford take that question.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. It's a good question, Representative Jenne, thank you for bringing it forth. It's been talked about a lot, trying to define, in a very finite manner, the definition of 'retrogression.' I don't know if I have a perfect answer for you, but I can tell you this—'retrogression,' to me, and I think to the committee that has worked for these great bills, means not going backwards. It means that if you have a district, for example, that is a minority-majority district in a Section 5 county, it should not go backwards. It means that, for example, in Amendment 6, that speaks very clearly and Amendment 5, it speaks very clearly to not having diminishment within the minority districts. I think that's what 'retrogression' is.

Speaker Cannon: Further questions? For a follow up, Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker and Representative Weatherford, thank you for that. I'll address my questions back to Representative Nehr, my dear friend Peter Nehr. Some districts must be drawn to allow minorities to elect the Representative of their choosing, but having the 2002 districts change and what I'm wondering, really, is—do we have to maintain 2002 minority districts in order to re-elect someone?

Speaker Cannon: Representative Weatherford, is that a follow up? Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I appreciate it. It's a very good question. Look, I think that the Federal law is extremely and implicitly clear. There are different things that you have to look at. For example, we have five counties within Florida that are Section 5 counties within the Voting Rights Act. We cannot allow for diminishment to take place within those five counties—certainly for districts that are within those five counties. But also,

we have Section 2 of the Voting Rights Act that also says that you cannot take a district that is a minority-majority district and take it below 50 percent.

On top of that, the voters, in 2010, voted for Amendments 5 and 6 that very clearly stated, as a tier one criteria, that we cannot diminish the opportunity for minorities, communities to elect a candidate of their choice. And so, I think it's pretty clear as to what we have to do and what we've done within these maps.

Speaker Cannon: For a follow up, Representative Jenne.

Rep. Jenne: Again, thank you, Mr. Speaker. It may be these line of questions are along the same vein so, I'll probably address them to Representative Nehr, but please feel free. What was the definition the committee used to determine if districts were racially fair—that threshold that you just spoke of, was there anything else and was it that no plan could diminish the percentage of minority voters in any minority district below its current total or are we just working with that 50 percent threshold? If you would, please, sir.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There is no specific threshold. It is a district-by-district analysis that we have to make. Certainly, when you're going through the Department of Justice, they require certain data that we have to show and prove that we did not diminish a minority community's ability to elect a candidate of their choice.

Speaker Cannon: For a follow up, Representative Jenne.

Rep. Jenne: Thank you, again, Mr. Speaker. Next question, whoever needs to answer it. Does compliance with the Constitution require the use of minority voting data, majority voting data, performance in various elections, ability of minority voters to elect, and I was wondering if you could tell me why or why not, depending upon your answer, of course?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Again, a good question. The Voting Rights Act and the Department of Justice, as well, in order for us to make sure we have not diminished according to Amendments 5 and 6, we do have to use data to show that we have not taken away that community's ability to vote for a candidate of their choice.

Speaker Cannon: For a follow up, Representative Jenne.

Rep. Jenne: Again, thank you, Mr. Speaker. As I had the opportunity and the honor to sit on these committees, there was a lot of talk, seemed to be wherever, at least, that I went and my colleagues reiterated to me that they heard a lot on the different legs of the trip, but there was a lot of talk about making preservations of minority districts a priority—I think we can all agree upon that. Is there any numerical formula, any at all? We know that now, that there isn't. So, how then do we know if the plan diminishes or does not diminish the ability if we're not using any specific type of threshold?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think I answered that question before, but it is a district-by-district analysis. There is no specific threshold—it is a district-by-district analysis. And I would also add, that it wasn't just this body that agrees—that is a tier one standard to protect people's ability to elect a candidate of their choice. Sixty-three percent of the voting public in 2010 also agreed.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Again, thank you, Mr. Speaker. If the plan packs large minorities of Democratic voters into some districts—is that evidence, or can we take that as evidence, as the plan is intended to favor one party or another? If we see packing, really not just the Democrats and I apologize because that's

my point of view, but in either party, if we're packing people in—is that evidence to show that it was intended to favor one group or the other, sir?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I'm very proud of the fact that our maps do not have any packing within them, whatsoever. It's not a part of any of our maps. We made sure of that and it's nowhere within any one of these House, Congressional, or Senate maps—there was no packing, whatsoever.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Speaker. Based on the map that we're currently presented with—does it represent the greatest number of minority or coalition districts that could have been drawn? If no, why not? If the answer is yes, could you please tell us how you know that.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Certainly, we can give you a lot of data on the districts that were drawn that potentially would give communities the ability to vote for a candidate of their choice, but there is no requirement of law that you maximize anything like that. So, that is not something that we look to do.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker. If it's statistically probable that minority voters will elect a candidate of their choice, with 40 percent minority voting age population—is it constitutional, constitutionally permissible, for that district to contain 55 percent, 65 percent, 75 percent, so on and so forth?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Again, I don't believe there is a numeric standard that you can unilaterally or paint across the entire state of Florida. I think that it is a district-by-district analysis that you have to run through to make sure that you feel confident that that community would be able to vote a candidate of their choice. There is no number that you can put your hat on and say that that is the magic number—does not exist.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker, as always. Was election performance data used, Representative Weatherford, to determine if districts improved or diminished the ability of minorities to elect candidates of their choice? If yes, you could define what that data was and I'll save the rest for follow up if necessary, dependent upon your answer.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. The Department of Justice actually requires that we use performance data to prove that the districts that we've drawn continue to allow a community to elect a candidate of their choice. Our staff, along with our attorneys, look at that data and they analyze it on a district-by-district basis to make sure that that is taking place—the answer is yes.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker. Can we ask what the source of that data, where the source of that data was?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: The source is the Department of State, Division of Elections, and also, I would like to point out on the earlier question as well, if I could, Mr. Speaker, that we only use that data when dealing with those

districts, the minority districts.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker. Switching gears, I'm going to go back because these next set of questions deal with incumbency and perhaps it will go back to you, Chairman Weatherford, but I'll formally address them to Chairman Nehr at this point, until I know otherwise. Chairman Nehr, if the 2002 districts were drawn in order to preserve incumbency or to help any particular political party, is that something relevant to determining whether or not we can simply keep the 2012 districts and plans approximately the same as configured in 2002? Because I have to be quite honest, when I look over things it seems to be that they are very, very similar in nature.

Speaker Cannon: Representative Nehr.

Rep. Nehr: Mr. Speaker, once again, I'd like to yield to Representative Weatherford.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I could not disagree more. I don't think our districts in 2012 reflect, very much of anything in 2002, but I would also like to point out that I don't think anybody here can specifically talk about what the intent of the legislature was 10 years ago. I didn't serve in this body. We may have a couple of a retreads who are here when we went through that process in 2002, but I was not one of them and so I can't speak to that. There is nothing wrong with being a retread, Representative Frishe. [laughter]

Speaker Cannon: The record shall so reflect. Representative Jenne.

Rep. Jenne: I like to refer to them as veterans, Chairman. [laughter] I'm sorry. If the district is composed of 70 percent voters of the same party as the incumbent, some might say that it's evidence of an intent to favor said incumbent. I was wondering if you could explain, why or why not, in your particular view.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I don't think that's a factor in whether or not the maps that we drew were compliant with Amendments 5 and 6 and the Federal Voting Rights Act. I mean, we have very clear standards both in statute, Federal statute—we have very clear standards in the State Constitution which we abided by. But one those standards is not whether or not a district looks anything similar to the way it looked 10 years ago when it was drawn. So, I guess I just don't follow that line of questioning.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Fair enough. Next question would be this—were there any iterations, models, of any maps that included any member's actual residence—intentionally placed there?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Very proud to say, absolutely not and I think a lot of the members in this Chamber could speak to that.

Speaker Cannon: Representative Jenne.

Rep. Jenne: At least I can. Were there any discussions with members about whether their residence would be in a district with another residence of any other incumbent? Was the Democratic Party of Florida solicited to give their input or was the Republican Party of Florida solicited to give their input?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Our job was to comply with the Amendments 5 and 6, and our Constitution, and to comply with the Federal statutes of the Voting Rights Act. Where people live was

inconsequential. We did not look at that information and I think that's reflected in our maps.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you. And then to the second part of that question would be—was there anyone reaching out, did anyone reach out, to the Florida Democratic Party or the Republican Party of Florida on behalf of this Chamber?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No.

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker. This is the final question that I have. Based on publicly available historic election data, as certified by our very own Secretary of State, the Senate plan overwhelmingly, it favors one particular party while creating only fourteen districts that would give the minority party a chance at winning. On a fair plan, based on a 50/50 statewide partisan vote in this state, wouldn't that allow for 20 and 20 and can you tell me why doesn't this plan shake out that way?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Of course, I cannot speak for the Senate, but we certainly, and I agree with the Senate, I believe the Senate would say the same thing, that we did not use political data in drawing these maps and so it's kind of hard to answer a question about what we knew in regards to political data when we didn't use it. Nowhere in the standards to talk about trying to draw districts with any type of partisanship or any type of number involved, and very clear standards to talk about tier one standards of making sure there was no political intent, had very clear standards about preserving communities' ability to vote for a candidate of their choice, compactness, cities and counties, all those things. It doesn't talk about the question that you just asked.

Speaker Cannon: One more. Representative Jenne, you are recognized.

Rep. Jenne: I appreciate your indulgence, Mr. Speaker. Some of my colleagues started getting in my ear for a second; they wanted me to ask a follow up to a previous question. Before, I had asked if any information had been solicited from any political party. The question that I was asked to then reframe would be—was there any communication either between the House of Representatives, anyone working for the House of Representatives, and the Florida Democratic Party or the Republican Party of Florida via telephone, email, fax, Skype, anything at all?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No—that I know of.

Speaker Cannon: Further questions? Representative Cruz, for a question. You're recognized.

Rep. Cruz: Thank you Mr. Speaker. My question is about incumbency, also. Were members asked about how to improve a district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I—maybe reframe that question. I'm not sure I understood it exactly.

Speaker Cannon: Representative Cruz.

Rep. Cruz: Thank you, Mr. Speaker. Were any members asked about how to improve a district?

Speaker Cannon: Representative Weatherford, you're recognized.

Rep. Weatherford: I can speak for our committee. The conversations that we had, in regards to improvement—we had many conversations about improvement—but they were about improving the compliance with the standards that we have to follow, both with the Federal Voting Rights Act and with Amendments 5 and 6.

Speaker Cannon: Further questions? Representative Cruz, for a follow up.

Rep. Cruz: Actually, Mr. Speaker, it's another question, not a follow up.

Speaker Cannon: All right. Another question.

Rep. Cruz: Were districts modified based on any member input?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think districts were modified certainly by member input. They were modified based on public input. They were modified by maps that were submitted by members of the public. They were modified by discussions that took place within the committee. So there were many ways that the districts were modified. A lot of ideas were exchanged throughout the committee process. I think it's very well documented in this committee.

Speaker Cannon: Representative Cruz, you're recognized.

Rep. Cruz: Questions now on compactness. What definition of compactness was applied to constructing this plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you very much, Mr. Speaker. Compactness is not necessarily determined by a single test or a measurement. Compactness—thank you, Representative—compactness can be in different forms. For example, you can look at a district and very clearly see if it's compact. I think there is an eyeball test that we would all recognize, whether or not something is compact. But it can also be something that is following a county boundary, or it can be a political or geographic boundary. Or it can be one which improves a citizen's ability to travel when it comes to the traveling distance of a district. So, there are lots of measurements. In fact, courts have used up to several dozen types of compactness measures. There is no one that is utilized as the standard, so to speak. But I do believe the basic—to break it down to very basic terms, I think you kind of know compactness when you see it. And I think that when you look at our districts, I do think they meet that test.

Speaker Cannon: Representative Cruz, you're recognized.

Rep. Cruz: Thank you, Mr. Speaker. To that end, can you tell me how does this plan reflect your definition of compactness?

Speaker Cannon: Representative Weatherford.

Rep. Cruz: I said to that—

Speaker Cannon: Go ahead, Representative Cruz.

Rep. Cruz: I said to that end, can you tell me how this plan reflects your definition of compactness?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. By every measurement that we have and that we utilize. In fact, if you go to MyDistrictBuilder™, we have different ways and components to measure compactness by every form. It is more compact than it was 10 years ago, significantly more compact.

Speaker Cannon: Representative Cruz.

Rep. Cruz: Thank you, Mr. Speaker. Can you tell me, please, what reasons were there for districts that are not clearly compact?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think I need you to be a little more specific than that.

Speaker Cannon: Representative Cruz.

Rep. Cruz: Well, I'll ask the question again then. What reasons were there for districts that were not clearly, physically compact?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I hate to do this to you, Representative Cruz, but I'm going to repeat myself. I think you need to be a little more specific and give me a district you think does not meet the compactness requirements and I'll tell you why we, you know, that we felt that it was the most legally compliant form to draw that district.

Speaker Cannon: Representative Cruz.

Rep. Cruz: Can you tell me then why some districts were not drawn in a compact fashion?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I—Mr. Speaker, I apologize. I'm going to continue to say the same thing. It's not Groundhog Day, but I would need you to be a little bit more specific about what exact districts you're talking about that you feel are not compact.

Speaker Cannon: Representative Cruz, can you rephrase the question?

Rep. Cruz: Representative Weatherford, I'll follow up with you. Thank you, Mr. Speaker.

Speaker Cannon: Further questions? Representative Cruz, you have another question?

Rep. Cruz: Did staff have access to performance data?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Mr. Speaker, I feel like I've answered that question.

Speaker Cannon: Representative Cruz.

Rep. Cruz: I'm recognized? How can we know if a plan favors or disfavors a party without performance data?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: It's a good question. I would like to also point out that the performance data—everyone has access to it. The question is whether or not you utilize it in drawing districts, which we most certainly did not. We did not use performance data to draw the districts around the state of Florida. And so, I think your question, which is asking me how can we draw districts without knowing the performance data, we draw districts based on what the standards in the law say. We draw districts based on what Amendments 5 and Amendment 6 said. We draw districts based on what the Voting Rights Act tells us we have to do. So what we do is we follow the law, we listen to the public, we utilize their public input, and we make sure that it falls in line with what the law says. And that's how we come up with districts—it's actually a pretty simple formula.

Speaker Cannon: Further questions? Representative Cruz.

Rep. Cruz: Representative Weatherford, I'm going to go back to the reasons that districts are not clearly compact and ask you if you could explain to me a little bit about District 26 which is clearly expansive.

Speaker Cannon: Representative Weatherford, you want to yield that one to—you're recognized, Representative Weatherford?

Rep. Weatherford: Thank you, Mr. Speaker. We're pulling up that district and we may allow Representative Hukill to answer that question. She explained that district earlier and we'll allow her to answer that question.

Speaker Cannon: And, members, we are going to take our time on these. Don't worry, Representative Cruz and others. We'll make sure, much like we do on the budgetary process, we want to make sure everybody gets his questions answered and we have ample time for each chair and subcommittee chair to provide whatever data you need or, Representative Cruz, as you indicated, to get together one-on-one as needed.

Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I apologize, Representative Hukill—that was actually Representative Workman's. But I'll go ahead and answer the question. You know, in looking at the data of this district, it keeps five counties whole. It keeps DeSoto whole. It keeps Glades County, Hardee County, Highlands County, Okeechobee County whole. So, I think that's something we should be very proud of. And when I look at the cities that are kept whole in this district—Arcadia, Avon Park, Bartow, Bowling, Green, East Lake, Fort Meade, Frostproof, Highland Park, Hillcrest Heights, Lake Placid, Moore Haven, Okeechobee, Sebring, Wauchula, and Zolfo Springs, which is my favorite. And when I look at the district, both visually and when I look at the amount of cities and counties that are kept whole, I clearly think that is a very compact district.

Speaker Cannon: Further questions? Representative Cruz.

Rep. Cruz: Representative Weatherford, could you speak to the compactness of District 24?

Speaker Cannon: Representative Hukill, you're recognized.

Rep. Hukill: Thank you, Mr. Speaker. Very good question. Thank you so much, Representative. You know, we didn't draw this map. Obviously, it was the Senate map, but I'm going to give you the explanation that they have provided, which is their intent.

Speaker Cannon: Members in the back, if you could take your seats. Keep the aisles clear. Please give Representative Hukill your full attention. Representative Hukill, sorry, you're recognized.

Rep. Hukill: Thank you, Mr. Speaker. Basically, it says that it was the intent of the legislature to establish Senate District 24, which includes the portion of Manatee County not included in the minority opportunity district, with communities in eastern Hillsborough and western Polk County—includes all of the municipalities of Anna Maria Beach—Anna Maria, I'm sorry—Bradenton Beach, Holmes Beach, Mulberry, and Plant City is equal in population to other districts, follows political and geographical boundaries, follows the boundaries of Manatee County, follows highways and the outskirts of Plant City in Hillsborough County, and follows highways and passes between Mulberry and Bartow in Polk County.

Speaker Cannon: Representative Cruz.

Rep. Cruz: Thank you, Mr. Speaker. Representative Weatherford, could you tell me if there are any districts that are not compact?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: The question is whether or not there are any districts that are not compact—is that the question? I think you'd have to define to me

what you believe is not to be compact. As I stated earlier, there is many different forms of compactness, but I believe our district is extremely compact. And, you know, members, sometimes we forget, but when you compare this map, this Senate map, or the House—or the Congressional map for that matter, the best comparison is the 2002 map. And so when you go back and you look at the Senate map in 2002, and you look at the compactness there, and then you compare it to this map, it is clearly far superior when it comes to compactness. But it's also clearly far superior when it comes to county splits and city splits. So I think it's a very legally compliant map.

Speaker Cannon: Further questions? Representative Cruz.

Rep. Cruz: Thank you, Mr. Chair.

Speaker Cannon: Representative Gaetz, you are recognized for a question.

Rep. Gaetz: Thank you, Mr. Speaker. Representative Weatherford, one of the premises of the question that Representative Jenne asked was that the maps that were in the Senate Resolution that came over disproportionately favored one political party. My question is this, when the Senate Resolution was voted on in the Senate, how did the majority of the Democrats vote on that map?

Speaker Cannon: Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you, Mr. Speaker. Representative Gaetz, my memory may be fogged, but I don't think it is. I believe that the majority of them actually voted in favor of the map.

Speaker Cannon: Further questions? Representative Berman, you are recognized for a question.

Rep. Berman: Thank you, Mr. Speaker. Representative Weatherford, I'd like to ask you some questions about compactness. How many cities are split into multiple districts in the 2012 plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I'd like to have Representative Nehr answer that question.

Speaker Cannon: Representative Nehr, you're recognized.

Rep. Nehr: Thank you, Mr. Speaker. Don't know exactly how many are split, but the answer is that this is the State Senate map as passed by the Florida Senate. So, I would assume that their staff and members who drew the map know exactly. And we actually split 54 cities on the Senate map. Thank you.

Speaker Cannon: Representative Berman, you're recognized.

Rep. Berman: Thank you, Mr. Speaker. Representatives, how many cities are split into multiple districts in the 2002 plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. We're going to pull that data if you give us just one second. We will get that answer to you Representative.

Speaker Cannon: Representative Nehr, have you got that data? Representative Nehr you're recognized.

Rep. Nehr: Thank you, Mr. Speaker. It's 126.

Speaker Cannon: Representative Berman you're recognized.

Rep. Berman: Thank you, Mr. Speaker. How many counties are split into multiple districts in the 2012 plan?

Speaker Cannon: Representative Nehr, you're recognized.

Rep. Nehr: Thank you, Mr. Speaker. 31.

Speaker Cannon: Representative Berman, you're recognized.

Rep. Berman: Thank you, Mr. Speaker. How many counties are split into multiple districts in the 2002 plan?

Speaker Cannon: Representative Nehr, you're recognized.

Rep. Nehr: Thank you, Mr. Speaker. 45.

Speaker Cannon: Representative Berman.

Rep. Berman: Thank you.

Speaker Cannon: Representative Eisnaugle, you're recognized for a question.

Rep. Eisnaugle: Thank you, Mr. Speaker. Chairman, I know you were asked previously about communications with the Republican Party or the Democratic Party. I just wanted clarification on if whether during this process you heard from partisans on both sides, Democratic and Republican alike, about their wishes?

Speaker Cannon: Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I think, for all of us who traveled the state, with the 26 public hearings we certainly heard from both sides. But, of course, at no point did we utilize the political input to prompt an actual drawing of any district in this map.

Speaker Cannon: Further questions? Representative Thompson, you're recognized for a question.

Rep. Thompson: Thank you, Mr. Speaker. Chair Weatherford, there's been a lot of focus on giving minorities an opportunity to elect a candidate of their choice. When we look at Palm Beach County, which has a 14 percent black population and a 13 percent Hispanic population, there has never been an African-American or a Hispanic elected countywide. And my question is why is there no Senate district included in the maps that you are presenting that's designed to allow Palm Beach County to elect a candidate of their choice?

Speaker Cannon: Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I do not have the answer to that question.

Speaker Cannon: Further questions? Representative Thompson.

Rep. Thompson: Thank you. Representative Weatherford, does this map represent the greatest number of minority or coalition districts that is possible and if not, why not?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I believe I answered this question earlier, but we are not able to try to maximize minority representation. That is not something that we legally have a responsibility to do, in fact we should not do that. But I cannot speak to whether or not, in the process of the Senate, what their determination was as to how many minority districts they drew. I believe that what they did is the same thing we did in the House, which is to follow the standards that we have in the Florida's Constitution and follow the Voting Rights Act.

Speaker Cannon: Representative Thompson.

Rep. Thompson: Thank you, Mr. Speaker and this is my final question. Then how do we know that we have given minorities the greatest opportunity to elect candidates of their choice?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think the way we know, we go district by district, obviously. And we know that there are very clear standards that we have to follow, both at the Federal level and State level, and I believe there actually was a new Hispanic seat that was created in this map.

Speaker Cannon: Further questions? Representative Randolph for a question.

Rep. Randolph: Thank you, Mr. Speaker. I was just wondering, during the public testimony period—maps submitted during that, maps submitted during the committee process, were there any maps that had fewer counties split and fewer municipalities split than the map before us now?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I believe there may have been some maps that focused solely on one area. For example, there may have been a map that prioritized city splits. But in that same map, which was the League of Women Voters map for example, they had more county splits in their compactness measures and were not nearly as good as the Senate map that you have before you today. And, so, different maps have priorities on certain areas. So, the answer to your question is yes, I do believe that there were some maps that were out there, but in whole as you're balancing out the standards and you're trying to comply with all the standards, I believe that our maps are far superior to anything that we received.

Speaker Cannon: Representative Randolph you're recognized.

Rep. Randolph: Thank you, Mr. Speaker. The new requirements that were put into place by 63 percent of the voters in 2010—one of the new requirements in both standards, both the Congressional and State legislative, included a standard that required the districts to be "equal in population as practicable." Now under Federal litigation and the Federal case law that's "equal in population as practicable," that phrase itself has been used to determine at the Federal level that there be zero deviation in population. I'm curious as to why you believe that since that phrase was specifically used to also, now, be included for state legislative districts, why there, still, is almost a two percent deviation?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Very good question, Representative Randolph, I appreciate you asking it. The truth is that the standard for Congressional deviation is different for State and legislative. We try to keep the deviation as low as we possibly can, but we see an opportunity to keep a city whole, when we see an opportunity to keep a county whole, when we see an opportunity to make sure that we can create the most compact district as we possibly can. Sometimes you have to have a little bit of flexibility in deviation. Our maps, I believe the deviation now is better than it was 2002. So, certainly deviation is something we look at, we try to get it as low as we possibly can, but it can be utilized, you need some flexibility there to keep cities and counties whole.

Speaker Cannon: Representative Randolph you're recognized.

Rep. Randolph: Thank you, Mr. Speaker. But the Congressional maps got down to a deviation of one. I believe, one person—not even one percent, one person on many of their maps. Which obviously has been the constitutional requirement at the Federal level for some time, because of the case law that says that Article 2, I believe, requires there be zero deviation at the Federal levels, but now we've got that in our State legislative levels and so, I'm curious then, at least with the phraseology of "equal in population as practicable," do you believe then that is a standard that falls below the other standards?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I believe that the standard in the State Constitution is not the same as Federal law for Congressional districts.

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. Then can you tell me what you think the phrase, "equal in population as practicable," means?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. The standard in the State Constitution is a second tier standard and so, when practicable, along with county lines, city boundaries, geographical boundaries, compactness; all these other measurements they all have to come into account. We try to do the best job we can to make districts compact, to follow city lines, to follow county lines, and to make the deviation as small as we possibly can. But to make it down to one, which is what it is with Congressional maps, we were not able to do that.

Speaker Cannon: Further questions? Representative Gibbons for a question.

Rep. Gibbons: Thank you, Mr. Speaker. Representative, what is the definition of 'minority district' used to construct the 2012 maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I feel like I've already answered that question.

Speaker Cannon: Representative Gibbons.

Rep. Gibbons: Thank you, Mr. Speaker. The language of the Constitution now requires that districts shall not be drawn to diminish the ability of minorities to elect candidates of their choice. Is it possible that packing minorities into one district violates this provision?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There has been no packing of minorities in these maps.

Speaker Cannon: Representative Gibbons.

Rep. Gibbons: Thank you, Mr. Speaker. Representative, the language of the Constitution now requires that districts cannot be drawn to diminish the ability of minorities to elect candidates of their choice. If a district packs 80 percent minorities into one district, when data shows that those voters could elect two representatives, does that violate the Florida Constitution?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think that the answer to the prior question would be the same for this one and that is that, unequivocally, there was no packing in these districts.

Speaker Cannon: Representative Gibbons.

Rep. Gibbons: Thank you, Mr. Speaker. Final question, is it a violation of the Constitution to over pack a district with minority voters by placing more of them in a district than absolutely necessary to allow minority voters the opportunity to elect representatives of their choice and then violate other criteria of the process?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I feel like I've answered this question, but I'll say it one more time to be clear. There has been no packing in any of the maps that will be before you today.

Speaker Cannon: Further questions? Further questions? Representative Jones, for a question? No further questions? Representative Passidomo for a question.

Rep. Passidomo: Thank you, Mr. Speaker. Representative Weatherford, there have been several questions about 'intent.' I'm trying to understand what everyone means when they use the word 'intent.' Can you share with me what you consider how we determine 'intent'?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I appreciate that question, Representative Passidomo. I think you can determine intent by looking at the compliance with the other standards enumerated in the Constitution—compactness, respecting city and county boundaries, respecting the rights of minorities to elect a candidate of their choice. I think that's the best way to determine that.

Speaker: Further questions? Are there amendments?

Representative Weatherford offered **Amendment 1** (Amendment Bar Code 601757), on February 2, 2012 (as previously shown in the *Journal* on pages 328-438).

The absence of a quorum was suggested. A quorum was present [Session Vote Sequence: 657]. (as previously shown in the *Journal* on page 438).

Speaker Cannon: All right, without objection, members, just to be very clear—and, I think, Representative Weatherford was very clear, but nevertheless, that's why I want everyone in their seats, members. Members, in your seats, please.

Without objection, we will revert to the order of business of—not the order of business—we will revert to questions on the amendment which, as Representative Weatherford explained, incorporates the House map as passed by the committee into the joint resolution previously passed by the Senate.

Are there questions on the amendment? Representative Jones, you are recognized for a question.

Rep. Jones: Thank you, Mr. Speaker. Were any members asked about how they might be able to have their districts improved based on the numbers that they saw in their districts?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. First, I want to apologize to the members for jumping the gun on the quorum call. So, for those of you who were enjoying a cold drink in the back, I'm sorry. Not that kind of cold drink, Mr. Speaker, I meant a soda, of course—but, it is redistricting.

But, no, to get to your question, Representative. No data was utilized in drawing these maps—no political data. So, no members came to ask for improvement because we didn't use it. The only improvements we ever made to these maps were how to make it more compliant to the law—how to utilize the public input more. So, all the improvements—the way that we judged if a map was improved was: is it a better reflection of what the public has asked for, and was it a better reflection of what the Federal Voting Rights Act said, and a better reflection of what Amendments 5 and 6 said?

REPRESENTATIVE MCKEEL IN THE CHAIR

Rep. McKeel [The Chair]: Representative Jones, you are recognized.

Rep. Jones: Thank you, Mr. Speaker. Were districts modified based on any member input?

The Chair: Representative Weatherford—repeat the question, Representative Jones.

Rep. Jones: Repeat the question? OK. Were any of the districts—as we see them today—modified based on any member input?

The Chair: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I think the member input we had in the committee process was based off how to make the maps more compliant to the law. The member input we had during the committee process, which brings us here today, had everything to do with making sure the public input was put forth in the maps that are reflected here today. And so, the member input—of course we had conversations, many members in this Chamber sat on committees that dealt with these issues and looked at these maps. But, the input that we put the highest priority on for sure—and I think it's reflected in this map that we're talking about now—was the public input.

The Chair: Representative Jones, for a question.

Rep. Jones: Thank you, Mr. Speaker. And just to be clear, I'm specifically speaking to the House maps. Did staff have access to any performance data as they put together these maps?

The Chair: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I believe I've answered that question, but again, the only time any type of data was utilized was when we were doing what the Department of Justice requires us to do, which is to do that analysis on those minority-majority seats to make sure that there's not retrogression. But, that being said, I want to point out something else I think I said before, but I want to make sure it's abundantly clear. At no time during this process, did we ever utilize what someone's residence was, where they lived, what they wanted, in the making of these maps. That was never a consideration and I think that's the first time in the history of Florida that we've done that.

The Chair: Representative Jones, for a question.

Rep. Jones: Thank you, Mr. Speaker. You've indicated that no data was used in making these maps. Did any groups or organizations, or associations—political parties—bring to staff or to you any information that would relate to performance data to sway you in drawing a map a certain way?

The Chair: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. The only organization that brought forth such a map was the League of Women Voters and it was voted down unanimously by both parties and every person on the committee.

SPEAKER CANNON IN THE CHAIR

Speaker Cannon: Representative Jones, for a follow up.

Rep. Jones: Thank you, Mr. Speaker. How can we know if a plan favors or disfavors a particular party without performance data?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think I've answered this question. In fact, a lot of the questions I'm hearing on this map are very similar to the ones that we heard on the last map, but we know by based on compliance with the law. Our job is to follow the standards that are very clearly set forth in the law.

Speaker Cannon: Representative Jones, you are recognized.

Rep. Jones: Thank you, Mr. Speaker. Some of these questions may be very similar to what you heard in the previous questioning—and recognizing the fact that I think it's been stated here on the floor that the Senate map came over to us as the work of the Senate. So, right now, the questions that are

coming to you are specifically of the House and the work that we've done here in the House. So, I hope you will oblige us.

How can we know if a plan—we just did that one, I'm sorry. If in 2002, districts were drawn in order to preserve incumbency—which has been stated many times—or to help a particular party to make sure they maintain their position in dominance, was this particular map drawn based on the 2002 map, and if so, would we expect that we are keeping the 2012 map—I'm sorry, let me go back. Was this—is that something relevant to determining whether we can simply keep the 2012 map and the plans approximately the same as the configuration of the 2002 map?

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: Thank you, Mr. Speaker. I don't think anything can be further from the truth. In fact, I don't think our map is a reflection of the 2002 map. And, in fact, the way we came about these districts, as I've stated numerous times, was based on the public input that we've received and based on what the standards in the law tell us. At no point in time, Representative, at no point in time were any decisions that were made for these maps based off anything political. And, by the way, that's the first time in the history of Florida that that's happened. And, I think as a Chamber, we should be proud of that.

Speaker Cannon: Representative Jones, for a follow-up.

Rep. Jones: Thank you, Mr. Speaker. In terms of the 2002 maps and the minority districts within the 2002 maps, were the 2012 maps based on the 2002 maps as it relates to the minority districts?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Certainly there is a reference point that it becomes, but at the end of the day you have to look at each individual district. And so, if a district is protected by Section 2 of the Voting Rights Act, we certainly have to look at that and make sure that we don't have retrogression in that district. But, they are a reference point, they are not a replication of the district that it was in 2002 because, frankly, populations change and districts change.

Speaker Cannon: Representative Jones, you are recognized.

Rep. Jones: Thank you, Mr. Speaker. If a district is comprised of 70 percent voters of the same voting population and party as the incumbent, isn't it evident that the intent is there to favor that incumbent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Can I get you to repeat that question again, Representative? I'm sorry.

Speaker Cannon: Representative Jones, you are recognized.

Rep. Jones: If a district is comprised of 70 percent voters of the same party as the incumbent, isn't it that evidence of an intent to favor the incumbent? Why or why not?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I believe it's irrelevant. What we have to look at is we have to look at the compactness of the district, we have to look at the geographic boundaries, we have to look at the cities and the counties where they kept whole, we have to look at the tier one standards and Amendments 5 and 6 and we have to look at the Voting Rights Act. And so, where people are and where they live and what their political registration is not something that we factor in to these decisions.

Speaker Cannon: Representative Jones, you are recognized.

Rep. Jones: Thank you, Mr. Speaker. Were there planned models that included member residence in the House maps that were drawn?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think very, obviously, the answer to that is no.

Speaker Cannon: Representative Jones.

Rep. Jones: Were there any discussions with members about whether their residence would be in the district with the residents of any other incumbents?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Not sure I understand the question. Maybe if you could repeat it or expand on it a little bit.

Speaker Cannon: Representative Jones.

Rep. Jones: Thank you, Mr. Speaker. If there were two members that ended up in the same district—were there any discussions about the fact that there are two residences of two incumbents that ended up in the same district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think, I think maybe the way you're framing the question—I think, if the question you're asking is were they drawn for that reason, then, I think, the answer is no. They were not drawn for that reason.

Speaker Cannon: Representative Jones.

Rep. Jones: Let me rephrase the question for you. Were there any discussions with members about whether their residencies would be in a district with the residence of any other incumbent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think most people in this Chamber found out where they were living in the district that they would be living in after the maps were produced on December 6th. So, I don't believe that those conversations took place before the maps came out. I think after they came out—certainly the media has reported a lot of data in this regard, but it was not utilized in making the maps.

Speaker Cannon: Representative Jones.

Rep. Jones: Thank you, Mr. Speaker. Was it utilized in making any amendments to the maps that were presented after December 6th?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No.

Speaker Cannon: Representative Jones.

Rep. Jones: Based on publicly available historic election data, as certified by the Secretary of State, the House plan overwhelmingly favors Republicans, creating only 47 districts that would give Democrats a chance at winning. A fair plan by my definition, based on a 50-50 statewide, partisan vote, in this state, should allow for 60 Republicans and 60 Democrats. Why doesn't this particular map get us there?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. It sounded a lot like debate as opposed to a question, but I'll answer the question. And the question that I believe that you're asking is—no, is the answer.

Speaker Cannon: Representative Jones, for a question.

Rep. Jones: Got it. Thank you, Mr. Speaker. In District 88—earlier you asked for specifics—in District 88, is District 88 a minority coalition or a minority access district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I believe that is a minority-majority district.

Speaker Cannon: Representative Jones.

Rep. Jones: Does District 88 violate the Constitutional mandate for compactness?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: The good news here is, no. It is actually much more compact than the configuration that was drawn in 2002. And, in doing so, we also continued to maintain its minority-majority status.

Speaker Cannon: Representative Jones.

Rep. Jones: Was there any attempt or effort to draw District 88 in a more compact manner?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I believe the two options that we had in the maps—there was one district that started on the east coast and moved to the west and went into the Glades. That district was far less compact than this configuration. Those were the only two configurations that the committees looked at and we chose this one because we believe that it follows the law more clearly and more carefully and it's a better map.

Speaker Cannon: Representative Jones, you are recognized.

Rep. Jones: Thank you, Mr. Speaker. Did you take a look at any of the other maps that were submitted, because—or would it surprise you to know that there were many maps that were submitted online by other organizations or members of the public that created a minority access seat without drawing the district through the middle of six cities and dividing neighborhoods?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I am very well aware of those maps that were submitted. The problem was in each and every one of those they violated federal law in the Voting Rights Act and we were not going to do that.

Speaker Cannon: Representative Jones.

Rep. Jones: Thank you, Mr. Speaker, and this will be my final question. Palm Beach County has apparently 14 percent black population and 13 percent Hispanic population, yet has never elected an African-American or Hispanic countywide. Why is there no House—no, that will be it, that will be it.

Speaker Cannon: Further questions? Further questions? Representative Clemens, you are recognized for questions on the amendment.

Rep. Clemens: I defer to Representative Abruzzo.

Speaker Cannon: Representative Abruzzo, for a question.

Rep. Abruzzo: Thank you, Mr. Speaker. I just wanted to clarify some of the remarks made about Palm Beach County in electing African-Americans and minorities. Palm Beach County did elect Arthur Anderson countywide in the 80s, in a five-way school board race where he got 52 percent and beat four Caucasians. Also, Arthur Anderson was then elected countywide as an African-American Supervisor of Election.

Our very own, Susan Bucher, who is a Hispanic, is also current[ly] elected Supervisor of Elections and also I.C. Smith, a judge from Palm Beach County, won for judge as an African-American. So, Palm Beach County has a rich tradition of electing minorities, including Mimi McAndrews, who used to occupy where Mark Pafford sits, in one of the highest Jewish per capita seats in the entire country. Mimi McAndrews was the first Korean elected to the Florida Legislature. So, I'm very proud of our tradition in Palm Beach County of electing minorities in all different types of districts. Thank you.

Speaker Cannon: Further questions? Further questions—Representative Clemens, for a question.

Rep. Clemens: Thank you, Mr. Speaker. Are we still on questions, then?

Speaker Cannon: We indeed are.

Rep. Clemens: OK, fantastic. Pardon me, Mr. Speaker. I apologize for the delay. I'm going to defer to another member.

Speaker Cannon: Representative Clarke-Reed? Representative Clarke-Reed, for a question on the amendment.

Rep. Clarke-Reed: Thank, you Mr. Speaker. Representative Weatherford, my questions are directed to the House map. What definition of 'compactness' was used in constructing this plan?

Speaker Cannon: Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you, very much. First of all, I want to thank Representative Clarke-Reed because she was one of the few people who went to every single public hearing around the state of Florida, so... [applause] You deserve a lot of credit for that, 'cause I honestly didn't go to every single one of those meetings around the state, but to answer your question—compactness is not determined by any single test of measurement. It includes a lot of numerous factors that, I think, I talked about in regard to the Senate map, as well.

Speaker Cannon: For a follow up, Representative Clarke-Reed.

Rep. Clarke-Reed: Thank you, Mr. Speaker. Representative Weatherford, what reasons were there for districts that were clearly not compact—what was the reasoning drawn? And I'm speaking directly to District 70.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker, and thank you for speaking directly to a specific district. It is my understanding that District 70 is a district that is protected by the Voting Rights Act. Hillsborough County is a Section 5 Voting Rights Act county that is protected by Section 5 of the Voting Rights Act, and therefore, we cannot have the diminishment in that district and so, it is a protected seat according to the Voting Rights Act.

Speaker Cannon: Representative Clarke-Reed.

Rep. Clarke-Reed: Thank, you Mr. Speaker. How many cities are split into multiple districts in the 2012 plan, and how many were split in the 2002 plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Very happy to tell you that we've made great progress on that front. There were a 170 city splits in 2002 and in this map, before you today, we have 75.

Speaker Cannon: Representative Clarke-Reed.

Rep. Clarke-Reed: Could you please give me that same information as in reference to counties, how many counties are split in this 2012 plan and how many were split in the 2002 plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. It was 46 counties were split in 2002 and again, we made great progress in only 30 counties were split in this map.

Speaker Cannon: Representative Clarke-Reed.

Rep. Clarke-Reed: Thank you, Mr. Speaker. That's the end of my questions.

Speaker Cannon: Mine too. Representative McKeel, you're recognized for a question.

Rep. McKeel: Thank you, Mr. Speaker. Representative Weatherford, I feel like we've had a fair amount of questioning today, particularly in the last hour, and I feel like there's been a lot of beating around the bush about a specific point. And so, I thought I would just ask the question directly. Were the House maps drawn, in whole or part, by the Republican Party of Florida?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No.

Speaker Cannon: Representative McKeel.

Rep. McKeel: To that point—thank you, Mr. Speaker—when the committees drew the state House maps, did you incorporate, include, or otherwise contain any information given to you by consultants or employees of the Republican Party of Florida?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Absolutely not.

Speaker Cannon: Further questions? Representative Clemens, you're recognized for a question.

Rep. Clemens: Thank you, Mr. Speaker. And I appreciate your indulgence with my disorganization. Representative Weatherford, as it relates to the House districts, if it's statistically probable that minority voters will elect a candidate of their choice, with 40 percent minority voting age population, is it then constitutionally permissible that that district contain 55 percent or 65 percent minority voters?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. First of all, you know, as we stated earlier, I'm not going to violate the Voting Rights Act. And so, if it's a Section 2 district or a district that's protected by Section 5 of the Voting Rights Act, any diminishment there would be a violation. And so, certainly, we're going to protect from that. But also, you look at the State Constitution. Amendment 5 and Amendment 6 are extremely clear—that we do not need to have diminishment. And so, in my opinion, you actually—in fact, not in my opinion—I believe this to be fact, I think it is fact—that what Amendment 5 and 6 did was give Section 5 protections throughout the entire state of Florida in all 67 counties. And so, to try to give you a number, as of what number you could go down to and still elect the community to allow to elect a candidate of their choice, we're not going to play that game with a number because the Constitution is clear that we should have no diminishment. And we've defended that in these maps that are before you here today.

Speaker Cannon: Representative Clemens.

Rep. Clemens: Thank you, Mr. Speaker. So, in your view, diminishment could mean a reduction from 70 percent to 69 percent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I'll read from the Constitution what it says. It says that "districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or to diminish their ability to elect representatives of their choice." You know, that's what the Constitution says. I believe that we followed that extremely clearly—it does not have a number in there. There is no court case that has a specific number in there. There is no threshold, as we stated earlier. We are making sure that there is no diminishment in our minority districts and I think that's a very important thing that we should continue to do.

Speaker Cannon: Representative Clemens.

Rep. Clemens: Thank you, Mr. Chair. Mr. Speaker, I appreciate it. So just to be clear, it's your—since there's no definition in any of these other places, it's your definition that going down from 70 to 69 percent would be diminishment?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I do not think that I said that.

Speaker Cannon: Representative Clemens.

Rep. Clemens: Thank you, Mr. Speaker. I'll move on. Was election performance data, in as it relates to the House districts, used to determine if districts improved or diminished the ability of minorities to elect candidates of their choice?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: By State and Federal law, it was. Yes.

Speaker Cannon: Representative Clemens.

Rep. Clemens: Thank you. What data was used?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. A whole plethora of data is utilized. It's a very complex analysis that you have to do on a district-by-district basis. But, certainly, you have to look at performance data. You have to look at turnout—there's a lot of different things that you have to look at to determine whether or not you're taking away a community's ability to vote for a candidate of their choice. It's a very complex process that is set forth by the Department of Justice that we follow to make sure that, as we turn these maps in to them for compliance, that we make sure there's been no diminishment.

Speaker Cannon: Representative Clemens.

Rep. Clemens: Thank you, Mr. Speaker, last question. So as it relates to drawing those districts and using that data, if you had a district that, say, had a 52 percent Hispanic population but the actual regular voting data showed you that it was only maybe about 20 percent or 25 percent that actually voted, would that be considered a majority-minority district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: If it's over 50 percent minority, then it would be considered a minority-majority district.

Speaker Cannon: Further questions? Representative Rogers, for a question.

Rep. Rogers: Thank you, Mr. Speaker, Mr. Chairman. Just two questions—what is the definition of 'minority districts' used to construct the 2012 maps? Please remind me.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There is no definition.

Speaker Cannon: Representative Rogers.

Rep. Rogers: Thank you, Mr. Speaker. What is the definition of 'retrogression' as applied to the plans?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There's no particular definition.

Speaker Cannon: Further questions? Questions? Representative Rouson—no—Representative Waldman, for a question.

Representative Waldman: Thank you Mr. Speaker. Representative, at any time—either before, during, or after, were any members' homes plotted on any of the maps by staff?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: No.

Speaker Cannon: Further questions? Are there amendments to the amendment? Sorry. Representative Rouson, for a question.

Representative Rouson: Thank you very much, Mr. Speaker. Representative Weatherford, you have weathered these questions, very greatly. What do you call the diminished psycho-cosmic retrogression manufactured drawing of lines which reveals such heavenly apportionment?

Speaker Cannon: OK, members, we're in questions, serious questions, not debate. Want to rephrase Representative Rouson?

Representative Rouson: Thank you very much, Mr. Speaker. It took me all night to come up with that. Based on publicly available, historic election data, as certified by the Secretary of State, the plan appears to overwhelmingly favor Republican districts by 47. A fair plan, it appears, would be a 50/50 statewide partisan vote. Can you explain why this did not start out with 60 Republican and 60 Democratic seats?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. Thank you, Representative Rouson. If you're saying that we should engineer a political result to come from these maps that is blatantly against the law. And that is a great reason why we did not do that. What we did do was we looked at the Constitution and we said, what does the Constitution say? And we have standards that are set forth in there that are very clear and we have Federal law that tells us how we have to draw minority-based districts that are very clear in the Voting Rights Act. And so we are not going to engineer any political result pro Republican, pro-Democrat, or-pro neutral—that is not a responsibility of this Chamber. The responsibility of us is to make sure we comply with the standards that are in the Constitution and are in the law.

Speaker Cannon: Further questions? Representative Rouson.

Representative Rouson: Thank you, Mr. Speaker. The language of the Constitution now requires that districts cannot be drawn to diminish the ability of minorities to elect candidates of their choice. Is it possible that packing minorities into one district violates that provision?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: The good news, Representative Rouson, is that there is no packing whatsoever in this map.

Speaker Cannon: Representative Rouson.

Representative Rouson: Mr. Speaker. The language of the Constitution also requires that districts cannot be drawn to diminish the ability of minorities to elect candidates of their choice. So, if a district packs 80 percent minorities into one district, when the data shows that these voters could elect two representatives, does that violate the Constitution?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. I'm not a lawyer, but what I can tell you is that there is no packing whatsoever in this district. And in fact, I'm going to give you an example of something that we did do. There was a district in central Florida and there were two maps that we could choose from in central Florida, in Orange County, one map would have had an African-American district that would have been somewhere close to 70 percent, or above 70 percent, voting age population African-American. There was also another map that had two African-American districts, one that was a minority-majority district at just over 50 percent, and one that was over 40 percent African-American. What the subcommittee chose to pass and send to us in the full committee was the map that created two districts. So, that was just one example of what we did throughout this process, and Representative Rouson, I think, that even you would agree that there is no packing in this map whatsoever.

Speaker Cannon: Representative Rouson.

Representative Rouson: And to follow up on that, Representative Weatherford, was that decision based on performance data?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: That decision was not based on performance data. What the decision was made, based off of, was that we had the ability to create an opportunity seat. We had minority-majority seat that was close to 70 percent. You had another district that you could draw and allowing to have two districts that would have an opportunity to elect a candidate of their choice, we felt like that was better than one. And I think we should be proud of that decision that we made as a committee.

Speaker Cannon: Representative Rouson, you are recognized.

Representative Rouson: Thank you, Mr. Speaker. Following up on that, does compliance with the Constitution require the use of minority voting data, majority voting data, performance in various elections, and the ability of minority voters to elect?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. State and Federal law require that.

Speaker Cannon: Representative Rouson.

Representative Rouson: Thank you, Mr. Speaker. Representative Weatherford, there was talk in committee about making preservation of minority districts a priority. Is there some numerical formula to determine if we are, in fact, diminishing minorities' ability to elect the representatives of their choice?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. I feel like I've answered this question about five times in five different ways, but I'll say it again, Representative Rouson, in deference to you. I believe that what we did was we followed the Constitution very clearly. We did not diminish, in any form, and in some instances we were able create new minority-majority districts.

Speaker Cannon: Representative Rouson, you're recognized.

Representative Rouson: Thank you, Mr. Speaker. Is it a violation of the Constitution to over-pack a district with minority voters by placing more of them in a district than absolutely necessary to allow them, the voters, an opportunity to elect the representative of their choice? In other words, do you ascribe to any theory that you have to have 80 percent or 70 percent in order for voters to elect the representative of their choice?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. I believe I've answered that question.

Speaker Cannon: Representative Rouson.

Representative Rouson: Thank you, Mr. Speaker. Does this map represent the greatest number of minority or coalition districts that could have been drawn?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank You, Mr. Speaker. I believe I've answered that question, too, but I'll say it again. There is no requirement by law to do that.

Speaker Cannon: Representative Rouson.

Representative Rouson: Last question, Mr. Speaker, thank you. What is the definition of 'minority district' as used to construct the 2012 maps?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: There is no definition.

Speaker Cannon: Representative Rouson.

Representative Rouson: Thank you for your courtesy, Mr. Speaker.

Speaker Cannon: Representative Saunders, for a question.

Rep. Saunders: Thank you, Mr. Speaker. Despite the fact that during the committee meetings we heard the word 'retrogression' quite a bit, I believe earlier, in response to a question, you stated there is no definition, in your mind, of 'retrogression.' Is that what your statement was?

Speaker: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I just believe there is no statistical threshold that you could utilize unilaterally to create that definition.

Speaker Cannon: Representative Saunders.

Rep. Saunders: Let me ask if you would agree. Last year, you were kind enough to send me this NCSL Redistricting Law and there is a definition. I want to see if you agree or disagree that this would be a good definition of the word retrogression. That retrogression, a plan would be likely to cause fewer minority representatives to be elected than before. Would you agree that is a good definition of retrogression?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Again, I said I didn't think there could be a statistical definition, but certainly if there's a diminishment of a community's ability to elect a candidate of their choice—a minority community's ability to elect a candidate of their choice—that would be a diminishment. That would be retrogression and nowhere in our map does it do that.

Speaker Cannon: Representative Saunders, you are recognized.

Rep. Saunders: Thank you, Mr. Speaker. But, I know that you looked at retrogression as respecting a particular district. I am saying, from a statewide

perspective, would it be retrogressive that the ability of minorities being elected, overall, would be diminished? In other words, not any particular district but, statewide.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Speaker, I'm not sure I understand the question entirely, but what I will say is that this map actually increases minority representation across the state of Florida.

Speaker Cannon: Further questions? Representative Steinberg, for a question.

Rep. Steinberg: Thank you, Mr. Speaker. Chairman, were members of the House notified prior to the maps becoming public by you, or staff, or anyone, that they might find themselves in the same district as another incumbent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I believe that the night before the maps were released, there were some members that knew that they would not be living in their district.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Chairman and Mr. Speaker. Before, you said that there was nothing with pins on the map or anything to indicate where incumbents live. How could those calls be made if there was nothing that created a correlation between the maps that were coming out and where members resided?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Because they looked at the map and they knew where they live.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Chairman, I mean, Mr. Speaker. Sorry about that. Thank you, Mr. Speaker. Before, though, you said, or I asked a question, before the maps were made public. If the maps weren't public, how would the members have seen those maps to know that—the question that I asked originally was whether members were contacted to alert them of that fact?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I'll answer your question by this—you live in Miami-Dade County, is that correct? Do you have any idea where Representative Luis Garcia lives? No idea? Do you know where any members of Miami-Dade County live? You know where you live, that's good. [laughter]

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. I'm trying to understand how that answers my question. If I don't see the map, because it's not public yet and I don't have access to it, how would I have any way to know that the map that's coming out has me outside my district, in a district with someone else? The original question was: were members told before the maps were made public that they might find themselves living in another district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think a lot of members looked at the map and the maps being proposed because, as you know, there were multiple maps being proposed, and they figured out very quickly whether or not they were living inside one district or the other.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Let me ask it kind of directly, because I'm getting answers that don't seem to be consistent. Did you, staff, or anyone reach out to members to indicate to them, prior to the maps becoming public, that they would find themselves either in a district with another member, or outside, or without a district at all?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Well, I'll give you an example. Obviously, in developing the map and working with staff to make sure that we'd made maps that were the most legally compliant as we possibly could—we have members like Representative Precourt, who is the vice chair of our committee. He saw the map, was familiar with what was going to be put forth. You have Representative Eisnagle, who sits on the full committee as well. And would you know that Representative Eisnagle and Representative Precourt actually live in the same district? They knew it, but they still live in the same district—no changes were made. And so, whether or not someone knows or has some type of knowledge that they potentially could be in a district with another member or not—the good news is that information never impacted the decisions that were made by this committee, by the chairman, by the sub-chairman, or by this body today. It was never utilized—knowledge is not intent. Some people may have knowledge, but there was never intent.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. I'll try the question one more time. Did you, or anyone of your staff, call up members or otherwise notify members prior to the maps becoming public to indicate to them whether they would find themselves in the same district as another member?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think I've answered that question.

Speaker Cannon: Further questions? Representative Saunders.

Rep. Saunders: Thank you, Mr. Speaker. Just a follow up on those questions. The original House map came out of committee, or was proposed in committee, and there were subsequent amendment—there was an amendment. What was the basis for that amendment? Was it because certain members were placed in districts or was there another rationale—what was the rationale for the amendment? I know that it was said because Supervisor of Elections, etc., may have had input, but was any of the input based upon where your members or our members may be presiding?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There have been a couple amendments along the way, I was just talking with staff, I think two amendments in total, but usually when we made amendments—not usually, when we made amendments, what they were was improvements to make sure that cities were whole. In fact, the last amendment we had, I don't know the full number, but over a dozen or maybe two dozen cities were made whole in that process to try to maximize the amount of cities we could keep together. We tried to reduce the amount of counties that were split. We tried to make sure that the districts were more compact. And so, all the amendments that we put forth, it was an evolving product, so to speak—this map. Because we continued to seek public input, we continued to look at better ways to comply with the standards that we have to comply with, and because of that the map improved over time.

Speaker Cannon: Representative Saunders.

Rep. Saunders: Thank you, Mr. Speaker. Because we are going into some intent here, it's your position that there is no intention to correct any type of placement of members in the same district. You're saying that the sole reason for any amendments to the House map was to address those concerns? That

there was no intention to remedy a situation where, maybe unintentionally, two members were drawn into the same seat?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. The answer is no, but I'd like to recognize Representative Dorworth, if he could, to add on to that answer.

Speaker Cannon: Representative Dorworth, you are recognized.

Rep. Dorworth: Thank you, Mr. Speaker. I had the privilege of serving as a co-chair of that committee and as such I was also the person who filed the amendment to this and just to give you the absolute clarity of the fact that there was no intention to do that—in the amendment that I filed, I bunched myself into the same district as Representative Legg. So, be very clear, be very certain that there was absolutely no desire or intent to do that. It was a decision that was based on making the districts more compact and legally compliant.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I just want to make sure I clarified my answer when I said no, but basically what I was saying to make sure I understood the question—I want to make sure I understood the question right—what I was saying is that at no time was any decision that we made, during this process, have anything to do with where anyone lived, any political reasoning whatsoever. It was all based on how we could make the map more legally compliant and how we could bring in more public testimony into the map.

Speaker Cannon: Further questions? Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. I noticed that there are several minority districts that will now have a higher percentage of voting age minorities in them over the 2002 maps. Is that in order to offset the likely effects that HB 1355 will have on their ability to vote in 2012?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. We're not talking about HB 1355 and so, I'd ask you to keep it tailored to the map.

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. There is a point there. The point being that...

Speaker Cannon: Representative Randolph, points are for debate. Questions should pertain to the amendment.

Rep. Randolph: Thank you, Mr. Speaker. Then why did you feel the necessity to keep the voting age minority percentage in these districts?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Can you point to a specific district so we'll have a reference point of what you're talking about?

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. There were several in the statistical analysis, so, I don't have the maps in front of me, but there were at least a few.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Why don't you work on getting a couple of those maps and then we'll talk again here in a few minutes?

The House recessed at 4:00 p.m.

The House was called to order by the Speaker at 4:28 p.m. A quorum was present [Session Vote Sequence: 658] (as previously shown in the Thursday, February 2, 2012 *Journal*, page 393).

Speaker Cannon: Members, we're back in session. Please find your seats. Everyone has done an outstanding job, I think, giving the attention that this process deserves, and as much as it happens once a decade, I appreciate your respect for the gravity and the hard work of all of the members.

We are resuming in questions. Further questions? Representative Randolph, you indicated you are finished. Further questions on the amendment? Seeing none...Representative Crisafulli, you are recognized for a question.

Rep. Crisafulli: Representative Weatherford how many counties were split in the House maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I believe there were 30 counties split, which is a significant improvement from the 2002 map.

Speaker Cannon: Representative Crisafulli, for a follow-up.

Rep. Crisafulli: And how did you go about this process?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Well, we mathematically looked around the counties and tried to make sure it was a priority for us to make sure that we follow city and county lines and, I think, mathematically the most you could possibly have is 29 and we got as close as we possibly could to that number and we're very proud of it.

Speaker Cannon: Representative Crisafulli.

Rep. Crisafulli: At any time, was public input used?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Yes.

Speaker Cannon: Representative Crisafulli.

Rep. Crisafulli: And how do you define 'public input?' No, that was a joke.

Speaker Cannon: Representative Crisafulli.

Rep. Crisafulli: Ten years ago when this process took place, did this same attempt—was this part of the process, as far as taking public input, in this part of the process?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I cannot speak to what the process was like 10 years ago. What I can tell you is that the product we have before us today is a significant improvement, at every level. Whether you're talking about compactness, whether you're talking about city lines, whether you're talking about county lines, everything about this map is an improvement to the 2002 map.

Speaker Cannon: Further questions? Representative Adkins, for a question.

Representative Adkins: Thank you, Mr. Speaker. Representative Weatherford, can you tell me how many cities are split in the proposed House map?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. We have 70 cities split—or 75 cities split, but I believe in the map from 2002 we had 170 plus cities that were split, so a significant improvement on that as well.

Speaker Cannon: Further questions? Representative Baxley for a question.

Representative Baxley: Thank you, Mr. Speaker. I think you may have sort of addressed this, but just for clarity and for the record and my own mind—the minority districts in the proposed House map that we're looking at, are they more compact? And based on the various compactness measures that you've shared that we used, but are they more compact?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. Representative Baxley, they are substantially more compact than what they were 10 years ago. It's a great improvement.

Speaker Cannon: Representative Lopez-Cantera.

Representative Lopez-Cantera: Thank you, Mr. Speaker. Chairman Weatherford, how many public maps were submitted this year in relation to previous years?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. We had over a 177 maps produced and given to the legislature this year which is a tremendous feat considering 10 years ago there were only four maps that were given to the legislature. So, I think that what we set forth to do at the very beginning of this process, which was to make it as open and transparent as possible and to engage the public in a way that it had never been done before, we feel like we have achieved that and I think 177 maps that were submitted to us speaks to it.

Speaker Cannon: Representative Lopez-Cantera.

Representative Lopez-Cantera: Thank you, Mr. Speaker. And if I may, chairman, ask a question about the software and the program used that was made available to the public. How does that compare to any other states in the nation that have similar programs?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. Most states have actually contracted out and bought software from somewhere else, we only know of two other states that have ever done anything similar to what we did. We feel like MyDistrictBuilder™ is the most sophisticated system that exists. I give a lot of credit to our staff and our software developers who worked extremely hard to help make it happen.

Speaker Cannon: Further questions? Representative Saunders.

Representative Saunders: Thank you, Mr. Speaker. For clarification, when you're looking at these districts, do you look at just voting age population or do you look at the actual voting performance population? People who actually vote or voting age population?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: If you're speaking, Representative, to minority districts, then we look at performance and voting age population.

Speaker Cannon: Representative Saunders.

Representative Saunders: Most of the growth in our population in the last 10 years, or a lot of it, was Hispanic. Can you tell us how many more Hispanic House seats were created in this map as opposed to 2002 and does

that reflect a proportionate increase in the number of seats related to the population?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. I believe that at least one, in Osceola County, a new majority-minority Hispanic seat. There is another Hispanic seat that I believe is a majority seat in Palm Beach County. Again, you know, one can never guarantee what the election results will be, but certainly it's an opportunity seat there for a minority.

Speaker Cannon: Representative Saunders.

Representative Saunders: Thank you, Mr. Speaker. When you say minority, can you be specific? How many additional Hispanic seats versus how many African-American seats? When you say a minority, I'm not sure what you're referring to. So, can you be specific as it relates to population growth of the last 10 years. If there was 'x' percent increase in the Hispanic population is that reflected in a proportionate increase in House seats that may be likely to be held by a Hispanic?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you, Mr. Speaker. When it comes to Hispanics, specifically, two. So, the one in Osceola County. Then there is an opportunity seat there, it's actually a majority seat, but like I said you never know how it will perform. You cannot predict that entirely, but there is a seat that is newly created down in Palm Beach County. Also, when it comes to African-American seats, there is one new African-American opportunity seat which is in Orange County, right next to a minority-majority seat.

Speaker Cannon: Further questions? Representative Horner, for a question.

Representative Horner: Thank you, Mr. Speaker. Chairman, you had a whole series of questions asking about member addresses, and some of those questions left me confused. Would you mind clarifying, for me, how member addresses were used in drawing these maps?

Speaker Cannon: Representative Weatherford.

Representative Weatherford: Thank you very much, Representative Horner. Addresses were not used in drawing these maps. What I can tell you is that once all the options were coming out and we knew what maps would be set forth in the process, we had five maps if you remember correctly. Once that was done and we were locked in, you know, I have a lot of friends in this room I've been to a lot of people's houses for dinner so, certainly as a courtesy, there were some members who received a phone call after the decisions had been made and we had locked in the maps, but they had not been made public which was coming out the night before. As a gesture of respect, they received a phone call, but never, and I want to really emphasize this, never during this process was where someone lived, what someone's political affiliation, or what the performance of a district would be was ever factored into the decisions that we made. That was not a factor and I think we need to be clear about that.

Speaker Cannon: Further questions? Representative Waldman, for a question.

Rep. Waldman: Thank you, Mr. Speaker. I asked earlier if at any time—either before, during, or after—any of the member addresses were plotted on a map by staff and you indicated the answer was no. At what point did you take a look at those member addresses and determine that there were members living in different districts?

Speaker Cannon: Representative Weatherford.

Rep. Waldman: I've never looked at them on a plotted map and I have no reason to believe that our staff did. But Representative Waldman, like you, I

have a lot of friends in the Legislature, I'm not a loner. So, I have been to some people's homes. Maybe, if my friends in the Minority Caucus would invite me over for dinner, I would know where some of you live too. But, the truth is, the truth is, that certainly, I think everyone here has an idea of where some people live within this caucus and I knew that. But the thing is, even though I knew it, I didn't let it affect my judgment. Even though the committee knew it, even though Representative Precourt knew we were drawing him into a district with another member of the same party and a friend of his, we did not allow that to impact our decision. We followed the law anyway and that's representative of the fact that as media has reported, almost a third of every person in this room—as I look around this room I see a lot of eyeballs, a lot of faces—one out of every three of the people in this room are in a district with someone else and that's according to the media. So, to me, I think that's a very clear indication that addresses and where people lived was not a factor in the maps that we drew.

Speaker Cannon: Further questions? Representative Waldman.

Rep. Waldman: Thank you, Mr. Speaker and thank you for that answer Representative. Turning back a little bit to some of the African-American districts. Were there any African-American districts where the composition was increased from the number? So, for instance, if it was at 52 percent it increased to 57 percent African-American?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I may need a few minutes to check on that, I do not know the answer right off the top of my head. If you give us a few minutes, if you have another question, or if anybody else has a question, we can get back to you. I'm going to ask staff to look at that and we will come right back to you with an answer.

Speaker Cannon: Representative Waldman, you want to ask a follow up or a different question?

Rep. Waldman: Thank you, no. I just specifically direct his attention to what I believe 94 and 95 might show that, but I don't know. I've been told that that might be something, but I am interested specifically in the south Florida area for the most part.

Speaker Cannon: All right, we'll take a moment, Mr. Waldman. Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I am told that there are some of the non-majority seats, that historically perform for a minority candidate or an African-American candidate, that some of those, the numbers, may have gone up a little bit. I will give you a specific number before we finish here today, but I don't have it in front of me right now.

Speaker Cannon: Representative Waldman.

Rep. Waldman: Thank you, Mr. Speaker. Then the question I would ask after, once you get that information, is why was that increase?

Speaker Cannon: Further questions? Further questions? Oh, Representative Weatherford, you're recognized.

Rep. Weatherford: Representative, I think I can answer your second question. I don't have the data in front of me, but I think the answer to your question, which is if there was an increase in any numbers in any district, why would we do that? I think the answer is that it's the byproduct of following the law. In drawing a very compact district, in following a district that followed geographic boundaries, and drawing a district that didn't have any political intentions, in doing all those things, if a district happened to go up with one minority representation or not that would have been a byproduct of drawing a legally compliant map.

Speaker Cannon: Further questions? Are there amendments to the amendment?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: Representative Waldman?

Rep. Waldman: Thank you, Mr. Speaker. He was working on getting me an answer, so, I, we were just waiting for the answer for the question about how many districts and which ones.

Speaker Cannon: Representative Waldman, that's going to take a few minutes. Now, we've got an option, we've been in questions, now, for several hours, we actually even came back to questions on this amendment. Do you need that data to sufficiently get all your questions answered? Because I will not move forward in this process until everyone gets a chance to ask every question they want, but, I do not want to unnecessarily delay everyone while we wait for that fact. Representative Waldman?

Rep. Waldman: Thank you, Mr. Speaker. No, we can get the answer tomorrow before we vote on the whole bill.

Speaker Cannon: Very well. Are there further questions? Are there amendments to the amendment?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: Are there substitute amendments?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: All right, is there debate? Seeing none, Representative Weatherford, you are recognized to close on your amendment.

Rep. Weatherford: Thank you, Mr. Speaker. I've enjoyed this afternoon. I don't know about you guys, I don't know if it's been as much fun, but I've enjoyed having a chance to talk about this process and, frankly, I give a lot of credit to members of both caucuses and the members of this Chamber for dealing with this in a very deliberate and serious manner. I think this is something worth talking about for two or three hours. I think it's that important and I could save my close for tomorrow, after the full bill is being voted on, but I'd like to speak for just a moment, specifically to the House maps. Tomorrow, when we take a vote on this bill, it will be on the whole bill which will be the House map and the Senate map. And certainly, we've shown a lot of deference to the Senate in drawing the Senate map. But I'd like to speak a little bit about the House map.

As it's been stated many a times in committee and right here on this floor, this has been a very difficult process. Difficult for me, difficult for the sub-chairs, difficult for you, difficult for every member—this has not been easy to have the uncertainty of what district you're going to run in. That's not an easy thing to deal with. But I've got to tell you, I am so proud of the outcome that we've had. I'm so honored that the outcome that we've had has reduced city splits by almost two-thirds. I'm honored that we have county splits that went from over 45 down to 30. I'm very honored and very happy about the determination that we had to not diminish minority representation and, in fact, as I just talked about, we have the opportunity for three more potential minority seats. And I think that's something we should be proud of.

Members, I've spent a lot of time talking to everyone in this room, in this Chamber, has had an opportunity for me to come to you and ask you for your vote. And I understand that there are people, in this Chamber, who plan to vote "no" and have not even considered voting "yes." And I'd just like to ask you to think about that vote. I understand if you want to vote a different way tomorrow when the bill you're voting on—the House and the Senate—maybe you don't like the Senate map, I don't know. But to me, this is an opportunity to show some unity—that the process, under which we drew these maps, was a fair process, that it was an open process, that it was a transparent process, because that's exactly what it was and we made sure of that.

The decision we're making today, which is probably one of the hardest decisions that any legislature has ever made without a court order, is not something to sneeze at. And, in fact, it's bigger than today and I talked about this in committee, but many of you weren't there to hear this, but I'm going to say it again for the benefit of everyone—the way we're handling the map-making process today is going to dictate the way it is handled in the future. We are setting an example for the way these maps will be drawn in 10 years, and in 20 years, and in 30 years—we are the first ones to have to draw maps based on what the Constitution says with Amendments 5 and 6. We are the first ones and it hasn't been easy. And I stated earlier, that the expedient thing to do, the easy thing to do, would have probably been to ignore what the law says and just figure out a way to draw a map that makes everybody in here happy. That would have been easy to do. Nobody would have complained.

We have had a lot of tough conversations with people in this room—both parties. But at the end of the day, this decision is bigger than us. This map is bigger than us. The Constitution is bigger than any one of us. And as I stated earlier, as I look around this room knowing that one out of the every three of you is running in a district that is with someone else, or you're running in a district that you don't live in anymore, that's a very hard thing to deal with and I just want to say, from the bottom of my heart—and I mean this with all sincerity—the dignity and the integrity of which many of you have handled, probably the worst news you've ever been given in your political life, gives me hope for the future of Florida. You owe yourselves a lot of credit for the way that you've handled this process. The conversations that many of us have had, post these maps being finalized, have not been easy. But I got to tell you that I'm proud of each and every one of you and the way that you have handled this, the way that our chairmen, our co-chairmen, have handled this process.

There's a lot of stories in this room that we could tell, but I'm only going to put a face on one, and I mentioned it earlier briefly. The vice chairman of the committee that I am chairing knew very early on in this process that he would be drawn into a district with somebody else. Not only would he be drawn into a district with somebody else, he'd be drawn into a district with a good friend of his, in Representative Eisnagle. He knew that. Never once, never one single time, did Representative Steve Precourt ever come to me and ask for a favor—did he ever come to me and ask me, could you move this here, could you move that there, can you split us apart, can you find a way to use politics to solve this problem—never once. And that's just one story, but that's endemic of how this process has ran.

We have run it with integrity. We have run it with the ability to follow the law and make it transparent. And for that reason, for the first time in the redistricting process in the history of Florida, we are putting principle over politics. This is not a bumper sticker solution. This is a hard solution and for that I think to vote against it is to vote against something that I think has had a lot of integrity. It's to vote against something that I have worked extremely hard on with all of you, and I would just ask that you seriously and strongly consider voting for this amendment. I think it's a fair amendment, I think it represents our state very well, and I think the integrity of the process and how we went through it holds true. So, with that, I ask you to vote for this amendment. Thank you, Mr. Speaker. [applause]

The question recurred on the adoption of Amendment 1 [Amendment Bar Code: 601757], which was adopted on February 2, 2012 (as previously shown in the *Journal* on page 393).

Speaker Cannon: Well done, Representative Weatherford. Read the next amendment.

Representative Jenne offered **Amendment 2** (Amendment Bar Code: 756455) on Thursday, February 2, 2012 (as previously shown in the *Journal* on pages 393-393).

Speaker Cannon: Representative Jenne is recognized to explain the amendment.

Rep. Jenne: Mr. Speaker, as always, thank you. Members, this is really just a small amendment, fixing a couple small problems. It will adjust the county split in Pasco County so that it is now split along an east-west orientation compared to what we see now with the north-south split. Residents of Pasco County made very clear at public hearings that residents of coastal Pasco County form a distinct community of interest from the more rural east Pasco County. My amendment will also reunite the City of Lakeland into one Senate district. As you all know Lakeland is a city just under 100,000 residents and it was split into three districts on the Senate map, which deluded effective representation of Lakeland and Polk County. Lakeland is the largest city in the I-4 Corridor, in-between Tampa and Orlando, but was placed in a district designed to unite agricultural communities of interest. This amendment places Lakeland, instead, with similar communities of interest such as Winter Haven, Auburndale, Solivita, and Polk City—along with rural Osceola County. I feel that this actually brings the Senate plane more into compliance with Amendment 5. It reduces the number of counties split from 31 all the way down to 30, that magic number, while reducing the number of V.T.D.'s, that's voter tabulation districts, from 421 to zero. It also moves Plant City, for those of you who don't know—a Tampa rural exurb, back into Hillsborough/Tampa suburbs. It also removes it from the Manatee County based district—that would be District 24. Mr. Speaker, that is the amendment.

Speaker Cannon: Are there questions of the sponsor—questions of the sponsor? Representative Weatherford, for a question.

Rep. Weatherford: Thank you, Mr. Speaker. Representative Jenne, Thanks for bringing forth this amendment. I appreciate your willingness to try to improve the map. I think that's a noble thing. When I take a look at the map and your amendment and I compare it to the map in the bill, it appears that you split an extra thirty-nine cities—more than the current map. Could you give us some reason as to why you did that?

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, Mr. Speaker. Really, it was just to make sure—I didn't want to see that community shortchanged. If you look at it, I feel that it—I was there at those meetings in Wesley Chapel and I just don't think it is a good way to reflect a community and that's not what I heard the people speak up and say at that meeting. They were very clear that they wanted Pasco split east-west. I had the opportunity to sit with a representative from Pasco during that meeting and I was able to get a lot more details. Like I said, at the end of the day, it just doesn't make sense based on that and I just don't want that community shortchanged.

Speaker Cannon: For a follow up, Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. For a follow up, Representative Jenne, when I look at the districts in the Section 5 counties, such as Hillsborough and Collier, they have noticeably lost some of the minority rep. populations, but I didn't see any other districts that make up for that loss. So when we're in the pre-clearance process with the Department of Justice, which I know you're familiar with and that we have to go through, how are we going to justify to them the reductions in the minority populations in those Section Five counties?

Speaker Cannon: Representative Jenne.

Rep. Jenne: Thank you, luckily I'm not that familiar with the Justice Department, but really, more so than anything else, I know there were a lot of members on this floor who were hoping to see different maps and were hoping to see different variations of maps—and that's just what we wanted to do. Really, to get back to it, we just wanted to make sure that no community was shortchanged. We just didn't feel it was a good way to reflect the community, and again, it's not the way people spoke up at that hearing.

Speaker Cannon: Further questions? Further questions? Are there amendments to the amendment?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: Are there substitute amendments?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: Is there debate on the amendment? Representative Weatherford, you are recognized in debate.

Rep. Weatherford: Thank you, Mr. Speaker. I have to say, I really appreciate Representative Jenne for, again, bringing forth that amendment that makes an attempt to improve the map, but unfortunately, it does not do that. Right now, in the bill, there are 54 city splits. This would put us at 93. I don't see how that's any improvement to the map. On top of that, your District 19 would reduce the black voting age population in the Hillsborough County Section 5 district from 39 percent in the 2002 map to less than 32 percent, which is in this amendment. Also, the District 40 which reduced the black voting age population in Monroe, Collier, and Hendry—which is a Section 5 V.R.A. District—from 29 percent to 20 percent. Basically, what that means is this map, I think, would be illegal according to the Department of Justice and therefore, I don't think we can support it. I would urge you to vote no.

Speaker Cannon: Further debate? Representative Saunders, in debate.

Rep. Saunders: Thank you, Mr. Speaker. Since we're trying to find some agreement today, I want to say I agree with Chair Weatherford and I will also be voting against this amendment. Thank you, chair—and I think all the other Democrats will too. We did just want to show there are some ways to accomplish certain things—and that we think that maybe, perhaps, in the original map things could have been differently, but since we see the amendatory process on the Senate map, it's probably not going to be successful for any amendment. We will probably go along with your recommendation on this amendment as well.

Speaker Cannon: Further debate? Seeing none, Representative Jenne, you are recognized to close on your amendment.

Rep. Jenne: Mr. Speaker, thank you. I believe that this amendment vastly improves some sections of the map. We do fix the Pasco problem, we do fix the Lakeland problem, and I feel we move the map towards better compliance with the fair districts amendments. But alas, I think I have to agree with Representative Weatherford. It only moves us towards compliance and doesn't take us all the way there. So for that reason, members, I urge you—I urge you—vote no on this amendment. [laughter] Because while this map does improve the situation, members, there is no amendment that can completely fix this map and all of the problems it possesses. So, with that, members, I urge you—do like me. Hit that red button. [laughter]

The question recurred on the adoption of **Amendment 2** (Amendment Bar Code: 756455), which failed of adoption on February 2, 2012 (as previously shown in the *Journal* on page 399).

Speaker Cannon: Show that bill rolled over for third reading. Read the next bill.

CS for SB 1174 was read the second time by title on Thursday, February 2, 2012 (as previously shown in the *Journal* on page 399).

Speaker Cannon: Representative Legg, you are recognized to explain the Senate Bill.

Rep. Legg: Thank you, Mr. Speaker. In the spirit of the American screen actor, Bill Murray, and it being Groundhog's Day; let's do this one more time. So, thank you, Mr. Speaker. Members, CS for SB 1174, the proposed Congressional map as passed by the Florida Senate. This map has differences to the Congressional map that our Redistricting Committee passed as CS/HB 6005. Representative Homer walked you through those differences earlier—in the earlier presentation. Mr. Speaker, that is the bill.

Speaker Cannon: All right, members, to get us into the proper posture, we're going to take up the strike-all amendment that contains the House language—the House proposal—and then you'll have the opportunity to ask questions regarding both the House and Senate Congressional maps. Everybody got that? All right. Are there amendments?

Reading Clerk: On the desk, Mr. Speaker.

Speaker Cannon: Read the first amendment.

Representative Weatherford offered **Amendment 1** [Amendment Bar Code: 832579] on Thursday, February 2, 2012 (as previously shown in the *Journal* on pages 399-438).

Speaker Cannon: Representative Weatherford, you are recognized to explain the amendment.

Rep. Weatherford: Thank you, Mr. Speaker. Members, this amendment would strike the Congressional map proposed by the Florida Senate and replaces it with the proposed Congressional map from CS/HB 6005, the map that was presented earlier today. This amendment also strikes the "whereas" clauses in the bill and replaces them with "whereas" clauses that correlate to Congressional map from CS/HB 6005. This amendment does not make any changes to the Congressional map as it passed the House Redistricting Committee. That is the amendment, Mr. Speaker.

Speaker Cannon: Members, are there questions? Representative Taylor, for a question. This can be questions regarding the Senate or House map. Representative Taylor, for a question.

Rep. Taylor: Thank you, Mr. Speaker. Representative Weatherford, you said—and as I understand it—it doesn't change the same map that was passed out of our subcommittee that I sat on. There was mention that there would be conferencing committees, possibly to establish a committee that will work out the differences. Are we still working on having a conference committee to work out the Congressional differences?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I don't know of anyone who told you there'd a conference committee. I certainly never said that. What this amendment is is the bill that we passed out of the full committee last week.

Speaker Cannon: Representative Taylor, for a follow up.

Rep. Taylor: Thank you, Mr. Speaker. Yes, in many of the meetings that I sat on, I always asked about the process on how the differences were going to be ironed out between the two chambers and I was told that this was going to be set up similar to the way that we worked out our differences on the budget. So, now are we saying that this is going to be something that's totally different? Will this be the two presiding officers or will this be the two chairs that will iron out the specific differences on the Congressional map?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I may ask Representative Legg to address this if I don't adequately answer your question, but I think what Representative Legg said is that there could be a conference, certainly, if there were to iron out differences between the House and the Senate Congressional map. Luckily for us, here we are in the fourth week and we have an agreement on a map. And I think that what the agreement is, is that, we wanted to make a map that was the most legally compliant map that we could possibly do and we feel like we've done that. And so, there's no need for a conference committee. I don't believe it was ever stated that there would be one. I think that it was just stated—and I will ask Representative Legg to clarify—that there could be one.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. So, you're saying that the differences have been resolved between the two chambers and this is the actual map that—I'm guessing you're nodding your head so—when and who decided that this would be the actual Congressional map?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Certainly, Senator Gaetz and I discussed the differences between the two maps. Something that I think is very important for you, Representative Taylor, and others in the Chamber to know and understand is that about 90 percent of the Congressional map is the map that was originally filed. And so our map, the map that passed out of the subcommittee that we identified as the one most likely that we would move forward with, 90 percent of that map is this map. And so, certainly there were some differences with the Senate that we had to work on, but in general, the map is very similar to the map that we passed out at the subcommittee and out of the full committee.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. I'm going to move on to a couple of other questions that I have of Representative Weatherford. And I was, I closely listened to your definition of retrogression and what Leader Saunders read as far as a definition. Was there any definition applied to the maps, in any way, to determine whether we were regressing or we are in compliance?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Again, I feel like I've answered this question and just to be clear, the answer is the same for the House map as it is for the Senate map as it is for the Congressional map—which is that there is no threshold. There is no numerical definition for retrogression.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. But if there is no definition, how would one know that they are regressing?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: We do that by a very fact specific district-by-district analysis.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. Now what I asked, because there was mention earlier that there was no particular definition for minority districts and minority could be defined in several different ways. It can also include white female. So, how would you know that you have actually created minority districts if there was no specific definition applied to how you were going to draw these maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. It is my understanding that there is historical case law that speaks to that. But, to be clear, we have very specific standards in our constitution. I'm going to go back and I've done this before, if I can find it—a copy of what Amendments 5 and 6 said, but here's what it says in regards to diminishment. It says that, "districts should not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minorities to participate in the political process or to diminish their ability to elect representatives of their choice." I think that's pretty clear and I think that Section 2 of the Voting Rights Act is pretty clear and I think Section 5 of the Voting Rights Act is pretty clear.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And would you consider this to be fact-based or just your opinion about whether or not these were actual minority districts?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I think we have a lot of historical data that shows whether or not a district has performed for an African-American, or a Hispanic, or a minority candidate.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And thank you, Representative Weatherford. So, the data that was used—the performance data that was used to determine whether or not this was a minority district is what was used to construct the actual districts themselves?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: You already have members of the Congressional delegation of African-American, Hispanic descent so, I mean, what you have is, as I stated earlier when we were talking about it in either House or Senate Maps, is that you have a reference point of what the district currently looks like. It is currently represented by a minority. In some cases, it's a minority-majority seat. In some cases, it's not. But our focus, as I've stated many times, is to make sure that we continue to abide by the tier one standard of non-diminishment. And I think that we've done that in this Congressional map.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And one of those particular members of Congress, Representative Weatherford, was an African-American that was voted in a district that actually only had 4 percent African-American. Would you consider that a district that would be access for African-Americans?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And there was also a district that's in this particular plan that has actually 28 percent African-American. Would you consider that a part of this, African-American seats that are constructed for that particular district?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Representative Taylor, could you be more specific about the exact district you're talking about? Because I'm not exactly sure which one you are referring to.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. I believe it's actually district number 3, it's either 2 or 3. It's the one district that encompasses Leon County here in this area.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: So I'm looking at that district, Representative Taylor. I see that District 2 has a 23.8 percent African-American voting age population and your question is, is that enough to elect a minority candidate of choice? Is that what you're asking me? Because if that's what you're asking me my answer would be I guess not, because currently the congressman who represents that district now is not a minority. But that being said, this is a new district and there is no way to predict how the voters will vote. As you stated earlier, there was a member of congress who is African-American and has a 4

percent African-American voting age population in that district. So, I cannot predict for you what the voters will do.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. Representative Weatherford, there were two additional seats that we had to develop within this actual Congressional map. Are there any Federal standards outside of Amendment 6 of this state? Are there any Federal standards that need to be applied that weren't applied within the construction of this particular map?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. We don't have two new districts in the state of Florida, we have 27 new districts. Because every district—and because of the fact that we did get two new districts apportioned to the state of Florida—it changed the composition of all the districts in the state of Florida. So we don't have two new districts, we have 27.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. I believe I said two additional districts that we had to incorporate within what we were trying to accomplish here on the Congressional map. I was trying to determine if there were any specific standards that the Congressional map needed to have that the House and Senate map did not have.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I can tell you one standard we did follow was 'one-person, one-vote.' We followed the Amendments 5 and 6 and the standards that are set forth in the Constitution. And I believe that's it. As far as—I may need more clarification if you are looking for more than that, but that's what we did.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And I'm going to move on to just one other line of questioning. I sat on this particular Congressional subcommittee and I attended approximately 20 to 21 of these different meetings. And in these meetings that you chaired with Senator Gaetz, you often talked about how we were putting the cart before the horse whenever it came to the public having maps. Everywhere we went, there were questions about, 'Where are the maps? Where are the maps? Where are the maps?' And, consistently, you made that statement that we're putting the cart before the horse. Now that there are Congressional maps and I know you're going to say—or some folks have said that we don't have time now. But, why haven't those maps been back to the public the same way, in the same intensity, that it was when we went out soliciting their input?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. And you hit on a great point here, because I think what we should all be most proud of when it comes to these maps, and even in particular these Congressional maps, is the amount of public testimony that we have gotten—the 5,000 people who showed up to go those committee hearings that you went to and I went to. That took four months. We started in June and we went all the way through September and took public testimony. We incorporated the public testimony into the maps. We can document the actual incorporation of the public comment and how it correlates to a lot of these districts. But what we've also done is we've made this process so transparent and open and engaging that even after we put the maps out on December 6th, I think we had seven Congressional maps when we started on your subcommittee. We have continued to get feedback. We've had more maps to be offered. We've had more public testimony. We've had more emails that have been sent in. We've had more folks who have reached out to us, in many different ways, to give us their thoughts on the maps. Whether or not there was time to go out and spend four months asking for input, again, after the maps—I don't know about you, but I know that we've

had a lot of Supervisors of Elections who had asked us to be time sensitive. There is a reason we are having this debate in week four and not in week nine. And the reason for that is because what we also heard at every public hearing around the state is that we need to pass the maps as quickly as we can, but also as diligently as we can. And I think we've achieved both.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker and thank you, Representative Weatherford. It was mentioned earlier that there were members notified on the House maps early on, before they came out. Were there any members notified in that same example on the Congressional side by either members of subcommittees, staff, or anyone?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. No.

Speaker Cannon: Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. You mentioned early on that Representative Precourt knew so if these maps were—before they were made public, people were notified, for what purpose did they need to be notified before the maps went public?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Mr. Speaker, I think we are talking about the Congressional map. I think the question he's asking pertains to the House map and I think I've answered that question, but I'll answer it again. Representative Precourt, which I spoke about a couple of times tonight, is the vice chair of the committee. And so, certainly, he was aware of the way that the maps—once we finalized the map—he was aware of the final product. And it had him paired up with another member. But again, whether we're talking about Congressional, whether we're talking about State, whether we're talking about the House maps, at no point did we allow someone's address of where they lived impact the decision that was made. At no point did we do that. And I think that needs to be very clear.

Speaker Cannon: Further questions? Representative Saunders.

Rep. Saunders: Thank you, Mr. Speaker. You stated that this is an amendment because the product that came out of the subcommittee has been changed. And you said the reason for the change, today, is that you want to make improvements to the product that came out of our subcommittee over here. Can you be specific as to whatever deficiencies there were in the product produced by the subcommittee and the reason for any changes that are now reflected in the amendment before us today?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There are no changes to this amendment. It is the substance of the bill that we passed out of the committee that I chair, last Friday.

Speaker Cannon: Representative Saunders.

Rep. Saunders: Thank you, Mr. Speaker. I believe my question goes to the fact that there was another version of the Congressional map that was considered in our subcommittee and that has been changed. I thought what you had said was that the changes were made to improve the product and we want to know, specifically, what were the improvements that were made and the reasons for them.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think Representative Horner probably can speak to some of the differences between the two maps, but while he's getting ready for that, what I'll talk to you about myself,

is—certainly, when we were working with the Senate, they had their own version of a map, we had a version of a Congressional map, and we worked with them to come up with the best product that we thought possible. And so, that's what we did. There are improvements to the map, I think, and one of those improvements to the map, that I think is in the House map, is that District 5 is a minority-majority seat and becomes a protected Section 2 of the Voting Rights Act, protected seat. But as far as, if you want to know the differences between what the Senate passed and sent to us versus what we have and passed out of subcommittee, Representative Horner can speak to some of those as well.

Speaker Cannon: Representative Horner, you are recognized.

Rep. Horner: Thank you, Mr. Speaker, with your indulgence, I'd like to just go ahead and repeat some of the key changes between the two maps, if that would be helpful.

Speaker Cannon: Sure. Representative Saunders, is that responsive to what you're asking? OK, Representative Horner, you are recognized.

Rep. Horner: Great. Some of the overall differences between the two maps are the Senate's version of the Congressional map splits 24 counties and 46 cities. The House version only splits 21 counties and 27 cities throughout the entire map. First area I want to cover is Congressional District 9 in Osceola County. Both the House and Senate maps drew the districts in the similar way including all of Osceola County, portions of Orange and Polk County. But District 9 in our bill is noticeably more compact than its Senate counterpart.

The next area is the Pasco/Hernando area in the Tampa Bay region. The Senate's version of the Congressional map, Hernando and Pasco counties are linked together which pushes the district to the north, containing Citrus and Sumter County further into Lake County. As a result, the Senate's version of the map has a Congressional district that entirely spans northern Pinellas and Hillsborough County. In the House's version of the Congressional bill, Hernando County is joined with Citrus and Sumter County. Whereas, Pasco County is in a district that also has portions of north Pinellas and Hillsborough County. This configuration also creates a district that is mostly in eastern Hillsborough and western Polk counties keeping Plant City, Lakeland, and Bartow wholly within the district.

The next difference is also in the Tampa Bay region. In the House map, District 14 does not go into Manatee County. So, the district is wholly and more completely, excuse me—more compactly located in Pinellas and Hillsborough counties. The Senate version of this Congressional district dips into Manatee County.

Moving south along the Gulf Coast, the House version of the Congressional map keeps Sarasota County whole, along with the majority of Manatee County. The most similar district in the Senate's version of the Congressional map splits Manatee, Sarasota, and Charlotte counties with the coastal side being in one district and the rural side being in another district.

Moving to District 17, the House's proposed Congressional map. Essentially, the Senate's version splits Charlotte and Okeechobee counties. The House version keeps those counties whole.

The final area of significant differences are the two districts in south Miami-Dade County and Monroe County. Both maps connect Monroe County with Miami-Dade County. However, the Senate's version of the map connect Monroe County with eastern Miami-Dade County, while the House version creates what turns out to be a more compact design connecting Monroe County with western Miami-Dade County. Those are a summary of some of the key differences.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Thank you, Representative Horner for speaking to some of those changes and I'm going to come back to the question again and maybe answer it, also, with some specifics. The map that you see before you now has 21 county splits and 27 city splits. The map that the Senate sent over to us had 24 county splits and 46 city splits. The map that you voted for out of the subcommittee—I don't know if you voted for it, but some people voted for it—had 22 county splits and 39 city splits. So, the reason I give you that data is that this map before you is, actually, the best map we had of any map that's been out there when it comes to city and county splits. So, significant improvement when it comes to those standards in law that they ask us to consider.

Speaker Cannon: Representative Saunders, you are recognized.

Rep. Saunders: Thank you, Mr. Speaker. Since we are here, in part, to determine legislative intent. I just want to make it clear that one of the reasons there was a change in the Congressional map was in no way related to the fact that perhaps an incumbent Congressman's percentages were subject to change. Because we've read in the papers that, I won't mention any names, but let's say a certain, several incumbent Republican Congressmen's districts significantly improved by virtue of this amendment. So, you're saying that had nothing to do—it was totally based on the information you just discussed?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I've actually never heard that before or haven't read it anywhere. I would love you to send me the article if it's out there, but it's not true. The fact of the matter is that we drew these maps based on the public input and how to make sure that we follow the Constitution and the Federal Voting Rights Act—just like we did the House maps, just like we did the Senate did the Senate maps. At no point were these maps drawn with any political intent.

Speaker Cannon: Representative Saunders.

Rep. Saunders: Thank you, Mr. Speaker. Since we want to be specific, I served with Congressman Webster. He is currently in the Congress. It was my information that in some of the versions his district was not as Republican as this amendment reflects. So, are you saying that any improvement, if any, to Congressman Webster's district was not based on the fact that that was meant to improve his chances as an incumbent of winning. It was solely, those changes are solely done to reflect the county splits or the other issues that you brought up—is that correct?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Representative Saunders, I don't know any of that information and have no reason to believe that, but I can tell you, one thing I do know, I think it has been reported that Congressman Webster, actually, doesn't live in the district that we drew. So, you know, again if you're trying to insinuate that there was some type of intent in these maps, I can tell you that was not the case, at any point in time.

Speaker Cannon: Further questions? Representative Steinberg, for a question.

Rep. Steinberg: Thank you, Mr. Speaker. And Chairman Weatherford, I'm going to—these [questions] are going to be the Congressional maps, and some of them are going to be a little redundant, although it is Groundhog Day today, so maybe it's a little bit appropriate, but these are focused to the Congressional map. When drafting the maps, was there any conversation between you, or staff, or anyone in the process here with people at the Republican National—I'm sorry, the Republican National Committee, the RNC, as far as how to draft these maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Mr. Speaker, I believe that you actually forbid the staff and this Chamber of even talking to anyone at that

level. I never had any conversations. I believe the answer is unequivocally, no, we did not have any.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And same question, but not to the RNC, but RPOF. Were there any conversations with people, directly or indirectly, at RPOF regarding the makeup of this map?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Was that conversation also forbidden?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I believe it was and I think it was forbidden for the Florida Democratic Party, as well.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Were there any conversations with members—current members of Congress—about how this map should be made up during the time that the map was in consideration?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No. No, and in fact, I want to reiterate what I stated earlier which was that, you know, at no time was there any indication, or were there any phone calls made to any congressmen letting them know about what their district would or would not look like prior to them being finalized and being submitted to the public.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And I'm not sure if you understood my question. I'm trying to understand, was there any input either sought or given by members of Congress, for example—I don't want to name names—but did congressman or congresswoman so and so reach out to you or staff or anyone that you know and say, you know, 'it would look great if the district in my area looked like this,' or, 'it would be really bad if you did that. Don't do this, do that,' or any conversations along those lines from any members of our delegation?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: We all certainly bump into members of our delegation from time to time, but I can assure you, every time anyone, whether House member, Senate member, or a Congressional official, ever wanted to have that conversation about redistricting, I would stop them at the door because it was not the type of conversation that was appropriate. We didn't want to know what they wanted. That was not something we were willing to take into account. Our job was to draw maps that were legally compliant and factored in the public comment.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. I appreciate the, 'not wanting that conversation to occur,' but my question is more, I guess, did it occur?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Not with me, and I can tell you that. I can only speak for myself. But, I think, it's also been documented in quite a few newspaper articles and, maybe, some famous radio hosts about members who were actually complaining about their lack of access and the lack of

responsiveness of this Chamber. And so, I think, I can very easily state to you that there was no intent whatsoever, at any point, during this process of drawing these Congressional maps.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And on that point, this will probably be my last question. You said, "Not to you there were no conversations." Were you aware of any conversations with staff or anyone that was involved in the process of drawing the maps along those lines?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Absolutely not.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And this is, specifically, on this map, although I know it's already been asked of others. Did staff have access to performance data, as it relates to the Congressional maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Everyone has access to the data. The only time it was ever utilized was for minority districts to make sure that the analysis could be done so that we were in compliance with the Federal Voting Rights Act and the Justice Department and, frankly, the State Constitution.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Mr. Chairman, if the 2002 maps were drawn in order to preserve incumbency at the Congressional level, or to help a party in power preserve its numerical dominance, is that something relevant to determining whether we can simply keep 2012 districts—or districts that look very similar to the 2012 districts—in this plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I have no idea what the intent of the framers of this map—the Congressional map was in 2002—but I can tell you, with certainty, that there was no political intent in the maps that we drew.

Speaker Cannon: Further questions? Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. But, clearly, the media has indicated—and there's been a lot of conversation about the gerrymandering process in the State of Florida in days gone. In fact, I think, it's clear that the amendments that were on the Constitution, the way the voters voted, probably is indicative of the voters—believe that as well. So, with that knowledge, does it make sense to use maps from 2002 that have been reportedly overwhelming, throughout the state and throughout the nation, as being malapportioned and with an electorate who appears to have thought that way by putting in standards because they didn't feel that the maps were being drawn in a way that didn't favor or disfavor a political party. Would it be right for us to draw maps based—or a portion of the maps—based on those maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Under the premise that you can believe everything that you read in the newspaper, which I'm not sure is entirely true—no offense to our friends—but let me speak, specifically, to a couple of points that, I think, are important here when you're talking about the makeup of our map. The old district, for example, that went from Palm Beach to Charlotte County—gone, doesn't exist. The old district that went from Duval County to Leon County—gone, that district does not exist anymore. The old district that went from Marion County to Osceola County—gone, doesn't exist. The arm of the district that used to cut through Martin County to Fort Pierce—gone, doesn't exist. Lastly, the district that started in Winter Park and went all the way to Ponte Vedra—gone, doesn't

exist. So, the premise that you started with, that somehow these maps were a reflection of the maps of 2002, frankly, just isn't true. Now, these maps are significantly different, significantly more compact, significantly more compliant with the standards of [Amendment] 5 and [Amendment] 6 when it comes to following geographic boundaries in cities and counties. So, I guess I just don't agree with the premise of your question.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Don't some of the minority access districts, in particular, seem to mirror closely the 2002 maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: There's only one district. I'm assuming you're speaking to District 5?

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. I don't have the maps in front of me. Obviously, you're much more familiar and actively involved in this for a number of months, if you're saying District 5 is one, I guess that could be an example. If that map was drawn with that intent and to pack a district in that sense, would that mean that we can't do so today?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Mr. Speaker, I've said this on numerous occasions, today, but clearly it's not resonating. So, I'm going to say it again. We have not packed any maps, any districts—there is no packing throughout this process, particularly with this Congressional map. What you have with District 5 is a map that was created by the Federal court back in 1992. This is a map that was created by the court 20 years ago. It is a minority opportunity seat, or has been represented by a minority—African-American for 20 years. And the way it's drawn today—it is actually drawn with just above 50 percent, which would actually give it protection under Section 2 of the Voting Rights Act.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And on another note, I guess, tracking back to some of my other questions as far as conversations that were had with people outside of our body. Were there conversations that you're aware of with either yourself or staff or anyone involved in drawing the maps—with the Chamber [Florida Chamber] or AIF [Associated Industries of Florida]—in proposing this map or any of the other maps?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: I have not had any conversations like that nor do I know of anyone on our staff, or anyone associated with this Chamber, that has had conversations like that.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Mr. Chairman, if a Congressional district is composed of 70 percent voters of the same party as an incumbent, isn't that evidence of an intent to favor that incumbent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think I've answered that question several times today. Before, I answered it in regard to the Senate and House map and I think the answer stays the same, which is, the way we draw the map, there is nothing in the standards that call us to look at anything that is partisan in nature. What it calls us to look at is, does it follow the Federal law? Does it follow the compactness measures that are called for in the Constitution? Does it follow geographic boundaries that it calls for us to utilize, when we can? Does it follow the tier one standard of making sure

there's no diminishment? Does it follow the tier one standard of making sure that it's not drawn with any political intent? And so, to me, you know, I think I've answered that question. But, again, those are the standards we're utilizing to draw districts. We're not paying attention to what the political data has, nor have we ever.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Mr. Chairman, the standards of [Amendment] 5 and [Amendment] 6 both provide that districts can't be drawn with the intent to favor or disfavor an incumbent or with the intent to favor or disfavor a party. So, if a district is drawn with 70 percent of the party of an incumbent, is that evidence of an intent to favor that incumbent?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: You're a lawyer, so maybe I should ask you, if you could, define that for me. But, the way I define a map and whether it is compliant with the law is whether it's compact, it follows geographic boundaries, how it utilizes cities and counties, if it follows the tier one standard of making sure there's no diminishment. That's the way I make a determination of whether or not a map is compliant. We're not even looking at the data, so I wouldn't even know if a district was 70 percent Republican—I have no idea. We're not looking at that data. So, I guess, I'm not sure I can answer your question.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. So, let me see if I understand this. If a district—or, frankly, if a map as a whole—performs heavily in favor of one party or another, that doesn't matter? That's not something we should be looking at?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: That's not something we should be looking at. As it was stated earlier, someone made the suggestion that maybe for the House we should've drawn 60 Republican seats and 60 Democratic seats and somehow that would be fair. The reason we did not do that—and the same reason we didn't do that with the Congressional maps is that then we would be using political intent to create an outcome, which is the opposite of what the voters who voted for Amendment 5 and Amendment 6 wanted. They don't want political intent. We're not legally allowed to utilize political intent and so, for us to look at the data and make a determination based off that would be against the law.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And I know this question was asked to the other maps, but I just want to ask it to this map specifically. Was residency of the incumbents taken into account in the modeling of how districts were drawn?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Absolutely not.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Were there any discussions with members as to whether or not their residence would be in or out of districts?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No, and frankly, I think if you're reading the same news clips I am, there's probably some congressmen out there that aren't very happy.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Based on publicly available historical election data certified by the Secretary of State, the Congressional plan overwhelmingly favors Republicans, creating nine districts that would give Democrats a chance of winning. A fair plan, based on a 50/50 split, would obviously create 50/50 districts. Why doesn't this plan do that?

Speaker Cannon: Representative Weatherford, you are recognized.

Rep. Weatherford: I'm glad that you have all this political data, unfortunately, I haven't used it—I haven't look at it. So, I can't speak to the validity of the data you just stated. But, again, it has not been utilized in this process. And for us to use it, in any way, shape, or fashion, would be in violation of the Constitution. And we're not going to do that—we have not done that, and I feel like I've answered this question 47 times and I probably won't answer it again.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. And that was the reason, probably; you are getting multiple questions that are similar is there are three different maps—so, yeah, people are asking questions, too, that are different based on the individual maps. But, at any time, either during the drawing of the maps or after that, between now and then, have you looked at the performance data of the districts? I know before you said you did on the minority access districts, but have you looked on the other districts or the maps, as a whole, to see how they perform from a partisan nature?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No. I've never looked at the performance of the minority districts. I've never looked at the performance of the other districts. I've never looked at the performance of any districts.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Has staff looked at that information?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Our staff and our counsel looked at that information, in regard only to the minority districts, to make sure that we were in compliance with the Department of Justice, the Voting Rights Act, and the State Constitution.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Just to clarify this, so, on the other districts—the non-minority districts□□that information was not looked at by staff or by legal counsel?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: That is correct. That information was not looked at by staff or legal counsel in regard to any districts aside from those minority districts.

Speaker Cannon: Representative Steinberg.

Rep. Steinberg: Thank you, Mr. Speaker. Has anyone reported to you or to staff what the performance of the other districts or the maps as a whole are?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: No, not until you just did.

Speaker Cannon: Representative Steinberg. Further questions, further questions? Representative Reed, for a question.

Speaker Cannon: Representative Reed, for a question.

Rep. Reed: Thank you, Mr. Speaker. Chairman Weatherford, ah look a great smile, thank you. [laughter] How are people housed at a jail counted for the purpose of redistricting? I have a brand new question.

Speaker Cannon: Thank you, Representative Reed. Representative Weatherford, you're recognized.

Rep. Weatherford: Thank you very much, Mr. Speaker. Everybody knows I love me some Mrs. Betty Reed, she's a wonderful lady. [applause] She keeps us all out of trouble back in Tampa Bay. Steve Precourt has been feeling lonely over here to my left, so I'm actually going to allow him—since he's paired up with another member, I feel like we owe it to him. We should at least allow him to answer a question. So, Representative Precourt, if you could enlighten us on that.

Speaker Cannon: Representative Precourt, you're recognized.

Rep. Precourt: Thank you, Mr. Speaker. And thank you for the opportunity to shine. Appreciate that. I believe the question was where are the prisoners counted?

Speaker Cannon: Representative Reed, you're recognized.

Rep. Reed: Thank you, Mr. Speaker. How are people housed at a jail counted for the purpose of redistricting?

Speaker Cannon: Representative Precourt.

Rep. Precourt: Thank you, Mr. Speaker. The census gets data from our prison system to use so that we know how many people are there in order to have them counted. So, we use the data from the census that is provided.

Speaker Cannon: Representative Reed.

Rep. Reed: Are they counted from their home district or are they counted from the district where they are located at that time?

Speaker Cannon: Representative Precourt.

Rep. Precourt: Thank you, Mr. Speaker. They are counted from the district where they're located at the time.

Speaker Cannon: Representative A. Williams, for a question. Did you have another question Representative Reed?—OK—you're very welcome. Representative A. Williams, for a question.

Rep. A. Williams: Thank you, Mr. Speaker. Chairman Weatherford, I'm going to ask this question as it relates to Congressional compactness—and you may have answered this, I had a family emergency and had to step out the Chamber for a few minutes. But, could you tell me what is the definition of compactness as it relates to this map, or at least to this plan, and how was it applied to constructing this plan?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I think my answer would be the same to this question that I gave it for the House and Senate map and that is that compactness is not determined by a single measurement. There's different ways to look at it but, I can tell you in all the measurements that we have utilized, we have found that this map is far superior to the map that was made in 2002.

Speaker Cannon: Representative A. Williams.

Rep. A. Williams: Thank you, Mr. Speaker. Thank you for that response Chair Weatherford. How does this plan reflect your definition or the definition of compactness? How does this plan specifically reflect your definition of compactness?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I would just say that in regard to how we measure, there are different measures. But on the measurements for example, travel distance from one side of a district to another, the radius of a district, the geometric distance around—from basically in a circle all the way around. Those are some of the ways that you can look at compactness in ways that are actually chartered. I think we have that data, we can provide that data to you and every member of this caucus. I think it's actually publicly available on the web if you'd like to see it.

Speaker Cannon: Representative A. Williams.

Rep. A. Williams: Thank you, Mr. Speaker, and thank you, Chair Weatherford. As it relates to the 27 Congressional districts, what were the reasons for the districts not being clearly as compact or not being clearly compact?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Could you speak to a specific district that you feel is not compact and maybe I could react to that?

Speaker Cannon: Representative A. Williams.

Rep. A. Williams: Thank you, Mr. Speaker. As it relates specifically to Congressional District 10, the one that was on the map that was kind of the Pepto-Bismol color. The Pepto-Bismol pink.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. I actually think it's very compact, I'm looking at it and it represents kind of the heart of central Florida there—as parts of Orange County. It appears to keep Lake County whole and then comes into Polk County. But just to give you an idea that the amount of cities that are kept whole, I won't read them all off, but it looks like it's almost close to 20 cities that are kept whole.

Speaker Cannon: Representative A. Williams.

Rep. A. Williams: Thank you, Mr. Speaker. I guess what I was referring to when you looked at Congressional District 10, how it kind of horseshoed around downtown. Can you, kind of, share with us the justification for those boundaries?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Based on compactness measures this district is actually much more compact than the current district. So, it's a significant improvement to what the current map is now from the 2002.

Speaker Cannon: Representative A. Williams.

Rep. A. Williams: Thank you, Mr. Speaker. Thank you, Chair Weatherford.

Speaker Cannon: Further questions? Representative Clarke-Reed, for a question.

Rep. Clarke-Reed: Thank you, Mr. Speaker. Representative Weatherford, how do we account for those prisoners and I'm going to follow up on Representative Reed's question, those prisoners who may have been moved since the census was taken and we are drawing districts now. How does that account for the one-man one-vote when you move these prisoners and you're going to another district?

Speaker Cannon: Representative Precourt, you're recognized.

Rep. Precourt: Thank you, Mr. Speaker. Representative we're required to use data from a snapshot in time from the census, from the 2010 census, and that's for everyone not just the prisoners.

Speaker Cannon: Representative Clarke-Reed for a follow up.

Rep. Clarke-Reed: Thank you, Mr. Speaker.

Speaker Cannon: Further questions. Representative Saunders, for a question.

Rep. Saunders: Apparently, in the Senate Redistricting Committee, residents in Taylor County felt they had more in common with the Nature Coast than they do with Tallahassee, but apparently in this map Taylor County is included with Tallahassee, but yet you split Madison County. Can you explain to us why the wishes of the Taylor county residents were not reflected in this map?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Look, certainly common interests and communities of interests, or whatever term you want to utilize, can be looked at, but it's a sub-standard to the standards in the Constitution. One of those being a Federal requirement that we have to have very precise deviation in the districts. So, the reason it stops right there in Madison County is because if you were to go further over there, you would be overpopulated. So, to keep population exactly equal, which we have to do in the Congressional map, we stopped it right there, but it was able to keep the entire county of Taylor County whole which I think is important. I mean, you look at the map, it's an extremely compact map, and I think is a significant improvement to the current map that we have now.

Speaker Cannon: Further questions. Representative Randolph, for a question.

Rep. Randolph: Thank you, Mr. Speaker. I just want to go back to Congressional District 10, real quick. With the arm that wraps around from west Orange County and now splits the city, not only splits the city of Orlando, but because thanks to that arm, splits Winter Park—a city of 44,000 into two, if not three Congressional districts. I'm wondering why we chose to split Winter Park into three Congressional districts.

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Actually, you're wrong. Winter Park is kept whole in this map.

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. From what I can tell, Winter Park is split between; well I don't have a number on this, the district currently represented by Congresswoman Adams and now Congressman Webster. So, is Winter Park not split there between those two cities?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Winter Park is not split, that is right.

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. Then why split the city of Orlando into that district, Congressional District 10, with that arm all the way over there?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Well, there's two things going on there, of course. First, you have the minority-majority District 5 which comes through into Orange County which District 10 is adjacent to,

but you also have District 9 which is a Hispanic opportunity seat in District 9 and if you didn't have it drawn the way it is currently drawn, if this district did not go into Osceola County, you would be a below 40 percent V.A.P. Hispanic district. So, to truly give a Hispanic district, in what is a very compact seat, to give a Hispanic a true opportunity to win that district, this allowed it to get over 40 percent.

Speaker Cannon: Representative Randolph.

Rep. Randolph: Thank you, Mr. Speaker. So, then, it's your position then that the downtown Orlando area, which is right next to Winter Park, that the downtown Orlando area has more in common with Umatilla in Lake County than it does in Winter Park, right next to it? Why not move that district over there which is much more compact than an arm and a district that stretches all the way to Fruitland Park and Umatilla?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. There was actually an amendment that was voted on in this chamber that actually would have allowed us—to allow us—to consider communities of interest on the Constitution. It would have been at the same standard as all the other standards that we're abiding by, but that is not the law. It did not go through so, communities of interest are something we look at, but it is a sub-standard to tier one, which is to make sure that there is no political intent, and to make sure there is no diminishment. It is a sub-standard to compactness to geographic boundaries, to city lines, to county lines. So, this map, I think, is the best reflection of all those standards. And particularly, it was important to Senator Gaetz that that Hispanic opportunity seat got over the 40 percent threshold.

Speaker Cannon: Representative Randolph, for a question.

Rep. Randolph: Thank you, Mr. Speaker. So, then, you had no other data before you, or no other proposed map, or nobody submitted anything that would have put, that would have taken that arm out and put that in a more compact district with either the district that includes Winter Park or the district to the east?

Speaker Cannon: Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Representative, one thing I've come to learn in this process, I came into this as a neophyte when it came to redistricting, and I've learned quite a bit. One thing that I've learned that I think is extremely important and I think is relative to this case is that there is more than one way to draw a compliant map. So, I'm not going to sit here and tell you that there's not another way we could reconfigure this part of the state and it would not also be compliant. However, in working with our partners in the Senate and making sure that we have communities that have an opportunity to vote for a candidate of their choice in District 5, to try to have an opportunity district at District 9, to try to keep District 10 as compact as we possibly can and factor in all the standards that we have to abide by, this is what we came up with. I think it's extremely compliant. I think it follows the standards of the law. I think it follows the Voting Rights Act, and for that reason, that is the map that is before you today.

Speaker Cannon: Further questions? Any questions?

Speaker Cannon: All right, members, as before, if there is debate, please coordinate through your respective leaders. We're moving into debate. Is there any debate on the amendment? This is debate on the amendment. Going once. Seeing none, Representative Weatherford, you are recognized to close on your amendment. And we will do a quorum call when you're done, Representative Weatherford.

Rep. Weatherford: Thank you, Mr. Speaker. Members, I, again, ask that you support the House's proposal. In this case, it's a proposed Congressional map. The amendment would reduce the county splits from 30 to 21. This amendment would reduce the city splits from 110 to 27. Every time I hear

that statistic, I think that's overwhelming. I mean, the fact that our staff was able to reduce from 110 to 27, I think, is overwhelming. This Congressional map improves the compactness of Florida's Congressional map in all the various ways we've looked at compactness—geographic measurements, functional compactness, measurements, use of county boundaries. And frankly, when you look at the map, it just looks better—cosmetically.

I said this earlier, but I'm going to say it again because I think it's important for the record to state this—the old district that went from Palm Beach to Charlotte County that didn't look so good—gone. The district that went from Duval County to Leon County that didn't look so good—gone. The old district that went from Marion County to Osceola County—doesn't exist. The arm from a district that used to come through Martin County to Fort Pierce—gone. The district that went from Winter Park all the way to Ponte Vedra—gone. And yet, and yet, while making the districts compact and more adherent to the county and city lines, we maintained the strength and the diversity of Florida's Congressional delegation. I think that's something we should be proud of. As such, I would ask everyone to please support this bill—this amendment.

Speaker Cannon: All right, members, before we vote on the amendment we're gonna have a quorum call. The Clerk—this is a quorum call, quorum call preceding the vote. The Clerk will unlock the machine and then members will record their presence. Quorum call.

The absence of a quorum was suggested. A quorum was present [Session Vote Sequence 661] (as previously shown in the *Journal* of Thursday, February 2, 2012, page 438).

Speaker Cannon: The question now recurs on the adoption of the amendment. The Clerk will unlock the machine and the members will proceed to vote. Have all members voted? Have all members voted?

Amendment 1 [Amendment Bar Code: 832579] was adopted (as previously shown in the *Journal* of Thursday, February 2, 2012, pages 438-439).

Speaker Cannon: Show that bill rolled over for third reading. Read the next bill.

Speaker Cannon: All right, members please—we're moving into reapportionment bills. Read the next bill.

CS for SJR 1176 was read the third time by title on Friday, February 3, 2012 (as previously shown in today's *Journal*).

Speaker Cannon: Representative Nehr is recognized to explain the bill.

Rep. Nehr: Thank you, Mr. Speaker. Members, CS for SJR 1176 is the proposed State Senate and House maps that we discussed yesterday. That is the bill, Mr. Speaker.

Speaker Cannon: All right. Members, yesterday we had a pending question that Representative Weatherford is prepared to answer. Representative Weatherford, I want to recognize you to answer Representative Waldman's question from yesterday.

Rep. Weatherford: Thank you very much, Mr. Speaker. Representative Waldman, I apologize. Yesterday, you asked a very good question and I did not have the answer in front of me. It took a little bit of time to get the data, but in order that we give you correct data, I thought we'd give it today before we go into debate. Just to remind the membership, Representative Waldman asked which minority districts in the proposed State House map had an increase in their voting age population as compared to the House map drawn in 2002. So, I'm going to give you a list of those and the numbers that correlate to them.

The first one was District 20, formerly District 23, which is located in Alachua County and Marion County. It went from 30.94 percent African-American V.A.P. to 31.20 percent African-American V.A.P., which is voting

age population. District 62, formerly District 58, is a Section 5 protected district and a very compact district in Hillsborough County, went from 49.82 percent Hispanic voting age population to 51.89 percent Hispanic voting age population.

District 94, formerly known as District 93, in Broward County, went from 50.94 percent black voting age population to 54.56 black voting population and also became, significantly, more compact.

District 101, formerly District 105, is a Broward County seat. It went from 34.05 percent black V.A.P. to 36.37 black V.A.P., and frankly, it's probably one of the most compact districts on the entire map. It looks almost exactly like a brick. The increase in black V.A.P. just coincides with the more compact design.

District 108, also formerly known as District 108, in Miami-Dade County, went from 57.97 percent black V.A.P. to a 62.88 percent black V.A.P. This is now the only African-American district in the whole map with a greater than 60 percent black voting age population. Formerly, there were three districts like that as the map was drawn in 2002. This district also, significantly, is more compact than the existing district.

District 109, formerly known as District 109, in Miami-Dade County went from 49.53 percent black voting age population to 50.63 percent black voting age population. This district makes much better use of roadways and geographic boundaries than its predecessor in part due to a public request from the Mayor, El Portal—I hope I'm saying that right—Portal?—Portel?—Portal? Thank you.

In terms of Miami-Dade Hispanic districts, they are so dramatically different in the way that they were drawn from 2002. We didn't feel that we could bring an accurate characterization of those districts as being predecessors of others throughout the county. So, that is the answer to your question, Representative Waldman. I hope that it answers it. Thank you.

Speaker Cannon: Thank you, Representative, Speaker-designate Weatherford. Are there amendments on the desk?

Reading Clerk: None on the desk, Mr. Speaker.

Speaker Cannon: All right, members, as a reminder, if you wish to be recognized to speak in debate, please notify your respective leaders. We're now going to move into debate. Representative Baxley—not here—Representative Eisnagle, you're recognized in debate.

Rep. Eisnagle: Thank you, Mr. Speaker. I rise today to simply address a point that came up, an allegation that came up in committee, as I recall, in some of the interrogation yesterday, that somehow politics had anything to do with the map before us today. And I felt like, that I had to stand up and simply note, as probably everybody in this room, if we're being honest, knows that is simply, patently absurd. Members, I'm sure everybody in this room has seen the news articles and the blogs that lay out what is happening in the House map, and the newspaper accounts that show, that list, the nearly a third of the members in this Chamber are paired with another member in this current map. I think that's obvious. I think we all know about that. And it's Republicans, it's Democrats, it's freshman members, committee chairmen, it's across the board. It's well documented. But members, I'm here to tell you as a member who is paired with a friend in this House map—that's what should have happened. If you do this the right way, that is what will happen, because when you follow the law, when you follow the legal standards that we have in our State Constitution and under Federal law, the results don't take into account individuals. They just don't. The results have nothing to do with what I want, or what you want, or what any of us want. They have to do with cities, counties, voting rights, State and Federal law. It's plain and simple. And so I stand here today, as one of those members paired up with another member, drawn into the same district as another member and I'm here to tell you that these maps are done right. This is exactly the result that we should have, because we followed the law and I am personally proud of the job the

committee's done and Chairman Weatherford has done, and I am proud to support this bill today.

Speaker Cannon: Representative Thurston, in debate.

Rep. Thurston: Thank you, thank you, Mr. Speaker. Members, we have a unique and historic opportunity, and the public and the nation is watching. Never before have we had this opportunity. But we have an opportunity to make a difference here in the State of Florida and to get this done the right way. Florida voters in the last election demanded by over 63 percent that we do redistricting different. They asked for fair districts, members. They want fair districts, overwhelmingly. Because these maps have clearly been drawn in violation of those two requirements, I will not be able to vote for these maps. I did not serve on the Redistricting Committee, even though I wanted to, but I have—this will be my first time having an opportunity to speak on these maps. I, like Representative Eisnagle, also teamed up with one of the incumbents. I appreciate the work that was done by Representative Weatherford and the time that he put in on these maps. The staff—certainly, although I'm not taking a shot at the staff—I think that Alex Kelly, Jeff Silver, Jeff Takacs, and Jason Poreda really put some awesome time in this—and the committee who traveled across the state. Although, I will not be advocating these maps, I think that we certainly owe them a debt of gratitude. They went to a number of hearings, they went across the state, and they had that listening tour.

What are my concerns? First, the House map is, unquestionably, intended to give Republicans a two-to-one advantage on Election Day. This is not what our voters asked us to come and do. They asked us to create fair districts. We have an opportunity. And you may say, well, what is 'fair district'? But we don't have to take my word or listen to what I say fair districts are. We can just listen to the justices of the 11th Circuit when they say what a fair district is. The provision seeks to maximize electoral possibilities by leveling the playing field. These maps don't level the playing field, members. But that's not—those are not my words, those are the words of the court.

Secondly, I really don't know the basis of these maps. Although I wasn't on the committee, I served and I went to a number of the hearings. I saw the maps that were prepared. When I look at the maps that we are voting on, those are not the maps. So, I don't know what happened between the community submitting a map and the maps that we have that appear here today. I know there were a lot of suggestions by members. There was some suggestion of nesting the three House seats into a Senate seat. There were all types of suggestions that doesn't appear here. So I don't know what happened between what was happening on the listening tour and what we have here.

Thirdly, members, I think that the sight unseen agreement between the Senate and the House—for us to just accept the Senate map was terrible, terrible agreement that we made. We agree in essence to advocate our responsibility to the Senate. And what did we get? The most incumbent protection maps that I've ever seen. A pig in a poke. That's what the Senate sent us. And we've already agreed that we're going to accept that. And when I say we, members, we didn't agree to it back here. We weren't in the room when that was happening. But that's an abdication of our responsibility. And if they would have gave us a—clearly, we didn't know that that's what they were sending, I would agree with that, but having agreed to it, now we're stuck with it.

Members, we heard some great details yesterday about the maps and we saw a great presentation. But what did we not see, members? What is it that was missing on yesterday? I'll tell you what was missing—the indication of the partisan performance of the districts. That's what's missing. The partisan performance of the districts tells you that Amendments 5 and 6 have not been applied to these maps. And how do we get there? We get there by starting with a presumption that we have to go along with what was done in 1992 and 2002. And how do we know that? And what was done? I think it's unquestionable back in '92 and 2002, there was packing of minority districts. And what would that lead to? That would lead to bleaching of the districts that are surrounding

those districts. And why are we saying we have to maintain that? Well, we're saying, well, the Voting Rights Act requires that. So, we're starting with that presumption. That presumption leads us to the same problem that we have that we had before. Clearly, if you're going to maintain that and not look at the voting patterns, not look at the fact that we could—we do not have to have 80 members, 80 percent minorities in a district to elect a representative. Representative Gwyn Clarke-Reed can establish that by her current district. Representative Joe Gibbons can establish that. We don't have to have 80 percent minority in a district to elect a representative of our choice.

You know, there was a discussion the other day about architects and Representative Rouson say, well, why are you so interested in helping the architects? They didn't come and ask for your help. That seems to be a pattern. The union members didn't ask for your help. The Black Caucus members voted with a redistricting over 63 percent. We voted 90 percent. Ninety percent—we want fair districts. Just give us a fair district. We'll run and we'll win. We're not asking for 90 percent members to be packed in a district.

We, like the people of the state of Florida, want to see a change. We want to see it done right. They're counting on us. We have a unique opportunity. The whole nation is watching what we do. I can assure you, you're going to see other Amendments 5 and 6 across the nation, because they're watching. It's not just that you're in charge and therefore you're seeking to increase your political clout. When the Democrats was in charge, we did the same thing. But, the people are saying that's not what they want, Republicans, Independents alike. They're saying do the districts fair. Let's be fair about it. Let's have 50/50, if that's what the state's make-up is. Members, we can do better than this. Members, the people of the state of Florida deserve better than this, but more importantly, the Constitution requires us to do this—and I urge you to vote no on these maps. Thank you. [applause]

Speaker Cannon: Representative Baxley, you are recognized in debate.

Rep. Baxley: Thank you, Mr. Speaker. The first thing, it's great to rise in support of this great resolution and to be a part of this process of delivering this product. Even in addition to the great support, we owe the staff members who worked so diligently—our leader, Will Weatherford, really led us in the right direction. And it's also a comfort, as I hear testimony and debate, that I'm not the only one moving. I hope it'll help the housing market in Florida, what we're doing here today. But, in fact, I see very little protection for anybody, but instead a great adherence to where we're headed.

I did a little math—I was actually here when we did the map last time. And I did some contrast on how our adherence to this emphasis on abiding by things like county boundaries after the adoption of Amendments 5 and 6 and here's what I found. The State House map drawn 10 years ago, when I was here, created 59 districts that were entirely located within the boundaries of a single county. The proposed State House map that we vote on before us today creates 86 districts that would be entirely located within the boundaries of a single county. Folks, greater than two-thirds of the members in this Chamber would serve only a single county. Now, that's what I heard as we travel the state and listened to the people. A very common theme everywhere we go, from both sides of the isle, from all different groups was—we want to be closer, we want somebody from our county or our community. And clearly, clearly as much as possible, we have abided by that desire and that input from these public meetings all summer and we have, looking at that map, done a great deal to bring representation locally home, back to the home county.

Floridians want legislators who are closer to home that they can feel connected to. Well, those numbers that I just shared are pretty convincing evidence that we followed the law, we listened to the people, and I'm happy to support this great bill. Thank you, sir.

Speaker Cannon: In debate. Representative Nuñez, in debate.

Rep. Nuñez: Thank you, Mr. Speaker. Members, I have two levels of appreciation for these maps. First of all, I think it absolutely adheres to the requirements of the law in ensuring and preserving the opportunity for people to elect the candidates of their choice, particularly in Miami-Dade County.

Secondly, I don't think there is anyone in this Chamber that can logically dispute that these maps are absolutely more compact. I also think that there is a general misperception about what a minority district is and that's unfortunate. But these maps here, they are a game changer and I can assure you whether your concern is voting rights or whether your concern is compact districts, that this map gets it right on both counts and for those reasons, members, I am proud to support these maps. Thank you.

Speaker Cannon: Representative Fresen. I'm sorry, Representative Wood, in debate. You are recognized, Representative Wood.

Rep. Wood: Thank you, Mr. Speaker. Members, as I look around this great Chamber at all my fellow Representatives and how we all are so different, how we reflect the diversity of this great state that we live in. How my district can send a member of Cuban ancestry, named John Wood—it's a great day to be here and to participate in this process. And, thank God, that as in our state we have a division of labor so, we have a division of labor in this House. I chose not to be involved in the redistricting process. I did not serve on the committees, I did not attend one meeting around the state. I left that to the members that chose to be part of that process. And so, my first awareness of this process has been yesterday and I sat and I listened, very carefully, to the presentation of Chair Weatherford, to the comments around the Chamber from both sides, and I'm approaching this on the representations that were made in this Chamber that this has been a, strictly, apolitical process and for that I want to thank the process for listening to the people of my great county—imperial Polk County. My county commission passed a resolution asking that the State House map have five districts that represent their county and I'm happy to see that we have five districts—four of which are entirely or almost entirely within the boundaries of my county. And for that, I want to express that gratitude for listening to the input of the people of my county.

At the same time, I want point out that the Senate map reduces the voice of the people of Polk County. And you know what? I'm OK with that because it was an apolitical process and that's what we are here to do, is to listen to the will of the people of Florida, to pass their districts based on an apolitical process. And for that, I plan to support the bill. Thank you for your attention.

Speaker Cannon: Representative Fresen, in debate. Representative Fresen, you're recognized.

Rep. Fresen: Thank you, Mr. Speaker. I want to just briefly address—and I'll emphasize briefly—certain points that were made yesterday that I think were a little bit flawed. I think it's impossible for me to articulate or better explain how it is that our maps and our process and certainly the work that our chairs and our vice chairs and co-chairs and staff did on these maps, so I'll just be brief.

But, there was one statement that was made several times that, I think, had a fundamental flaw in the line of questioning and that had to do with the purported, intentional intent that was suggested by some members in the back row that somehow the minority populations were intentionally reduced. Now, this is what is called voter dilution, members, and while voter dilution has always been federally prohibited, it is now also prohibited by State law. And what I can tell you is this, to purposely dilute a district, a minority district which is close to our heart—and just to dovetail off of Representative Nuñez's point—to dilute a minority district is to take a district that is currently at 40, or 45 percent, or 50 and reduce that down to a further point.

Nothing in these maps could be further from the truth. The notion that a State House district's minority voting population be intentionally diluted flies in the face of the process that happened here and certainly flies in the face of what is reflected by the maps that we'll be voting on today. I'm happy to vote for the State House map because it does not follow that line of thinking.

Rather, this map follows the letter of the State law, of the Federal law, and preserves the minority access that we have not only in Miami-Dade, but all throughout the state of Florida, to have the opportunity to elect minorities and to have the opportunity to elect those that we would like to vote in. So, what I would say to you members is look at the maps, look at the process, and you can see that suggestion, that assertion, could not be further from the truth. And for that reason, I ask you to support these maps.

Speaker Cannon: In debate. Representative Taylor, in debate.

Rep. Taylor: Mr. Speaker, it's the next bill.

Speaker Cannon: Ah, OK. Representative Soto, in debate.

Rep. Soto: Thank you, Mr. Speaker. You know, members, we often rank a lot of things in this House. Whether it be teachers, whether it be insurance companies, so I wanted to give you my top ten concerns about redistricting this year.

Concern number ten is that this Chamber attempted to pass Amendment 7 to undermine Amendments 5 and 6. My ninth concern is that it took an Appellate Court loss for this House to stop its lawsuit against...

Speaker Cannon: Hey, members, take your seats. Excuse me, Representative Soto, just one moment. Members, please give Representative Soto your full attention. Take your conversations to the bubble. Keep the center aisle clear. Representative Soto, you may continue.

Rep. Soto: Thank you, Mr. Speaker. My ninth concern is that it took an Appellate Court loss for this House to stop its lawsuit against Amendment 6. Concern number eight is that there are no returning incumbents that were displaced in the State Senate maps. My seventh concern is that a Congressional district sneaking from Jacksonville to Orlando does not comply with Amendment 6. Concern number six is that certain members, by admission, yesterday, had information early on in the process, before the maps were drawn. My fifth concern is that we had a listening tour, prior to constructing maps, but no tour after they were drawn. Concern number four that many of these maps appear to favor one political party over another, by wide margins and numerous districts. Concern number three, seeing members explain to ethnic minority members the importance of complying with the Voting Rights Act. Concern number two, that the changes to the maps between the House and the Senate were agreed to without conference and without amendments. And my number one concern in this whole process is that the no diminishment clause is being used to undermine the entire fair district amendment process. As a result, I believe, strongly, that these maps will not survive scrutiny at the Florida Supreme Court or upon Federal review.

Speaker Cannon: Further debate. Representative Frishe, in debate.

Rep. Frishe: Thank you, Mr. Speaker. Members, I'd like us to reflect a little bit on some of the comments from yesterday, and there was one in particular. It was a very misleading question being asked about districts that were 70 percent similar to districts from the 2002 State House map and I'd like to review some of those facts.

District 6 in Bay County is a district that is greater than 70 percent similar to a district drawn 10 years ago. It's a district that's entirely within the boundaries of Bay County and includes multiple whole cities and is clearly, if you look at it, it's very compact. District 8 and the Big Bend is a district that is greater than 70 percent similar to a district drawn 10 years ago. It's a majority-minority district that includes the entirety of Gadsden County. District 9 in Leon County is a district that is greater than 70 percent similar to a district drawn 10 years ago. It's a district entirely and very compactly included within the boundaries of Leon County. District 20 in Alachua and Marion counties is a district that is greater than 70 percent similar to a district drawn 10 years ago. It's a district that historically elects African-American candidates. It was redrawn to do exactly the same thing, as the Federal law requires, while it also includes seven whole cities. District 23 in Marion County is a district that is greater than 70 percent similar to a district drawn

10 years ago. It is a district that looks like a square and is entirely located in Marion County.

District 34 and 35 in Citrus and Hernando counties are districts that are greater than 70 percent similar to districts drawn 10 years ago. But again, there's a catch. They are the entirety of Citrus and Hernando counties. District 38 is a district that is greater than 70 percent similar to a district drawn 10 years ago. But again, there's a catch, it's practically the shape of a square drawn entirely in a single county. District 41 in Polk County is a district that is greater than 70 percent similar to a district drawn 10 years ago. But again, there's a catch. It's a very compact district located entirely in Polk County with six whole cities contained in the district.

Now I'm not going to go through 120 districts, like we had to yesterday, because I think you get the point. The point being in most of these districts we're talking about either minority districts or districts that were drawn very compactly within the borders of a single county. Frankly, if by your questions you are suggesting that we shouldn't draw compact districts that follow county lines, you are actually suggesting that we gerrymander. Members, that is not the path that this Chamber should be willing to go down. Furthermore, these percentages are also misleading because if a district was overpopulated and had to shrink in size it is highly likely to include a significant portion of a previous district. With that, members, I am very proud to support this bill and these maps for the State House. Thank you, Mr. Speaker.

Speaker Cannon: Representative Corcoran, in debate. You are recognized.

Rep. Corcoran: Thank you, Mr. Speaker. First and foremost, I just want to compliment Speaker-designate Weatherford. I actually—even though I'm not a veteran or a retread, I actually was a staffer in '90, and in 2002 I was outside counsel. So, I've been through several redistricting processes. Never has it been this open, and transparent, and fair. And your adherence to Amendment 5 and 6 is exemplary and I just want to thank you for that as now, a member.

But I want to address—yesterday we heard a lot of comments about 'packing,' and I just want to clarify what that term means. It's not some ethereal term that we pull out of thin air. It's something that finds itself in a litany of case law regarding the Voting Rights Act. And you can read any of those cases and it will give you the clear definition of what packing is. And it's simply this: it's when you have two neighboring majority-minority districts—you have a majority-minority district, with a neighboring area with more minority population and you take that population and you put it in the other district where it's already 50 percent. You take it up to 80 percent and you water down what was left in the other district, so that you cannot have two majority-minority districts when you could have and should have—that's packing. It's that simple. That's the term and that's what it means.

And I will tell you, in the House plan; in no place anywhere in the state does it occur. Not one place. You cannot put one single place where it occurs. It does not exist. And really, to suggest that, what you would do by diluting that majority-minority population when you could have drawn another district, what you're really suggesting, is you're saying let's have the Legislature violate the Federal Voting Rights Act. And, furthermore, let's have the Legislature remove any future Federal Voting Rights Act protections that those districts should have.

And so, I would tell you when you're making your final decision here and you're debating just remember this: when the Florida State Conference of the NAACP submitted maps to the Legislature, they didn't take a single majority-minority district below 50 percent. And I would suggest that we do the same. Thank you, Mr. Speaker.

Speaker Cannon: In debate, Representative Weatherford. You are recognized in debate.

Rep. Weatherford: Thank you Mr. Speaker. Before I get into the debate and start talking about some of the points that have been brought forward this

afternoon, I want to really thank the co-chairs of both the Senate and the House committee. The Co-Chair Nehr and Co-Chair Hukill, they did a phenomenal job throughout this process. I really appreciate their leadership. I appreciate the amount of effort and work that you put into this process. And Representative Schenck and Chair Dorworth also worked extremely hard to make sure that the maps that became before this committee, our full committee and then ultimately to the floor—that it was a great product. You did the bulk of the work and I really appreciate the efforts by them. I want, Representative Thurston, I want to thank you for taking the time to thank our staff. I thought that was a classy thing to do. They have worked extremely hard to provide us with as much data and detail as they possibly could—26 meetings around the state. They worked very hard. Thank you for taking the time to recognize them for that.

Our agreement on these maps may start at that point, though. We may have some points of contention that I would like to point out myself. Numerous times today people have brought forth that somehow a political outcome is necessary to dictate a fair map. I don't know where this thought process came from. It's nowhere in the Constitution. I think if the drafters of Amendments 5 and 6 wanted 60 Republicans and 60 Democrats, they would have just stipulated that and put it in the Constitution. But the reason they didn't do that and the way that our Constitution reads, to get a political outcome violates the law. I thought Representative Precourt made a great, did a great job of explaining that, but just let this sink in. To create any type of political outcome, whether it's for fairness reasons or whatnot, violates the letter of the law. So, therefore, we're not going to do it. And we didn't do it. We're not going to engineer anything that will violate the law. We can't tell Democrats to vote for Democrats and we can't tell Republicans to vote for Republicans. Somehow, the thought that we can control the outcome of an election by controlling what the voter registration is in a district is absurd. And I think Representative Precourt talking about the statewide elections of 2010 spoke to that as well. There have been numerous accounts today talking about how the maps have been redrawn according to media records, to have a two-to-one favor for one party over the other. There was an article today in the *Orlando Sentinel* that clearly stated that, in fact, Orlando has gone Democrat. There are now more Democratic districts in Orlando than there were and, under the current map, more than there are Republican. So, somehow, the thought that what you're saying to be true and what the facts are just don't line up.

Somebody brought up the notion of nesting—I think it was Representative Thurston brought up the notion of nesting. Nesting is nowhere in the Constitution. Again, if the framers of Amendments 5 and 6 wanted nesting to be in our Constitution, they would have put it in there, but they didn't. There's a couple problems with nesting. First of all, it can serve to be a vehicle of incumbent protection, which is something that we cannot do. It would be really hard for a House member who is running for a Senate seat, that his seat is entirely encompassed in, to run against someone else who may be just a citizen legislator and wants to run for the Senate. It would also be really hard for someone to defeat a Senator who's running for a House seat that is wholly encompassed within his Senate seat. It could breed incumbent protection and for that reason, I think, that's a good reason why we did not incorporate it. There's also studies that have been done that have shown that by utilizing nesting, you can actually infringe on minority rights. To draw a Senate district first and then say we're going to put all the House maps inside of that district, no matter what the impact is to minorities' ability to vote for a candidate of their choice, that's a problem. So there's a reason we didn't do that.

And lastly, the reason we didn't do it is because there was an amendment in my committee last Friday that would have allowed nesting and everybody voted no—including the members of the minority caucus. So, if you cared that much about nesting, you would have voted yes on the fair map that came from the leak.

Next, people have been talking about the Senate map and making all kinds of accusations about it. Up until yesterday, there had never been an amendment filed by anyone on the committee to make a change to the Senate map. And if people had such great problems with the Senate map, why would

they not bring forth an amendment? And then yesterday, Representative Jenne took it upon himself to file his own amendment, which I commend you for. The problem was, if our map is so flawed, why would you file an amendment and then have everybody in the caucus vote no? So there was an opportunity to improve a map that you said was flawed, which I disagree with, but then in the time when you presented an amendment, you voted no on it. That doesn't make any sense.

Someone talked about 80 percent black V.A.P. districts. I think it was Representative Thurston. There are no 80 percent black V.A.P. districts in this map. There is no packing in this map. In fact, what this map did is it increased minority opportunities. It increased two new Hispanic seats—one in South Florida and Palm Beach County, one in Orange County. It also created a new African-American seat in Orange County. We should be proud of that. The last thing that we would ever want to do is pack and we did not do that—not in any shape or form.

I'm going to tell you what we did do. It's very simple. We started with the Federal law. One person, one vote—the Voting Rights Act, the 14th Amendment of the Constitution. We then went to the tier one standards of Florida's Constitution that prohibited intentional political favoritism. We followed that. It prohibits the ability to diminish a minority's opportunity. We followed that. It said you have to be contiguous. We followed that. Then, there's tier two of Florida's Constitution. It talks about compactness. We followed that—significant improvements over 10 years ago. It talked about equal population. We followed that—significant improvements. Feasible political and geographical boundary lines—we followed that. Less cities and counties were split. That's it. That's all we did. If you want unfair districts, unfair districts would be a February surprise, would be a strike-all on this fall—on this floor—that redraws all the districts. But there was no February surprise. There was no 'gotcha' moment. What we said we would do, we actually did. And in politics, that's rare. Unfair districts are districts that would show political intent. Our maps did not do that. Unfair districts are districts that would dilute minority representation. Our districts did not do that. Unfair districts would disregard cities and counties and geographic boundaries. Our districts did not do that.

If you're voting no simply because an attorney who doesn't—is not a part of this process and a part of this Chamber is telling you to vote no, that's wrong. That should not be the reason you're voting against this amendment. If you're voting against this amendment and this bill, it should be because you actually think there are fundamental flaws in the House or the Senate map. I can respect that. I can respect a decision based on policy. But if the decision is based on politics and you're pushing that red button because an attorney told you should—I can't respect that. So, ladies and gentlemen, I would please ask you to vote for this bill. Thank you very much. [applause]

Speaker Cannon: Further debate? Seeing none, Representative Nehr, you are recognized to close on the bill.

Speaker Cannon: Further debate? Seeing none, Representative Nehr, you are recognized to close on the bill.

Rep. Nehr: Thank you, Mr. Speaker. Members, thank you. In closing, I'd like to walk you, quickly, through analysis of our State House map. You know, Section 2 of the Federal Voting Rights Act provides legal obligations and protection for our state's majority-minority districts and therefore, we've drawn them, consistently, with Section 2 of the Voting Rights Act. In Section 5 of the Voting Rights Act provides legal protections and obligations for minority districts in Collier, Hardy, Hendry, Hillsborough, and Monroe counties and therefore, we've drawn them consistently with that provision in mind. And State law prohibits drawing our districts with a political intent and we have followed the law.

Newspaper accounts of the profound impacts of our State House map point to a drawing of this map without intent. And the reality, members, is that because we have followed both Federal law and our State Constitution, some

of us in this Chamber won't be coming back. And it has nothing to do with term limits.

State law also requires that we not diminish existing opportunities for racial and language minorities and to diminish the likelihood of something means to make it less likely or less able. And that, also, has not occurred in this State House map. In addition, State law requires districts to be contiguous and we've done that in every district on these maps. You know, those that are first tier standards in our state law and the second tier standard in our state that requires equal population, compactness, and where feasible, adherence to political and geographical boundary lines within our districts. And those three things are put on equal footing based on the language in the third paragraph of our new State law.

Members, our population deviation in these maps is only 3.97, well within the ten percent range permitted in case law. And that deviation is directly tied to the effort to use county lines and something that our new state law is on equal footing to equal population. Regarding the compactness of our districts, you can see just by looking at the maps that many of them look like squares and rectangles and the travel time and distance of the districts has been reduced from that of the district drawn 10 years ago. Compared to previous maps, they are more compact based on every perimeter test and width-height test we've looked at and they make significant use of county lines. Once again, we followed the law.

In speaking of better districts, you have to split up 29 counties in the State House map and we drew a map that only splits 30. Only one above the minimum. And we also drew a map that reduce city splits from previous 170, from the map 10 years ago, to just 75. Members, the compliance of our state map is something that we can all be proud of and when this legislation passes this Chamber, Florida will become the national model of how redistricting should be accomplished. These maps conform to all the legalities of Amendment 5. These maps conform to the requirements of the Voting Rights Act. These maps were drawn by the most open, transparent, and bipartisan method in our history. Now, all of you know that we've had dozens of meetings, all the way from the Panhandle to the southernmost part of our state in Key West, and we listened to hundreds of hours of public testimony. We received hundreds and hundreds of suggestions and we received over 170 maps inputted from the public. But most important, we actually used many of those ideas suggested from our citizens when the final maps were drawn.

Members, in a moment, you'll be voting on one of the most important pieces of legislation to come before us in the last 10 years. And with that, I urge each of you to vote "yes" for SJR 1176 and send a clear message that the Florida House rose above the rhetoric and created legally compliant districts. Thank you, Mr. Speaker. [applause]

The absence of a quorum was suggested. A quorum was present [Session Vote Sequence: 669] (as previously shown in today's *Journal* on page 472).

CS for SJR 1176 passed, as amended, and was certified to the Senate [Session Vote Sequence: 670] (as previously shown in today's *Journal* on page 472).

Speaker Cannon: Read the next bill.

CS for SB 1174 was read the third time by title on Friday, February 3, 2012 (as previously shown in today's *Journal*).

Speaker Cannon: Members, as before, if you wish to be recognized to speak in debate, please notify your respective leaders. We're now going to move into debate. I'm going to begin by recognizing Representative Adkins to begin in debate. You are recognized.

Rep Adkins: Thank you, Mr. Speaker. Members, as a resident of Nassau County, I want to say just how much I appreciate and how much I support this Congressional map. The map that was drawn 10 years ago connected my

community right there at Atlantic Beach, or at the Atlantic Ocean, with areas of Tallahassee within one single district. And I know for those of you who were here on June the 20th, when we had that first redistricting committee, you will remember that we had many members of the public who spoke and said, 'please do not have a district that goes all the way from the Atlantic Ocean to Tallahassee.' And so, members, I am glad that we listened to that public input and we're now connected in a much more localized district. What that means for my county is that our representative will be able to spend more time in our community listening to our needs, and that we'll have more time to spend with our representative to hear their vision for our community and for our country. This bill is a major improvement for Northeast Florida and I ask that you support it. Thank you, Mr. Speaker.

Speaker Cannon: Further debate—Representative Caldwell, you are recognized in debate.

Rep Caldwell: Thank you, Mr. Speaker. Members, when people voted in favor of Amendment 6, one of the things they were telling us was to draw compact districts. This can be a difficult task when you're dealing with districts 700,000 people in size. And then you have to achieve the exact ideal population. However, this map demonstrates that it can be done. And in every way possible, the measure of compactness—whether it's geometric measures of compactness, functional compactness scores, or even simple things like how long it takes to drive across the district—this map is dramatically different than the ones that we saw 10 years ago. I remember on several occasions during public meetings, people saying that their vote November 2010 was all about the public input we needed. In terms of creating a more compact map, I think in this bill we've demonstrated that we've achieved compactness. Thank you.

Speaker Cannon: Further Debate? Representative Frishe, in debate.

Representative Frishe: Thank you, Mr. Speaker. Members, I just wanted to highlight one part of this redistricting process that I think really worked, and it's embodied in this Congressional map. When the map came to our redistricting committee, District 14 encompassed greater portions of St. Petersburg and Pinellas County than the bill does now. Numerous constituents in Pinellas County asked for a shift in these maps and that request was accommodated, shifting a greater balance of District 14 into Hillsborough County. Interestingly enough, it better aligned the cities and neighborhoods in Pinellas County as the public had requested, and that shift also resulted in keeping the city of Gulfport whole and better aligning District 14 with the Federal Voting Rights Act. Overall, District 14 is dramatically more compact than its predecessor that was drawn 10 years ago. Members, I think when we can align or marry up the public input with the legal requirements of the law, I think we've done exactly what we were called here to do. And I just want to thank Chair Weatherford and our committee for making that change. I'm very happy to support the Congressional maps and I recommend that the entire body does. Thank you, Mr. Speaker.

Speaker Cannon: Representative Snyder, you are recognized in debate.

Representative Snyder: Thank you, Mr. Speaker. Members, I just want to offer a simple observation about the Congressional district lines that affect my home county in this bill. In the map that was drawn 10 years ago, we were given two Congressional districts—one that is largely based out of Palm Beach and Broward counties with a finger that extended through Martin County, and another that wrapped around that district going from Palm Beach County all the way to Charlotte County. The bill before us has a compact district with the entirety of Martin County, St. Lucie County, and southern Palm Beach County in the map. This is a dramatic improvement and I think it will be a dramatic improvement for my county and our neighboring counties. And so I would therefore urge everyone to support this bill and vote for it. Thank you very much. Thank you, Mr. Speaker.

Speaker Cannon: Very well. Representative Taylor, in debate. Representative Taylor.

Rep. Taylor: Thank you, Mr. Speaker. And I want to thank you for something else, Mr. Speaker. You appointed me to this Congressional subcommittee, and I want to thank you for that opportunity. I took my appointment just like all the others that you've appointed me to—very, very seriously. One of the things that I wanted to report to you, and I believe this entire chamber could agree on, is that at every meeting and at every stop, the Sergeant's staff and staff was always there prepared and on time to do what you've asked them to do. And for that, I believe they deserve a round of applause. [applause]

Now, Mr. Speaker, we went to these meetings. We drove mile after mile. We sat through numerous hearings getting information from the public, asking them what they thought their maps should look like. And often, at every meeting, people would ask, 'Where are the maps? Where are the maps?' You are asking us to give you input on something that they cannot see. We didn't give them a map. You didn't show them anything, but you asked them for their input and they did give you that. Now, at no time, Mr. Speaker, did anyone say that they would not be back with the final product, giving the opportunity to the people to see what was developed by all of their ideas. You didn't take it back to them. You didn't show them your final product. This is an important element. They were shortchanged the opportunity for them to make their comments, and their suggestions, and their recommendations on what it is that was actually produced. Now, it was often said that they had that opportunity to look at it on emails, or to comment on emails, or to look at it on the website, but we didn't ask them to do that when we were visiting their locations. You didn't ask them to do that, only. We could have done that in the very beginning and saved a lot of money and then took the map back out to them, but you didn't do it. Now, there are some theories, there are some people who believe that you just didn't want to do it. And I have my own belief, Mr. Speaker. I have my own belief and my belief is this: the reason why you didn't go back is because you knew that the people would not like these maps. And for that reason I'm urging you to vote no.

Speaker Cannon: Further debate? Representative Corcoran in debate.

Rep. Corcoran: Thank you, Mr. Speaker. Members, earlier when we were talking about the House map and there was discussion of an excellent point that was raised about the realities of these maps—the issue is political intent. When you hear all the stories in the media, even from the likes of Rush Limbaugh, in the blogs and so forth, the inconvenient realities of what happens when you draw more compact districts that adhere to our city and county lines, you have this outcry. And it makes it clear that there was no political intent involved. And the fact is that the potential impacts of these maps have affected Republicans and Democrats. Several of these proposed districts are very different from their predecessors. The reality of this proposed Congressional map is that it was drawn with the legal standards in mind and it was drawn without the intent of political favoritism. And for this reason I ask you to support the Congressional map.

Speaker Cannon: Further debate? Representative Bileca, you are recognized in debate.

Rep. Bileca: Thank you, Mr. Speaker. What caught my attention was the map's attention to the city re-boundaries. The final product before us keeps 384 of Florida's 411 cities whole. Ten years ago the legislature drew a map that split 110 cities. This bill splits only 27 cities. That's a dynamic shift in the way people will be represented. And that's enough proof that this chamber listened to the public, that the law was followed, and that everyone in here should support this good bill.

Speaker Cannon: Further debate? Further debate? Representative Weatherford, you're recognized in debate.

Rep. Weatherford: Thank you, Mr. Speaker. Members, I'm going to be very brief on this one. I know you all are probably tired of seeing my face and hearing my voice so, I'll be brief. I do want to take a moment to thank, again, the co-chairs who worked extremely hard on this—to Chair Legg and Chair Holder, you guys did a tremendous job and I want to thank you for your

efforts. And I know you're going to get to close, but Representative Legg you really have done a wonderful job here. And again, you all did the lion's share of the work that got before the committee, and so, we appreciate that.

I also want to say thanks to Senator Gaetz. Senator Gaetz and I worked very closely. Historically, the train wreck of redistricting usually comes into play during the Congressional map. And the fact of the matter is that we were able to work out a way to not only negotiate a map that we could agree on, but in doing so, reduce the amount of county splits, and the city splits, and make it a more compliant map, legally speaking. So, with that, I ask that you support this map. I think it's a good one and I think it's a good opportunity for us to show future legislatures how to draw a Congressional map. Thank you.

Speaker Cannon: Further debate? Seeing none, Representative Legg is recognized to close on the bill.

Rep. Legg: Thank you, Mr. Speaker. Before I get into the end of the close, I just want to take a minute to say thank you to a couple of folks. First is Chair Holder and Chair Horner for all their hard work traveling around the state, but I'd also like to say thank you to Representative Taylor and the other Democrats in our committee for your hard work in that committee process too—spending time with us, and asking questions, and being involved in the process, and trying to work alongside of us.

There's three points I want to make here at the close. And the very first one is, I think, a very important point and that is—what did we do? We followed the plain language of the Constitution. We've heard that phrase several times, and what do I mean by the 'plain language of the Constitution?' The plain language of the Constitution said, where possible, to leave cities and counties whole. If you look at this map, 27 cities are remained whole compared to 110, 10 years ago. That's an 80 percent decrease. That is, simply, following the law. If you look, we kept 46 counties whole.

Members, the other part that I think is getting in the crossfire of politics quite a bit, is this phrase that is simple language that is in the Constitution that says do not diminish. You know, when the proponents and the groups out there were advocating for this Constitutional amendment and they were asked, 'what does the phrase do not diminish mean?' they said it means 'do not diminish.' They kept over and over and over saying that it means 'do not diminish.' Now all of a sudden, when we're drawing the maps, the words 'do not diminish' to them means something different—it means 34, 35. They're putting some numbers on it outside this Chamber, trying to stick a number to it, and their story has changed. What they told the voters when they were advocating for it versus what they are saying now is two different stories. Members, that simply is not acceptable. When the voters said, where they were given this amendment, and they said 'do not diminish' means 'do not diminish,' I believe that's what the voters meant, and that's what they passed.

The second issue I wanted to bring to your attention is that never before, never before, I believe, in the history of the United States and, for sure, the state of Florida has so much public input and public comment went into creating the map. Each and every one of you should be commended for that. We went 26 plus cities to hear public comments. Over a hundred maps were produced. Never before has so much went into public comment have went into creating these maps. That is where staff started. That is how staff generated these maps—adhering to the Constitution and listening to the public. That is where these maps were generated from.

The final thing that I want to bring to your attention that often gets overlooked, and I want to put this in perspective and really drive this home, whether it was 10 years ago, 20 years ago, 30 years ago, 40 years ago—in this process it is very, very difficult to separate politics of personal ambition, to separate politics from policy. Many of you may not know this, and maybe some of you know—I know Representative Corcoran does—when the redistricting process comes around, it is anything—anything, from what Representative Schenck has said, but boring. Without a doubt, redistricting is one of the most explosive, controversial, gut-wrenching processes that tears chambers apart whether you're Democrat, whether you're Republican, no

matter what, it rips it to shreds and usually, usually it comes because of the presiding officer. Because they have some personal ambition, because they want to extract some sort of revenge or they want to cajole or influence members. I will tell you that this Chamber has a lot to be proud of. It was a boring process. And why was it boring? Because it was transparent, it was well organized, there was no January or February surprises, and—more importantly, more importantly—because we had a Speaker who asked us to do one thing. It wasn't for him, it wasn't for some one of his buddies, it was one simple thing and it was for the people of Florida. He told Chair Weatherford, he told myself, one thing: follow the law. Follow the law. That's all you do. Follow the law. You follow the law and we will have good maps.

Members, I am proud to be a House member. We did not have the excitement that other chambers have had. We have not had the excitement of decades past. And you know why we haven't had that excitement? Because it started from our presiding officer making sure, making sure, that it was clear and simple that we followed the Constitution. We adhered to the law. We did it in a transparent process, that it was well organized, that everyone had a seat to speak and to debate and to do what was right. Members, you may not vote for this bill, but I will tell you what—I am proud to be a member of the Florida House because I've never seen in my, this is the third redistricting process that I've watched. I've never seen a process where it has been so open, and so organized, and there have been no surprises. And, Mr. Speaker, with that, I want to say thank you for setting the tone and allowing me to be proud to be a House member. And with that, members, I would ask every one of you to support this great map. [applause]

Speaker Cannon: Members, before we vote, let's do a quorum call. The Clerk will unlock the machine and the members will record their presence. Recording their presence for a quorum call. Have all members recorded their presence? Quorum call members, quorum call. The Clerk will lock the machine and announce the presence of a quorum.

Reading Clerk: One hundred seventeen members voting, a quorum is present, Mr. Speaker. [Session Vote Sequence: 671] (as previously shown in today's *Journal* on page 472).

CS for SB 1174 passed, as amended, and was certified to the Senate [Session Vote Sequence: 672] (as previously shown in today's *Journal* on page 473).

Speaker Cannon: So the bill passes. [applause] Members, I'd like to ask you all to take your seats for a moment because what we have just done is historic and truly rare. And I want to allow Chair Weatherford a moment of personal privilege because—and I want to say some remarks about you, sir, and your team in a moment—but I wanted to first recognize and thank you and allow you a moment to thank your team and say a few words. So, Representative Weatherford.

Rep. Weatherford: Thank you very much, Mr. Speaker, and I'm going to be brief. I know that this has been a long two-day process. Actually, it's been about a long nine-month process, but Speaker, you are the tip of our spear and the—I talked a lot over the last 48 hours about how proud I am of the Florida House. You've given me that honor to chair this committee. It's been a challenging task, and when you told me I was going to chair it you were laughing at the same time. I wasn't sure why, but now I understand. But truthfully, the tone that you set for this Chamber—not only on this issue but throughout last session and this session, particularly on something as complicated and historically what has been a political process, but it's not this year, starts with you. And to have the faith that you put in me and into our chairs and our co-chairs, I just want to thank you for being the great leader that you are for this Chamber. Thank you, Speaker. [applause]

I know we've mentioned some of the names and Representative Thurston mentioned them again, but I've asked our staff to come out on the floor, and our staff has had no personal life for about the last year. They have, literally, been married to their jobs here. I know all of your wives, and kids, and girlfriends, and boyfriends, and everything else are looking forward to

actually seeing you again. But, to Alex Kelly, and Jeff Takacs, and Jason Poreda, and Jeff Silver, Ben Fairbrother, Katie Crofoot, I think I said Jeff Silver. I call them—it's the army of six that we have over there. And the amount of work, the amount of sheer work that came out of these six people—I've never seen anything like it in my life, and I'm just proud that we've had a chance to work with you. We thank you for the honor that you've bestowed upon us by dedicating yourselves to a process that is extremely complicated, but also, you did such a thorough job of making sure that everyone had a voice, that we did follow the law, and everything we did today would not have been possible without you. So, thank you all for everything you've done. [applause]

And, Mr. Speaker, also, just last but certainly not least, there are some other organizations who really contributed to this journey that we've been on. The Sergeant's Office—Sergeant, thank you for everything you did. All 26 trips around the state, you and your staff did just a phenomenal job. Our House Office of Public Information, making sure that the information was out to the membership and to the media. The House Administration, putting everything together that it took. The Florida Channel, who partnered with us for the first time and televised every single presentation we had around the state, thank you. And to the Speaker's Office, and everyone, this has just been such a team effort, Mr. Speaker. Thank you for dedicating the resources and the time that you did to make sure that this was done right. But, thank you for the personal privilege. Thank you all that we mentioned for making this a good process and a fair process, and with that, I'm very grateful to have chaired such a wonderful committee. Thank you. [applause]

Speaker Cannon: Chairman Weatherford, I want to thank some of the same people. I want to begin and end with you, sir. As I watched yesterday in questions and answers, and today as you and your team and your leadership of this process for the House, it reminded me that although much has been made of the fact that redistricting is a once-in-a-decade event, we need to celebrate the once-in-a-decade effort that has gone into this process—led by you and fulfilled and carried out by those you mentioned.

I will admit to more than a little disappointment in those members who, in their desire to turn this conversation into a partisan conflict, have failed to acknowledge what should be so clear to anyone without an agenda. And that is that this redistricting process, in this House, has been a triumph for this House and for the Constitution that I love so much and that we all took an oath to uphold. The process we undertook was without precedence. It started over two years ago. During the census data collection phase, the House developed a website to serve as a point of coordination for the entire state. And for the first time, I think, in any state, in any process, allowed Floridians to report homes or neighborhoods that were missed by the census. We published the general historical, public historical references on redistricting, recommendations on how to effectively participate in the process, and the population data.

Rather than simply buying a commercial product off the shelf for software, we designed, developed, and custom built—in-house—MyDistrictBuilder™, which is our very own internet-based redistricting tool that gave not only every member, but frankly, every single Floridian access to map drawing technology. Not only did we have a record shattering number of public submissions—177—but over two-thirds of those submissions came in through MyDistrictBuilder™.

And we didn't just build the tools, we then actively engaged the public. We developed and pushed public service announcements to increase awareness of the process, we pushed out the social media, alternative media, and as a result, our public hearings exceeded all expectations—and I know there were a lot of them, and I know that you all put a lot of miles on your cars and a lot of hours on your calendars to do that. We had over 5,000 attendees, cumulatively, and over 1,600 speakers at meetings held throughout the entire state. None of that would have been possible without the extraordinary effort, dedication, and skill of our staff. And, guys, I'm going to recognize you again—that's got to begin with Alex Kelly, the staff director of Redistricting Committee.

Alex's tireless dedication, your incredible diligence, creativity, and machine-like command of even the most minute details or piece of data are apparent to anybody who dealt with you. And that he has all of those qualities and also manages to be one of the most honest, sincere, hardworking, and enthusiastic people I know is a testament to your character and a credit to this House. So, we thank you, Alex. [applause]

You're team, the rest of the gang of six, Chairman Weatherford, deputy staff director Jeff Takacs, Jason Poreda, Jeff Silver, Ben Fairbrother, and Katie Crofoot—everyone who worked with you said to me, 'Wow, your team is responsive. Your team is diligent. Your team takes their job very seriously.' And I think one of the reasons that I would put the House staff up against any other team around is that you all, and I think our whole House staff, demonstrated a gift for teamwork that is often missing from government and that makes us very proud.

For that reason, as you mentioned, Chair Weatherford, I also want to thank Erin Rock and her team at the Office of Public Information, who traveled the state and took the House's public outreach to new levels.

Sergeant Sumner, you and your staff always, always represent us, no matter where we are—in what city, on the Floor, or in Tallahassee—with efficiency, courtesy, and professionalism.

Scott McPherson and the House IT team for their assistance in pushing the technology envelope, as we did.

And I'd also want to join you all in thanking and acknowledging the work of Beth Switzer and the Florida Channel for being such enthusiastic partners in our public outreach effort. [applause]

We set out this process and my charge to Chair Weatherford and to the other chairs was to fulfill a single goal, which is to fulfill our constitutional duty to the best of our ability and to honor and respect the rule of law. We established a careful, thoughtful, and deliberative process, and despite all the pressure to rush or cut corners, we never did. We followed our rules, we respected the process. And the maps and the quality of the product reflects it.

I remember, curiously, the first time our maps were made public in the House, and there were members in this Chamber who claimed that these

maps could not possibly be the real maps. I don't know if you remember that, Chair Weatherford, that there was no way the Republican majority would put forward maps that had members in the same districts. The not so subtle insinuation, frankly, being that there was no way that the Republican majority in this House would follow the law. And I cannot tell you—I cannot tell you how proud I am to say that those members were wrong. The maps drawn by this house were done so in full compliance with the requirements of our State Constitution and Federal and State law, and this Chamber honored that obligation and that oath that we all took, the voters, and, frankly, to the Constitution to uphold it.

I want to thank each and every House member who, having had an exhaustive 2011 session, then spent their summer and fall traveling the state attending the meetings. I know that was a lot of work. Our team leaders on redistricting demonstrated exemplary leadership qualities and total dedication to the task, and so, I want to recognize and specifically thank the co-chairs of the Congressional Redistricting Subcommittee, John Legg and Doug Holder, and Vice Chair Mike Horner. I want to recognize the co-chairs of the House Redistricting Committee, Rob Schenck and Chris Dorworth, and the co-chairs of the Senate Redistricting Committee, Dorothy Hukill, and Peter Nehr, and Vice Chair Ritch Workman, and also Vice Chair Jim Frishe of the House Committee, and our overall Redistricting Committee chair, Representative Precourt. All of you led with grace, and with strength, and with dignity. And you represented us well.

And most of all, I want to thank you, Will. Chairman of our Redistricting Committee and my long-time friend, Will Weatherford, who's our Speaker-designate. You have conducted yourself with integrity, with clarity, with good humor and thoughtfulness, and a lot of grace through what was, without a doubt, not only the most complex, but the most difficult reapportionment because of the burden that you had to bear. You truly have validated the faith and confidence that your fellow members have placed in you to lead this Chamber and you've represented us all very, very well. You set an example, frankly, that all of us should emulate. And so, to you, to the chairs, to the team, to all the people I have mentioned, I want to say well done, and you've made us all very, very proud. Thank you. [applause]

Motion to Adjourn

Rep. Weatherford moved that the House, after receiving reports, adjourn for the purpose of holding committee and subcommittee meetings and conducting other House business, to reconvene at 10:45 a.m., Wednesday, February 8, 2012, or upon call of the Chair. The motion was agreed to.

House Resolutions Adopted by Publication

At the request of Rep. Patronis—

HR 9041—A resolution designating February 7, 2012, as "F.S.U. Day" in the State of Florida.

WHEREAS, the Tallahassee campus of Florida State University is the oldest continuous site of higher education in Florida and chartered the state's first chapter of Phi Beta Kappa, the nation's oldest academic honor society, in 1935, and

WHEREAS, in 1994, Florida State University joined an elite group of the country's top research universities, being designated as a "Research I" institution by the Carnegie Foundation, and

WHEREAS, the university offers graduate and undergraduate degrees in 324 programs within 16 independent colleges and schools, taught by 2,306 faculty members, including 12 National Academy of Sciences members and six Nobel Laureates, and

WHEREAS, the freshman class entering Florida State University in the fall of 2011 was one of the most academically accomplished freshman classes in the university's history, with an average high school grade point average of 3.9, an average SAT score of 1850, and an average composite ACT score of 27, and

WHEREAS, Florida State University is the headquarters of the National High Magnetic Field Laboratory, which designs, builds, and operates the world's most powerful research magnets, attracting more than 700 scientists from across the globe to explore new frontiers of science and engineering, and

WHEREAS, as part of its efforts to become the most veteran-friendly campus in the United States, Florida State University opened the Florida

State Veterans Center, which serves as the focal point for all campus veteran resources, including academic advising, orientation and transition programming, personal and rehabilitative support services, and assistance with veteran educational benefits and certification, and

WHEREAS, the Florida State University College of Medicine's statewide clinical research network, which strives to improve health care outcomes across the state, includes more than 1,900 Florida physicians and 3 million patients, and many of the college's graduates practicing in Florida provide primary care services, including in underserved and needy communities, and

WHEREAS, through its longstanding tradition of promoting racial, ethnic, and cultural diversity, the outstanding academic achievements of its students, the invaluable contributions made by its award-winning faculty, and the remarkable accomplishments of its alumni, Florida State University has distinguished itself as an outstanding institution of higher education, NOW, THEREFORE,

Be It Resolved by the House of Representatives of the State of Florida:

That February 7, 2012, is designated as "F.S.U. Day" in the State of Florida.

BE IT FURTHER RESOLVED that a copy of this resolution be presented to Dr. Eric Barron, President of Florida State University, as a tangible token of the sentiments expressed herein.

—was read and adopted by publication pursuant to Rule 10.17.

Excused

Rep. Fullwood until 4:08 p.m.; Reps. Kreegel, Sands

Adjourned

Pursuant to the motion previously agreed to, the House adjourned at 4:21 p.m., to reconvene at 10:45 a.m., Wednesday, February 8, 2012, or upon call of the Chair.

2 REPRESENTATIVE WEATHERFORD: Okay,
3 members, we have a long day ahead of us.
4 Let's go ahead and get this thing started, if
5 we could, everybody grab a seat.

6 This is an official Joint Select Committee
7 meeting, and so what I am going to do is ask
8 for the administrative assistant to call the
9 roll.

10 THE CLERK: Senator Margolis.

11 SENATOR MARGOLIS: Here.

12 THE CLERK: Benacquisto.

13 SENATOR BENACQUISTO: Here.

14 THE CLERK: Brannon?

15 SENATOR BRANNON: Here.

16 THE CLERK: Bullard?

17 SENATOR BULLARD: Here.

18 THE CLERK: Dean.

19 SENATOR DEAN: Here.

20 THE CLERK: Detert.

21 SENATOR DETERT: Here.

22 THE CLERK: Diaz de la Portilla?

23 SENATOR DIAZ DE LA PORTILLA: Here.

24 THE CLERK: Evers.

25 SENATOR EVERS: Here.

1 THE CLERK: Florez.
2 SENATOR FLORES: Here.
3 THE CLERK: Garcia.
4 REPRESENTATIVE GARCIA: Here.
5 THE CLERK: Gardiner.
6 SENATOR GARDINER: Here.
7 THE CLERK: Hays.
8 SENATOR HAYS: Here.
9 THE CLERK: Bogdanoff.
10 SENATOR BOGDANOFF: Here.
11 THE CLERK: Lynn.
12 SENATOR LYNN: Here.
13 THE CLERK: Montford.
14 SENATOR MONTFORD: Here.
15 THE CLERK: Negron.
16 SENATOR NEGRON: Here.
17 THE CLERK: Rich.
18 SENATOR RICH: Here.
19 THE CLERK: Sachs.
20 SENATOR SACHS: Here.
21 THE CLERK: Siplin.
22 SENATOR SIPLIN: Here.
23 THE CLERK: Sobel.
24 SENATOR SOBEL: Here.
25 THE CLERK: Storms.

1 SENATOR STORMS: Here.
2 THE CLERK: Thrasher.
3 SENATOR THRASHER: Here.
4 THE CLERK: Chairman Gaetz.
5 SENATOR GAETZ: Here.
6 THE CLERK: Representatives, Atkins.
7 REPRESENTATIVE ADKINS: Here.
8 THE CLERK: Bernard.
9 REPRESENTATIVE BERNARD: Here.
10 THE CLERK: Chestnut.
11 REPRESENTATIVE CHESTNUT: Here.
12 THE CLERK: Dorworth.
13 REPRESENTATIVE DORWORTH: Here.
14 THE CLERK: Eisgnaugle.
15 REPRESENTATIVE EISGNAUGLE: Here.
16 THE CLERK: Fresen.
17 REPRESENTATIVE FRESEN: Here.
18 THE CLERK: Frishe.
19 REPRESENTATIVE FRISHE: Here.
20 THE CLERK: Holder.
21 REPRESENTATIVE HOLDER: Here.
22 THE CLERK: Horner.
23 REPRESENTATIVE HORNER: Here.
24 THE CLERK: Hukill.
25 REPRESENTATIVE HUKILL: Here.

1 THE CLERK: Jenne.
2 REPRESENTATIVE JENNE: Here.
3 THE CLERK: Jones.
4 REPRESENTATIVE JONES: Here.
5 THE CLERK: Kiar.
6 REPRESENTATIVE KIAR: Here.
7 THE CLERK: Legg.
8 REPRESENTATIVE LEGG: Here.
9 THE CLERK: Nehr.
10 REPRESENTATIVE NEHR: Here.
11 THE CLERK: Precourt.
12 REPRESENTATIVE PRECOURT: Here.
13 THE CLERK: Rogers.?
14 REPRESENTATIVE ROGERS: Here.
15 THE CLERK: Rouson.
16 REPRESENTATIVE ROUSON: Here.
17 THE CLERK: Schenck.
18 REPRESENTATIVE SCHENCK: Here.
19 THE CLERK: Workman.
20 REPRESENTATIVE WORKMAN: Here.
21 THE CLERK: Chairman Weatherford.
22 REPRESENTATIVE WEATHERFORD: Here. I
23 believe we have a quorum. Mr. Taylor was here.
24 We will mark you present, Mr. Taylor.
25 Members, thank you so much for being here.

1 Before we get started on kind of the meat and
2 potatoes of this meeting, first of all, I want
3 to thank everyone for taking the time to be
4 here this morning.

5 I know we were up late last night. There
6 is a lot to get achieved today, but there are
7 two people that both myself and Chairman Gaetz
8 wanted to make sure that were here and were a
9 part of this historic day, which is to kind of
10 kick off the joint meetings we will be having
11 across the state.

12 And the first person I wanted you to hear
13 from is no stranger to this Chamber. He is the
14 person who has allowed me to serve as Chair,
15 Redistricting in the Florida House and has been
16 a tremendous leader for the Florida House and
17 for the state over the last 60 days and that is
18 Speaker Dean Cannon. Speaker.

19 SPEAKER CANNON: Thank you. Welcome to
20 President Haridopolos, Chairman Gaetz and the
21 other Senators on the committee, and obviously
22 to Speaker Designate Weatherford and our House
23 members, welcome on day 60.

24 Thank you for taking time on what will
25 otherwise promise to be a fairly intense day,

1 but the Lord willing, the last day of session,
 2 and I know that Chairman Weatherford and
 3 Chairman Gaetz have some information that they
 4 want to share with the committees in a moment
 5 regarding our summer meetings on redistricting.

6 But I wanted to take the opportunity to
 7 reiterate a basic point which we have
 8 emphasized and which I know Chair Weatherford
 9 is going to emphasize as you begin the public
 10 outreach phase of the reapportionment process,
 11 and that is this.

12 This process will only be successful if we
 13 let the public start the conversation about the
 14 communities of interest and the districts and
 15 where these lines are ultimately drawn.

16 And your task this summer will be much
 17 more about listening than talking, which for
 18 those of us in public office is sometimes hard.
 19 I am guilty of that, and it is about
 20 understanding the feedback you get in context
 21 of the geography and the demography of the
 22 areas you go and visit.

23 And then use the wisdom of the public,
 24 engage them, seek their input. They may be
 25 reluctant, but draw it out of them because that

1 is very important, and give it your full
2 commitment.

3 This happens once in a decade, it is a
4 special process. We have a constitutional
5 obligation to do this right, and as Chair
6 Weatherford has outlined, and as President
7 Haridopolos and I may have made our task and
8 our charge to you, to make it the most open,
9 transparent and publicly participatory
10 reapportionment process in Florida's history,
11 and I know you will do that.

12 Be ready for the public meetings. Tend to
13 take a lot of notes and keep a lot of good
14 information so that when we return to
15 Tallahassee for our interim committee meetings
16 we can incorporate that into our work.

17 And I would ask you also, and I know this
18 is going to be difficult, particularly given
19 the importance of complying with our
20 Constitution and our laws and the Federal
21 Voting Rights Act.

22 I take very seriously your thoughtfulness
23 in putting your political aspirations aside as
24 you make legally appropriate decisions in the
25 upcoming redistricting process.

1 Please remember in doing this right is our
2 task, it is our charge, and it is our
3 constitutional legal obligation.

4 Thank you very much. I want to introduce
5 someone now without whom we would not be
6 adjourning today, and we would have not gotten
7 as many successful Bills passed, that is my
8 good friend, Mike Haridopolos, Mr. Haridopolos
9 -- hold on, President Haridopolos, I saw the
10 jump, that is good hold.

11 President Haridopolos has exercised
12 leadership along with me over what is the
13 toughest budget year in modern history, and
14 there is men and women in this Chamber who have
15 been a lot longer than he or I, and he has been
16 here longer than I have.

17 But his friendship, Mr. President, your
18 leadership, your courage in the face of a very
19 brutal session has helped make us in the
20 position now to land the plane, and I just want
21 to say thank you, and I want you to all join me
22 in welcoming Senate President Mike Haridopolos.

23 SENATOR HARIDOPOLOS: Thank you. Thank
24 you very much. It is also great to be in the
25 Florida House with my friends, especially my

1 good friend, Dean Cannon.

2 I am glad this is our final morning, and I
3 wasn't sure on Monday night if it would be. So
4 we are grateful to be here as always, and an
5 exciting time for everyone to get home with
6 their friends and family, and most importantly,
7 to report back to the people of Florida that we
8 have a balanced budget with no new taxes, and
9 reforming huge programs. So with the work of
10 Senator Negron, Representative Schenck and
11 others on Medicaid, on pension, and, of course,
12 already on education.

13 So it has been I think a remarkable
14 session. I am grateful for the hard work that
15 everybody member, not only here, but across the
16 Capitol today has put in, just this morning
17 working with Attorney General Bondi. We were
18 able to work out some issues with pill mills,
19 so that was a very good success and we
20 appreciate it very much.

21 But today is also a special day. We have
22 prided ourselves on the idea of transparency,
23 making this the most open Florida government
24 ever.

25 And there is a few veterans in the room

1 who were actually here back in 2002, who drew
2 those lines, which today, of course, you
3 occupy.

4 But starting this summer we are going to
5 be embarking on a new mission, making sure this
6 is the most open transparent system ever. Ten
7 years ago when we last worked on
8 reapportionment, we literally had to have a CD
9 ROM in order to work the system.

10 Now it is available online for all
11 Floridians to participate and make sure they
12 have that opportunity, and with the leadership
13 of Chairman Gaetz and Chairman Weatherford who
14 will be traveling across the state of Florida,
15 to listen to people before we create the
16 policies that will change the lines in the
17 state of Florida, given the challenges that are
18 before us with Amendments 5 and 6.

19 And so I am excited today to participate
20 in this endeavor in making sure that we give
21 citizens the direct say, literally the ability
22 to send in their plans so that we can draw the
23 lines that best reflect the communities that we
24 all represent.

25 And so with that I just want to say thank

1 you very much for this opportunity to be here,
2 and let's turn it back over to Chairman
3 Weatherford, and proceed to what I think will
4 be a thoughtful, methodical, open, transparent
5 system and make sure when we draw the lines
6 next year that will be done with the best
7 interest of all Floridians in mind.

8 Thank you very much.

9 REPRESENTATIVE WEATHERFORD: Thank you
10 very much, Mr. President, and thank you for
11 being here this morning.

12 Before I turn it over to my partner,
13 Chairman Gaetz, there is a few comments I would
14 I like to make.

15 The first is just to reiterate what has
16 been said by the Senate President and the
17 Speaker, that our goal is to make this the most
18 transparent and open process it has ever been,
19 and not just in Florida, but across the
20 country.

21 We want this to be a model for
22 reapportionment and redistricting in the
23 nation, and I think we can do that, and that is
24 the leadership and that is what we have been
25 given from our presiding officers.

1 In front of every member who is on the
2 Redistricting Committee, you should have a
3 packet in front of you.

4 That packet basically breaks down the
5 meetings and the hearings that we have planned
6 out thus far.

7 In the very first slide or the second
8 slide, I should say, in the meetings that will
9 start right here in Tallahassee. That will be
10 the very first meeting. We will then be moving
11 on to Milton, Florida, Ft. Walton and Panama
12 City.

13 Looking at slide three, if you turn it
14 over, you will see a second round of meetings,
15 starting in mid-July, with meetings in
16 Jacksonville, St. Augustine, Daytona Beach, The
17 Villages, and finally in Gainesville.

18 If you turn to slide four you will see a
19 general outline for the third, fourth and fifth
20 weeks of meetings in central Florida, southeast
21 Florida, and southwest Florida.

22 Our staff is currently working with Senate
23 staff to nail down the exact locations of
24 those, but we have dates that I want to be very
25 direct in telling you are tentative.

1 There certainly could be changes in the
2 last two dates that we have set forth, but we
3 wanted to give you as much certainty as we
4 possibly could, but those dates are tentative.

5 We hope that those will be the final
6 dates. You will know that very, very quickly,
7 and we hope to have locations, specific
8 locations for each and every one of you in the
9 very near future.

10 With that being said, this is going to be
11 a fun process, and as I tell my House members,
12 if you look to your right and you look to your
13 left and you see the Senator sitting next to
14 you, get to know them, because you will be on a
15 long tour with them for the next four or five
16 months, and it is going to be a good time,
17 but it is a very serious time.

18 And the charge that we have to redraw
19 these seats is very important to the future of
20 the state of Florida.

21 It is going to define what the map is
22 going to look like for our state for the next
23 decade and we take it very seriously and I know
24 you do as well.

25 But I am most excited about the fact that

1 I am going to get to work with my partner in
2 this process, and that is Chairman Gaetz, and
3 Chairman Gaetz has been a personal friend of
4 mine for many years.

5 He is a tremendous leader in the Senate.
6 He takes this process very seriously as well,
7 and I have just enjoyed our friendship growing
8 over the years, Chairman, and I look forward to
9 working with you to make sure that this process
10 is the best it has ever been, not only in
11 Florida, but across the United States of
12 America. Chairman.

13 SENATOR GAETZ: Thank you very much,
14 Speaker Designate and Mr. Speaker,
15 Mr. President, thank you for being with us this
16 morning.

17 I am privileged to work with Will
18 Weatherford in this process. As he indicated,
19 we have developed a close friendship, one that
20 I think will deepen as we work together in this
21 process.

22 This is a once in a decade responsibility
23 that we take very, very seriously. Florida has
24 been honored and recognized nationally for the
25 accuracy and professionalism of our

1 reapportionment and redistricting process.

2 And this year, as President Haridopolos
3 and Speaker Cannon has said, we intend to take
4 it a step further.

5 We have already placed on the Internet all
6 of the demographic data gathered by the Bureau
7 of the Census and relevant to our redistricting
8 process. That is on the Internet.

9 And now today, President Haridopolos has
10 thrown the switch, along with Speaker Cannon so
11 that 19 million Floridians will also have
12 access to the same software in redistricting
13 that all of us will have access to.

14 That means 19 million Floridians can
15 actually draw maps, can submit their proposals
16 and can be online, hard wired auditors of what
17 we do.

18 This has never happened before in Florida.
19 This has never happened before in America, and
20 we look forward to this kind of an interactive
21 process.

22 But as the Speaker Designate had
23 indicated, between June 20th and September 1st,
24 we will hold a series of 26 public hearings
25 across the state of Florida.

1 Our mission, as Speaker Cannon indicated,
2 is not to talk, but to listen. That will be
3 hard for some of us, especially hard for me,
4 although I am losing my voice and at least half
5 of the Senate is deeply grateful.

6 But when somebody asks you what you have
7 done on your summer vacation, you will really
8 have a story to tell them, because you will
9 have been able to hear the views and meet the
10 faces and understand the concerns of Floridians
11 all over the state.

12 The Speaker Designate and I would urge you
13 to urge your constituents to attend these
14 public hearings. This is one where the losers
15 are the ones who don't show up. The winners
16 are the ones who suit up and share their views,
17 share their concerns.

18 So please, through your e-mails, through
19 your reports, through your Town Hall meetings
20 after the session, encourage your constituents
21 to come to these public meetings and to express
22 their concerns and how they believe lines
23 should be drawn to benefit their communities,
24 and to be accurate and to reflect the realities
25 of their communities.

1 I would point out to my Senate colleagues
2 that we have broken the Senate Reapportionment
3 Committee into hearing groups.

4 And so there is a handout that all of you
5 ha have in front of you. You will see which
6 hearing groups you are a member of, and each
7 Senator is being asked to attend two hearings
8 and also the kick off hearing in Tallahassee
9 which will be on the 20th of June.

10 There we hope to invite groups who have
11 expressed an interest in this process to come
12 and give us their plans so that we will have
13 the opportunity to get the benefit of their
14 wisdom.

15 I also want to thank President Margolis,
16 who is the Senate Vice-Chair who has been
17 through this process before, and her steady
18 hand will help guide us as we move through the
19 process.

20 And Mr. Speaker Designate, that is all of
21 the business that the Senate has. I know you
22 are going to break up into hearing groups as
23 well.

24 The main point here is we are holding a
25 joint series of meetings. This is not the

1 Senate Reapportionment Committee or the House
2 Reapportionment Committee. This is the
3 Legislative Reapportionment Committee.

4 We have been directed by our presiding
5 officers to work together. We will work
6 together, and our goal is to bring home a
7 product that all of you and all of Florida can
8 look at and say it has integrity, it has
9 accuracy and it is effective in accomplishing
10 the Voting Rights Act in carrying out the laws
11 and Constitution of the State of Florida.

12 So thanks, Mr. Speaker D, and I really
13 look forward to spending my summer vacation
14 with you.

15 REPRESENTATIVE WEATHERFORD: I as well, I
16 as well. Members, are there any questions? We
17 have a few questions.

18 Representative Chestnut, you are
19 recognized for a question.

20 REPRESENTATIVE CHESTNUT: Yes, sir, will
21 these meetings be televised or be on the
22 webcast?

23 REPRESENTATIVE WEATHERFORD: That is a
24 freight question. They will be. We are
25 working with the Florida Channel as we speak.

1 Our staffs have been working.

2 We are hoping that they will be able to
3 televisе every single one.

4 There will be at least audio for every
5 meeting, but we hope that the Florida Channel
6 will be able to televisе every single meeting
7 that we have. That is a good question.

8 Representative Bernard.

9 REPRESENTATIVE BERNARD: Week one, I see
10 that we didn't choose Pensacola. Were there
11 any considerations made to including Pensacola?

12 REPRESENTATIVE WEATHERFORD: The question
13 is about whether or not Pensacola was included.

14 The problem we have is obviously we have
15 more than 24 cities across the state of
16 Florida, and so we are trying to include as
17 many as we possibly can.

18 This is the dates and the locations that
19 we came up with in negotiations with the
20 Senate. Members, if you see a city or if you
21 see a location that you feel like should be on
22 this list that is not on this list, I would
23 encourage you to get with the Chairs, both in
24 the House and in the Senate and we will work
25 with you on that.

1 We cannot guarantee you that we can go
2 everywhere, but we certainly want to be
3 accommodating in that light.

4 I don't know, Mr. Chairman, if you have
5 anything to add to that.

6 SENATOR GAETZ: That is one of the thing,
7 that happens to be Senator Evers and my neck of
8 the woods, and we think it is important to make
9 sure that our rural communities have an
10 opportunity to have hearings in their venues.
11 Milton is fairly close to Pensacola.

12 We hope to broadly publicize this hearing
13 in the Pensacola area. I wish we could have
14 one in Pensacola and in Milton, but we also
15 have to bear in mind that there is a whole
16 series of rural communities across north
17 Florida, and those folks need to have at least
18 some opportunity to have us come to their
19 communities.

20 REPRESENTATIVE WEATHERFORD: Any other
21 questions? Representative Cruz, you are
22 recognized.

23 REPRESENTATIVE CRUZ: My question is,
24 first, my comment, and that is thank you very
25 much for creating meetings that are from 6:00

1 to 9:00 p.m. so that we can include the working
2 families.

3 I did see that there are some meetings
4 that only have morning meetings. Is there a
5 chance that they will be adding evening
6 meetings to some of those locations?

7 REPRESENTATIVE WEATHERFORD: The reason
8 that we have some mornings and some evenings,
9 because we will sometimes do two meetings in
10 one day.

11 And so it is kind of, if we did every
12 meeting in the evening we would spend twice as
13 many days out on the road, and we tried to make
14 this as user friendly so to speak for the
15 membership and the members of the Committee,
16 but also for the public.

17 There are some folks who do work at night
18 and would need to come in the mornings. It is
19 a balance, but again, if you have suggestions
20 or any input we would love to hear from you,
21 and if you have any specific areas that you
22 think we should be having hearings in the
23 evening as opposed to the morning, we would
24 love to hear that as well.

25 I know we are running very short on time.

1 I think we have one minute left. If there is
2 any burning questions, please ask them now,
3 otherwise you can get with myself or the
4 Senator and we will work with you, but thank
5 you very much for being a part of this.

6 We look forward to working with you,
7 Mr. Chairman and I think -- Senator Gaetz moves
8 we rise.

9 (Whereupon, the proceedings were
10 concluded.)

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: Good morning, ladies and
3 gentlemen, the Senate Committee on
4 Reapportionment is called to order.

5 Would the Administrative Assistant please
6 call the roll, and will somebody please turn
7 down this PA system which I think they can hear
8 me in Sopchoppy with this.

9 THE CLERK: Senator Gaetz.

10 SENATOR GAETZ: Here.

11 THE CLERK: Senator Margolis.

12 SENATOR MARGOLIS: Here.

13 THE CLERK: Senator Altman. Senator
14 Benacquisto.

15 SENATOR BENACQUISTO: Here.

16 THE CLERK: Senator Braynon.

17 SENATOR BRAYNON: Here.

18 THE CLERK: Senator Bullard. Senator
19 Dean.

20 SENATOR DEAN: Here.

21 THE CLERK: Senator Detert.

22 SENATOR DETERT: Here.

23 THE CLERK: Senator Diaz de la Portilla.

24 SENATOR DE LA PORTILLA: Here.

25 THE CLERK: Senator Evers. Senator

1 Florez. Senator Garcia. Senator Gardiner.
2 SENATIR GARDINER: Here.
3 THE CLERK: Senator Hays.
4 SENATOR HAYS: Here.
5 THE CLERK: Senator Joyner.
6 REPRESENTATIVE JOYNER: Here.
7 THE CLERK: Senator Latvala.
8 SENATOR LATVALA: Here.
9 THE CLERK: Senator Lynn. Senator
10 Montford.
11 SENATOR MONTFORD: Here.
12 THE CLERK: Senator Negron?
13 SENATOR NEGRON: Here.
14 THE CLERK: Senator Rich.
15 SENATOR RICH: Here.
16 THE CLERK: Senator Sachs. Senator
17 Siplin. Senator Sobel.
18 SENATOR SOBEL: Here.
19 THE CLERK: Senator Storms. Senator
20 Thrasher. A quorum is present.
21 SENATOR GAETZ: Thank you very much, madam
22 secretary. Senator Thrasher and Senator Florez
23 have excused absences this morning, and I would
24 like to take a moment of personal privilege
25 before we go forward.

1 From time to time we are reminded that the
2 members of the Legislature have lives outside
3 of this building, and if you will permit me, I
4 would like to read a couple of paragraphs from
5 -- from a release which proves not only that
6 one of our members, our distinguished Minority
7 Leader has a life outside this building, but it
8 is a life of achievement, accomplishment and
9 service.

10 This comes from New York. It is entitled,
11 "The National Council of Jewish Women Solutes
12 Nan Rich at the Israel Benefit Luncheon."

13 It says, "The National Council of Jewish
14 Women will honor its President from 1996 to
15 1999, Senator Nan Rich, at its annual Israel
16 Benefit Luncheon to be held, Tuesday,
17 June 21st, in New York City.

18 Jewish daily Forward Editor, Jan Eisner
19 will deliver the keynote address. The event
20 benefits the National Council of Jewish Women's
21 Israel program which fosters supports
22 education, promotes the empowerment of women
23 and bridges the gaps in society for Israel's
24 vulnerable women, children and families."

25 And here is the salient part of this

1 release, and I quote, "In various posts with
2 the National Council of Jewish Women, in the
3 Florida Legislature and in her community Nan
4 Rich has been fighting for women and children
5 for decades. Nan's contribution towards
6 strengthening the National Council of Jewish
7 Women's work in Israel is enormous and we at
8 the Council are proud to be honoring her at our
9 annual Israel benefit.

10 The National Council of Jewish Women's
11 work in Israel mirrors its work in the United
12 States, advancing women's equality and
13 strengthening the social safety net, ensuring
14 the free exercise of religion.

15 During her presidency, Rich initiated the
16 National Council of Jewish Women's Israel
17 granting program which funds advocacy and
18 service projects in Israel that focus on the
19 needs of women and children of all backgrounds.

20 She developed the National Council of
21 Jewish Women's relationship with Tel Aviv
22 University, which led to the women and gender
23 studies program there, the first of its kind in
24 the Middle East, and she helped establish the
25 National Council of Jewish Women's Israel

1 endowment fund to support its Israel work.

2 Rich also has a long association", of
3 course, all of us know this, "with IPPE, a
4 preschool readiness program for disadvantaged
5 children that originated in Israel.

6 She was instrumental in launching IPPE in
7 the 1980's in Miami-Dade County. Rich is
8 currently the Minority Leader of the Florida
9 Senate, a distinguished Senator and somebody
10 who proves that you can have a life outside
11 this building that adds to this community, that
12 adds to this state, to this country and indeed
13 to the world, Leader Rich.

14 The Chair recognizes the Leader. I caught
15 her unawares. She didn't know I was doing
16 this.

17 SENATOR RICH: Thank you. You got me
18 totally unaware.

19 SENATOR GAETZ: It is fun to catch the
20 Minority Leader unawares.

21 SENATOR RICH: It is really very kind of
22 you. I really appreciate that. I know that we
23 all have lives before and after the Legislature
24 and even during the legislative, our
25 legislative years, and I feel fortunate that I

1 think I have been able to bring the experiences
2 that I had in my years of involvement with the
3 National Council of Jewish Women in those areas
4 that you mentioned to bear in the legislative
5 process, and it is just very kind of you.

6 I appreciate tremendously your recognizing
7 me in this way. Thank you.

8 SENATOR GAETZ: Absolutely. Well, while
9 some of the rest of us were traveling the
10 state, Leader Rich was being honored
11 internationally, but Leader Rich was traveling
12 the state with us as well.

13 Members, when our Committee last met it
14 was on the last day, the 60th day of the
15 regular session, as you will remember.

16 We met in the House Chamber along with our
17 House partners to announce the dates for our
18 summer listening tour for gathering input on
19 how laws, constitutional amendments and court
20 cases related to redistricting should be
21 applied in order to achieve equity and avoid
22 retrogression, protect minority voting rights
23 and meet the needs of communities throughout
24 the state of Florida.

25 During the summer we have been very, very

1 pleased to have two Senators added to our
2 Committee by the President, Senator Joyner and
3 Senator Altman, and I believe Senator Joyner is
4 here. Senator Joyner, good morning, Senator
5 Altman, are you here?

6 SENATOR ALTMAN: I am here, Mr. Chairman.

7 SENATOR GAETZ: Okay, and both of them
8 joined us for portions of our hearings across
9 the state. So thank you for your
10 contributions, and welcome to the Committee.

11 At the time that we last met we were also
12 waiting for a response to the Legislature's
13 request to the Department of Justice for
14 pre-clearance on Amendments 5 and 6.

15 You will recall that pre-clearance means
16 that before any change to an election practice
17 can be implemented, the Justice Department or a
18 Federal court must determine that the change
19 will not result in retrogression or
20 back-sliding in the voting opportunities for
21 racial minorities.

22 The Legislature took the position in its
23 pre-clearance submission that Amendments 5 and
24 6 quote, "Preserve without change the
25 Legislature's prior ability to construct

1 effective minority districts and that in
2 promoting minority voting strength, the
3 Legislature may continue to employ whatever
4 means were previously at its disposal", end
5 quote.

6 I am pleased to say that several weeks
7 after we last met the Justice Department,
8 having reviewed this rationale, pre-cleared the
9 Amendments based upon the rationale that we
10 provided, and I am sure it gives members of
11 this Committee some comfort to know that
12 Amendments 5 and 6 will not be applied in a way
13 that interferes with the Legislature's ability
14 to advance the cause of minority voting rights
15 and representation.

16 Members, you know, because all of you were
17 in our tour, either in whole or in part, that
18 we actively sought out public opinions about
19 how district lines ought to be drawn, and how
20 maps and ideas ought to be applied in order to
21 resolve problems that members of communities
22 and neighborhoods saw.

23 And the maps and the testimony that
24 citizens brought to the table is where we will
25 start our deliberations today.

1 Let me emphasize that. Our commitment,
2 Representative Weatherford's commitment and our
3 commitment here in the Senate is that the maps
4 provided by the public will be the basis for
5 developing any proposals that come from this
6 committee to the Florida Senate.

7 So we will be taking very, very seriously
8 the input that we received and you will see, I
9 hope, I certainly hope that the maps that
10 ultimately come from this Committee will be
11 derived from the input from the testimony that
12 we receive from the public.

13 Of course, we have to remind everybody
14 that our plans must comply with State and
15 Federal law and those legal requirements will
16 limit our choices.

17 You will see as we begin to go through
18 maps and come to consensus or not and express
19 our views on where lines ought to be drawn in
20 particular areas that many members of the
21 public submitting maps may not have appreciated
22 some of the nuances of Federal court decisions,
23 and therefore, we have to deburr or refine or
24 mature some of those good ideas in order to
25 make sure that they will stand in good stead

1 with the courts.

2 For example, we may find ourselves
3 compelled by Section V of the Federal Voting
4 Rights Act or by the mandates of the first tier
5 of Amendments 5 and 6 to draw some districts
6 that aren't as compact as we would otherwise
7 hope, and as those who testified and provided
8 maps would want.

9 Of course, we will consult with legal
10 counsel throughout the process to be, to ensure
11 that plans coming out of this Committee are
12 within the parameters of State and Federal law.

13 Just a few fun facts for you. During the
14 summer we traveled 4,000 miles, to 26 locations
15 across Florida. Our public hearings were
16 attended by nearly 5,000 people, while the
17 Florida Channel was streaming a live video feed
18 on the web that was watched, we believe by
19 thousands more.

20 Members and professional staff heard more
21 than 71 hours of testimony, more than 1,700
22 people testified, and I can say that I had the
23 opportunity to listen to every single one of
24 those testifiers.

25 We heard a lot of good ideas,

1 extraordinary insights into communities and
2 neighborhoods, insights that we couldn't have
3 gotten, wouldn't have gotten if we would have
4 stayed in Tallahassee and just listened to each
5 other even as knowledgeable as all of us are
6 about our own communities.

7 In truth, we also heard from many who
8 objected to our decision to hear testimony
9 prior to developing maps that would be voted
10 out by this Committee.

11 I happen to agree and I think we made this
12 point, Representative Weatherford certainly
13 did, I happen to agree with the principle
14 author of Florida's New Redistricting
15 Standards, the Chairperson of Fair Districts,
16 Ellen Freidin, she told our Committee last year
17 that a map drawn before public hearings are
18 held would not be in her words compliant or
19 appropriate, and therefore taking public
20 testimony before maps was drawn by the
21 Committee was the right thing to do.

22 In addition to all of the testimony we
23 heard, we collected hundreds of written
24 comments and suggestions, and as of this
25 morning the Legislature has received 64 maps

1 from the public, 60 more than were received in
2 the last cycle.

3 So ten years ago when there was a
4 redistricting process underway, there were four
5 maps submitted by the public and we have 64
6 maps submitted by the public to this point, yet
7 we will continue to solicit additional public
8 comments.

9 We will continue to solicit additional
10 publicly drawn maps so that any maps that
11 derive from the work of this Committee can be
12 based upon the input we have received from the
13 public, and then we can mature that input as we
14 go forward over the next several weeks.

15 The increased level of participation, I
16 would point out, is a direct result of how open
17 and accessible our professional staff has made
18 District Builder, which is our on-line
19 application for the creation and submission of
20 redistricting maps.

21 Citizens, as you know, can use the same
22 redistricting software and demographic
23 information used by Legislators and
24 professional staff, and I believe that we have
25 the District Builder table set up outside just

1 as we have had in the 26 public hearings that
2 we have held across the state of Florida.

3 I personally observed how our professional
4 staff has, have assisted hundreds and hundreds
5 of people in using District Builder. In fact,
6 I think that there are several instances that
7 we could name where individuals came to
8 hearings and they might have been a little bit
9 sinical, a little bit frustrated.

10 They wanted to share their ideas, and
11 thanks to our good professional staff and the
12 fine work of our House professional staff,
13 there were individuals were able to literally
14 sit down until real time at the hearings,
15 before the hearings, after the hearings, and
16 with just a few minutes of help, to get on to
17 District Builder, drew their maps or partial
18 maps and were able to submit them right then
19 and there, and then walked away feeling like
20 they really had a piece of this process, and,
21 indeed, they do.

22 In a moment I will recognize John Guthrie
23 who is our professional staff director to show
24 us the plans that we have received. Before I
25 do, I want to take a moment to mention and

1 address some of the common themes that we heard
2 this summer that I hope will implicate the work
3 of this committee very, very directly.

4 First, as I mentioned, we learned
5 information essential to our task by listening
6 to communities that are actually affected by
7 redistricting decisions.

8 Going out on the road and hearing what
9 people have to say about their hometown
10 provided insight we just couldn't have gotten
11 any other way, and I would like to thank those
12 just, and we did this at every hearing, whether
13 they came with their fists clinched and their
14 teeth locked together in distress over one
15 thing or another, or whether they came with a
16 proposal to make, we thanked everyone who
17 participated.

18 It was the most open interactive process
19 in this state's history as we look at
20 redistricting.

21 Now, people have differing opinions as to
22 what constitutes a fair district, and this is
23 where the work of this Committee is going to be
24 so important.

25 At no single hearing did we hear a

1 consensus among those who testified. We heard
2 a lot of people say fair districts, just
3 implement Amendments 5 and 6, but then when we
4 got one more layer into the onion, we found
5 that there were those who testified that they
6 want us to prioritize protection of minority
7 access.

8 Then there were those who said no, no, no,
9 no, no, it is more important that we follow
10 county and city boundaries, and then there were
11 those who said, no, no, no, what is most
12 important is that you don't break up
13 communities of interest.

14 I think, for example, The Villages,
15 Senator Hays, where there are three counties
16 that really are involved in The Villages.

17 The Villages encompass an area of three
18 different counties, and over and over again at
19 The Villages we heard, please try as much as
20 possible to keep us together even though we
21 cross three county lines.

22 And so you can imagine now that the work
23 of this Committee is going to be complicated by
24 the conflicting, but sincerely meant testimony
25 that we heard on the road, that was, whatever

1 you do, avoid retrogression, no, no, whatever
2 you do, use compact lines, city and county
3 boundaries, notwithstanding the fact we had
4 some testifiers who pointed out to us that city
5 boundaries looked like Rorschach blots in many
6 cases in the state, and then there were those
7 who said, no, no, no, communities of interest
8 are more important, and then there were those
9 who said, do it all.

10 Their testimony was, do it all, you know,
11 make us happy in all cases. I am afraid that
12 what will happen is that no matter what we will
13 do, we are not going to be able to please
14 everyone, and we are going to have to make some
15 decisions and those decisions have to be made
16 within the context of the law, or our reading
17 of the law, or the reading of the law that our
18 legal counsel provides to us and that all of us
19 rely upon.

20 The House Redistricting Committee produced
21 a synopsis of public testimony. We have it
22 here. We have it for everybody. This synopsis
23 illustrates the themes and also the conflicts
24 expressed during the hearings.

25 I found it interesting and well-organized

1 and I asked our professional staff to provide
2 copies to each of you. Electronic copies are
3 also available for the press, the public
4 on-line and for the members of our Committee
5 and members of the Senate.

6 But if you look at this I think you will
7 see very vividly the expressions of specific
8 concern by members of the public, but you will
9 also see that there are apparent conflicts and
10 that those are conflicts we are going to have
11 to wrestle with and attempt to resolve.

12 Now, third, there was a strong desire,
13 particularly among Supervisors of Elections, to
14 see this process completed sooner rather than
15 later.

16 As some of you may remember, there has
17 been an exchange of letters between the
18 Majority and the Minority Leader on this
19 matter, and I will yield to the Minority Leader
20 in a moment for any clarification she may want
21 to make.

22 I took her comments at a Miami hearing and
23 we have copies of her comments here for anybody
24 that wishes to read them from the, from the
25 transcript that as a member of the minority she

1 was shut out of the process ten years ago, not
2 really welcomed to offer her ideas, but
3 basically just said, this is the way it is.

4 And so I indicated that we would make time
5 at every hearing to not only ask the Leader,
6 but also ask any other Senator, if you feel
7 like you are shut out of the process, you
8 haven't been given an opportunity to present
9 your ideas, here we are in public. We want you
10 to present your ideas.

11 And one of the things that Leader Rich
12 indicated in her letter back was that her, one
13 of her real concerns is to make sure that this
14 process is, A, transparent and B, that it moves
15 in a timely fashion, and to that end we have
16 accelerated the process as much as we feel we
17 legally can, and in a moment I will indicate to
18 you that I believe through conversations
19 between myself and Chairman Weatherford, we
20 have come to a potential schedule that is
21 aggressive, and I hope will begin at least in
22 some ways to respond to Leader Rich's very
23 valid concerns.

24 But just so that you know, we have moved
25 the beginning of session from March to January.

1 The beginning of these interim Committee
2 meetings from December to September. Here we
3 are in September, two months and-a-half earlier
4 than we would usually meet.

5 District Builder has been available to the
6 public and to every member of this Committee
7 and every member of the Legislature throughout
8 the summer.

9 Some of you will recall the meetings that
10 we held where Mr. Guthrie and members of his
11 staff gave us their time to make sure we all
12 understood how to use District Builder, and I
13 know at the time that some of us sort of glazed
14 over and said, well, gee, are we really going
15 to use this? Do we really need to know this?

16 Now is the time when all of that
17 information and all of that tutoring really,
18 really comes to the fore. And we have
19 completed our listening tour, a full four
20 months before the Florida Constitution even
21 permits us to adopt a redistricting plan for
22 state legislative districts.

23 We are very well ahead of the schedule
24 compared to ten years ago when I wasn't here,
25 most of us weren't here, but Leader Rich makes,

1 I think some very good points about how the
2 process, if I take her comments to be correct,
3 if I properly interpret her comments, how the
4 process was more closed ten years ago.

5 And Leader, I would like to first tell you
6 that if I took your comments made at the Miami
7 hearing in any way that, different from how you
8 meant them, let me apologize to you publicly.

9 I took the comments to mean that you were
10 shut out as a member of the Minority, people
11 weren't interested in your point of view, you
12 were just shown a Feta Compli, and my
13 commitment to you is that that would not happen
14 this time, and I would, I would recognize you
15 for any comments you may wish to make and any
16 correction of my characterization of your
17 comments that you may wish to add. Leader
18 Rich.

19 SENATOR RICH: Thank you, Mr. Chair, and I
20 appreciate your comments. I believe the one
21 place where we probably diverged in what I
22 believe I had said was, I focused on the fact
23 that the process last time was not transparent
24 and that maps appeared.

25 I can speak for myself and many of my

1 colleagues who felt the same way, and there is
2 a difference between the Majority and the
3 Minority and I have received a letter saying
4 that I had mischaracterized the process last
5 time.

6 Well, I didn't mischaracterize it from the
7 point of view of the Minority Party and I know
8 that you are working very hard to reverse that,
9 and to see that that doesn't happen, and just
10 your comments this morning and the number of
11 maps that have been submitted show that
12 obviously the process more people are involved
13 and I think everyone here on both sides of the
14 aisle feels that they are involved in this
15 process.

16 And my comments were directed specifically
17 at that lack of transparency, not in the sense
18 of, you know, me or anyone specifically wishing
19 to present, you know, necessarily a map. So
20 that was the only place where I just had wanted
21 to clarify that, and, you know, we are all
22 here, we feel part of this Committee.

23 Vice Chair, our own Senator Margolis, and
24 so we are here to work. We are here to work in
25 the Sunshine, and to dispel kind of the idea

1 out there that this might be similar to the
2 process ten years ago, because obviously from
3 what you have said this morning and what we
4 have done so far, the process is dramatically
5 different than the one we participated or
6 didn't participate in last year, ten years ago.

7 Thank you.

8 SENATOR GAETZ: Thank you very much,
9 Leader, and just so that we can put the
10 conversation in proper context and then behind
11 us, recognize the Majority Leader for any
12 comments he might wish to make.

13 SENATOR GARDINER: Thank you,
14 Mr. Chairman, and obviously this is a new day,
15 and I disagree with Leader Rich. I was a
16 member of the Committee.

17 I traveled the state with my colleagues,
18 not to Key West, but all parts of the state
19 throughout. You know, the Bills ten years ago
20 went through the process. We offered up to the
21 Minority Party the opportunity to draw maps.
22 They were voted on in Committee.

23 They were voted on on the floor, and if I
24 remember correctly, passed with Democrat
25 support in many cases. So obviously we can't

1 sit here and attempt to re-write history.

2 It is, you know, the facts are sometimes
3 in the eyes of the beholder and who says them,
4 but Mr. Chairman, I want to thank you for your
5 leadership on this.

6 If you look at the number of public
7 hearings that we have had around the state, and
8 I think John Guthrie can confirm that we are
9 ahead of schedule of where we were ten years
10 ago.

11 The first map that was presented in
12 committee was not until January, ten years ago.
13 It was two days after the map or three days,
14 John can confirm it, that the League of Women
15 Voters put forward a map.

16 So I think that the aggressive timeline
17 that you and Chairman Weatherford have shown
18 shows that this is going to be transparent. It
19 is going to be transparent just like it was ten
20 years ago.

21 It is going to follow the same path and be
22 heard in Committee and voted on and potentially
23 amended as it was ten years ago. So again,
24 there will always be interpretations of what
25 happened ten years ago, but I am very proud of

1 what we accomplished ten years ago and the hard
2 work staff put into it.

3 I am very proud of the direction we are
4 taking this time around, the technology is
5 better. The opportunity is better for the
6 input from the public, and Mr. Chairman, you
7 have embraced that and I appreciate that very
8 much.

9 SENATOR GAETZ: Thank you very much,
10 Leader. Let's get into some very specific
11 areas where we heard testimony and where I hope
12 we would, we would be able to come to consensus
13 and give direction to our professional staff.
14 Let's first talk about VTDs.

15 Supervisors of Elections said that they
16 really wanted the new lines to follow VTD
17 boundaries whenever possible, and they laid
18 out, I think a convincing rationale for why
19 that would be the case.

20 Now, again, sometimes there will be
21 conflicts between following VTDs in 100 percent
22 of cases, and then also following geographic
23 and political boundaries, because rivers don't
24 and highways don't always respect VTDs.

25 Most often they do, but sometimes they

1 don't, and so there will be opportunities here
2 for us to make tough calls, but we heard the
3 message from our Supervisors of Elections
4 loudly and clearly and my request to the
5 Committee is that we use VTDs as the building
6 blocks of any maps that are derived from the
7 public submissions we have had and that would
8 therefore be recommended out of this Committee.

9 Is there any objection to our using VTDs
10 as the primary building block of our maps?

11 All of us have heard the testimony. We
12 certainly can discuss this issue, but I wanted
13 to see if we can give our professional staff a
14 sense of how the Committee, Democrats and
15 Republicans, feel about this issue.

16 Is there anybody who would like to comment
17 on the VTD matter?

18 A VOICE: Right behind you, Mr. Chair.

19 SENATOR GAETZ: Senator Storms. You are
20 recognized.

21 SENATOR STORMS: Thank you, Mr. Chair. I
22 do want to comment on VTDs. I just would like
23 to have some understanding of how, what it is
24 that we mean by using VTDs.

25 In my understanding of how we would use

1 those VTDs, this is the way, when Jay was
2 training me, this is the way I used them.

3 I started first with, with the county as
4 my primary goal, to keep the county in the
5 district lines. So if I was drawing a
6 district, then I tried to keep the whole
7 district within a particular county.

8 Then if there was, if there was a
9 municipality in that city or two, I tried to
10 keep, and I was drawing the district within
11 that county, so what I am trying to talk to you
12 about is prioritizing the VTDs.

13 So then if I am in the county and I have
14 been able to keep that entire county in that
15 district, then I went to the municipality and I
16 tried to keep the entire municipality in the
17 district.

18 If there were multiple municipalities I
19 tried to keep all of the municipalities in the
20 county district, and then if I still needed to
21 take people or move people, I went census block
22 by census block to get me to where I needed to
23 be, but then I used VTDs.

24 So I guess what I am saying for VTDs, is
25 VTDs should be tool of last resort and not the

1 tool of first resort, because, you know, we
2 should keep the political boundaries, to me
3 political boundaries are counties,
4 municipalities, census block, then VTDs in
5 descending order like that.

6 And then the tool of last resort would be
7 the VTDs. If I have to make a break at all, it
8 would be the break on VTDs. Is that an
9 accurate understanding, or is that not the
10 accurate understanding?

11 SENATOR GAETZ: John, you have been
12 working very closely with the Supervisors of
13 Elections. You know what they have requested,
14 why they have requested. Could you respond to
15 Senator Storms's point, please?

16 MR. GUTHRIE: Thank you, Mr. Chairman.
17 Senator Storms, my -- I think you have got the
18 hierarchy almost exactly correct.

19 It is, for building districts, the
20 smartest strategy is start with counties, take
21 a look at cities.

22 SENATOR STORMS: Wait, wait, did you just
23 say I was using the smartest strategy, because
24 you can say that again?

25 MR. GUTHRIE: The -- I believe the next

1 level below municipalities would be VTDs, which
2 is composed of one to several hundred blocks,
3 and you only go to census block as the last
4 resort.

5 So I would make that one clarification on
6 your suggestion of the hierarchy, but what you
7 say is exactly right, and when I and my staff
8 are looking at planned scenarios, the approach
9 that we are going to take is to start with
10 counties, then look at cities, then try to
11 finish out our districts with VTDs, where VTDs
12 just don't make sense because they, and it gets
13 kind of technical here, but because of how they
14 lay down with the Interstate highways, with
15 bays, et cetera.

16 In some cases the Supervisors if given
17 another opportunity would say, well, that VTD
18 really doesn't work for us. So I don't think
19 we want to be dogmatic about using VTDs, but I
20 think we do want to, want to be respectful of
21 that intermediate level of geography that
22 Supervisors of Elections provided for us so
23 that we can help them implement the new
24 districts as efficiently as possible and
25 conduct future elections as efficiently as

1 possible.

2 SENATOR STORMS: Follow up, Mr. Chair?

3 SENATOR GAETZ: Yes, of course, Senator
4 Storms.

5 SENATOR STORMS: So just so that I
6 understand, if there is -- so in 5 and 6, the
7 competition, the tension rather, is between
8 whether it is compact, political boundaries,
9 contiguity and essentially and then not
10 protecting the, you know, incumbents, either
11 protecting or harming them either way.

12 So, but they don't address -- it doesn't
13 really address Voting Rights Act districts. I
14 mean, it gives a nod toward it, but it doesn't
15 really say it.

16 So I guess what I am wondering is, and
17 what I would like to say something on the
18 record, is if there is a competition, if there
19 is a tension between a Voting Rights Act
20 district and a political boundary, how do you
21 make the break in the usage of VTDs?

22 In other words, do you then say, okay,
23 here we have a minority access district, and so
24 because we have a minority access district
25 here, we cannot follow political boundaries and

1 then we are going to just default to VTDs?

2 So you would be less inclined to follow
3 the municipality or the county line and just
4 use the VTD?

5 I am trying to understand, because there
6 will be some municipalities that will be carved
7 up, you know, they won't have a single voice
8 for there, and I know that there is the public
9 testimony that said some people said they only
10 want one, other people said they want 50
11 elected officials representing them, not
12 really, but four was fine with them.

13 So I wonder how, how will it break like
14 that? Which tool will you default to if it is
15 a Voting Rights access seat?

16 SENATOR GAETZ: John?

17 MR. GUTHRIE: Mr. Chairman, thank you. As
18 the Chairman sort of said in his comments
19 previously, the standards in the Florida
20 Constitution are set out in two tiers, and
21 protecting the equal voting opportunities of
22 minorities gets the highest level of priority.

23 And so whatever we need to do in order to
24 not retrogress and in order to preserve
25 opportunities for minority voters in this

1 state, and that was the interpretation that the
2 Legislature took in presenting Amendments 5 and
3 6 to the U.S. Department of Justice for
4 pre-clearance, that we are not going to let
5 worries about compactness or political
6 subdivisions trump the tier one consideration
7 for preserving minority voting rights.

8 SENATOR STORMS: Final follow up, Mr.
9 Chair?

10 SENATOR GAETZ: Sure and then we will go
11 to Senator Latvala.

12 SENATOR STORMS: Yes. So that I am
13 understanding, because I just wanted to be
14 clear on how this is going to work, because the
15 question we are asking is about VTDs, and my
16 understanding about VTDs and merging 5 and 6
17 is, you know, we start first with the political
18 boundaries, political boundaries being county
19 lines.

20 Then next is municipalities if at all
21 possible, then VTDs, then census block, but,
22 but the only overlay that you put over that is
23 the question on every district, is this a
24 minority access seat.

25 If it is a minority access seat, then the

1 filter that you use is how do we keep it from
2 retrogression and in that case, instead of
3 municipality and county line and municipality
4 being the first tool that you use, it may be
5 that you default immediately to the VTD which
6 would be almost a tool of last resort in any
7 other circumstance. Is that accurate?

8 SENATOR GAETZ: Mr. Guthrie.

9 MR. GUTHRIE: I think that is close, yes,
10 that is very close. That is a good statement
11 of where we are.

12 SENATOR STORMS: Okay, thank you.

13 SENATOR GAETZ: Thank you, Senator Storms.
14 Senator Latvala, you are recognized, sir.

15 SENATOR LATVALA: With regard to the
16 second tier of the Constitutional Amendment
17 which would be the political boundaries and
18 compactness, we are not saying that we would
19 let the -- using the VTDs trump that section,
20 are we?

21 SENATOR GAETZ: Mr. Guthrie.

22 MR. GUTHRIE: No, no, there may be a
23 question in some people's minds about whether
24 VTDs are, themselves, political subdivisions.
25 They were drawn by, by the Legislature with

1 cooperation or in partnership with Supervisors
2 of Elections for the purposes of making,
3 running elections as efficient as it could be.

4 And the Supervisors who have been on the
5 ground, you know, putting their ballots
6 together, making their precincts, they know
7 better than anyone what, what makes sense in
8 terms of the political boundaries for election
9 precincts.

10 And so, you know, it is -- but the
11 language that was on the ballot for Amendments
12 5 and 6 did refer to counties and cities as
13 being political subdivisions.

14 So I think there is an expectation among
15 the voters, as Senator Storms was talking
16 about, that cities and counties will be
17 provided higher respect than VTDs for purposes
18 of making districts.

19 SENATOR LATVALA: Mr. Chairman?

20 SENATOR GAETZ: Yes, of course, Senator
21 Latvala.

22 SENATOR LATVALA: With regard to the
23 compactness standard, and particularly in rural
24 areas I if have noticed that using the VTDs
25 tend to produce some weird shapes, you know,

1 there is some jagged triangles that kind of go
2 out to the side where there is not a lot of
3 people and they have tried to connect folks
4 together.

5 So what my question probably relates to
6 using the VTDs with relation to the compactness
7 standard.

8 MR. GUTHRIE: Okay. And on that what I
9 would say is what would be helpful to this
10 Committee is to continue our partnership with
11 Supervisors of Elections through the process,
12 so that if they have input about where the line
13 should be drawn through that rural area, and if
14 the Supervisors recommend an alignment that
15 does not correspond with the VTDs, then it
16 would be very efficient to take that better
17 advice.

18 SENATOR LATVALA: Thank you.

19 SENATOR GAETZ: Thank you, Senator
20 Latvala. Senator Sobel, then Senator Detert.

21 SENATOR SOBEL: Thank you, Mr. Chair, and
22 speaking of the Supervisor of Elections and
23 their input, is there data, current and how do
24 we take into consideration transient
25 populations?

1 SENATOR GAETZ: By transient populations,
2 you mean, for example?

3 SENATOR SOBEL: People move around.

4 SENATOR GAETZ: Migrant workers.

5 SENATOR SOBEL: Okay, yes, migrant
6 workers, but is there --

7 SENATOR GAETZ: Tourists?

8 SENATOR SOBEL: Is there -- is there data
9 current, and --

10 MR. GUTHRIE: That would not be in the
11 Supervisor of Elections' data typically, but it
12 would -- it is in the United States Census,
13 which is the basis for the maps that you will
14 draw.

15 So, and the way the census works is that
16 people's existence is where people live is
17 recorded as of April 1st, 2010. So where you,
18 where your domicile was on that date determines
19 where you are located for purposes of
20 equalizing the population of Florida's
21 Senatorial, State House and Congressional
22 Districts.

23 SENATOR GAETZ: Senator Sobel.

24 SENATOR SOBEL: Thank you, Mr. Chair. So
25 the Supervisors, when they give out any kind of

1 population, they don't give out any kind of
2 population data for the cities or the counties?

3 SENATOR GAETZ: Mr. Guthrie.

4 MR. GUTHRIE: Supervisors keep records of
5 who are the registered voters in a county. And
6 redistricting is going to be based not on who
7 is registered to vote, but on who was counted
8 in the 2010 Census.

9 SENATOR SOBEL: Who was counted, okay.

10 MR. GUTHRIE: And the census made
11 significant efforts to make sure that all of
12 us, including transient or migrant workers were
13 counted. Homeless individuals were counted in
14 that process.

15 SENATOR SOBEL: Thank you.

16 SENATOR GAETZ: Senator Detert, you are
17 recognized.

18 SENATOR DETERT: Thank you, Mr. Chair. I
19 think frankly for any viewing audience and for
20 some members we should explain the acronym,
21 VTD, if you haven't already.

22 SENATOR GAETZ: Mr. Guthrie, can you give
23 us --

24 MR. GUTHRIE: VTD is an official level of
25 census geography just like a track or a block

1 group or a block. It stands for voting
2 tabulation district.

3 In most cases in Florida they are very
4 similar to precincts, but they are not
5 precincts. They aren't controlled by
6 Supervisors of Elections or County Commissions.
7 The VTDs for the 2010 Census were set by us
8 working with, in partnership with Supervisors
9 of Elections prior to the census and they will
10 remain as legal boundaries for the next ten
11 years, until the Supervisors have another
12 opportunity to set them again.

13 The direction that we gave Supervisors
14 was, in recommending these lines or in drawing
15 these lines for the counting of population,
16 let's don't look back at the elections that
17 have occurred over the past ten years, but
18 rather let's look forward to the elections you
19 will need to be conducting in the ten years
20 after redistricting occurs.

21 SENATOR DETERT: And if I can continue.

22 SENATOR GAETZ: Yes, of course, ma'am.

23 SENATOR DETERT: Thank you for that. I
24 think it is important, and I think your
25 previous statements defining the difference

1 between registered voters and census is an
2 important key issue.

3 And I would like to say that when it comes
4 to using that as a component, I agree with
5 Senator Storms that it should come third or
6 fourth. I mean, it is very, maybe more
7 convenient for Supervisors, because as we draw
8 lines and boundaries that are county or city,
9 we could be splitting precincts and it makes it
10 a little bit more difficult for Supervisors to
11 get their ballots correct when, you know, you
12 are splitting precincts.

13 It happened to me, I was left off of
14 several ballots which was probably why I won,
15 because so was my opponent, but, you know, not
16 the best way to go.

17 I think to use VTDs though as your main
18 source, my goal is to have an ordinary citizen
19 look at the map and have confidence in the map,
20 trust in the system and just feel that, you
21 know, there is a certain fairness to the issue.

22 If you do it according to the VTDs, I
23 think you are going to get some crazy looking
24 lines.

25 So that is why I think it should be a

1 component or a factor, but it shouldn't be the
2 prime factor.

3 SENATOR GAETZ: Thank you, Senator Detert,
4 and I think that as Senator Latvala indicated,
5 a slavish devotion to VTDs would create some
6 weird geometry.

7 But what the Supervisors were asking was
8 that when you, you know, we have constitutional
9 requirements to live by, but when we get down
10 to how, how then to draw lines after we follow
11 the constitutional requirements, what they are
12 asking is, you know, pay some attention to
13 VTDs, because if you don't it creates a
14 substantial burden on Supervisors in preparing
15 ballots and that sort of thing.

16 But President Margolis, our Vice Chair,
17 you are next.

18 SENATOR MARGOLIS: Senators, I think we
19 need to start with how many, how many Senate
20 Districts, how many Congressional Districts fit
21 in each county and make a determination, if you
22 have to put two counties together or three
23 counties together.

24 So if we start with the, with the amount
25 of population in each county, we would know and

1 what I see in several of the legislative
2 districts is crossing county lines, but two or
3 three people crossing county lines instead of
4 -- instead of, you know, just one or two.

5 I mean, you know, it gets to be a larger
6 amount, and I don't know, and I think that that
7 is one of the constant complaints I heard, that
8 they cross county lines.

9 I don't know them. They don't come here,
10 that kind of conversation. So it would seem to
11 me if we took a county like Dade and a county
12 like Broward and said, look, say this many
13 Congressional Districts will fit into this
14 county and this amount of House Districts and
15 this amount of Senate Districts, we have a
16 starting point, and we don't have to start
17 taking people and putting them in multiple
18 districts.

19 It might be one or two in a county, a
20 large county, as opposed to five or six that
21 are crossing county lines. I think that would
22 be an easy way to start anyway.

23 SENATOR GAETZ: Thank you, Madam
24 President, and I think as I use the phrase,
25 using VTDs as building blocks, my understanding

1 of the Supervisors of Elections' testimony, and
2 I think we heard from Supervisors at every
3 single hearing that we held, what they were
4 saying is when you get down then to past the
5 city and county boundaries, when you feel you
6 have met your constitutional requirements,
7 don't get your pen out and go free style, don't
8 just free style it. Then use VTDs as building
9 blocks as you can. Leader Rich.

10 SENATOR RICH: Thank you, Mr. Chair.
11 Going back to the VTD. On the Congressional
12 Districts you have to have exactly the same
13 number of people in each Congressional
14 District, that is correct, right?

15 SENATOR GAETZ: Yes.

16 MR. GUTHRIE: Very close, yes.

17 SENATOR RICH: So if you are needing to go
18 up or down, you know, plus or minus a few, is
19 the VTD the place where you divide?

20 MR. GUTHRIE: No, for getting spot on
21 equal population, you are going to need to go
22 to block level.

23 SENATOR RICH: To block level.

24 MR. GUTHRIE: Yes.

25 SENATOR GAETZ: Particularly, Leader, in

1 Congressional Districts, because there, as you
2 know, from the discussions we have had
3 previously, the relevant court cases tell us
4 that equal Congressional Districts mean exactly
5 that.

6 Congressional Districts that have been
7 next to each other that one has been 11 voters
8 off from another or 11 people, I am sorry, off
9 from another, we are declared to be not, not
10 providing equal representation in the Congress.

11 So when you get down to that we are
12 probably going to have to just the tweezers and
13 that is, that is not going to follow any neat
14 line, except I got to go pick up, Senator
15 Storms I think very eloquently explained at our
16 hearing in Orlando, you got to go with the
17 tweezers then and you got to go pick up those
18 six voters to make it work.

19 Now, when we get into the Senate and House
20 Districts, then there is a variance that can be
21 used if it is defensible, and all of the
22 Supervisors are saying is, don't just be
23 arbitrary and capricious or political at that
24 point, follow the VTDs if you can.

25 But in Congressional Districts, there we

1 have really -- we have really got to keep them
2 equal. Senator Lynn.

3 SENATOR LYNN: Thank you, Mr. Chairman.
4 We kept hearing as people have said, keep my
5 county whole, I want to have one of whatever,
6 and we know as much as people might like to do
7 that, that is not going to be too easy to do.

8 I like Senator Margolis' approach because
9 it is very practical and she has certainly the
10 broad experience. She has been here a long
11 time. She has been here through several
12 redistrictings.

13 And so it is an excellent way, but the
14 other thing that has come up in many of our
15 meetings, and I have seen it so much where
16 redistricting locally, areas of interest, and
17 you brought up The Villages.

18 We have -- there are many counties and
19 areas that within counties that are very
20 similar, and others that are very disparate,
21 and as we start working through it with the
22 requirements of the Constitution, of course, I
23 think it is important to look at that as well,
24 because if we throw sometimes a major city in
25 with a very rural county, despite the fact that

1 we keep trying to protect those rural counties
2 and so forth, there is something, there is a
3 disconnect.

4 And I know of one situation that just
5 occurred in Volusia County where they have put
6 one very unique area in with one major city and
7 it is so contradictory, but it is going to be
8 what it is. It is the way they decided to do
9 it. So I hope we pay attention to that as
10 well.

11 SENATOR GAETZ: Thank you very much,
12 Senator Lynn. That is -- before we move on,
13 let's just take a quick break in the action and
14 recognize our dear colleague and friend,
15 Senator Bullard, who has been able to be with
16 us for some but not all of our deliberations
17 over the last few months.

18 And to tell her first that she looks
19 great. She has got that Bullard smile on her
20 face. She is back and we are delighted to see
21 her.

22 Welcome back, Senator, we have been
23 praying for you. We have been thinking about
24 you and the prayers are answered. Here you
25 are.

1 SENATOR BULLARD: Thank you, Mr. Chairman,
2 and I do want to say that I am the weather girl
3 this morning. When it rains, you know, some
4 things happen. I want to say to you that I
5 have been keeping up with everything and I do
6 appreciate all, everything this Committee has
7 been doing. I appreciate you very much. Thank
8 you.

9 SENATOR GAETZ: Thank you, Senator.
10 Senator Hays.

11 SENATOR HAYS: Thank you, Mr. Chairman.
12 Mr. Guthrie, is the census block basically a
13 sacred block that we cannot divide, or is it
14 the VTDs or is there even a geographical area
15 that has to be left intact as we build these
16 districts?

17 SENATOR GAETZ: Mr. Guthrie.

18 MR. GUTHRIE: Mr. Chairman. Census blocks
19 are the smallest unit of geography for which we
20 have census population data. So that is the
21 most granular level of geography that you can
22 use.

23 But we have 484,000 blocks in the state,
24 which gives you an almost infinite variety of
25 permutation of how you put them together.

1 SENATOR HAYS: Okay, but the scenario that
2 I am trying to define is we have the, well, for
3 instance, two counties put together, population
4 does not equal one Senate District so we have
5 to go into another county and get sufficient
6 numbers to meet that goal of what, 470,000
7 people.

8 When we are going into that other county
9 and carving out those residents, are we able to
10 dissect a census block or must all of the
11 census be kept intact?

12 SENATOR GAETZ: Mr. Guthrie.

13 MR. GUTHRIE: The software we are using
14 does not support splitting blocks, and we would
15 be in an interesting legal area. It would be
16 very difficult.

17 You would need to sort of ascertain for
18 cutting that block how many people are on one
19 side of the line you drew, and how many people
20 were on the other side of the line as of
21 April 1st, 2010, and that would be a very
22 difficult thing.

23 SENATOR HAYS: So basically the guideline
24 is, don't, don't dissect the census block,
25 leave the census block intact?

1 MR. GUTHRIE: Correct, and the way that we
2 traditionally, and in fact we are going to look
3 a little bit later this morning at some Bill
4 language for the Apportionment Joint Resolution
5 and for the Congressional Bill and that defines
6 the hierarchy -- not the hierarchy, but the
7 units of census geography that will be used for
8 describing districts.

9 And the language that it says in the Bill
10 is that a block describes the smallest
11 geographic unit for which population was
12 tabulated in the 2010 Decennial Census, so it
13 is the smallest the unit of geography for which
14 we have a legal description that we can refer
15 to in the redistricting legislation.

16 SENATOR GAETZ: Comments?

17 SENATOR HAYS: Mr. Chairman, if I may just
18 get --

19 SENATOR GAETZ: Of course.

20 SENATOR HAYS: -- one more clarification.
21 We have got the map drawn, and we have 469,075
22 people in the district and we need 25 more to
23 make it a round number, and yet we go into
24 another census block and it has got 340 people
25 in it.

1 Must we take all 340 or can we carve out
2 the 25 more people and leave the rest of them?

3 SENATOR GAETZ: Mr. Guthrie.

4 MR. GUTHRIE: You would either take those
5 340 people or you would find another block that
6 had the 25 that you were looking for.

7 SENATOR HAYS: Thank you.

8 MR. GUTHRIE: That is the choice. So when
9 you are zeroing out a Congressional plan, what
10 you do is you look for a location where the
11 blocks that have the exact number that you are
12 after are available.

13 SENATOR HAYS: Well, is that not also true
14 for a House District or a Senate District as
15 well?

16 MR. GUTHRIE: The population requirement
17 under Federal law is not as stringent for House
18 and Senate Districts as it is for Congressional
19 Districts.

20 SENATOR HAYS: Thank you.

21 SENATOR GAETZ: We can vary, Senator Hays,
22 correct me, Mr. Guthrie, we can vary if we have
23 a defensible reason. We can vary by two or
24 three or four and sometimes even five points,
25 but as you get north of about three points,

1 about a three percent variance, your burden of
2 proof becomes pretty severe based on the
3 information that I have seen, case law I have
4 read.

5 But with Congressional Districts you have
6 got to be spot on, and that is why even with
7 all of the best efforts as articulated by our
8 members this morning, we may have pimples and
9 dimples on Congressional Districts, because you
10 have got to go pick up those six people, those
11 24 people.

12 Anything else on this matter of sort of
13 the building blocks of districts?

14 Mr. Guthrie, could you please, could you
15 please summarize?

16 MR. GUTHRIE: Yes, and maybe this picture
17 that I put up on the screen will be helpful for
18 that.

19 We are in the Clearwater, Largo area of
20 Pinellas County. The cities are shown in
21 colors here. The VTD lines are the bold brown
22 lines, and the block lines are the fine lines.

23 So what we see is that the Supervisor of
24 Elections in Pinellas County generally paid
25 attention to municipal boundaries in drawing

1 the VTDs, but she was not dogmatic about it.

2 I think that the correct way to approach
3 implementing Amendments 5 and 6 in this area
4 would be as the committee has heard and has
5 expressed here today, to look first to keeping
6 counties whole, and not subdividing county
7 lines.

8 And next to look at keeping your
9 municipalities intact, and then beyond that,
10 if, in order to make it most easy for
11 Supervisors to implement the new districts and
12 conduct efficient elections in the years to
13 come, follow the VTD lines.

14 So that would mean in this case is that if
15 you put the city of Clearwater in a district,
16 and then you needed additional population you
17 might look at this, rounding out this VTD and
18 this VTD in order to fill out the population
19 for that district.

20 You see that how that works? And then
21 only go to the block level where it is
22 necessary, in the rare cases where it is
23 necessary to equalize your population.

24 But generally just pay attention to county
25 lines, to city lines and to VTDs and one more

1 point of background on this.

2 Ten years ago the software we provided
3 made it very, very easy, as this does, too, to
4 do all of your redistricting at the block
5 level. So you could, and what we found is that
6 the people who were drawing the plans actually
7 started, not at the county level, not at the
8 tract or block group level, they started at the
9 block level and drew everything based on that.

10 So what we ended up with is many, many
11 cases where the House District was on First
12 Street, the Senate District was on Second
13 Street, and the Congressional District was on
14 Third Street.

15 They all were trying to capture the same
16 neighborhood, but they did it in three
17 different ways. If they all three had followed
18 Second Street which was the VTD line, that
19 would have made it much, much easier for
20 Supervisors to implement the new districts.

21 SENATOR GAETZ: Do we have a general
22 understanding of how we are going to proceed
23 and is there any objection to the explanation
24 of how we are going to proceed as articulated
25 by Mr. Guthrie? Is there any issue?

1 Senator Storms.

2 SENATOR STORMS: There is one issue, but
3 it is not -- it has to do with the
4 implementation in the end product that I want
5 to call to your attention.

6 On My District Builder you have -- you
7 have got the maps presented and you have the
8 ability to like it on Facebook, you have the
9 ability to like it, to tweak it, but there is
10 no ability for anybody to, you know, give you a
11 thumbs down or other important finger, and say
12 that they don't like it.

13 So -- so I think that there needs to be
14 some option there for somebody. It seems like
15 you stacked the deck by saying, okay, if you
16 like this, you forward it, but if you don't,
17 you know, what do you do?

18 So after we are done with the whole thing
19 there ought to be some something there for
20 people to be able to click on it and say, no,
21 no, I hate this, and then for comments to go
22 along with it, just kind of FYI. Thank you.

23 SENATOR GAETZ: Thank you for the
24 suggestion. Members, what we would like to do
25 now is get into specifically how we will

1 proceed with various regions of the state in
2 developing maps.

3 For the next few interim meetings we will
4 be closely examining the maps and district
5 scenarios related to different regions of
6 Florida.

7 In other words, our approach will be to go
8 region by region. Our professional staff will
9 be showing us various scenarios directly
10 derived from the maps and the comments that we
11 have received from the public.

12 For our next meeting on October 5th, and I
13 would ask you to be cognizant of these dates
14 and these deadlines that I would like your
15 support on.

16 For the next meeting on October 5th, we
17 will be presenting and discussing maps and
18 scenarios for northwest Florida, including the
19 Panhandle and the Big Bend.

20 Then the week of October 17th, we will be
21 discussing maps, reviewing scenarios related to
22 the northeast part of the state, including the
23 First Coast to the Space Coast and central
24 Florida.

25 Then at our two November meetings, we

1 would take up the maps and scenarios for the
2 southeastern and southwestern portions of the
3 state.

4 These next four meetings will be the times
5 for members to discuss the merits associated
6 with drawing district lines one way or the
7 other.

8 Subject to requirements of State and
9 Federal law, professional staff would then use
10 the direction we would give them as we go
11 region by region. They will use the direction
12 we give them in these open public meetings to
13 produce a statewide Congressional map, a
14 statewide Senate map and a statewide House map
15 that would be derived from, first the testimony
16 and maps we received from the public.

17 Then secondly, the input and direction we
18 will receive in these open public meetings for
19 members of this Committee, and then hopefully
20 we will arrive at a consensus. We can then
21 vote and then recommend our maps to the Senate
22 as a whole.

23 Our objective will be to introduce these
24 plans as proposed Committee Bills at the
25 meeting the week of December 5th. So

1 December 5th meeting, the week of December 5th,
2 if we stay on schedule and I hope we can, we
3 would introduce proposed Committee Bills.

4 Now, what that means is that November 1st,
5 would be our drop dead date for submission of
6 plans or proposals from the public, from
7 interest groups, from members of this
8 Committee.

9 So if you have a particular proposal you
10 would like to make for your part of the state,
11 for my part of the state or for the state as a
12 whole, or House maps or Senate maps or
13 Congressional maps, our deadline for receiving
14 those proposals in this Committee will be
15 November 1st.

16 This corresponds very closely with what
17 the House of Representatives is doing. Then we
18 will follow the procedure that I have laid out
19 to go region by region. Then during the
20 meeting the week of December 5th, we would, we
21 would hopefully having had all of the input
22 region by region, so we have gone through these
23 meetings, have a proposed Committee Bill.

24 By contrast, Senators, ten years ago the
25 first plans for Congressional and Legislative

1 Districts appeared on January 23rd. So we are
2 talking about, about virtually being two months
3 ahead, almost two months ahead of where we were
4 ten years ago.

5 Our ambitious goal assumes a lot of hard
6 work on the part of members of this Committee.
7 It assumes that we will get down to business.
8 We will not hold cards close to our chests, but
9 we will rather play those cards as soon as we
10 possibly can.

11 And it also assumes, our schedule assumes
12 continued good input from the public, but we
13 want that input to come to a head by
14 November 1st.

15 Now, if somebody comes in on November 4th,
16 some member of the public, some interest group
17 and offers something, we certainly take it into
18 the record and we certainly consider it, but in
19 terms of using it as a plan that we would, that
20 we would take seriously and then try to derive
21 our Committee Bill from, we have got, we have
22 got to have an all in date and the all in date
23 that we would like to suggest is November 1st.

24 SENATOR LATVALA: Mr. Chairman?

25 SENATOR GAETZ: Yes, sir, Senator Latvala.

1 SENATOR LATVALA: I commend your, this is
2 a tremendous step forward to get these plans
3 out in advance by such a significant time
4 period over what has been done before, and what
5 a lot of people accused us of planning to do at
6 these various hearings.

7 The only question I have is that by having
8 the deadline of November 1st, on plans
9 submitted by the public, as well as plans
10 submitted by Senators the same day, would seem
11 to not give any time for us to look at the
12 public submitted plans before we would do a
13 plan of our own.

14 And I am just wondering if you might
15 consider, and I hate to follow the House, but I
16 have been trained all of these years not to do
17 what the House does, but, you know, the House
18 has a two tier plan where, where, you know,
19 November 1st is the public date, and then two
20 weeks later would be their Members date and I
21 am wondering if we could give some
22 consideration so there is some period of time
23 for Senators to review what has come in from
24 the public before we have to submit a plan
25 ourselves.

1 SENATOR GAETZ: Mr. Guthrie, don't wander
2 away. You heard Senator Latvala's comments,
3 and Senator Latvala, I met yesterday with
4 Chairman Weatherford to understand where the
5 House is coming from, and the House is doing
6 exactly what you said and for the reasons that
7 you mentioned.

8 Do you have any comment on if we accepted
9 Senator Latvala's suggestion, to have a
10 suspense period between the deadline for
11 submission by interest groups and members of
12 the public and submission of maps by Senators,
13 do you have any comment, Mr. Guthrie, on
14 whether we could still maintain our aggressive
15 schedule to be able to move forward with a
16 proposed Committee Bill the week of
17 December 5th?

18 MR. GUTHRIE: What I think the November 1
19 deadline is designed to do, is as Senator Gaetz
20 said, keep interest groups, public and Senators
21 from holding their great ideas close to their
22 chest.

23 That -- so the material that the Committee
24 staff is going to use for purposes of putting
25 together a proposed Committee Bill will come,

1 we are hoping by November 1.

2 Now, the Committee -- it is not -- the
3 proposed Committee Bill is not at the end of
4 the day a staff product. It is your product,
5 and so this Committee will have an opportunity
6 at the meeting in December, and thereafter, to
7 discuss, debate, amend, and clarify what this
8 proposed draft that the Committee staff will
9 put out some time maybe a week in advance of
10 the Committee meeting.

11 SENATOR GAETZ: But to Senator Latvala's
12 point, and we discussed this yesterday, and I
13 was the guy pushing for deadlines of these kind
14 so we can move the process.

15 What would be the, you know, what would be
16 the consequences of saying that November 1st,
17 would be the deadline for all submissions from
18 the public and from interest groups, let's pick
19 a date, November 10th, would be the deadline
20 for submission by all members of the Senate?

21 What would be the consequences of that and
22 would we be able to still introduce a proposed
23 Committee Bill on --

24 MR. GUTHRIE: I am sure that working over
25 Thanksgiving staff could, could get a proposed

1 Committee Bill done in time.

2 SENATOR GAETZ: Senator Latvala and I will
3 bring the turkey and the dressing. Senator
4 Latvala, I think you --

5 SENATOR LATVALA: I mean, even --

6 SENATOR GAETZ: I think you make a good
7 point, sir.

8 SENATOR LATVALA: Even if we had to move
9 the public date up a couple of days or
10 something, I mean, I don't want to be put in a
11 position of feeling guilty that we are making
12 the staff work over Thanksgiving.

13 I am not entirely sure that is necessary,
14 but I just think there ought to be a period of
15 time between when the public cutoff is and when
16 our cutoff is. I mean, we are elected to
17 represent the public in our districts.

18 SENATOR GAETZ: Senator Sachs.

19 SENATOR SACHS: Thank you very much,
20 Mr. Chairman. I agree with Senator Latvala's
21 analysis. I do think, sir, that we need to
22 have, and, you know, let me say this.

23 I do think we need to have some time in
24 order to digest and review and possibly revise
25 or agree with those maps that are submitted by

1 the public.

2 It doesn't mean that we need a
3 November 1st deadline. Let's -- let's take a
4 step back.

5 The public, as well as, as well as
6 Legislators, have had ample time to submit
7 maps. So we can possibly move up the
8 November 1st date, to an earlier time in
9 October possibly, so that we would have time by
10 November 1st, drop dead date to have all of the
11 submissions in, but I do think you need a time
12 space between the public submissions of maps,
13 our review of them, and then our deadline for
14 commenting, revising, agreeing with those maps
15 that have already been submitted.

16 And I don't think we need to impinge upon
17 Thanksgiving holidays, but I do think that we
18 can, you know, we can bring that November 1st
19 date up a little bit and I agree with that
20 suggestion.

21 SENATOR GAETZ: Why don't we do this,
22 unless there is objection. I apologize,
23 Senator Lynn.

24 SENATOR LYNN: Mr. Chairman, I understand
25 where Senator Latvala is coming from, but I do

1 have some discomfort.

2 The public has great fear that we are
3 going to be doing something behind the scenes,
4 and by setting the November 1 deadline for
5 everybody, you are saying, hey, work on this,
6 ultimately this comes to the Committee, and
7 anybody on the Committee can talk to anybody
8 outside the Committee in the Legislature, get
9 input from them.

10 And if we need to do what Senator Latvala
11 is thinking, and I am speaking on behalf of the
12 citizens out there that are saying, okay, so we
13 got our stuff down, and now November 5th, you
14 are going to be able to change it according go
15 to the way you want your district done or
16 whatever.

17 And so it gives us or the Legislators that
18 last input, and I think it is only fair the
19 public and Legislators have the input together.
20 We can fix whatever we need to do here to make
21 things work according to where we need to be
22 requirement-wise.

23 But I don't want to put us in a position
24 where, once again, the public can say, you are
25 doing something behind the scenes, after we do

1 it you are just going to fix it your own way,
2 anyway.

3 We have that ultimate requirement that we
4 have got to come up with something, but I would
5 like to see it appear, at least, that it is
6 going to be in the fairest way possible and you
7 have worked so hard at that, I would not want
8 to change it.

9 SENATOR GAETZ: Thank you, Senator Lynn.
10 Leader Rich.

11 SENATOR RICH: Thank you, Mr. Chair. I
12 would like to echo Senator Lynn's point of view
13 here. I think what we heard, a lot of what we
14 heard was that people wanted to see our maps,
15 and this exactly flips it, and I think we
16 should all have the same deadline, and I think
17 your timeline is excellent.

18 I mean, it gives us an opportunity,
19 although I would have liked to have seen a
20 Congressional even earlier, but I think, you
21 know, it gives a parity between the people and
22 the Legislators, and I think that that is
23 really very important after what we heard at
24 all of the Committee hearings.

25 SENATOR GAETZ: Thank you, Leader.

1 Senator Bullard.

2 SENATOR BULLARD: Thank you, Mr. Chairman,
3 and I appreciate your recognition. I agree
4 with my Leader as well, what has been said by
5 Senator Lynn, but I also want to ask, in view
6 of the fact that I have had experience in the
7 reapportionment, because I was here in 2002,
8 when the lines were being drawn.

9 So with that experience I know that some
10 of the techniques have changed since that time,
11 but I have heard different definitions
12 pertaining to a contiguous district.

13 I am changing my question a little bit,
14 Mr. Chairman. The contiguous districts, based
15 on some of the districts that I have seen and
16 one that, 39, District 39, I am told that the
17 contiguous district is one that it is either
18 compact in a circle or straight line as long as
19 it is a straight line.

20 Now, what I do not understand is if a
21 district is drawn in a straight line and that
22 straight line then moves over to another
23 straight line, is that contiguous?

24 SENATOR GAETZ: Mr. Guthrie, can you
25 define contiguity for us, please?

1 MR. GUTHRIE: Yes. The Florida Supreme
2 Court has taken the position that the
3 contiguity means that the district is a single
4 polygon or a single shape so you can get from
5 one part of the district to another without
6 stepping outside of the district, by boat or
7 car or walking or whatever.

8 SENATOR BULLARD: Well. Mr. Chairman.

9 SENATOR GAETZ: Of course, Senator
10 Bullard.

11 SENATOR BULLARD: So therefore, if the
12 district is drawn in the shape of an octagon,
13 that would be considered contiguous?

14 MR. GUTHRIE: An octagon is contiguous.

15 SENATOR BULLARD: Okay, so that -- that
16 clarifies some of the questions I have been
17 approached by some of the constituents who are
18 saying, well, you know, what -- how are you
19 drawing these lines and where are they
20 reaching? Are they too far reaching?

21 And as you well know, our District 39 is
22 very far reaching, and I am certain some of the
23 other districts are as well.

24 And if those lines are drawn in such a way
25 that it is not really meeting the needs of the

1 constituents, as well as taking a real toll on
2 the elected official, is it in the best
3 interest of the constituent and the elected
4 official when lines are drawn in such a way?

5 SENATOR GAETZ: Mr. Guthrie, any comment?

6 MR. GUTHRIE: So District 39 was
7 determined by the Florida Supreme Court to be
8 contiguous. So that we know, District 39 is
9 contiguous.

10 What this Committee will be considering in
11 the weeks and months ahead is how do we balance
12 all of the values that you believe makes sense
13 for providing the best possible representation
14 for voters and constituents in this state.

15 And there will be varying opinions on
16 that. As Senator Gaetz said, this Committee
17 process is a great way to determine how you,
18 the people's elected representatives, want to
19 make that choice.

20 SENATOR BULLARD: Mr. Chairman, follow up?

21 SENATOR GAETZ: Sure.

22 SENATOR BULLARD: Okay, now, are we
23 looking at the quota as well? Is that
24 considered in determining the districts?

25 SENATOR GAETZ: Mr. Guthrie.

1 MR. GUTHRIE: I am not sure exactly what
2 we mean by quota.

3 SENATOR BULLARD: The ethnic break down.

4 MR. GUTHRIE: Mr. Chairman.

5 SENATOR GAETZ: Of course.

6 MR. GUTHRIE: The -- as we said earlier,
7 the Section 5 and Section 2 of the U. S. Voting
8 Rights Act of 1965 as amended, and new Sections
9 20 and 21 of the Florida Constitution say that
10 providing voting rights for minorities is the
11 priority consideration in this state.

12 And there are numerous court cases that
13 get into determining how that will be best be
14 accomplished, that will take us way far afield
15 to get into this morning.

16 SENATOR BULLARD: Okay, Mr. Chairman, back
17 to the question I really need an answer for,
18 and because it is -- there is a misconception
19 or a perception by the people that they are
20 going in, we are going in, not they, we are
21 going in and taking certain pockets of people
22 and placing them in certain districts, whether
23 they are contiguous or not, and to develop a
24 district for a particular group.

25 So that I am concerned about, and I -- I

1 have no problem talking with you, and I have
2 had, you know, so at some point if you could
3 help me understand what is happening with that
4 so that I can clearly have an explanation for
5 my constituents and others who are discussing
6 this.

7 I have never seen before an issue
8 discussed as much as this reapportionment. In
9 2002, for those of you who were here, Senator
10 Latvala, and who else was here? Whoever was
11 here at that time, I know that it was not
12 discussed to the extent that it is today.

13 But I am very appreciative of the
14 hearings, because that is allowing people to at
15 least participate, and I really need to
16 understand clearly that when I go out to speak
17 before the constituents or they call my office,
18 well, what are you all doing up here? This is
19 so confusing for us.

20 I need to be able to say to them, no, they
21 are not going in and dipping, they are not
22 taking truck loads of people at night and
23 moving them into other areas so that we could
24 have a district that is -- what is considered
25 contiguous.

1 SENATOR GAETZ: Well, yes, ma'am, and we
2 owe you that, and professional staff, would you
3 please get with Senator Bullard and make sure
4 that she fully understands that issue and take
5 her input so that she has a clear message and
6 an accurate message she can provide to her
7 constituents.

8 Let's get back on topic here having to do
9 with our schedule. We have had a number of
10 people express their views. I think Senator
11 Storms was next, and then we will try to bring
12 it to a head.

13 Senator Storms.

14 SENATOR STORMS: Thank you, Mr. Chair.
15 Well, you know, I appreciate both sides of the
16 discussion, but maybe this is a different
17 perspective on getting the public's maps here
18 first.

19 If there was a way for us to bring that,
20 bring all of that in so whether, not to mess up
21 anybody's Thanksgiving holiday, because I
22 happen to love Thanksgiving, I think it is one
23 of the best family holidays that you can have.
24 It is not as much stress unless you happen to
25 be the one cooking, and in which case there is

1 a lot of stress.

2 But anyway, I don't think that is going to
3 be you all up there doing the cooking. I want
4 you all to be able to relax in your recliner,
5 so I am not trying to get you to work on
6 Thanksgiving, but I do think that there is a
7 benefit to having the maps here early for the
8 members to be able to know, you know, to be
9 able to take stuff into consideration.

10 I don't know really how we take stuff into
11 consideration without having all of the public
12 maps here. And I am not -- I certainly am not
13 trying to roll the public and trick them into
14 doing something, but I think that I benefit at
15 least from hearing the fellow members look at
16 the maps and have the conversation and say,
17 like this, not that, and here is why this
18 wouldn't work because of that.

19 And so, so I like the idea of doing
20 something like getting the public's maps in
21 first so then we can consider that and produce
22 something and put it on the table.

23 So that is just kind of where this member
24 stands, and I think we all might benefit from
25 having access to that information and gathering

1 everything together before we start sorting and
2 coming up with a final product. So that is my
3 two cents worth, Mr. Chair.

4 SENATOR GAETZ: Thank you, Senator Storms.
5 I think that if I do a better job of explaining
6 the proposed schedule it may reassure some
7 members.

8 That is that if we stick with a
9 November 1st deadline for submission of maps by
10 whomever, that it is the week of December 5th,
11 that we would prepare and propose a Committee
12 Bill.

13 So there will be, at least a month after
14 the public and members would submit their maps
15 for us to then consider those submissions, as
16 well as the 64 submissions we have already
17 received, to use those submissions as the basis
18 for a Committee Bill to deburr, to criticize,
19 to analyze, to evaluate, I think we will have
20 sufficient time.

21 We are going to have -- we are going to
22 have more than a month after the November 1st
23 deadline.

24 The November 1st deadline, as far as the
25 public is concerned is something that we did

1 agree with Chairman Weatherford on yesterday,
2 and in order to provide a last call for those
3 organizations that have not yet participated,
4 those organizations that have kind of sat in
5 the corner and maybe waited until a propitious
6 moment to articulate their views, Chairman
7 Weatherford and I have agreed upon a letter
8 that we are sending today to some 50
9 organizations, primarily civil rights and
10 minority advocacy organizations to say if
11 someone has told you to hold your cards, this
12 is last call.

13 And you have got until November 1st, and
14 we really, really need your ideas and your
15 interpretations of what you believe is
16 essential to protect minority voting rights.

17 So that is kind of the reason why we are,
18 why we are trying to stick with a November 1st
19 time frame, to give those organizations. We
20 have had an open door to them all of the way
21 along.

22 A few, particularly those representing
23 Latinos in central Florida, have been very
24 forthcoming. Others have been part of a
25 coalition that has said we really don't want to

1 tell you now what we think.

2 We want to give them a last call because
3 we really do want to know what they think so
4 that we can include their views and their
5 perspectives.

6 So what I would like to ask the
7 Committee's support on, and I, Senator Latvala
8 makes an excellent point, but I think we will
9 have better than a month before we have to act
10 in any way on a proposed Committee Bill.

11 We will have more than a month to deburr,
12 refine, mature, I would like to ask the
13 Committee's support, please, for a deadline
14 that says --

15 SENATOR DE LA PORTILLA: Mr. Chairman.

16 SENATOR GAETZ: Senator Diaz de la
17 Portilla, you are recognized.

18 SENATOR DE LA PORTILLA: I agree -- I
19 agree with the November 1st deadline for
20 everyone. I think we as Committee members will
21 have ample opportunity to modify the maps that
22 are submitted on November 1st.

23 And so my, I would move, Mr. Chairman, if
24 it is appropriate, that we adopt the
25 November 1st deadline for all parties, both the

1 public and members to submit those maps and
2 then we can discuss them and change them and
3 modify them at the three or four Committee
4 meetings that we are going to have, you know,
5 after that.

6 SENATOR GAETZ: I appreciate that, Senator
7 Diaz de la Portilla. As opposed to taking a
8 vote, because we didn't advertise we would be
9 taking any votes today, what I would like to do
10 is get a Committee consensus or get the
11 Committee's support for the proposal that the
12 Senator just made, and if that would be
13 agreeable.

14 SENATOR LATVALA: Mr. Chairman?

15 SENATOR GAETZ: Yes, sir, Senator Latvala.

16 SENATOR LATVALA: I mean, I am good with
17 the consensus.

18 SENATOR GAETZ: Okay.

19 SENATOR LATVALA: Just a thought I was
20 just raising a point of trying to get a, you
21 know, a good reason why we should be different
22 from the House on that, and I am not sure I
23 ever did, but, you know, I am okay with it.

24 SENATOR GAETZ: Okay, Senator Latvala.

25 Senator Sachs, you are recognized.

1 SENATOR SACHS: Thank you, Mr. Chair. I
2 have one question. It appears, and I think we
3 are all on the same page on this. It appears
4 that November 1st, is the cutoff deadline, but
5 we will have until December, basically, to take
6 care of it in Committee meeting.

7 And I think it is fine with me, I think we
8 are all on the same page. Excellent
9 suggestion, and I am with you.

10 SENATOR GAETZ: And to Senator Lynn's
11 point which I think was well made. Senator
12 Lynn was with us as all Committee members were
13 at various hearings. I, you know, yes, it is
14 true that we have a constitutional obligation
15 as the Legislature to propose maps and propose
16 a redistricting plan to the courts, and we have
17 to fulfill that obligation, and that obligation
18 comes after we have received public input.

19 But I think, I think if we can hold it to
20 a November 1st deadline for everybody, this
21 Committee will have plenty of opportunity to
22 deburr after that deadline is met.

23 Is there any objection to our sticking
24 with a November 1st deadline, for submission of
25 all proposals? Is there objection?

1 If not, then Committee staff, you have
2 seen the consensus of the Committee, and then
3 again, to make sure that we have our timeline
4 before us, then the week of December 5th, we
5 will discuss a proposed Committee Bill.

6 That Committee Bill will be derived from
7 the meetings that we will have between now and
8 December 5th. That is the week of
9 December 5th, with our next meeting on
10 October 5th, discussing plans and scenarios for
11 northwest Florida, including the panhandle and
12 the Big Bend.

13 So what you will see at the next meeting,
14 and then at the other meetings that where we
15 will be looking at the state region by region,
16 what you will see is that the professional
17 staff will present to us, here are maps that
18 have been drawn by citizens, by interest
19 groups, by Senators, by whomever, for northwest
20 Florida, the Big Bend and the panhandle. Here
21 are one or two or three maps, hopefully more
22 than one.

23 I would say at least two or three maps
24 that seem to represent the testimony that we
25 are receiving, and then we will have a chance

1 to discuss those maps in detail.

2 So that as we look at where lines ought to
3 be changed, if at all, for maps that were
4 submitted, we will have the opportunity to look
5 at issues of retrogression, issues of
6 compactness. Senator Bullard indicated issues
7 of contiguity, first tier, second tier,
8 constitutional matters.

9 We will be looking at those maps in the
10 context of those legal requirements, region by
11 region, to bring us to a point where we have
12 given guidance region by region to our
13 professional staff so that they can prepare a
14 Bill that is not my Bill. It will be the
15 Committee's Bill based on that discussion.

16 Senator Detert.

17 SENATOR DETERT: Thank you, just for a
18 simplification and clarification. So we will
19 start with the panhandle. We will review maps
20 that were submitted by the public and others
21 as of November 1st.

22 We will have that discussion, and then as
23 part of that meeting, will this Committee then
24 go over it and sort of kind of hammer out how
25 we expect that portion to look barring any

1 future domino affects, and then we will move on
2 to the next piece and we are going to take this
3 map, I mean, the state section by section?

4 SENATOR GAETZ: Yes, ma'am.

5 SENATOR DETERT: As we go along?

6 SENATOR GAETZ: You have articulated it
7 very, very well, recognizing that when you,
8 when you build a jigsaw puzzle and you have got
9 four different pieces that you are building
10 from, that at some point when you try to put
11 them altogether you may have to go back and
12 say, well, did I have the right piece in the
13 right place in the northwest section of the
14 jigsaw puzzle.

15 But your recitation of how we would go
16 forward is exactly what I have in mind.

17 SENATOR ALTMAN: Mr. Chairman?

18 SENATOR GAETZ: Judge, Senator Altman.

19 SENATOR ALTMAN: Thank you, Mr. Chairman.

20 A question of procedure. Let's say we draw
21 maps and we come up with a consensus. Members
22 of the public though may see some adjustments
23 or changes or might want to present in response
24 to what we have drawn. Is there a procedure
25 for that?

1 SENATOR GAETZ: Thank you, Senator Altman.
2 You make an excellent point. One of the things
3 -- one of the requests that we heard at a
4 number of the public hearings was, will the
5 public have an opportunity to have a second
6 bite at the apple.

7 Once the public input has been taken into
8 account, we have looked at the regions of the
9 state and given direction to professional staff
10 and we have a proposed Committee Bill, then
11 what. Will the public be able to look at it
12 again?

13 The answer to that question has to be yes.
14 Now, there are those who would probably say,
15 well, let's go have 26 more hearings then.
16 Well, the problem is, we have got to have
17 elections in 2012, and I think we would be
18 jammed up between those who say we want, we
19 want comprehensive hearings across the state,
20 and those who say, but wait a minute, we have
21 been trying to tell you all along that you need
22 to move this process deliberately, not
23 unthoughtfully, but deliberately.

24 So here is what we are considering, and I
25 would just emphasize the word considering for

1 your, and please give it some thought. We
2 don't have to decide today, but just a moment,
3 please, and we will get back to you in a
4 second.

5 Here is what we are considering. We are
6 considering teleconferencing whereby this
7 Committee would go out to FSU, it is called
8 Studio A or something, Studio A and we would
9 start in the morning and we would probably have
10 to bring our lunch.

11 And this would be a long day maybe, but we
12 would ask the President's permission to take a
13 day and we would advertise develop in advance.
14 We would publish a proposed Committee Bill so
15 that everybody could see it, everybody would
16 know what it was, at least a week in advance,
17 and then we would say, all right, we are going
18 to look at three locations in northwest Florida
19 where individuals could come to say a Community
20 College that has teleconferencing capabilities,
21 and we would start at, you know, maybe 8:00 in
22 the morning in, you know, at Pensacola State
23 College, for example.

24 We would say, folks are gathered at
25 Pensacola State College. We have advertised it

1 publicly. They have had the opportunity to
2 review the proposed Committee Bill, and we are
3 going to take, take a second bite at the apple
4 testimony from people who will then come
5 forward and say, well, you listened to us, or
6 no, by golly, you didn't, or, you know, it
7 looks good but you need to really make this one
8 change that conforms to our needs in northwest
9 Florida.

10 And then maybe at 10:00 we would move to
11 another part of the state for a
12 videoconferencing and we would run, we would
13 run all day long so that we would give people
14 an opportunity to comment on a proposed
15 Committee Bill before the first vote was taken
16 on that Bill.

17 That would be, that is something we are
18 considering and we haven't worked out all of
19 the technical issues, but I would like to ask
20 your consideration of this idea. Maybe you
21 have a better idea.

22 Senator Bullard. Yes, ma'am.

23 SENATOR BULLARD: Thank you. I believe
24 that you answered part of my question.

25 SENATOR GAETZ: Yes, ma'am.

1 SENATOR BULLARD: And that would be I
2 think it is a very good idea to have that
3 televised.

4 However, I would like to just move a step
5 further and ask you, when we televise that,
6 that we ensure that other media sources have
7 publicly advertised it so that the public will
8 know that we are, that you are doing this, you
9 know, because many people just don't know when
10 it is happening.

11 A lot of people may be at work. We need
12 to know whether it is timely, so that they are
13 at home and something that will be repeated
14 after this tape so they will know about this
15 prior to this.

16 We, I think we all believe that everyone
17 has access to a computer, that everyone reads
18 the newspaper. Some people can't even afford
19 to buy a newspaper.

20 So when is it going to be advertised?
21 When is it going to be placed in the news, in
22 the media's sight so they can have them know
23 that on this date at this time we are going to
24 show you exactly what or talk about the lines
25 and how they will be drawn. I would appreciate

1 you considering that.

2 SENATOR GAETZ: Yes, excellent point and
3 our professional staff I think did a very good
4 job of making sure that we had public notices
5 posted in newspapers across Florida for our
6 public hearings.

7 The media was very cooperative in doing,
8 earned media stories ahead of the hearings.
9 More than 5,000 people showed up. Somehow they
10 figured out that we were there and they got
11 there, but I would give you my word that if we
12 do go to a teleconferencing option, that we
13 would provide to the media well in advance
14 information about that teleconference.

15 Not only the Capitol press, but the
16 regional media as well.

17 Senator Sobel.

18 SENATOR SOBEL: Thank you, Mr. Chair. I
19 believe the teleconferencing idea is a good
20 one. We did hear from constituents who wanted
21 that. So we will need the support of local
22 areas to provide us with this kind of set up,
23 maybe the people who were involved with the
24 redistricting throughout when we went around
25 would help us with that.

1 I think it is really good to get and those
2 people who are interested will find out and
3 attend. I know it is very hard to reach
4 everybody, but the option is not doing anything
5 and I think it is a real good choice.

6 I wrote down -- I wrote down these dates
7 of October 5th, October 17th, November 1st,
8 November 14th and December 5th. Those are the
9 dates that we will be meeting?

10 SENATOR GAETZ: Those are the weeks that
11 we will be meeting. The President's office
12 has not published a meeting schedule for those
13 weeks yet, but we will be meeting on those
14 weeks.

15 I have asked for Wednesdays in those weeks
16 so that we are not either at the beginning or
17 the end of the week, but, you know, this is an
18 important Committee.

19 All committees are important, but I have
20 asked for a Wednesday. The President's office
21 is taking that into account.

22 SENATOR SOBEL: Thank you.

23 SENATOR GAETZ: President Margolis, and
24 then Senator Lynn, did you request -- okay.
25 President Margolis.

1 SENATOR MARGOLIS: The people who have
2 filled out cards at all of the public hearings,
3 those that testified, I think deserve an e-mail
4 or a direct communication to tell them that
5 this is, this is where we are going to present
6 the maps and we would like to hear their
7 response, if they had a response.

8 SENATOR GAETZ: Excellent point, Senator
9 Margolis. We will -- we did ask for everyone
10 who came, not just those who testified, but
11 those who came to observe, if they would give
12 us their contact information, and if we are
13 able it put together, if this Committee
14 supports the notion of teleconferencing and if
15 we are able to put it together technically and
16 get the President's permission, I am sure the
17 President has been nothing but full speed ahead
18 on public involvement and interaction, we would
19 definitely do that.

20 We would get back to all of those people
21 and say, hear is the second bite at the apple.

22 Now, you know, obviously there will be
23 criticism. There will be people in my
24 community who will say, if we start at 8:00 in
25 the morning in the panhandle, there will be

1 people that say, well, gosh, I am a teacher.
2 That is when I am teaching, I am in the
3 classroom, I can't participate.

4 And if we start in the panhandle at 6:00
5 at night there will be people who say I can't
6 come at 6:00, that is when I have my Bridge
7 Club, why didn't you check with me to make sure
8 that you didn't conflict with my Bridge Club.

9 So we know that every schedule is
10 inconvenient for some people, but we think this
11 would be a good faith effort.

12 Senator Storms.

13 SENATOR STORMS: Thank you, Mr. Chair. I
14 just want to reiterate again what, well, first
15 of all, that digital Town Hall meeting is a
16 fabulous idea.

17 I think that is wonderful and will give
18 people an opportunity to be heard, so long as
19 at the location there will be something for
20 them to see and they won't be trying to see it
21 on, you know, where we are.

22 So we just want, they will be able to have
23 like at whatever location they are. So imagine
24 you will divide up staff and go to those
25 locations and staff will be assigned to those

1 locations if we are going to have a Town Hall
2 meeting.

3 I don't want people to be trying to
4 comment on something that will be where we are,
5 because it will be very difficult to see,
6 unless I am missing, misunderstanding what the
7 concept is.

8 SENATOR GAETZ: Well, again, Senator
9 Storms, I am not a technical expert on these
10 things. I think we will want to probably work
11 with people who have done this kind of a series
12 of teleconferences in one day, see if they can
13 help us, but I certainly would agree.

14 I don't know that we will send staff out
15 all over the state for these, but I think what
16 we would do is make sure that there was, that
17 people are looking at, visually exactly what we
18 are talking about.

19 First, that they have it visually well in
20 advance, and secondly, that at the
21 teleconference, that they are looking at it
22 visually while they are commenting.

23 We would definitely make sure of that, but
24 again, I wish I were technically competent
25 enough to say that we just do that by twisting

1 the conifer belt to the left and it would all
2 be good, but we would work with our technical
3 experts if the Committee feels that something
4 like this is an appropriate approach.

5 I am committed to a second bite at the
6 apple. Chairman Weatherford is very supportive
7 of making sure that, you know, the public has
8 another look, but if you have better ideas,
9 please contact me, contact our professional
10 staff and we will, we don't have to decide this
11 right now, but I wanted to give you some idea
12 of what our thinking is.

13 SENATOR STORMS: Comment, Mr. Chair.

14 SENATOR GAETZ: Senator Storms.

15 SENATOR STORMS: Okay, so in the past, in
16 my years of local experience of doing public
17 hearings, et cetera, on, like road widening
18 projects and producing PD&Es, which would be
19 very similar to what this would happen.

20 You have got the plan now. Now you are
21 going to present it to the public, and
22 typically it is set up like a charette, where
23 you have that you have got the white boards
24 propped around where people can walk around at
25 the beginning before the public comment.

1 They can walk around and they can look and
2 they will be able to make their notes. And so
3 if we are going to do a videoconferencing, and,
4 you know, I mean, I am for that. I think that
5 is a great idea, then people need to have the
6 hard copy at their location.

7 Now, if that means staff is not there, it
8 doesn't matter to me, but the things have to
9 get there, the white boards have to get there.
10 So maybe we have it at county centers or City
11 Councils or something and we ship them down to
12 county center and they are in a library or
13 something like that.

14 I don't know how that is going to work,
15 but just to kind of give you some things to be
16 thinking of, because it will not work and it
17 will only frustrate the public and expose us to
18 really harsh criticism if our maps here behind
19 us somewhere and it is hard for them to see
20 that.

21 So then the other thing that I wanted to
22 say is back towards what Senator Bullard said,
23 some people, we do want to give people who
24 don't have access to the latest and greatest
25 technology an opportunity to be heard and to

1 express their views.

2 So for instance, they may not have and I,
3 my several, do not Tweet. I, myself, do not
4 have a Facebook page. So I, myself, cannot
5 like things or put out information on Facebook,
6 and I know there are a whole host of other
7 people that do not do that also.

8 They may go to the public library and use
9 the Internet and that is fine, and, you know, I
10 would encourage that, but I just want -- I
11 guess what I am saying is I don't want staff to
12 think and I don't want this Committee to think,
13 to fall into the trap of thinking because we
14 have all of the benefits of the financial
15 resources to make it as technologically
16 effective as possible, that that is true for
17 everybody in the state.

18 So again, on My District Builder, if
19 somebody goes to the public library and goes to
20 and looks at the maps in preparation, but they
21 don't have Twitter and they don't have
22 Facebook, there needs to be a place for them to
23 click on to say they like it or they don't like
24 it so that we are giving everybody a voice,
25 even people who don't have access to the

1 resources to have Twitter and Facebook. Thank
2 you.

3 SENATOR GAETZ: Thank you, and
4 professional staff may want to talk with
5 Senator Storms about, given her experience as a
6 County Commissioner, doing a lot of these kinds
7 of hearings, get her advice.

8 It has also been suggested that we might
9 want to consider a tele Town Hall that would
10 give some of the same features Senator Storms
11 has just discussed, where people really can,
12 can express their views through punching a
13 number into a phone, but we don't have to
14 decide all of the technical stuff now.

15 I just wanted to share with you our
16 commitment to try to do a second bite at the
17 apple, and Senator Storms would be a good
18 resource for us on what to do and what not to
19 do.

20 All right, now we have got a schedule. We
21 know that we are going to move region by
22 region.

23 Now I would like to offer a procedural
24 suggestion, please, as we go through the
25 amendatory process.

1 One of the fears that I believe is out
2 there is that somebody is going to come in at
3 the last minute with no notice, walk in the
4 door and say, here is the map.

5 And so what I would like to suggest is
6 that we view this process much the way we do
7 the appropriations process.

8 In other words, that there is no, no
9 surprises, no gotcha, no sudden amendments that
10 are material that change everything.

11 The procedure that I would like to suggest
12 and ask your support on is that in this
13 Committee, and then I will ask the Rules Chair
14 for his support on the floor if this Committee
15 agrees, that in this Committee we have no late
16 filed amendments.

17 And instead, that there be at least two
18 days notice to the public and to other members
19 of any amendment.

20 Now, obviously we will follow all of the
21 other rules regarding the amendatory process,
22 but typically in Committee you can come in with
23 a late filed amendment and if you can get
24 two-thirds, then your late filed amendment is
25 considered.

1 I would like to just ask you to agree or
2 to consider at least a process where we do not
3 have any surprise amendments, where there be no
4 late filed amendments.

5 If there are late filed amendments, if
6 someone comes in and insist on late filed, then
7 I will vote against all late filed amendments
8 whether introduced by Republicans or Democrats,
9 and I will ask Committee members to support me.

10 But if we could start with a consensus
11 that there won't be late files, that there
12 won't be surprise amendments, then we are not
13 going to embarrass any members of the Committee
14 who come in with a late filed and say, well,
15 gee, I just didn't know that you wouldn't
16 consider it.

17 So I don't mean to be overbearing about
18 this, but I would like to ask for just a moment
19 of discussion about this. Senator Latvala.

20 SENATOR LATVALA: Mr. Chairman, I couldn't
21 agree with you more on late filed amendments.
22 I support that 100 percent.

23 The question that I have is, when -- what
24 is the time frame going to be for things that
25 come from the Committee?

1 In other words, when the proposed
2 Committee Bill comes out, how many days before
3 the meeting will that come out so that we would
4 know what the time frame is going to be between
5 then and when the Committee deadline is?

6 SENATOR GAETZ: I defer to Mr. Guthrie and
7 to counsel, but I believe that five days, five
8 days.

9 SENATOR LATVALA: And not to knit-pick.

10 SENATOR GAETZ: No, sir, go ahead.

11 SENATOR LATVALA: Is that five calendar
12 day or five business days?

13 SENATOR GAETZ: Mr. Guthrie, counsel?

14 MR. GUTHRIE: Depending on how -- once we
15 get into session we are on a two-day notice --

16 SENATOR GAETZ: Let's take it in bites.
17 We are talking about this Committee and its
18 work prior to the December 5th week Committee
19 meeting when we would have a proposed Committee
20 Bill discussed.

21 I think Senator Latvala's question, if I
22 understand him correctly is, okay, we are going
23 to have, if we agree to no late files, when
24 will Senator Latvala and the other members of
25 the Senate and the public see the proposed

1 Committee Bill so that they will know whether
2 or not they need to come in with a properly
3 filed amendment to make sure that some public
4 consideration is met? Five days ahead?

5 MR. GUTHRIE: Well, a full week, so five
6 business days.

7 SENATOR GAETZ: A full calendar week?

8 MR. GUTHRIE: Yes.

9 SENATOR GAETZ: Seven calendar days?

10 MR. GUTHRIE: Yes.

11 SENATOR GAETZ: Seven calendar days.

12 SENATOR LATVALA: Okay, so we are on seven
13 calendar days for what comes from the Committee
14 and two calendar days on amendments from the
15 members? Is that what -- is that what the
16 proposal is?

17 SENATOR GAETZ: Yes, sir.

18 SENATOR LATVALA: Great idea.

19 SENATOR GAETZ: Senator Dean, did you wish
20 recognition, sir?

21 SENATOR DEAN: That will be fine. I am
22 just wondering -- I just want to make sure.

23 SENATOR GAETZ: I don't think your mike is
24 on, sir. Use Senator Latvala's mike if you
25 wouldn't mind.

1 SENATOR HAYS: The bottom line, the bottom
2 line, what I was trying, the difference between
3 the seven calendar days and the two days and
4 the amendments, that is what I was trying to
5 make sure that we had.

6 That we know the rules to live by before
7 we get here and expressly in what he was saying
8 about seven calendar days and then the
9 amendment days. That is what I want to know.

10 SENATOR GAETZ: Yes, President Margolis.

11 SENATOR MARGOLIS: I think it is important
12 that everybody understand that when they submit
13 amendments, that they have to have, if not
14 identical, the identical -- the identical
15 population somewhat between one or two percent
16 and this is on the legislative side of it,
17 congressional side, you don't have that
18 possibility at all.

19 I mean, you have to be accurately there,
20 but the big issue is, oh, I would rather have
21 this district than this district, but the
22 numbers might not be the same and the numbers
23 might not come out right.

24 So I think staff has to have enough time
25 to evaluate each one and as to the numbers. I

1 mean, I think each amendment is going to have
2 to be looked at very carefully before we --

3 SENATOR GAETZ: You are right, Madam
4 President, and one of the rules that we use in
5 the appropriations process, of course, is you
6 can't come in with a spending amendment unless
7 you can show where you are going to get the
8 money.

9 So what I would hope we would do is abide
10 by the same rule, and that is that if I come in
11 and say, you know, gosh, I want Rocky Bayou in
12 the Fourth Senate District, and then I have got
13 to show you where I comply with the laws and if
14 by adding Rocky Bayou to the Fourth Senate
15 District I have got too many voters, then I
16 have got to show you who I am going to propose
17 in that same amendment would not be in District
18 4 and how the exactly as the President says,
19 how then the result complies with the law.
20 That would be the burden of proof, absolutely.
21 Leader.

22 SENATOR GARDINER: That brings up a very
23 good point because I want to make sure that I
24 understand how the amendment would be drafted
25 and submitted, and maybe John can give me some

1 guidance here.

2 Are we going to allow for amendments that
3 are specific to a region, or if an amendment is
4 filed, do you need to submit an amendment that
5 is the entire state of Florida?

6 So if we want to tweak, as very similar to
7 what you are talking about, Chairman, if you
8 are going to tweak a particular area, do you
9 need to take into consideration the impact
10 that, the ripple effect, so to speak, on the
11 rest of the state, or is it going to be an
12 amendment just for one particular region?

13 SENATOR GAETZ: John, would you like to
14 offer your thoughts on that, please?

15 MR. GUTHRIE: Yes. All of the plans that
16 are enacted by the Legislature will be for the
17 entire state.

18 And the way that it works practically is
19 that whether you are changing a single block or
20 totally reconfiguring all of your districts,
21 the way that amendment will be prepared by Bill
22 drafting, is they will take a plan that is in
23 the, on the Senate website and the legal
24 descriptions from that plan for the entire
25 state and put that into the text of an

1 amendment.

2 So the legal descriptions for every
3 amendment will encompass all 27 or 40 or 120
4 districts.

5 SENATOR GAETZ: Leader.

6 SENATOR GARDINER: So I think, and I think
7 that is a very good point to make. Everybody
8 needs to understand that though they may be
9 interested in one particular area, if they are
10 going to come and advocate for an amendment for
11 that one particular area, it will have an
12 impact and it will be proposed publicly as the
13 entire state.

14 MR. GUTHRIE: Yes.

15 SENATOR GARDINER: Okay.

16 SENATOR GAETZ: And that is the reason why
17 we are fortunate to have excellent professional
18 staff. We have -- we have attorneys on our
19 staff, Mr. Guthrie, of course, is recognized as
20 the national expert in this area.

21 If you want to propose an amendment and I
22 am sure there will be amendments and we
23 certainly don't want to discourage amendments,
24 work with the professional staff so that your
25 amendment is, can be, so that your amendment is

1 no discounted out of hand because it upsets all
2 sorts of other apple carts.

3 If it upsets other apple carts, that may
4 be fine, but then let's take into account how
5 that is going to happen.

6 So our professional staff is ready,
7 willing and able to work with you on amendments
8 and then to help you understand the
9 consequences of those amendments and defend the
10 consequences.

11 Leader Rich.

12 SENATOR RICH: Thank you, Mr. Chairman. I
13 do want to support your idea of no late filed
14 amendments. I think that going back to the
15 discussion we had at the very beginning, I
16 think that this adds it your goal of
17 transparency and things not just appearing all
18 of a sudden and having very little vetting.

19 So I certainly support the concept and
20 would, you know, hope that the whole Committee
21 would as well. Thank you.

22 SENATOR GAETZ: Thank you for your
23 support, Leader. Yes, Senator Sachs, and then,
24 I apologize, Senator Storms, you are next.

25 SENATOR SACHS: Thank you very much,

1 Mr. Chairman. In echoing our Leader, Nan Rich,
2 this is probably been the most transparent way
3 that redistricting and reapportionment has
4 occurred in the state of Florida.

5 I know it has taken a little time to get
6 through the procedures, but that is the way it
7 should be, and so I applaud your efforts and I
8 applaud Leader Rich for keeping an eye on
9 everything on behalf of our party and I
10 certainly applaud the staff.

11 I am with you all the way. I don't care
12 how long it takes to get the procedures up and
13 going. The important thing is what it says
14 right up there, keep the process open and
15 transparent. So I applaud these efforts.

16 SENATOR GAETZ: Thank you, Senator.
17 Senator Storms.

18 SENATOR STORMS: Thank you, Mr. Chair.
19 So, Mr. Guthrie, can I just understand, will
20 you help me understand a little bit better what
21 we are talking about here?

22 So staff will submit, we will start with
23 the tolling of the five business days which
24 could, depending on when it comes out, if it
25 comes out Monday morning at 8:00, what is the

1 likelihood of you releasing it like at Monday
2 night at 11:30?

3 Sometimes budgets get released like that,
4 and conforming Bills with 2,000 pages get
5 released like that.

6 So I am wondering what is the likelihood
7 that you would release it like at 11:00 at
8 night?

9 SENATOR GAETZ: Let me answer that
10 question, Senator Storms. There is going to be
11 an immense amount of detailed work here, and a
12 member who comes in and files what they
13 consider to be a simple amendment, may appear
14 to be simple, but may have all sorts of
15 consequences.

16 This staff already has been working night
17 and day, and so there is every possibility that
18 something may be, may be launched, if you will,
19 at 11:30 at night.

20 Every possibility, not because somebody is
21 trying to do something at night, but because we
22 are having to do something at night. So I
23 don't want there to be any expectation that
24 there are going to be any surprises.

25 That is why I am proposing these

1 procedures, but please understand that the
2 lights are probably not ever going to get
3 turned off in the Senate Reapportionment
4 Committee as we get closer to this process, and
5 there will be launches made in the middle of
6 the night, but that is why we have seven
7 calendar days.

8 There are not going to be any surprises
9 here if this Committee supports our proposal
10 for the no surprises procedures.

11 SENATOR STORMS: So follow up, Mr. Chair?

12 SENATOR GAETZ: Of course.

13 SENATOR STORMS: So Mr. Guthrie, so we
14 have an 11:00 Monday night release of the
15 initial Bill. Then when, when does, if it was
16 five business days, if that is when it starts
17 ticking, when does that stop?

18 When does that five business days stop in
19 your professional opinion?

20 MR. GUTHRIE: Thank you, Mr. Chairman.
21 The -- in redistricting, whether we are talking
22 about legal reviews or public notice prior to
23 Committee meetings, what is important is to
24 work from the end time back.

25 So let's, so if we have a meeting that is

1 scheduled for 2:00 p.m. on Wednesday afternoon,
2 the seven days would in my mind would be 2:00
3 o'clock p.m. the prior Wednesday.

4 SENATOR STORMS: Mr. Chair, follow up.

5 SENATOR GAETZ: Yes, Senator Storms.

6 SENATOR STORMS: Where is the two days for
7 the amendments, because as I am understanding,
8 for the amendatory process, because as I am
9 understanding what Senator Latvala, and I
10 haven't done this before.

11 I did redistricting at the local level
12 with local County Commission seats, but not
13 here.

14 So I am saying, as I understood the
15 process, there is a five-day initial Bill and
16 there is two business days to do the amendatory
17 process.

18 MR. GUTHRIE: Okay, so in that same
19 Wednesday scenario, two days prior to 2:00 p.m.
20 on Wednesday would be 2:00 p.m. on Monday.

21 SENATOR STORMS: Okay, so then and then
22 you would back up your five business days from
23 that 2:00 p.m. on Monday, to five business days
24 before that is when you would expect to have it
25 released, that is what your goal is right now

1 as we talk today?

2 MR. GUTHRIE: Yes.

3 SENATOR STORMS: Okay, so one more
4 question, Mr. Chair?

5 SENATOR GAETZ: Of course.

6 SENATOR STORMS: So historically how long,
7 how big has the text been, not the maps, but
8 the text of the Committee Bill been? What size
9 of a document are we talking about?

10 SENATOR GAETZ: Mr. Guthrie.

11 MR. GUTHRIE: Hundreds of pages for the
12 legal description. In your packet today we
13 have the verbiage that goes with that Bill
14 which is only four pages, but once you add in
15 the legal descriptions, it grows much longer.

16 Now, by keeping counties and VTDs whole,
17 you will make that throw weight a lot lighter.

18 SENATOR STORMS: And so is that -- just to
19 clarify. Are we talking about 800 pages or are
20 we talking about 2,200 pages, in general, in
21 your experience?

22 MR. GUTHRIE: We are talking about two or
23 300, 400 pages.

24 SENATOR STORMS: Okay. I am just trying
25 to understand.

1 SENATOR GAETZ: And the reason for that,
2 Senator Storms, again, so that we will all
3 understand, the public will understand, and I
4 don't mean to use this as a pejorative, but the
5 Federal Healthcare Reform Bill was a very long
6 bill, whether you were for it or against it.

7 It was a very long Bill and some people
8 said that they didn't believe that members of
9 Congress fully understood it or even read it,
10 maybe they did, maybe they didn't.

11 The reason why this proposed Committee
12 Bill will be the length that it is, is not to
13 create a forest in which you can't find the
14 trees, but because it is required that the
15 legal descriptions be in the Bill. They have
16 to be in the Bill. Leader Gardiner.

17 SENATOR GARDINER: Just to, maybe this
18 will help clarify a little bit. If it is five
19 business days and then I as a member of this
20 Committee decide that I want to do an amendment
21 to what has been filed, if I were to come to
22 staff and say, I want to change one particular
23 area for whatever reason it may be.

24 How long, working with the staff here,
25 would it take to draft an amendment, to tweak a

1 particular area, take into consideration the
2 ripple effect, an hour, a day? How long would
3 something like that take?

4 SENATOR GAETZ: Mr. Guthrie, how do you
5 want us to work with your staff? Again, if
6 everybody didn't hear the Leader's question.

7 We get a draft of a proposed Committee
8 Bill, and again, if we are doing this the way
9 we ought to do it, the proposed Committee Bill
10 is not going to be something that we go, wow, I
11 never saw that before.

12 But rather it would be the product of the
13 regional guidance, the guidance as to specific
14 regions that this Committee gives to our
15 professional staff, and the proposed Committee
16 Bill then is the fitting together of that
17 guidance as opposed to, on my God, I never
18 imagined that they would do that. That is
19 different.

20 So -- but in any case, there you have it,
21 now we have the proposed Committee Bill, and
22 let's assume it is Senator Gardiner, Senator
23 Rich, any number of other people that come in
24 and say, boys, you just didn't get it. You
25 didn't do this right.

1 I have got an amendment, or, you know, my
2 constituents have contacted me, you know, they
3 are concerned about something. How do you want
4 us to work with the professional staff in that
5 context, as to timing, how much time will it
6 take, you know?

7 Give us a little direction here because we
8 know your folks are going to be working often
9 around the clock, but we want to make sure that
10 we can get our amendments out, too.

11 MR. GUTHRIE: So we are not going to be
12 working with the Bill language. All of the
13 work that you will do and the staff will do, I
14 don't read the legal descriptions either.

15 They must go in the law as the Chairman
16 said, but none of us will be amending or
17 working on legal descriptions. We will be
18 working on maps.

19 SENATIR GARDINER: Right.

20 MR. GUTHRIE: And the fundamental rule of
21 keeping your populations equal is that if you
22 are going to add territory to a district and
23 keep population equal, you are probably going
24 to have to take something else out.

25 And so where you add you have grown into

1 another district. Where you remove population,
2 another district is going to be growing into
3 you, and that creates this rotation that may
4 involve two or four, sometimes 12 or 15
5 districts are impacted by, as Senator Gaetz
6 said, the ripple effect or the rotation that
7 must occur to get your population back to
8 equal.

9 And the more, so the more extensive the
10 change, the longer it is going to take.

11 SENATIR GARDINER: Mr. Chairman, I guess
12 my question is, if I come in and I say I want
13 to tweak this little area, take into
14 consideration exactly what you, your example,
15 you are looking at the computer, I am looking
16 at the computer.

17 Is it an hour, is it two hours? How long
18 would something like that take?

19 MR. GUTHRIE: If you have got in mind the
20 full rotation, how the whole thing is going to
21 balance out, then it can be done in a matter of
22 minutes.

23 Once I get a plan I drop it into a hopper.
24 It runs through an automatic process and which
25 produces what you see on the Senate website.

1 So for each of the 64 plans that we have
2 already, they each have their own plan page on
3 the Senate website.

4 We have got PDF reports, we have got
5 spreadsheets where you can look at the
6 statistics for those plans. We have got the
7 map. We have got the downloads, and you can
8 actually pull up the districts to explore
9 application and look at the map interactively.

10 SENATOR GAETZ: Senator Gardiner to follow
11 up, then we will go to Senator Dean.

12 SENATIR GARDINER: Yes, it may be more of
13 a comment, Mr. Chairman. I know that the
14 members are learning how to use this computer
15 system.

16 I think it is very important when these
17 amendments are being filed that they are
18 working with John and their staff, because what
19 I wouldn't want to see is somebody does an
20 amendment, comes to the Committee and it is
21 possibly not done exactly right and it is
22 discounted and thrown out because they have not
23 worked with staff.

24 Maybe they were working with their own
25 staff, their own legislative staff, but I think

1 it is so important that whatever that amendment
2 is, that they are working with John so it is
3 not just completely discounted as soon as it
4 comes in here because they took from one area
5 and didn't take into consideration the
6 ramifications somewhere else, so.

7 SENATOR GAETZ: And that is why, and
8 Senator Dean is next, but that is why we are
9 very sincere in saying, if you have some, a
10 point of view about your area based on your
11 knowledge of the geography, the demographics,
12 the Town Hall meetings you have with your
13 constituents, the mail you are getting, if you
14 have a particular point of view about your area
15 or my area or some other part of the state or
16 some other aspect of this process, please don't
17 hold your cards to the very end, because there
18 is a risk there.

19 And Leader Gardiner has articulated the
20 sub text of that risk. Please come forward, if
21 you don't want to talk to me, that is fine, you
22 can talk to John, you can talk to the other
23 members of our staff and say, now, look, I have
24 got a particular point of view here that is
25 informed by the testimony that we have taken,

1 informed by what I am hearing from my
2 constituents and I want you to take that into
3 account and take that seriously.

4 So, you know, play those cards as soon as
5 you possibly can. We really want to get the
6 information out.

7 Senator Dean.

8 SENATOR DEAN: Based on that assumption
9 that we are all going to have and dissent,
10 impact on different things and moving like one
11 district or bring another one in, an enclave of
12 voters or moving them out, I have all or part
13 of 13 different counties.

14 Every time somebody touches a map they are
15 going to be moving me. So please, I am just
16 going to beg you, I am going to try to bring my
17 staff up here, let you train them and let them
18 sit me down as often as they can and mess with
19 my mind about being confused.

20 Because the fact is, there isn't anything
21 that I have seen so far anywhere, except maybe
22 further down in Senator Bullard's district in
23 Key West, or South Florida, that is not going
24 to move my line somewhere.

25 So I am concerned that I keep up to speed,

1 my staff keeps up to speed with you, but as
2 someone that does a good job as I say in Putnam
3 County or here in Leon County or somewhere, one
4 of the counties that I am a part of, moves me
5 or puts me in or takes me out, it is almost
6 going, I am going to have to have somebody to
7 sits by the computer every day to talk to you
8 to see how I have been moved or where the
9 district is.

10 So I don't want to poor mouth, but there
11 isn't much I have seen so far that isn't going
12 to effect me in every way because of all or
13 part of the 13 counties that I represent.

14 SENATOR GAETZ: Senator Dean makes an
15 excellent point and other Senators. I think
16 Senator Dean makes that point
17 disproportionately because he really is
18 affected disproportionately, but everybody
19 else, you know, we are going to keep the coffee
20 pots on downstairs and I would encourage you to
21 have your staff stay connected in real time to
22 what is going on.

23 Nobody is going to say, don't come down
24 here. Nobody is going to say, we don't want to
25 hear from you. We really do want to hear from

1 you and we want your staff connected, and we
2 don't want surprises.

3 There will be surprises in the process
4 because that is the nature of the process, but
5 as much as we can eliminate surprises, then to
6 Leader Gardiner's point, we are not going to be
7 discounting what may be a good idea because,
8 because it didn't get vetted.

9 And so it throws off Senator Dean's
10 district, it causes some retrogression
11 somewhere. It creates an equity problem
12 someplace else or a compactness problem that we
13 can't resolve.

14 So it is critical that we all stay
15 engaged, and I am sorry, I know we are all
16 real, real busy, we all have other Committee
17 assignments, we have Bills. This is once in a
18 decade.

19 Senator Lynn -- I am sorry, Senator
20 Bullard, then Senator Lynn.

21 SENATOR BULLARD: Thank you, Mr. Chairman.
22 I want to thank Senator Gardiner for beginning
23 this dialogue because we definitely need to
24 discuss this.

25 Senator Dean is right on target. There

1 was a lot of movement in 2002, and I just -- I
2 am feeling that this is really grand what we
3 are doing in terms of transparency. I like
4 this.

5 However, I want to be assured that at the
6 late night hours, and I mean, I know, I am
7 happy that today we cut off at a certain time,
8 and that we are not living into 2:00 in the
9 morning unless we move to do that.

10 But in the late night hours when someone
11 says, well, you know, let's do this, and
12 something is changed and that happened a lot in
13 2002.

14 As a result, District 39, I am not going
15 to say my, but District 39, that district was
16 not constructed. I did not know where that
17 district and where my people were until six
18 months later, and the elections were over and
19 people did not know they were in the district.

20 It was a very -- it wasn't a nice process,
21 and I, and I am against that and I am very
22 cautious in moving forward, because -- how do
23 you know?

24 You don't know until once it has happened,
25 and once it has happened, you, that is it, and

1 you have it, but you don't know that you have
2 it.

3 So I do appreciate the transparency, but I
4 really want to understand and hopefully and
5 prayerfully people will have the conscious to
6 not go at the 11:30 or the 12:00 or the 11:55
7 hour and decide that, you know, we are going to
8 change this.

9 SENATOR GAETZ: Well, that Senator
10 Bullard, is why the Majority Leader and the
11 Minority Leader I believe are supporting the
12 idea of no last late, you know, no late filed
13 amendments and appropriate public notice.

14 If you don't know what the proposed
15 Committee Bill is and how it affects your
16 district, it won't be our fault. If you don't
17 know in advance about an amendment, it is
18 because you didn't look at the amendments as
19 they were being filed, and if you, if any
20 Senator needs, needs assistance in
21 understanding how to stay abreast of the
22 process, and as Senator Dean says, staying
23 connected to the consequences for your
24 district, the district you represent, please
25 hang out down in the Reapportionment Committee

1 office.

2 Have your staff members stay in close
3 touch, get a staff member of yours to buddy up
4 with one of the staff members in the
5 Reapportionment Committee so you can stay
6 connected. I believe Senator Lynn was next.

7 SENATOR LYNN: Thank you, Mr. Chairman.
8 You have been amazingly transparent and very
9 open with everything you have done. You have
10 allowed endless numbers of people to speak on
11 anything and everything they wanted to do
12 pertaining to the maps.

13 And I think the ultimate goal that we must
14 always keep in mind, and I think you have kept
15 us on track, is what is going to be the best
16 map for the state of Florida in terms of how it
17 best represents the people of the state of
18 Florida and gives them opportunities.

19 So as we are talking about amendments and
20 concerns about specific districts and so forth,
21 I think it is very, very important that we keep
22 in mind, it is not that it relates to
23 somebody's district.

24 It is a district that has a variety of
25 concerns and interests that you maybe will

1 speak to in terms of how it will best serve
2 those people and I would not want anything to,
3 that was said to be misinterpreted that someone
4 on this Committee might be looking to protect a
5 district for themselves, because I don't
6 believe that is what was intended, but I do
7 believe we need to make that very clear, that
8 what we are working on is to provide districts
9 that will best represent the people in the
10 state of Florida and respond to the many issues
11 that we heard.

12 SENATOR GAETZ: Thank you very much,
13 Senator Lynn. Any other comments at this
14 point? If not, we would like to move -- yes,
15 sir, Senator.

16 SENATOR MONTFORD: Thank you, Mr. Chair, I
17 am not exactly sure if this should be now or at
18 the end, but I will go ahead and take this
19 opportunity.

20 I attended 11 out of the 26 public
21 hearings and I never thought we would get to
22 the point where we are today, and that is, I
23 think a sense of comfort, and that comes I
24 think from your direction and the work of the
25 staff.

1 In my own personal life back with the
2 school rezoning I didn't think anything could
3 be worse than that, but through the public
4 hearings people were agitated, but interested,
5 and I think you have gone, taken extraordinary
6 efforts to keep it transparent so that
7 everybody would have, everybody would have a
8 chance to speak, and have time to react, and I
9 think that was more important than anything.

10 So I just want to say thank you. I have
11 learned a lot in this process already. I
12 didn't think we could get to this point as
13 where we are, at least at this comfort level.

14 So thank you from my constituents, thank
15 you and the staff for making it to the point
16 where we are today.

17 SENATOR GAETZ: Thank you, Senator
18 Montford. Although I would emphasize that we
19 are still in the pre-game, we are, we are
20 about, the whistle is about ready to blow to
21 start the game, to start the real process.

22 And John, what I would like to do is just
23 move out of order just a little bit, if you
24 wouldn't mind, because of the fact that we have
25 had a very thorough going and useful

1 discussion, come to consensus on a number of
2 things.

3 John, if it is all right with you, may we
4 please move to tabs three and four now for a
5 discussion of the format for the joint
6 resolution of apportionment and the Bill
7 establishing Congressional Districts?

8 It is important that we give our
9 professional staff our guidance and approval of
10 that format, because those are the two by six's
11 and two by eight's that really form the
12 framework for how we are going to build the
13 rest of this legislation.

14 Is there any objection to moving to tabs
15 three and four? If not, John, would you please
16 take us through that information?

17 MR. GUTHRIE: Thank you, Chairman. Tab
18 three is the format for a Senate Joint
19 Resolution of Apportionment.

20 As we noted earlier, the Joint Resolution
21 is only four pages long when you take out the
22 legal descriptions.

23 The most important part of a joint
24 resolution is right here in the title where we
25 cross reference the Joint Resolution to Senate

1 plan numbers, and we have worked out a naming
2 convention with the House so that the House of
3 Representatives and the Florida Senate is, are
4 both going to be using the same numbers for
5 plans.

6 So what that, the two blanks on this page,
7 on line four are going to cross reference a
8 plan that exists in the Senate's submitted
9 plans folder, okay, and here are the 64 plans
10 that have been submitted by the public so far.

11 If a Senator submits a plan, it will
12 appear in this same list and for any of these
13 proposals, if you click on the plan name, you
14 go to the plan details page and among the
15 downloads for that plan is a legal description
16 of the districts.

17 And by, if we open that legal description,
18 we see all of the numbers that we were
19 referring to earlier that just go on for page
20 after page after page.

21 That is what will get inserted into, in
22 the case of Senate Joint Resolution, line 57 is
23 where the State House Districts will be
24 inserted, and line 62 is where the State Senate
25 Districts will be inserted.

1 And when we insert, so when we insert all
2 of these numbers that is when this simple
3 little four-page document becomes scores, if
4 not hundreds of paged long. Okay.

5 SENATOR GAETZ: President Margolis.

6 SENATOR MARGOLIS: In preparing an
7 amendment, you are going to have to delineate,
8 you have a legal description with every number
9 there, every one of those blocks?

10 MR. GUTHRIE: In order for a plan to be --

11 SENATOR MARGOLIS: So the legal
12 description is attached to a number? Have you
13 -- have you --

14 MR. GUTHRIE: So back to the plan page
15 here, this is S pub S 0064.

16 SENATOR MARGOLIS: Right, right.

17 MR. GUTHRIE: Senator Margolis, if you
18 were to submit the next plan, it would be S
19 035, which is your district number.

20 SENATOR MARGOLIS: Right.

21 MR. GUTHRIE: If it were a Senate plan,
22 this would, the fifth, the fourth letter is
23 either S, H or C, indicating it is a Senate,
24 House or Congressional plan, and then the 0064
25 is just a sequential number so the next one

1 might be 65.

2 SENATOR MARGOLIS: And in submitting plans
3 they have to be full plans?

4 MR. GUTHRIE: In order for a plan to be
5 considered for a Bill or an Amendment, and a
6 legal Bill or an Amendment, it must be a
7 complete plan, yes.

8 SENATOR MARGOLIS: And you would have --
9 you would input the legal description based on
10 the plan or it will be up to the individual?

11 MR. GUTHRIE: What you -- what you would
12 do is in the District Builder software -- let's
13 go to that, I don't have that opened still.

14 In the District Builder software there is
15 a submit button. When you click the submit
16 button it sends a copy of your plan to the
17 redistricting staff.

18 It also sends you an e-mail saying, here
19 is the thumb print, a number that indicates the
20 thumb print of that plan.

21 I take what you submit and drop it into an
22 automatic process which results in the plan
23 appearing on the Senate web page. So I take
24 the e-mail that you send to me, using the
25 submit button on District Builder, drop it into

1 a hopper and it automatically then appears on
2 the Senate website.

3 So what I as professional staff can
4 guarantee you and the public and the courts, is
5 that the block assignment file, which is the
6 definition of, in Department of Justice format
7 of where, what district each block in the state
8 is assigned to, matches up with all of the
9 reports, all of the statistical reports that we
10 are providing on this page, and with all of the
11 downloads, including the legal description that
12 we are providing on this page, and with the
13 maps that we are providing on this page.

14 SENATOR MARGOLIS: And --

15 SENATOR GAETZ: Yes, ma'am.

16 SENATOR MARGOLIS: Just to get back to the
17 original question. The block, I mean, if you
18 look at a block and I happen to have a map, you
19 know, that has blocks on it, so I know, I guess
20 everybody does, and -- and -- but -- but if
21 you, if I told you the block number that I
22 would like to put into a plan, you have the
23 legal description for the block number, I
24 assume?

25 MR. GUTHRIE: Yes, yes, yes. That is

1 established by the United States Census. So
2 the census geography is --

3 SENATOR MARGOLIS: It is all there.

4 MR. GUTHRIE: An official legal
5 description for purposes of describing.

6 SENATOR MARGOLIS: So if somebody comes in
7 and said, you know, I want to exclude block
8 this and include block that, that, I mean,
9 without going through a big rigmarole to define
10 it by a legal description, you could just plug
11 that in?

12 MR. GUTHRIE: Right.

13 SENATOR GAETZ: And President Margolis, I
14 would just say this for all Committee members.
15 We want to make the amendatory process Senator
16 friendly, and so I may not know the census
17 block.

18 MR. GUTHRIE: You don't need to.

19 SENATOR GAETZ: I just know Rocky Bayou,
20 you know, it is, I think it ought to be in the
21 Fourth Senate District. It is not now, and so
22 I come to John and say, John, get out your map
23 of northwest Florida, I am going to point here
24 with my finger to Rocky Bayou.

25 See how we got testimony that said that

1 these people think that they are in the wrong
2 place and they want to be in the Fourth Senate
3 District or whatever.

4 Help me out in developing an amendment
5 that will articulate that change. Obviously,
6 as technical savey you can be, that is
7 terrific.

8 But if what you are is a guy like me comes
9 down with a map and a finger and says, this is
10 a problem that we didn't take care of that we
11 heard in testimony that we should take care of,
12 we want to make this process Senator friendly,
13 but -- but, but, but.

14 If I want to do that and I know I want to
15 do that, I shouldn't wait until the last dog is
16 hung. I should come down tomorrow. I should
17 come down this next week.

18 I should come down soon and say, John,
19 this is a concern. Now, we heard the testimony
20 and when you prepare the proposed Committee
21 Bill, listen to what we heard from the people
22 who testified.

23 So that we are not crowded all up at the
24 end of the day with lots of amendments, because
25 a lot of what we want to do can be included in

1 the proposed Committee Bill. We have got the
2 testimony. We have got the maps. We have
3 heard what people have to say.

4 So please, if you know what you want to do
5 because of what you have heard, what we have
6 heard, the maps that we have received, bring
7 that information forward as soon as you can.
8 But we will make it as friendly as we can make
9 it.

10 Other comments or questions? Do you see
11 the format before you? John, procedurally,
12 what do you want us to do? Do you want us to
13 by consensus give you guidance on this?

14 MR. GUTHRIE: Well, this will be the, what
15 we come forward with in the proposed Committee
16 Bill. So we will take this language.

17 It very simply, it includes a cross
18 reference to the plan numbers. It says that
19 the 2010 Census is the census for purposes of
20 redistricting in this state.

21 It defines as we were, block, track,
22 voting tabulation district, with the -- with
23 the specific definitions that they have for
24 redistricting Bills.

25 It has a place for the House and Senate

1 Districts. It has Section 4 and Section 5
2 which are provisions that would cure an
3 inadvertent completeness problem or contiguity
4 problem with a plan that was passed by the
5 Legislature.

6 And the draft says that the new districts
7 will apply for future elections, so for the
8 election starting with 2012.

9 SENATOR GAETZ: Any questions about this
10 format? President Margolis has raised a very
11 good point as to how we would proceed to fill
12 in the blanks here.

13 Any other questions about the format? If
14 not, John, then I think you can take from the
15 Committee their support for the format and to
16 go forward on that basis.

17 John, I think that while we had planned to
18 maybe review individual maps that we have
19 received in testimony to date, why don't we
20 defer that for the regional meetings if that is
21 agreeable with you.

22 Is there any reason why we should not do
23 that, because I would like to make sure we have
24 time for public testimony today.

25 MR. GUTHRIE: That is an excellent

1 suggestion. This slide shows a break down of
2 the 64 plans that have been submitted thus far.
3 So we have got a total of 34 Congressional
4 plans, 12 Senate and 18 House.

5 Among those, 20 of the Congressional plans
6 are for the entire state. Six of the Senate
7 plans are for the entire state, and four of the
8 House plans are for the entire state.

9 So that is the break down of what we have
10 gotten from the public so far. All of those
11 are listed on the Senate Redistricting website.
12 So from the Florida Senate home page, go to the
13 Redistricting link, and then if you click
14 submitted plans, you have got a listing of all
15 64 of those plans, and by clicking on any of
16 those plans you can launch its page.

17 You can launch District Explorer. Senator
18 Bullard said she had trouble ten years ago
19 knowing the details of where her district went.

20 Well, now within five minutes of when a
21 plan is dropped into the hopper, anybody in the
22 world can get neighborhood level detail about
23 exactly where the lines are drawn.

24 Nowhere else is that being provided to the
25 public or to -- or to Representatives and I

1 think you can take great comfort in that
2 information.

3 SENATOR GAETZ: And I would encourage
4 Senators to go now in the next few days. I
5 know everyone is busy, but to go to the
6 submitted plans, because let me emphasize
7 again, that the plan that I hope to vote for,
8 the Committee Bill that I hope to vote for will
9 be derived from the information we have
10 received from the public and the information we
11 will receive from the public.

12 There is not going to be a magical plan
13 sprung fully grown from the brow of Zeus. That
14 has no basis in the information and input that
15 we have received from the public. That is just
16 not going to happen in this Committee.

17 And so I would urge you to go and become,
18 into the District Builder, become familiar with
19 what has been submitted and what will be
20 submitted, because my expectation is, my hope
21 is that now that we have set a deadline of
22 November 1st, that some of those who have, who
23 have kind of laid back may come forward.

24 I want to announce again just so you know
25 that I have signed and during this meeting I

1 have signed letters along with Chairman
2 Weatherford to civil rights and minority rights
3 advocacy groups around the state asking them
4 now to please, at long last, come forward and
5 give us the benefit of their thinking.

6 At this point, and we will do this as a
7 matter of form at every single meeting. It is
8 just something we want to do to make sure
9 everybody is included.

10 Are there any Senators, any members of
11 this Committee who wish to offer any plans for
12 the Committee's consideration today?

13 Anybody would like to make a presentation
14 of any plan or comment on any plan that has
15 been presented by someone else? And I am sure
16 this will be a livelier part of the meeting,
17 probably the main part of the meeting going
18 forward, but I want to make that offer to every
19 member of the Senate today.

20 All right, are there any Representatives
21 of any, and I don't mean this in a pejorative
22 way, when I say special interest, American
23 Cancer Society is a special interest group,
24 and, you know, special -- any members of any
25 interest groups who are here today who wish to

1 offer a plan, having had the opportunity,
2 couldn't attend one of our 26 hearings, maybe
3 hung back, waited to see when was the right
4 time? Any members of any interest groups who
5 wish to come forward today?

6 Finally, are there any members of the
7 public who wish to come forward today and offer
8 any public testimony on any plan that has been
9 submitted, any plan that you would like to
10 submit or to comment on anything that you have
11 heard today about the process, the procedure or
12 the timelines of this Committee? Any member of
13 the public?

14 If not, then let me showcase for you again
15 that we will be meeting next the week of
16 October the 5th, is that right? Do we have a
17 date from the President's office?

18 It is October 5th, and do we have a time?
19 Say that again, please. 1:00 to 6:00, and what
20 day of the week is that?

21 A VOICE: Wednesday.

22 SENATOR GAETZ: Wednesday, October 5th,
23 from when to when?

24 A VOICE: Starting at 1:00.

25 SENATOR GAETZ: Beginning at 1:00, and

1 that will be a very meaty discussion. We will
2 begin looking at maps that have been submitted
3 for northwest Florida and maps that might be
4 submitted between now and then.

5 Is there any other business to come before
6 the Committee today?

7 I would like to ask the Majority and
8 Minority Leaders if they have any comments
9 before we conclude. Senator Rich?

10 SENATOR RICH: I think we took care of a
11 lot of the housekeeping and I am looking
12 forward to the next meeting when we will
13 actually get into the nuts and bolts with the
14 maps and really dealing with what the people
15 out there have to say.

16 And just, it will be a very interesting
17 and I want to say just kind of enlightening
18 process to all of us as we move along, so.

19 SENATOR GAETZ: Thank you, that is a good
20 adjective. For those who have not been
21 involved before.

22 SENATOR RICH: Right.

23 SENATOR GAETZ: We hope it is
24 enlightening. We have heard it might be other
25 things, too.

1 SENATOR RICH: Right.

2 SENATOR GAETZ: Leader Gardiner.

3 SENATIR GARDINER: Thank you,
4 Mr. Chairman. As I mentioned earlier, just
5 thank you for the openness and really all of
6 the members of the Committee.

7 It is enlightening, but it is also
8 rewarding if everybody is working together and
9 there is no surprises and it is done in a
10 transparent fashion.

11 I think we have done that and I think we
12 have laid out a roadmap to continue that. So
13 thank you, Chairman and everybody have a safe
14 trip home.

15 SENATOR GAETZ: And with that, Senator
16 Margolis moves we rise.

17 (Whereupon, the proceedings were
18 concluded.)

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: We are pleased today to
3 welcome to this committee and to the Florida
4 Senate the newest Senator of the State of
5 Florida, Senate 1, Senator Audrey Gibson,
6 formerly State Representative, now a member of
7 the Senate. And, Senator Gibson, we know what
8 we all did to be placed on this committee, good
9 or bad, and we are not sure what you did, but
10 in any case, we are glad you are here, and the
11 Chair recognizes you for any introductory
12 comments, Senator.

13 SENATOR GIBSON: Thank you, Mr. Chair, and
14 I am extremely delighted and excited to be
15 here, and all I did was ask.

16 SENATOR GAETZ: Well, ask, it shall be
17 given, and knock, it shall be open unto you, I
18 guess.

19 Good afternoon, members. First, a matter
20 of just making sure that we are doing our due
21 diligence properly here. I believe, I hope,
22 that all of you received the memorandum which
23 summarized the consensus determinations that we
24 made at the last meeting, laid out procedures
25 that the committee will follow.

1 Let me begin by asking, is there anything
2 about that memo that lacks clarity? Is there
3 anything that you wish to discuss? Is there
4 anything that you believe was unfaithful to our
5 conversations at the last meeting, any member?
6 I'm sorry, Leader Rich, did you seek
7 recognition?

8 SENATOR RICH: Yes, Mr. Chair, just to say
9 that we don't have the memo with us, so if you
10 would allow us to just take a look at it again
11 to make sure that, you know, there's clarity --

12 SENATOR GAETZ: Of course. Why don't we
13 return to that at the end of the meeting --

14 SENATOR RICH: Great.

15 SENATOR GAETZ: -- to make sure if there
16 are any corrections that anybody wishes to
17 make. And, John, can you -- do we have a copy
18 for Leader Rich? Are there other members of
19 the committee who have not had an opportunity
20 to look at the memo? Senator Latvala, Senator
21 Diaz de la Portilla. Do we have some extra
22 copies? Don't be shy. We can make more. And
23 I would like an extra copy, too, when you are
24 finished.

25 And, Senators, the intent of this

1 memorandum, which was sent out on the 27th of
2 September, was to summarize the discussion that
3 we had at the last meeting to memorialize the
4 agreements that we made about how we would
5 proceed, and to try to be faithful to some of
6 the cautions that members of the committee had
7 for us to avoid last-minute amendments and
8 those sorts of things. So if you have not had
9 a chance to review the memo, please do, and as
10 Leader Rich has suggested, we will come back to
11 it later in the meeting to see if anyone has
12 any corrections or additions.

13 Our purposes today are to go through the
14 first region of Florida that we have identified
15 for discussion of district lines and
16 boundaries. Today and in our next three
17 meetings, we will move through the state,
18 region by region, discussing scenarios for
19 drawing congressional and legislative maps
20 based on suggestions and maps submitted by the
21 public, by interest groups and by Senators.

22 The next time we meet, to give you
23 previews of coming attractions, the next time
24 we meet we will look at northeast and central
25 Florida. Specifically in our next meeting, we

1 will be discussing the area from Suwannee River
2 east to Jacksonville, and from Pasco County
3 across to the east coast, including Orlando and
4 the surrounding areas. So that will be a very
5 substantial discussion. At our November
6 meetings, as we mentioned before, we will be
7 considering southeast and southwest Florida.

8 Let me just stop here so that we, again,
9 don't have any unpleasant surprises, and let's
10 discuss the practical application of what I
11 will call the seven-day rule, which by
12 consensus we adopted at our last meeting.

13 If any member of the public or any Senator
14 has a plan for northeast or central Florida for
15 our inclusion on the agenda for October 18th,
16 please make sure to submit that plan no later
17 than the first thing next Monday morning, which
18 is October 10th, so it can be included at the
19 meeting notice that is due before noon that
20 day. The purpose is to make sure that we are
21 not having any surprise maps, and that any
22 suggestions and any proposals are publicly
23 noticed so that the public and members of this
24 committee and anybody else who cares has an
25 opportunity to review what we will discuss

1 before we discuss it.

2 Today, as I indicated, we will start with
3 scenarios for northwest Florida. These
4 scenarios are drawn directly from the testimony
5 that we have received at the three public
6 hearings that we held in northwest Florida and
7 the public hearing that we held here in
8 Tallahassee to begin the hearing schedule that
9 took us to 26 locations across the state.

10 We will begin with a staff presentation
11 summarizing the scenarios that we have received
12 from the public, and then giving us -- trying
13 to draw together the themes from that testimony
14 that we can use for drawing districts in this
15 part of the state. After we have heard from
16 the staff and they have reminded us of the
17 scenarios that were presented, the themes that
18 are drawn from those scenarios, then we do have
19 a number of members of the public who have
20 signed up to speak, and we are delighted that
21 they are here. If you wish to speak before the
22 committee, we want your testimony, but we would
23 like to ask you to please fill out a blue
24 appearance card. And who has the blue
25 appearance cards? John has them, Mr. Guthrie

1 has the appearance cards. They are not blue
2 today, they are white. So fill out an
3 appearance card, they are sitting right there,
4 and then we will call on you in order so that
5 we will have a chance to hear from everybody
6 who wants to speak today about northwest
7 Florida. We are not going to take testimony
8 today about south Florida or about the process
9 or about, you know, any other topics. We are
10 going to take testimony specifically about
11 maps, districts, boundaries and borders for
12 northwest Florida.

13 Following that, we will have a committee
14 discussion and debate, and then I will ask the
15 committee if they can provide some direction to
16 our professional staff as they begin the
17 process of developing a proposed committee
18 bill. Obviously, as Henry Kelley, who is here
19 today and who is one of the citizens who drew
20 maps, as Mr. Kelley reminded me, the minute
21 that you drop a pebble in the water in
22 Choctawhatchee Bay, there are waves that wash
23 up, you know, in south Florida. So when we
24 begin to draw lines and develop guidance for
25 our professional staff as to northwest Florida

1 and north Florida, we begin to implicate the
2 other parts of the state. So we are not doing
3 this in isolation or in silos, but we are
4 trying to bite into the apple here region by
5 region, understanding that we will have to come
6 back and make sure that we have followed all of
7 the laws and requirements that we have.

8 So unless there are other questions about
9 our procedure for today's meeting, I would like
10 to skip forward to tabs four, five and six, and
11 recognize John Guthrie, who is our professional
12 staff director for the Reapportionment
13 Committee. And, Mr. Guthrie, would you please
14 make a presentation on the congressional and
15 legislative districts in northwest Florida?
16 You are recognized.

17 MR. GUTHRIE: Thank you, Chairman, and if
18 I may, what I would like to do is provide the
19 committee a bit of an overview of the resources
20 that your professional staff used for
21 assembling the content that we delivered to you
22 for the committee meeting today. Primarily it
23 is the public record, all of which is available
24 to you and to citizens through the Senate
25 website.

1 The way you get to the Senate
2 redistricting website is from the main Senate
3 page, which is www.flsenate.gov. Down in the
4 lower left-hand corner, there is a link to
5 redistricting, or under "Session," there is a
6 tab for "Redistricting." If you choose that,
7 you go to the redistricting home page. The
8 front page is an invitation for the public to
9 stay engaged in this interactive process. The
10 "U.S. Census Data" tab provides a variety of
11 ways of looking at and accessing the vast
12 amount of census data that are available for
13 redistricting.

14 The public hearings page includes a record
15 of all 26 of the public hearings that this
16 committee had during the summer. So we
17 traveled to 26 locations, we heard from almost
18 5,000 citizens, 1,700 people testified, and
19 this is the record that was created. For each
20 hearing, we have the handouts and displays that
21 were available at the hearing site, a hearing
22 report that tells you about what additional
23 submissions the committee received, the hearing
24 transcript -- now, not all of the hearing
25 transcripts are present yet. We have not yet

1 gotten them back from the court reporting
2 service, but as those hearing transcripts come
3 available to us, we immediately post them
4 on-line for you and the public. We also have
5 podcast and video-cast for each of the
6 hearings. So for all of the 26 hearings,
7 there's a huge amount of resources that you can
8 draw upon. And as Senator Gaetz said, that
9 will be the basis for staff's work on proposed
10 committee bills and for this committee's
11 deliberations.

12 The "Legal Submissions" tab on the Senate
13 redistricting page right now has the
14 pre-clearance submission that the Senate and
15 House made to the U.S. Department of Justice,
16 requesting pre-clearance approval for
17 Amendments 5 and 6. As time goes on and the
18 plans are passed by the Legislature, pending
19 before the Supreme Court, or the plans are
20 pending before the U.S. Department of Justice,
21 those records will also be publicized on this
22 site.

23 The "District Builder" tab gets you to a
24 form that you or constituents in your district
25 or your staff can fill out to get an account to

1 use the on-line redistricting system.

2 "Submitted Plans" is where your staff
3 spent most of their time preparing for this
4 meeting. We have a listing of all of the 71
5 plans that have been submitted to the
6 Legislature so far. There are a couple other
7 plans that were submitted to the House this
8 week. There was one plan that was submitted to
9 the Senate just an hour and a half or two
10 before this meeting started. We will be
11 getting those on-line later this week, very
12 soon.

13 In order to navigate the submitted plans
14 page, if you know who the sponsor of the bill
15 is, you can type in the sponsor's name, so the
16 Chairman mentioned Mr. Kelley, if we type
17 "Kelley" as the "submitted by," and say
18 "search," we see that Mr. Kelley so far has
19 submitted four of the 71 plans. So that gives
20 me an easy way of finding the plan that I am
21 interested in.

22 To clear out this search form, I simply
23 press the "Reset" button, and if I am looking
24 for a plan by name, so if I want to know about
25 plan number 37, I can type "zero, three,

1 seven," and say "Search," and in the search
2 results, I get just that plan.

3 A word about the plan-naming convention,
4 it is explained, if you click on the little
5 question mark next to where it says "Plan
6 Name," but basically for all of the plan names,
7 the first letter is an S or an H, which
8 indicates which Chamber processed the plan to
9 put it on the web initially. The next several
10 numbers -- in this case, it is 026, that would
11 be indicating that it is the Senator from
12 District 26 that proposed this plan. If it is
13 a member of the public that submits a plan,
14 those next three characters would be P-U-B, and
15 then the fifth character in a plan name is a C,
16 an S or an H, indicating whether it is a
17 congressional, Senate or House plan, and the
18 last four numbers indicate the plan ID. So for
19 every plan that is submitted to the Senate,
20 whether by the public or a Senator or a member
21 of the House of Representatives, or the
22 proposed committee bills that originate from
23 this committee, each of those will have a
24 unique name, and where plans are referred to in
25 bills or amendments, the plan name will be the

1 cross-reference between the maps, the
2 statistics, the Department of Justice -- the
3 file -- block assignment file that will be
4 submitted to the Department of Justice, and the
5 legal description that is posted in the bill or
6 the amendment. So that is our plan-naming
7 convention, and we expect that new plans will
8 be added to this directory all through the
9 process. So it is a place that you will come
10 back to often.

11 And finally on this page, we have a link
12 to the "Find Your Legislator" application. I
13 think you guys are familiar with it. Any
14 member of the public can type in a ZIP code,
15 and it will take them to a page which shows
16 them who their Senator representative and
17 congressional representatives are. If you
18 click on one of the little maps, it will bring
19 up an interactive map which you can use to zoom
20 in to see the areas that you are interested in
21 in greater detail. So that is a quick overview
22 of the resources that we used for getting us to
23 the point where we are today.

24 What I am going to do is walk through the
25 set of maps that were posted in the committee

1 agenda for this meeting, and just briefly get
2 them on the screen and walk through some of the
3 conclusions that I and your professional staff
4 came to in reviewing all the plans and the
5 public testimony that was submitted to the
6 committee through the summer and so far in the
7 fall, and some of the conclusions that we reach
8 from that.

9 So as the Chairman mentioned, we're going
10 to be focusing today on the northwest part of
11 Florida, which is the area west of and maybe
12 including Baker County and including the Big
13 Bend of Florida, through what I am calling the
14 Capital region and the Emerald Coast.

15 So what you see on the screen at this
16 moment is the current congressional districts
17 for northwest Florida. District 1 is in
18 Escambia, Santa Rosa, Okaloosa, Walton -- and
19 my memory is giving out on me -- Washington and
20 Holmes Counties. It joins up with District 2,
21 and District 2 has all of Bay County, plus
22 portions of Walton and Okaloosa Counties.

23 Another interesting feature of the current
24 congressional map is that District 4, which is
25 based in Jacksonville, extends west through

1 several whole counties to portions of Leon
2 County -- portions of Jefferson and Leon
3 County. So that is the current congressional
4 district map for Florida.

5 Sarah and -- Sarah Gates and Dr. David
6 Bradford submitted this proposal for -- excuse
7 me, this -- where am I? Yeah, I have them in
8 the wrong order here. Okay, submitted this
9 proposal. It is -- of the proposals that were
10 submitted to the committee so far, it is the
11 one that most closely approximates the existing
12 districts. The boundary between Districts 1
13 and 2 resembles the current boundary, with
14 District 2 picking up some additional territory
15 in Walton and Okaloosa Counties, but the same
16 general configuration for the boundary between
17 1 and 2. The boundary between 2 and 3,
18 however, is different. The extension of the
19 Jacksonville district west to Leon County is
20 not a feature of this map, but, rather, we have
21 three districts that are predominantly in the
22 Panhandle. So those are the features of the
23 plan number 20.

24 Plan four, that is by Henry Kelley, and it
25 has a -- it has a population deviation of

1 almost seven percent.

2 SENATOR GAETZ: Just a moment, John.

3 MR. GUTHRIE: Yes, sir.

4 SENATOR GAETZ: President Margolis is
5 asking a good question that I am sure is on all
6 of our minds. Do we have hard copies of this
7 in our book, or should we follow along on the
8 screen?

9 MR. GUTHRIE: Well, the map -- or the
10 meeting packet for this meeting at tabs four,
11 five and six, includes --

12 SENATOR MARGOLIS: The maps are --

13 MR. GUTHRIE: Yes.

14 SENATOR GAETZ: Yes, ma'am. Yes. Is
15 everybody following here? Either in the
16 meeting packet, which was provided to you, or
17 follow on the screen or follow in your laptop
18 computer in front of you. Everybody okay?

19 Okay, John, keep going, please.

20 MR. GUTHRIE: Okay. So we are on
21 congressional plan four by Mr. Kelley. It has
22 a deviation of almost seven percent. Typically
23 what the courts are looking for with
24 congressional redistricting is de minimis, very
25 slight deviations.

1 The portion of District 24 in Dixie, Levy,
2 Gilchrist Counties is not contiguous, and that
3 is this area right here, 24, are not contiguous
4 with the balance of District 24, which is on
5 the east coast of Florida. So contiguity
6 problems similar to that are something that we
7 would want to resolve in the final version of
8 the map reported by this committee.

9 And the two Panhandle districts, District
10 26 and 27, generally follow county boundaries,
11 making an exception only for as required to
12 equalize populations.

13 SENATOR GAETZ: Let me just ask a question
14 of clarification there. When you said that
15 there is an 11 percent deviation, is that
16 between what Mr. Kelley is calling 26 and 27,
17 or where is the deviation?

18 MR. GUTHRIE: No, the deviation -- well,
19 let's see, the deviation between those two
20 districts is 4.2 percent.

21 SENATOR GAETZ: Okay. And for purposes of
22 clarification, John, would you please remind
23 everyone of sort of what the case law tells us
24 about deviations, please?

25 MR. GUTHRIE: So on deviation with

1 congressional plans, the courts have
2 interpreted the requirement that districts be
3 as equal as practicable, to mean that almost no
4 deviation in population is a good idea.

5 SENATOR GAETZ: So -- and, again, I am
6 just using this as an example so that we can
7 all kind of follow along the other plans that
8 are being presented. So if one were to try to
9 conform plan number four, Mr. Kelley's plan, to
10 the case law, one would need to change the --
11 one would need to resolve the equity problem
12 and make sure that you have equal districts,
13 you would have to resolve the four percent
14 deviation down to just a handful of voters or
15 less, right?

16 MR. GUTHRIE: Right.

17 SENATOR GAETZ: Okay, thanks.

18 MR. GUTHRIE: And were the Legislature not
19 to do that, and somebody challenged it, there
20 is -- based on current case law, there is a
21 risk that that plan would be found to violate
22 the equal protection clause. So that is the
23 consequence of it.

24 The next plan that we want to look at --
25 and, actually, most of the remainder of the

1 plans that we have here today are -- generally
2 follow county lines, drawing vertical cuts
3 between the districts through northwest
4 Florida. So plan 31 was submitted by Sean
5 Phillippi. His two Panhandle districts follow
6 county boundaries pretty well. Only Holmes and
7 Madison Counties are divided, Holmes County on
8 the west, Madison County between Tallahassee
9 and Gainesville. And Mr. Phillippi, and this
10 is a good example, he got his population
11 deviations down to one person, okay, not only
12 for these two districts, but for the entire
13 plan. So it is an example of how exact your
14 population deviations can be made using the
15 redistricting software.

16 SENATOR GAETZ: And, Mr. Guthrie, again,
17 this is helpful because this is the sort of
18 first run-through as we provide guidance for
19 proposed committee bill. Am I correct to
20 assume that in the area of northwest Florida
21 that we are talking about, the Tier I mandate
22 out of Amendments 5 and 6 to not reduce
23 minority voting rights is a -- is not a
24 substantial issue because of the low proportion
25 of minorities in the population, so is that why

1 you are not talking about retrogression issues
2 here, but rather talking about equity issues?

3 MR. GUTHRIE: Well, what we can say with
4 the congressional plan is that it -- for
5 congressional districts, the incumbent members
6 of Congress -- in fact, we've never had an
7 African-American incumbent, never, you know, in
8 recent Florida history, representing the
9 Panhandle. So there is -- there is no
10 incumbency effect that would indicate that it
11 would be a retrogression to do the districts in
12 one way or another.

13 SENATOR GAETZ: Okay.

14 MR. GUTHRIE: But it is turning out that
15 District 2 in this case -- let's look at
16 Mr. Phillippi's map. District 2 is -- and
17 these figures are all in the report that we
18 prepared for your meeting packet. District 2
19 is 23 and a half percent black voting age
20 population. So if you take the black citizens
21 or persons over age 18 in District 2 in this
22 plan, 23.5 percent of those persons would be
23 African-American, or would indicate they are
24 African-American.

25 SENATOR GAETZ: But since there has been

1 no minority representation for 100 years or
2 more in Congress from that area, and since you
3 don't -- you haven't hit the threshold for a
4 majority-minority district, that is why it is
5 not an issue in this part of the state as it
6 will be an issue in other parts of the state,
7 is that correct?

8 MR. GUTHRIE: It will be an issue in other
9 parts of the state, yes.

10 SENATOR GAETZ: Okay. The reason I am
11 asking these questions of clarification is just
12 so you understand that the -- you know, we have
13 to look at Tier 1 mandates from Amendments 5
14 and 6, and the Tier 1 mandate is to avoid any
15 dilution of minority voting rights, but that is
16 not an issue here for the reasons Mr. Guthrie
17 has mentioned.

18 Okay, John. I'm sorry to interrupt you,
19 but --

20 MR. GUTHRIE: No.

21 SENATOR GAETZ: -- I think if we sort of
22 do this on the first run, we won't have to do
23 it on each run.

24 MR. GUTHRIE: That is very helpful. Thank
25 you, Senator.

1 The next plan we are featuring here today
2 is congressional plan 33 submitted by Joseph
3 Russo, and what is unique about this plan is he
4 followed county boundaries exactly. So his --
5 his district lines follows here the boundary of
6 Jackson and Bay Counties, his line between
7 Districts 2 and 4 follows exclusively county
8 boundaries, mostly the Suwannee River and --
9 but because Mr. Russo kept counties whole in
10 the Panhandle, he has a deviation in the
11 Panhandle districts of almost 10 percent, okay.
12 So keeping counties whole is going to be -- or
13 following county boundaries exclusively is
14 going to have the consequence of making it very
15 difficult, if not impossible, to keep your
16 districts equal in population.

17 The next plan we are going to look at is
18 plan -- congressional plan 36 submitted by
19 Jeffrey Carman, and this and really all of the
20 remainder are -- what -- the difference you see
21 between them are different ways of creating the
22 boundary between District 2 and the district to
23 the east of District 2. So it shows you just
24 the variety of creative ways that maps can be
25 drawn, and no clear preference for where that

1 line should be drawn in -- between the Big Bend
2 and the Capital region.

3 And that is my take-away from -- I --
4 really, the remainder of the plans they
5 submitted for Congress.

6 Are there any questions on the
7 congressional scenarios?

8 SENATOR GAETZ: Excuse me, member
9 Senators, what we will do now is we will move
10 to Senate plans that have been submitted, House
11 plans that have been submitted. Then we will
12 take public testimony, then we will have
13 discussion and debate. But questions about the
14 professional staff's presentation are in order
15 now. Are there questions? Are there questions
16 at this point? If not, move to the Senate
17 plans, please.

18 MR. GUTHRIE: Okay. So here is -- on the
19 screen we have the current Senate districts for
20 Florida. We are going to move to the northwest
21 Florida area, because that is our concentration
22 today. The current District 2 runs along the
23 northern tier of the -- above the Emerald
24 Coast. District 4 comprehends the Emerald
25 Coast of Florida. The current Senate District

1 6 is represented by Senator Bill Montford,
2 formerly was represented by Al Lawson. It
3 includes the -- most of Leon County and the
4 surrounding counties, mostly to the west. It
5 has a section that goes into Bay County. That
6 was necessary in order to equalize the
7 populations of Districts 2 and 4 with District
8 6.

9 And then current District 3, which is
10 represented by Senator Charlie Dean, is a --
11 includes the coastal area of the Big Bend, it
12 stretches into Leon County, almost to Capital
13 Circle, and it -- almost -- why do I keep --
14 there I was, okay -- and it includes some
15 districts, or counties, Hamilton, a portion of
16 Columbia and Baker, along the Georgia county
17 border west of Jacksonville.

18 And then District 14, represented by
19 Senator Oelrich, is Alachua County and some of
20 the surrounding areas. So that is the current
21 Senate district map.

22 The chart in front of me here, which we
23 took to each of the 26 hearings and which is
24 also available on the Senate website, shows you
25 how the current districts are over or

1 under-populated. For Senate districts, unlike
2 congressional districts -- with congressional
3 districts, Florida gets two new seats in the
4 United States Congress, and, therefore, by and
5 large, congressional seats in Florida will be
6 under-populated. With Senate districts, we
7 will not be increasing the 40 seats that we
8 currently have, that is the constitutional
9 maximum. So if districts that grew faster in
10 terms of population than the state average are
11 now over-populated and those districts need to
12 contract in order to equalize population,
13 districts that grew slower than the state
14 population need to add additional territory in
15 order to come up to equal population.

16 So that is the work of the committee for
17 the Senate, some scenarios that we have for you
18 to consider, and really this quick run-through
19 that we are giving, these maps today, bears a
20 lot more thought and a lot more study on your
21 part and on our part than we are going to be
22 able to invest in it at today's meeting.

23 But the first map that we wanted to focus
24 on is plan 64 by Mr. Libby. What he does is
25 provides for vertically-drawn districts. So I

1 mentioned earlier that the existing districts
2 in -- along the Emerald Coast have followed
3 more of a horizontal orientation. What Mr.
4 Kelley and some other proposers did is took
5 more of a vertical orientation to district maps
6 through the Panhandle, and Mr. Kelley's map is
7 nearly exact. In fact --

8 SENATOR GAETZ: Excuse me, is this Libby
9 or Kelley? Which -- give us the number.

10 MR. GUTHRIE: I'm sorry, Mr. Libby's map.

11 SENATOR GAETZ: What number is this,
12 please?

13 MR. GUTHRIE: This is plan number 64.

14 SENATOR GAETZ: Plan 64, we are looking at
15 the Libby plan. Okay.

16 MR. GUTHRIE: And the screen that I happen
17 to be on here, this is the District Explorer
18 screen. The plan number is always indicated in
19 the upper left-hand corner of the map if you
20 are working in District Explorer, and if you
21 click on that link, it will take you to a sheet
22 of -- where you can get the statistics and
23 downloads and all the information we have about
24 a plan.

25 So what Mr. John Libby was able to do is

1 get his population deviations virtually
2 identical, down to one person, for the Senate
3 districts.

4 You inquired, Mr. Chairman, earlier about
5 what the population deviation requirement is
6 under case law, and what we have heard from
7 Mr. Bardos and others is that while virtual
8 exactitude is the norm for congressional
9 districts, with state legislative districts,
10 variances as high as plus or minus five
11 percent, or a total deviation of 10 percent,
12 have been allowed by the courts for purposes of
13 achieving a legitimate state purpose. So if
14 there is a rationale that makes sense for
15 deviating as much as five percent from the
16 ideal, courts have granted leeway to do that.
17 And what we are going to see in some of the
18 other plans is they did -- worked harder to
19 follow county boundaries without splitting
20 counties, but by doing so, it resulted in
21 higher deviations than what you have in
22 Mr. Libby's plan.

23 The second map, plan number 56 by Ryan
24 Terrell, is interesting because instead of
25 equalizing the population of the Pensacola

1 district with northwestern Okaloosa County, he
2 came along the coast. He also extended
3 District 4 west to include all of Franklin
4 County, and so the District 6, the Capital
5 district, is more -- is more along the Georgia
6 border, just has a small section along the
7 coast. The --

8 SENATOR GAETZ: And, excuse me, just if
9 you could summarize as to this plan, which is
10 plan 56, are there any remarkable -- is there
11 anything remarkable about this plan in terms of
12 potential problems that you would see in
13 conforming with Amendments 5 and 6 or
14 conforming with the Voting Rights Act,
15 conforming with any case law that we are aware
16 of?

17 MR. GUTHRIE: Well, this plan has higher
18 deviations than others, although deviations
19 that, with some fiddling, could be brought into
20 range of acceptability under that plus or minus
21 five percent rule that we were talking about.

22 It has a -- this District 6 has a black
23 voting age population of 30.5 percent, which is
24 higher than some of the other alternatives that
25 were submitted by the public. So including the

1 counties away from the coast all together in a
2 district had the result of slightly increasing
3 the African-American percentage --

4 SENATOR GAETZ: And I would ask you,
5 Mr. Guthrie and Mr. Bardos, if you would care
6 to comment as well, or in addition, and that is
7 -- here is the question: At what point -- and
8 I realize that this -- you know, courts
9 interpret this in somewhat different ways and
10 for different reasons at different times, but
11 you talked here now about a minority population
12 that would be in the magnitude of 30 percent.
13 At what point do we reach a statistically
14 interesting number of minority persons in that
15 district where we need to begin to look at
16 minority-majority issues?

17 MR. GUTHRIE: It is -- there is no bright
18 line number. It varies from region to region
19 based on the historical patterns and voting
20 patterns of the -- of citizens or persons who
21 happen to live in those areas. So the -- I
22 don't mean to be ducking the question, but
23 there is no single figure that we can point to
24 as indicating that this is an effective
25 minority access district, whereas this is not.

1 We know -- the one thing that we do know
2 is a majority-minority district has more than
3 50 percent of the affected minorities' voting
4 age population. So majority-minority, we have
5 a bright line definition, but for minority
6 access or opportunity districts, there is no
7 such bright line. It really depends on
8 conducting analyses of past elections to
9 determine how the voters of the minority and
10 how the voters of the majority behave in
11 elections.

12 SENATOR GAETZ: Mr. Bardos, do you have
13 any comment? And then Senator Lynn. Mr.
14 Bardos?

15 MR. BARDOS: I would just add to that that
16 Section 2 of the Voting Rights Act we know from
17 Bartlett versus Strickland requires that there
18 be at least a majority of a minority in a
19 relatively compact area before Section 2 would
20 apply. So a 30 percent district would not
21 qualify for Section 2 protection, and we know
22 the Panhandle region is not protected by
23 Section 5.

24 Under the amendments, that is a little
25 less clear at this point, so -- but under

1 Section 2, we know that there is a clear, hard
2 and fast rule. So that would be my only
3 addition.

4 SENATOR GAETZ: Thank you, Mr. Bardos.
5 Senator Lynn, you are recognized.

6 SENATOR LYNN: Thank you, Mr. Chairman. I
7 guess I had two questions. First of all, the
8 geographic areas 2 and 4 are so different. Are
9 the populations the same in those -- each of
10 those areas?

11 MR. GUTHRIE: So if we look at the table
12 in your meeting packet for this plan, the
13 population of -- the two are very, very
14 similar. Two -- the population of District 2
15 is about 470,000 people, a little bit less, and
16 it is 206 people less than the ideal or target
17 population. District 4 is 470, 500, so it is
18 500 over the ideal population. So very close
19 to equal population between those two districts
20 in this plan.

21 SENATOR LYNN: And in District 6, that
22 seems to have the larger minority population,
23 and I guess it is a question to Mr. Bardos
24 perhaps. Compared to 2 and 4, it would have a
25 much larger minority population, and is that a

1 good thing or a bad thing in terms of the
2 Constitution?

3 SENATOR GAETZ: Mr. Bardos, any comment?

4 MR. BARDOS: I think constitutionally the
5 comparison of the minority population from one
6 district to another is not -- is not really the
7 driving issue. I think you would look at what
8 minority population exists within any
9 particular locality of the state, and then
10 determine to what extent the constitutional
11 provisions apply to those. So I don't think
12 that the fact that Section 6 has a larger
13 minority population than Section -- I'm sorry,
14 that District 6 has a larger minority
15 population than District 2 is itself a
16 constitutional issue.

17 SENATOR GAETZ: Senator Lynn?

18 SENATOR LYNN: I guess my question is,
19 when I see a map like this, it seems to be
20 trying to push an issue perhaps of protecting
21 white districts as opposed to a large majority
22 district.

23 MR. BARDOS: Well --

24 SENATOR LYNN: I mean, it is protecting
25 the majority numbers, I understand that. It

1 can be looked at, I guess, the other way as
2 well. Are you protecting majority on the white
3 side with 2 and 4?

4 SENATOR GAETZ: Why don't we answer
5 Senator Lynn's comment and then finish up with
6 the Senate districts, if you can. Very good
7 question, Senator Lynn.

8 Mr. Bardos, Mr. Guthrie, either one.

9 MR. BARDOS: Well, I think -- I think to
10 some extent it is unavoidable to -- in
11 Districts 2 and 4, because it would -- to bring
12 the minority populations which live around the
13 Capital region into Districts 2 and 4, you
14 would be required to extend those districts
15 quite a distance.

16 What we do know is that districting based
17 predominantly on race to the -- to the
18 exclusion or -- while subordinating other
19 race-neutral redistricting principles could
20 create an equal protection problem, but in
21 districts which simply move along the Panhandle
22 for race-neutral reasons and happen to take in
23 differing minority populations, that doesn't
24 seem to raise any immediate constitutional red
25 flags.

1 SENATOR GAETZ: Other comments at this
2 time? If not -- I'm sorry, Senator Lynn, did
3 you wish --

4 SENATOR LYNN: No.

5 SENATOR GAETZ: Mr. Guthrie, why don't you
6 go forward, please?

7 MR. GUTHRIE: Thank you, Mr. Chairman.

8 The next plan we wanted to feature here
9 this afternoon for northwest Florida is Senate
10 Plan 66 submitted by Bruce King. Bruce King,
11 in fact, submitted a Senate plan, a
12 congressional plan and a House plan. He also
13 provided the committee a detailed report that
14 explains the method he used for creating
15 districts was to lay a grid over the state and
16 put together pieces of that grid in order to --
17 once he got to the requisite district
18 population. So he started with Senate
19 districts using this grid methodology, then he
20 subdivided those into House districts, there
21 being three House districts to each Senate
22 district, and then he reconstituted the House
23 districts as congressional districts. So his
24 Senate plan is the neatest and tidiest of the
25 three, but what this shows you is the

1 consequences in terms of political boundaries
2 and in terms of other objectives of Amendments
3 5 and 6 if you strictly adhere to compactness
4 or grid properties as your driving force for
5 making a redistricting plan. So it was a very
6 interesting and very instructive exercise that
7 Mr. King provided for the committee, one that I
8 think we will want to look back at more as we
9 move to other regions of the state.

10 The remainder of the maps that we have for
11 Senate districts vary from what we have seen
12 previously in that they follow the same
13 arguments that we heard a lot of public
14 testimony on at our meetings in Pensacola and
15 Ft. Walton and Panama City, that being that
16 districts should continue to recognize coastal
17 interests versus rural interests, and provide
18 the rural communities an opportunity to elect
19 one of their own or somebody that is
20 sympathetic to their issues to the Senate.

21 So plan number seven was submitted by
22 Henry Kelley, and you see the orientation that
23 he has for Districts 1 and 2. Plan number 28
24 -- now, this is a different take on it. It --
25 the coastal areas of Pensacola, Santa Rosa and

1 Okaloosa County are put in one district, and
2 then the rural areas of those three counties
3 are put together with the whole counties
4 extending east through Bay County to Gulf
5 County.

6 And plan number 25 was submitted by David
7 Kolesar, and again, he has an orientation with
8 a coastal district and a rural district along
9 the Emerald Coast.

10 SENATOR GAETZ: And could you remark,
11 Mr. Guthrie, if appropriate, as you go through
12 those plans, are there -- are there population
13 deviations that are troublesome in those plans,
14 or not, in your judgment?

15 MR. GUTHRIE: With plans that do not set
16 as an objective keeping -- if you are not
17 dogmatically following county lines or other
18 political subdivision lines, you normally are
19 able to come fairly close in terms of
20 population deviations. So these plans may
21 have -- depending on how much effort the plan
22 drafter put into trying to equalize all of the
23 populations, and as Mr. King pointed out in his
24 report to us, that is very, very difficult and
25 tedious work, balancing the population is a

1 time-consuming process. Some people worked at
2 it more diligently than others. Even those who
3 did not, I believe that the population
4 deviations could be addressed without a huge --
5 without huge technical problems.

6 And plan number 34 was presented by Keith
7 Laytham. In the Panhandle, he is very similar
8 to plan 28. So these are -- I think you get
9 the picture here.

10 Here is a partial plan. It only -- plan
11 number 71 was submitted by -- oh, it is here
12 because it came in lately, it was not even in
13 your meeting packet, by Maxwell Bradley of Leon
14 County. He had three districts, which are --
15 include an orientation very similar to the
16 current districts.

17 So that is our -- and then we are back to
18 the current plan. So that is our northwest
19 scenarios for Senate plans.

20 SENATOR GAETZ: Any specific factual
21 questions? We will have time for discussion
22 and debate, but any specific questions of
23 Mr. Guthrie about the Senate plans before we
24 move on to the House plans, and then we will
25 come back, take testimony and discuss, debate

1 and give guidance to the committee?

2 SENATOR BULLARD: I have.

3 SENATOR GAETZ: Senator Bullard, you are
4 recognized.

5 SENATOR BULLARD: Senator Lynn asked a
6 question regarding the minority populations
7 versus majority. When you answered that
8 question, the response to that, there is no
9 real line, is that correct, to determine
10 whether that exists or whether it will exist?
11 And I ask this question because I want to know
12 in drawing these districts as we did before and
13 as they were -- it could be very confusing for
14 those of us, of some of the members who have
15 not gone through this redistricting process.
16 So when you draw the line -- when the last
17 lines are drawn, there was some districts with
18 75 percent, 85 percent, and then there were
19 other districts with 25 percent, 58 percent or,
20 you know, whatever number to make up the
21 balance. I want to be certain that that is not
22 happening, and I would hope that you could help
23 me by understanding.

24 At this point, where are we in terms of --
25 although these lines will not affect the south

1 -- the southern districts, I am speaking to the
2 districts that it will affect just all
3 Floridians.

4 SENATOR GAETZ: Mr. Guthrie, any comment?

5 MR. GUTHRIE: So what the committee must
6 do is follow the requirements of Section 2 and
7 Section 5 of the Voting Rights Act of 1965 as
8 amended, you must follow the requirements of
9 the new Sections 20 and 21 of the Florida
10 Constitution, which require equal opportunities
11 for minority voters --

12 SENATOR BULLARD: Thank you.

13 MR. GUTHRIE: -- and no reduction in the
14 ability to elect candidates of their own
15 choice, and you must follow the requirements of
16 the 14th Amendment to the United States
17 Constitution, the equal protection clause.

18 SENATOR BULLARD: Thank you very much.

19 SENATOR GAETZ: Thank you, Senator
20 Bullard.

21 Any other questions at this point,
22 technical, factual questions about the Senate
23 maps that are under consideration?

24 I'm sorry, Senator Storms.

25 SENATOR STORMS: Thank you, Mr. Chair. I

1 received correspondence from -- an e-mail
2 correspondence from some citizens who are
3 interested in the process in the Panhandle, and
4 they were talking about the representation.
5 They wanted to see their representatives from a
6 north/south perspective. Their concern was
7 that if you configured the maps to be
8 north/south, then you would concentrate the
9 metropolitan areas and necessarily give more
10 political influence to the metropolitan areas
11 than they thought was warranted and they
12 thought was appropriate from a democracy
13 perspective. And so I wasn't sure, because all
14 they said was north/south, so I wasn't sure if
15 they were talking about drawing the lines
16 north/south so that -- so that you -- whereas
17 this is -- I would consider this to be the
18 yellow district to be parallel with the water
19 instead of perpendicular, I didn't know if they
20 were talking about making the districts
21 themselves perpendicular, or -- so that the
22 lines are perpendicular, or were they talking
23 about dividing it in a parallel way so that you
24 have a north district and a south district. I
25 didn't understand from the e-mail which was

1 which, and do you know that?

2 MR. GUTHRIE: Let me -- Mr. Chairman?

3 SENATOR GAETZ: Of course, Mr. Guthrie,
4 and then, Senator Storms, we do have a number
5 of folks from that area of the state who have
6 signed up to testify, and their testimony may
7 help us understand, you know, their
8 perspective, but, Mr. Guthrie, please go ahead.

9 MR. GUTHRIE: Yeah, Henry Kelley, who is
10 one of the submitters, is here this morning and
11 is intending to speak, so we will get to hear
12 from him directly. But to answer your question
13 briefly, the concern is that if the district
14 boundary is along a north/south orientation,
15 you will have some rural voters in a district,
16 together with the more urban areas along the
17 coast, and the fear that your constituent was
18 expressing in that e-mail is that the greater
19 density of population along the coast would
20 dominate the elections, just -- yeah.

21 SENATOR GAETZ: Did that help, Senator
22 Storms, or did we lose you on the -- okay.

23 Any other questions or comments before we
24 go to House districts? If not, Mr. Guthrie,
25 please, let's go to tab six in your committee

1 packet and go to the screen. And, Mr. Guthrie,
2 I see that there are more House members than
3 Senators. How did this happen?

4 MR. GUTHRIE: That --

5 SENATOR GAETZ: Senator Gibson must be
6 able to help us with that.

7 MR. GUTHRIE: We do, and even in the
8 Panhandle where districts are larger
9 geographically than they are in other parts of
10 the state, you still have three times as many
11 House members as you do Senators. As a
12 consequence of that, the -- you don't have as
13 strict a dichotomy between the north/south and
14 the coastal interest. For instance, if we look
15 at Districts 1, 2 and 3 of the current House
16 plan, the District 1 is more rural, District 2
17 is downtown -- excuse me, is mostly the coastal
18 areas, and District 3 is downtown Pensacola.
19 District 4 runs along the coast. District 5 is
20 more rural. So we did hear at the public
21 hearings a lot of comments about District 7,
22 which currently stretches from Okaloosa County
23 to the east side of Leon County.

24 So this is your current Senate map. We've
25 got several examples we are going to look at.

1 The first one is plan number 45 by Keith
2 Laytham, and from this we see that we have a
3 number of districts, particularly District 1
4 and 7 that run along the coast, then some urban
5 districts and some rural districts. So Mr.
6 Laytham's plan is a good example of with the
7 House plan trying to follow that strain of
8 thought that came out of the public hearings of
9 providing for both coastal and more rural
10 interests.

11 The District 47 -- or, excuse me, House
12 Plan 47 by Stacy Graham is a -- one thing that
13 -- excuse me, that Graham Stacy did was
14 numbered his districts from the south rather
15 than from the north. So all the Panhandle
16 districts got big numbers instead of little
17 numbers. And an interesting feature of this
18 plan is even with the House districts, Graham
19 Stacy was able to achieve nearly equal
20 populations among his districts, but you can
21 see that he did not pay a whole lot of
22 attention to following political subdivision
23 lines.

24 SENATOR GAETZ: It is very helpful, I
25 think, Senators, if you look at the committee

1 notes that follow each plan in your committee
2 packet, you will see that the committee staff
3 has indicated where there may be issues or
4 problems in conforming with Amendments 5 or 6,
5 or where there may be other problems in terms
6 of equity of population, that sort of thing.
7 So those comments are very helpful to me, and I
8 would encourage you to look at them as John
9 goes through these plans so that you can see if
10 you like a particular plan, if there needs to
11 be some de-burring or some refining, where that
12 refining or de-burring might have to take place
13 in order for the plan to be legally compliant.

14 MR. GUTHRIE: The same individual, Graham
15 Stacy, submitted House Plan 48. It is -- well,
16 one thing he did is he changed his numbering
17 scheme. You see that he goes from big numbers
18 in the Panhandle to numbers starting with one
19 in the Panhandle.

20 The other significant change that he made
21 with this second submission is that he paid
22 more attention to following municipal boundary
23 lines. With the exception of Crestview in
24 Okaloosa County and Tallahassee in Leon County,
25 this map does not split any municipalities.

1 Plan number 27 by David Kolesar is very,
2 very similar to the prior plan. We can look at
3 them side by side and see there's not a whole
4 lot of difference between them.

5 Plan number 18 by Mr. Henry Kelley is
6 another example of paying heed to the public
7 sentiment that coastal interests and rural
8 interests ought to be uniquely respective with
9 different districts, and Mr. Kelley will be
10 here to speak to that himself.

11 Map 67 by Bruce King, you remember
12 Mr. King also submitted a Senate plan and a
13 congressional plan, here is how his grid is
14 applied to the House districts, and the impact
15 of using that grid method is that you don't
16 very closely follow political and geographic
17 boundaries. The attention is more on creating
18 these grid-like, compact shapes. But Mr. King,
19 even for his House plan, achieved deviations of
20 single digits, so very, very close to exact
21 population on this map.

22 And that is the last of the scenarios for
23 House plans that we wanted to look at this
24 afternoon.

25 SENATOR GAETZ: Are there any technical

1 questions or comments about the House plans?

2 Senator Sobel, you are recognized.

3 SENATOR SOBEL: Thank you, Mr. Chair.

4 What role do we play as Senators in creating a
5 House plan, whereas we know the House is going
6 to create their own plan?

7 SENATOR GAETZ: That is a very good
8 question, Senator Sobel, and let me -- let me
9 take a shot at an answer, and then let me yield
10 to our Vice-Chair, President Margolis, who has
11 been a veteran of these processes and ask her
12 to comment as well.

13 There is a -- there is an obligation that
14 the House has to draw Senate plans, and there
15 is an obligation that we have to draw House
16 plans. Now, there will come a point in time
17 when our two committees work together. And I
18 personally, speaking just as one Senator, plan
19 to give great deference to the House as to
20 plans that they have developed for the House.
21 However, we have an obligation to make sure
22 that if there are -- if there are legal issues
23 or if there are common-sense issues that we see
24 in House plans, that we point them out. And,
25 similarly, we will ultimately have a proposed

1 committee bill that will include a Senate plan,
2 but our House colleagues can come forward and
3 say, look, we see two or three problems here
4 that, you know -- or five or 50 problems that
5 you are going to have to correct before we will
6 accept the Senate plan. But at some point in
7 time, these plans have to meld together. But
8 let me yield to President Margolis, because she
9 is a veteran of the wars here.

10 SENATOR MARGOLIS: Actually, ultimately,
11 the Senate does the Senate, and the House does
12 the House, but you have to -- you have to play
13 back and forth before that happens. It is --
14 it is a matter of -- it is a matter of you have
15 to -- you have to express your feelings as a
16 Senate, and they have to express their feelings
17 as a House, and that we are both doing both is
18 very helpful. It's -- that we -- you know, it
19 is very helpful, because it is a dose of
20 reality. You will see.

21 SENATOR GAETZ: We have the advantage of
22 having a sanity check for ourselves on the
23 other side of the Capital, and we are the
24 sanity check for the other team.

25 If there are no other factual questions at

1 this point, why don't we go to public
2 testimony? Thank you, Mr. Guthrie, for your
3 presentation and good work of the professional
4 staff. We have a number of individuals wishing
5 to testify, and many of them, based on the --
6 based on the addresses, have come a good way.
7 So I am going to take the prerogative of the
8 Chair, and Tallahassee lobbyists I am going to
9 put last, because you can be with us anytime,
10 and I am going to put those individuals who
11 have driven a fair distance first in the order
12 in which they were presented to me. In order
13 that we will give -- can give everybody an
14 opportunity to speak and then give the members
15 of this committee a chance to debate and
16 discuss and then give guidance to the committee
17 as to a proposed committee bill and its effect
18 on northwest Florida congressional, Senate and
19 House districts, we would ask members of the
20 public who are speaking if you can please come
21 to the point, if you can limit your testimony
22 to about three minutes. That way, we will give
23 everybody a chance.

24 Let us begin with Mr. Ryan Terrell, and
25 Mr. Terrell has come all the way from Weston.

1 And thank you for being here and thank you for
2 your submission of plans, and we look forward
3 to your testimony.

4 MR. TERRELL: Thank you, Mr. Chairman, and
5 thank you to the committee members for viewing
6 my plan and seeing some of the different key
7 elements that were addressed in those northwest
8 Florida districts.

9 My testimony is going to be very limited
10 today. It is just basically clarifying a few
11 points of that plan and certain questions that
12 were raised during the back and forth --

13 SENATOR GAETZ: And, Mr. Terrell, to be
14 fair to you, John, what is Mr. Terrell's plan
15 number so that if --

16 MR. TERRELL: Senate.

17 SENATOR GAETZ: Why don't we put that up
18 on the screen so that we can all see what
19 Mr. Terrell is referring to? I'm sorry,
20 Mr. Terrell, you are recognized.

21 MR. TERRELL: Thank you. Senate.

22 Basically, one of the main issues that
23 were obviously brought up is that my plan will
24 mainly focus on following county boundaries and
25 municipal boundaries. That I felt was

1 important because of the second tier status of
2 Amendments 5 and 6, which do ask that the
3 Legislature try to follow city and county
4 boundaries as much as possible.

5 That being said, there is a population
6 deviation because of the software I was using.
7 Obviously the Legislature, I would hope, would
8 be able to tinker with the boundary lines a
9 little bit to bring that population deviation
10 up to parity.

11 As far as the actual geographic I guess
12 characteristics of the three districts that we
13 were looking at, the main thing that needs to
14 be understood is why District 6 turned out the
15 way it did and became 30.5 percent
16 African-American. The reason why is when you
17 start including the rest of Tallahassee,
18 Jefferson, Madison and Hamilton Counties that
19 were not in the district before, those counties
20 have a significantly larger African-American
21 population, and when you add them because those
22 counties were split under the previous
23 Legislature's Senate plan, when you actually
24 make those counties whole, you are going to
25 marginally improve the African-American

1 population.

2 I did mostly agree with staff's comments,
3 except there is one slight thing I would like
4 to add about case law in that regard, and that
5 is that, yes, the requirements are that it has
6 to be over 50.1 percent of a voting age
7 population in order for it to be considered a
8 majority-minority protected district. The only
9 difference is that there's also the Gingles
10 criteria, which basically says that when you
11 are looking at a coalition district, in this
12 case, the only thing that you can do in
13 northwest Florida for minority protection is
14 create a coalition district which would be
15 majority, non-white population. I attempted to
16 do that on several maps. The only thing is
17 that you would end up having a Tallahassee to
18 Gainesville or a Tallahassee to Pensacola
19 district. The lines would look very ugly and
20 very non-conformant to city and county
21 boundaries. So that is why you don't see a
22 minority district in north -- a
23 minority-protected district in northwest
24 Florida that I could reasonably create.

25 That being said, those districts mainly

1 follow county lines. The only cases where it
2 doesn't in that particular area is in Taylor
3 County, I chose to include the City of Perry,
4 because I felt it was more characteristically
5 similar to the other counties in the district
6 compared to the rest of Taylor County because I
7 couldn't split some of the rural precincts. If
8 the Legislature would like to change that in
9 terms of making those lines a little bit more
10 nicer-looking, by all means, go ahead, but
11 basically that is why it has that kind of
12 weird-looking hook into the City of Perry,
13 because I couldn't split those precincts. But
14 I think Senator Storms brought this up at the
15 last redistricting hearing that you guys had
16 two weeks ago, if you are using VTDs, you might
17 be able to make those lines look a little bit
18 more compact-looking.

19 And that is pretty much the only issues I
20 wanted to address in the Senate map, if anyone
21 has any questions for me.

22 SENATOR GAETZ: Thank you, Mr. Terrell,
23 and thank you for your commitment to helping us
24 with this process and the time you have put
25 into it.

1 Questions for Mr. Terrell? Senator Lynn.

2 SENATOR LYNN: Go back one. I guess I am
3 wondering -- you were very perpendicular with 2
4 to 4, and I wondered why you didn't try to
5 remain at least even slanted perpendicular
6 between 4 and 6, and then extend 6 down further
7 into 14?

8 MR. TERRELL: Okay. I guess the answer to
9 your question is I tinkered with the State
10 Senate maps about five different times, and the
11 difference that I came up with is that when you
12 try and start adding counties like Calhoun or
13 Franklin, the population is going to get a
14 little bit harder for you to maintain county
15 compactness and to maintain a sizeable
16 deviation between District 4 and District 6.
17 So, in that case, by putting Calhoun and
18 Franklin County in District 4, I was able to
19 make districts that are -- that were more
20 similar population wise while maintaining a
21 kind of north -- a kind of Georgia border -- I
22 am trying to think of a word, but just a flavor
23 in that -- in the District 6 that you wouldn't
24 see in District 4, because District 4 becomes
25 more of the coastal district, and District 2

1 becomes more of the rural district in that
2 case.

3 SENATOR LYNN: Thank you.

4 SENATOR GAETZ: We are very, as I said,
5 pleased to have you all the way from Weston,
6 and your Senator is here of the distinguished
7 minority leader, Senator Rich, who is
8 recognized.

9 SENATOR RICH: Thank you, Mr. Chair. I
10 think his address is Weston, but I think he
11 lives in Tallahassee right now.

12 MR. TERRELL: Yes.

13 SENATOR RICH: He goes to FSU. So -- but
14 anyway, I just -- I have to say I am very proud
15 of Ryan. He was a wonderful student at Cypress
16 Bay High School, a friend of my grandson's, and
17 I think it is just wonderful that he's been
18 very involved in political affairs and things
19 for many years throughout high school and that
20 he decided to participate in this process. So
21 I just want to congratulate him. Thank you
22 very much.

23 MR. TERRELL: Thank you.

24 SENATOR GAETZ: Thank you very much,
25 Mr. Terrell. We appreciate your being here.

1 Our next testifier is Mike Godwin from
2 Walnut Hill, Florida. Mr. Godwin?

3 And on deck will be Brett Ward, also from
4 Walnut Hill, and then Mark Casson from Walnut
5 Hill. We are emptying out Walnut Hill today.
6 So if you will all be on deck to follow
7 Mr. Godwin.

8 Mr. Godwin, thank you for being here,
9 welcome to the Senate, and you are recognized,
10 sir.

11 MR. GODWIN: Thank you, Mr. Gaetz. I am
12 from the north end of Escambia County. I am a
13 farmer, aerial applicator and member of the
14 Florida Farm Bureau Board.

15 We would like to see agriculture
16 protected. Our rights, or our vote we seem to
17 think would be severely diluted with the
18 north/south boundaries. We need to keep more
19 agricultural areas looped together. We have
20 more -- our concerns are completely different
21 from the coastal concerns. And as far as
22 splitting northwest Florida geographically,
23 the -- it is all ready split. We have the
24 coastal areas and we have the agricultural
25 areas, and the concerns are totally different.

1 So in this committee, I would like for you
2 to consider that, that we would like to keep it
3 more as it is presented, the older method or --
4 it was laid out for that reason before for a
5 reason. So if we can keep it more east/west,
6 we would greatly appreciate it.

7 SENATOR GAETZ: Questions for Mr. Godwin?

8 Thank you, sir, for your testimony. I'm
9 sorry, Senator -- Mr. Godwin, could you come
10 back, please, for a second? Senator Sachs had
11 a question for you.

12 Senator Sachs, you are recognized.

13 SENATOR SACHS: Thank you very much,
14 Mr. Chair. Sir, have you submitted a map that
15 would indicate those preferences that you have
16 in keeping agricultural together, those
17 communities, and separate from the coastal
18 communities, sir?

19 MR. GODWIN: No, ma'am. It was our
20 understanding we had to 1st of November.

21 SENATOR SACHS: Okay. So that is what you
22 want to do, all right.

23 MR. GODWIN: And it changed apparently,
24 but I saw -- it is pretty much this map that is
25 on the board now, would be presentable.

1 SENATOR GAETZ: And, Mr. Godwin, you do
2 have until the 1st of November to submit any
3 additional maps that you would like.

4 Was there another question or comment? If
5 not, thank you very much, sir.

6 And our next testifier is Brett Ward.
7 Mr. Ward.

8 And following Mr. Ward will be Mark Casson
9 and then Mr. Jeff Sessions.

10 Mr. Ward, welcome to the Florida Senate.
11 We are glad you came all this way, anxious to
12 hear your testimony. You are recognized.

13 MR. WARD: Thank you, Mr. Chairman.

14 I appeared before this committee when it
15 met in Pensacola, and I must apologize to you.
16 You asked about a map, I promised you a map,
17 but as Mr. Godwin said, we were told -- we sent
18 for help up the line to Gainesville to get
19 Florida Farm Bureau to help us. They put us in
20 contact with someone down south that was going
21 to help us draw a map, and they told us it was
22 too late, we could not get a map, that there
23 would be a meeting held today and the best
24 thing we could do was attend the meeting. That
25 is why we have not presented a map.

1 Getting to the district lines, if Escambia
2 County -- and I am going to speak for Escambia
3 County, because that is where I am from -- was
4 united and spoke with one voice on how the
5 lines should be drawn, I would say you should
6 listen. Escambia County is not united. It is
7 divided. You have the rural area up north and
8 the urban areas down south.

9 Now, as a member of the Escambia County
10 Farm Bureau Board, I speak for more than 4,000
11 members. We want rural areas represented. We
12 want our voice heard. Do not disenfranchise us
13 by looping us together with the urban south,
14 for no matter what we would like, sheer numbers
15 tell you, a map will tell you, we cannot
16 overcome the population in the south end of the
17 county. The south end of the county, through
18 various means over the past few years, or
19 longer than that, has tried through charter
20 government, consolidated government, and then
21 lately through the 2030 land use map, to
22 silence us up north. They do not -- for some
23 reason, they want us under their thumb. I have
24 not figured that out. We want nothing they
25 have, and they seem to want to lord over us.

1 Don't let them take our voice out of
2 Tallahassee. It is important for us to have a
3 voice, and I will give you a prime example.
4 Three, four years ago, I can't remember, the
5 Florida DOT was writing farm equipment tickets
6 for moving up and down the road, because some
7 well-meaning person with no rural background
8 had written a law or passed a rule stating how
9 big something could be moving up and down the
10 road. Now, we had a voice in Tallahassee. At
11 that time, he was Representative Evers. We
12 came down here and explained our position, and
13 he was well aware of our position, because he
14 was in it also. He was a farmer trying to move
15 equipment up and down the road. But you don't
16 have to be a farmer to be our Representative.
17 If you live in a rural area, you see this
18 equipment moving up and down the road and you
19 are aware of what it is. So when we come to
20 Tallahassee to talk to you about something that
21 involves us, you are aware of it. At the same
22 time we were down here and talked to him about
23 that, we had a loop to make, had to meet
24 everyone that was on the committee. Most did
25 not even know what farm equipment -- what a

1 peanut combine was. That is what you run into
2 when you have urban people representing rural
3 areas.

4 Right now, we have a voice. I can pick up
5 the phone, I have the personal phone numbers
6 that I can call Representative Broxson or I can
7 call Senator Evers, and they know who I am.
8 They talk, they listen. Do not take that voice
9 away from us. Keep the rural area and the
10 urban area separate by keeping an east/west
11 line. Thank you.

12 SENATOR GAETZ: Thank you, Mr. Ward.

13 Any questions for Mr. Ward? Thank you
14 very much, sir, for coming all this way.

15 Mark -- is it Casson or Cason, sir?

16 Casson. Mr. Casson, thank you for coming. And
17 following Mr. Casson's testimony, Jeff Sessions
18 and then Henry Kelley.

19 Mr. Casson, welcome to the Senate. You
20 are recognized.

21 MR. CASSON: Thank you. The -- much to
22 what Mr. Godwin and Mr. Ward were talking
23 about, basically I have lived in Pensacola and
24 I currently live in the north end of the
25 county. The issues that affect people who live

1 in a city and the issues that affect people
2 living out in the rural areas are very
3 different.

4 It was -- you asked for a map that would
5 show basically these lines. Map number seven,
6 could you pull up map number seven? I
7 appreciate it. Sorry, I don't mean to -- but
8 map number seven does show the lines that
9 basically -- the current lines that exist and
10 my understanding is with the adjustments for
11 population that have been required.

12 The -- when they talk about the voice,
13 basically, you know, some of what is trying to
14 be addressed from the minority policies and
15 some of the statutes that are in place now are
16 trying to make sure that groups of population
17 do have a voice in Tallahassee, and there are
18 discussions previously in this meeting as to
19 how to make sure that some minority groups have
20 a voice.

21 The reality is if you take and draw a
22 north/south line to create these districts, the
23 rural areas will become a minority within a
24 larger district and they will not have any
25 voice. The -- I mean, the population --

1 population will dictate that. You currently
2 have across most of the Panhandle of Florida,
3 you have the rural districts all the way across
4 the north. Each one of those rural districts,
5 which currently geographically are a large
6 area, really would lose their voice here in
7 Tallahassee. And, to me, it doesn't make
8 sense. I understand, you know, some of the
9 things that people looking at with the maps are
10 saying, "Well, the maps look better, they are
11 easier for people to understand what district
12 they fall in," but the purpose of having these
13 districts and having for representation is that
14 the individuals have representation here. That
15 should be the main and most important factor in
16 redistricting is making sure that Floridians
17 have a voice in Tallahassee.

18 If we draw north/south lines, there will
19 be a population that will lose its voice in
20 Tallahassee, and I think that needs to be held
21 ahead of county lines and the continuation,
22 kind of the way the map looks, those issues
23 should fall behind making sure that Floridians
24 have a voice, that all Floridians have a voice
25 here. So that is my concern and hopefully the

1 end result.

2 SENATOR GAETZ: Thank you, Mr. Casson.

3 Any questions for Mr. Casson? If not,
4 thank you very much, sir. And next, Jeff
5 Sessions and following Mr. Sessions, Henry
6 Kelley and then David Pleat.

7 Mr. Sessions, thank you for coming, and
8 you are recognized, sir. We are anxious to
9 hear your testimony.

10 MR. SESSIONS: All right. Thank you,
11 Mr. Chairman and members of the committee. My
12 name is Jeff Sessions, and for over a decade I
13 have served as an appraiser with the Santa Rosa
14 County Property Appraiser's Office. My
15 experience working with constituents,
16 appraisals and maps has given me a unique
17 perspective of northwest Florida.

18 Northwest Florida's coastal communities
19 are very different from the northern
20 agricultural communities. Each community is
21 worthy of its own representation in the Florida
22 Senate.

23 Drawing on my experiences, I have
24 submitted a partial Senate map reflecting
25 northwest Florida for your consideration. My

1 map --

2 SENATOR GAETZ: Excuse me, Mr. Sessions,
3 let's -- have we got that map, Mr. Guthrie?

4 MR. SESSIONS: I don't know what my number
5 is.

6 SENATOR GAETZ: S-e-s-s-i-o-n-s, that is
7 what we have here, if that helps. Here we go.

8 MR. SESSIONS: If you will pull up Mr.
9 Kelley's map, it is very similar.

10 SENATOR GAETZ: That is map number 12 if
11 you are following along in your hard copies.
12 Is that correct? Or is it map number four?
13 Map number four if you are following in your
14 hard copies; otherwise, look at the screen.

15 MR. SESSIONS: That looks like -- well,
16 yes.

17 SENATOR GAETZ: Map number seven. Okay.
18 I apologize, Mr. Sessions, I'm sorry to
19 interrupt you.

20 MR. SESSIONS: That is okay.

21 My map is similar to the map you are
22 considering today drawn by Mr. Henry Kelley.
23 Both my map and Mr. Kelley's map draw a
24 southern and northern Senate district. My map
25 strictly adheres to municipal and geographical

1 boundaries as required by the Constitution. My
2 map starts on the western Florida/Alabama
3 border, using Highway 98 as the border between
4 the two Florida Panhandle Senate districts.
5 Highway 98 is a major, well-identified traffic
6 way. The border then travels along Blue Angel
7 Highway to the city limits of Pensacola. While
8 the city limits of Pensacola look like a jigsaw
9 puzzle, the Constitution requires adherence to
10 political boundaries where practical. My map
11 does this. The boundaries for my map then
12 follow Interstate 10, the Eglin Reservation,
13 the city limits, the City of Freeport, the
14 Intracoastal Waterway and the bay system in
15 southern Bay County. Every border in my map is
16 either a waterway, a political boundary, a
17 major highway or the Eglin Reservation
18 geographical boundary.

19 I have one central point to make, which is
20 the purpose of my map submission and my driving
21 with you here today. The State Senate seats in
22 northwest Florida cannot be divided by a
23 north/south line. The northern and coastal
24 communities of northwest Florida are very
25 different culturally and economically.

1 Virtually all the testimony given at the public
2 hearings from both Republicans and Democrats
3 has called for a northern district and a
4 coastal district. The map I have submitted
5 accomplishes what the community wants within
6 the confines of the Constitution. I hope you
7 will consider my map, along with Mr. Kelley's
8 map, and that you will drop consideration of
9 any map that divides the Panhandle Senate
10 districts with a north/south line. Thank you.

11 SENATOR GAETZ: Questions for
12 Mr. Sessions? Senator Sachs.

13 SENATOR SACHS: Thank you, Mr. Sessions.
14 Is it my understanding that you are the
15 property appraiser for that area?

16 MR. SESSIONS: No, no, ma'am, I was
17 employed with the property appraiser's office
18 for ten years, and now I work for the center as
19 a county tax collector's office.

20 SENATOR SACHS: Tax collector's?

21 MR. SESSIONS: Yes, ma'am.

22 SENATOR SACHS: So you -- if I -- can I --

23 SENATOR GAETZ: Of course, Senator Sachs.

24 SENATOR SACHS: Thank you, Mr. Chair. So
25 you are very much aware of the natural

1 boundaries, as well as the city and county
2 boundaries for that area?

3 MR. SESSIONS: Yes, ma'am, I am.

4 SENATOR SACHS: And is this the map that
5 we are looking at right now, is this one that
6 is either your map specifically or something
7 that is pretty similar to it?

8 MR. SESSIONS: This is not my specific
9 map, but --

10 SENATOR SACHS: But similar to it?

11 MR. SESSIONS: -- very similar, yes,
12 ma'am.

13 SENATOR SACHS: And the way that it is
14 drawn now as we see it today, is that -- you
15 are saying that is representative of the -- of
16 not only the natural boundaries, but the city
17 and county boundaries, as well as the
18 population occupation for that area?

19 MR. SESSIONS: Yes, ma'am.

20 SENATOR SACHS: Very good. All right.
21 Thank you very much, sir.

22 MR. SESSIONS: You are welcome.

23 SENATOR SACHS: Thank you for testifying.

24 SENATOR GAETZ: Thank you, Senator Sachs.

25 Other questions for Mr. Sessions? If not,

1 thank you for your testimony, sir.

2 Henry Kelley, whose name has been intoned
3 here many times, cussed and discussed.

4 Mr. Kelley, thank you for coming all the
5 way from Ft. Walton, and you are recognized,
6 sir.

7 MR. KELLEY: Thank you, Mr. Chairman.

8 A few comments as Mr. Guthrie pulls up the
9 congressional map. I want to thank the
10 committee for their service on this, and also
11 Mr. Guthrie and his staff here, but also on the
12 House side, the staff, Mr. Kelley, Parada and
13 Mr. Tackus were a great help to me in drawing
14 these maps and learning the software.

15 I attended the initial meeting here in
16 Tallahassee, Ft. Walton. I also attended
17 meetings in south Florida in Boca, Davie, Miami
18 and Dade, and I watched several more meetings
19 on-line. I have also lived in Ft. Walton,
20 Orlando, Gainesville, Jacksonville and Margate,
21 Florida, and this gives me a unique
22 perspective, having lived in almost every
23 corner of the state.

24 Earlier it was made mention of the
25 variations on the map, and I want to say

1 something as an amateur cartographer. Don't do
2 this on a four-year-old laptop that has one gig
3 of memory running Windows Vista. It is very
4 hard for the computer to process the different
5 layers of doing this. So those of us that did
6 attempt this, the variance sometimes just is
7 simply a function of the computer that we use.
8 So if anybody wants to buy me one of the six
9 gig computers, I won't say no.

10 But I just wanted to call it -- most of
11 the congressional lines in northwest Florida
12 are very similar. The population is what the
13 population is. The reason I asked Mr. Guthrie
14 to pull this map up, and even though it is not
15 relevant to this conversation today, map --
16 Congressional District 3, I copied in total,
17 and this has something to do with the Senate
18 maps that I drew, and the House maps, but I
19 copied Congressional Districts 3 and 21, which
20 were involved in the lawsuit, and started with
21 those geographies, put in place, got them as
22 near to the size as I could, and then I drew
23 the surrounding congressional districts
24 emanating from Districts 3 and 21. And that is
25 the reason some of the variances and stuff

1 occurred is simply when you started with those
2 very irregular shapes, you get irregular
3 shapes. And as you said at the start,
4 Mr. Chairman, this is what I referred to, you
5 throw a pebble in a pond, it is going to create
6 a wave on the far side. It may be a small
7 wave, but it has an effect. And so when you
8 start with those districts --

9 SENATOR GAETZ: And I apologize, Mr.
10 Kelley. We are throwing around a lot of
11 numbers, numbers of districts as they would be
12 numbered in proposed plans, and the numbers of
13 districts as they are now. I think, and
14 correct me if I am wrong, Mr. Kelley, when you
15 referred to using Congressional Districts 3 and
16 21 as your starting point, you meant the
17 current numbering of 3 and 21. You have
18 numbered them differently in your plan, but the
19 existing 3 and 21 were sort of where you
20 started, is that correct, sir?

21 MR. KELLEY: Yes, Mr. Chairman, that is
22 correct.

23 SENATOR GAETZ: I'm sorry.

24 MR. KELLEY: Thank you.

25 So I bring that up because of those

1 communities of interest in Districts 3 and 21,
2 and now as we shift to the Senate map, the
3 reason I brought up the communities of interest
4 is because one of the guidelines -- and I read
5 the Florida redistricting website, which was a
6 great tool. There was this very handy guide,
7 "The Impact of Redistricting Your Community,"
8 published by the NAACP, the Asian-American
9 Justice Center and the Mexican-American Legal
10 Defense and Educational Fund, discusses the
11 roles of community interest in drawing maps.
12 And I argued when the Fair Districts
13 conversations were going on that that was a
14 very important subject left out of Fair
15 Districts, but it is addressed all over the
16 documentation that the Legislature has provided
17 to the public to become educated about this.

18 The gentlemen that spoke in front of me
19 have already addressed the rural orientation
20 versus the beach orientation, but I would like
21 to add a couple of additional comments to what
22 they have already said.

23 The Highway 98 is the main access on the
24 south side from east to west, and I-10 is the
25 main access, and for generations, that is the

1 direction of the flow of commerce, that is the
2 direction of the flow of communications within
3 the region, not north/south.

4 Now, if you look at the county in the
5 center, Okaloosa County, my home, and you
6 notice a large blip in the middle, that blip is
7 Eglin Air Force Base. The only thing that
8 resides there is pine trees and alligators.
9 There's not a lot of population in there. But
10 I bring that out because I live due south,
11 almost where the mouse is, a little further
12 south. It is a two and a half hour drive
13 east/west from my House to the Capital, so Leon
14 County, which is barely on the map on the side.
15 However, to go due north to Alabama, there is a
16 geographical quirk. If you look on my map as I
17 look at it on the right side of Leon County,
18 you see there is a green that goes up about,
19 you know, yea much above the rest of the state.
20 It is two and a half hours from my house to the
21 Capital. It is almost two hours from my house
22 due north to Alabama without ever leaving my
23 own county. And people who don't live there or
24 you don't drive that way don't grasp just how
25 big of a geography we really are. Most people

1 pass through our region going on I-10 and never
2 get that far off the highway. But if you look
3 at how much -- how large our districts are
4 north/south, it is very telling. And so when
5 you look at this and you say, you know, the
6 districts are elongated east/west, I have
7 sisters -- I have six sisters, all of whom live
8 along Highway 98, and I can be to my sister in
9 Mobile, which is just on the other side of
10 Pensacola, in two hours, and to my sister over
11 in Mexico Beach, which is near where the mouse
12 is, in less than two hours, along the
13 east/west. The sister that I have -- the one
14 that got off the reservation that lives just
15 north of Tallahassee in Georgia, takes me
16 nearly three and a half hours, because there is
17 no real way to move north/south, and I urge you
18 to consider that as you think about the
19 counties, that we are structurally built to
20 move east/west, we are not structurally built
21 north/south, and frankly, that is a concern
22 every time there is a hurricane.

23 SENATOR GAETZ: And, Mr. Kelley, I
24 apologize, you have been very gracious with
25 your time --

1 MR. KELLEY: Yes.

2 SENATOR GAETZ: -- but if you could
3 summarize, we would be grateful.

4 MR. KELLEY: Yes, sir, I wanted to move to
5 the House map real quick, because I wanted to
6 address a comment Senator Sobel made about
7 drawing, you know, the House. I don't think
8 you can effectively do this if you don't draw
9 all three maps to understand the
10 inter-workings, and what I drew here in the
11 House map is, if you notice my districts, the
12 north districts are generally all within the
13 confines of one Senate district, and the three
14 beach communities are generally within the
15 confines of a beach Senate district, and
16 several members have presented this about
17 nesting, and this is really -- I didn't do it
18 precisely, but it is to put the Senate
19 districts with the House districts in a manner
20 to us that makes sense, where the beach
21 communities are really represented Senate and
22 House together, the rural communities are
23 represented Senate and House together, and this
24 sort of continues throughout my maps through
25 the rest of the state.

1 SENATOR GAETZ: Thank you very much, Mr.
2 Kelley.

3 MR. KELLEY: Thank you, Mr. Chairman.

4 SENATOR GAETZ: Any questions for Mr.
5 Kelley?

6 Thank you for hanging with us throughout
7 this whole process, and, you know, we are not
8 done yet, we are just getting started.

9 MR. KELLEY: Thank you.

10 SENATOR GAETZ: Thank you. Next is David
11 Pleat. Mr. Pleat, thank you very much for
12 coming over, and you are recognized, sir.

13 MR. PLEAT: Thank you, Mr. Chairman, and
14 thank you, members of this committee, for this
15 opportunity to speak to you.

16 I am David Pleat. I am from Destin,
17 Florida. I am also affectionately known
18 locally as one of the three Democrats in our
19 town, and I also feel uniquely qualified to
20 talk about this issue, because I ran for House
21 District 7 last fall, which is one of the
22 craziest districts in the state. It is the
23 second-largest geographic district in the
24 state. It covers parts of nine counties, two
25 different time zones, and I put 20,000 miles on

1 my truck during the course of that year. And
2 what stood out to me the most during that year
3 of campaigning is the glaring difference in
4 issues of importance to the coastal communities
5 in south Walton County, Bay County, Panama City
6 Beach, versus, for example, Marianna, what was
7 important in Marianna or Crawfordville or in
8 Tallahassee, because part of that district was
9 in Tallahassee.

10 The other net effect of a district like
11 that is that voters are very confused. I think
12 we forget that one of the goals is to make sure
13 we get people out to vote. And when your
14 districts are so confusing, as I found out at
15 every meeting I went to when people said "What
16 district am I in, Mr. Pleat," and we all know
17 the more confusion, the less likely they are
18 going to vote. So I think common sense
19 boundaries are so important for this process.

20 And as a result, as I went through the
21 proposed maps, I concur with the comments made
22 by Mr. Kelley and the folks from Escambia
23 County. Everybody in our area along the coast
24 knows that there is a distinct difference
25 geographically south of Choctaw Bay, for

1 example, south of the Eglin Preserve, versus
2 north of those geographic boundaries. Good
3 people in the north, good people in the south,
4 but very different communities. So as Senator
5 Gaetz, being the coastal Senator for our area,
6 gets to concentrate on the unique interests and
7 needs, tourism, environment, et cetera, those
8 interests are different for Senators from the
9 north county who have a more rural county to
10 worry about.

11 As I went through the proposed plans, it
12 just happened, and I have never met Mr. Kelley
13 before, but I ended up finding three different
14 maps that I think make the most sense for our
15 area which acknowledges and represents the
16 difference between the north and the south. So
17 if you look at Senate district proposed map,
18 Mr. Kelley's map, number seven, which I think,
19 Senator Gaetz, is very similar to the existing
20 district that you serve, it preserves that
21 coastal community interest and again goes
22 east/west and not north/south, as has been
23 proposed in some other maps. State House map
24 18, which is also Mr. Kelley's, I think best
25 concentrates those same philosophies for the

1 House seats and then Congressional District 4,
2 which also is Mr. Kelley's.

3 So I would respectfully request that the
4 committee recognize what us locals in that area
5 understand is this unique north/south
6 difference, and give those voting areas and
7 those communities a voice that is concentrated
8 and collectively theirs. Thank you.

9 SENATOR GAETZ: Thank you, Mr. Pleat. Any
10 questions for Mr. Pleat? I have one, sir.

11 As a candidate for the Legislature, and I
12 know you put a lot of miles on your vehicle and
13 you were everywhere, as a -- and you happen to
14 be a Democratic candidate, so let me ask this
15 question with asking you to speak from your
16 experience as a candidate: Do you believe that
17 the maps that you just referred to, which you
18 said were preferable, would have -- would have
19 resolved some or all of the problems that you
20 described, which is a -- and if I
21 mischaracterize, I know you will correct me --
22 a substantial divergence of issues between
23 communities in the current House district that
24 you ran for? And then the second part of the
25 question -- and if you want to dodge this, you

1 sure can -- do you believe that you would have
2 had a fairer chance as a candidate with the
3 districts that you are suggesting would be
4 preferable for other reasons, would you or
5 another Democrat have had a fairer chance in
6 that district?

7 MR. PLEAT: As to the first part of your
8 question, Senator, I think it is just easier
9 for voters to understand in our area, if their
10 district is District 6 and it is south of the
11 bay, everyone knows where the bay is, it is
12 going to make it easier for them to understand
13 where they are going to vote and where they --
14 given where they reside.

15 As to the second question, was it fairer,
16 I think Representative Coley would probably
17 share this thought as well. Being on the
18 coast, I was more privy to the interests of the
19 coastal communities and their -- what they felt
20 was paramount -- of paramount concern. When I
21 get up to Marianna in Calhoun County, for
22 example, Representative Coley had a much better
23 grip on those issues, because that is where she
24 is from. So I think if you allow the
25 candidates the opportunity to concentrate more

1 in the area where they live, you just give them
2 a better chance to speak to the issues that
3 they are familiar with. So I think, yes, if
4 you align it like these maps show, candidates
5 on both sides, Democratic candidate and
6 Republican, will be able to focus more on a set
7 of issues as opposed to a great -- a great list
8 of issues across nine counties.

9 SENATOR GAETZ: Thank you, sir.

10 Any other questions or comments? If not,
11 thank you very much, Mr. Pleat.

12 MR. PLEAT: Thank you.

13 SENATOR GAETZ: Dawn Moliterno is next,
14 and then following Ms. Moliterno, Dr. Don
15 Riley.

16 Ms. Moliterno, are you here? There you
17 are. For those who don't recognize
18 Ms. Moliterno, let me just take a prerogative
19 of the Chair to say that she was the leader of
20 the coalition of counties in coastal northwest
21 Florida that worked with the Governor to bring
22 an extraordinary amount of funding from BP to
23 help promote tourism in our area in the period
24 of recovery from the Deep Water Horizon oil
25 spill, and all of Florida is thankful to you

1 because those revenues now can be shared with
2 the entire state, and certainly our areas,
3 thankful to you. So you are recognized, ma'am.

4 MS. MOLITERNO: Thank you, Mr. Chairman,
5 and committee members.

6 I don't have maps. I don't have programs.
7 I am going to just speak from experience that
8 having been at the Tourist Development Council
9 in south Walton for over a year and a half, but
10 previous to that, being the Chamber President
11 for Walton County for five years, clearly got
12 to see the difference in issues from not only
13 business, but geographical to cultural issues
14 that were very different, different concerns.
15 You learn very quickly that the issues that
16 face those in the coastal communities are very
17 different than those that are faced in the
18 north end.

19 We are a little bit different from the
20 standpoint, Walton County, most of our
21 population is in the north end of the
22 community. So the rural community actually has
23 the predominant population; however, the
24 coastline has the largest share of business.
25 So the coastal communities is one that is very

1 important for us to preserve. We think it is
2 important that the coastal Senate districts be
3 preserved, and that we do continue to have that
4 representation along the coast.

5 We did learn during the oil spill, which
6 none of us were prepared for, or had any
7 experience, that there was great benefit in
8 having leadership that understood that
9 coastline and those issues in a time of crisis.

10 The one thing that in Walton County the
11 people of Walton County do agree on is the fact
12 that we need to four-lane 331. I'm sorry, you
13 knew I had to do it. I know it is a different
14 committee. It is your slowest evacuation route
15 in the state of Florida, but beyond that, very
16 different needs, different issues.

17 So we think that map -- I believe it was
18 seven and 71 are the best maps. They should
19 serve as the guiding maps going forward.
20 Senate maps 56, 64 and 66 are not good for
21 northwest Florida.

22 We have with us today also is our
23 Vice-Chairman of the county commission and our
24 TDC Chairman, Mr. Scott Brannon, and Special
25 Counsel Atkinson, and so on behalf of Walton

1 County constituents, we do hope that you will
2 continue to preserve the Senate districts as
3 they currently are.

4 SENATOR GAETZ: Thank you, ma'am. Is
5 there -- is there any comment or question?

6 Thank you, Ms. Moliterno, for being here
7 today and for your service to coastal northwest
8 Florida.

9 MS. MOLITERNO: Thank you.

10 SENATOR GAETZ: Next we will have
11 Dr. Riley. Dr. Riley, are you here, sir? And
12 following Dr. Riley, Jim Bagby, the Honorable
13 Jim Bagby from the City of Destin, and then
14 Seegar Swanson from Navarre.

15 Dr. Riley, you are recognized, and thank
16 you for coming today.

17 DR. RILEY: Thank you, Chairman Gaetz and
18 members of the committee. I traveled here
19 today from Walton County. I reside in Miramar
20 Beach. And this is my second opportunity to
21 give testimony before this committee. In Ft.
22 Walton Beach, I shared with you my desire that
23 the redistricting of northwest Florida reflect
24 the unique coastal and northern communities in
25 our part of the state. We should have a state

1 Senate district for the northern portions of
2 the Panhandle, and we should have a separate
3 state district -- Senate district for the
4 southern portions of the Panhandle.

5 During our meeting in Ft. Walton Beach,
6 the vast majority of people spoke in favor of
7 Senate districts similar to those in existence
8 today, and with perhaps one exception thus far.
9 I think the same sentiments have been and will
10 continue to be echoed here today. Virtually
11 everyone wanted a northern district and a
12 coastal district, irrespective of their
13 political affiliation.

14 Today the committee is considering eight
15 Panhandle state Senate maps. Five of those
16 maps accurately, I believe, reflect the will of
17 the people as measured by the prior testimony,
18 both in Ft. Walton Beach, as well as here
19 today. All five of those maps of which I speak
20 preserve both those coastal and northern Senate
21 districts. The most desirable of these, I
22 believe, was submitted by Mr. Kelley. However,
23 three of the maps being considered today would
24 mark radical and I believe totally unwanted
25 shift in how northwest Floridians are

1 represented in the state Senate, maps numbers
2 56, 64 and 66 submitted by Messrs. Terrell,
3 Libby and King, respectively.

4 SENATOR GAETZ: I apologize, Doctor.
5 Would you give us those numbers again?

6 DR. RILEY: Fifty-six, 64 and 66 --

7 SENATOR GAETZ: Thank you, sir.

8 DR. RILEY: -- would harm our community.
9 These maps neglect to use the Eglin Reservation
10 boundary as the primary geographical, cultural
11 and political boundary in northwest Florida.
12 The Eglin Reservation is the true boundary that
13 separates rural agricultural northwest
14 Floridians from the tourism-driven coastal
15 neighbors to the south.

16 The Constitution requires the Legislature
17 to adhere to geographic and political
18 boundaries where practical. It is neither
19 practical nor desirable to adhere solely to
20 county boundaries when municipal and geographic
21 boundaries could create -- guide the creation
22 of constitutional districts that the community
23 clearly wants.

24 I have reviewed some of the maps that have
25 been submitted to the Florida redistricting

1 website, and the map submitted by Mr. Sessions
2 should also be considered as it uses the Eglin
3 Reservation and key roadways and municipal
4 lines to draw district boundaries. Please do
5 not neglect the Eglin Reservation boundary, and
6 please don't forget the overwhelming testimony
7 that northwest Floridians have given.

8 I have driven here today at my expense
9 because I am very concerned that maps 56, 64
10 and 66 are being considered. I would ask that
11 this committee instruct their staff to exclude
12 those maps from consideration as other
13 constitutional submissions clearly reflect the
14 will of the people. Thank you.

15 SENATOR GAETZ: Thank you very much,
16 Doctor. Any comments or questions? If not,
17 thank you very much for coming today.

18 Jim Bagby. Mr. Bagby is a member of the
19 City Council, City of Destin, and we are
20 delighted to welcome him to the Florida Senate.
21 Mr. Bagby, you will be followed by Seegar
22 Swanson and then by Rich Templin.

23 And you are recognized, sir.

24 MR. BAGBY: Thank you, Senator Gaetz and
25 members of the redistricting members and any

1 other members -- distinguished members of the
2 Legislature. It is good to see you again. I
3 had the opportunity to speak before some of you
4 in Ft. Walton Beach, and it is my pleasure to
5 come back and speak again today.

6 I want to thank you, first of all, for the
7 process that you've put in place. That meeting
8 in Ft. Walton Beach, I know the meeting in
9 Pensacola, the meeting in Panama City and all
10 over the state, people appreciate that, and the
11 transparency that you have provided in the
12 hearings and the ability to submit and draw
13 plans. I did not submit or draw any plans. I
14 have a full-time paying job as the Town Manager
15 of Rosemary Beach down in the far eastern end
16 of Walton County, I also have a part-time city
17 councilman's job, and like a lot of you, I
18 serve on committees, commissions, boards,
19 councils, in our region. But I want to thank
20 you for the openness of this process.

21 I have some recommendations though. I did
22 review all the plans that I think you were
23 going to review today, with the exception of
24 one, and I don't know, Mr. Guthrie, if it was
25 41 or 71, I couldn't hear over there, but where

1 I think most of the people in northwest Florida
2 agree, all the congressional plans, with the
3 exception of 20, are acceptable, and 20 is not
4 acceptable because, as I remember, it splits
5 the City of Destin, and as you may remember, or
6 some of you may remember from the meeting in
7 Ft. Walton Beach, that was one of the things --
8 the Mayor spoke, I spoke and others spoke.
9 Destin right now, a city of 13,000 people, sits
10 in two congressional districts and two state
11 legislative districts, and it is just wrong
12 that a town that small that is on a little spit
13 of land is split like that, and so hopefully
14 you will address that issue.

15 The Senate plans, we prefer number seven,
16 I haven't seen Mr. Session's plan, 25, and then
17 maybe that 41 or 71, I couldn't tell, and I
18 didn't have that map printed out when I was
19 reviewing the plans, but those are the Senate
20 plans.

21 And, again, I will speak to the
22 north/south issue as one of the people from the
23 south. I have friends, a lot of friends, on
24 the north end of the county, and they are
25 concerned about the south taking control of

1 legislative districts, because the majority of
2 the population is there along the coast. They
3 deserve their representation. They have great
4 representation now, we have great
5 representation now, and it falls into the if it
6 is not broken, please don't fix it category.
7 And our state Senate districts are not broken
8 in northwest Florida.

9 With respect to the House plans, I
10 strongly urge you to support number 27 or 45,
11 and maybe 18, I couldn't tell from my map where
12 it -- if it split Destin or not on 18. If it
13 does split Destin, then obviously I could not
14 support that.

15 And the big question is why. The statute
16 is now very clear, and we have talked about the
17 Voting Rights Act and the various sections
18 Mr. Guthrie covered, but when I was reading the
19 sections, the new additions to the
20 Constitution, I guess, I was struck by there
21 seems to be a lot of emphasis in a lot of these
22 plans on political boundaries, i.e., county
23 boundaries, and not a lot of emphasis on
24 geographical boundaries. And I think those of
25 you who were at Senator Gaetz' ceremony for

1 the -- to be the Senate President remember the
2 story about Senator Gaetz campaigning in
3 Alabama, okay, and that applies here, okay,
4 because people don't know necessarily the
5 county line is on this property or on that
6 property, unless they live right there. But
7 they know where Interstate 10 is, they know
8 where Highway 98 is, they know where the
9 Choctawhatchee Bay is, okay, everybody knows
10 that, so they know in an instant where they
11 are. But if they are looking at property up by
12 Alabama or over by Walton County line or over
13 by the Okaloosa County line, they may not know.
14 We have a lot of prominent citizens in Destin
15 who don't vote in Destin because they are
16 actually on the wrong side of the county line,
17 and they all think they live in Destin, but
18 they don't. And we have the same problem in
19 Destin, because that little spit of land, there
20 is an unincorporated part of the county there
21 that everybody thinks they are in Destin.

22 But I would just remind you of
23 subparagraph c that says, "The order in which
24 standards within subsections 1a and b of this
25 section are set forth shall not be read to

1 establish any priority of one standard over the
2 other within that subsection."

3 So please look at the geographical
4 boundaries, the bays, the rivers, the highways,
5 Eglin Reservation, when you are drawing the
6 lines in northwest Florida. And I just want to
7 thank you again. You all are doing a great
8 job, and I appreciate the opportunity to speak.

9 SENATOR GAETZ: Questions for Mr. Bagby?

10 Well, now the public record will show that
11 Senator Gaetz doesn't know where Alabama and
12 Florida are, which will not be a surprise to
13 members of this committee.

14 Seegar Swanson, and then following
15 Mr. Swanson, Rich Templin, and then Phyllis
16 Garrett.

17 Sir, thank you for coming, and we are
18 delighted to have you before the Florida Senate
19 today. You are recognized.

20 MR. SWANSON: Thank you, Mr. Chairman and
21 members of the Senate and the House that are
22 here. My Senator, you may know him, he is
23 Senator Gaetz, the -- I am here to speak
24 because I have some concerns about the House
25 districts, and I would like to say my expertise

1 lies in the fact that I worked on a campaign
2 committee for the present Representative from
3 that district for the last three campaigns, and
4 we lost three times, and we are talking about
5 Representative Ford who lives in Santa Rosa
6 County, precinct 22, the only precinct in that
7 House district that isn't in Escambia County.
8 Now, you would think that somebody working on a
9 campaign for a candidate from Escambia County
10 would be a slam dunk to beat a guy that lives
11 in the orphan district that is geographically
12 removed by a three-mile bridge across the bay,
13 but the truth of the matter is, as I can bring
14 some attention to the problems with Escambia
15 County, if you look in the population and the
16 voting -- number of voting people in Escambia
17 County on the first chart with the
18 congressional -- existing congressional
19 district, almost half of the population of the
20 first congressional district lives in Escambia
21 County, but their Congressman doesn't.
22 Congressman Miller is from Santa Rosa County.
23 There aren't any Senate -- State Senators from
24 Escambia County. One of them is from Okaloosa
25 County and the other one is from Santa Rosa

1 County. The -- when it comes to the House
2 representation, District 2 is 100 percent in
3 Escambia County, they got one. District 3 is
4 99 percent in Escambia County, they don't get
5 that one.

6 So this is my concern. I think -- I don't
7 know that that was the intention that that was
8 gerrymandered that way ten years ago to see
9 that the Escambia County was denied
10 representation in the House with that
11 configuration, but that seems to be the way
12 that it has worked out. And if you people have
13 a conscience and you are interested in giving
14 the minority a possible seat in the House from
15 the Panhandle, your best chance is with
16 District 3. And if you would look at those
17 minority statistics precinct by precinct when
18 you draw these lines, the -- it would be very
19 possible to have a House district that is not
20 50 percent minority, but close to 50 percent,
21 very close to 50 percent minority. And that is
22 the end of my comments, thank you.

23 SENATOR GAETZ: Comments or questions for
24 Mr. Swanson?

25 I have a question, sir. As you -- if you

1 have had a chance to look at the maps that we
2 are considering, the House maps, because that
3 is what you focused your testimony on, are
4 there House maps by number or by name that you
5 like better?

6 MR. SWANSON: Yes.

7 SENATOR GAETZ: And which are those,
8 please, sir?

9 MR. SWANSON: Sixty-seven, 18 and 27.

10 SENATOR GAETZ: Okay. Other comments or
11 questions? Senator Negron, you are recognized,
12 sir.

13 SENATOR NEGRON: Thank you, Mr. Chairman.
14 I just, with your permission, had a brief
15 rhetorical question just for all of us to be
16 thinking about as we go forward.

17 Where it says -- I think there is an
18 inherent tension between the directive that we
19 have here in subsection b that we are to
20 utilize existing political and geographic
21 boundaries, and then it says "where feasible,"
22 which I am not sure what that means, but -- so
23 that is going directly against what citizens
24 are telling us and we're -- you know, we're --
25 I am inclined to default to what the citizens

1 want and to give that great weight in our
2 deliberations, and yet I wonder what "where
3 feasible" means. Like could we say, "Well, the
4 reason why we didn't put Okaloosa all in one
5 state Senate district, it wasn't feasible
6 because of the flow of commerce didn't allow
7 it," or could we say, "There were unique
8 characteristics," or there was -- "There is --
9 98 goes through Escambia County in such a way
10 that it wasn't feasible"? I just think there
11 is this inherent tension between using these --
12 you know, if you are just going to use these
13 geographic and political boundaries, this will
14 be a very easy process, you could just get a
15 magic marker and a thing and just start doing
16 counties until you have the right number. So I
17 just -- I am wrestling as I'm -- I don't live
18 in northwest Florida, but I listened to the
19 citizens, and they clearly do not want us to
20 just use strict geographic boundaries in doing
21 these districts, and so I am wrestling in my
22 mind to what "where feasible" means. Do I have
23 the flexibility as a legislator to say, "It
24 wasn't feasible in northwest Florida to do it,
25 and here is why," or are we bound by the strict

1 language of the amendments?

2 So I think as we go forward, I would love
3 to hear what other members and our staff think
4 about what seems to me to be this inherent
5 tension between wanting to follow the clear
6 directions of our constituents, while at the
7 same time being bound to follow the letter of
8 the Constitution.

9 SENATOR GAETZ: Thank you, Senator Negron.

10 Yes, sir, did you wish recognition,
11 Senator Braynon? Just waving?

12 SENATOR BRAYNON: You know, yes.

13 SENATOR GAETZ: You would like
14 recognition? Please.

15 SENATOR BRAYNON: Listening to what
16 Senator Negron said, someone got up and said
17 that one of the lines was drawn using
18 geographical -- because when you say
19 geographical or political lines, geographical
20 could mean a river, could mean -- you know, it
21 could be a list of different things. Doesn't
22 particularly have to be a county line. So
23 someone said that before us, so, I mean, I
24 guess the tension is there if you only
25 constrain it to that definition, but there's

1 maps that have different things on it than just
2 the county.

3 SENATOR GAETZ: Thank you, Senator
4 Braynon.

5 Any other comments at this point? If not,
6 Mr. Swanson, thank you for coming all this way,
7 and we really appreciate your testimony.

8 Next is Rich Templin, and then Phyllis
9 Garrett, and then Chris Moore.

10 Mr. Templin, thank you for being here
11 today, and we recognize you.

12 MR. TEMPLIN: Good afternoon,
13 Mr. Chairman, thank you very much. And first
14 just let me make it clear that I am actually
15 here this afternoon representing myself, not my
16 employer. I guess if I am representing
17 anybody, it is Grace and Aster and Roland over
18 at 2038 Talaheni here in Tallahassee. And,
19 Mr. Chairman, if I may beg your pardon, I would
20 very much like to say congratulations to
21 Senator Gibson. It is very exciting to see you
22 here serving in this most august body. Thank
23 you, and congratulations.

24 As an individual citizen, I am fortunate
25 enough through my employer to be able to be a

1 Union member. And first let me say that I am
2 very proud to be one -- maybe one of the few
3 fourth-generation Floridians that you will
4 meet. My daddy's side of the family settled in
5 what is now Delray Beach in the 1800s, and my
6 mom's side of the family settled in south
7 Georgia and the northern part of the Panhandle
8 in the early 1900s.

9 As a Union member here in this area, I am
10 fortunate enough to be part of the Northwest
11 Florida Federation of Labor, and as such, I
12 have Union brothers and sisters between here
13 and Pensacola. And one of the things that I
14 have learned simply through fellowship with
15 them and working with them on different
16 projects and just in my free time, barbecues
17 and picnics and such, is a lot of what you have
18 heard here today, that their fundamental
19 experience, their work experience, their life
20 experience, is north of I-10 and in those areas
21 in the rural communities where most of them
22 reside. It is far different than the
23 experience of those folks who live in the
24 coastal areas. You know, they may travel to
25 the coastal areas to work, but they can't

1 afford to live there, so they turn around and
2 drive back north to their homes. And I think
3 that it is just -- it is just really important
4 when you are looking at this part of the state,
5 to just always keep that in mind, that there is
6 a fundamental difference between the
7 experiences of the folks living in these two
8 geographic areas, regardless of how close in
9 proximity on a map they may appear, and just
10 that you do everything that you can to look out
11 for them, to look out for the folks that work
12 perhaps in the prisons there or the folks that
13 work in the other state institutions in that
14 part of the state, to look out for the folks
15 that work for the farmers, there's Union
16 members who do agriculture work in that area,
17 and to just really keep an eye out when looking
18 at these maps, when you look at maps 64, 66,
19 map number 56, I believe, that really tries to,
20 you know, force those two disparate groups of
21 people together. I think that you should be
22 real concerned when looking at those, whereas
23 when you look at a map similar to the map
24 represented in number seven that maintains that
25 distinction between those two disparate

1 economic and socioeconomic groups of people, I
2 would just encourage you as an individual to
3 just really keep that in mind.

4 The folks over there have gone through a
5 lot lately, and I think that we don't want to
6 do anything to shut out their ability to have
7 representation that is truly accountable to
8 their needs, their interests. And I know a lot
9 of folks have said that today, and, you know,
10 just to even drive the point home, I mean, I am
11 a registered Democrat, I don't have a big
12 partisan interest in that part of the state at
13 all, but I am very concerned about -- about my
14 Union brothers and sisters that live there, and
15 I would hope and I am confident that you will
16 look out for their interests when going through
17 this important process. Thank you very much.

18 SENATOR GAETZ: Thank you, Mr. Templin.

19 Questions for Mr. Templin? If not -- I'm
20 sorry, did someone have a question? Thank you
21 very much, sir. We appreciate your testimony.

22 MR. TEMPLIN: Thank you.

23 SENATOR GAETZ: Phyllis Garrett, and then
24 Chris Moore, and then Joe, and I apologize,
25 Joe, I know I am not going to do this well,

1 Bourassa.

2 MR. BOURASSA: Correct.

3 SENATOR GAETZ: All right. I got one
4 right.

5 Ms. Garrett, thank you for being here, and
6 you are recognized, ma'am.

7 MS. GARRETT: Thank you, Mr. Chair. I am
8 a little conflicted with just filling out my
9 appearance card today, because even though I am
10 representing myself, I am a registered
11 lobbyist. But I am -- I live at -- I don't
12 even know where I live. I live at 1335
13 Castenau Court here in Tallahassee because of
14 my job. My family lives 5867 Quintet Road,
15 Santa Rosa County.

16 I found out just a minute ago that I have
17 something in common with Rich Templin. I am a
18 fourth-generation Floridian. My grandfather's
19 family came to Santa Rosa County and settled in
20 Chumucka, which had a population growth of I
21 think one about five years ago.

22 It is -- I was happy to see -- I don't
23 want to repeat anything, so I will say that I
24 was happy to see the gentleman from the
25 northern part of Escambia County, I was happy

1 to see the lady say that she represented the
2 business interests along the coast. We are
3 very different populations. My family is very
4 proud of their rural heritage. My grandfather
5 was a farmer. I have a very small plot of a
6 farm, about a half-acre. That is something
7 that we take pride in. The gentlemen who are
8 farmers, they take pride in that. They don't
9 have anything in common with the people that
10 live along the beaches and want to see those
11 areas developed to their maximum potential. We
12 like to have trees in our backyard and we like
13 to have gardens, and we don't want to see
14 high-rises everywhere, and we have that because
15 we are in north Florida -- the northern part of
16 the Panhandle. My grandson, sixth generation,
17 I want him to have those same things. I don't
18 want him to be represented by someone along the
19 coast -- and, no, please understand that I have
20 something that goes way back in my family,
21 which is the ability to put my foot in my
22 mouth, so don't think that I am trying to say
23 anything against anybody's opinions, but I do
24 know there is a big difference. I like to go
25 to the beach about once a year. That is all I

1 can stand. I prefer the northern part of the
2 county, again. I say that over and over. My
3 family has been there forever. I have a
4 husband who lives at 5867 Quintet Road. He is
5 a registered Democrat. I am happy to say that
6 two of my children are registered Democrats.
7 So we don't have a lot of say in the political
8 process, but we do have say in that little bit
9 of land that we own, and we like to know that
10 we are represented by somebody who has the same
11 interests.

12 And something I have heard, even though
13 people talk north/south, like north of I-10,
14 north of 98, nobody has said community of
15 interest today, and I believe that is in the
16 amendments as well. And the rural community of
17 interest in the Panhandle is nothing like the
18 southern community of interest in the
19 Panhandle. So those are my comments.

20 SENATOR GAETZ: Thank you very much,
21 Ms. Garrett.

22 Comments or questions for Ms. Garrett? If
23 not, we really appreciate your testimony.
24 Thank you for being here.

25 Chris Moore. Mr. Moore represents the

1 Leon County Supervisor of Elections Office, and
2 is here for information. Do you have some for
3 us?

4 MR. MOORE: Good afternoon, Mr. Chairman,
5 thank you for having me.

6 I would like to say, first of all, I am a
7 professional cartographer. I guess I am lucky
8 enough that I get paid to do this. I look at
9 these districts every day, all the time, the
10 precincts and the districts. And I first want
11 to congratulate the technical team and
12 Mr. Guthrie with the software that you've put
13 together. It is extraordinary, it is a very
14 good piece of software and it is very easy to
15 use.

16 Our mission at the Leon County Elections
17 Office is to clean up after this party. When
18 we get all the districts from all the different
19 bodies, we have to make a precinct plan and we
20 have to educate the voters on where they are
21 supposed to go and what these district lines
22 are.

23 One thing that would make that a lot
24 easier is by using what the census calls
25 visible landmarks. I think there was some

1 discussion about using geographic boundaries as
2 opposed to, you know, political boundaries, and
3 the census defines visible landmarks, you know,
4 as something like a railroad or a river or
5 something you could describe to a person. I
6 would probably shy away from trying to use city
7 boundaries, because cities change, they annex
8 property frequently, and some of the city
9 boundaries in Tallahassee in the south part of
10 town are some of the very hardest to describe.

11 So, you know, the ability to do that and
12 to use the visible features when you are
13 drawing these districts, I don't think it is
14 mutually exclusive between what you are hearing
15 from the discussion of the beach communities
16 versus the rural communities. When I look at
17 it, I look at Leon County amongst another
18 district, and there are opportunities to really
19 clean up the line work in the local area.

20 I looked at plan number 67, a House plan,
21 and I took that and, you know, was able to make
22 some adjustments to it and submitted a plan. I
23 think I was the one that submitted one earlier
24 this morning that wasn't quite ready, but there
25 are lots of opportunities to make that a better

1 plan for, you know, a micro-geography of Leon
2 County within a district. And from someone
3 like me who can look at this and knows what we
4 can do with it, you can get to the deviations
5 in the House and the Senate plan. The
6 congressional plan, you may be, you know, bound
7 by the deviations, have to do what you have to
8 do, but on those other two, I think you do have
9 the leeway to make some of those adjustments so
10 that you can have landmarks that are visible,
11 easy to describe and still fall within your
12 deviation and meet the social criteria that
13 other people are talking about. I think it is
14 achievable. You just have to find the right
15 people.

16 And so one of my questions is, how does
17 someone like me get that information to you
18 across all the plans? There's a lot of plans
19 that do the same thing. What is my best avenue
20 of communication to get information to you?

21 SENATOR GAETZ: Your best avenue is any of
22 the four people who are sitting at the table
23 next to you. If you have the time, we've got
24 the time to sit down with you and have you show
25 us where you believe some of those issues can

1 be best addressed and the lines can best be
2 drawn, and we would welcome your expert advice,
3 particularly given your position working with
4 the Supervisor of Elections.

5 MR. MOORE: Right. I know that you have
6 heard from many different representatives from
7 elections offices on your tour, and I think we
8 as a group are looking for some of the same
9 things. We are in part of a smaller district
10 and what we are looking at most of the times,
11 but you can submit partial plans, you can go in
12 and edit full plans, but there are so many of
13 them, you know, we need to kind of focus our
14 time on what is the most productive way to
15 communicate what some of these things are. And
16 I've found mostly they are by using major
17 roadways, that is the easiest thing you can do,
18 easy to describe and still, you know, fit your
19 needs. So --

20 SENATOR GAETZ: We would welcome your
21 expert advice. Please make an appointment with
22 our professional staff. We would welcome your
23 help.

24 MR. MOORE: All right. Thank you very
25 much.

1 SENATOR GAETZ: Thank you.

2 Any questions for this gentleman? If not,
3 thank you very much for your testimony.

4 Joe Bourassa. Bourassa?

5 MR. BOURASSA: Bourassa.

6 SENATOR GAETZ: Bourassa.

7 MR. BOURASSA: I --

8 SENATOR GAETZ: From Daytona Beach, from
9 Daytona Beach, all the way from Daytona Beach,
10 Senator Lynn.

11 MR. BOURASSA: Of course, I didn't come
12 here for this meeting. My primary interest
13 historically has been water, and, you know,
14 I've branched out --

15 SENATOR GAETZ: We are not the most
16 important thing on your plate today?

17 MR. BOURASSA: Pardon?

18 SENATOR GAETZ: You didn't come here just
19 to talk to us?

20 MR. BOURASSA: No, I don't want to talk
21 water. I said our primary case --

22 SENATOR GAETZ: Well, you are recognized.

23 MR. BOURASSA: Historically.

24 SENATOR GAETZ: If you have anything to
25 say about these districts in northwest Florida,

1 fire away.

2 MR. BOURASSA: The one thing I want to say
3 is first I want to meet after the meeting John
4 Guthrie, but I put together an interesting
5 subject that has population as its base, okay.
6 Typically, you know, you are dealing with the,
7 you know, U.S. Census numbers here, but
8 important to all of you people here are what
9 are the projections relative to the, you know,
10 potential historical growth of the population,
11 right.

12 Anyway, I put together some material here,
13 I want to see if you people might want to see
14 it, you know, at some other time. I am not
15 prepared to, you know, to really address the
16 issue here. All I want to bring up, though, is
17 BEBA, who is the official state-approved
18 population source, historically and growth wise
19 here, really has to depend upon the FDEC, the,
20 you know, Florida Demographic Estimating
21 Commission here, and somehow that is a
22 Legislature body here, you know, BEBA has a
23 seat on it, the Governor has a member on it,
24 the House and Legislature have members on it
25 here. And you know what, they've really gone

1 astray, okay, that I want to show, if you
2 people eventually are interested, going to show
3 that this afternoon.

4 I just wanted to bring the subject up that
5 the population growth rate that people keep
6 talking about, we are going to go way back to
7 where we are, has had no validity in what's
8 happened the last three years, okay. And with
9 the economic conditions the way they are and
10 appearing to deteriorate worldwide, okay, I
11 don't think we're going to see much population
12 growth in Florida in the next ten years, okay.

13 Thank you very much for your indulgence
14 for my --

15 SENATOR GAETZ: No, thank you, sir, for
16 being here and for your testimony.

17 Is there anyone else who came today who
18 would like to offer public testimony who has
19 not had the opportunity to testify? If so, we
20 would welcome your testimony. We would invite
21 you to fill out an appearance card. Is there
22 anyone else who would like to testify?

23 Yes, sir, Mr. Lux. Paul Lux is the
24 Supervisor of Elections from Okaloosa County,
25 and, Mr. Lux, if you will fill out an

1 appearance card, we would be delighted to hear
2 from you.

3 You are recognized, sir. And you can fill
4 out the card later. Thanks for being here,
5 Paul.

6 MR. LUX: Thank you, Mr. Chairman. My
7 Senator, Mr. Evers, is up here on the Board as
8 well, as is, from my county, Senator Gaetz.
9 And I just wanted to echo from a supervisor's
10 standpoint the comments made by the gentleman
11 from the Leon County office, and that is, when
12 you are drawing these lines, when you are
13 looking at these maps, make sure that you are
14 using boundaries that we can point to people,
15 because anyone who has seen where the
16 Congressional District 2 line jumps over into
17 the -- when it goes across Choctawhatchee Bay
18 and goes up into the Niceville area, it is
19 really hard to explain to people why the guy on
20 the other side of the street, or actually not
21 even on the other side of the street, is not in
22 Congressional District 2, and he is, because
23 the -- as soon as it crosses -- I was going to
24 say I hope that is not the current map, because
25 that doesn't even show it crossing the bay.

1 There we go. So it is really hard to explain
2 to somebody why that got picked the way it did.
3 If we can point to highways, roads,
4 railroads -- we have some district lines that
5 seem to follow, you know, power lines, and that
6 is not a good thing to have to point to
7 somebody to say, "Well, you know, you live on
8 the wrong side of the power line, that is why."

9 And so it is just very important that as
10 the person who has to explain to these
11 people -- well, there's two groups of people I
12 have to explain this to. First are your
13 constituents when they don't understand why
14 they are or aren't in your district, and the
15 second group of people we have to explain how
16 the lines ended up where they are are
17 candidates for those offices who say, "Well,
18 what do you mean I don't live in that district,
19 I have to run over in this district? Now I
20 don't want to run in that district."

21 So, again, just please make sure that you
22 do as a consideration follow no -- you know,
23 geographic features like Chris described,
24 because it really does make our job a lot
25 easier. I understand it is going to mean that

1 the skew, plus or minus five percent, is going
2 to -- is going to make things maybe not quite
3 as even as we might like them to be, but just
4 -- and thank you for your time today.

5 SENATOR GAETZ: Yes, sir, Mr. Lux. Before
6 you leave, any questions for Paul Lux?

7 Mr. Lux, I apologize if I am catching you
8 unawares here, but you've sat patiently and
9 listened to the testimony today, I know you
10 have been at others of our hearings. As you
11 have looked at the maps that have been
12 submitted, assuming you have looked at them,
13 are there maps for northwest Florida, either as
14 to congressional, Senate or House districts,
15 that you believe are troublesome given the
16 important point that you've just made, or you
17 believe are remedial in terms of the points
18 you've made?

19 MR. LUX: Thank you, Senator, and I don't
20 have a specific number to point to, but what I
21 can say feature wise, I see as very important
22 congressional maps that follow county lines,
23 that sort of political boundary, if you will.
24 I understand that occasionally it may have to
25 creep over one side or the other, but as long

1 as the -- those boundary lines for
2 congressional maps are following -- you know,
3 most everyone knows what county they live in.
4 Maybe when you get into some of the larger
5 municipal areas like in Orange County where
6 people can cross over into other counties
7 without, you know, moving from one apartment
8 complex to another and not realize it, but for
9 the most part, people know what counties they
10 live in. And so I prefer congressional maps
11 follow those type of boundaries where possible.

12 I understand the argument for, you know,
13 north/south, but I think that the argument for
14 east/west -- or, sorry. I understand the
15 argument for districts that are divided
16 horizontally, but I think the -- or vertically,
17 but I think the horizontal divide keeps the
18 rural interests well-represented, and Senator
19 Evers, former House member Evers, is a product
20 of that. I think that that is important when
21 considering Senate and House maps, that the
22 ones that have the district lines drawn
23 vertically I think are less preferred than the
24 ones that are drawn horizontally, just to keep
25 those community -- and someone else said

1 communities of interest, and I am not even
2 talking about it from that perspective, but
3 just the socioeconomic commonality of the
4 people who live north of Eglin Reservation and
5 the people who live south of Eglin Reservation
6 is important, and that representation, knowing
7 that, you know, you don't have the potential
8 for all of the Representatives to come from the
9 south who represent the entire north/south
10 corridor. So I think those are important
11 features.

12 SENATOR GAETZ: Thank you very much, sir.

13 Senator Braynon, did you wish recognition,
14 sir? Other Senators? If not, thank you very
15 much, Mr. Lux.

16 We -- I apologize to members for the
17 length of the meetings that we are having, but
18 these are meaty issues, and, therefore, we
19 really do need to have thorough debate and
20 discussion. And we are now at that point in
21 our session today where we are in order for
22 debate and discussion on congressional, Senate
23 and district boundaries for northwest Florida,
24 and we are at the place where we want to give
25 guidance to our professional staff as they

1 begin to develop a proposed committee bill.

2 Senator Latvala, you are recognized, sir.

3 SENATOR LATVALA: Thank you, Mr. Chairman.

4 I thought maybe I'd just try to lead off here
5 since I am a long way from the northwest
6 Florida, and therefore don't have any really
7 personal stake in it, and that is obviously
8 what the people wanted --

9 SENATOR GAETZ: Not according to the map
10 that I have drawn, no.

11 SENATOR LATVALA: Right. My district --
12 my district does not go up there.

13 You know, we have had a very compelling
14 series of testimony today on, you know,
15 continuing the pattern of representation that
16 we have had for the last at least 20 years in
17 the Panhandle of a coastal district and an
18 interior district, and, you know, to me, you
19 know, I think we need to listen to that
20 testimony, but it is a little bit of a
21 conundrum, because we have all this testimony
22 that really sort of in some respects
23 contradicts the compactness and county
24 boundaries and some of that sort of thing that
25 we have been talking about before, and I am

1 wondering if our attorney can give us any
2 guidance on that. I mean, you know, I would be
3 ready to do what these people want to do, and I
4 think a lot of us would. You know, what kind
5 of path are we on if we do that?

6 SENATOR GAETZ: Mr. Bardos, now you will
7 justify your salary.

8 MR. BARDOS: Or not. I think that the
9 Constitution says what it says, and we really
10 have no case law here in Florida interpreting
11 it, and I think it is for this body to
12 interpret it in as reasonable a way as it can,
13 in good faith, and to apply those words to
14 every factual situation it comes across, but we
15 really don't have case law in this state as to
16 what those terms mean.

17 We have some case law in other states as
18 to what "compact" means, and those states tend
19 to differ from one another. There are
20 different schools of thought. And so -- and it
21 would take probably more time than we have
22 remaining to go through those schools of
23 thought.

24 But I think we are writing on a clean
25 slate, we have to apply the terms in a way that

1 this body believes is reasonable and makes
2 sense according to their -- to their clear and
3 sort of common-sense interpretation, and beyond
4 that, I can't really justify my salary.

5 SENATOR GAETZ: You may just have.
6 Senator Latvala.

7 SENATOR LATVALA: To continue that just a
8 little bit, then, Mr. Chairman, I mean, from a
9 compactness standpoint, you know, these two
10 districts, or these three districts in the
11 Panhandle aren't going to be compact no matter
12 how we really try to do it, because they are
13 huge districts, there's a lot of counties
14 involved. But what we have had here today is
15 we've had Republicans, Democrats and a
16 Supervisor of Elections, who is generally very
17 knowledgeable to be kind of non-partisan, even
18 though they are elected as partisan officers,
19 but most of them take very seriously the
20 non-partisan nature of their job and try to do
21 things to the best of their ability, and the
22 response has been overwhelming from all those
23 people that we have heard of to have the
24 interior and have the coastal district. So for
25 what it is worth, which is very little, I

1 guess, but for what it is worth, I say let's do
2 what the people want to do.

3 SENATOR GAETZ: I'm sorry, other comments
4 or questions? Senator Lynn, and then Senator
5 Hays and then President Margolis.

6 SENATOR LYNN: I asked a question just to
7 the attorney here by my side earlier. As we
8 look at this, I guess in my mind we need to
9 look at the whole map in terms of what is our
10 philosophy approaching the map, and it is,
11 number one, fair districts. And I agree, I
12 think there is a very important issue here in
13 terms of the interests of the coastal as
14 opposed to the interests of the northern areas,
15 the agricultural. And while we are dealing
16 with that here, and I certainly approve that
17 and support that, we have a lot of other
18 districts as we get down further into the state
19 where I would like to do the same thing, and it
20 may not be possible and it may not be easy.
21 And I just wanted to establish -- I hope that
22 we can establish that we can treat one area in
23 one way, and it may not be the way we treat
24 other areas in other areas of the state. And I
25 just wonder -- there are some rural areas that

1 are close to city areas, very different kinds
2 of interests, and I wonder how we will be able
3 to accommodate those people when we get down
4 further into the intricacies of the map. That
5 is one concern that I have, although up here, I
6 like the fact that we would protect that, and
7 certainly the maps that show that we can
8 protect the minority interests, according to
9 one map, and that seemed a feeling as well.

10 I also think that we have to be very
11 careful that we are not protecting seats. I
12 think as we approach this, it's a whole new
13 ball game, and though everybody likes to have
14 the same seats, or the people would like to
15 have their same people representing them, that
16 may not be the best interest of drawing up a
17 map for fair districts.

18 So while I want to do exactly what Senator
19 Latvala suggested, in this area, I think it is
20 the way to go, but I also hope that we will
21 find a way to address the fact that we are not
22 doing it to protect something that exists and
23 something that the people have been quite
24 unsatisfied with.

25 SENATOR GAETZ: Thank you, Senator Lynn.

1 Senator Hays?

2 SENATOR HAYS: Thank you, Mr. Chairman. I
3 think we have, not only today, but in our
4 meetings across the Panhandle earlier this
5 summer, heard very clearly and very distinctly
6 from the people of northwest Florida that we
7 have two distinct communities of interest out
8 there: The coastal areas and the inland areas.
9 I think it is our responsibility to do
10 everything we can to respond to the wishes of
11 these people and draw the district lines
12 horizontally, taking into effect the various
13 highways and reservations, et cetera, that have
14 been noted today. But I just feel like that in
15 our representative form of government, it is
16 our obligation to give the people what they
17 want when they so clearly asked for it, and at
18 the same time, try to stay within the
19 boundaries that statutes may impose on us, and,
20 of course, the Constitution, but it is hard for
21 me to understand how anybody would challenge in
22 a proceeding, the wishes of the people. I know
23 there are people out there that might do it,
24 but at the same time, I think that our
25 obligation is to go ahead and draw the lines

1 the way the people have asked for us to.

2 SENATOR GAETZ: Thank your, Senator Hays.
3 Madam President.

4 SENATOR MARGOLIS: Yeah, the issue seems
5 to be communities of interest, and I think that
6 there is a lot of case law dealing with
7 communities of interest. I don't know about
8 how the Constitution fits with the case law,
9 and that is something that I really want to ask
10 our attorneys to comment on.

11 SENATOR GAETZ: Thank you, Madam
12 President. And Mr. Bardos stops me from
13 practicing law just about every day, but let me
14 just say that whatever plan we come up with for
15 whatever part of the state, whether it is
16 congressional, Senate or House plan, has to be
17 legally defensible. We have to have a reason
18 why we are doing what we are doing, and that
19 reason must draw from the testimony that we
20 have received, the maps that have been
21 presented, but also from the -- from the laws
22 that we have to abide by.

23 Yes, sir, Senator Montford.

24 SENATOR MONTFORD: Thank you, Mr. Chair.

25 First of all, I guess, an observation. I

1 didn't understand anything our attorney said,
2 so I guess he's earned his salary. So -- but
3 maybe -- I would like just what -- maybe what
4 the definition, when you are talking about
5 "compact." What is -- I've got my definition,
6 but I want to hear what his is before I get too
7 far out there on a limb.

8 SENATOR GAETZ: Mr. Bardos, back in the
9 Senate ring.

10 MR. BARDOS: I apologize, I was in a
11 conversation and I --

12 SENATOR GAETZ: Senator Montford wants to
13 know -- he has his definition of "compactness."
14 He wants to know what yours might be.

15 MR. BARDOS: Well, we don't have one in
16 Florida, and we have -- there are a number of
17 states that have compactness standards, and
18 their courts have interpreted it in different
19 ways. Some of them are pretty similar in their
20 definition. Some of them describe compactness
21 as a closely united territory. Others focus on
22 the regularity of their shape. There is a
23 different school of thought that describes
24 compactness as mandating effective
25 representational units, so those would be

1 districts in which travel and communication and
2 transportation are easy.

3 So there are different schools as to what
4 one focuses on territory and shape, another on
5 functionality. And there are some states which
6 tend to blend those a little bit and say that
7 they will allow a little more discretion as to
8 shape if it makes the district more functional,
9 others that emphasize functionality and then to
10 a lesser degree limit that by looking at the
11 shape or the territory of the district.

12 So there are different interpretations,
13 and I don't have one yet, because the Florida
14 courts don't have one yet, and that's in part
15 the responsibility of this body to begin to
16 develop what it believes it means in the
17 context of this Constitution and in the context
18 of the facts.

19 SENATOR MONTFORD: Thank you, Mr. Chair.
20 He deserves a raise, because I --

21 SENATOR GAETZ: Yes, sir.

22 SENATOR MONTFORD: -- I am totally
23 confused now.

24 SENATOR GAETZ: All my life I have prayed
25 for a one-handed lawyer.

1 SENATOR MONTFORD: He's good.

2 SENATOR GAETZ: Senator Sachs, did you
3 wish recognition, ma'am?

4 SENATOR SACHS: I always like recognition,
5 Mr. Chairman, but I don't have a --

6 SENATOR GAETZ: I'm sorry, I misunderstood
7 you. I thought you were seeking recognition.

8 SENATOR SACHS: I will take your
9 recognition anytime. Thank you very much.

10 SENATOR GAETZ: Senator Montford, had you
11 concluded, sir?

12 SENATOR MONTFORD: Let me -- and I am
13 certainly not an attorney, far, far from it,
14 but when you talk about -- couldn't you
15 consider this whole argument today as being one
16 that would support compactness? I mean, if
17 you've got a -- if you've got an entire
18 community that is alike and similar, whether it
19 is north and south, could you not consider
20 that, not compact in terms of tightness, but at
21 least compact in terms of similar interest?

22 SENATOR GAETZ: I gather that was a
23 question for Mr. Bardos, or is that --

24 SENATOR MONTFORD: I guess it's more of a
25 statement.

1 SENATOR GAETZ: A statement, okay. Yes,
2 sir, Senator Diaz de la Portilla.

3 SENATOR DE LA PORTILLA: It seems to me
4 that given the various definitions of
5 "compactness," that we can reconcile the
6 testimony with a number of those definitions,
7 because the fact of the matter is that if you
8 draw horizontal lines, that creates a uniform
9 shape, if you will, or close to uniformity in
10 shape, and, therefore, I could argue that that
11 is compact.

12 The other part is that compactness is just
13 one of the things that we look at, one
14 criterion, it is not the only, and then all
15 these things, you have to balance competing
16 criteria. You have to balance them out against
17 each other and come to a fair conclusion based
18 on the testimony that we have received, and it
19 seems that the testimony has been consistent,
20 at least as far as the Panhandle is concerned,
21 that, you know, folks do believe and think that
22 they are best represented when you have a --
23 boundaries that divide among social economic
24 interests and activities, agriculture versus
25 the more urban setting.

1 So I think the testimony fully supports,
2 to quote Senator Latvala, giving the people
3 what they want, because it does fall in the
4 definition of "compactness," at least one or
5 two of the definitions of "compactness" that
6 Mr. Bardos discussed. So that would be --
7 that's my observation based on what I have seen
8 and heard, not just here today, but also in
9 reviewing the transcripts of meetings that I
10 didn't go to in the Panhandle.

11 SENATOR GAETZ: Other comments or
12 questions? Senator Braynon.

13 SENATOR BRAYNON: Earlier I was talking
14 about geographic lines, and I just wanted to
15 get an opinion from our attorney about -- about
16 geo- -- is a bay considered a geographic line,
17 is a river considered a geographic line, a
18 geographic boundary? Are those considered
19 that?

20 SENATOR GAETZ: Mr. Bardos.

21 MR. BARDOS: And I will have to give
22 probably an equally imprecise answer to that as
23 I gave to the last one, and for the reason that
24 the Florida courts have not interpreted it. We
25 know as to political boundaries, that the

1 ballot language for the Fair Districts
2 amendments said cities and counties, and so
3 political boundaries probably begins with
4 cities and counties. Geographical boundaries,
5 we didn't have a similar explanation of. So I
6 think, again, at this point, it is something
7 that the committee just needs to look at and
8 apply common sense to it, and so probably
9 rivers and lakes and bays might be good
10 examples, but there might be others as well.

11 SENATOR BRAYNON: Can I --

12 SENATOR GAETZ: Senator Braynon.

13 SENATOR BRAYNON: So on map seven, I don't
14 know if you can pull that up --

15 SENATOR GAETZ: Would you -- which,
16 congressional or --

17 SENATOR BRAYNON: Senate.

18 SENATOR GAETZ: Senate map seven, please.
19 Is that the one you are looking for?

20 SENATOR BRAYNON: Yeah, one of the
21 gentlemen that came up and spoke said that this
22 map -- or maybe it was the person that drew
23 this map said it was along rivers, bays and the
24 edge of a park. Is that correct?

25 SENATOR GAETZ: My notes say that was

1 Mr. Sessions, yeah.

2 SENATOR BRAYNON: Would that -- could that
3 be considered a geographic boundary?

4 SENATOR GAETZ: Mr. Bardos, do you have --
5 do you believe that's -- let's put it this way:
6 In the questions that you are getting from
7 committee, and I know everyone wants you to be
8 the judge as opposed to being our counsel, but
9 let's file the question this way: Do you
10 believe that the elements in Senator Braynon's
11 question are legally defensible?

12 MR. BARDOS: I think it is an argument
13 that an attorney could make, and in that sense,
14 it would be legally defensible, yes.

15 SENATOR BRAYNON: Mr. Chair, may I ask
16 where we are in process as far as what we
17 are -- what we -- what we should be doing right
18 now in process?

19 SENATOR GAETZ: Well, we wanted to take
20 comments that were inspired by the testimony
21 and by the staff's presentation. Before we
22 conclude today, what I would like to be able to
23 do, if we can, if we can, I don't want to rush
24 anybody, I don't want to cut off debate, but if
25 we are able to, I would like the committee to

1 give our professional staff guidance as to the
2 congressional districts in northwest Florida,
3 how you want -- how you want the proposed
4 committee bill to be developed, Senate
5 districts and House districts. If we are ready
6 to do all of that, if we -- if there is a point
7 of view that most of the committee members
8 have, then the professional staff can take that
9 and use it as a building block as we go
10 forward, recognizing that what Mr. Kelley said
11 is true, if you drop a pebble in Choctawhatchee
12 Bay, you know, there is some effect, you know,
13 in Hobe Sound.

14 SENATOR BRAYNON: The -- so if we've
15 gotten testimony from people that are saying
16 that they wanted something specific, and I
17 am -- and if I am not mistaken, we have had
18 people talk about east/west, north/south lines,
19 and we are trying to find definitions for
20 "compactness" and "geographic," because it said
21 "compactness" and "geographic," I think that
22 was on one -- that was on one -- one tier, and
23 we found one that has compactness and
24 geographic, so the next step would be to say
25 something similar to this would be what we as a

1 committee want, is that where we are heading
2 towards?

3 SENATOR GAETZ: Yes, sir.

4 SENATOR BRAYNON: And we have had people
5 talk about it, and this has geographic lines,
6 not implying anything, but I -- whenever we are
7 ready.

8 SENATOR GAETZ: Well, we are ready.
9 Again, I don't want to cut off any questions or
10 any discussion or debate that any member of the
11 committee might have, but, you know, if anybody
12 would like to advance a statement that could be
13 termed guidance for the professional staff and
14 then we will see what folks think. We are not
15 going to take roll call votes, but we want to
16 find out what people think.

17 SENATOR BRAYNON: I think that was my next
18 question. We are not going to do a vote, we
19 are just saying, hey, what do you think about
20 this?

21 SENATOR GAETZ: Well, yeah, I mean, we
22 haven't scheduled on the agenda any roll call
23 votes, but we developed procedures, which were
24 rather ground-breaking procedures for this
25 committee by consensus, and I would like to be

1 able to do that. I would like this to be
2 bipartisan.

3 SENATOR BRAYNON: And what do you think
4 about this -- Chair, hey, what do you think
5 about this, all right, that is what I am
6 asking.

7 SENATOR GAETZ: Yes, sir.

8 SENATOR BRAYNON: That is what -- I said
9 that was the next step, so I am asking you,
10 hey, what do you think about this.

11 SENATOR GAETZ: What do I think?

12 SENATOR BRAYNON: To the body.

13 SENATOR GAETZ: What do we think about
14 what? I apologize, Senator.

15 SENATOR BRAYNON: Well, I just made a
16 point that people talked about it, this has
17 geographical lines. What do we think about
18 this configuration for northwest Florida?

19 SENATOR DE LA PORTILLA: Mr. Chairman?

20 SENATOR GAETZ: And now we have some
21 takers, Senator Lynn and then Senator Diaz de
22 la Portilla, then Senator Hays.

23 SENATOR LYNN: I have a question first.
24 What appeared to be the one priority that stood
25 out is separating north/south, the ag from the

1 coastal. That seemed to be what stood out for
2 me as the most important to the people who
3 spoke. We also mentioned the numbers and the
4 priorities for minorities. Would that be -- if
5 we decided that we would like to make sure that
6 those people were accommodated, would we be
7 able to do that constitutionally? Would that
8 be one of the reasons that we can use as a
9 constitutional backup? Would it be
10 constitutionally correct to have that as our
11 priority?

12 SENATOR GAETZ: Mr. Bardos, would you like
13 to opine on that?

14 MR. BARDOS: I'm sorry, I didn't quite
15 understand the questions.

16 SENATOR LYNN: Okay.

17 SENATOR GAETZ: Senator Lynn, would you
18 please restate your question?

19 SENATOR LYNN: Yes. Basically Senator
20 Latvala, several of the people have said, you
21 know, everybody seems to be looking so hard at
22 the northern part, which is more agricultural,
23 from the southern part, which is more coastal,
24 they are very different, and that would be
25 communities of interest, and I am saying if

1 we -- several of us seem to be thinking that
2 that is really important to people in this
3 area, would we be constitutionally supported by
4 making that kind of a decision or
5 recommendation?

6 MR. BARDOS: Well, I think one thing to
7 keep in mind is that communities of interest is
8 not in the Constitution, it was not one of the
9 mandates in Amendments 5 and 6. It was in
10 Amendment 7, which the Legislature proposed,
11 but that was not -- didn't make it to the
12 ballot. So communities of interest cannot in
13 its own right be used as a constitutional
14 justification, and so if this committee wants
15 to form districts that protect communities of
16 interest, it still is obligated to ensure that
17 the district is compact and follows political
18 and geographic boundaries. And that is the
19 judgment which the committee is really called
20 upon to make, whether that -- whether the
21 districts that it is looking at are compact and
22 follow political and geographic boundaries.

23 SENATOR LYNN: Well --

24 SENATOR GAETZ: Senator Lynn to follow up,
25 please.

1 SENATOR LYNN: Then I would like to have
2 us recommend, and I can only suggest if it's
3 what I believe, we should look at this
4 communities of interest, which seems to be such
5 a high priority, while taking into
6 consideration how you would do that, looking at
7 the requirements of the Constitution, which is
8 compactness and boundaries.

9 SENATOR GAETZ: Thank you, Senator Lynn.
10 Senator Diaz de la Portilla.

11 SENATOR DE LA PORTILLA: Mr. Chairman, in
12 terms of responding to Senator Braynon's
13 question and to give some guidance, at least
14 one Senator's guidance to staff on this issue,
15 it seems to me that given the testimony that we
16 heard here today and the testimony that was
17 received by the traveling committee that you so
18 ably presided over, Mr. Chairman, when you were
19 up here in the Panhandle, it seems to me that
20 we can guide staff and instruct staff to try to
21 draw districts in the Panhandle that are
22 divided along the lines that you can most
23 closely use to have agricultural areas in one
24 part and the coastal areas in another, and do
25 so in a way that is compact, defined as, of a

1 regular shape, as regular a shape as feasible,
2 and that is in the Constitution. I would just
3 like, you know, to point out that Article III,
4 Sections 20 and 21, guiding us in drawing these
5 district boundaries, part b, when it talks
6 about compactness, it says, "Unless compliance
7 with the standards of this subsection conflicts
8 with the standards in subsection a" -- which is
9 the one of not favoring party, an individual,
10 so on and so forth -- it says, "or with federal
11 law, districts shall be as nearly equal in
12 population as practicable, districts shall be
13 compact, and districts shall, where feasible,
14 utilize existing political and geographical
15 boundaries."

16 So in reading b, the language there allows
17 for interpretation. We have heard that you can
18 define "compact" as being of similar shape. I
19 think that testimony is right on line with what
20 b allows us to do, or Article -- subsection b
21 of Article III, Sections 20 and 21 of the
22 Constitution.

23 And so my guidance, if I were to give any
24 to staff, and I am not from the Panhandle,
25 would be to try to accommodate what the people

1 requested, and it is easily supported by the
2 testimony, in my opinion.

3 SENATOR GAETZ: Senator Hays.

4 SENATOR HAYS: Thank you, Mr. Chairman,
5 and basically I want to echo what my colleague
6 here just said, and I am reading a paragraph
7 here under the district help, labeled
8 "Districts are compact," and it refers to
9 those -- the Article III of the Constitution,
10 and it says, "while functional" -- well,
11 "Geometric compactness looks exclusively at the
12 shapes of particular districts, while
13 functional compactness looks to commerce,
14 transportation, communication and other
15 practical measures that unite communities and
16 promote the integrity and cohesiveness of each
17 district for representational purposes. A
18 district need not be compact if its compactness
19 would cause a conflict with any of the
20 standards outlined above."

21 I think that right there tells us to ask
22 the staff, very capable, professional staff
23 that's been here today, heard the whole
24 discussion, "Guys, go do what you do best, draw
25 the lines horizontally, keeping the

1 agricultural interests and the beach interests
2 in their separate communities."

3 SENATOR GAETZ: Senator Montford, and then
4 Senator Gibson.

5 SENATOR MONTFORD: Thank you, Mr. Chair.

6 If I may take discussion back to a former
7 life I had, and that was being involved in
8 rezoning of school districts. And if you think
9 this is -- may be contentious, you start moving
10 children around from one school to another, you
11 get the mamas' and daddies' attention real
12 quick. And I understand the need to follow
13 geographical boundaries, if you will, rivers,
14 creeks, railroads, lakes, whatever, but I also
15 know how important it is to keep those
16 communities whole and not split them up.

17 And I think what I heard today, the
18 testimony today, is in line with my -- with my
19 thinking, and that is, whether it is horizontal
20 or vertical, in this case, it is horizontal,
21 that that is important. To me, being compact
22 means keeping those communities together,
23 whether they are on one side of a railroad
24 track or another, or one whatever, whatever
25 that boundary might be. And I think it is

1 critically important, and I think what we heard
2 today was don't split our communities. To me,
3 that is what being compact is.

4 And so what I would suggest to staff, to
5 take -- at least my preference is to take a
6 look at, where you can, follow those
7 geographical boundaries, but not at the expense
8 of splitting up communities. And then you get
9 into the definition of what's a community. I
10 would suggest to you that the beach is a
11 community along, the rural areas is a
12 community. There are different definitions of
13 "community," but, to me, that is what's most
14 important, people that have a common interest
15 and, you know -- and just look for the same
16 type of representation, whomever that person
17 might be, to best represent them in this body.

18 SENATOR GAETZ: Thank you, Senator
19 Montford.

20 Senator Gibson, you are recognized, ma'am.

21 SENATOR GIBSON: Thank you, Mr. Chair, and
22 first I hope we won't vote on anything until
23 after the 19th, so I can have an opportunity to
24 officially weigh in, and secondly, I am trying
25 to understand a little bit more of the process.

1 I hear you're saying that you are looking for
2 recommendations today only on the northwest
3 Florida districts. So my question has to do
4 with then -- and I know it is a very large
5 state, so this committee is going to take each
6 region, if you will, and give recommendations
7 on specifically how to draw that region
8 independent of any other decisions there are to
9 use rivers, lakes and lines and counties and
10 cities in the other areas that are drawn, is
11 that what I am hearing?

12 SENATOR GAETZ: Excellent question,
13 Senator Gibson, and we have the disadvantage of
14 not having had your guidance at our preceding
15 meeting where we developed by consensus a way
16 forward for this committee's operation, and it
17 is enshrined in a memo that I hope by now our
18 professional staff has provided to you, but in
19 answer to your question specifically, the
20 answer is yes. What we decided was that we
21 would ask the professional staff to make
22 presentations to us and we would hear testimony
23 that would try to synthesize what we had heard
24 at public hearings around the state, but first
25 in the northwest Florida area, that if we felt

1 that there was a direction we could give to the
2 staff, that they -- they have to begin drawing
3 lines somewhere, and for a proposed committee
4 bill. If we could provide that guidance to
5 them today for northwest Florida, then at our
6 next meeting, we will discuss scenarios for
7 northeast and central Florida, your area, as
8 well as central Florida, and work our way in
9 the meetings of October 31st and November 14th,
10 respectively, to the southeast and southwest
11 portions of the state. And then, Senator
12 Gibson, our plan is that then prior to
13 Thanksgiving, we would have provided direction
14 to the professional staff on all areas of the
15 state.

16 Now, you are absolutely right that at some
17 point this has to be then knitted together, and
18 when it is knitted together, there may be
19 changes that we might have to make. In other
20 words, we might offer guidance about a
21 particular area of the state and say, "Please
22 go do this, this seems to be what we want to
23 do, it derives from the testimony we have
24 heard," but then the professional staff may
25 come back to us at the end, on or about

1 December 5th and say, "Well, we could do -- we
2 could do what you guided us to do, except in
3 these areas, it didn't fit. Now please help us
4 reconcile that." And then ultimately there
5 would be a proposed committee bill, and that
6 proposed committee bill would be -- would be
7 advertised well in advance so that you can
8 offer amendments to it, any Senator can offer
9 amendments to it, and then we would vote --
10 according to the discussion we had at the last
11 committee meeting, we would vote following the
12 Hanukkah/Christmas recess on a proposed
13 committee bill so that our presiding officer
14 and our rules Chair would have that bill to
15 schedule early in the legislative session,
16 which begins, as you know, in January.

17 So in answer to your other question, no,
18 ma'am, it would not be our intention to cast
19 any votes until after November, I think you
20 said 16th -- October 19th. There are no
21 committee votes -- no formal committee votes
22 scheduled until then, but until then, you have
23 a voice here, and your voice is just as
24 important as anybody else's voice in forming
25 the consensus of this committee, if there is a

1 consensus on any particular issue.

2 Does that help, Senator Gibson, or did
3 I -- I apologize if I have confused you or led
4 you astray.

5 SENATOR GIBSON: No, thank you very much,
6 that is helpful.

7 SENATOR GAETZ: Okay. Thank you, ma'am.

8 And now our minority leader, Senator Rich.

9 SENATOR RICH: Thank you, Mr. Chair. I
10 think I want to incorporate what I want to say
11 and connect it back to the -- to the memo that
12 you sent out that we didn't have before,
13 because I have reread the memo, and it does
14 reflect what I would consider to be a
15 procedural consensus on the operation of the --
16 you know, of the committee, and I think we did
17 have a consensus on those aspects, but I have
18 to say the discussion here right now about
19 compactness would lead me to believe we don't
20 have a consensus on what defines compactness.

21 I think, you know, one thing we can say
22 for sure, is, you know, that clearly there are
23 different measures and people can look at it in
24 very different -- in very different ways. The
25 one thing that I would like to say is that, to

1 me, if something is what you would consider to
2 be -- and it is partially in that same
3 paragraph, I believe, that Senator Hays quoted
4 from, that even though there are differences in
5 compactness, low compactness is considered to
6 be a sign of potential gerrymandering.

7 So whether we do it with the geographical
8 boundaries or political boundaries or whatever,
9 all the things we have been discussing today,
10 the one thing, you know, I think we need to
11 really focus on to be in line with Amendments 5
12 and 6 is, you know, not to have low
13 compactness. So I just wanted to say that.

14 And the other part is that I certainly do
15 agree with much of what has been said here,
16 that we have heard a lot of testimony about how
17 the people from all walks of life in northwest
18 Florida would like to see their districts
19 drawn, and clearly they have made a
20 recommendation to us reflecting the difference
21 in the coastal and rural communities and the
22 preference for east/west. So I would say
23 that -- you know, that is the direction we
24 should give to our staff, and I think the
25 compactness, somewhere else I read that you

1 know it when you see it, and I happen to think
2 that is probably what is going to happen here.

3 SENATOR GAETZ: Thank you very much. You
4 have heard the minority leader's suggestion as
5 to how we might go forward. I gather you were
6 talking about House and Senate districts, or
7 were you talking about congressional districts
8 as well, or would you reserve comment on that,
9 ma'am?

10 SENATOR RICH: I personally was referring
11 more to the Senate, but I assume that the
12 House, you know, could be done in the same
13 manner, you know, the reflection of what the
14 people said when they came here.

15 The congressional districts, it doesn't
16 appear to be that much of an issue from the
17 maps that we have here, they are much larger,
18 and I don't think there's that much of a kind
19 of a -- when you look at the Senate map, the
20 difference is in the way districts are drawn in
21 the coastal areas. That doesn't appear to be
22 as much of a factor, I think, in the
23 congressional district, but, you know, maybe
24 some people from north Florida would weigh in
25 differently on that as well.

1 SENATOR GAETZ: You have heard the
2 minority leader's suggestion. Is there anybody
3 on the committee who would disagree with the
4 comments of the minority leader at this point
5 as to how we might go forward? Yes, sir,
6 Senator Siplin.

7 SENATOR SIPLIN: I apologize, I didn't get
8 the gist of her recommendation.

9 SENATOR GAETZ: Leader, would you --
10 Senator Siplin would like you to restate your
11 views.

12 SENATOR RICH: Basically I was listening
13 to all the people that came before us, and I
14 know that Senator Gaetz held -- and the
15 committee held the testimony up in the
16 northwest, and it seems fairly clear that
17 the -- there was a big issue with urban versus
18 rural, coastal versus rural, and that there was
19 a common theme that the lines be drawn
20 east/west rather than north/south, and I think,
21 you know, we go out and we ask people what they
22 think, and they have come and told us what they
23 think, so -- and if I -- you know, if I had
24 heard a lot from the other -- from another way,
25 then, you know, maybe I would feel differently,

1 but right now, the people from whom we have
2 heard are pretty united in the ideas that they
3 have about how they would like their districts
4 to look.

5 SENATOR GAETZ: Thank you, Leader, and
6 again, when the Leader and I were -- I was
7 attempting to clarify my understanding of her
8 remarks, I believe, and she will correct me if
9 I am wrong, that her remarks in a sense related
10 to the State Senate and State House district,
11 not to the congressional district, which might
12 be a separate conversation. Does that satisfy
13 your question, sir?

14 SENATOR SIPLIN: Yes, Mr. Chairman, and if
15 I would --

16 SENATOR GAETZ: Please.

17 SENATOR SIPLIN: -- I think she is
18 absolutely right, you know. We have gone
19 across the state of Florida and taken testimony
20 from our constituents, and northeast area is no
21 different than the southeast area. They've
22 come here today and they have voiced their
23 opinions. And I think the courts will take a
24 look at what was testified and what was
25 recommended by the constituents that appeared

1 before our committees, and if we look at the
2 previous maps that were approved by the federal
3 courts, even though the State of Florida may
4 not have a concrete definition of
5 "compactness," the federal courts do look at
6 other definitions from other states, and if we
7 look back on the maps that were devised in 2000
8 that were constitutional by the Federal courts,
9 they were east and west, and they did take into
10 consideration rural areas and urban areas. So
11 I think we are going along the right lines at
12 this time.

13 SENATOR GAETZ: Any other comments? Yes,
14 Senator Lynn, and then Senator Diaz de la
15 Portilla.

16 SENATOR LYNN: Thank you, Mr. Chairman. I
17 didn't understand Senator Rich's comment about
18 low compactness. She seemed to express some
19 concern about the compactness issue, and she
20 referred to low compactness, and I would like
21 some clarification on what she meant.

22 SENATOR GAETZ: Leader, did you hear the
23 question? Would you respond, please, ma'am?

24 SENATOR RICH: Yes, certainly, Mr. Chair.
25 What I was referring to is that we have

1 been talking about all different kinds of
2 compactness, using different boundaries and --
3 as a measure for compactness. And the one
4 thing that I want us to be sure to do is not
5 have low compactness where you have, you know,
6 the opportunity for gerrymandering, because
7 that is a sign of gerrymandering when you have
8 low compactness and your districts, you know,
9 meander all over the place.

10 So whatever standards we use or whatever
11 we come up with, I just believe whether -- you
12 know, whatever the different measures are of
13 compactness, that we need to be sure that the
14 districts are compact in order to be in
15 accordance with the amendments in our
16 Constitution.

17 SENATOR GAETZ: Senator Lynn, did you have
18 a follow-up, ma'am?

19 SENATOR LYNN: It seems to me that is what
20 Fair Districts is all about, and it's -- you
21 have been constantly referring to the fact that
22 we are following the Fair District amendments,
23 so if they really are what they are supposed to
24 be and we are following those guidelines, I
25 don't know how we are going to end up with

1 gerrymandering.

2 It is not just low compact -- we are not
3 dealing only with a compactness issue. I think
4 there are a bunch of issues we will be dealing
5 with. So while we are talking a lot about
6 something that we see as being areas of
7 interest and perhaps a very wise way to divide
8 up, I don't quite get how that fits in with,
9 oh, we will end up with gerrymandering, because
10 I guess I am not seeing it that way.

11 SENATOR GAETZ: Leader, did you have any
12 further comments?

13 SENATOR RICH: Yes. I don't believe I
14 said we would end up with gerrymandering. What
15 I am saying is that low compactness is an
16 indication of gerrymandering. So whatever
17 measures we use for compactness, we have -- we
18 want to make sure, whether it is the
19 geographical, political, the county lines, city
20 lines, that we focus on having true compactness
21 as much as we possibly can, because that is
22 what Amendments 5 and 6 call for. And I don't
23 know whether we are following Amendments 5 and
24 6 right now, because, I mean, we haven't gotten
25 there yet. My hope is that these maps will

1 come out following Amendments 5 and 6 and the
2 Voting Rights Act.

3 SENATOR GAETZ: And, Leader, if I
4 mischaracterize, please stop me, but what I
5 take from the Leader's comments is that we need
6 to make sure whatever we do is legally
7 defensible. Compactness is in the
8 Constitution. So as our counsel has advised
9 us, and as the Leader reminded us, I think of
10 that old -- that terrible old joke where the
11 little boy is drawing and someone says, "What
12 are you drawing," and he says, "I am drawing a
13 picture of God." "Well, no one knows what he
14 looks like." "Well, they will when I am done."
15 You know, we have to make sure that what we are
16 doing is legally defensible.

17 SENATOR LYNN: Mr. Chairman --

18 SENATOR GAETZ: Yes, Senator Lynn.

19 SENATOR LYNN: -- is it not possible that
20 the compact issue would be described -- defined
21 in one way for this area of the state, as we
22 get into the central area of the state or the
23 southern area of state, we might still have
24 compactness, not low, but normal, high
25 compactness, but it might be based on something

1 else other than what we are talking about, the
2 north and the south, southern interest?

3 SENATOR GAETZ: It could be, and we will
4 certainly open that up for other people's
5 discussion. I sat through every single bit of
6 testimony from 1,700 people, and I can tell you
7 that compactness, as Leader Rich has indicated,
8 tends to be different in different people's
9 minds. And in some people's minds, it is keep
10 our community together. In other people's
11 minds, it is whatever you do, never, never,
12 never, never cross that county line, because it
13 is like the Berlin wall used to be. So -- and
14 as Mr. Bardos has said, and I know he will
15 correct me if I am wrong, we really won't know
16 what the courts think until there is a court
17 test. But, Leader, did I -- have I fallen off
18 the lines here or -- Senator Diaz de la
19 Portilla.

20 SENATOR DE LA PORTILLA: Just one more
21 shot at this compactness discussion, if I may.

22 One of the definitions of "compactness"
23 the courts have used has to do with
24 functionality, the focusing on functionality.
25 And the functionality aspect is analyzed by

1 looking at, well, does it facilitate commerce,
2 does it facilitate travel within the district,
3 or is it easy to travel, is it easy to engage
4 in commerce and similar activities, is it
5 easier to communicate.

6 And so based on the testimony that I have
7 heard, it seems to me from all that testimony
8 that clearly it is easier for folks in this
9 region to travel east to west, it would
10 facilitate commerce, it would facilitate
11 travel, it would facilitate communication with
12 their elected officials, whether they be in the
13 House, Senate or in Congress.

14 And so focusing on a -- on the
15 functionality definition of "compactness," I
16 think the testimony would support a direction
17 to the staff to draw these horizontal
18 districts, because they would be functional
19 districts, they would facilitate commerce, they
20 would facilitate travel and communication from
21 the folks who live here with whoever their
22 elected officials are or may end up being.

23 SENATOR GAETZ: Senator Storms -- I'm
24 sorry, did I cut you off, sir?

25 SENATOR DE LA PORTILLA: No, no, no, in

1 this area I was kind of responding to.

2 SENATOR GAETZ: Senator Storms, you are
3 recognized, ma'am.

4 SENATOR STORMS: Thank you, Mr. Chair.

5 And I -- in the issue of compactness, I mean, I
6 think that there are a couple of conversations
7 that are happening, but the first thing that I
8 would like to say at the outset and that I
9 would like to have the attorney hear me on this
10 is that we would do well not to have a fluid
11 definition of "compactness" that is not clearly
12 articulated. I think that it would not be --
13 it would not be offensive to a court to look at
14 the application of compactness and its outcome
15 being different in different geographical
16 areas, so long as the initial definition
17 included all of the terms of compactness. So
18 in any court case, in any statutory defini- --
19 in any statutory enactment, anything, we start
20 with the definitions. The court is going to
21 look at definitions.

22 And so whereas the outcome of the
23 utilization of compactness here might allow you
24 to have horizontal districts that might still
25 satisfy the definition of "compactness," in

1 another area of the state using the same terms,
2 it might -- it might -- the appearance might be
3 different. And I would think -- I don't know
4 what the court will do, but I would think so
5 long as we determined what the definition was
6 at the outset and we applied it just completely
7 without distinction according to the definition
8 that we said, the outcomes and the appearance
9 might be different.

10 I think that -- I think that we cannot
11 look at -- for the benefit of the members now
12 and not just talking to the attorney, but I
13 think that we cannot look at compactness as
14 having only to deal with land mass.

15 When I started driving -- when I started
16 this process and I started in the Panhandle
17 drawing it, without any benefit of the public
18 testimony, I started in the Panhandle and I
19 just did -- my lines were not east to west,
20 they were north to south, and so it created the
21 very divisions that -- exacerbated the very
22 divisions that we heard in public comment
23 today. I didn't know that. I just did it
24 based on population.

25 In this particular area of the state, it

1 is unique. Because the population is not
2 dense, you cannot rely on -- solely on land
3 mass to be compact. Your land mass is going to
4 be bigger. You have to achieve the population
5 results for the district. And so that will be
6 true, so what compactness will look like here
7 will be bigger than what compactness will look
8 like in Miami-Dade, because Miami-Dade has the
9 population density.

10 So I think that you have to have a
11 combination of land mass -- the definition has
12 to have a combination of land mass, it has to
13 have a combination of population in it, but I
14 think -- and, frankly, I think it has to have
15 something to do with straight lines. I mean,
16 you cannot have something that looks like we
17 have created an enclave of anything, or
18 something that makes it look like it is
19 bizarre. So maybe straight lines is not the
20 exact -- you know, exact term that you use, but
21 there has to be some sort of disinclination to
22 create something that looks like an enclave is
23 the best that I know how to describe it, and I
24 use enclaves from an incorporation perspective.
25 When we are talking about a city incorporating

1 part of the unincorporated county, you have
2 these issues of enclaves that occur. Courts
3 recognize what an enclave is, they already know
4 what that is, and there is a definition for it,
5 and we ought to avoid that in redistricting.

6 So I don't know if that helps or not, but
7 I just wanted to see us at the outset come up
8 with a definition. I really would like to see
9 us come up with a definition.

10 SENATOR GAETZ: We will recognize Mr.
11 Bardos, and then we will recognize Mr. Guthrie
12 to comment on this matter, and then we will go
13 to Senator Latvala.

14 MR. BARDOS: I agree, Senator Storms, that
15 we need to develop a consistent and apply a
16 consistent theory of compactness. I also agree
17 that it involves a number of elements. I think
18 that Senator Diaz de la Portilla's points are
19 right on target, and that, as you say, applying
20 that consistent theory to the facts on the
21 ground might result in different districts in
22 different parts of the state based on the
23 nature of the demographics and transportation
24 and other factors. So I think that is a very
25 good point.

1 SENATOR GAETZ: Mr. Guthrie, any comments
2 on this matter?

3 MR. GUTHRIE: And these standards do raise
4 very intriguing questions. It's -- I think the
5 committee is off to a great start today. It is
6 not your job to try to settle all these matters
7 today. We intentionally broke up the
8 discussion where we are going to move
9 sequentially through regions of the state, and
10 the kind of guidance that you are providing to
11 the staff all will be melded together. And
12 this committee, when you meet in December, will
13 have gone through all 26 of the public hearings
14 and all four of these regional focuses and will
15 have an opportunity to come up with a
16 consistent theory with what the standards mean
17 as applied in this diverse state in a way that
18 it will provide for the best representation for
19 all.

20 SENATOR GAETZ: Thank you, Mr. Guthrie.
21 Senator Latvala, and then I think there
22 was someone else. Senator Latvala.

23 SENATOR LATVALA: Thank you, Mr. Chairman.
24 First of all, I want to say what a
25 wonderful process you have set up here. You

1 know, as someone who was in this process ten
2 years ago and saw how it was done ten years
3 ago, I can look -- even though I was one of the
4 culprits, I can look at the difference here and
5 see night and day in terms of the transparency
6 that you are bringing to it and letting
7 everybody just physically be involved in
8 building these districts rather than bringing
9 them out of a back room one day and putting
10 them in front of us, and I appreciate that.

11 But also, as a little historical anecdote,
12 I remember one of the -- and this is a small
13 point on this map, but it is a point that I
14 want to make since I think we are zeroing in on
15 a final landing here. One of the flash points
16 in the state last time, ten years ago, on a
17 county being split up into multiple pieces was
18 Bay County. And I remember Bay County was a
19 difficult one, Marion County was a difficult
20 one, that they felt like they were split up too
21 many different ways. And I do notice that
22 there is a little -- there is a little piece of
23 Bay County left in the -- in the green district
24 in Mr. Kelley's map, and --

25 SENATOR GAETZ: May we put up Mr. Kelley's

1 map just so that we can --

2 SENATOR LATVALA: Or I guess in the blue.

3 SENATOR GAETZ: -- so we can see what
4 Senator Latvala is discussing here?

5 SENATOR LATVALA: There, right there. You
6 see there on the side right there, I don't know
7 how many people are there, but if -- you know,
8 if -- you just might want to consider seeing if
9 one of those small counties would equal that or
10 something like that, because I remember that
11 the people in Bay County were really exercised
12 ten years ago about the county getting split up
13 in so many different directions, and having
14 visited your beautiful new home in Bay County,
15 I wouldn't want to see eggs on the porch or
16 anything like that, so just pass that on for
17 what it is worth.

18 SENATOR GAETZ: Our majority leader,
19 Senator Gardiner.

20 SENATOR GARDINER: Thank you,
21 Mr. Chairman, and it is really a follow-up to
22 Leader Rich. I want to make sure, because this
23 low compactness term that has been thrown
24 around, that -- and Senator Storms alluded to
25 it, too. I want to make sure that when it

1 comes back, we are all on the same page,
2 because what I wouldn't want to see is we have
3 an idea based on the testimony that has come
4 before us today, and then at some point,
5 somebody changes the definition or attempts to
6 change the definition of "compactness" when we
7 are moving forward on what we believe
8 compactness to be. So it is more of a
9 statement, maybe a question to Leader Rich as
10 to what her definition of "low compactness"
11 would be so that we are not going in a
12 direction that ultimately may come back,
13 somebody may say, "Well, that is not what we
14 meant, you know, compactness should have been
15 something different, now we believe this to be
16 low compactness." So I just throw that out.

17 I think we are heading in the right
18 direction, I think we are all on the same page
19 of how this should go, but I sure would hate to
20 see the ball moved later when we are getting
21 ready to kick a field goal.

22 SENATOR GAETZ: Leader, did you wish to
23 comment on Senator Gardiner's remarks?

24 SENATOR RICH: No, but I will.

25 SENATOR GAETZ: I apologize, ma'am, I

1 simply wanted to give you a chance.

2 SENATOR RICH: You know, I think everyone
3 here will agree we have many gerrymandered
4 districts in our -- in our apportionment now,
5 and the goal is to abide by Amendments 5 and 6
6 and the Voting Rights Act.

7 We don't have a definition specifically,
8 as the attorney has said, of "compactness." A
9 lot of us have different ideas about it, and we
10 will see when we get the maps if we think that
11 that is compact or not based on what our ideas
12 are about compactness. But I find it kind of
13 interesting that the word "low compactness" has
14 created this kind of a stir. It is simply
15 another way of saying gerrymandering, and we
16 just want to make sure that we are not going to
17 be doing that, and whatever we do, we'll abide
18 by what is in our Constitution.

19 SENATOR GAETZ: Thank you, Leader, and I
20 think it is healthy that we -- that we -- that
21 we kick the tires, every time we step forward
22 into a -- into a prospective decision, that we
23 really do kick the tires and we have the
24 debate. And if there is a fear of illegal
25 gerrymandering -- and that might be a -- I

1 might be repeating myself there -- if there is
2 a fear of gerrymandering, we need to raise that
3 fear. I think that's well-spoken.

4 Other comments or questions? Yes, Senator
5 Sachs.

6 SENATOR SACHS: Thank you very much,
7 Mr. Chairman. I think that a comment that was
8 made some time ago by this -- a member of this
9 committee that we need to listen to the will of
10 the people, subject to constitutional
11 provisions, and that is what we are here for.
12 Everyone has their opinions on how it should
13 look or what the definitions of "compactness."
14 That is why we have a judicial branch. But I
15 think the will of the people, which is what has
16 been indicated in the maps, indicated by
17 testimony, I have been with you, Mr. Chairman,
18 on many of the various committee meetings
19 throughout this state, and we need to listen to
20 the folks who live there and talk about your
21 front porch and other things that I have never
22 seen before, but I think it is a matter of
23 record that -- that we listen to them, as we
24 are doing, and then we leave it up to the
25 courts to define "compactness" and some of

1 these other various definitions. So whether it
2 is kicking the tire or kicking the can, I think
3 we are on the right track. Thank you.

4 SENATOR GAETZ: Thank you, Senator Sachs.

5 I would like to get back to Senator
6 Latvala's point. And, again, I apologize to
7 Senators, I know there are other things we have
8 to do today, but we -- you know, we are noticed
9 until five o'clock, and this is important
10 stuff. Let's get back to Senator Latvala's
11 point.

12 Bay County is trifecta'd. You know,
13 currently Bay County is cursed by having three
14 Senators. And under what we will call the
15 Kelley plan, which is also -- I guess there is
16 a derivation of that that is the session's
17 plan, we see that Bay County again has three
18 Senators, and I am one of them, so this is a
19 little bit close to home, but I think that
20 Senator Latvala makes an excellent point.

21 So the question I would like to ask is
22 this: If we -- I see professional staff have
23 made good notes of Senator Rich's comments and
24 her recommendation. Is there -- is there any
25 objection to our taking Senator Latvala's

1 comments seriously and instructing professional
2 staff to find a way to ensure that Bay
3 County -- that that sliver of Bay County that
4 is in a third Senate district is removed from a
5 third Senate district, is made part of the
6 Senate district that it is closest to, whatever
7 that is, and that we then square out the
8 districts so that we have equity and maintain
9 the political and natural boundaries?

10 I don't know, Senator Latvala, if you want
11 to say anymore about your point in order to
12 make it, but I think you make a good point, and
13 notwithstanding the fact that it affects me,
14 and because it affects me, I think it is an
15 important point to make.

16 Is there any disagreement with what
17 Senator Latvala has suggested by anybody? If
18 not then, you have heard Leader Rich's
19 recommendation, which we will take as a
20 statement of consensus, you have heard the
21 other comments that have been made subsequent
22 to Leader Rich's comments, and you have heard
23 Senator Latvala's comment, to which there is no
24 objection, and so, therefore, as to the Senate
25 districts in northwest Florida, I think the

1 professional staff has clear direction from the
2 committee. Is that -- do you believe you do?
3 All right. And as to the House districts, you
4 believe you have clear direction as well. That
5 was taken into account, I believe, in the
6 Leader's comments.

7 Now let's go back to the congressional
8 districts, please, because we -- let's not pass
9 that up. Can you put up -- and, again, for --
10 we will blame Mr. Kelley. Will you put up the
11 Kelley -- put up the Kelley map for
12 congressional districts in northwest Florida?
13 All right. Is that it? Is that it?

14 All right. Again, Mr. Guthrie, would you
15 briefly characterize this map as to -- as to
16 what boundaries it follows, bearing in mind
17 Leader Rich's caution to us about
18 gerrymandering and low compactness or however
19 it may be styled? Do you believe -- and, Mr.
20 Bardos, be ready -- do you believe that there
21 is a defensible position for the committee were
22 we to adopt a map similar to this, and an
23 appropriate response to any suggestion of
24 gerrymandering or low compactness?
25 Mr. Guthrie.

1 MR. GUTHRIE: Thank you, Mr. Chairman,
2 and, of course, another requirement in the --
3 of the equal protection clause and in Tier II
4 of the Florida Constitutional Standards is that
5 districts be equal in population. This
6 particular plan, as Mr. Kelley conceded during
7 his testimony, is -- has not been zeroed out
8 yet, so there are deviations greater than what
9 you would want in the final plan. But as to
10 the point of --

11 SENATOR GAETZ: And excuse me,
12 Mr. Guthrie, just again, because we have it in
13 front of us here and it is a useful guide,
14 where -- how would -- how could one -- if one
15 chose to use this as a take-off point, how
16 would one cure, or how could one cure those
17 deviations, keeping in mind, again, the
18 requirements of Amendments 5 and 6?

19 MR. GUTHRIE: Yeah, and all the testimony
20 that we heard, including that from Supervisor
21 Lux earlier today. The committee might want to
22 keep the counties whole that are whole
23 presently.

24 In this particular plan, I believe there
25 are two counties in the Panhandle that are --

1 that are split, so what you would do is use
2 those counties, try to follow geographic
3 boundaries in a way that you could equalize the
4 population of the districts.

5 SENATOR GAETZ: And, Mr. Guthrie, would
6 that then move -- and under the plan that is in
7 front of us, the most western -- the most
8 northwestern district is labeled as District
9 26. Would that mean moving the District 26
10 line further to the east in order to achieve
11 that equity? You can't move it north, because
12 even though I don't know where Alabama is, you
13 know, some people do. You can't move it south
14 unless you want to get feet wet. So would you
15 move it east?

16 MR. GUTHRIE: It would be moving to the
17 west, that boundary would be -- because the
18 district has too many people right now.

19 SENATOR GAETZ: Okay.

20 MR. GUTHRIE: Bo by about 13,000, so you
21 would move the district to the west to take
22 out --

23 SENATOR GAETZ: You would move the line
24 that now separates 26 and 27 to the west by
25 about 13,000 people?

1 MR. GUTHRIE: Yes.

2 SENATOR GAETZ: Is there a way to do that
3 -- well, there are a lot of ways to do it, but
4 based on the professional staff's study of
5 these maps, what is -- what are the ways to do
6 that that would be most faithful to Amendments
7 5 and 6 and to the Voting Rights Act and the
8 other laws that we have to comply with?

9 MR. GUTHRIE: I believe what attorneys
10 would advise us is to do it in a manner that is
11 compact and does follow political and
12 geographic boundaries where feasible. So we
13 would, as was suggested earlier, seek out clear
14 geographic boundaries that created sensible and
15 identifiable demarcations between District 26
16 on the left and District 27 on the right.

17 SENATOR GAETZ: Okay. And, I'm sorry,
18 Leader, did you -- Leader Rich, were you
19 seeking recognition, ma'am? I apologize if
20 anybody else has anything to add.

21 Does the Kelley map, or this map as it is
22 now before us, and as you might mature that map
23 to fix the equity issue, does it cure the
24 problem that Supervisor Lux addressed as to the
25 invasion of, you know, part of a community by

1 the lines that are currently drawn for
2 Congressional District 2? Does it cure --

3 MR. GUTHRIE: Oh, yeah --

4 SENATOR GAETZ: -- the problem that Mr.
5 Lux --

6 MR. GUTHRIE: -- that particular problem
7 is obviously fixed, yes. All of Okaloosa
8 County is in a single district.

9 SENATOR GAETZ: Okay. Other comments or
10 questions? Is -- yes, sir, Senator Montford.

11 SENATOR MONTFORD: Thank you, Mr. Chair.
12 I am going to have to -- I don't understand
13 something. You have got -- you got 24 here.

14 SENATOR GAETZ: Would you pull your mike
15 up, Senator Montford?

16 SENATOR MONTFORD: You got 24 here and --
17 but how do you get -- I mean, you got St. Johns
18 listed here. Tell me how that --

19 MR. GUTHRIE: In the comments I made
20 earlier about this plan, Senator Montford,
21 there is a discontinuity. So District 24 in
22 yellow in the Big Bend also is paired with some
23 First Coast counties on the west, and that is
24 discontinuous. So that is another defect --

25 SENATOR MONTFORD: So we are not even

1 worrying about --

2 MR. GUTHRIE: -- that we would need to
3 correct, yes.

4 SENATOR MONTFORD: We're not worrying
5 about that right now, right?

6 SENATOR GAETZ: No, sir, we are not there
7 right now.

8 SENATOR MONTFORD: Thank you.

9 SENATOR GAETZ: Now, what about -- let's
10 go back to the young gentlemen who Senator Rich
11 knew who had some comments about the -- what I
12 will call the third, not the third district,
13 but a third district in northwest Florida which
14 achieved a 30 percent minority population. Do
15 you recall that? I think it was the first map
16 that we looked at today.

17 MR. GUTHRIE: Yes, sir, I believe that was
18 a Senate map.

19 SENATOR GAETZ: I'm sorry, that was not a
20 congressional map?

21 MR. GUTHRIE: That is correct.

22 SENATOR GAETZ: I withdraw the comment,
23 I'm sorry.

24 All right, Senator Rich.

25 SENATOR RICH: Just one question. I want

1 to make sure, for the purposes of what you are
2 directing staff to do, you are focusing just on
3 26 and 27, is that correct, not on --

4 SENATOR GAETZ: At the moment, yes, ma'am.

5 SENATOR RICH: Okay. Thank you.

6 SENATOR GAETZ: Are there other comments
7 as to the congressional districts?

8 Is there an objection to giving committee
9 staff the direction to follow this map, which
10 is the Kelley map, for what is now stated as
11 Districts 26 and 27, they might be renumbered
12 as Districts 1 and 1, or Districts 12 and 13,
13 but as to those districts, and then remedying
14 the equity issue of the, what was it, 13,000
15 voters?

16 MR. GUTHRIE: Correct.

17 SENATOR GAETZ: 13,000 population, I'm
18 sorry, 13,000 people, the dis-equity that is
19 existing there. Is there objection to using
20 this as a stepping stone by any member of the
21 committee?

22 All right, then. You have your guidance
23 as to northwest Florida. What other guidance
24 do you seek from the committee today?

25 In that case, Senator Margolis moves we

1 rise.

2 (Whereupon, the proceedings were concluded

3 at 4:38 p.m.)

1 T A P E D P R O C E E D I N G S

2 SENATOR GAETZ: If the Senators who are
3 members of the Reapportionment Committee would
4 please take their seats, members of the
5 professional staff, please be seated, and those
6 of us who are here to observe and testify,
7 please find a seat, we can get started.

8 The Senate Committee on Reapportionment is
9 called to order, and I would like to ask the
10 administrative assistant to call the roll.

11 THE CLERK: Senator Gaetz.

12 SENATOR GAETZ: Here.

13 THE CLERK: Senator Margolis.
14 Senator Altman.

15 SENATOR ALTMAN: Here.

16 THE CLERK: Senator Benacquisto.

17 SENATOR BENACQUISTO: Here.

18 THE CLERK: Senator Braynon.

19 SENATOR BRAYNON: Here.

20 THE CLERK: Senator Bullard.

21 SENATOR BULLARD: Here.

22 THE CLERK: Senator Dean.

23 SENATOR DEAN: Here.

24 THE CLERK: Senator Detert.

25 Senator Diaz de la Portilla.

1 Senator Evers.
2 SENATOR EVERS: Here.
3 REPRESENTATIVE CLARK: Senator Flores.
4 Senator Garcia.
5 Senator Gardiner.
6 SENATIR GARDINER: Here.
7 THE CLERK: Senator Hays.
8 SENATOR HAYS: Here.
9 THE CLERK: Senator Joyner.
10 SENATOR JOYNER: Here.
11 THE CLERK: Senator Latvala.
12 SENATOR LATVALA: Here.
13 THE CLERK: Senator Lynn.
14 SENATOR LYNN: Here.
15 THE CLERK: Senator Montford.
16 SENATOR MONTFORD: Here.
17 THE CLERK: Senator Negron.
18 SENATOR NEGRON: Here.
19 THE CLERK: Senator Rich.
20 SENATOR RICH: Here.
21 THE CLERK: Senator Sachs.
22 SENATOR SACHS: Here.
23 THE CLERK: Senator Simmons.
24 SENATOR SIMMONS: Here.
25 THE CLERK: Senator Siplin.

1 SENATOR SIPLIN: Here.

2 THE CLERK: Senator Sobel.

3 Senator Storms.

4 Senator Thrasher.

5 SENATOR THRASHER: Here.

6 THE CLERK: Quorum is present.

7 SENATOR GAETZ: Thank you very much.

8 Let me begin with a couple of housekeeping
9 details, which are very important to those that
10 these details pertain to, and that is, first of
11 all, Senator Flores, who is a member of our
12 committee, has become a mother again. I
13 believe that the birth was yesterday, unless
14 somebody can correct me, and she is -- she has
15 a second baby boy. So somebody for Maximo to
16 lord over. We don't know the name of the new
17 addition to the family, unless someone does.

18 A VOICE: Lucas.

19 SENATOR GAETZ: Who is it, Lucas? Lucas
20 Ignacio (phonetic).

21 A VOICE: Ignacio.

22 SENATOR GAETZ: Lucas Ignacio will now
23 take the heat from Maximo. And we wish Senator
24 Flores and her family well and can't wait to
25 see her back.

1 Secondly, we have an excused absence from
2 our colleague, Senator Bullard. And also I
3 would like to announce to the Committee that
4 our Vice-Chair, President Margolis, will soon
5 be undergoing orthopedic surgery. She is
6 preparing for that surgery right now, so please
7 keep President Margolis in your thoughts and
8 prayers.

9 And today we would like to welcome a new
10 member to our committee. Apparently the
11 interest in this committee continues to be
12 high, and our President, President Haridopolos,
13 has appointed Senator Simmons. Are you here,
14 Senator Simmons? Senator Simmons is now a
15 member of the Committee as of today. So please
16 add him to the roll.

17 And are there any other announcements of a
18 housekeeping nature to make?

19 If not, today we will continue the process
20 that we began at our last meeting, which is to
21 look at specific areas of the state and to look
22 at Senate, House and congressional district
23 scenarios that have been presented by the
24 public in those regions of the state.

25 As the Senators will recall, at the last

1 meeting we discussed and came to consensus as
2 to northwest Florida. At this meeting, we will
3 discuss northeast and central Florida, and in
4 our following two meetings, we will discuss
5 southeast Florida and southwest Florida. The
6 next time we meet, specifically we will look at
7 southeast Florida, the region from the Space
8 Coast south through the Florida Keys and as far
9 west as Lake Okeechobee. And then, Senators,
10 at our meeting in mid-November, we will
11 consider southwest Florida.

12 Now, I would like to recall to your minds
13 that November 1st is the deadline which this
14 committee adopted by consensus for public
15 interest groups and Senators and individuals to
16 submit maps for consideration in preparation
17 for our draft proposed committee bills, and
18 that deadline was agreed to by members of the
19 Committee.

20 Our goal is for professional staff to
21 publish draft proposed committee bills,
22 including all maps, statistics and downloads,
23 before the end of November, and for this
24 committee to consider a motion to introduce
25 those proposed committee bills during the week

1 of committee meetings that starts December 5th.
2 Whether we will be able to maintain that
3 deliberative, but I think with all due speed
4 schedule depends on our work today and in the
5 next two committee meetings.

6 Let me stop there and ask if there are any
7 questions or comments as to our proposed
8 schedule. Leader Rich.

9 SENATOR RICH: Thank you, Mr. Chair. I
10 just am wondering if there is -- is there a way
11 for organizations or individuals who submit
12 maps to us by November 1st, is there anyway
13 that a person would be given an opportunity to
14 modify their map at all? In other words, if
15 they came in and, you know, said, "I wanted to
16 do something to change my map," is there any
17 mechanism for that to happen?

18 SENATOR GAETZ: Yes, Leader, I would say
19 so. In fact, I think we will see today that
20 the scenarios, which our professional staff
21 have divined from the public submissions that
22 have been made, include submissions from
23 individuals who, having once submitted their
24 proposal, have now gone back and suggested some
25 alterations. And I think until we act, we

1 always are looking for ways to improve and
2 refine our work product, down to and including
3 our work on the floor, so long as we stay with
4 the understanding that there aren't going to be
5 any midnight surprises, any late-filed
6 amendments, that sort of thing.

7 But unless there is any member of the
8 Committee who recalls things differently or who
9 would object, I think that Leader Rich's
10 characterization is exactly correct.

11 Leader Rich.

12 SENATOR RICH: Thank you, just a
13 follow-up.

14 So even after November 1st, say, if we are
15 having a meeting, someone would be able to come
16 and have an opportunity to make a submission
17 that would adjust their map that they had
18 already turned in, is that --

19 SENATOR GAETZ: Yes, Leader, I would say
20 so, and now, obviously, we will want to apply a
21 little bit of common sense. If somebody had
22 proposed a map that only dealt with Pasco
23 County House races, and then they came in after
24 November 1st and said "Now we have a statewide
25 map for Congress," I think we would have to

1 construe that as a new submission. But if it
2 is -- if it is a refinement of a prior
3 submission, then I think we ought to accept
4 that, unless there are members of the Committee
5 who would disagree with the Leader's request.

6 If not, let the record show that Leader
7 Rich's question was answered in the
8 affirmative, that, yes, we would accept
9 refinements of prior proposals.

10 Senator Gibson, you are recognized.

11 SENATOR GIBSON: Thank you, Mr. Chair.
12 And so as a follow-up to Leader Rich's
13 question, since last week we did northwest
14 Florida, and I believe the instruction to staff
15 was to begin to craft something based on those
16 maps, so if someone submits -- let's say they
17 submit the maps up to the November 1st deadline
18 and they include a revisit of northwest
19 Florida, is then staff going to be directed to
20 go back over northwest to see if this new
21 northwest map is usable?

22 SENATOR GAETZ: Well, I think that maybe I
23 can help answer that question by discussing the
24 practical application of our seven-day rule
25 that we agreed to by consensus, and let's look

1 at the way that that rule would be applied to
2 the next meeting, and I think it will help
3 answer your very good question.

4 If you, Senator, or any member of the
5 public or any interest group has a new plan for
6 southeast Florida, which is what we are going
7 to discuss at the next meeting, for inclusion
8 on the agenda for the week of October 31st,
9 then make sure that you submit it no later than
10 the first thing next Monday morning, which is
11 October 24th, so it can be included in the
12 meeting notice that is due before noon that
13 day.

14 I think -- I think it becomes -- it
15 becomes a little bit -- a little bit unfaithful
16 to consensus if we do come to consensus on any
17 points, it becomes a little unfaithful if
18 somebody comes in in the middle of November and
19 says, "Well, I never was interested in
20 northwest Florida before, but now I have a
21 sudden interest, and I would like to -- I would
22 like to reopen the whole issue."

23 Any member of the Senate can reopen any of
24 those issues by amendment at any time, but I
25 think we want to be somewhat faithful, Senator

1 Gibson, when we come to consensus.

2 So unless the group would want to operate
3 differently, I would say this: If someone
4 wants to come in and revisit a prior consensus,
5 then we would need to get the Committee's
6 agreement to revisit that prior consensus.

7 We always, as I mentioned before, want to
8 make a product better and better and better, up
9 until the time that we present it on the floor,
10 and even then accept amendments from our fellow
11 Senators to make products better. But I think
12 that if we are to work in good faith and as
13 gentle persons, once we come to an agreement,
14 then there ought to be a dog-gone good reason
15 why we would upend that agreement. If there is
16 a good reason, then I am sure this committee by
17 consensus would say let's go back and revisit.

18 Other comments or questions? If not,
19 today we will consider scenarios for northeast
20 and central Florida. We will begin with a
21 professional staff presentation summarizing
22 some of the scenarios and themes we received
23 from the public for drawing districts in this
24 part of the state, and then as we did in our
25 last hearing, our last meeting, we will take

1 testimony from anybody who would like to speak
2 to the scenarios that we are discussing today,
3 and afterwards we will go into discussion here
4 on the Committee, hear what committee members
5 have to say, what kind of direction we might
6 provide to professional staff about the various
7 presenters -- scenarios that are presented.

8 So let's turn, if we would, Senators, to
9 tabs one through three, and let me begin with
10 the standard questions that we will begin all
11 of our meetings with.

12 Are there any Senators wishing to offer a
13 plan for the Committee's consideration today?
14 Any Senators wishing to present a plan?

15 Are there any representatives of any civil
16 rights organizations who are here today wishing
17 to offer a plan or to comment? If you wish to
18 comment on the staff presentation that you are
19 about to hear, we would love to hear from you,
20 and please know that if you would turn in a
21 Committee Appearance Record, one of these
22 cards, we will call on you so that we can get
23 your reactions to -- or your criticisms or
24 support or anything else that you would like to
25 offer for any plans or scenarios that you hear

1 as we go through the public plans.

2 And if there are members of the public --
3 and this gets back to Leader Rich's question.
4 If there are members of the public who would
5 like to comment on any plan that is presented
6 today, or if there are members of the public
7 who have submitted a plan and who would now,
8 subsequent to their submission, like to say,
9 "Gosh, I've got a way to make this a little bit
10 better," we would love to hear your testimony
11 today as well as pertains to the northeast and
12 central regions of the state of Florida.

13 We will continue to reserve time for
14 discussion of statewide plans submitted by
15 Senators, civil rights organizations and the
16 public at each of our meetings, and I would
17 recall to the Committee's attention that the
18 Speaker Designate and I have jointly written to
19 civil rights organizations, asking them to
20 submit their comments, their criticisms, their
21 plans, their maps, and to keep in front of them
22 the November 1st deadline that this committee
23 has agreed to.

24 As with amendments, it will be helpful to
25 the Committee if anybody wanting to make a

1 presentation could let us know their intention
2 and submit their plan or plans at least 48
3 hours prior to a meeting, that way we can get
4 the plans and the stats on our redistricting
5 website and include the materials in the
6 meeting packet. That falls under the category
7 of not surprising anybody with a plan that no
8 one has had an opportunity to look at before
9 they walked into a committee meeting.

10 This week we will start with staff
11 presentations, as I indicated, for scenarios in
12 northeast and central Florida, and we will
13 start, if it is okay, Mr. Guthrie, with
14 scenarios for drawing Senate districts. So
15 please turn to tab five. We will recognize
16 John Guthrie.

17 SENATOR LATVALA: Mr. Chairman?

18 SENATOR GAETZ: Yes, sir, Senator Latvala.

19 SENATOR LATVALA: Could I ask a
20 question --

21 SENATOR GAETZ: Yes, sir.

22 SENATOR LATVALA: -- about what you just
23 said? What is the criteria that is used by the
24 staff in determining -- well, first of all, I
25 guess the question is, are all the maps

1 submitted by the public on the computer that
2 were submitted in a timely fashion included in
3 the package that we have today?

4 SENATOR GAETZ: Mr. Guthrie.

5 MR. GUTHRIE: No, they are not.

6 SENATOR LATVALA: Okay. Then the second
7 question is, what is the criteria for the staff
8 determining which plans that they let us see in
9 the package?

10 MR. GUTHRIE: That is a choice --
11 Mr. Chairman?

12 SENATOR GAETZ: Of course.

13 MR. GUTHRIE: That is a choice, Senator
14 Latvala, that I, working with the professional
15 staff of the Committee, come to based on really
16 a desire to provide a number of examples that
17 show the Committee variations of approaches for
18 how to draw districts in a particular area.

19 So the number of Senate plans that are
20 included in the meeting packet today is five,
21 and if we go to District Builder and we look
22 for the types of -- or the total number of
23 Senate plans that have been submitted so far,
24 that number is -- let's see how fast I can get
25 this up -- that number is 27. So we have pared

1 down the list of 27 plans that have been
2 submitted so far to five that we are
3 recommending to the Committee as samples or
4 examples of different approaches to drawing
5 Senate districts in northeast and central
6 Florida.

7 SENATOR GAETZ: Senator Latvala.

8 SENATOR LATVALA: Mr. Chairman, I -- you
9 know, some of us are more sophisticated than
10 others, and, granted, this District Builder
11 program has been out there for a while, but I
12 am a little slower than some other people are
13 on the computer, and, you know, a lot of times
14 I like to see things printed out and, you know,
15 I did see a map on the computer that, in my
16 opinion, is a lot different than the ones
17 selected by staff for this area of the state,
18 and I am just wondering if maybe we can either
19 have a policy where they are going to show us
20 everything, or -- in a hard copy form, or
21 whether we can have maybe a little more variety
22 of the plans that would make it to the
23 Committee for our eyeballs as far as in a hard
24 copy form in the committee packet.

25 SENATOR GAETZ: Senator Latvala, I think

1 that is a very good comment, and Mr. Guthrie,
2 correct me if I am wrong, I know you will, my
3 understanding is that the professional staff
4 has attempted to select plans which -- which
5 draw from the testimony that we heard at our 26
6 hearings, and there might be -- there might be
7 20 plans, but there might be four or five
8 themes and there might be 20 variations on
9 those four or five themes.

10 But Senator Latvala makes an excellent
11 point, and that is why I began by saying are
12 there plans that any Senator would like to
13 present or have discussed today that are not on
14 the agenda. And if -- Senator Latvala, if you
15 would prefer to have all of the Senate plans
16 presented in hard copy to all the Senators at
17 every meeting, we can make sure that that
18 happens. That is not an unreasonable request.

19 And if there is a particular plan -- as
20 you go through the plans in advance of the
21 meeting, if there is a particular plan that you
22 want to make sure is discussed, regardless of
23 whether it is a -- it is an echo of an existing
24 plan or different from a plan that professional
25 staff intends to present as a synopsis plan,

1 we will take that request from any Senator,
2 from you, sir, or any Senator at any time.

3 SENATOR LATVALA: Well, I did make a
4 request yesterday, because there was a map that
5 I saw that was different, and I did ask John
6 yesterday to prepare that overhead, but maybe I
7 am the only one that feels that way, that we
8 shouldn't have the staff, you know, editing
9 what we look at on these, you know, and that we
10 should instead have the time to go through all
11 the maps on computer ourselves, but I just
12 raise that point for --

13 SENATOR GAETZ: And I think it is a good
14 point, and Senator Latvala, certainly there's
15 not any intention on my part or I think
16 Mr. Guthrie's part to edit consideration. All
17 the plans are there in public view. But if you
18 would like the plans to be also in hard copy
19 every time we meet, we can arrange that, and
20 just as you contacted professional staff and
21 said there's a plan that has some features in
22 it that you think has some value, you would
23 like it to have discussed, it will be discussed
24 today.

25 SENATOR LATVALA: Okay. Thank you.

1 SENATOR GAETZ: Absolutely. And, John,
2 please make sure that we have a looseleaf
3 binder for all members of the Committee that
4 has in hard copy every single plan that is
5 submitted that has anything to do -- any Senate
6 plan. And, Senator Lynn, would you like to add
7 to that? Sure. Senator Lynn, you are
8 recognized.

9 SENATOR LYNN: Perhaps some members want
10 all of that, and some members may not. It was
11 my understanding that we would always be able
12 to go and look at all the maps at anytime we
13 wanted to, they would be available to us, or
14 perhaps if I desired to have, such as Senator
15 Latvala is mentioning, all of the maps, that
16 maybe that could be printed out for me.

17 But personally, and I will speak for
18 myself, I don't want to see all the maps. I
19 think -- I believe staff is trying really hard
20 to come up with maps that indicate they are in
21 reaction to the comments that were made at all
22 of the meetings in each of the areas, that also
23 they were the maps that perhaps could meet
24 closest to -- in addition to that, a
25 combination of, what people asked for, but also

1 how they met the numbers that were needed for
2 each of the districts that were formed, perhaps
3 met some of the other Constitutional
4 requirements.

5 And so I would assume, and maybe you tell
6 me if I am wrong, that the maps that we are
7 presented are those that are presented because
8 they reflect the Constitutional requirements
9 and also reflect what people have requested.
10 Now, if that is not true, then maybe, you know,
11 we would have to look at all of the maps, but I
12 can tell you I am not skilled enough to
13 determine all of those issues with every one of
14 those maps. And so I am suggesting that for
15 those people who would like to see all the
16 maps, they might request those of the staff,
17 and leave it up to the individual rather than
18 having all of us get all of that material that
19 might or might not be useful to --

20 SENATOR GAETZ: Thank you, Senator Lynn.
21 Senator Sachs.

22 SENATOR SACHS: Thank you very much,
23 Mr. Chairman.

24 I think that since we are the Committee
25 that looks at these maps, and that there are

1 citizens who have gone to the great, great work
2 to put them together, I think the onus should
3 be on us to have them here. If Senator Latvala
4 wants to refer to a map that is not one of the
5 five that have been chosen, then that should be
6 a matter of our record here before us during
7 this committee meeting.

8 So I think that it is -- it is incumbent
9 upon us as committee members to have those maps
10 in our possession during the committee
11 meetings, not just on-line, but also as a
12 matter of our record. Rather than putting the
13 onus on the staff, that should be on us. That
14 is our burden. People went to the length to
15 prepare them. We should at least give them the
16 respect that is due to them by having them as
17 matter of a record that we keep here during our
18 committee meeting. So I would go along with
19 having them provided to us, Mr. Chairman.

20 SENATOR GAETZ: Well, let's synthesize it
21 this way just a moment, and see if we can bring
22 it to closure. Let's synthesize it this way.
23 Mr. Guthrie, would you please poll the
24 Committee after the committee meeting off line,
25 using whatever method you use to poll the

1 Committee, contact each committee member and
2 ask them if they want hard copies of all maps
3 in a looseleaf binder available for them, you
4 know, at or in between or whenever we meet, and
5 then at the same time, there may be some
6 Senators like Senator Lynn and myself who carry
7 around -- I loose paper, so I am delighted to
8 have them on-line, but why don't we do this,
9 let's have four or five copies of the looseleaf
10 binder that Senator Latvala has very
11 appropriately requested, let's have four or
12 five copies available at the committee meeting,
13 so that that way everybody -- you know, if we
14 need to, we can have members refer to it, if
15 they choose not to refer to it, using their
16 laptops that are right here in front of us, and
17 maybe that would resolve the problem that way.
18 Everyone who wants all 20 maps in front of them
19 -- and by tomorrow there could be 25 -- that is
20 fine, they can have them in front of them in
21 hard copy, they've already got them in front of
22 them on-line, but have four or five extra
23 copies of the looseleaf binder at the committee
24 meeting. Can you do that?

25 MR. GUTHRIE: Yes, sir. Yes, sir,

1 Mr. Chairman.

2 SENATOR GAETZ: Okay. Senator Storms?

3 Good, I did one thing right. Have we -- yes,
4 sir, Senator Siplin.

5 SENATOR SIPLIN: Thank you, Mr. Chair, and
6 I appreciate the latitude that you have given
7 the staff in presenting these maps to us.
8 However, I think we ought to be mindful of the
9 constitutional basis that we must stand on in
10 terms of reviewing these maps.

11 You know, when I was Chair of the black
12 caucus, my goal was to maintain the six black
13 Senate seats and the 19 black Rep seats, and,
14 of course, there are three Hispanic Senators
15 and there are at least four or five Hispanic
16 Reps. I think that we ought not to look at any
17 map that digress or eliminates the six black
18 seats sitting in the Senate, the three black --
19 the three Hispanic Senate seats and the House
20 member seats, because when you begin to do
21 that, you violate the Constitution and the
22 Florida Constitution and the case law.

23 So I would hope, Mr. Chairman, that we
24 would only look at those maps that by and large
25 maintain the African-American representation,

1 as well as the Hispanic representation that
2 exists right now, because we can't draw any
3 maps that's going to eliminate those current
4 seats, because it would be an unconstitutional
5 and it would be discriminatory.

6 SENATOR GAETZ: Thank you.

7 Leader Rich, were you requesting
8 recognition, ma'am? I'm sorry.

9 Well, that probably, Senator Siplin, will
10 be in the eyes of the beholder, and what I
11 would like to do, with the Committee's
12 concurrence, is to dive into the very topic
13 that Senator Siplin just raised, and that is
14 the Senate maps for northeast and north central
15 Florida. So if you would turn to tab five,
16 please. And, Mr. Guthrie, if you would please
17 go through the scenarios there, and when we get
18 to -- when we get to the portion that includes
19 the map that Senator Latvala referenced, let's
20 make sure that we put that up on the screen so
21 we can have a full conversation about that map
22 anyway.

23 MR. GUTHRIE: Okay.

24 SENATOR GAETZ: You are recognized.

25 MR. GUTHRIE: Thank you, Mr. Chairman, and

1 let me take just a moment to show you that each
2 of you have a meeting packet for this meeting.
3 We have included in the meeting packet
4 bookmarks which take you to each of the tabs,
5 first congressional, then Senate, finally
6 House, and within the tabs, we've got sub-tabs
7 for each of the plans that are included in that
8 group. If we pick one of the plans, the packet
9 zooms to the page where that map is presented
10 and discussed.

11 And two interesting features if you are
12 using the on-line electronic version of this
13 meeting packet is that if you click on the
14 heading for the plan name, it will take you to
15 the map page for the particular plan that you
16 clicked on, and from there, you can get
17 statistics, you can get spreadsheets, you can
18 get maps and you also can launch District
19 Builder or District Explorer for the map that
20 you happen to be looking at in the meeting
21 packet. If you click on the map itself, that
22 provides you a direct link to the District
23 Explorer application.

24 District Explorer, I think, is a fabulous
25 tool for giving Senators and the public an

1 opportunity to see not only the gross outlines
2 of districts, but actually street-by-street
3 detail. So working inside of District
4 Explorer -- and I will click on the map here,
5 it will launch a session of District Explorer
6 for me with -- let's see -- with that plan
7 selected. Let me try that again. Click on
8 that. We will get there another way.

9 SENATOR GAETZ: Excuse me, John. Senator
10 Lynn.

11 SENATOR LYNN: Last time at our meeting,
12 John was the one that brought things up on our
13 screen. Are we going to be doing the same
14 thing today, or are we going to actually be
15 doing it ourselves? Because we have run into
16 some problems at the very beginning of the
17 meeting with getting our maps there, and I am
18 afraid to start playing with it lest I lose it.

19 SENATOR GAETZ: John, what advice do you
20 give us, to watch the big screen?

21 MR. GUTHRIE: That is an option, Senator
22 Gaetz. Also, technical support is here from
23 Senate IT and are making the rounds, so they
24 will get to --

25 SENATOR LYNN: So you are not going to be

1 guiding the cursor as you did last time?

2 MR. GUTHRIE: I will be controlling what
3 appears on the overhead.

4 SENATOR LYNN: Okay.

5 MR. GUTHRIE: If you go into the meeting
6 place connection, you also will be able to see
7 the same material on your computer screen.

8 SENATOR LYNN: Thank you.

9 SENATOR GAETZ: And any member who is
10 having any IT problems, as always with any
11 committee meeting, just let us know, we have IT
12 support here and we will help you out.

13 John, you are recognized.

14 MR. GUTHRIE: So once I get into the
15 District Explorer application, it is actually a
16 much easier application to use than District
17 Builder. Everything is controlled by the
18 layers manager over on the left side where you
19 choose which geographic features you want to
20 see or don't want to see, and the 11 buttons
21 across the top.

22 If I go to pan view, and that is the most
23 common view, I can move the map just as I would
24 Google map or Bing maps, and if I -- if I turn
25 my wheel mouse in, it zooms in closer and

1 closer. If I take my wheel mouse the other
2 way, it zooms out. So it is very, very easy to
3 navigate all around and see as much detail as
4 you like about any of the maps.

5 This is really something new, something
6 that is not available anywhere else in the
7 nation and provides a level of detail into the
8 specifics of how proposed lines are drawn that
9 all the members have access to. It would be
10 literally impossible for us to provide you all
11 of that content in paper -- in paper form.

12 So the other point I wanted to make is
13 that from the "Submitted Plans" folder, we have
14 a listing of all the plans that have been
15 submitted either to the Florida House of
16 Representatives or to the Florida Senate thus
17 far. Actually, Alex Kelly, the staff director
18 of the House Committee, informed me last night
19 that five more plans have been e-mailed to him
20 that he has not yet had a chance to process
21 them to the Web, but the point there is that we
22 very soon will be over 100 maps submitted by
23 the public. That, too, is an unprecedented
24 level of public participation in redistricting,
25 and I think the Senate and the House, you can

1 be very proud of what you have accomplished
2 here.

3 That number, I expect, as Senator Rich was
4 speaking to, will continue to grow in the
5 months ahead, and we very well might find
6 ourselves with literally hundreds of proposals
7 being submitted by the public before we get to
8 the end of this process.

9 The easiest way to find content about any
10 of those 94 or 99, or if it becomes hundreds of
11 plans, is to go to the "Submitted Plans" link
12 on the Senate redistricting website, and what
13 you will see is the ten most recent submissions
14 that we have received, but you can search here
15 for any of the plans that have been submitted.
16 So if you know the name of the person that
17 submitted the plan -- for instance, if we
18 wanted to know plans that were submitted by
19 anybody that had King as part of their name, I
20 type "King" as submitted by, and say "search,"
21 and there are the two plans that meet that
22 criteria. If I -- if what I want to see is all
23 of the congressional plans that have been
24 submitted so far, I can choose "congressional"
25 as plan type and say "search," and it will give

1 me a listing of all the congressional plans,
2 which, again, exceeds this -- what shows on the
3 screen, but if I choose -- and this is what I
4 -- this is a trick I used a little bit earlier
5 to get a count for Senator Latvala, if I choose
6 export the results to Excel, not only the
7 listings that are shown on the screen, the top
8 ten, but also the entire database for plans
9 that meet the criteria will show up in an Excel
10 sheet on your screen.

11 Later in the process, we -- currently, we
12 only have plans that have been submitted by the
13 public. Later in the process, we also will see
14 on this site plans submitted by members of the
15 House of Representatives and plans that are
16 submitted by you and your fellow Senators. So
17 you will be able to search for just those plans
18 submitted by Senators or just those plans
19 submitted by members of the House or just those
20 plans submitted by members of the public as
21 part of your search here.

22 So this is a -- the submitted plans is a
23 powerful tool. All of the materials that we
24 put into your meeting packet today came from
25 the information that is directly accessible

1 from the "Submitted Plans" page, plus, as
2 Senator Gaetz said, we went back and reviewed
3 the public record of the 26 public hearings
4 that we held, and some of the staff comments --
5 the professional staff comments that are
6 included in your meeting packet reflect input
7 that we got from the public at those 26
8 meetings. So that is a quick overview of some
9 of the resources we have.

10 Let's turn now to the Senate plan, and we
11 are looking today in northeast and central
12 Florida. What is showing on your screen right
13 now is the current Senate districts. Two
14 districts that are of particular interest is
15 District 1 in northeast Florida, represented by
16 Senator Gibson. It extends from Jacksonville
17 to Daytona Beach, and that district is 46.9
18 percent African-American voting age population.
19 It also is 9.7 percent below the ideal district
20 size based on the 2010 census. So all
21 districts are going to need to grow to be
22 470,000 people. District 1 currently is at
23 424,000 people. So it needs to add more
24 population.

25 District 19 in the Orlando area is

1 represented by Senator Gary Siplin. That
2 district is 33.1 percent black voting age
3 population, and it is 35.5 percent Hispanic
4 voting age population. District 19 is
5 currently slightly over the target population,
6 so it has -- the current population of District
7 19 is 477,000 people, so it needs it lose about
8 7,000 people to reach the ideal district size.

9 What we are going to be focusing on as we
10 move through the alternative maps today follows
11 along the lines of what Senator Siplin was
12 suggesting earlier. So we will be
13 concentrating on the Tier 1 requirement in
14 Section 20 and 21 of the Florida Constitution
15 that districts shall not diminish opportunities
16 of minority voters to elect candidates of their
17 own choice. So here -- this is the current
18 district. It, of course, was put in place
19 before Amendments 5 and 6 were added to the
20 State Constitution.

21 The first plan in -- alternative plan in
22 the packet that staff selected as a
23 representative sample for the Committee to
24 consider is plan number 64 by Mr. John Libby,
25 and at the time that we prepared the meeting

1 notice last Monday, this was the plan that had
2 the highest African-American voting age
3 population for the Jacksonville district. It
4 has a 41.4 percent African-American district
5 that is mostly in Duval County, and that is
6 kind of the chief example we chose for this
7 plan.

8 In the Orlando area, what they are doing
9 is they've got District 13 -- essentially the
10 current District 19 is split into pieces.
11 District 13 is 27.5 percent black voting age
12 population, compared to the over 30 percent in
13 the existing District 19, and District 12 is --
14 no, 13 is -- that's all we had to say. There
15 was no Hispanic majority or high Hispanic
16 percentage in Mr. Kelly's -- or excuse me, Mr.
17 Libby's submission here. So mainly we chose it
18 for the district in northeast Florida.

19 Plan 72 by Matthew Boyle is an example of
20 a plan which tries to hold counties together
21 somewhat. He also has in the Orlando/Kissimmee
22 area a District 12, which is 50.3 percent
23 Hispanic voting age population. So this is an
24 example of sort of a -- the possibility that a
25 Hispanic majority -- a bare Hispanic majority

1 district perhaps could be created in the
2 Orlando area.

3 SENATOR BRAYNON: Mr. Chair?

4 SENATOR GAETZ: Yes, sir.

5 SENATOR BRAYNON: I just have a question.
6 We are doing northeast and central Florida
7 today, or are we just --

8 SENATOR GAETZ: Yes, sir, our agenda
9 provided that we would start in the northeast
10 and then include central Florida --

11 SENATOR BRAYNON: Got you.

12 SENATOR GAETZ: -- down to that point,
13 Senator Braynon. Thank you.

14 MR. GUTHRIE: So moving on to plan number
15 seven by Mr. Henry Kelley, this is an example
16 that we chose for keeping county boundaries, or
17 following boundaries, county boundaries, to the
18 extent possible. A consequence of following
19 county boundaries to the extent that Mr. Kelley
20 did is that the minority percentages are
21 significantly lower than they are in the
22 current district.

23 In this plan, we have District 6 in the
24 Nassau and Duval area, which is 37 percent
25 black voting age population, and District 8 in

1 the Orlando area is 31 percent black voting age
2 population. It also has in this plan District
3 15 in southeast Orange County and Osceola
4 County, which is 39.9 percent Hispanic voting
5 age population.

6 The next map we are going to look at --
7 and we looked at this offering from Mr. King at
8 our last meeting as well.

9 You might recall that Mr. King put a grid
10 on the state of Florida and then tried to
11 conform his district boundaries to that
12 rectangular grid. His objective in doing that
13 method was to try to achieve as much
14 compactness as he could. Mr. King submitted to
15 the Committee to redistrict Florida at
16 flsenate.gov a detailed explanation of the
17 methodology that he used, and his conclusion
18 was that coming up with neat, tidy, square,
19 compact districts was a lot more difficult than
20 he anticipated that it would be, partly because
21 the underlying census geography is not made up
22 of circles or squares or perfect hexagons. So
23 this is a -- an example of a map which is
24 driven by the objective of compactness and that
25 has a consequence of not doing a very good job

1 of keeping -- avoiding a reduction in the
2 percentages of your minority districts.

3 And that is the extent of the maps
4 submitted as part of the meeting packet.

5 The map that Senator Latvala called and
6 asked to be included as a part of our -- of
7 what we were looking at today is plan number 80
8 by Bonnie Sue Agner. This plan has District 6
9 in northeast Florida, which is 41.4 percent
10 African-American, less than the current
11 District 1, but similar to the percentage that
12 Mr. Kelley achieved -- I believe it was Mr.
13 Kelley -- Mr. Libby achieved in his plan, which
14 was the highest percentage at the time that we
15 put the meeting packet together.

16 In the Orlando area, this plan has three
17 districts, District 12, 13 and 14. Among those
18 three districts, District 13 at 24.5 percent is
19 the highest African-American voting age
20 population, and District 14 at 36.4 percent is
21 the highest Hispanic voting age population.

22 So that is a quick overview. I mean,
23 obviously, there is a lot more there than we
24 have touched on so far, but that is a quick
25 overview of some of the key themes in the

1 Senate plans that staff chose as our examples
2 for today.

3 SENATOR GAETZ: Thank you, Mr. Guthrie.

4 Senator Latvala, you are recognized.

5 SENATOR LATVALA: But notice that in --
6 let's just take, for instance, the northeast
7 Florida Senate district, the one that Senator
8 Gibson starting tomorrow will be officially
9 representing, that all of these plans reduce
10 the African-American voting age population in
11 that district. And what I would like to do is
12 ask the question of our counsel, do we not need
13 to do better on that? In other words, can we
14 not -- can we live with those, or do we not
15 need to try to do better to bring it up closer
16 to the percentage that it currently has, which
17 is 46 or 47?

18 SENATOR GAETZ: And before -- and, please,
19 Mr. Bardos, be ready to comment, but
20 Mr. Guthrie, just so that you can -- we can be
21 specific as to Senator Latvala -- the
22 implications of Senator Latvala's question, my
23 notes show that the current District 1 has
24 49 percent and change minority population, and
25 as to the plans that have been presented here

1 today as representative of those plans
2 submitted by the public, could you indicate as
3 to District 1, the district that Senator Gibson
4 currently serves, what the minority numbers are
5 for each of those plans, just verbally? My
6 notes say currently 49 percent, and then if you
7 would just run through the plans so that we
8 will have a fine point on Senator Latvala's
9 question, and then after you do that, and I
10 apologize for asking you to do this, then go
11 through the District 19 as well, because my
12 notes show that District 19 currently has a
13 33.1 African-American population, 33.5 percent
14 Hispanic population, and if you could just
15 speak to what the representative plans that you
16 have just illustrated do arithmetically to
17 those percentages, and then we will ask Mr.
18 Bardos to respond to Senator Latvala's
19 question.

20 MR. GUTHRIE: Thank you, Mr. Chairman.

21 The numbers that show in the meeting
22 packet and that I have here are that the
23 current District 1 is 46.9 percent
24 African-American VAP and 6.1 Hispanic, but
25 let's say 46.9 percent African-American VAP.

1 In comparison with that, plan 64 by
2 Mr. Libby was -- had District 6 at 41.4 percent
3 African-American VAP; plan number 90 -- excuse
4 me, plan number 72 by Matthew Boyle had 29.5
5 percent for -- as the highest African-American
6 percentage in the Jacksonville area, plan
7 number seven by Mr. Kelley had a District 6
8 that was 36.9 percent African-American voting
9 age population, plan number 66 by Mr. King had
10 a black voting age population in Jacksonville
11 in District 6 at 44.8 percent, and as I
12 mentioned, the plan submitted by Ms. Agner,
13 plan 80, had a black African-American -- or an
14 African-American percentage wholly in
15 Jacksonville of 41.4 percent.

16 SENATOR LATVALA: Could I ask Mr. Guthrie
17 a question about that?

18 SENATOR GAETZ: Of course you may.

19 SENATOR LATVALA: Is there a map that has
20 been submitted by anybody in the public that
21 gets more than these maps -- more in
22 African-American voting population for those
23 districts than the maps you just went over?

24 SENATOR GAETZ: Mr. Guthrie.

25 MR. GUTHRIE: Thank you, Mr. Chairman.

1 We have received several recent new plans,
2 for instance, plan number 91 --

3 SENATOR GAETZ: I apologize, Mr. Guthrie,
4 just so we understand each other, because we
5 did have an understanding here as to deadlines
6 and things, when you say "recently submitted,"
7 do you mean submitted after the notice for this
8 meeting went out, or prior to the notice?

9 MR. GUTHRIE: After the notice to this
10 meeting, yes.

11 SENATOR GAETZ: Okay. Go ahead, please
12 answer Senator Latvala's question.

13 MR. GUTHRIE: And several of those
14 achieved higher percentages of minority voting
15 age population than the ones we had seen
16 previously. For example, plan number 91 by
17 Mr. Libby, the same Mr. Libby who submitted
18 plan 64 that we looked at just a moment ago, he
19 had a district in the Jacksonville to Lake City
20 to Gainesville area which was 46.7 percent
21 African-American voting age population, and a
22 Mr. -- let's see, a group of students from
23 Florida Gulf Coast University submitted plan
24 number 89, which has -- no, that is -- that
25 doesn't get it in Jacksonville, they are 39.6

1 percent in Jacksonville. A plan 84 by
2 Mr. Micah Ketchel had a district in
3 Jacksonville, Palatka, St. Augustine and
4 Gainesville which achieved 46.9 percent
5 African-American voting age population. So we
6 had two, 46.7 and 46.9, that are very close to
7 the current numbers for District 1, which are
8 46.9.

9 SENATOR GAETZ: And this gets back to
10 Leader Rich's question about can somebody who
11 has submitted a plan come back and offer an
12 amended plan to try to improve or change the
13 picture, and the answer here is that Mr. Libby
14 is an example of someone who submitted a plan,
15 who by the information we have just received,
16 his first plan would have a reduction in the
17 current Senate District 1 of African-American
18 voting age population of five percent, but yet
19 his subsequent submission, which was an amended
20 plan, would provide a -- two percent or
21 something like that?

22 MR. GUTHRIE: It is even, basically even.

23 SENATOR GAETZ: Basically even.

24 MR. GUTHRIE: Two-tenths of a percent.

25 SENATOR GAETZ: Okay. Now, Mr. Bardos.

1 MR. BARDOS: Thank you.

2 I think the answer has to begin with the
3 same caveat which -- with which we answered the
4 questions two weeks ago, which is that we don't
5 have an interpretation of these provisions from
6 the Florida Supreme Court, and so any answer
7 really is a best guess. But I think we have to
8 begin with the language of the amendments, and
9 the amendments say that districts shall not be
10 drawn to diminish the ability of racial
11 minorities to elect the candidates of their
12 choice. And that language is very similar to
13 language which has been in Section 5 of the
14 Voting Rights Act since 2006, and so we can
15 probably infer that some of the same principles
16 will apply.

17 The Department of Justice has
18 traditionally applied a facts and circumstances
19 analysis to every district rather than simply
20 looking at any numerical threshold, but I do
21 think that the best estimate of minority voting
22 strength -- the best indicator of minority
23 voting strength is probably the voting age
24 population of the district. And so I would be
25 very cautious to recommend any -- I would be

1 very cautious about any decrease in a minority
2 voting age population in districts that
3 currently do perform for minority voters. In
4 some circumstances, it might be unavoidable.
5 We have a number of minority districts that are
6 substantially underpopulated, and we don't know
7 whether the additional population that they
8 will take in will allow it to maintain the same
9 minority voting age population. There might
10 also be circumstances where some decrease in
11 the number can be offset by other circumstances
12 that actually enhance minority voting strength
13 in that district, but I think I would be very
14 careful in how the Committee proceeds if it
15 were to decrease the voting age population in
16 what is a performing district for minority
17 voters.

18 SENATOR GAETZ: Senator Latvala.

19 SENATOR LATVALA: Mr. Chairman, I think
20 what I hear here is that if -- you know, that
21 this probably ought to be one of the first
22 decisions we make in crafting the Senate map is
23 how we do these districts. And as I understand
24 it, if we stay in Duval County with what is now
25 District 1, and just be in Duval County, we are

1 going to be reducing the African-American
2 voting age population by five or six points,
3 and that in order to keep that to where it is
4 now, we are going to have to go outside of the
5 county. So it would seem to me like that is
6 one of the first decisions to make is whether
7 we are going -- which direction we are going to
8 go.

9 SENATOR GAETZ: Speaker Thrasher --
10 Senator Thrasher.

11 SENATOR THRASHER: Thank you,
12 Mr. Chairman, and this is along the lines, I
13 think, of what Senator Latvala was suggesting,
14 and also our counsel.

15 As I read the amendment -- and granted, it
16 hadn't been looked at by the Supreme Court or
17 it hadn't been looked at by other courts, et
18 cetera, et cetera, but I think the clear
19 reading of the amendment is all we can go on
20 right now. In my reading of the amendment, if
21 it were me and I were trying to defend this or
22 whatever actions we take in a court later on,
23 to me, the number one criteria that I believe
24 the amendments together written -- read
25 together require that we protect racial

1 minorities. I think that clearly is what the
2 amendments suggest as the number one priority,
3 that we not weaken minority voting strength in
4 the existing districts.

5 The second thing in terms of the hierarchy
6 as I read the amendments, to me anyway, is that
7 we can't favor or disfavor an incumbent or a
8 political party.

9 The third criteria, in my opinion again,
10 reading the amendments I think clearly as
11 anybody can read them, is compactness. I think
12 that would be the third criteria.

13 And the fourth -- the fourth criteria
14 would be, where feasible, use existing
15 political geographic boundaries, and that could
16 be -- frankly, that could be county, municipal
17 or existing district boundaries.

18 But it seems to me if -- to get to Senator
19 Latvala's point, those are the -- that is the
20 hierarchy of principles that come out of
21 Amendments 5 and 6, at least for me, and I
22 would suggest that we take some time to
23 consider that list of criteria and see what --
24 see what other folks think, but, for me, I
25 would strongly recommend that we strive not to

1 weaken the minority voting strength in the
2 existing -- in the existing districts.

3 SENATOR GAETZ: Thank you, Senator
4 Thrasher.

5 Senator Braynon, and then Senator
6 Benacquisto.

7 SENATOR BRAYNON: Yes, Mr. Chair.

8 The attorney mentioned performance and
9 voting age population. Are those two things
10 distinguished when we talk about minority
11 communities, their voting performance and their
12 voting age population, or are we only using
13 voting age population?

14 SENATOR GAETZ: Mr. Bardos, could you
15 comment on that, please?

16 MR. BARDOS: Sure. By performance, I mean
17 a district that, in the words of the amendment,
18 has the ability to -- in which minority voters
19 have the ability to elect representatives of
20 their choice. So that is the district that --
21 in which we cannot diminish that ability. So a
22 district -- as I was using the term, it would
23 be a district which currently elects a
24 candidate -- the candidate that is preferred by
25 minority voters.

1 SENATOR GAETZ: Senator Braynon to follow
2 up.

3 SENATOR BRAYNON: Yes. So does that mean
4 we won't be using any information that talks
5 about the actual performance, voting
6 performance, of that district as far as turnout
7 and things of that nature?

8 SENATOR GAETZ: Mr. Bardos and
9 Mr. Guthrie, if you wish to comment on that.

10 MR. BARDOS: Well, I think those data are
11 relevant, and I think at some point we will
12 have to conduct a statistical analyses to
13 determine whether the minority voting strength
14 has been decreased. So I would not exclude
15 those from our consideration.

16 SENATOR GAETZ: Senator Braynon.

17 SENATOR BRAYNON: One more follow-up.

18 So if we will be using that, wouldn't that
19 be used in the equation of preserving minority
20 seats as -- or, you know, in that hierarchy,
21 that we need to have that information in order
22 to make that correct analyses?

23 SENATOR GAETZ: Mr. Guthrie, any -- I'm
24 sorry, Mr. Bardos and Mr. Guthrie, either one
25 of you?

1 MR. BARDOS: Again, I agree that that
2 could be a factor. I think that -- that those
3 statistical analyses usually are performed in
4 voting rights determinations, and so it is
5 something for the Committee to take into
6 account.

7 SENATOR GAETZ: And, Mr. Guthrie, would
8 you please place, if you can, up on the screen
9 for everyone to see the language of Amendments
10 5 and 6 so that we can follow along with
11 Speaker Thrasher's analysis here and the
12 discussion we are having? And did you wish to
13 comment on Senator Braynon's question before we
14 go to Senator Benacquisto?

15 MR. GUTHRIE: On the question of election
16 data, I think it is important for the Committee
17 to realize that we chose not to include
18 registration or election results data as part
19 of the District Builder or District Explorer
20 software. The reason that we made that choice
21 was because of the language in Amendments 5 and
22 6 that says that districts shall not be drawn
23 with the intent to favor or disfavor a
24 political party or incumbent. And in an
25 abundance of caution, the Chairman and --

1 directed the staff that those data didn't
2 really fit in with the software we were using
3 for modeling districts. However, we are in the
4 process of putting together precinct-level
5 election results from key elections that are
6 useful for determining racial black voting, and
7 we will provide those data to our attorney and
8 through him to a statistician for purposes of
9 making the appropriate conclusions about what
10 voting behaviors exist.

11 SENATOR GAETZ: And, Senator Braynon, if I
12 might -- and if you will please put the
13 language of Amendments 5 and 6 up -- upon
14 advice of counsel and my own deliberations and
15 consultation with our Vice-Chair, President
16 Margolis, I made the determination that our
17 software should not include how many Democrats
18 or Republicans live in a particular area, but
19 because we should be guided by the language of
20 Amendments 5 and 6, which tell us that we
21 should not be drawing lines with reference to
22 party affiliation. So if you want to know
23 party affiliation data, I am sure that the
24 Democratic party or the Republican party can
25 provide that information, but I did not believe

1 that that ought to be a litmus test for what
2 constitutes a good or a bad district as to how
3 many Democrats or Republicans are there.

4 SENATOR BRAYNON: I'm sorry, Mr. Chair,
5 maybe you misunderstood or didn't hear what I
6 was talking about.

7 SENATOR GAETZ: I apologize.

8 SENATOR BRAYNON: I was talking about the
9 performance as it related to rac- -- to the
10 minorities in the district and their actual
11 voting, not who they voted for or anything like
12 that, the actual voting, not just voting age
13 population. So I said performance --

14 SENATOR GAETZ: Right.

15 SENATOR BRAYNON: -- not who they voted
16 for, which party they belonged to or anything
17 like that, just turnout. And that is what I
18 think Mr. Guthrie was referring to when he said
19 that he was going to get that information.

20 SENATOR GAETZ: Right. And is that answer
21 satisfactory to you, sir?

22 SENATOR BRAYNON: Yes.

23 SENATOR GAETZ: Okay. Senator
24 Benacquisto, at long last.

25 SENATOR BENACQUISTO: Thank you,

1 Mr. Chairman.

2 Just to touch on the point that Senator
3 Thrasher made about the three levels of
4 criteria that we will be -- four levels of
5 criteria, sorry, that we will be utilizing to
6 determine the boundary lines of districts, I
7 think there is a very compelling state interest
8 to put minority representation first and to
9 make sure that in the pursuit of our -- in the
10 pursuit of compactness, to -- as best we can on
11 our Amendments 5 and 6, that we do nothing that
12 would diminish the percentages and the
13 representation of minorities in the state of
14 Florida. I think it is a strong voice that we
15 have an obligation to protect.

16 SENATOR GAETZ: Other comments or
17 questions at this moment? Yes, Senator Sobel,
18 you are recognized.

19 SENATOR SOBEL: Thank you. So at this
20 committee meeting, we are combining northern
21 Florida and central Florida, correct?

22 SENATOR GAETZ: At this committee meeting,
23 based on the published Notice and our agreement
24 previously, we are discussing northeast Florida
25 and central Florida, yes, ma'am.

1 SENATOR SOBEL: Thank you. So we all know
2 that there are a number of prisons in north
3 Florida, and my question is, how are we
4 addressing that population? Are we counting
5 prisoners at the prisons, or where they come
6 from?

7 SENATOR GAETZ: Great question. It is one
8 that we brought up several months ago in
9 dealing with -- with other states and trying to
10 get a good handle on this.

11 Mr. Guthrie, would you answer that
12 question, please?

13 MR. GUTHRIE: The 2010 census counts
14 prisoners at the location where they reside on
15 April 1st of 2010. So they are counted at the
16 correctional facility where they were residents
17 at that time.

18 SENATOR GAETZ: And, Senator Sobel, our
19 understanding is that that is not a matter of
20 our discretion. That is a matter of where they
21 were counted by the census. Senator Sobel.
22 Senator Sobel, I think your mike may not be on.

23 SENATOR SOBEL: Thank you, Mr. Chair.

24 Some states have looked at addressing this
25 issue, whether it is Massachusetts, New York,

1 California, and have passed laws, and they have
2 been recognized, adjusting the deviation to the
3 negative, because in some of these rural areas
4 they're counting them in the redistricting
5 process rather than where they actually live,
6 which is usually from an urban area. Is that
7 something that we could contemplate doing to
8 reflect the true place where these prisoners
9 vote? I mean --

10 SENATOR GAETZ: Mr. Guthrie, and then we
11 will go to Senator Altman.

12 MR. GUTHRIE: Mr. Chairman, we do know
13 where those persons resided on April 1st, 2010.
14 It would be very difficult, and the State of
15 New York as part of its exercise found that it
16 was very, very difficult to ascertain where it
17 was those persons came from, and in the case of
18 felons, until their rights are restored, they
19 are not voting.

20 But the method -- what we do in
21 redistricting is we readjust the population of
22 districts based on whole persons, whether they
23 are children or middle-age people or folks in
24 nursing homes or folks who happen to reside in
25 other group facilities, like correctional

1 institutions. Redistricting is based on where
2 people reside, not on the -- any statistics
3 having to do with voting or registered voters.
4 So it is a snapshot of where the people in
5 Florida resided on April 1st, and trying to
6 equalize districts so that each of those
7 persons is represented by the same number of
8 members of the State Senate, the State House
9 and the U.S. Congress.

10 SENATOR GAETZ: Senator Altman. Turn on
11 your mike, sir.

12 SENATOR ALTMAN: Sorry about that.

13 He answered my question to a point. These
14 are -- if they are convicted felons, they don't
15 have civil rights, they cannot vote until those
16 are restored, and I wonder, if we are counting
17 them in a particular district and they do not
18 have the ability to vote, are we not sort of
19 creating a false positive or false negatives in
20 terms of minority representation or otherwise,
21 or even equalization of representation like in
22 congressional districts? And if they are
23 not -- if they don't have the ability to vote,
24 how can we use them in meeting those
25 constitutional and legal standards?

1 SENATOR GAETZ: Mr. Guthrie.

2 MR. GUTHRIE: The Attorney General has
3 written, and not so much on state redistricting
4 as on county redistricting, an Attorney
5 General's Opinion on this subject, and I would
6 like to take a chance to refresh my mind on
7 exactly what that says, but I believe the
8 Attorney General's general recommendation at
9 the time that that was written was that -- that
10 prisoners would count at the location where
11 they resided for purposes of equalizing the
12 population of county commission districts.

13 Now, whether the -- this committee might
14 want to choose as a matter of policy to
15 overpopulate districts that happen to have
16 higher numbers of persons in correctional
17 facilities as, you know, a justification for
18 not having spot-on population equality, that
19 would be a policy choice for this committee to
20 make.

21 SENATOR GAETZ: Other comments or
22 questions at this point? Senator Gibson.

23 SENATOR GIBSON: Thank you, Mr. Chair, and
24 I am kind of piggy-backing on the previous
25 comments. If -- if there is a district -- if

1 census is strictly whole persons by where they
2 reside, and in previous response to Senator
3 Braynon where it was discussed that we use
4 turnout as a criteria, and obviously the people
5 in the prison can't turn out, because they
6 can't vote, so how then do you factor turnout
7 in when you have a population of people who
8 can't vote, but they may be of a particular
9 race and they are whole persons and they are
10 counted in the number in the district?

11 SENATOR GAETZ: And, Senator Gibson, I --
12 we apologize if the prior answer was not on
13 point, that turnout is not the driver, but
14 Mr. Guthrie, would you please respond, and then
15 we will ask Mr. Bardos if he has any additional
16 response?

17 MR. GUTHRIE: Yes, the answer is that for
18 purposes of equalizing the population of
19 districts, what we go by is the total
20 population. For purposes of conducting voting
21 studies, what statisticians are going to look
22 at is the people who actually showed up at the
23 polls and how they voted. So they don't go by
24 total population or even voting age population.
25 They are -- in the elections studies, they are

1 looking at who showed up at the polls and how
2 those persons voted when they went to the poll.
3 And the question there is the extent to which
4 racial bloc voting is occurring in areas of the
5 state.

6 SENATOR GAETZ: Any other questions or
7 comments at this point?

8 Mr. Guthrie, you have presented the Senate
9 maps, which you tell the Committee are
10 representative of the Senate maps that have
11 been -- that have been turned in by the members
12 of the public. We have also seen the map which
13 Senator Latvala asked be considered. Are there
14 any other questions or comments as to Senate
15 maps in northeast or central Florida? Any
16 other comments? Doesn't mean you can't talk
17 later, but I am just giving you a chance now.

18 Yes, sir, Senator Simmons, and welcome to
19 the Committee, Senator.

20 SENATOR SIMMONS: Thank you, Mr. Chair.

21 I was listening to this, and, of course,
22 have been interested about the proper
23 interpretation of the Constitutional Amendments
24 5 and 6 and would like to give my thoughts on
25 it.

1 And the amendments, I believe, provide for
2 a two-tier analysis, and I think -- I think
3 everyone now acknowledges that there is a
4 two-tier analysis in the application of these
5 constitutional amendments.

6 And the first tier analysis says that
7 "districts shall not be drawn with the intent
8 or result," and I think it is important right
9 there to look at the language. It says "intent
10 or result." It is irrespective -- I mean, this
11 is in the disjunctive, that we can't have the
12 result of denying or abridging the equal
13 opportunity of racial or language minorities to
14 participate in the political process, but then
15 there is another requirement, and it says we
16 cannot diminish their ability to elect
17 representatives of their choice. And I do
18 point out to each one of us that in looking at
19 the language, it doesn't say we shall not
20 substantially or moderately diminish their
21 ability to elect representatives of their
22 choice. It says, "we shall not diminish." So
23 there is no qualifier in front of the word
24 "diminish." It just says, "we shall not
25 diminish," and it says, "we shall not abridge."

1 And so for those who might suggest that the
2 word "diminish" is some kind of variable word
3 or a flexible word, I think that any judge is
4 going to look at the definition in the
5 dictionary, and that means lessen, we shall not
6 lessen the ability of minorities to elect
7 representatives of their choice. And I think
8 that we should look very closely before we
9 start diminishing the -- and I mean moderately
10 diminishing or somewhat diminishing. The
11 answer is we shall not diminish, and I think
12 that is a guiding point for us in -- in looking
13 at these -- these district maps.

14 The second tier analysis is to the extent
15 that these following things do not conflict
16 with the standards in subsection 1, which, of
17 course, is the requirement of non-diminution of
18 the ability of minority or racial minorities --
19 language minorities to represent those of their
20 choice. Then we have the standard of
21 compactness, we have the standard of, where
22 feasible, utilizing existing political and
23 geographic boundaries. And when someone looks
24 at this and says how do you allocate these or
25 weigh these particular factors that we've just

1 discussed, subsection 3 of the amendments
2 provide that "The order in which the standards
3 within subsection 1 and 2 of this section are
4 set shall not be read to establish any priority
5 of one standard over the other within that
6 section -- subsection." So the issue
7 apparently is within subsection 2, which is
8 subordinate to subsection 1, we're not supposed
9 to put priority of compactness over using
10 existing political and geographic boundaries.
11 But the interesting thing is, it is made very
12 clear by these constitutional amendments, is
13 that we shall not in the first order diminish
14 the rights of racial or language minorities to
15 elect representatives of their choice. And I
16 think that is a guiding -- guiding point for us
17 as we go through this process.

18 I do throw out a couple of questions that
19 I think we are going to have to answer and need
20 to be analyzed, is when we talk about
21 diminution, what is the date that we use for
22 determining diminution? Is it going to be the
23 2002 census? Is it going to be last year or
24 two years ago? And my own suggestion is that
25 the safe thing for us to do is look at all of

1 those factors, whether it is the 2002 census or
2 last year's census, and we make sure that we
3 are not diminishing the rights of racial or
4 language minorities.

5 And with respect to how we do this, once
6 we look at the question of diminution, I
7 suggest that there is more than just one
8 standard for diminution. I believe that the
9 voting age population is the probably number
10 one criterion that we should be looking at, but
11 there are other criteria, and that would be
12 practical application of all of this.

13 And I will give you an example. If you go
14 ahead and cut a racial minority from 46 or
15 47 percent down to 30 percent, and we take into
16 consideration that African-Americans typically
17 register to vote or show up at the polls in a
18 manner that is less than others, so that the
19 practical result of cutting a racial minority
20 down to 30 percent is in effect cutting them
21 down to 20 percent because of the performance
22 at the polls, we have -- we have essentially
23 gone a long way in depriving racial minorities
24 of their access to -- to being able to
25 participate in the political process.

1 These are the things that we've got to
2 look at in -- in applying these constitutional
3 amendments, but I think it is real clear that
4 the first thing we have to draw are those two
5 districts that Mr. Guthrie showed and
6 discussed, and then after we have drawn those
7 two districts, then we can draw the rest of the
8 districts in accordance with the standards such
9 as compactness. And I am not saying that
10 compactness is irrelevant to drawing a racial
11 minority district. I am saying that it is
12 subordinate. And sometimes it will be nearly
13 -- maybe not too -- of great consideration, but
14 if it could be done, then certainly there would
15 be the attempt to do it, to draw it compact.
16 But we must as a number one goal meet our
17 obligation, our constitutional obligation, to
18 not diminish, and that means not only by actual
19 numbers, but by performance. And so those are
20 the thoughts I have on this as we -- as we draw
21 these districts. Thanks.

22 SENATOR GAETZ: Thank you very much,
23 Senator Simmons. Senator Braynon, and then we
24 will move to an exposition of the examples of
25 House districts and congressional districts,

1 and then to public testimony. Senator Braynon.

2 SENATOR BRAYNON: I guess my question is I
3 heard I think it was Senator Latvala talk about
4 we may need to go outside of Duval County in
5 order to continue the minority -- to keep a
6 minority seat. And when I asked about
7 performance, have we looked at past
8 performance, because I look at the Appendix A
9 in tab five, and I also think -- I also --
10 harking back to that we -- they have -- they
11 just elected an African-American mayor in
12 Duval, so, I mean, it's -- when I say
13 performance about, you know, electing minority
14 candidates or allowing minority candidates to
15 be -- to choose the person of their choice, is
16 it not possible for Duval County to -- for a
17 seat to be all-encompassed in Duval County and
18 still be able to elect a minority of their
19 choice if we're looking at past performance,
20 which was the recent mayor's election where a
21 minority was elected?

22 SENATOR GAETZ: Therein lies the good
23 question.

24 Senator Altman.

25 SENATOR ALTMAN: Thank you, Mr. Chairman,

1 just a quick -- you mentioned any comments on
2 the Senate maps. I know in the Senate map 64
3 by Mr. Libby, he's done a good job, although
4 the one question in the Orange/Brevard County
5 area, he's actually drawn two districts, 11 and
6 12, where it is physically impossible to drive
7 from one side of the district to the other side
8 of the district without driving through -- for
9 example, if you are in District 11, the
10 south -- southern portion, you are forced to
11 drive through 12. It is the only way you can
12 get to the northern section. And in my
13 definition, that would not meet compactness.
14 And I don't know if we are working from a
15 specific compactness definition or we are going
16 to be looking at case law as it relates to what
17 is compact or not. And so, in my eyes, it is
18 not compact when you are forced to go from one
19 -- through another district to get to another
20 part of your district.

21 SENATOR GAETZ: And, Senator Altman, if I
22 could just stop you so that we could all follow
23 along. Mr. Guthrie, would you please put that
24 section of the map -- it is the Libby map, and
25 is it Libby one or Libby two?

1 SENATOR ALTMAN: It has a 64 on it at the
2 end.

3 SENATOR GAETZ: Sixty-four? Okay. Would
4 you take Senate map 64, bring it up, please,
5 sir, and then that will help illustrate Senator
6 Altman's point.

7 And I didn't mean to cut you off, Senator
8 Altman. I just thought we could all understand
9 it better if we saw it.

10 A VOICE: This one?

11 SENATOR GAETZ: Yes, ma'am.

12 SENATOR STORMS: While he is getting to
13 that map, may I just ask a question on the
14 status of the definition of compactness? We
15 had quite some discussion on it last time, and
16 I do think that I agree -- I haven't heard
17 anything that I disagreed with from the two
18 Senators that outlined the hierarchy, Senator
19 Thrasher and Senator Simmons, and I agree with
20 that, but I do think that we would do well to
21 adopt a definition of what we are talking about
22 so we know what we are talking about with what
23 compactness means. And I just -- I really
24 think that we would do well to do that. Is
25 there -- what are we doing with that?

1 SENATOR GAETZ: We are waiting for you to
2 offer us a definition of compactness. And we
3 will get back to you.

4 Senator -- Mr. Guthrie, would you bring
5 the map up that Senator Altman was talking
6 about, please?

7 SENATOR ALTMAN: If I may, Mr. Chairman,
8 real quick?

9 SENATOR GAETZ: Please, and then we will
10 get back to Senator Storms.

11 SENATOR ALTMAN: The reason you can't
12 drive through is because of the Kennedy Space
13 Center. It is -- where you have actually a
14 naval base, an Air Force base and the Kennedy
15 Space Center, NASA facility, so that divides
16 that district. It may look compact, it may
17 look like it is geographically connected, but
18 it is not because of those federal
19 installations.

20 SENATOR GAETZ: And the district number
21 you are looking at there for all of our
22 benefits is?

23 SENATOR ALTMAN: Eleven, District 11.

24 SENATOR GAETZ: District 11, okay. Thank
25 you very much.

1 And, Senator Storms, I didn't mean to cut
2 you off, ma'am. I think that Leader Rich led
3 us in a discussion of compactness from her
4 perspective, I think there were other comments
5 made, and I don't want to put words in Mr.
6 Bardos' mouth, he will correct me if I am
7 wrong, but I think, in essence, in simple
8 terms, we have said that compactness will
9 probably be defined by the courts because there
10 is no standard definition that we can rely
11 upon. This is a new set of criteria when you
12 take all the criteria together. But if you
13 would like to suggest a definition, or if any
14 Senator would like to suggest a definition of
15 terms, that is certainly in order at any point
16 during these conversations.

17 SENATOR RICH: Thank you.

18 THE COURT: I'm sorry, Leader. Leader
19 Rich.

20 SENATOR RICH: Thank you, Mr. Chair. I
21 just kind of have a question of Mr. Guthrie,
22 because you said you --

23 SENATOR GAETZ: Leader, could I ask you to
24 bring your mike a little closer?

25 SENATOR RICH: Here.

1 SENATOR GAETZ: Thank you.

2 SENATOR RICH: You said you used -- you
3 looked at the maps you presented or you chose
4 to present represented certain aspects, and you
5 mentioned, you know, counties, compactness. So
6 I guess my question to you is, how are you
7 measuring compactness? I mean, do you have a
8 definition you are using when you look at maps
9 and say to us that they represent an aspect of
10 compactness or following geographic lines or
11 whatever it is that you are using?

12 SENATOR GAETZ: Mr. Guthrie.

13 MR. GUTHRIE: The best example I've got
14 for that is in the help manual for District
15 Explorer and District Builder. If we go to the
16 section called "Standards for Drawing
17 Districts," we've got some short, little
18 paragraphs explaining some -- in hopefully
19 layman's terms, some of the concepts that the
20 Senate will be wrestling with in coming up with
21 new districts.

22 And on the question of compactness, we
23 talked about this a bit last week, there is a
24 notion among some people and some statisticians
25 and geographers that compactness has to do with

1 how circular a district is, or how box-like or
2 circular or hexagonal it is. More recent
3 definitions of compactness have focused more on
4 the functional aspects of how constituents
5 relate to one another and to their elected
6 representatives, so looking at things like
7 transportation and commerce patterns, and not
8 focusing so much on whether or not the district
9 is circular.

10 SENATOR GAETZ: Leader Rich, is that
11 responsive?

12 SENATOR RICH: Thank you, sir.

13 MR. GUTHRIE: So the guidance that I
14 believe that -- that your professional staff
15 will use in coming up with a proposed committee
16 bill, unless we get other direction from the
17 Committee, will be to try to compose districts
18 that look neat and tidy, but also are
19 respectful of the comments we heard at the
20 public hearings about communities that fit
21 together and make sense to hold together as a
22 logical representational unit.

23 SENATOR GAETZ: Did someone else over here
24 seek recognition? I apologize. Senator Lynn.

25 Have we finished the conversation --

1 Senator Storms and then Senator Lynn.

2 SENATOR STORMS: Thank you, Mr. Chair.

3 Well, while I understand the rationale
4 behind using a definition on shape so people
5 can look at a map and say, "Well, one of the
6 experts came and said this is a map that looks
7 like a bunny or some" -- you remember that? It
8 was some sort of shape that they thought was
9 offensive, and so it shouldn't be any --

10 SENATOR GAETZ: That was the anti-bunny
11 coalition. I remember them well.

12 SENATOR STORMS: Anyway, so people would
13 prefer to see it in a square or a circle or
14 something that is a recognizable shape.

15 My objection to using the recognizable
16 shape as a definition for compactness is that
17 it doesn't take into -- into consideration the
18 functionality of the district. So you -- so,
19 for instance, when we had all the testimony of
20 people who said -- when I asked the question
21 about the northwest part of the Florida, people
22 said, well, but if you do that, then you
23 necessarily -- if you do what you are trying to
24 do, Senator, then you necessarily create the
25 power -- the political power in the whole

1 Panhandle in the coastal areas, and the rural
2 areas don't get a voice. We heard that also in
3 different districts where people said,
4 particularly in south Florida, if you -- please
5 use the dividing line as I-75 and try and keep
6 these kind of communities together, this river
7 seems to make -- so I guess I would argue more
8 for a functionality definition, because we want
9 the districts to work. We want the districts
10 to be able to -- for people with like interests
11 to be together, and so -- and for communities
12 of interest, for political boundaries to work.
13 If you just keep it in a square, you might have
14 a square, but you might include half of a city
15 in it, and that doesn't address the
16 functionality. So I am just one member, but I
17 would argue for the functionality definition
18 rather than sticking closely to some geometry
19 101.

20 SENATOR GAETZ: Thank you, Senator Storms,
21 and I think that Mr. Guthrie, when you had to
22 step away for a moment, I think Mr. Guthrie
23 referred back to a definition that is on the
24 website that conforms pretty much with what you
25 just said, and that is that, well, geographers

1 and others would say that a circle is probably
2 the tightest and most compact geometric
3 pattern, that those definitions of compactness
4 which take into account commerce,
5 transportation and communication are more
6 commonly used, although I think it is fair to
7 say -- and, Mr. Bardos, correct me if I am
8 wrong -- that there's not a standard definition
9 of compactness that cuts across all
10 jurisdictions in the country. Did you -- is
11 that a fair statement? Okay.

12 Yes, sir, and now Senator Lynn.

13 SENATOR LYNN: Thank you, Mr. Chairman.

14 Two points. Getting back to the driving
15 to an area that is not part of your district, I
16 have such an area now. And while we can be
17 compact, we can be contiguous, sometimes there
18 is not a roadway that is direct all the way
19 through your district, and so you may have to
20 go through a portion of something that is not
21 in the district, and is that something that we
22 are going to be concerned about? Because it
23 seems to me there may be a need to follow all
24 the other requirements constitutionally, and it
25 may mean that you are on a road going through

1 some other area or there's forests in the way,
2 whatever it happens to be. So I would hope
3 that we would not make that as a requirement
4 that some -- you know, if it has to be that you
5 drive through a little portion of somebody
6 else's district, so be it. So that is one
7 comment.

8 But the other, I want to get back to the
9 minority representation, which certainly I
10 understand we don't want to diminish, but it
11 has to do with Senator Simmons' comments about
12 low voter turnout and, well, if it is -- we
13 expected 40 percent, but it is only 30 percent,
14 and maybe you have to somehow make up for that
15 in some way, and I -- I want a clarification on
16 that. It may be in an agricultural area -- and
17 I don't know this to be true, I am just giving
18 an example -- it may be in an agricultural area
19 where people are very spread out and so forth,
20 that they -- their voter turnout is less than
21 perhaps something in the big cities. And does
22 that mean that we would be taking into account
23 all of that voter turnout as well, or are we
24 doing -- or is that comment made simply in
25 terms of the minority representation? As I

1 said, I want to protect minorities in terms of
2 making sure they have their adequate
3 representation, but I would -- I don't want to
4 make it so that it is unfair to the extent that
5 others where there is low voter turnout would
6 not be recognized for that need as well.

7 SENATOR GAETZ: Mr. Guthrie, would you
8 respond to that, then we are going to take
9 Senator Montford, and then in order that we can
10 fairly provide time for public input before we
11 give any guidance that we can to the Committee,
12 we are going to move on to the House maps.
13 Mr. Guthrie.

14 MR. GUTHRIE: And your point -- your point
15 is well taken, Senator Lynn. The basis for
16 equalizing districts is total population. Has
17 nothing to do with who is registered to vote,
18 who is citizens or who shows up at the polls to
19 vote. So merely by being counted in the 2010
20 census, you will get your fair share of
21 representation.

22 SENATOR GAETZ: Senator Montford.

23 SENATOR MONTFORD: Thank you, Mr. Chair.
24 I will be brief.

25 The question I have goes back to what

1 Senator Thrasher suggested earlier. That seems
2 like to be a very reasonable, precise way to
3 approach it.

4 My question, Mr. Chair, to the staff is
5 that when you were selecting the maps of
6 however many we got out there, did you use any
7 kind of criteria that -- similar to or
8 identical to what Senator Thrasher suggested in
9 selecting these maps? And then the question
10 is, did the -- the discussion we had last week
11 on northeast -- northwest Florida, would our
12 comments fit into the criteria that Senator
13 Thrasher suggested earlier?

14 SENATOR GAETZ: Mr. Guthrie, did you get
15 the question?

16 MR. GUTHRIE: I believe I did. The
17 criteria that staff used in selecting the maps
18 was to come up with examples of maps that
19 provided for minority voting opportunities, and
20 as I said, the public submissions that we had
21 so far were not -- did not do as great a job as
22 some of the ones that have come in later in
23 terms of that criterion.

24 We also tried to provide you some examples
25 of maps that set out to follow county

1 boundaries, set out to follow city boundaries
2 where county maps -- or county boundaries had
3 to be split, or counties had to be split, and
4 examples of districts that were intentionally
5 compact.

6 So we tried to provide a variety of
7 different approaches or scenarios that were
8 used by the authors of plans. And I think what
9 you will find, if you look at the 27 Senate
10 submissions, is that what we've got is
11 something of a representative sample of what
12 those maps were. But, obviously, as Senator
13 Latvala rightly pointed out earlier, there are
14 nuances in every redistricting map that this
15 committee very well ought to consider.

16 SENATOR GAETZ: Any other comments or
17 questions? If not -- yes, Senator Simmons,
18 briefly.

19 SENATOR SIMMONS: Very briefly. The point
20 about compactness, I submit to all of you, is
21 somewhat defined by the constitutional
22 amendments themselves, because within each
23 subsection, we are supposed to weigh them
24 evenly, and in the subsection 2, which is
25 subordinate to the minority access section, it

1 says that districts shall be compact, and then
2 it says, "Districts shall, where feasible,
3 utilize existing political and geographic
4 boundaries."

5 So the definition is not going to be a
6 circle, it is not going to be a square, it is
7 going to be using existing political and
8 geographic boundaries. And to the extent that
9 you can meet both of those requirements
10 together, then that's what you are going to
11 see. And I think that is the reason that you
12 will see a lot of districts that are going to
13 follow county lines, or in some instances,
14 because of population requirements, they are
15 going to follow city lines, but they won't be
16 splitting cities and they won't be splitting
17 counties. And so that is my own suggestion.

18 SENATOR GAETZ: Okay. Mr. Guthrie, would
19 you please go to -- Senators, go to tab six,
20 and, Mr. Guthrie, would you take a brief look
21 at scenarios for drawing House districts, and
22 then let's go to tab four, and, Mr. Guthrie,
23 look at the overview of scenarios drawn from
24 the public testimony and public submissions for
25 drawing congressional districts in northeast

1 and north central Florida. Then we will take
2 public testimony and then we will have
3 additional Committee discussion. You are
4 recognized.

5 MR. GUTHRIE: With Florida House
6 districts, members of the Committee, the first
7 thing you notice is there are a lot more of
8 them than there are of Senate districts. So we
9 have a lot more to consider.

10 In the current House plan, we have two
11 African-American majority districts in
12 Jacksonville. One of those is 59.6, almost
13 60 percent African-American voting age
14 population, and one is 55.7, or almost
15 56 percent African-American voting age
16 population.

17 In addition to that, in the Orlando area,
18 we have one district that is 68 percent
19 African-American voting age population, and we
20 also have a district, District 49, which is
21 56.1 percent Hispanic voting age population.
22 So we've got a majority-minority
23 African-American district and a
24 majority-minority Hispanic district in the
25 Orlando area. In both cases, you have a

1 Representative of that racial group or ethnic
2 group serving in those seats.

3 We also have in the current House map a
4 district in the Gainesville area -- actually,
5 it extends from Gainesville to Ocala -- that is
6 30.9, or almost 31 percent African-American,
7 and that district has an African-American
8 incumbent as well. So that is sort of the key
9 Tier 1 considerations for the current House
10 map.

11 The two alternatives that we put in your
12 meeting pack, like all of the -- or most of the
13 alternatives that were submitted to the
14 Committee prior to when we put together the
15 meeting pack, do not do a good job retaining
16 the current levels of minority opportunity.
17 District 79 by Mr. Laytham has two Jacksonville
18 districts that are -- one that is less than a
19 majority, 47.5 percent, one which is a bare
20 majority, 50.6 percent. His Gainesville
21 district goes from 31 percent in the current
22 map to 19.4. And in the Orlando area, his
23 African-American district is 50 percent instead
24 of 68 percent, and his Hispanic district is
25 47 percent instead of 56 percent. So Mr.

1 Laytham in his map sought to achieve a higher
2 level of compactness and following city and
3 county boundaries, but it had the result of
4 diminishing in this case African-American and
5 Hispanic voting percentages, or voting age
6 percentages.

7 And with plan number 48 by Mr. Graham
8 Stacy, who presented at the Tampa hearing --
9 incidentally, he was a young student, a
10 13-year-old student, who submitted this map to
11 the Committee. He loses a -- one of the two
12 majority-minority districts in the Jacksonville
13 area. His Gainesville district has a lesser
14 African-American percentage than the current
15 district. And in the Orlando area, he loses
16 both the African-American and the Hispanic
17 majority-minority district.

18 So those are two House alternatives from
19 the proposals that we have seen so far. There
20 are not a lot of maps that keep up the current
21 levels of minority representation that we have
22 in the current map.

23 SENATOR GAETZ: Questions as to the House
24 districts that were drawn from the testimony
25 and the public submissions? Comments?

1 If not, would you please move on to tab
2 four, members. And, Mr. Guthrie, you are
