**RESPONDENT’S NOTICE OF FILING OF A RECORDING AND COURT FALSE NARRATIVE**

COMES NOW, the Respondent, Eric Satin, and hereby files the above captioned notice and states as follows:

1. On March 14, 2020, I told my wife, Geri Satin, Esq., that I want a divorce. Mrs. Satin immediately threatened me stating that her father, Bruce Fischman, Esq., and her are rich and have connections in Miami and thus, they are going to destroy my life and make it so I never see my children.
2. The following morning on March 15, 2020, Mrs. Satin started berating me in front of our two minor children. During the entire incident, Mrs. Satin was holding our 1-year old son.
3. The audio from the incident on March 15, 2020 was recorded and it is available at the following link:

4. I have been advised by numerous attorneys that due to the facts surrounding this recording (all of which are not being disclosed in this filing), that it is a legal and admissible recording.
5. I have previously filed notices with this Court with police body camera recordings of two different incidents in which Mrs. Satin made false allegations (one of which also occurred in the presence of my children, and you can hear my son crying and my daughter screaming).
6. For some reason, my career and life has been destroyed and I have no access to my children.
7. Do you think it is because my Wife and her father have money and connections? Or do you believe the false narrative being pushed about mental health and/or substance abuse problems?
